The following list of organizations and publications does not reflect an endorsement of the organizations or publications by the Department of Health and Human Services or the Health Care Financing Administration, nor are these materials intended to encourage or discourage any particular action by an individual concerning advance directives.

The following list is a sampling of organizations and publications that have more information on the issue of advance directives. The organizations listed were those that contacted the Health Care Financing Administration regarding the Agency's implementation of the advance directives statute and that addressed the statutory requirement that providers disseminate information to adult individuals regarding their rights under state law to accept or refuse medical treatment and the right to formulate advance directives. The organizations provide a national and geographic sample of consumer, legal, and bioethics groups. The publications listed below were submitted unsolicited to the Health Care Financing Administration.

Organizations

The American Bar Association, Commission on Legal Problems of the Elderly, 1800 M Street, NW., Washington, DC 20036, 202/331-2297

American Health Decisions, 319 E. 46th Street, #9V, New York, NY 10017, 212/266-8900

Hastings Center, Institute of Society, Ethics, and the Life Sciences, 255 Elm Road, Briarcliff Manor, NY 10510, 914/478-0500

Pacific Center of Health Policy and Ethics, 444 Law Center, University of Southern California, Los Angeles, CA 90089, 213/740-2541

Publications

"The Patient Self-Determination Directory and Resource Guide," a directory of national and local organizations that have expertise in the area of autonomous health care decision making.

National Health Lawyers Association, Development Office, 1620 Eye Street, NW., Suite 900, Washington, DC 20006

"A Matter of Choice: Planning Ahead for Health Care Decisions," includes information about living wills, durable powers of attorney, and statutory regulations.

American Association of Retired Persons, Fulfillment Division, Publication Number D12776, 601 E. Street, NW., Washington, DC 20049

"The Complete Guide to Living Wills," a book that answers common questions about the content and function of living wills and other advance directives, and describes a step-by-step process for preparing an advance directive.

By Doron Weber, Bantam Books

"A Patient Guide to Advance Directives" and "A Physician Guide to Advance Directives," two brochures that explain living wills and durable powers of attorney and answer common questions about these and other advance directives.

Health Law Division, American Medical Association, 515 North State Street, 14th Floor, Chicago, IL 60610

"Making Health Decisions for Your Future: Advance Directives," a brochure that answers some commonly asked questions about advance directives.

Midwest Bioethics Center, 410 Archibald, Suite 106, Kansas City, MO 64111

"Advance Directives: Guaranteeing Your Health Care Rights," a 10-minute video with printed material on advance directives.

American Hospital Association Services, Inc., Catalogue Number 058-604, P.O. Box 92683, Chicago, IL 60675-2683

"Making Sense of Advance Directives," a book that presents a historical look at the patient's role in medical decision making, with special attention given to the problems of advance decision making.

By Nancy King, Kluwer Academic Publishers, 101 Philip Drive, Norwell, MA 02061

"Partners in Health Care," a 15-minute videotape dramatizing a "real life" situation in which family members come to grips with the need to discuss the issue of advance directives.

California Health Decisions, 505 S. Main Street, Suite 400, Orange, CA 92668

"Asking About Advance Directives: Scenarios for Healthcare Providers," a 20-minute videotape that presents three typical admissions scenarios and that stresses positive behaviors by medical staff in asking about whether a patient/resident has an advance directive.

The Catholic Health Association of the United States, 4455 Woodson Road, St. Louis, MO 63134-3797.

"Make Your Wishes Known," a series of videotapes and written materials—some of which have been translated into Spanish—about advance directives.

Life Management, P.O. Box 2170, Columbia, SC 29202

Note: This publication was not part of the bibliography that was included in the press package issued by HCFA's Administrator.

42 CFR Part 489

Health facilities, Medicare.

42 CFR Part 498

Administrative practice and procedure, Appeals, Medicare practitioners, providers and suppliers.

TITLE 42—PUBLIC HEALTH

CHAPTER IV—HEALTH CARE FINANCING ADMINISTRATION, DEPARTMENT OF HEALTH AND HUMAN SERVICES

Chapter IV of title 42 is amended as set forth below:

SUBCHAPTER B—MEDICARE PROGRAM

PART 417—HEALTH MAINTENANCE ORGANIZATIONS, COMPETITIVE MEDICAL PLANS, AND HEALTH CARE PREPAYMENT PLANS

A. Part 417 is amended as follows:

1. The authority citation for part 417 is revised to read as follows:

Authority: Secs. 1102, 1833(a)(1)(A), 1861(s)(2)(H), 1866(a), 1871, 1874, and 1876 of the Social Security Act (42 U.S.C. 1302, 13951(a)(1)(A), 1395x(s)(2)(H), 1395cc(a), 1395hh, 1395kk, and 1395mm); sec. 114(c) of Pub. L. 97-248 (42 U.S.C. 1395mm note); 31 U.S.C. 9701; and secs. 215 and 1301 through 1318 of the Public Health Service Act (42 U.S.C. 216 and 300e through 300e-17), unless otherwise noted.

Subpart K—Enrollment, Entitlement, and Disenrollment Under Medicare Contract

2. In § 417.436, the introductory text in paragraph (a) is republished and the paragraph is amended by revising paragraph (5), redesignating paragraph (6) as paragraph (7) and revising it, and adding a new paragraph (6), and adding a new paragraph (d) to read as follows:

§ 417.436 Membership rules for enrollees.

(a) *Maintaining rules.* An organization must maintain written membership rules that deal with, but need not be limited to—

* * * * *

(5) How and where to obtain services from or through the organization;

(6) Advance directives as specified in paragraph (d) of this section; and

(7) Any other matters that HCFA may prescribe.

* * * * *

(d) *Advance directives.* (1) An organization must maintain written policies and procedures concerning advance directives, as defined in § 489.100 of this chapter, with respect to all adult individuals receiving medical care by or through the organization and are required to:

(i) Provide written information to such individuals concerning—

(A) An individual's rights under State law (whether statutory or recognized by the courts of the State) to make decisions concerning such medical care, including the right to accept or refuse medical or surgical treatment and the right to formulate, at the individual's option, advance directives; and

(B) The written policies of the organization respecting the implementation of such rights, including a clear and precise statement of limitation if the organization cannot implement an advance directive as a matter of conscience;

(ii) Provide the information specified in paragraphs (d)(1)(i) of this section to each enrollee at the time of enrollment.

(iii) Document in the individual's medical record whether or not the individual has executed an advance directive;

(iv) Not condition the provision of care or otherwise discriminate against an individual based on whether or not the individual has executed an advance directive;

(v) Ensure compliance with requirements of State law (whether statutory or recognized by the courts of the State) regarding advance directives;

(vi) Provide for education of staff concerning its policies and procedures on advance directives; and

(vii) Provide for community education regarding advance directives either directly or in concert with other providers or organizations.

(2) The organization—

(i) Is not required to provide care that conflicts with an advance directive.

(ii) Is not required to implement an advance directive if, as a matter of conscience, the provider cannot

implement an advance directive and State law allows any health care provider or any agency of such provider to conscientiously object.

Subpart L—Medicare Contract Requirements

3. In § 417.472, paragraph (f) is redesignated as paragraph (g) and a new paragraph (f) is added to read as follows:

§ 417.472 Basic contract requirements.

* * * * *

(f) *Requirements for Advance Directives.* The organization must meet all the requirements for advance directives at § 417.436(d) of this part.

* * * * *

Subpart U—Health Care Prepayment Plans

3. In § 417.801(b), the introductory material is republished and the paragraph is amended by revising paragraph (4), redesignating paragraph (5) as paragraph (6) and revising it and adding a new paragraph (5) to read as follows:

§ 417.801 Agreements between HCFA and health care prepayment plans.

* * * * *

(b) *Terms.* The agreement must provide that the HCPP agrees to—

* * * * *

(4) Not impose any limitations on the acceptance of Medicare enrollees or beneficiaries for care and treatment that it does not impose on all other individuals;

(5) Meet the advance directives requirements specified in § 417.436(d) of this part; and

(6) Consider any additional requirements that HCFA finds necessary or desirable for efficient and effective program administration.

* * * * *

SUBCHAPTER C—MEDICAL ASSISTANCE PROGRAMS

PART 431—STATE ORGANIZATION AND GENERAL ADMINISTRATION

B. Part 431 is amended as follows:

1. The authority citation for part 431 continues to read as follows:

Authority: Sec. 1102 of the Social Security Act, (42 U.S.C. 1302).

Subpart A—Single State Agency

2. In subpart A, a new § 431.20 is added, and the table of contents is revised accordingly, to read as follows:

§ 431.20 Advance directives.

(a) *Basis and purpose.* This section, based on section 1902(a) (57) and (58) of the Act, prescribes State plan requirements for the development and distribution of a written description of State law concerning advance directives.

(b) A State Plan must provide that the State, acting through a State agency, association, or other private nonprofit entity, develop a written description of the State law (whether statutory or as recognized by the courts of the State) concerning advance directives, as defined in § 489.100 of this chapter, to be distributed by Medicaid providers and health maintenance organizations (as specified in section 1903(m)(1)(A) of the Act) in accordance with the requirements under part 489, subpart I of this chapter.

Subpart C—Administrative Requirements: Provider Relations

3. In subpart C, § 431.107 is amended by revising paragraph (a), republishing the introductory material in paragraph (b), revising paragraphs (b)(2) and (b)(3), and adding a new paragraph (b)(4) to read as follows:

§ 431.107 Required provider agreement.

(a) *Basis and purpose.* This section sets forth State plan requirements, based on sections 1902(a)(4), 1902(a)(27), 1902(a)(57), and 1902(a)(58) of the Act, that relate to the keeping of records and the furnishing of information by all providers of services (including individual practitioners and groups of practitioners).

(b) *Agreements.* A State plan must provide for an agreement between the Medicaid agency and each provider or organization furnishing services under the plan in which the provider or organization agrees to:

* * * * *

(2) On request, furnish to the Medicaid agency, the Secretary, or the State Medicaid fraud control unit (if such a unit has been approved by the Secretary under § 455.300 of this chapter), any information maintained under paragraph (b)(1) of this section and any information regarding payments claimed by the provider for furnishing services under the plan;

(3) Comply with the disclosure requirements specified in part 455, subpart B of this chapter; and

(4) Comply with the advance directives requirements for hospitals, nursing facilities, providers of home health care and personal care services, hospices, and HMOs specified in part 489, subpart I, and § 417.436(d) of this chapter.

PART 434—CONTRACTS

C. Part 434 is amended as follows:

1. The authority citation for part 434 continues to read as follows:

Authority: Sec. 1102 of the Social Security Act (42 U.S.C. 1302).

Subpart C—Contracts With HMOs and PHPs: Contract Requirements

2. In subpart C, a new § 434.28 is added to read as follows:

3. A new § 434.28 is added to read as follows:

§ 434.28 Advance directives.

A risk comprehensive contract with an HMO must provide for compliance with the requirements of subpart I of part 489 of this chapter relating to maintaining written policies and procedures respecting advance directives. This requirement includes provisions to inform and distribute written information to adult individuals concerning policies on advance directives, including a description of applicable State law.

SUBCHAPTER E—STANDARDS AND CERTIFICATION

PART 483—REQUIREMENTS FOR LONG TERM CARE FACILITIES

D. Part 483 is amended as follows:

1. The authority citation for part 483 is revised to read as follows:

Authority: Sec. 1102, 1819 (a)–(d), 1861 (j) and (1), 1863, 1866(a), 1871, 1902(a)(28), 1905 (a) and (c), and 1919(a)–(d) of the Social Security Act (U.S.C. 1302, 1395(i)(3) (a)–(d), 1395x (j) and (l), 1395z, 1395cc(a), 1395hh, 1396a(a)(28), 1396d (a) and (c) and 1396r (a)–(d)), unless otherwise noted.

Subpart B—Requirements for Long Term Care Facilities

2. In § 483.10, the introductory text is republished and paragraph (b) is amended by revising paragraph (4), redesignating existing paragraphs (8) through (10) as paragraphs (9) through (11) and revising them, and by adding a new paragraph (8) to read as follows:

§ 483.10 Resident rights.

The resident has a right to a dignified existence, self-determination, and communication with and access to persons and services inside and outside the facility. A facility must protect and promote the rights of each resident, including each of the following rights:

* * * * *

(b) *Notice of rights and services.*

* * * * *

(4) The resident has the right to refuse treatment, to refuse to participate in experimental research, and to formulate an advance directive as specified in paragraph (8) of this section; and

* * * * *

(8) The facility must comply with the requirements specified in subpart I of part 489 of this chapter relating to maintaining written policies and procedures regarding advance directives. These requirements include provisions to inform and provide written information to all adult residents concerning the right to accept or refuse medical or surgical treatment and, at the individual's option, formulate an advance directive. This includes a written description of the facility's policies to implement advance directives and applicable State law.

(9) The facility must inform each resident of the name, specialty, and way of contacting the physician responsible for his or her care.

(10) The facility must prominently display in the facility written information, and provide to residents and applicants for admission oral and written information about how to apply for and use Medicare and Medicaid benefits, and how to receive refunds for previous payments covered by such benefits.

(11) *Notification of changes.* (i) A facility must immediately inform the resident; consult with the resident's physician; and if known, notify the resident's legal respresentative or an interested family member when there is—

(A) An accident involving the resident which results in injury and has the potential for requiring physician intervention;

(B) A significant change in the resident's physical, mental, or psychosocial status (i.e., a deterioration in health, mental, or psychosocial status in either life-threatening conditions or clinical complications);

(C) A need to alter treatment significantly (i.e., a need to discontinue an existing form of treatment due to adverse consequences, or to commence a new form of treatment); or

(D) A decision to transfer or discharge the resident from the facility as specified in § 483.12(a).

(ii) The facility must also promptly notify the resident and, if known, the resident's legal representative or interested family member when there is—

(A) A change in room or roommate assignment as specified in § 483.15(e)(2); or

(B) A change in resident rights under Federal or State law or regulations as specified in paragraph (b)(1) of this section.

(iii) The facility must record and periodically update the address and phone number of the resident's legal representative or interested family member.

* * * * *

PART 484—CONDITIONS OF PARTICIPATION: HOME HEALTH AGENCIES

E. Part 484 is amended as follows:

1. The authority citation for Part 484 is revised to read as follows:

Authority: Sec. 1102, 1861, 1866(a), 1871 and 1891 of the Social Security Act (42 U.S.C. 1302, 1395x, 1395cc(a), 1395hh, and 1395bbb).

Subpart B—Administration

2. In § 484.10, the introductory text is republished and paragraph (c)(2) is revised to read as follows:

§ 484.10 Condition of participation: Patient rights.

The patient has the right to be informed of his or her rights. The HHA must protect and promote the exercise of these rights.

* * * * *

(c) *Standard: Right to be informed and to participate in planning care and treatment.*

* * * * *

(2) The patient has the right to participate in the planning of the care.

(i) The HHA must advise the patient in advance of the right to participate in planning the care or treatment and in planning changes in the care or treatment.

(ii) The HHA complies with the requirements of subpart I of part 489 of this chapter relating to maintaining written policies and procedures regarding advance directives. The HHA must inform and distribute written information to the patient, in advance, concerning its policies on advance directives, including a description of applicable State law.

* * * * *

PART 489—PROVIDER AGREEMENTS UNDER MEDICARE

F. Part 489 is amended as follows:

1. The title of part 489 is revised to read as follows:

PART 489—PROVIDER AND SUPPLIER AGREEMENTS

2. The authority citation for part 489 continues to read as follows:

Authority: Secs. 1102, 1861, 1864(m), 1866, and 1871 of the Social Security Act (42 U.S.C. 1302, 1395x, 1395aa(m), 1395cc, and 1395hh).

3. A new subpart I is added to read as follows:

Subpart I—Advance Directives

Sec.
489.100 Definition.
489.102 Requirements for providers.
489.104 Effective dates.

Subpart I—Advance Directives

§ 489.100 Definition.

For purposes of this part, "advance directive" means a written instruction, such as a living will or durable power of attorney for health care, recognized under State law (whether statutory or as recognized by the courts of the State), relating to the provision of health care when the individual is incapacitated.

§ 489.102 Requirements for providers.

(a) Hospitals, skilled nursing facilities, nursing facilities, home health agencies, providers of home health care (and for Medicaid purposes, providers of personal care services), and hospices must maintain written policies and procedures concerning advance directives with respect to all adult individuals receiving medical care by or through the provider and are required to:

(1) Provide written information to such individuals concerning—

(i) An individual's rights under State law (whether statutory or recognized by the courts of the State) to make decisions concerning such medical care, including the right to accept or refuse medical or surgical treatment and the right to formulate, at the individual's option, advance directives; and

(ii) The written policies of the provider or organization respecting the implementation of such rights, including a clear and precise statement of limitation if the provider cannot implement an advance directive on the basis of conscience;

(2) Document in the individual's medical record whether or not the individual has executed the implementation of such rights;

(3) Not condition the provision of care or otherwise discriminate against an individual based on whether or not the individual has executed an advance directive;

(4) Ensure compliance with requirements of State law (whether

statutory or recognized by the courts of the State) regarding advance directives;

(5) Provide for education of staff concerning its policies and procedures on advance directives; and

(6) Provide for community education regarding advance directives to include material required in paragraph (a)(1) of this section, either directly or in concert with other providers and organizations.

(b) The information specified in paragraph (a) of this section is furnished:

(1) In the case of a hospital, at the time of the individual's admission as an inpatient.

(2) In the case of a skilled nursing facility at the time of the individual's admission as a resident.

(3)(i) In the case of a home health agency, in advance of the individual coming under the care of the agency.

(ii) In the case of personal care services, in advance of the individual coming under the care of the personal care services provider.

(4) In the case of a hospice program, at the time of initial receipt of hospice care by the individual from the program.

(c) The providers listed in paragraph (a) of this section—

(1) Are not required to provide care that conflicts with an advance directive.

(2) Are not required to implement an advance directive if, as a matter of conscience, the provider cannot implement an advance directive, and State law allows any health care provider or any agency of such provider to conscientiously object.

(d) Prepaid or eligible organizations (as specified in sections 1833(a)(1)(A) and 1876(b) of the Act) must meet the requirements specified in § 417.436 of this chapter.

§ 489.104 Effective dates.

These provisions apply to services furnished on or after December 1, 1991 payments made under section 1833(a)(1)(A) of the Act on or after December 1, 1991, and contracts effective on or after December 1, 1991.

Subpart A—General Provisions

4.5 In subpart A, § 489.10 is amended by redesignating paragraph (b) as paragraph (c) and revising it and by adding a new paragraph (b) to read as follows:

§ 489.10 Basic requirements.

* * * * *

(b) In order for a hospital, SNF, HHA, or hospice to be accepted, it must also meet the advance directives requirements specified in Subpart I of this part.

(c) The State survey agency will ascertain whether the provider meets the conditions of participation or requirements (for SNFs) and make its recommendations to HCFA.

PART 498—APPEALS PROCEDURES FOR DETERMINATIONS THAT AFFECT PARTICIPATION IN THE MEDICARE PROGRAM

G. Part 498 is amended as follows:

1. The authority citation for part 498 is revised to read as follows:

Authority: Secs. 205(a), 1102, 1866(a), 1869(c), 1871 and 1872 of the Social Security Act (42 U.S.C. 405(a), 1302, 1395cc(a), 1395ff(c) 1395hh and 1395ii), unless otherwise noted.

2. In § 498.3(b), the introductory text is republished and a new paragraph (11) is added to read as follows:

§ 498.3 Scope and applicability.

* * * * *

(b) *Initial determinations by HCFA.* HCFA makes initial determinations with respect to the following matters:

* * * * *

(11) Whether a hospital, skilled nursing facility, home health agency, or hospice program meets or continues to meet the advance directives requirements specified in subpart I of part 489 of this chapter.

* * * * *

(Catalog of Federal Domestic Assistance Program No. 92.773—Medicare—Hospital Insurance Program; No. 93.774—Medicare—Supplementary Medical Insurance Program; No. 93.778—Medical Assistance Programs.)

Dated: August 31, 1991.

Gail R. Wilensky,

Administrator, Health Care Financing Administration.

Approved: December 20, 1991.

Part IV

Department of Housing and Urban Development

Office of Assistant Secretary

Fund Availability for Supportive Housing for Persons With Disabilities; Notice

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing-Federal Housing Commissioner

[Docket No. N-92-3386; FR-3150-N-01]

Fund Availability (NOFA) for Supportive Housing for Persons With Disabilities

AGENCY: Office of Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Notice of fund availability for FY 92.

SUMMARY: This NOFA announces HUD's funding for supportive housing for persons with disabilities. In the body of this document is information concerning the following: (a) The purpose of the NOFA and information regarding eligibility, submission requirements, available amounts, and selection criteria and (b) application processing, including how to apply and how selections will be made. A checklist of steps and exhibits involved in the application process will be included in the application package which can be obtained from the appropriate Field Office identified in appendix A.

DATE: The deadline date for receipt of applications in response to this NOFA is June 3, 1992.

ADDRESSES: Applications must be delivered to the HUD Field Office for your jurisdiction. A listing of HUD Field Offices, their addresses and telephone numbers (including TDD telephone numbers) are attached as appendix A to this NOFA. HUD will date and time stamp incoming applications to evidence timely receipt, and upon request, provide the applicant with an acknowledgement of receipt. Applications submitted by facsimile are not acceptable.

FOR FURTHER INFORMATION CONTACT: The HUD Field Office for your jurisdiction.

SUPPLEMENTARY INFORMATION:

Paperwork Reduction Act Statement

In accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. 3501–220), the information collection requirements have been assigned OMB Control Number 2502–0462.

I. Purpose and Substantive Description

A. Authority

Section 811 of the National Affordable Housing Act (the NAH Act) authorized a new supportive housing program for persons with disabilities and replaced assistance for persons with disabilities previously covered by section 202 of the Housing Act of 1959 (section 202 continues, as amended by section 801 of the NAH Act, to authorize supportive housing for the elderly). The purpose of section 811 is to enable persons with disabilities to live with dignity and independence within their communities by expanding the supply of supportive housing that is designed to accommodate the special needs of such persons and provides supportive services that address the individual health, mental health, and other needs of such persons. The Secretary is authorized to provide assistance to private, nonprofit organizations to expand the supply of supportive housing for persons with disabilities. The assistance will be provided as capital advances and contracts for project rental assistance in accordance with 24 CFR part 890. This assistance may be used to finance the acquisition with rehabilitation, acquisition without rehabilitation (group homes only), construction or rehabilitation of a structure, and the acquisition of property from the Resolution Trust Corporation (RTC) (group homes and independent living facilities), to be used as supportive housing for persons with disabilities in accordance with Part 890

For supportive housing for persons with disabilities, the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1992 (Pub. L. 102–139, approved October 28, 1991, (Fiscal Year 1992 Appropriations Act) provides $102,860,000 for capital advances for housing for persons with disabilities as authorized by section 811 and $100,159,000 for project rental assistance for supportive housing for persons with disabilities under section 811(b)(2) of the NAH Act. The capital advance allocation amounts set forth in Section B. below are based upon available project rental assistance.

Of particular interest is the Department's implementation of section 105 of the NAH Act which requires that all applications for this program include a certification of the responsible public official that the proposal is consistent with an approved Comprehensive Housing Affordability Strategy ("CHAS") for the jurisdiction in which the proposed project is to be located. See 24 CFR 890.265(c)(18).

Also of special interest is a statutory requirement for a certification by the appropriate State or local agency that the provision of services identified in the application is well designed to serve the needs of persons with disabilities. In order to fulfill this requirement, Sponsors must submit one copy of exhibit 20 (supportive services plan) of their application and the certification form (found in the application package) to the appropriate State or local agency identified by the Field Office in the application package in ample time for the Sponsors to include the certification with the submission of their application to the appropriate Field Office. Applications which do not contain a certification from the appropriate State or local agency that the provision of supportive services is well designed to serve the special needs of persons with disabilities will not be funded.

Another item of special interest is the recent agreement between HUD and the Farmers Home Administration (FmHA) which facilitates the coordination between the two agencies in administering their respective rental assistance programs. In accordance with this agreement, HUD is required to notify FmHA of applications for housing assistance it receives. The purpose of this notification is to give FmHA the opportunity to comment if it has concern about the demand for additional assisted housing and possible harm to existing projects in the same housing market area. HUD will consider the FmHA comments in its review and project selection process.

B. Allocation Amounts

In accordance with 24 CFR part 791, the Assistant Secretary will allocate the amounts available for capital advances for supportive housing for persons with disabilities. The Department reserves project rental assistance funds sufficient for 20-year contracts in support of the units selected for capital advances, consistent with current operating cost standards.

The allocation formula for section 811 funds consists of the following two data elements:

1. A measure of the number of persons identified as having a public transportation disability; and
2. A measure of the number of persons identified as having a work disability.

Based on this formula, the Department has allocated the available capital advance funds as shown on the following chart:

FISCAL YEAR 1992 ALLOCATION FOR SUPPORTIVE HOUSING FOR PERSONS WITH DISABILITIES

Region	Capital advance	Units
I	$5,589,900	79
II	12,931,900	172

FISCAL YEAR 1992 ALLOCATION FOR SUPPORTIVE HOUSING FOR PERSONS WITH DISABILITIES—Continued

Region	Capital advance	Units
III	10,439,900	177
IV	16,543,400	339
V	15,431,700	269
VI	7,097,000	153
VII	2,779,200	55
VIII	1,619,600	33
IX	14,599,600	218

C. Eligibility

The only eligible applicants under this program are private, nonprofit organizations. Neither a public body nor an instrumentality of a public body is eligible to participate in the program. A single Sponsor shall not request more units in a given Region than advertised for that Region in the Invitation.

D. Preliminary Evaluation and Selection Criteria

1. Preliminary Evaluation

Applications for section 811 Fund Reservations for housing for persons with disabilities that meet the following initial threshold requirements at preliminary evaluation will be eligible for technical processing:

(a) Application was received by HUD at the appropriate address by June 3, 1992 and was complete or at most, had technical deficiencies (see section IV.A. for the definition of a technical deficiency);

(b) Sponsor acceptably corrected deficiencies (including furnishing missing certifications) within 14 calendar days from the date of the notification of deficiency letter;

(c) Sponsor, proposed facilities and proposed occupants are eligible under section 811;

(d) Sponsor has experience in developing and/or operating housing, medical or other facilities and/or providing services to persons with disabilities, families or minority groups;

(e) There is reasonable expectation that the Sponsor can meet the Minimum Capital Investment requirement and start-up expenses and the Sponsor has passed a resolution committing these funds;

(f) Application contains evidence of control of a site or the appropriate identification of a site;

(g) The Sponsor is in compliance with civil rights laws and regulations as follows:

(1) There are no pending civil rights suits against the Sponsor instituted by the Department of Justice;

(2) There are no outstanding findings of noncompliance with civil rights statutes, Executive Orders or regulations as a result of formal administrative proceedings, or where the Secretary has issued a charge under the Fair Housing Act, unless the Sponsor is operating under a compliance agreement designed to correct the areas of non-compliance;

(3) There has not been a deferrral of the processing of applications from the Sponsor imposed by HUD under title VI of the Civil Rights Act of 1964, the Attorney General's Guidelines (28 CFR 50.3), the HUD title VI regulations (24 CFR 1.8) and procedures (HUD Handbook 8040.1), or under section 504 of the Rehabilitation Act of 1973 and the HUD section 504 regulations (24 CFR 8.57);

(h) Even without a site visit, it is reasonable to expect the proposed site meets site and neighborhood standards (24 CFR 889.230), including minority and disabled concentration considerations, and is not in a floodway or Coastal High Hazard Area;

(i) There is sufficient market demand for the number and type of units proposed based on preliminary review;

(j) Application included a supportive services plan meeting the requirements of § 890.265(c)(15); and

(k) Application was responsive to the Field Office Invitation.

2. Selection Criteria

Applications for section 811 fund reservations that successfully pass preliminary evaluation and technical processing will be rated using the following selection criteria:

(a) The ability of the Sponsor to develop and operate the proposed housing on a long-term basis (20 points);

(1) The scope, extent and quality of the Sponsor's experience in providing housing or supportive services to the proposed disabled population (10 points);

(2) The scope, extent and quality of the Sponsor's experience in providing housing and/or supportive services to minority persons or families and opportunities for minority and women-owned business enterprises participation (5 points); and

(3) The extent of local community support for the Sponsor and its activities, including experience in providing housing and/or supportive services in the area where the project is to be located, and Sponsor's demonstrated ability to enlist volunteers and local funds for its efforts (5 points);

(b) The Sponsor's financial capacity (25 points):

(1) The Sponsor's financial history and its current financial outlook (5 points);

(2) The Sponsor's ability and willingness to provide funds for start-up expenses and commit financial resources beyond the Minimum Capital Investment (10 points); and

(3) The scope of the proposed project in relationship to the financial capacity and commitment of the Sponsor (10 points);

[Note: Consideration must also be given to the sponsor's financial commitment to any projects in the pipeline and other applications submitted in response to invitations under this NOFA, the NOFA for supportive housing for the elderly, (published elsewhere in today's **Federal Register**) or other invitations under part 889 or part 890.]

(c) The need for supportive housing for persons with disabilities in the area to be served (10 points).

(d) The design of the project (10 points):

(1) The extent to which the proposed design of the housing will meet the special needs of persons with disabilities (4 points);

(2) The extent to which the proposed design of the housing will accommodate the provision of supportive services (that are expected to be needed, either intially or over the useful life of the housing, by the category or categories of persons with disabilities the housing is intended to serve) (3 points); and

(3) The extent to which the proposed size and unit mix (if independent living facility) of the housing will enable the Sponsor to manage and operate the housing efficiently and ensure that provision of supportive services will be accomplished in an economical fashion (3 points);

(e) The provision of supportive services (20 points):

(1) The extent to which the Sponsor has demonstrated that necessary supportive services will be provided on a consistent, long-term basis (10 points);

(2) The appropriateness of the supportive services to the needs of the proposed disabled population (5 points); and

(3) The quality of the service implementation plan (5 points);

(f) The extent to which the Sponsor has control of the site for the proposed housing (15 points):

(1) Applications with evidence of site control:

(i) The proximity or accessibility of the site to shopping, medical facilities, transportation, churches, recreational facilities, job opportunities and other

necessary services to the intended occupants (4 points);

(ii) Suitability of the site from the standpoint of promoting a greater choice of housing opportunities for minority and disabled persons/families (4 points);

(iii) Freedom of the site from adverse environmental conditions and overconcentration of persons with disabilities (4 points); and

(iv) Reasonableness of the site cost per unit and suitability of the property for the intended use and adequacy of utilities and streets (3 points); or

(2) Applications with identification of site:

(i) The proximity or accessibility of the site to shopping, medical facilities, transportation, churches, recreational facilities and other necessary services to the intended occupants as well as freedom of overconcentration of persons with disabilities (5 points);

(ii) Suitability of the site from the standpoint of promoting a greater choice of housing opportunities for minority disabled persons/families (4 points); and

(iii) The likelihood that site control will be obtained within six months of fund reservation, if approved (6 points).

II. Application Process

All applications for section 811 Fund Reservations submitted by eligible Sponsors must be filed with the appropriate HUD Field Office and must contain all exhibits required by this NOFA.

Immediately upon publication of this NOFA, Field Offices shall notify minority organizations within their jurisdiction involved in housing and community development and groups with special interest in housing for persons with disabilities.

Within three weeks of the date of this Notice, HUD Field Offices will publish a one-time Invitation for applications as required by § 890.205(b) of the Regulations, in newspapers of general circulation, and in any minority newspapers serving the Field Office jurisdiction. Field Offices will accept applications after publication of the Invitation. No application will be accepted after the closing time stated in the Invitation and Application Package on June 3, 1992, unless that date and time is extended by a Notice published in the **Federal Register**. Applications received after that date and time will not be accepted, even if postmarked by the deadline date. Applications submitted by facsimile are not acceptable.

Organizations interested in applying for a section 811 Fund Reservation should provide the appropriate Field Office with their names, addresses and telephone numbers, and advise the Field Office whether they wish to attend the workshop described below. HUD encourages minority organizations to participate in this program as Sponsors. Field Offices, at the date and time specified in the Invitations, will conduct workshops to explain the Section 811 Program.

HUD strongly recommends that prospective applicants attend the local Field Office workshop. More detailed information covering the time and place of the particular workshops will be set out in the Field Office Invitation. Interested persons with disabilities should contact the Field Office to assure that any necessary arrangements can be made for them to enable their attendance and participation in the workshop. While strongly urged to do so, if Sponsors cannot attend a workshop, Application Packages and handbooks can also be obtained from the Field Offices. Contact the appropriate Field Office with any questions regarding the submission of applications.

At the workshops, Application Packages will be distributed, application procedures and requirements (including the Department's equal opportunity, environmental, design and cost requirements and required exhibits) will be explained. Also, concerns such as local market conditions, building codes, historic preservation, floodplain management, displacement and relocation, zoning, housing costs, and states' positions on funding supportive services to group home residents will be addressed.

III. Application Submission Requirements

A. Application

Each application shall include all of the information, materials, forms, and exhibits listed in paragraph 2 of this section and must be indexed and tabbed. The Field Office will base its determination of the eligibility of the Sponsor for a reservation of section 811 capital advance funds on the information provided in the application.

In preparing applications, applicants will be able to utilize information and exhibits previously prepared for prior applications under section 811, section 202, or other funding programs. Examples of exhibits that may be readily adapted or amended to decrease the burden of application preparation include, among others, those on previous participation in the section 811 or section 202 programs; applicant experience in housing and services; financial capacity; supportive services plan; community ties, and experience serving minorities.

1. Application Contents

(a) Each applicant (Sponsor) shall include on a Form HUD–92013, Application for Multifamily Housing Project:

(1) The name, address, and telephone number of the Sponsor(s);

(2) The name, title, address, and telepone number of the officer or director of the Sponsor's Board of Directors to whom communications should be addressed;

(3) The following specific information regarding the project:

(i) Number of units requested by bedroom type (efficiency (415 sq. ft.), one-bedroom (540 sq. ft.), two-bedroom (800 sq. ft.), three-bedroom (1050 sq. ft.), four-bedroom (1150 sq. ft.) or if five or more bedrooms are provided, increase unit sizes by up to 100 sq. ft. for each additional bedroom) and the number of residents (if independent living facility) or the number of bedrooms and number of residents to be housed in each group home;

(ii) Dollar amount of the capital advance requested;

(iii) Estimated land cost;

(iv) Number and type of structures;

(v) Number of stories planned and whether an elevator will be included; and

(vi) Development method (new construction, rehabilitation, acquisition with rehabilitation, acquisition without rehabilitation (group homes only), or acquisition of property from the RTC (group homes and independent living facilities)).

(b) Additional exhibits must include:

(1) A Housing Consultant's Resume, Contract (Form HUD 92531A–EH), and an Identity of Interest and Disclosure Certification (if the Sponsor has employed a project consultant).

(2) Evidence of each Sponsor's legal status as a private nonprofit organization, including the following:

(i) Articles of incorporation, constitution, or other organizational documents;

(ii) By-laws;

(iii) A typed incumbency certificate, listing all officers and directors, title, beginning date of each person's term and when that term expires. It must be certified by an officer of the Sponsor that it constitutes all duly qualified and sitting officers and directors as of the date the application is filed with HUD;

(iv) IRS tax exemption ruling (this must be submitted by all Sponsors, including churches). A nonprofit organization organized in the Commonwealth of Puerto Rico and exempt from income taxation under Puerto Rico law, has never been liable for payment of Federal income taxes, and does not pay patronage dividends may be exempt from the requirement set out in the previous sentence if it is not eligible for tax exemption; and

(v) Resolution of the board, duly certified by an officer, that no officer or director of the Sponsor or Owner has or will have any financial interest in any contract with the Owner or in any firm or corporation which has or will have a contract with the Owner.

(3) Satisfactory evidence that the Sponsor:

(i) Has the necessary legal authority to sponsor the project and to assist the Owner to finance, acquire, construct, or rehabilitate and maintain the project; and

(ii) Will form an Owner (as defined in § 890.105) after the issuance of the fund reservation, will cause the Owner to file a request for determination of eligibility and a request for a capital advance under § 890.300, and will provide sufficient resources to the Owner to ensure the development and long-term operation of the project.

(4) A description of the Sponsor's ties to the community, including the minority community, and any statements of suppport for the project by members of the community in which the project is to be located and state and local organizations familiar with the needs of individuals with disabilities proposed to be housed.

(5) Evidence of previous participation in HUD programs, by the Sponsor, its officers or directors, on Form HUD–2530. If none, forms must be submitted indicating "No previous experience."

(6) A description of any financial default, modification of terms and conditions of financing, or legal action taken or pending against the Sponsor or its officers, directors, or trustees in their corporate capacity.

(7) A description of the following:

(i) Any other rental housing projects, medical and/or other facilities sponsored, owned or operated by the Sponsor, including a description of experience in providing housing, medical and/or other facilities to persons with disabilities and/or to families; and

(ii) The Sponsor's experience in providing housing, medical or other facilities and/or services to minority persons or families and in contracting with minority and women-owned business enterprises.

(8) A description of the Sponsor's past or current involvement in any programs other than housing (including its provision of services) that demonstrates the Sponsor's management capabilities and experience, including a description of the Sponsor's experience in serving disabled persons and/or families.

(9) A certified Board Resolution, acknowledging responsibilities of sponsorship, long-term support of the project(s), willingness of Sponsor to assist the Owner to develop, own, manage and ensure the provision of appropriate services in connnection with the proposed project, and that it reflects the will of its membership.

(10) A list of the applications, if any, the Sponsor has submitted or is planning to submit to any other Field Office in response to the current Invitations under this NOFA, the NOFA for Supportive Housing for the Elderly (published elsewhere in today's **Federal Register**) or other Invitations under part 889 or part 890. Indicate by Field Office, the proposed location by city and state, the number of units requested, and the financial commitments related to each application.

(11) An estimate of start-up expenses for the project and the source of funds to meet these expenses.

(12) Evidence, in the form of a certified Board Resolution, of the Sponsor's willingness to fund the Minimum Capital Investment, estimated start-up expenses, and any associated development or operating costs related to items not covered by the capital advance under § 890.240 and to ensure the development and long-term operation of the project. Also, as evidence of the Sponsor's financial ability to cover these costs, include:

(i) A brief narrative description of financial history;

(ii) Copies of balance sheets and statements of income expenses for each of the past three years that the Sponsor has operated. The financial statement, at a minimum, must include the information contained in Form HUD–92417, and a certification pursuant to the criminal warning provided in U.S. Criminal Code, section 1001, title 18 U.S.C.

(iii) Form HUD–2013 Supplement, Application for Project Mortgage Insurance, listing current bank and trade references; and

(iv) A list of all FY 1991 and prior year projects to which the Sponsor(s) is a party, identified by project number, Field Office, funding year and month and year of initial closing, current status; (if finally closed; indicate month and year); and financial requirements for closing.

[**Note:** If funds to meet the financial requirements of the applications being submitted are being committed by an organization other than the sponsor, evidence of that organization's financial capacity must be included in this exhibit, in addition to the sponsor's financial statements.]

(13) A narrative description of the proposed housing including:

(i) Evidence of control of an approvable site, or identification of a site for which the Sponsor provides reasonable assurances that it will obtain control within 6 months from the date of fund reservation (if Sponsor is approved for funding);

(A) If the Sponsor has the control of the site, it must submit the following information:

(1) Evidence that the Sponsor has entered into a legally binding option agreement to purchase or lease the proposed site; or has a copy of the contract of sale for the site, a deed, long-term leasehold or other evidence of legal ownership of the site (including properties to be acquired from the RTC). The option agreement period should extend through the end of the current fiscal year and contain a renewal provision to guarantee site availability through the subsequent stage of processing. The Sponsor must also identify any restrictive covenants, including reverter clauses. In the case of a site to be acquired from a public body, evidence that the public body possesses clear title to the site, and had entered into a legally binding agreement to lease or convey the site to the Sponsor after it receives and accepts a notification of section 811 Fund Reservation and identification of any restrictive covenants or reverter clauses. However, in localities where HUD determines that the time constraints of the funding round will not permit all of the required official actions (*e.g.*, approval of Community Planning Boards) which are necessary to convey publicly-owned sites, a letter in the application from the Mayor or Director of the appropriate local agency indicating their approval of conveyance of the site contingent upon the necessary approval action is acceptable and may be approved by the Field Office if it has satisfactory experience with timely conveyance of sites from that public body. In such cases, documentation shall also include a copy of the public body's evidence of ownership and whether there are any restrictive covenants or reverter clauses.

[**Note:** A proposed project site may not be acquired or optioned from a general contractor (or its affiliate) which will construct the section 811 project or from any other development team member.]

(2) A map showing the location of the site and the racial composition of the neighborhood, with any area of racial concentration delineated;

(3) Photographs of the site;

(4) Evidence that the project as proposed is permissible under applicable zoning ordinances or regulations, or a statement of the proposed action required to make the proposed project permissible and the basis for the belief that the proposed action will be completed successfully before the receipt of the conditional commitment application (*e.g.*, a summary of the results of any recent requests for rezoning on land in similar zoning classifications and the time required for such rezoning, preliminary indications of acceptability from zoning bodies, *etc.*);

(5) A statement that (a) identifies all persons (families, individuals, businesses and nonprofit organizations (identified by race/minority group, and status as owners or tenants) occupying the property on the date of submission of the application for fund reservation (or date of initial site control, if later); (b) indicates the estimated cost of relocation payments and other services, and (c) identifies the staff organization that will carry out the relocation activities.

[Note: If any of the relocation costs will be funded from sources other than the section 811 capital advance, the sponsor must provide evidence of a firm commitment of these funds. Due to potentially high relocation costs, sponsors are encouraged to utilize sites which involve minimal or no relocation costs.]

(6) In the case of a structure built or rehabilitated prior to 1978 that is proposed to be developed as an independent living facility, a statement from the Sponsor indicating that it has inspected the structure for defective paint surfaces.

(7) An indication as to whether the Sponsor is willing to seek a different site if the preferred site is unapprovable, and if so, a reasonable assurance that site control will be obtained within 6 months of fund reservation.

(B) If the Sponsor has identifed a site, but does not have it under control, it must submit the following information:

(1) A description of the location of the site, including its address, neighborhood/community characteristics (to include racial and ethnic data) and amenities, and adjacent housing and/or facilities;

(2) A description of the activities undertaken to identify the site as well as what actions must be taken to obtain control of the site, if approved for funding.

(3) An indication as to whether the site is properly zoned. If it is not, an indication of the actions/time necessary for proper zoning;

(4) A status of the sale of the site; and

(5) An indication as to whether the site would involve relocation.

(ii) If and how the project will promote energy efficiency and, if applicable, innovative construction or rehabilitation methods or technologies to be used that will promote efficient construction.

(iii) An identification of all community spaces, amenities or features planned for the housing. A description of how the spaces will be utilized also must be included. If these community spaces, amenities, or features would not comply with the design and cost standards of § 890.220, the Sponsor must demonstrate its ability and willingness to contribute both the incremental development cost and continuing operating cost associated with the community spaces, amenities or features.

(iv) A written description of the design of the proposed housing including any special design features and community space necessary to accommodate the physical needs of the proposed residents and the provision of supportive services. Included with the written description must also be a schematic drawing or each floor of the project noting the location of any special design features as well as a typical bedroom in a group home or a typical unit in an independent living facility with approximate dimensions of each, and community space for the provision of supportive services.

[Note: Sponsors submitting applications with evidence of site control for acquisition and/or rehabilitation projects may wish to submit a schematic drawing of an alternate design that may be replicated elsewhere if they want to be considered for points for the design of the project in the event the proposed site is rejected.]

(v) For group homes to be licensed as intermediate care facilities (in which funding for the intermediate care is provided under title XIX of the Social Security Act) that serve persons with developmental disabilities, the following must be submitted:

(a) Evidence demonstrating that the proposed project will primarily provide housing rather than medical facilities, is or will be licensed by appropriate State agencies;

(b) Written evidence that the State Medicaid Office recognizes the need for a tenant contribution to rent and has agreed to pay the cost of the tenant contribution in the Medicaid payment to the Sponsor;

(c) Description of the medical training of the staff of the proposed facility and any nursing services that will be required by the residents on-site;

(d) Description of the services that will be funded by Medicaid for residents of the proposed project, including their nature, frequency and where the services are to be provided;

(e) Description of any special design features proposed for the group home that are not common to other section 811 group homes for the proposed population and the Sponsor's rationale for including them; and,

(f) Statement certifying that the Individual Program Plan for each resident will include participation in an out-of-the-home activity program for at least six hours each weekday.

(14) A narrative description of the anticipated occupancy. The Sponsor must limit occupancy of the proposed project to one or more of the following categories: Persons with chronic mental illness, developmental disabilities, or physical disabilities. The Sponsor may, with the approval of the Secretary, further restrict occupancy of a project to persons with disabilities within the three categories described above who have similar disabilities and who require a similar set of supportive services unique to their disabilities. The Sponsor must demonstrate a capacity to serve the proposed occupancy group(s).

(15) A supportive services plan that includes:

(i) A detailed description of whether the housing is intended to serve persons with physical disabilities, developmental disabilities, or chronic mental illness. Include how and from where persons will be referred and admitted to the project.

(ii) A detailed description of the needs of persons with disabilities that the housing is expected to serve.

(iii) A detailed description of the supportive services proposed to be provided to the anticipated occupancy, including:

(A) The name(s) of the agency(s) which will be responsible for providing supportive services and evidence of the service provider's capability and experience in providing such supportive services;

(B) The manner in which such services will be provided (i.e., how, when and how often, where (on/off-site), including assurances that the proposed residents will receive supportive services based on their individual needs.

(C) The staffing plan, including a description of the qualifications of residential staff, if any, and other staff necessary to provide the proposed services.

(iv) Identification of the extent of state and local funds available to assist in the provision of supportive services.

(v) A letter of intent from each agency that will provide the supportive services (if other than the Sponsor), indicating the source and extent of commitment to provide funding for the supportive services.

(vi) If any state or local government funds will be provided, a description of the state/local agency's philosophy/policy concerning residential facilities for the population to be served as well as a demonstration by the Sponsor that the application is consistent with state or local plans and policies governing the development and operation of facilities to serve individuals of the proposed occupancy category.

(16) Evidence demonstrating that there is effective demand for the proposed housing in the area to be served by the project and demonstrating that this demand is likely to continue throughout the life of the project.

(17) Signed certifications of the Sponsor(s)' intent to comply with title VI of the Civil Rights Act of 1964, the Fair Housing Act, section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act of 1975, Executive Orders 11063 and 11246, section 3 of the Housing and Urban Development Act of 1968, and the affirmative fair housing marketing requirements at 24 CFR part 200, subpart M.

(18) A certification from the appropriate state or local agency that it has reviewed the supportive services plan in the Sponsor's application and that the provision of services identified in the application is well designed to serve the special needs of persons with disabilities to be served by the proposed project(s).

(19) A certification by the Sponsor(s) that the appropriate State agency (single point of contact) under Executive Order 12372, Intergovernmental Review, has been contacted to determine if the Section 811 Program is covered under the State review process and, if applicable, the date the application was submitted to the State.

(20) A certification on SF–424, Application for Federal Assistance, that the Sponsor(s) is not delinquent on the repayment of any Federal debt.

(21) A certification by the Sponsor(s) that the section 811 funds will not be used to lobby the Executive or Legislative branches of the Federal government.

(22) A certification that the Sponsor(s) will comply with the requirements of the Drug-Free Workplace Act.

(23) A certification that the Sponsor will comply with the requirements of the Lead-Based Point Poisoning Prevention Act (42 U.S.C. 4821–4846) and implementing regulations at 24 CFR part 35 (except as superseded in § 890.260(f)(2).

(24) A certification that the project will comply with HUD's design and cost standards, the Uniform Federal Accessibility Standards and HUD's implementing regulations at 24 CFR part 40, section 504 of the Rehabilitation Act of 1973 and HUD's implementing regulations at 24 CFR part 8, and for new construction multifamily housing projects (independent living facilities), the design and construction requirements of the Fair Housing Act and HUD's implementing regulations at 24 CFR part 100.

(25) A certification by the Sponsor(s) that it will comply (or has complied) with the acquisition and relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (URA), and implementing regulations at 49 CFR part 24, and 24 CFR 890.200(e).

(26) A completed Form 2880, Applicant Disclosures.

(27) A certification of consistency with an approved housing strategy (CHAS) from the lowest level of government having a full CHAS covering the jurisdiction in which the project is to be located. Should that full CHAS fail to provide a basis for consistency, either a suitable amendment can be prepared or, in the case of a proposed project in a local jurisdiction not having an existing CHAS, that local jurisdiction may prepare an abbreviated strategy appropriate to the project. Such an abbreviated strategy must be submitted prior to or at the time of submission of the section 811 application. See Notice on preparation of an abbreviated strategy published on December 16, 1991 (56 FR 65271).

[Note: To assist applicants in meeting the certification requirement where a CHAS or abbreviated housing strategy has not yet been approved, HUD will accept section 811 applications that are accompanied by a certification that the proposed activity is consistent with the CHAS or abbreviated strategy being reviewed.]

IV. Corrections to Deficient Applications

A. Preliminary Evaluation

During preliminary evaluation, Sponsors will be provided 14 calendar days from the date of HUD's written notification to cure technical deficiencies in their applications. However, it is not additional time to amend the application to overcome any defects in the original submission. Technical deficiencies are inadvertently omitted documents which have been executed prior to the application deadline date (such as certifications or articles of incorporation) or clarifications of previously submitted material and are not of such a nature as to improve the competitive position of the application.

Technical deficiencies do not include items which would be considered substantive defects in the original submission. For example, if a Board resolution is missing from the original submission, but it is submitted during the 14-day period, it must have been executed prior to the deadline date for receipt of applications. If it is not submitted during the 14-day period or it is submitted during this time but executed after the deadline date for receipt of applications, it is a substantive defect and the application will be rejected. Sponsors of applications that are missing two or more complete exhibits will not be afforded an opportunity to submit the missing exhibits and will receive written notification that their applications have been rejected. However, exhibits which are certifications are not counted as missing exhibits in this determination.

Applicants whose applications are found unacceptable during the preliminary evaluation process due to substantive defects and applications which fail to adequately respond to HUD's deficiency letter within the 14-day period, will be notified that their applications are not eligible for further processing, and are rejected.

B. Technical Processing

Applications which are found acceptable during the preliminary evaluation process, or an acceptable response to HUD's deficiency letter was received within the 14-day period, will undergo a more thorough analysis. As part of this analysis, HUD will conduct its environmental review in accordance with 24 CFR part 50 for applications that submitted satisfactory evidence of site control. Examples of reasons for technical processing rejection include a lack of commitment to fund the necessary supportive services or, based on a review of the detailed financial information, the Sponsor(s)' lack of sufficient financial resources. The Secretary will not reject an application based on technical processing without giving notice of that rejection and the basis therefor to the applicant and affording the applicant an opportunity to respond. An applicant will be afforded

10 calendar days from the date of HUD's written notice to appeal a technical rejection. The Field Office shall make a determination on an appeal prior to making its selection recommendations.

Upon completion of technical processing, all acceptable applications will be rated according to the selection criteria in § 890.300(c) (also above in I.D.2.). Applications which have a total score of 50 points or more will be eligible for selection and will be placed in rank order.

V. Additional Information

A. Project Size Limits

The following project size limits are applicable to supportive housing for persons with disabilities:

1. Group homes may house no more than eight (8) persons per home. On a case-by-case basis, however, HUD may approve a group home of up to 15 persons with disabilities if the Sponsor can demonstrate the following:

(a) The increased number of people is necessary for the economic feasibility of the project;

(b) A project of the size proposed is compatible with other residential development and the population density of the area in which the project is to be located;

(c) A project of the size proposed can be successfully integrated into the community; and

(d) A project of the size proposed is marketable in the community.

2. Independent living facilities may house no more than 24 persons with disabilities, except for projects for persons with chronic mental illness which may not exceed 20 such persons. On a case-by-case basis, HUD may approve an exception to the 24-person limit based upon the same criteria set forth in (1) above.

B. Sites

The National Affordable Housing Act requires Sponsors submitting applications for section 811 fund reservations to provide either (a) evidence of site control, or (b) reasonable assurances that it will have control of a site within 6 months of notification of fund reservation. Accordingly, if a Sponsor has control of a site at the time it submits its application, it must include evidence of such as described in § 890.265(c)(13)(i)(A). If it does not have site control, it must provide the information required in § 890.265(c)(13)(i)(B) as a reasonable assurance that site control will be obtained within 6 months of fund reservation notification. Sponsors that do not provide satisfactory evidence of site control or the proper identification of a site will be notified that their applications are rejected.

Sponsors may select a site different from the one(s) submitted in their original applications. Selection of a different site will require HUD performance of an environmental review on the new site, which could result in rejection of that site. However, if a Sponsor does not have site control for any reason 12 months after notification of fund reservation, the assistance will be recaptured and reallocated.

Sponsors submitting satisfactory evidence of an approvable site (*i.e.*, site control) will compete against each other in Category A. Sponsors submitting proper identification of a site will compete against each other in Category B. HUD first shall select applications in the descending order of funding priority from Category A that most closely approximates the capital advance authority provided to the allocation area. If capital advance authority remains after selecting all approvable applications from Category A, HUD shall then select applications in the descending order of funding priority from Category B that most closely approximates the capital advance authority remaining in the allocation area.

Applications containing evidence of site control where either the evidence or the site is not approvable will *not* be rejected provided the application indicates the Sponsor's willingness to select another site and an assurance that site control will be obtained within six months of fund reservation notification. Such applications will not be eligible to receive any of the possible 15 points for the extent to which the Sponsor has control of the site for the proposed housing and will compete for selection in Category B.

VI. Other Matters

A. Environmental Impact

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations that implement section 101(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. 4332. The Finding of No Significant Impact is available for public inspection during business hours in the Office of the Rules Docket Clerk, Office of General Counsel, room 10276, Department of Housing and Urban Development, 451 Seventh Street, Southwest, Washington, DC 20410.

B. Federalism Executive Order

The General Counsel, as the Designated Official under section 6(a) of Executive Order No. 12612, Federalism, has determined that this NOFA does not have substantial direct effects on States or their political subdivisions, or on the relationship between the Federal government and the States, or on the distribution of power and responsibilities among the various levels of government. This NOFA merely notifies the public of the availability of capital advances for supportive housing for persons with disabilities.

C. Family Executive Order

The General Counsel, as the Designated Official under Executive Order No. 12606, The Family, has determined that this NOFA does not significantly affect family formation, maintenance, or general well-being, and, thus, is not subject to review under the order.

D. HUD Reform Act

HUD's regulation implementing section 103 of the Department of Housing and Urban Development Reform Act of 1989 was published May 13, 1991 (56 FR 22088) and became effective on June 12, 1991. That regulation, codified as 24 CFR part 4, applies to the funding competition announced today. The requirements of the rule continue to apply until the announcement of the selection of successful applicants.

HUD employees involved in the review of applications and in the making of funding decisions are restrained by part 4 from providing advance information to any person (other than an authorized employee of HUD) concerning funding decisions, or from otherwise giving any applicant an unfair competitive advantage. Persons who apply for assistance in this competition should confine their inquiries to the subject areas permitted under 24 CFR part 4.

Applicants who have questions should contact the HUD Office of Ethics, (202) 708–3815. (This is not a toll-free number.) The Office of Ethics can provide information of a general nature to HUD employees, as well. However, a HUD employee who has specific program questions, such as whether particular subject matter can be discussed with persons outside the Department, should contact his or her Regional or Field Office Counsel, or Headquarters counsel for the program to which the question pertains.

E. Applicant/Recipient Disclosures; Subsidy-Layering: HUD Reform Act

Documentation and Public Access

HUD will ensure that documentation and other information regarding each application submitted pursuant to this NOFA are sufficient to indicate the basis upon which assistance was provided or denied. This material, including any letters of support, will be made available for public inspection for a five-year period beginning not less than 30 days after the award of the assistance. Material will be made available in accordance with the Freedom of Information Act (5 U.S.C. 552) and HUD's Implementing Regulations at 24 CFR part 15. In addition, HUD will include the recipients of assistance pursuant to this NOFA in its quarterly **Federal Register** notice of all recipients of HUD assistance awarded on a competitive basis. (See 24 CFR 12.14(a) and 12.16(b), and the notice published in the **Federal Register** on January 16, 1992 (57 FR 1942), for further information on these requirements.)

Disclosures

HUD will make available to the public for five years all applicant disclosure reports (HUD Form 2880) submitted in connection with this NOFA. Update reports (also Form 2880) will be made available along with the applicant disclosure reports, but in no case for a period generally less than three years. All reports—both applicant disclosures and updates—will be made available in accordance with the Freedom of Information Act (5 U.S.C. 552) and HUD's implementing regulations at 24 CFR part 15. (See 24 CFR subpart C, and the notice published in the **Federal Register** on January 16, 1992 (57 FR 1942), for further information on these disclosure requirements.)

Subsidy-Layering Determinations

24 CFR 12.52 requires HUD to certify that the amount of HUD assistance is not more than is necessary to make the assisted activity feasible after taking account of other government assistance. HUD will make the decision with respect to each certification available to the public free of charge, for a three-year period. (See the notice published in the **Federal Register** on January 16, 1992 (57 FR 1942) for further information on requesting these decisions.) Additional information about applications, HUD certifications, and assistance adjustments, both before assistance is provided or subsequently, are to be made under the Freedom of Information Act (24 CFR part 15).

F. Lobbying

Section 13 of the Department of Housing and Urban Development Act contains two provisions dealing with efforts to influence HUD's decisions with respect to financial assistance. The first imposes disclosure requirements on those who are typically involved in these efforts—those who pay others to influence the award of assistance or the taking of a management action by the Department *and* those who are paid to provide the influence. The second restricts the payment of fees to those who are paid to influence the award of HUD assistance, if the fees are tied to the number of housing units received or are based on the amount of assistance received, or if they are contingent upon the receipt of assistance.

Section 13 was implemented by final rule published in the **Federal Register** on May 17, 1991 (56 FR 22912). If readers are involved in any efforts to influence the Department in these ways, they are urged to read the final rule, particularly the examples contained in appendix A of the rule.

Any questions regarding the rule should be directed to Arnold J. Haiman, Director, Office of Ethics, room 2158, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410. Telephone: (202) 708–3815; TDD: (202) 708–1112. (These are not toll-free numbers.) Forms necessary for compliance with the rule may be obtained from the local HUD office.

Catalog of Federal Domestic Assistance Program

The Catalog of Federal Domestic Assistance Program title and number is 14.181, Supportive Housing for Persons with Disabilities.

Authority: Section 811, National Affordable Housing Act, Sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

Dated: February 21, 1992.

Arthur J. Hill,

Assistant Secretary for Housing, Federal Housing Commissioner.

Appendix A—HUD Field Offices

Region I

Boston, Massachusetts Regional Office

(Jurisdiction: Massachusetts)

Harold Thompson (ACTING), Regional Administrator Regional Housing Commissioner, HUD—Boston Regional Offices, Thomas P. O'Neill, Jr. Federal Building, 10 Causeway Street, Room 375, Boston, Massachusetts 02222–1092, (617) 565–5234, TDD (617) 565–5453

Hartford, Connecticut Office

Department of Housing and Urban Development

Office of Assistant Secretary for Housing—Federal Housing Commissioner

Supportive Housing for the Elderly; Notice of Fund Availability for FY 92

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing—Federal Housing Commissioner

[Docket No. N-92-3385; FR 3149-N-01]

Fund Availability (NOFA) for Supportive Housing for the Elderly

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Notice of fund availability for FY 92.

SUMMARY: This NOFA announces HUD's funding for supportive housing for the elderly. In the body of this document is information concerning the following: (a) The purpose of the NOFA and information regarding eligibility, submission requirements, available amounts, and selection criteria and (b) application processing, including how to apply and how selections will be made. A checklist of steps and exhibits involved in the application process will be included in the application package which can be obtained from the appropriate Field Office identified in appendix A.

DATES: The deadline date for receipt of applications in response to this NOFA is June 3, 1992.

ADDRESSES: Applications must be delivered to the HUD Field Office for your jurisdiction. A listing of HUD Field Offices, their addresses and telephone numbers (including TDD telephone numbers) are attached as appendix A to this NOFA. HUD will date and time stamp incoming applications to evidence timely receipt, and upon request, provide the applicant with an acknowledgement of receipt. Applications submitted by facsimile are not acceptable.

FOR FURTHER INFORMATION CONTACT: The HUD Field Office for your jurisdiction.

SUPPLMENTARY INFORMATION

Paperwork Reduction Act Statement

In accordance with the Peperwork Reduction Act of 1980 (44 U.S.C. 3501–220), the information collection requirements have been assigned OMB Control Number 2502–0267.

I. Purpose and Substantive Description

A. Authority

Section 801 of the Cranston-Gonzalez National Affordable Housing Act (NAHA) amended section 202 of the Housing Act of 1959. It authorized the Secretary to provide assistance to private nonprofit organizations and nonprofit consumer cooperatives to expand the supply of supportive housing for the elderly. The assistance will be provided as capital advances and contracts for project rental assistance in accordance with 24 CFR part 889. This assistance may be used to finance the construction for rehabilitation of a structure, or acquisition of a structure from the Resolution Trust Corporation (RTC), to be used as supportive housing for the elderly in accordance with part 889.

For supportive housing for the elderly, the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1992, (Pub. L. 102–139, approved October 28, 1991, (Fiscal Year 1992 Appropriations Act) provides $538,808,000 for capital advances for housing for the elderly as authorized by section 202 of the Housing Act of 1959, (as amended by section 801 of the NAH Act) and $451,200,000 for project rental assistance for supportive housing for the elderly under section 202(c)(2). The capital advance allocation amounts set forth in section B. below are based upon available project rental assistance funds.

Of particular interest is the Department's implementation of section 105 of the NAHA which requires that all applications for this program include a certification of the responsible public official that the proposal is consistent with an approved Comprehensive Housing Affordability Strategy ("CHAS") for the jurisdiction in which the proposed project is to be located. See 24 CFR 889.270(c)(19).

Also of special interest is the statutory requirement for a certification by the appropriate State or local agency (typically the Area Agency on Aging) that the services identified in the application are well designed for the category or categories of elderly persons the housing is intended to serve. Therefore, the Sponsor must develop and submit its service plan to the appropriate agency to obtain the required certification. The signed certfication must be returned to the Sponsor and included in its application to HUD. Applications must contain a signed certification from the appropriate State or local agency that the provision of services identified in the application is well designed to serve the special needs of the category or categories of elderly persons the housing is intended to serve or they will be rejected.

In accordance with a recent agreeement between HUD and the Farmers Home Administration, HUD is required to notify FmHA of applications for housing assistance it receives. The purpose of this notification is to give FmHA the opportunity to comment if it has concern about the demand for additional assisted housing and possible harm to existing projects in the same housing market area. HUD will consider the FmHA comments in its review and project selection process.

B. Allocation Amounts

In accordance with 24 CFR part 791, the Assistant Secretary will allocate the amounts available for capital advances for supportive housing for the elderly. The Department reserves project rental assistance funds sufficient for 20-year contracts in support of the units selected for capital advances, consistent with current operating cost standards.

The allocation formulation for section 202 funds consists of the following two data elements:

1. A measure of the total number of elderly renter households.

2. A measure of the number of one- and two-person elderly renter households with incomes at or below the very low income standard with housing deficiencies, consisting primarily of households paying more than 30 percent of their incomes for rent.

Based on this formula, the Department has allocated the available capital advance funds as shown on the following chart:

FISCAL YEAR 1992 ALLOCATIONS FOR SUPPORTIVE HOUSING FOR THE ELDERLY

Regional office	Metropolitan: Capital advance authority	Metropolitan: Units	Nonmetropolitan: Capital advance authority	Nonmetropolitan: Units	Totals: Capital advance authority	Totals: Units
1	29,809,300	363	5,871,700	84	35,681,000	447
2	77,555,600	903	2,870,400	39	80,425,000	942
3	33,836,500	496	8,090,900	730	41,927,400	626
4	37,779,000	682	22,214,200	409	59,993,200	1,091

FISCAL YEAR 1992 ALLOCATIONS FOR SUPPORTIVE HOUSING FOR THE ELDERLY—Continued

Regional office	Metropolitan: Capital advance authority	Metropolitan: Units	Nonmetropolitan: Capital advance authority	Nonmetropolitan: Units	Totals: Capital advance authority	Totals: Units
5	54,010,000	818	14,973,500	237	68,983,500	1,055
6	15,320,000	290	9,770,800	193	25,091,200	483
7	8,409,600	144	7,457,900	136	15,867,500	280
8	4,464,100	81	2,440,300	66	7,924,400	147
9	59,695,700	771	4,282,400	59	63,978,100	830
10	5,647,500	102	2,914,700	47	9,562,200	149
Total	327,547,800	4,650	81,886,900	1,400	409,434,500	6,050

C. Eligibility

The only eligible applicants under this program are private, nonprofit organizations and nonprofit consumer cooperatives. Neither a public body nor an instrumentality of a public body is eligible to participate in the program. No organization shall participate as Sponsor or Co-sponsor in the filing of application(s) for fund reservation in a single region in this fiscal year in excess of that necessary to finance the construction, rehabilitation or acquisition from RTC of 300 units of housing and related facilities for the elderly. This limit shall apply to organizations that participate as Co-sponsors regardless of whether the Co-sponsors are affiliated or non-affiliated entities. In addition, the national limit for any one applicant is 10 percent of the total units allocated in all Regions. Affiliated entities which submit separate applications shall be deemed to be a single entity for the purposes of these limits. No single application may propose more than the number of units advertised by a Field Office or 125 units, whichever is less. Reservations for projects intended for the elderly in metropolitan areas will not be approved for less than 40 units.

D. Preliminary Evaluation and Selection Criteria

1. Preliminary Evaluation

Applications for section 202 Fund Reservations for housing for the elderly that meet the following initial threshold requirements at preliminary evaluation will be eligible for technical processing:

(a) Application was received by HUD at the appropriate address by June 3, 1992 and was complete or at most, had technical deficiencies (see Section IV.A. of this NOFA for the definition of a technical deficiency);

(b) Sponsor acceptably corrected deficiencies (including furnishing missing certifications) within 14 calendar days from the date of the notification letter;

(c) Sponsor, proposed facilities and proposed occupants are eligible under section 202;

(d) Sponsor has experience in developing and/or operating housing, medical or other facilities and/or providing services to the elderly, families or minority groups;

(e) There is reasonable expectation that the Sponsor can meet the Minimum Capital Investment requirement and start-up expenses and the Sponsor passed a certified resolution committing those funds;

(f) Sponsor provided evidence of legally-binding site control;

(g) The Sponsor is in compliance with civil rights laws and regulations as follows:

(i) There are no pending civil rights suits against the Sponsor instituted by the Department of Justice;

(ii) There are no outstanding findings of noncompliance with civil rights statutes, Executive Orders or regulations as a result of formal administrative proceedings, or where the Secretary has issued a charge under the Fair Housing Act, unless the Sponsor is operating under a compliance agreement designed to correct the areas of noncompliance;

(iii) There has not been a deferral of the processing of applications from the Sponsor imposed by HUD under title VI of the Civil Rights Act of 1964, the Attorney General's Guidelines (28 CFR 50.3), the HUD Title VI regulations (24 CFR 1.8) and procedures (HUD Handbook 8040.1), or under section 504 of the Rehabilitation Act of 1973 and the HUD section 504 regulations (24 CFR 8.57);

(h) Even without a site visit, it is reasonable to expect the proposed site meets site and neighborhood standards (24 CFR 889.230), including minority elderly concentration considerations, and is not in a floodway or Coastal High Hazard Area;

(i) There is sufficient market demand for the number of units proposed based on preliminary review; and

(j) Application was responsive to the Field Office Invitation (*i.e.*, did not request more units than advertised);

2. Selection Criteria

Applications for section 202 fund reservations that successfully pass preliminary evaluation and technical processing will be rated using the following selection criteria:

(a) The ability of the Sponsor to develop and operate the proposed housing on a long-term basis (20 points):

(i) The scope, extent and quality of the Sponsor's experience in providing housing or related services to the persons proposed to be served by the project (10 points);

(ii) The scope, extent and quality of the Sponsor's experience in providing housing or related services to minority persons or families and opportunities for minority and women-owned business enterprises participation (5 points); and

(iii) The extent of local community support for the Sponsor's activities, including previous experience in serving the area where the project is to be located, and Sponsor's demonstrated ability to enlist volunteers and local funds for its efforts (5 points);

(b) The Sponsor's financial capacity (25 points):

(i) The Sponsor's financial history and the current financial outlook (5 points);

(ii) The Sponsor's ability and willingness to provide funds for start-up expenses and commit financial resources beyond the Minimum Capital Investment (10 points); and

(iii) The scope of the proposed project in relationship to the financial capacity and commitment of the Sponsor (10 points);

Note: Consideration must also be given to the Sponsor's financial commitment to any projects in the pipeline and other applications submitted in response to invitations under this NOFA, or the NOFA for supportive housing for persons with disabilities (published elsewhere in today's Federal Register or other invitations under part 889 or part 890).

(c) The need for supportive housing for the elderly in the area to be served and the desirability of the proposed site (20 points):

(i) Extent to which the Sponsor demonstrates the need for supportive housing for the elderly (10 points);

(ii) The proximity or accessibility of the site to shopping, medical facilities, transportation, churches, recreational facilities, and other necessary services to the intended occupants and freedom of the site from adverse environmental conditions (4 points);

(iii) Suitability of the site from the standpoint of promoting a greater choice of housing opportunities for minority elderly persons/families (3 points);

(iv) Reasonableness of the estimated site cost per unit and suitability of the property for the intended use and adequacy of utilities and streets (3 points);

(d) The design of the project (15 points):

(i) The extent to which the proposed design will meet the special physical needs of elderly persons (5 points);

(ii) The extent to which the proposed size and unit mix of the housing will enable the Sponsor to manage and operate the housing efficiently and ensure that the provision of supportive services will be accomplished in an economical fashion (5 points); and

(iii) The extent to which the proposed design of the housing will accommodate the provision of supportive services that are expected to be needed, either initially or over the useful life of the housing, by the category or categories of elderly persons the housing is intended to serve (5 points); and

(e) The provision of supportive services (20 points):

(i) The extent to which the proposed supportive services meet the identified needs of the residents (10 points); and

(ii) The extent to which the Sponsor has demonstrated that the identified supportive services will be provided on a consistent long-term basis (10 points).

II. Application Process

All applications for Section 202 Fund Reservations submitted by eligible Sponsors must be filed with the appropriate HUD Field Office receiving an allocation and must contain all exhibits required by this notice.

Immediately upon publication of this NOFA, Field Offices shall notify minority organizations within their jurisdiction involved in housing and community development and groups with special interest in housing for elderly households.

Within three weeks of the date of this Notice, HUD Field Offices will publish a one-time Invitation for applications as required by § 889.205(b), in newspapers of general circulation, and in any minority newspapers serving the Field Office jurisdiction. Field Offices will accept applications after publication of the Invitation. No application will be accepted after the closing time stated in the Invitation and Application Package on June 3, 1992, unless that date and time is extended by a Notice published in the **Federal Register**. Applications received after that date and time will not be accepted, even if postmarked by the deadline date. Applications submitted by facsimile are not acceptable.

Organizations interested in applying for a section 202 Fund Reservation should provide the appropriate Field Office with their names, addresses and telephone numbers, and advise the Field Office whether they wish to attend the workshop described below. HUD encourages minority organizations to participate in this program as Sponsors. Field Offices, at the date and time specified in the Invitations, will conduct workshops to explain the section 202 Program.

HUD strongly recommends that prospective applicants attend the local Field Office workshop. More detailed information covering the time and place of the particular workshops will be set out in the Field Office Invitation. Interested persons with disabilities should contact the Field Office to assure that any necessary arrangements can be made for them to enable their attendance and participation in the workshop. While strongly urged to do so, if Sponsors cannot attend a workshop, Application Packages and handbooks can also be obtained from the Field Offices. Contact the appropriate Field Office with any questions regarding the submission of applications.

At the workshops, Application Packages will be distributed, application procedures and requirements (including the Department's equal opportunity, environmental, design and cost standards and required exhibits) will be explained. Also, concerns such as local market conditions, building codes, historic preservation, floodplain management, displacement and relocation, zoning and housing costs will be addressed.

III. Application Submission Requirements

1. Application

Each application shall include all of the information, materials, forms, and exhibits listed inparagraph 2 of this section and must be indexed and tabbed. The Field Office will base its determination of the eligibility of the Sponsor for a reservation of section 202 capital advance funds on the information provided in the application.

In preparing applications, applicants will be able to utilize information and exhibits previously prepared for prior applications under section 202, section 811 or other funding programs. Examples of exhibits that may be readily adapted or amended to decrease the burden of application preparation include, among others, those on previous participation in the section 202 or section 811 programs; applicant experience in housing and services; financial capacity; supportive services plan; community ties, and experience servicing minorities.

2. Application Contents

(a) Each applicant (Sponsor) shall include on a Form HUD–92013, Application for Multifamily Housing Project:

(1) The name, address, and telephone number of the Sponsor(s);

(2) The name, title, address, and telephone number of the officer or director of the Sponsor's Board of Directors to whom communications should be addressed;

(3) The following specific information regarding the project:

(i) Number of units requested by size (efficiency (415 sq. ft.), one-bedroom (540 sq. ft.) or two-bedroom (800 sq. ft.));

(ii) Dollar amount of the capital advance requested;

(iii) Estimated land cost;

(iv) Number and types of structures;

(v) Number of stories planned and whether an elevator will be included; and

(vi) Development method (new construction, rehabilitation or acquisition from the RTC).

(b) Additional exhibits must include:

(1) A Housing Consultant's Resume, Contract (Form HUD 92531A–EH) and an Identity of Interest and Disclosure Certification (if the Sponsor has employed a project consultant).

(2) Evidence of each Sponsor's legal status as a private, nonprofit organization or nonprofit consumer cooperative, including the following:

(i) Articles of Incorporation, constitution, or other organizational documents;

(ii) By-laws;

(iii) A typed incumbency certificate, listing all officers and directors, title, beginning date of each person's term and when that term expires. It must be certified by an officer of the Sponsor that it constitutes all duly qualified and sitting officers and directors as of the date the application is filed with HUD;

(iv) IRS tax exemption ruling (this must be submitted by all Sponsors, including churches). A nonprofit organization organized in the Commonwealth of Puerto Rico and exempt from income taxation under Puerto Rico law, or a consumer cooperative that is tax exempt under State law, has never been liable for payment of Federal income taxes, and does not pay patronage dividends may be exempt from the requirement set out in the previous sentence if they are not eligible for tax exemption; and

(v) Resolution of the board, duly certified by an officer, that no officer or director of the Sponsor or Owner has or will have any financial interest in any contract with the Owner or in any firm or corporation which has or will have a contract with the Owner.

(3) Satisfactory evidence that the Sponsor:

(i) Has the necessary legal authority to sponsor the project and to assist the Owner to finance, acquire, construct, or rehabilitate and maintain the project; and

(ii) Will form an Owner (as defined in § 889.105) after the issuance of the fund reservation, will cause the Owner to file a request for determination of eligibility and a request for a capital advance under § 889.400, and will provide sufficient resources to the Owner to ensure the development and long-term operation of the project.

(4) A description of the Sponsor's ties to the community, including the minority community, and support from local community groups.

(5) Evidence of any previous participation in HUD programs by the Sponsor, its officers or directors, on Form HUD 2530. If none, forms must be submitted indicating "No previous experience."

(6) A description of any financial default, modification of terms and conditions of financing, or legal action taken or pending against the Sponsor or its officers, directors, or trustees in their corporate capacity.

(7) A description of the following:

(i) any other rental housing projects and/or medical facilities, sponsored, owned and operated by the Sponsor including a description of experience in providing housing and/or medical facilities to the elderly and/or families; and

(ii) The Sponsor's experience in providing housing, medical facilities and/or related services to minority persons or families and in contracting with minority and women-owned business enterprises.

(8) A description of the Sponsor's past or current involvement in any programs other than housing (including its provision of services) that demonstrates the Sponsor's management capabilities and experience, including a description of the Sponsor's experience in serving the elderly and/or families.

(9) A certified Board Resolution, acknowledging responsibilities of sponsorship, long-term support of the project(s), willingness of Sponsor to assist the Owner to develop, own, manage and provide appropriate services in connection with the prosposed project, and that it reflects the will of its membership.

(10) A list of the applications, if any, the Sponsor has submitted or is planning to submit to any other Field Office in response to the current Invitations under this NOFA, the NOFA for Supportive Housing for Persons with Disabilities (published elsewhere in today's **Federal Register**) or other Invitations under Part 889 or Part 890. Indicate by Field Office, the proposed location by city and State, and the number of units requested, and the financial commitments related to each application.

(11) An estimate of start-up expenses for the project and the source of funds to meet these expenses.

(12) Evidence, in the form of a certified Board Resolution, of the Sponsor's willingness to fund the Minimum Capital Investment, estimated start-up expenses, and any associated development or operating costs related to items not covered by the capital advances under § 889.240 and to ensure the development and long-term operation of the project. Also, as evidence of the Sponsor's financial ability to cover those costs, include:

(i) A brief narrative description of financial history;

(ii) Copies of balance sheets and statements of income and expenses for each of the past three years that the Sponsor has operated. The financial statements, at a minimum, must include the information contained in Form HUD–92417 and a certification pursuant to the criminal warning provided in U.S. Criminal Code, Section 1001, Title 18 U.S.C.;

(iii) Form HUD–2013 Supplement, Application for Project Mortgage Insurance, listing current bank and trade references; and

(iv) A list of all FY 1991 and prior year projects to which the Sponsor(s) is a party, identified by project number, Field Office, funding year and month and year of initial closing, current status (if finally closed, indicate month and year) and financial requirements for closing.

Note: If funds to meet the financial requirements of the applications being submitted are being committed by an organization other than the sponsor, evidence of that organization's financial capacity must be included in this exhibit, in addition to the sponsor's financial statements.

(13) The following additional information with respect to the proposed project:

(i) A description of the category or categories of elderly persons the housing is intended to serve and the need for supportive housing for that population in the area to be served.

(ii) Evidence that the Sponsor has entered into a legally binding option agreement to buy or lease the proposed site; or has a copy of the contract of sale for the site, a deed, long-term leasehold or other evidence of legal ownership of the site (including properties to be acquired from the Resolution Trust Corporation). The option agreement period should extend through the end of the current fiscal year and contain a renewal provision to guarantee site availability through the subsequent stage of processing. The Sponsor must also identify any restrictive covenants, including reverter clauses. In the case of a site to be acquired from a public body, evidence that the public body possesses clear title to the site, and has entered into a legally binding agreement to lease or convey the site to the Sponsor after it receives and accepts a notice of Section 202 fund reservation and identification of any restrictive covenants, including reverter clauses. However, in localities where HUD determines the time constraints of the funding round will not permit all of the required official actions (*e.g.*, approval of Community Planning Boards) which are necessary to convey publicly-owned sites, a letter in the application from the Mayor or Director of the appropriate local agency indicating approval of conveyance of the site contingent upon the necessary approval action is acceptable and may be approved by the Field Office if it has had satisfactory experience with timely conveyance of sites from that public body. In such cases, documentation shall also include a copy of the public body's evidence of ownership and identification of any restrictive covenants, including reverter clauses.

Note: A proposed project site may not be acquired or optioned from a general contractor (or its affiliate) which will construct the section 202 project or from any other development team member.

(iii) A map showing the location of the site and the racial composition of the neighborhood, with the area of racial concentration delineated.

(iv) A sketch of the site plan showing the general development of the site including the proposed location of the proposed building(s), streets, parking areas and drives, service areas, and unusual site features.

(v) Evidence that the project as proposed is permissible under applicable zoning ordinances or regulations, or a statement of the proposed action required to make the proposed project permissible and the basis for belief that the proposed action will be completed successfully before the receipt of the conditional commitment application (*e.g.*, a summary of the results of any recent requests for rezoning on land in similar zoning classifications and the time required for such rezoning, preliminary indications of acceptability from zoning bodies, *etc.*).

(14) A statement that (a) identifies all persons (families, individuals, businesses and nonprofit organizations (identified by race/minority group, and status as owners or tenants) occupying the property on the date of submission of the application for fund reservation (or date of initial site control, if later); (b) indicates the estimated cost of relocation payments and other services, and (c) identifies the staff organization that will carry out the relocation activities.

Note: If any of the relocation costs will be funded from sources other than the section 202 capital advance, the sponsor must provide evidence of a firm commitment of these funds. Due to potentially high relocation costs, sponsors are encouraged to utilize sites which involve minimal or no relocation costs.

(15) A narrative description of the proposed housing consistent with § 889.270(c), including:

(i) If and how the project will promote energy efficiency and if applicable, innovative construction or rehabilitation methods or technologies to be used that will promote efficient construction.

(ii) Identification and description of all community spaces, special amenities or features planned for the housing. A description of how the spaces will be utilized also must be included. If these amenities, features, or community spaces would not comply with the design and cost standards, the Sponsor must demonstrate its ability and willingness to contribute both the incremental development cost and continuing operating cost associated with the community spaces, features or amenities.

(16) Typical unit plans and floor plans of all floors providing community space, indicating dimensions of spaces to be used for the provision of supportive services.

(17) Identify on a Form HUD 92013E, Supplemental Application Processing Form—Housing for the Elderly, all supportive services, if any, to be provided to the persons occupying such housing; and describe (a) the manner in which such services will be provided to such persons (*i.e.*, on or off-site), including, whether a service coordinator will facilitate the adequate provision of such services, and (b) the public or private sources of assistance that may reasonably be expected to fund or provide such services.

(18) Signed certifications of the Sponsor(s)' intent to comply with Title VI of the Civil Rights Act of 1964, the Fair Housing Act, section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act of 1975, Executive Orders 11063 and 11246, section 3 of the Housing and Urban Development Act of 1968, and the affirmative fair housing marketing requirements at 24 CFR part 200, subpart M.

(19) A certification from the appropriate State or local agency that the provision of services identified in the application is well designed to serve the special needs of the category or categories of elderly persons the housing is intended to serve.

(20) A certification of the Sponsor(s) that the appropriate State agency (single point of contact) under Executive Order 12372, Intergovernmental Review, has been contacted to determine if the section 202 Program is covered under the State review process and, if applicable, the date the application was submitted to the State.

(21) A certification on SF–424, Application for Federal Assistance, that the Sponsor(s) is not delinquent on the repayment of any Federal debt.

(22) A certification by the Sponsor(s) that the section 202 funds will not be used to lobby the Executive or Legislative branches of the Federal government.

(23) A certification that the Sponsor(s) will comply with the requirements of the Drug-Free Workplace Act.

(24) A certification that the project will comply with HUD's design and cost standards, the Uniform Federal Accessibility Standards and HUD's implementing regulations at 24 CFR part 40, Section 504 of the Rehabilitation Act of 1973 and HUD's implementing regulations at 24 CFR part 8, and for new construction multifamily housing projects, the design and construction requirements of the Fair Housing Act and HUD's implementing regulations at 24 CFR part 100.

(25) A certification by the Sponsor(s) that it will comply (or has complied) with the acquisition and relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (URA), implemented by regulations at 49 CFR part 24, and 24 CFR 889.265(e).

(26) A completed Form 2880, Applicant Disclosures.

(27) A certification of consistency with an approved housing strategy (CHAS) from the lowest level of government having a full CHAS covering the jurisdiction in which the project is to be located. Should that full CHAS fail to provide a basis for consistency, either a suitable amendment can be prepared or, in the case of a proposed project in a local jurisdiction not having an existing CHAS, that lcoal jurisdiction may prepare an abbreviated strategy appropriate to the project. Such an abbreviated strategy must be submitted prior to or at the time of submission of the Section 202 application. See notice on the preparation of an abbreviated strategy published in the **Federal Register** on December 16, 1991 (56 FR 65271).

Note: To assist applicants in meeting the certification requirement where a CHAS or abbreviated housing strategy has not yet been approved, HUD will accept section 202 applications that are accompanied by a certification that the proposed activity is consistent with the CHAS or abbreviated stategy being reviewed.

IV. Corrections to Deficient Applications

A. Preliminary Evaluation

During preliminary evaluation, Sponsors will be provided 14 calendar days from the date of HUD's written notification to cure technical deficiencies in their applications. However, it is not additional time to amend the application to overcome any defects in the original submission. Technical deficiencies are inadvertently omitted documents which have been executed prior to the application deadline date (such as certifications or articles of incorporation) or clarifications of previously submitted material and are not of such a nature as to improve the competitive position of the application.

Technical deficiencies do not include items which would be considered substantive defects in the original submission. For example, if a Board resolution is missing from the original submission, but it is submitted during the 14-day period, it must have been executed prior to the deadline date for receipt of applications. If it is not submitted during the 14-day period or it is submitted during this time but executed after the deadline date for receipt of applications, it is a substantive defect and the application will be rejected. Sponsors of applications that are missing two or more complete exhibits will not be afforded an opportunity to submit the missing exhibits and will receive written notification that their applications have been rejected. However, exhibits which are certifications are not counted as missing exhibits in this determination.

Applicants whose applications are found unacceptable during the preliminary evaluation process due to substantive defects and applications which fail to adequately respond to HUD's deficiency letter within the 14-day period, will be notified that their applications are not eligible for further processing, and are rejected.

B. Technical Processing

Applications which are found acceptable during the preliminary evaluation process, or an acceptable response to HUD's deficiency letter received within the 14-day period, will undergo a more thorough analysis. As part of this analysis, HUD will conduct its environmental review in accordance with 24 CFR part 50. Examples of reasons for technical processing rejection include an unacceptable site based upon a site visit or based on a review of the detailed financial information, the Sponsor(s)' lack of sufficient financial resources. The Secretary will not reject an application based on technical processing without giving notice of that rejection and the basis therefore to the applicant and affording the applicant an opportunity to respond. An applicant will be afforded 10 calendar days from the date of HUD's written notice to appeal a technical rejection. The Field Office shall make a determination on an appeal prior to making its selection recommendations.

Upon completion of technical processing, all acceptable applications will be rated according to the selection criteria in § 889.300(d) (also above in I.D.2). Applications which have a total score of 50 points or more will be eligible for selection and will be placed in rank order.

V. Other Matters

A. Environmental Impact

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations that implement section 101(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. 4332. The Finding of No Significant Impact is available for public inspection during business hours in the Office of the Rules Docket Clerk, Office of General Counsel, room 10276, Department of Housing and Urban Development, 451 Seventh Street, SW., Washingotn, DC 20410.

B. Federalism Executive Order

The General Counsel, as the Designated Official under section 6(a) of Executive Order No. 12612, Federalism, has determined that this NOFA does not have substantial direct effects on States or their political subdivisions, or on the relationship between the Federal government and the States, or on the distribution of power and responsibilities among the various levels of government. This NOFA merely notifies the public of the availability of capital advances and project rental assistance for supportive housing for the elderly.

C. Family Executive Order

The General Counsel, as the Designated Official under Executive Order No. 12606, The Family, has determined that this NOFA does not significantly affect family formation, maintenance, or general well-being, and, thus, is not subject to review under the order.

D. HUD Reform Act

HUD's regulation implementing section 103 of the Department of Housing and Urban Development Reform Act of 1989 was published May 13, 1991 (56 FR 22088) and became effective on June 12, 1991. That regulation, codified as 24 CFR part 4, applies to the funding competition announced today. The requirements of the rule continue to apply until the announcement of the selection of successful applicants.

HUD employees involved in the review of applications and in the making of funding decisions are restrained by Part 4 from providing advance information to any person (other than an authorized employee of HUD) concerning funding decisions, or from otherwise giving any applicant an unfair competitive advantage. Persons who apply for assistance in this competition should confine their inquiries to the subject areas permitted under 24 CFR part 4.

Applicants who have questions should contact the HUD Office of Ethics (202) 708–3815. (This is not a toll-free number.) The Office of Ethics can provide information of a general nature to HUD employees, as well. However, a HUD employee who has specific program questions, such as whether particular subject matter can be discussed with persons outside the Department, should contact his or her Regional or Field Office Counsel, or Headquarters counsel for the program to which the question pertains.

E. Applicant/Recipient Disclosures; Subsidy-Layering: HUD Reform Act

Documentation and public access. HUD will ensure that documentation and other information regarding each application submitted pursuant to this NOFA are sufficient to indicate the basis upon which assistance was provided or denied. This material, including any letters of support, will be made available for public inspection for a five-year period beginning not less than 30 days after the award of the assistance. Material will be made available in accordance with the Freedom of Information Act (5 U.S.C. 552) and HUD's implementing regulations at 24 CFR part 15. In addition, HUD will include the recipients of assistance pursuant to this NOFA in its quarterly **Federal Register** notice of all recipients of HUD assistance awarded on a competitive basis. (See 24 CFR 12.14(a) and 12.16(b), and the notice published in the **Federal Register** on January 16, 1992 (57 FR 1942, for further information on these requirements.)

Disclosures. HUD will make available to the public for five years all applicant disclosure reports (HUD Form 2880) submitted in connection with this NOFA. Update reports (also Form 2880) will be made available along with the applicant disclosure reports, but in no case for a period generally less than three years. All reports—both applicant disclosures and updates—will be made available in accordance with the Freedom of Information Act (5 U.S.C. 552) and HUD's implementing regulations at 24 CFR part 15. (See 24 CFR subpart C, and the notice published in the **Federal Register** on January 16, 1992 (57 FR 1942), for further information on these disclosure requirements.)

Subsidy-layering determinations. 24 CFR 12.52 requires HUD to certify that the amount HUD assistance is not more than is necessary to make the assisted activity feasible after taking account of other government assistance. HUD will make the decision with respect to each certification available to the public free of charge, for a three-year period. (See the notice published in the **Federal Register** on January 16, 1992 (57 FR 1942) for further information on requesting

these decisions.) Additional information about applications, HUD certifications, and assistance adjustments, both before assistance is provided or subsequently, are to be made under the Freedom of Information Act (24 CFR part 15).

F. Lobbying

Section 13 of the Department of Housing and Urban Development Act contains two provisions dealing with efforts to influence HUD's decisions with respect to financial assistance. The first imposes disclosure requirements on those who are typically involved in these efforts—those who pay others to influence the award of assistance or the taking of a management action by the Department and those who are paid to provide the influence. The second restricts the payment of fees to those who are paid to influence the award of HUD assistance, if the fees are tied to the number of housing units received or are based on the amount of assistance received, or if they are contingent upon the receipt of assistance.

Section 13 was implemented by final rule published in the **Federal Register** on May 17, 1991 (56 FR 22912). If readers are involved in any efforts to influence the Department in these ways, they are urged to read the final rule, particularly the examples contained in appendix A of the rule.

Any questions regarding the rule should be directed to Arnold J. Haiman, Director, Office of Ethics, room 2158, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410. Telephone: (202) 708–3815; TDD: (202) 708–1112. (These are not toll-free numbers.) Forms necessary for compliance with the rule may be obtained from the local HUD office.

(Catalog of Federal Domestic Assistance Program)

The Catalog of Federal Domestic Assistance Program title and number is 14.181, Housing for the Elderly or Handicapped.

Authority: Section 202, Housing Act of 1959, as amended (12 U.S.C. 1701q), Section 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

Dated: February 21, 1992.

Arthur J. Hill,

Assistant Secretary for Housing, Federal Housing Commissioner.

Department of the Interior

Bureau of Indian Affairs

Draft Environmental Impact Statement (DEIS) for the Campo Solid Waste Management Project on the Campo Indian Reservation, San Diego County, CA; Notice

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Draft Enviornmental Impact Statement (DEIS) for the Campo Solid Waste Management Project on the Campo Indian Reservation, San Diego County, CA

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of availability of DEIS and public hearing dates.

SUMMARY: This notice advises the public that a Draft Environmental Impact Statement (DEIS) for a proposed lease of a portion of the Campo Indian Reservation for development of a solid waste management project is available for public review and that public hearings will be held regarding this document. This notice is furnished as required by the National Environmental Policy Act (NEPA) Regulations (40 CFR part 1503) to obtain comments on the DEIS from agencies and the public.

DATES: Written comments should be received on or before May 8, 1992, and should be directed to Mr. Ronald M. Jaeger, Area Director, Sacramento Area Office, Bureau of Indian Affairs, 2800 Cottage Way, Sacramento, California 95825.

Public hearings on the DEIS will be held on Monday, April 6, 1992, 1 p.m. at the San Diego County Administration Center, 1600 Pacific Highway, San Diego, California; Monday, April 6, 1992, 7 p.m. at the Mountain Empire High School, 3305 Buckman Springs Road, Pine Valley, California; and Tuesday, April 7, 1992, 7 p.m. at the Campo Indian Reservation Tribal Center, State Highway 94 and BIA Route 10. Comments and participation at the public hearings are solicited. Individuals wishing copies of this DEIS for review should immediately contact Science Applications International Corporation, Environmental Programs Dividion, 121 Gray Avenue, suite 101, Santa Barbara, California, 93101, Attention: Mr. Richard A. Kentro. Telephone (805) 966–0811. Copies of the DEIS have been sent to all agencies and individuals who participated in the scoping process and to all others who have already requested copies of the document.

FOR FURTHER INFORMATION CONTACT: Mr. Donald B. Knapp, Environmental Quality Specialist, Sacramento Area Office, Bureau of Indian Affairs, 2800 Cottage Way, Sacramento, California 95825. Telephone (916) 978–4703.

SUPPLEMENTARY INFORMATION: The Bureau of Indian Affairs, Department of the Interior, in cooperation with the Campo Band of Mission Indians, has prepared a DEIS on the proposed lease of a portion of the Campo Indian Reservation in San Diego County, California. The Campo Band proposes to lease the land to their wholly owned subsidiary, Muht-Hei, Inc.

Muht-Hei, Inc., proposes to develop an integrated solid waste management project including a sanitary landfill, a materials recovery (recycling) facility, and a composting facility. The project would be located on the reservation of the Campo Band of Mission Indians in southeastern San Diego County, California. The technical services of Mid-American Waste Systems, Inc. and Campo Projects Corporation would be used pursuant to subleases and other agreements. Muht-Hei, Inc. is a tribally chartered, wholly owned corporation of the Campo Band of Mission Indians. Muht-Hei, Inc. was expressly incorporated for the purpose of assisting the Campo Band in the development of projects for the economic benefit of the Band. Mid-American Waste Systems is a publicly held corporation chartered in Ohio, specializing in design, construction, and operation of landfills and waste management systems. Campo Projects Corporation is a privately held corporation chartered in the state of New York, specializing in recycling and resource recovery.

The sanitary landfill, materials recovery, composting, and ancillary facilities would be included on one contiguous 600-acre site located within the 1,150-acre lease area. The remaining 550 acres of lease area that surround the site would provide an undeveloped buffer area between the site and private lands to the east and to the south. The buffer area would be 700 to 1,660 feet wide on the east and 1,200 to 2,200 feet wide on the south.

Other actions outside the lease area would include upgrading of an existing dirt road to provide a 1.7-mile paved access road from State Highway 94 to the site, truck delivery of water from an off-site location on the reservation, and delivery of solid waste to the site via the San Diego & Imperial Valley (SD&IV) Railroad.

The proposed use of the SD&IV Railroad to deliver municipal solid waste to the project site is an important feature of the proposed project. The SD&IV Railroad (formerly the San Diego & Arizona Eastern Railroad) is a short-line railroad that operates between San Diego and El Cajon and also from San Diego south to San Ysidro, then across the Mexican border at Tijuana and east to Tecate. Although little used east of Tecate, the line re-enters the United States near the town of Camp and crosses the Campo Reservation before continuing east to El Centro in the Imperial Valley. The track is washed out east of the reservation, but it is in fair to good repair to the west between the reservation and Tecate.

As proposed, almost all of the waste materials delivered to the project site would arrive via rail haul on the SD&IV Railroad. Wastes that would be expected to be delivered via truck rather than rail would include materials destined for the composting facility and possibly wastes from local southeast San Diego County communities. Rail haul provides a unique and potentially less expensive means to haul waste materials to a distant disposal site. The Proposed Site at the Campo Reservation is ideally located to take advantage of the existing railroad.

The proposed sanitary landfill would be classified as a Class III solid waste disposal facility according to the California Code of Regulations (CCR, title 23, division 3, chapter 15) and the CEPA Solid Waste Management Regulations (Title V, § 505.23). Wastewater sewage or water treatment sludge could be accepted if it meets certain standards. However, infectious waste, asbestos, petroleum or its byproducts, polychlorinated biphenyls, and other hazardous wastes would not be accepted.

The landfill portion of the proposed project would require a total of approximately 425 acres. The capacity of the landfill site is estimated to be 40 million cubic yards (or about 28 million tons) with a capacity for accepting up to 3,000 tons per day (tpd) for approximately 30 years.

The proposed Materials Recovery Facility (MRF) would house the recycling activities and would provide temporary storage for recovered materials prior to shipment to markets. The MRF would be located adjacent to the landfill.

The composting facility would be located on approximately 10 acres near the northern boundary of the project site. The composting process selected for this project is referred to as "in-vessel" composting. This process is carried out with all initial ingredients, receipt, mixing, and biochemical reactions occurring in a completely closed system. The product would be a controlled composition, high quality compost product, selectively suitable for sale into the agricultural, gardening, and/or landscaping markets.

Indian reservations are governed as sovereign nations, thus, the permitting requirements of state and local regulatory agencies do not apply. The Campo Environmental Protection Agency (CEPA) has been empowered by the Campo tribal government to adopt and enforce standards and regulations specifically designed to protect the environment and tribal lands. Permitting and environmental standards will be enforced by the CEPA under adopted codes and procedures. The standards must, at a minimum, meet the applicable standards of the EPA, BIA, and other federal agencies.

Alternatives considered and evaluated with the proposed action include two alternative site locations on the reservation identified as Alternative Site 1 and Alternative Site 2. Also evaluated with the proposed action are the alternatives of a reduced waste stream and a reduced area of disturbance. The No-Action Alternative is also evaluated.

Alternative Site 1 is in the north-south trending canyon in the central portion of the reservation. An area of approximately 210 acres would be available for use as a landfill with an overall capacity of 40 million cubic yards. Development of this site would displace the currently active Campo sand quarry. Facilities associated with this alternative would include the sanitary landfill, the MRF, and the composting facility. Access to the facility could be accomplished by both rail and truck transport, although rail deliveries would require the construction of a 2-mile rail spur to the site. Truck delivery would be accomplished via Interstate 8 and State Highway 94, then north on BIA Route 10.

Alternative Site 2 is located in the extreme southwestern portion of the reservation. The site is in an unnamed canyon that runs southeast to northwest. The site encompasses approximately 180 acres. Canyon depth ranges from 120 to 200 feet with an average depth of 160 feet. Estimated capacity of the site is 45 million cubic yards. Operations at this site would require use of truck haul only, because it is unlikely that a rail spur would be constructed to the site due to the grade required. This site would not have sufficient cover material for the landfill and would require importation of cover material. It may be possible to utilize materials from the Campo sand quarry as supplemental cover material. Facilities associated with this alternative would include the sanitary landfill, the MRF, and the composting facility. Waste haul would be by Interstate 8 and State Highway 94, then south to an unpaved road on the reservation.

A reduced waste stream at the Proposed Site could be utilized to accomplish one of several goals. A reduction in the daily waste stream from 3,000 to 1,500 tpd would reduce the amount of rail and/or truck traffic to the site, could result in less daily water consumption, and would reduce the number of workers required for the project. Reducing the daily waste stream by one-half, however, would also have a major effect on both the viability of the project from an operational as well as economic perspective on a short-term basis. Annual revenues to the Campo Band would be reduced by about 50 percent. The useful life of the Proposed Site, however, would be increased from 30 to 60 years under the projected use rates of the proposed action.

A reduction in the capacity of the proposed landfill by reducing its areal extent was also examined as an alternative. Reduction in the areal extent of the landfill would result in an overall reduction of the capacity of the landfill and the lifetime of the project. Total revenues to the Campo Band over the life of the project would be reduced by about 50 percent. Although a reduced area of disturbance would shorten the life of the active project, it would not include a decrease in the daily amounts of water required to operate the facility or a potential reduction in the air, noise, groundwater, and traffic impacts associated with the proposed action.

The No-Action Alternative would continue the present situation. Neither the proposed action nor any of the alternatives would be developed. The need for economic development on the reservation would remain. The Campo Band would continue to experience low income and employment levels.

Other government agencies and members of the public have contributed to the planning and evaluation of the proposals and to the preparation of this DEIS. The scoping process for the Campo Solid Waste Management EIS began with the publication of a Notice of Intent (NOI) in the September 26, 1989, **Federal Register**.

Public scoping meetings were held on October 12 and 13, 1989, at the Campo Reservation, in the town of Campo, and in Chula Vista, California, to obtain input from Federal, State, local, and tribal agencies and the interested public.

Agencies and individuals are urged to provide comments on this DEIS as soon as possible. All comments received by the dates given above will be considered in preparation of the final EIS.

This notice is published pursuant to § 1503.1 of the Council of Environmental Quality Regulations (40 CFR, parts 1500 through 1508) implementing the procedural requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*), Department of the Interior Manual (516 DM 1–8) and is in the exercise of authority delegated to the Assistant Secretary—Indian Affairs by 209 DM 8.

Dated: February 27, 1992.

Patrick A. Hayes,

Director, Office of Trust and Economic Development.

Part VII

Department of Education

Protection and Advocacy of Individual Rights; Notice of Proposed Priority for Fiscal Year 1992

DEPARTMENT OF EDUCATION

Protection and Advocacy of Individual Rights

AGENCY: Department of Education.

ACTION: Notice of proposed priority for fiscal year 1992.

SUMMARY: The Secretary proposes a priority for fiscal year 1992 for grants to develop pilot projects to protect and advocate for the rights of individuals with severe disabilities who are receiving services under title VII of the Rehabilitation Act of 1973, as amended, (Act) and who are not eligible for services provided by existing protection and advocacy or ombudsman programs or whose request for services cannot be addressed by client assistance programs funded under section 112 of the Act.

DATES: Comments must be received on or before April 6, 1992.

ADDRESSES: All comments concerning this proposed priority should be addressed to Thomas Finch, U.S. Department of Education, 400 Maryland Avenue, SW., room 3319 Switzer Building, Washington, DC 20202–2741.

FOR FURTHER INFORMATION CONTACT: Victor Galloway, U.S. Department of Education, 400 Maryland Avenue, SW., room 3314 Switzer Building, Washington, DC 20202–2741. Telephone: (202) 732–1552 (voice) and 732–1352 (TDD).

SUPPLEMENTARY INFORMATION: Section 731 (part D of title VII) of the Rehabilitation Act of 1973, as amended, authorizes grants to States to establish systems for the protection and advocacy of the rights of individuals with severe disabilities receiving services under title VII. The Secretary proposes to conduct a competition for pilot projects to establish protection and advocacy programs for those individuals.

This program, as well as the priority proposed for this fiscal year, supports AMERICA 2000, the President's strategy for helping the nation move toward achievement of the National Education Goals. The priority, by encouraging the expansion of advocacy services designed to increase the involvement of individuals with severe disabilities in all facets of community life, including continuing education, supports national education goal 5 that calls for every adult American to possess the knowledge and skills necessary to compete in a global economy and exercise the rights and resposibilities of citizenship.

The legislative history of section 731 indicates that Congress intended to have the Protection and Advocacy of Individuals Rights (PAIR) program coordinated with existing protection and advocacy programs and system in the State to avoid duplication of services. Congress also intended that the pilot programs generate sufficient data to assist the Department in determining the future course of and priorities for the PAIR program. Although the fiscal year 1992 Appropriations Act is silent on this subject, the Senate committee report accompanying the fiscal year 1992 Appropriations Act encourages projects established under section 731 of the Act to include within the services that they provide the protection and advocacy of those rights established in the Fair Housing Amendments Act of 1988 and the Americans with Disabilities Act of 1990.

Although only a State agency that is independent of the designated State unit for vocational rehabilitation or any other agency that provides services under title VII of the Act is eligible to apply for funds under section 731 of the Act, the designated PAIR agency may contract with other appropriate agencies to carry out the activities authorized under this priority. However, the designated PAIR agency may not contract with any other agency that provides services under title VII of the Act to carry out activities authorized under section 731 of the Act.

Eligible Applicants

An eligible applicant is the State through its Governor. The Governor shall designate a State agency to conduct the protection and advocacy system under section 731 of the Act that is independent of the designated State unit for vocational rehabilitation or any other agency that provides services under title VII of the Act.

The Secretary will announce the final priority in a notice in the **Federal Register**. The final priority will be determined by responses to this notice, available funds, and other considerations of the Department. Funding of particular projects depends on the availability of funds, the nature of the final priority, and the quality of the applications received. The publication of this proposed priority does not preclude the Secretary from proposing additonal priorities, nor does it limit the Secretary to funding only this priority, subject to meeting applicable rulemaking requirements.

Note: This notice of proposed priority does not solicit applications. A notice inviting applications under this competition will be published in the **Federal Register** concurrent with or following publication of the notice of final priority.

Priority

Under 34 CFR 75.105(c)(3) the Secretary proposes to give an absolute preference to applications that meet the following priority. The Secretary proposes to fund under this competition only applications that meet this absolute priority:

General Program Requirements

A State shall provide the Secretary with assurances that projects established with grants made under section 731 of the Act will have the authority to pursue legal, administrative, and other appropriate remedies to ensure the protection of the rights of individuals with severe disabilities receiving services under title VII of the Rehabilitation Act within the State. A State shall assure that a protection and advocacy system funded under section 731 of the Act will be independent of any designated State unit that provides services under title VII of the Act to those individuals. A State shall also assure that the agency designated to conduct the protection and advocacy system under section 731 of the Act will utilize mediation to the maximum extent feasible prior to resorting to administrative or legal remedies. A State shall assure that the designated agency will involve individuals with severe disabilities in the development and implementation of the protection and advocacy system.

To prevent duplication of services, the State shall assure that the agency designated to conduct this program has knowledge of the eligibility requirements and the range of services provided by the following programs and will coordinate, as appropriate, with —

(1) The system to protect and advocate for the rights of individuals with developmental disabilities required under the Developmental Disabilities Assistance and Bill of Rights Act Amendments of 1978;

(2) The system to protect and advocate for the rights of mentally ill individuals required under the Protection and Advocacy for Mentally Ill Individuals Act of 1986;

(3) The system to provide ombudsman services on behalf of individuals receiving long-term care required under the Older Americans Act;

(4) The client assistance program required under section 112 of the Rehabilitation Act of 1973, as amended;

(5) The advocacy services provided by centers for independent living within the State; and

(6) The investigative and conciliation services funded under the Fair Housing Amendments Act of 1988.

Proposed Priority

Priority will be given to pilot projects that will protect and advocate for the rights of individuals with severe disabilities who are receiving services under title VII of the Rehabilitation Act of 1973, as amended, and who are not eligible for services provided by existing protection and advocacy or ombudsman programs or whose request for services cannot be addressed by client assistance programs funded under section 112 of the Act.

"Individual with severe disabilities" means an individual whose ability to function independently in family or community or to engage or continue in employment is so limited by the severity of his or her physical or mental disability that independent living rehabilitation services are required for the individual to achieve a greater level of independence in functioning in family or community or engaging or continuing in employment.

Projects funded under this priority must—(1) Provide protection and advocacy services to individuals with severe disabilities receiving independent living services under title VII of the Rehabilitation Act to ensure the protection of their rights under the Rehabilitation Act and, to the extent necessary to achieve their independent living goals, the Fair Housing Amendments Act of 1988, the Americans with Disabilities Act of 1990, and other applicable Federal, State, and local laws; (2) Engage in cooperative activities with relevant public and private agencies and organizations to address barriers that prevent these individuals from achieving their independent living goals; and (3) Conduct a self-evaluation to assist the Secretary in determining the effectiveness of the pilot demonstration projects and the future directions and scope of Federal funding of protection and advocacy services for individuals with severe disabilities.

Projects funded under this priority must build upon existing systems to carry out activities not already funded by other sources or to serve individuals not already served by other programs. Projects may establish a priority for services based upon the particular needs of the State. However, projects may not deny services to any individual based on type or types of severe disability.

The applicant shall describe how the project will inform individuals with severe disabilities of their rights and will assist those individuals in pursuing remedies under the Rehabilitation Act of 1973, as amended, the Fair Housing Amendments Act of 1988, and the Americans with Disabilities Act of 1990.

Intergovernmental Review

This program is subject to the requirements of Executive Order 12372 and the regulations in 34 CFR part 79. The objective of the Executive order is to foster an intergovernmental partnership and a strengthened federalism by relying on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

In accordance with the order, this document is intended to provide early notification of the Department's specific plans and actions for this program.

Invitation to Comment

Interested persons are invited to submit comments and recommendations regarding this proposed priority.

All comments submitted in response to this notice will be available for public inspection, during and after the comment period, in room 3038, Mary Switzer Building, 330 C Street, SW., Washington, DC, between the hours of 8:30 a.m. and 4 p.m., Monday through Friday of each week except Federal holidays.

Program Authority: 29 U.S.C. 796g.

Department of Education

Educational Research Grant Program: Researcher Training Project; Notice Inviting Applications for New Awards for Fiscal Year (FY) 1992

DEPARTMENT OF EDUCATION

[CFDA No. 84.117H]

Educational Research Grant Program: Researcher Training Project; Notice Inviting Applications for New Awards for Fiscal Year (FY) 1992

Note to Applicants: This notice is a complete application package. Together with the statute authorizing the program and applicable regulations governing the program, including the Education Department General Administrative Regulations (EDGAR), this notice contains all of the information, application forms, and instructions needed to apply for grant under this competition.

Purpose of Program: The Educational Research Grant Program (ERGP) supports scientific inquiry designed to advance educational theory and practice. These authorized activities as well as the invitational priority support AMERICA 2000, the President's strategy for moving the Nation toward the National Education Goals.

Eligible Applicants: The following are eligible for awards under the Educational Research Grant Program: (a) Institutions of higher education; (b) Public and private organizations, institutions, and agencies; and (c) Individuals.

Deadline for Transmittal of Applications: May 1, 1992.

Available Funds: $200,000.

Estimated Range of Awards: $200,000.

Estimated Average Size of Awards: $200,000.

Estimated Number of Awards: 1.

Note: The Department is not bound by any estimates in this notice.

Project Period: Up to 36 months.

Applicable Regulations:

(a) The Educational Department General Administrative Regulations (EDGAR) as follows:

(1) 34 CFR part 75 (Administration of Grants to Institutions of Higher Education, Hospitals, and Nonprofit Organizations).

(2) 34 CFR part 75 (Direct Grant Programs).

(3) 34 CFR part 77 (Definitions that Apply to Department Regulations).

(4) 34 CFR part 80 (Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments.

(5) 34 CFR part 81 (General Education Provisions Act—Enforcement).

(6) 34 CFR part 82 (New Restrictions on Lobbying).

(7) 34 CFR part 85 (Governmentwide Debarment and Suspension (Nonprocurement) and Governmentwide Requirements for Drug-Free Workplace (Grants)).

(8) 34 CFR part 86 (Drug-Free Schools and Campuses).

(b) The regulations for this program in 34 CFR Part 700.

Eligible Activity: Under 34 CFR 700.3 (a) and (b), the Secretary restricts applications under this competition to those proposing to carry out the following activity: training of individuals in educational research. Only applications proposing to conduct this activity will be considered under this competition.

Priority

Invitational Priority: Under 34 CFR 75.105(c)(1) the Secretary is particularly interested in applications that meet the following invitational priority. However, an application that meets this invitational priority does not receive competitive or absolute preference over other applications:

Projects to conduct educational research training that involve: (1) Mentored internships in research insititutions such as the Research and Development Centers and Regional Educational Laboratories supported by the Department's Office of Educational Research and Improvement; and (2) opportunities for participants to engage in original research and scholarly writing. Educational research training projects support AMERICA 2000, the President's strategy for moving the Nation toward the National Education Goals by stimulating research that may contribute to the improvement of American education.

The Secretary encourages projects that make special efforts to recruit minority individuals through, among other activities, collaboration with institutions and organizations where minority individuals who are potential educational research candidates may be found, such as historically Black colleges and universities, other colleges and universities that prepare minority educators, or professional associations. A grantee may not, however, limit eligibility to participate in the project on the basis of minority status. For further information regarding a grantee's obligation to comply with Federal nondiscrimination laws, see Nondiscrimination in Federally Assisted Programs, Title VI of the Civil Rights Act of 1964; Policy Interpretation, 44 FR 58509 (October 10, 1979). Copies can be obtained from the address listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice.

Selection Criteria

(a) (1) In evaluating applications for new grants under this competition, the Secretary uses the selection criteria in 34 CFR 700.22.

(2) The program regulations in 34 CFR 700.20(b)(2) provide that the Secretary may award up to 100 points for the selection criteria, including a reserved 25 points distributed in accordance with 34 CFR 700.20(b)(4).

(3) For this competition the Secretary distributes the 25 points as follows:

(i) *Plan of operation* (34 CFR 700.22(a)). Ten points are added to this criterion for a total of 20 points.

(ii) *Evaluation plan* (34 CFR 700.22(d)). Five points are added to this cirterion for a total of 10 points.

(iii) *Significance* (34 CFR 700.22(f)). Five points are added to this criterion for a total of 20 points.

(iv) *Technical soundness* (34 CFR 700.22(g)). Five points are added to this criterion for a total of 20 points.

(4) The maximum score for each criterion is indicated in parentheses.

(b) (1) *Plan of operation* (20 points). The Secretary reviews each application to determine the quality of the plan of operation for the project, including—

(i) The extent to which the plan of management is effective and ensures proper and efficient administration of the project;

(ii) The quality of the applicant's plans to use its resources and personnel to achieve each objective of the project; and

(iii) The extent to which the applicant will equitably address the educational needs of students and educators in both public and private educational institutions.

(2) *Quality of key personnel* (20 points).

(i) The Secretary reviews each application to determine the quality of key personnel the applicant plans to use on the project, including—

(A) The qualifications of the principal investigator;

(B) The qualifications of each of the other key personnel to be used in the project;

(C) The time that each person referred to in paragraphs (b)(2)(i) (A) and (B) will commit to the project; and

(D) How the applicant, as part of its nondiscriminatory employment practices, will ensure that its personnel are selected for employment without regard to race, color, national origin, gender, age, or handicapping condition.

(ii) To determine personnel qualifications under paragraphs (b)(2)(i) (A) and (B), the Secretary considers—

(A) Experience and training in fields related to the objectives of the project; and

(B) Any other qualifications that pertain to the quality of the project.

(3) *Budget and cost-effectiveness* (5 points). The Secretary reviews each application to determine the extent to which—

(i) The budget is adequate to support the project; and

(ii) Costs are reasonable in relation to the objectives, design, and potential significance of the project.

(4) *Evaluation plan* (10 points). The Secretary reviews each application to determine the quality of the evaluation plan for the project, including the extent to which the applicant's methods of evaluation—

(i) Are appropriate to the project; and

(ii) To the extent possible, are objective and produce data that are quantifiable.

(5) *Adequacy of resources* (5 points). The Secretary reviews each application to determine the adequacy of the resources that the applicant plans to devote to the project, including facilities, equipment and supplies.

(6) *Significance* (20 points).

(i) The Secretary reviews each application to determine the significance of the proposed project.

(ii) The Secretary determines the project's potential to make a significant contribution to American education, as measured by factors such as—

(A) Importance of the proposed project from the standpoint of basic knowledge or of problems in American education;

(B) The likely magnitude of the addition that will be made to knowledge or educational practices if the project is successful, including the extent to which the proposed outcomes can be broadly applied;

(C) The extent to which the project involves creative or innovative approaches that complement or are alternatives to existing approaches to the project's problem area; and

(D) The extent to which the project is designed to yield products and outcomes that can be disseminated and utilized in other settings, such as information, materials, processes, or techniques.

(7) *Technical soundness* (20 points).

(i) The Secretary reviews each application to determine the technical soundness of the proposed activities.

(ii) The Secretary determines—

(A) The adequacy of the project's design, methodology, instrumentation, and data analysis plan, as applicable;

(B) The extent to which the application exhibits a thorough knowledge of current research and development concepts, theories, and outcomes and relates these to the proposed activity; and

(C) The extent to which, where appropriate, the perspectives of a variety of disciplines are used.

Instructions for Transmittal of Applications: (a) If an applicant wants to apply for a grant, the applicant shall—

(1) Mail the original and two copies of the application on or before the deadline date to: U.S. Department of Education, Application Control Center, Attention: (CFDA # 84.117H), Washington, DC 20202–4725 or

(2) Hand deliver the original and two copies of the application by 4:30 p.m. (Washington, DC time) on the deadline date to: U.S. Department of Education, Application Control Center, Attention: (CFDA # 84.117H), Room #3633, Regional Office Building #3, 7th and D Streets, SW, Washington, DC 20202–4725

(b) An applicant must show one of the following as proof of mailing:

(1) A legibly dated U.S. Postal Service postmark.

(2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.

(3) A dated shipping label, invoice, or receipt from a commercial carrier.

(4) Any other proof of mailing acceptable to the Secretary.

(c) If an application is mailed through the U.S. Postal Service, the Secretary does not accept either of the following as proof of mailing:

(1) A private metered postmark.

(2) A mail receipt that is not dated by the U.S. Postal Service.

Notes: (1) The U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, and applicant should check with its local post office.

(2) The Application Control Center will mail a Grant Application Receipt Acknowledgment to each applicant. If and applicant fails to receive the notification of application receipt within 15 days from the date of mailing the application, the applicant should call the U.S. Department of Education Application Control Center at (202) 708–9494.

(3) The applicant must indicate on the envelope and—if not provided by the Department—in Item 10 of the Application for Federal Assistance (Standard Form 424) the CFDA number—and suffix letter, if any—of the competition under which the application is being submitted.

Application Instructions and Forms

The appendix to this application is divided into three parts plus a statement regarding estimated public reporting burden and various assurances and certifications. These parts and additional materials are organized in the same manner that the submitted application should be organized. The parts and additional materials are as follows:

Part I: Application for Federal Assistance (Standard Form 424 (Rev. 4–88)) and instructions.

Part II: Budget Information—Non-Construction Programs (Standard Form 424A) and instructions.

Part III: Application Narrative.

Additional Materials:

Estimated Public Reporting Burden.

Assurances—Non-Construction Programs (Standard Form 424B).

Certifications regarding Lobbying; Debarment, Suspension, and Other Responsibility Matters; and Drug-Free Workplace Requirements (ED 80–0013).

Certification regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion: Lower Tier Covered Transactions (ED 80–0014, 9/90) and instructions.

Note: ED 80–0014 is intended for the use of grantees and should not be transmitted to the Department.

Disclosure of Lobbying Activities (Standard Form LLL) (if applicable) and instructions; and Disclosure of Lobbying Activities Continuation Sheet (Standard Form LLL–A).

An applicant may submit information on a photostatic copy of the application and budget forms, the assurances, and the certifications. However, the application form, the assurances, and the certifications must each have an original signature. No grant may be awarded unless a completed application form has been received.

FOR FURTHER INFORMATION CONTACT: Diane Jones, U.S. Department of Education, 555 New Jersey Avenue, NW, room 508F Capital Place, Washington, DC 20208–5645. Telephone: 202–219–2146. FAX: 202–219–2106. Deaf and hearing impaired individuals may call the Federal Dual Party Relay Service at 1–800–877–8339 (in the Washington, DC 202 area code, telephone 703–8300) between 8 a.m. and 7 p.m., Eastern time.

Program Authority: 20 U.S.C. 1221e.

Dated: March 3, 1992.

Diane Ravitch,

Assistant Secretary for Educational Research and Improvement.

Prescribed by OMB Circular A-102

Authorized for Local Reproduction

INSTRUCTIONS FOR THE SF 424

This is a standard form used by applicants as a required facesheet for preapplications and applications submitted for Federal assistance. It will be used by Federal agencies to obtain applicant certification that States which have established a review and comment procedure in response to Executive Order 12372 and have selected the program to be included in their process, have been given an opportunity to review the applicant's submission.

Item:	Entry:
1	Self-explanatory.
2.	Date application submitted to Federal agency (or State if applicable) & applicant's control number (if applicable).
3.	State use only (if applicable).
4.	If this application is to continue or revise an existing award, enter present Federal identifier number. If for a new project, leave blank.
5.	Legal name of applicant, name of primary organizational unit which will undertake the assistance activity, complete address of the applicant, and name and telephone number of the person to contact on matters related to this application.
6.	Enter Employer Identification Number (EIN) as assigned by the Internal Revenue Service.
7.	Enter the appropriate letter in the space provided.
8.	Check appropriate box and enter appropriate letter(s) in the space(s) provided: —"New" means a new assistance award. —"Continuation" means an extension for an additional funding/budget period for a project with a projected completion date. —"Revision" means any change in the Federal Government's financial obligation or contingent liability from an existing obligation.
9	Name of Federal agency from which assistance is being requested with this application.
10.	Use the Catalog of Federal Domestic Assistance number and title of the program under which assistance is requested.
11	Enter a brief descriptive title of the project. if more than one program is involved, you should append an explanation on a separate sheet. If appropriate (e.g., construction or real property projects), attach a map showing project location. For preapplications, use a separate sheet to provide a summary description of this project.
12.	List only the largest political entities affected (e.g., State, counties, cities)
13.	Self-explanatory.
14.	List the applicant's Congressional District and any District(s) affected by the program or project
15.	Amount requested or to be contributed during the first funding/budget period by each contributor. Value of in-kind contributions should be included on appropriate lines as applicable. If the action will result in a dollar change to an existing award, indicate *only* the amount of the change. For decreases, enclose the amounts in parentheses. If both basic and supplemental amounts are included, show breakdown on an attached sheet. For multiple program funding, use totals and show breakdown using same categories as item 15.
16.	Applicants should contact the State Single Point of Contact (SPOC) for Federal Executive Order 12372 to determine whether the application is subject to the State intergovernmental review process.
17.	This question applies to the applicant organization, not the person who signs as the authorized representative. Categories of debt include delinquent audit disallowances, loans and taxes.
18.	To be signed by the authorized representative of the applicant. A copy of the governing body's authorization for you to sign this application as official representative must be on file in the applicant's office. (Certain Federal agencies may require that this authorization be submitted as part of the application.)

INSTRUCTIONS FOR THE SF-424A

General Instructions

This form is designed so that application can be made for funds from one or more grant programs. In preparing the budget, adhere to any existing Federal grantor agency guidelines which prescribe how and whether budgeted amounts should be separately shown for different functions or activities within the program. For some programs, grantor agencies may require budgets to be separately shown by function or activity. For other programs, grantor agencies may require a breakdown by function or activity. Sections A,B,C, and D should include budget estimates for the whole project except when applying for assistance which requires Federal authorization in annual or other funding period increments. In the latter case, Sections A,B, C, and D should provide the budget for the first budget period (usually a year) and Section E should present the need for Federal assistance in the subsequent budget periods. All applications should contain a breakdown by the object class categories shown in Lines a-k of Section B.

Section A. Budget Summary
Lines 1-4, Columns (a) and (b)

For applications pertaining to a *single* Federal grant program (Federal Domestic Assistance Catalog number) and *not requiring* a functional or activity breakdown, enter on Line 1 under Column (a) the catalog program title and the catalog number in Column (b).

For applications pertaining to a *single* program *requiring* budget amounts by multiple functions or activities, enter the name of each activity or function on each line in Column (a), and enter the catalog number in Column (b). For applications pertaining to multiple programs where none of the programs require a breakdown by function or activity, enter the catalog program title on each line in *Column* (a) and the respective catalog number on each line in Column (b).

For applications pertaining to *multiple* programs where one or more programs *require* a breakdown by function or activity, prepare a separate sheet for each program requiring the breakdown. Additional sheets should be used when one form does not provide adequate space for all breakdown of data required. However, when more than one sheet is used, the first page should provide the summary totals by programs.

Lines 1-4, Columns (c) through (g.)

For new applications, leave Columns (c) and (d) blank. For each line entry in Columns (a) and (b), enter in Columns (e), (f), and (g) the appropriate amounts of funds needed to support the project for the first funding period (usually a year).

Lines 1-4, Columns (c) through (g.) (continued)

For continuing grant program applications, submit these forms before the end of each funding period as required by the grantor agency. Enter in Columns (c) and (d) the estimated amounts of funds which will remain unobligated at the end of the grant funding period only if the Federal grantor agency instructions provide for this. Otherwise, leave these columns blank. Enter in columns (e) and (f) the amounts of funds needed for the upcoming period. The amount(s) in Column (g) should be the sum of amounts in Columns (e) and (f).

For supplemental grants and changes to existing grants, do not use Columns (c) and (d). Enter in Column (e) the amount of the increase or decrease of Federal funds and enter in Column (f) the amount of the increase or decrease of non-Federal funds. In Column (g) enter the new total budgeted amount (Federal and non-Federal) which includes the total previous authorized budgeted amounts plus or minus, as appropriate, the amounts shown in Columns (e) and (f). The amount(s) in Column (g) should not equal the sum of amounts in Columns (e) and (f).

Line 5 — Show the totals for all columns used.

Section B Budget Categories

In the column headings (1) through (4), enter the titles of the same programs, functions, and activities shown on Lines 1-4, Column (a), Section A. When additional sheets are prepared for Section A, provide similar column headings on each sheet. For each program, function or activity, fill in the total requirements for funds (both Federal and non-Federal) by object class categories.

Lines 6a-i — Show the totals of Lines 6a to 6h in each column.

Line 6j – Show the amount of indirect cost.

Line 6k – Enter the total of amounts on Lines 6i and 6j. For all applications for new grants and continuation grants the total amount in column (5), Line 6k, should be the same as the total amount shown in Section A, Column (g), Line 5. For supplemental grants and changes to grants, the total amount of the increase or decrease as shown in Columns (1)-(4), Line 6k should be the same as the sum of the amounts in Section A, Columns (e) and (f) on Line 5.

INSTRUCTIONS FOR THE SF-424A *(continued)*

Line 7 – Enter the estimated amount of income, if any, expected to be generated from this project. Do not add or subtract this amount from the total project amount. Show under the program narrative statement the nature and source of income. The estimated amount of program income may be considered by the federal grantor agency in determining the total amount of the grant.

Section C. Non-Federal-Resources

Lines 8-11 – Enter amounts of non-Federal resources that will be used on the grant. If in-kind contributions are included, provide a brief explanation on a separate sheet.

Column (a) – Enter the program titles identical to Column (a), Section A. A breakdown by function or activity is not necessary.

Column (b) – Enter the contribution to be made by the applicant.

Column (c) – Enter the amount of the State's cash and in-kind contribution if the applicant is not a State or State agency. Applicants which are a State or State agencies should leave this column blank.

Column (d) – Enter the amount of cash and in-kind contributions to be made from all other sources.

Column (e) – Enter totals of Columns (b), (c), and (d).

Line 12 — Enter the total for each of Columns (b)-(e). The amount in Column (e) should be equal to the amount on Line 5, Column (f), Section A.

Section D. Forecasted Cash Needs

Line 13 – Enter the amount of cash needed by quarter from the grantor agency during the first year.

BILLING CODE 4000-01-C

Line 14 – Enter the amount of cash from all other sources needed by quarter during the first year.

Line 15 – Enter the totals of amounts on Lines 13 and 14.

Section E. Budget Estimates of Federal Funds Needed for Balance of the Project

Lines 16 - 19 – Enter in Column (a) the same grant program titles shown in Column (a), Section A. A breakdown by function or activity is not necessary. For new applications and continuation grant applications, enter in the proper columns amounts of Federal funds which will be needed to complete the program or project over the succeeding funding periods (usually in years). This section need not be completed for revisions (amendments, changes, or supplements) to funds for the current year of existing grants.

If more than four lines are needed to list the program titles, submit additional schedules as necessary.

Line 20 – Enter the total for each of the Columns (b)-(e). When additional schedules are prepared for this Section, annotate accordingly and show the overall totals on this line.

Section F. Other Budget Information

Line 21 – Use this space to explain amounts for individual direct object-class cost categories that may appear to be out of the ordinary or to explain the details as required by the Federal grantor agency.

Line 22 – Enter the type of indirect rate (provisional, predetermined, final or fixed) that will be in effect during the funding period, the estimated amount of the base to which the rate is applied, and the total indirect expense.

Line 23 – Provide any other explanations or comments deemed necessary.

PART III—Application Narrative

A. *Application Instructions for New Awards.*

1. Information on who is eligible to apply for a grant award can be found in § 700.2 of the final regulations for the program.

2. In order to be considered for funding you must submit an original and two copies (and in order to expedite the review and award process, it is strongly suggested that you voluntarily submit three additional copies).

B. *Instructions for Proposal Narrative.*

1. Research Priorities.

Applicants are invited to address the priority published in the **Federal Register** Notice Inviting Applications contained in this application package.

2. Proposal Narrative

a. Applicants must provide a proposal narrative not to exceed 80–100 double spaced typed pages (normal sized type, no smaller than 10 point pica). The narrative must address each of the following criteria contained in 34 CFR 700.22:

(1) Plan of operation.
(2) Quality of key personnel.
(3) Budget and cost-effectiveness.
(4) Evaluation plan.
(5) Adequacy of resources.
(6) Significance.
(7) Technical soundness.

Under the discussion of technical soundness, applicants should describe in detail and justify the procedures that will be used to carry out the proposed work.

b. Applicants are encouraged to provide a summary of the program project (not to exceed 500 words).

3. Budget Information

3. Applicants must provide a detailed budget for each project and activity to support the request in the budget information form (SF 424A). The cost categories for the detailed budget for each project must be consistent with the cost categories in the summary budget information form. (Instructions are included.)

Provide (at line 21 and attached sheets) a breakdown detailing individual units or activities and amount for each "object class category." For example, for "personnel," show salaries and wages for each staff member by position or name; for "contractual," show consultants, sub-contractual services, materials.

4. Technical Assistance

Any questions regarding a competition should be addressed to the contact person named in the notice inviting applications contained in this package.

5. Reporting Requirements

Each applicant should consider reporting requirements in developing the plan of operation. Performance of financial reports are required at the completion of each project period. Additional guidance will be given prior to the time that the grant is awarded.

Instructions for Estimated Public Reporting Burden

Under terms of the Paperwork Reduction Act of 1980, as amended, and the regulations implementing the Act, the Department of Education invites comment on the public reporting burden in this collection of information. Public reporting burden for this collection of information is estimated to average 27 hours per response, including the time for reviewing instructions, searching exiting data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. You may send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the U.S. Department of Education, Information Management and Compliance Division, Washington, DC 20202–4651; and to the Office of Management and Budget, Paperwork Reduction Project 1850–0651, Washington, DC 20503.

(Information collection approved under OMB control number 1850–0651. Expiration date: November 30, 1993)

BILLING CODE 4000-01-M

OMB Approval No. 0348-0040

ASSURANCES — NON-CONSTRUCTION PROGRAMS

Note: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the awarding agency. Further, certain Federal awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant I certify that the applicant:

1. Has the legal authority to apply for Federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project costs) to ensure proper planning, management and completion of the project described in this application.

2. Will give the awarding agency, the Comptroller General of the United States, and if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.

3. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.

4. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.

5. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§ 4728-4763) relating to prescribed standards for merit systems for programs funded under one of the nineteen statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).

6. Will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§ 1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§ 6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§ 523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. 290 dd-3 and 290 ee-3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. § 3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.

7. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal or federally assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.

8. Will comply with the provisions of the Hatch Act (5 U.S.C. §§ 1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

9. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§ 276a to 276a-7), the Copeland Act (40 U.S.C. § 276c and 18 U.S.C. §§ 874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§ 327-333), regarding labor standards for federally assisted construction subagreements.

Standard Form 424B (4-88)
Prescribed by OMB Circular A-102

Authorized for Local Reproduction

10. Will comply, if applicable, with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program andto purchase flood insurance if the total cost of insurable construction and acquisition is $10,000 or more.

11. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§ 1451 et seq.); (f) conformity of Federal actions to State (Clear Air) Implementation Plans under Section 176(c) of the Clear Air Act of 1955, as amended (42 U.S.C. § 7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended, (P.L. 93-523); and (h) protection of endangered species under the Endangered Species Act of 1973, as amended, (P.L. 93-205).

12. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§ 1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.

13. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. 470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. 469a-1 et seq.).

14. Will comply with P.L. 93-348 regarding the protection of human subjects involved in research, development, and related activities supported by this award of assistance.

15. Will comply with the Laboratory Animal Welfare Act of 1966 (P.L. 89-544, as amended, 7 U.S.C. 2131 et seq.) pertaining to the care, handling, and treatment of warm blooded animals held for research, teaching, or other activities supported by this award of assistance.

16. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§ 4801 et seq.) which prohibits the use of lead based paint in construction or rehabilitation of residence structures.

17. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act of 1984.

18. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations and policies governing this program.

SF 424B (4-88) Back

CERTIFICATIONS REGARDING LOBBYING; DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS; AND DRUG-FREE WORKPLACE REQUIREMENTS

Applicants should refer to the regulations cited below to determine the certification to which they are required to attest. Applicants should also review the instructions for certification included in the regulations before completing this form. Signature of this form provides for compliance with certification requirements under 34 CFR Part 82, "New Restrictions on Lobbying," and 34 CFR Part 85, "Government-wide Debarment and Suspension (Nonprocurement) and Government-wide Requirements for Drug-Free Workplace (Grants)." The certifications shall be treated as a material representation of fact upon which reliance will be placed when the Department of Education determines to award the covered transaction, grant, or cooperative agreement.

1. LOBBYING

As required by Section 1352, Title 31 of the U.S. Code, and implemented at 34 CFR Part 82, for persons entering into a grant or cooperative agreement over $100,000, as defined at 34 CFR Part 82, Sections 82.105 and 82.110, the applicant certifies that:

(a) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the making of any Federal grant, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal grant or cooperative agreement;

(b) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal grant or cooperative agreement, the undersigned shall complete and submit Standard Form - LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions;

(c) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subgrants, contracts under grants and cooperative agreements, and subcontracts) and that all subrecipients shall certify and disclose accordingly.

2. DEBARMENT, SUSPENSION, AND OTHER RESPONSIBILITY MATTERS

As required by Executive Order 12549, Debarment and Suspension, and implemented at 34 CFR Part 85, for prospective participants in primary covered transactions, as defined at 34 CFR Part 85, Sections 85.105 and 85.110 –

A. The applicant certifies that it and its principals:

(a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;

(b) Have not within a three-year period preceding this application been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and

(d) Have not within a three-year period preceding this application had one or more public transactions (Federal, State, or local) terminated for cause or default; and

B. Where the applicant is unable to certify to any of the statements in this certification, he or she shall attach an explanation to this application.

3. DRUG-FREE WORKPLACE (GRANTEES OTHER THAN INDIVIDUALS)

As required by the Drug-Free Workplace Act of 1988, and implemented at 34 CFR Part 85, Subpart F, for grantees, as defined at 34 CFR Part 85, Sections 85.605 and 85.610 –

A. The applicant certifies that it will or will continue to provide a drug-free workplace by:

(a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

(b) Establishing an on-going drug-free awareness program to inform employees about–

(1) The dangers of drug abuse in the workplace;

(2) The grantee's policy of maintaining a drug-free workplace;

(3) Any available drug counseling, rehabilitation, and employee assistance programs; and

(4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

(c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

(d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will–

(1) Abide by the terms of the statement; and

(2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

(e) Notifying the agency, in writing, within 10 calendar days after receiving notice under subparagraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to: Director, Grants and Contracts Service, U.S. Department of Education, 400 Maryland Avenue, S.W. (Room 3124, GSA Regional Office

Building No. 3), Washington, DC 20202-4571. Notice shall include the identification number(s) of each affected grant;

(f) Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph (d)(2), with respect to any employee who is so convicted--

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e), and (f).

B. The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant:

Place of Performance (Street address, city, county, state, zip code)

_____

_____

_____

Check ☐ if there are workplaces on file that are not identified here.

DRUG-FREE WORKPLACE (GRANTEES WHO ARE INDIVIDUALS)

As required by the Drug-Free Workplace Act of 1988, and implemented at 34 CFR Part 85, Subpart F, for grantees, as defined at 34 CFR Part 85, Sections 85.605 and 85.610 --

A. As a condition of the grant, I certify that I will not engage in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance in conducting any activity with the grant; and

B. If convicted of a criminal drug offense resulting from a violation occurring during the conduct of any grant activity, I will report the conviction, in writing, within 10 calendar days of the conviction, to: Director, Grants and Contracts Service, U.S. Department of Education, 400 Maryland Avenue, S.W. (Room 3124, GSA Regional Office Building No. 3), Washington, DC 20202-4571. Notice shall include the identification number(s) of each affected grant.

As the duly authorized representative of the applicant, I hereby certify that the applicant will comply with the above certifications.

Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion -- Lower Tier Covered Transactions

This certification is required by the Department of Education regulations implementing Executive Order 12549, Debarment and Suspension, 34 CFR Part 85, for all lower tier transactions meeting the threshold and tier requirements stated at Section 85.110.

Instructions for Certification

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.

2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

4. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.

5. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

6. The prospective lower tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion--Lower Tier Covered Transactions," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List.

8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

Certification

(1) The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.

(2) Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

Standard Form - LLL

INSTRUCTIONS FOR COMPLETION OF SF-LLL, DISCLOSURE OF LOBBYING ACTIVITIES

This disclosure form shall be completed by the reporting entity, whether subawardee or prime Federal recipient, at the initiation or receipt of a covered Federal action, or a material change to a previous filing, pursuant to title 31 U.S.C. section 1352. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered Federal action. Use the SF-LLL-A Continuation Sheet for additional information if the space on the form is inadequate. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

1. Identify the type of covered Federal action for which lobbying activity is and/or has been secured to influence the outcome of a covered Federal action.
2. Identify the status of the covered Federal action.
3. Identify the appropriate classification of this report. If this is a followup report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last previously submitted report by this reporting entity for this covered Federal action.
4. Enter the full name, address, city, state and zip code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is, or expects to be, a prime or subaward recipient. Identify the tier of the subawardee, e.g., the first subawardee of the prime is the 1st tier. Subawards include but are not limited to subcontracts, subgrants and contract awards under grants.
5. If the organization filing the report in item 4 checks "Subawardee", then enter the full name, address, city, state and zip code of the prime Federal recipient. Include Congressional District, if known.
6. Enter the name of the Federal agency making the award or loan commitment. Include at least one organizational level below agency name, if known. For example, Department of Transportation, United States Coast Guard.
7. Enter the Federal program name or description for the covered Federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans, and loan commitments.
8. Enter the most appropriate Federal identifying number available for the Federal action identified in item 1 (e.g., Request for Proposal (RFP) number; Invitation for Bid (IFB) number; grant announcement number; the contract, grant, or loan award number; the application/proposal control number assigned by the Federal agency). Include prefixes, e.g., "RFP-DE-90-001."
9. For a covered Federal action where there has been an award or loan commitment by the Federal agency, enter the Federal amount of the award/loan commitment for the prime entity identified in item 4 or 5.
10. (a) Enter the full name, address, city, state and zip code of the lobbying entity engaged by the reporting entity identified in item 4 to influence the covered Federal action.

    (b) Enter the full names of the individual(s) performing services, and include full address if different from 10 (a). Enter Last Name, First Name, and Middle Initial (MI).
11. Enter the amount of compensation paid or reasonably expected to be paid by the reporting entity (item 4) to the lobbying entity (item 10). Indicate whether the payment has been made (actual) or will be made (planned). Check all boxes that apply. If this is a material change report, enter the cumulative amount of payment made or planned to be made.
12. Check the appropriate box(es). Check all boxes that apply. If payment is made through an in-kind contribution, specify the nature and value of the in-kind payment.
13. Check the appropriate box(es). Check all boxes that apply. If other, specify nature.
14. Provide a specific and detailed description of the services that the lobbyist has performed, or will be expected to perform, and the date(s) of any services rendered. Include all preparatory and related activity, not just time spent in actual contact with Federal officials. Identify the Federal official(s) or employee(s) contacted or the officer(s), employee(s), or Member(s) of Congress that were contacted.
15. Check whether or not a SF-LLL-A Continuation Sheet(s) is attached.
16. The certifying official shall sign and date the form, print his/her name, title, and telephone number.

Public reporting burden for this collection of information is estimated to average 30 mintues per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0046), Washington, D.C. 20503.

The President

Proclamation 6408—Irish-American Heritage Month, 1992

Federal Register
Vol. 57, No. 45
Friday, March 6, 1992

Presidential Documents

Title 3—

The President

Proclamation 6406 of March 4, 1992

Irish-American Heritage Month, 1992

By the President of the United States of America

A Proclamation

They trace their roots to "an isle of wondrous beauty," to a place "as kind as it is green." They are the more than 40 million Americans who claim Irish ancestry, and this month as communities across the country honor Saint Patrick, the beloved apostle of Ireland, our Nation joins in celebrating their rich heritage.

The distinct heritage of Irish immigrants and their descendants has long been a vibrant part of American history and culture. Sons and daughters of Erin were among the first colonists in America, and many played key roles in our Nation's struggle for independence. Nine of the men who signed our Declaration of Independence were of Irish origin, as was Commodore John Barry, the first naval commander commissioned by the Continental Congress. Another son of Ireland, Charles Thomson, served as the secretary of that body during all 15 years of its existence. Hailed as "the Sam Adams of Philadelphia, the life of the cause of liberty," Thomson labored to help keep the Continental Congress together until America's freedom had been won and a new government under the Constitution had been established. Scores of other Irish-Americans championed the cause of liberty through service in the Continental Army.

Although a significant number of Americans of Irish descent contributed to our Nation's independence, the largest wave of Irish immigration did not reach these shores until the mid-19th century. When a devastating potato blight in the late 1840s led to a series of crop failures and famine, well over a million Irish immigrants journeyed to this land of opportunity. Boston, New York, and other great cities grew with the influx of Irish labor, as did our Nation's railroads, metal trades, and mining communities. One historical portrait of Irish-Americans quotes a 19th-century journal as observing:

> America demands for her development an inexhaustible fund of physical energy, and Ireland supplies the most part of it. There are several sorts of power working at the fabric of this Republic—waterpower, steam-power, and Irish-power. The last works hardest of all.

Such accounts of Irish industry and resolve are, today, inspiring. Yet we know that although it is as glorious as the ancient tales of Brian Boru and as rich as the fields that border the River Shannon, the Irish-American heritage includes its share of hardship.

While farming and other trades were difficult in Ireland, even before the "Black Forties," many 19th-century Irish immigrants faced hard and dangerous work in our Nation's mining towns and cities. The Irish were no strangers to prejudice or discrimination either; they bore the brunt of the "Know-Nothing" nativist movement, and many felt the sting of signs posted by hiring employers that read: "No Irish Need Apply."

Characteristically, however, Irish-Americans proved to be more durable than the forces of bigotry and distrust—even the nickname "the fighting Irish," once used in derision, gradually became an expression of admiration and pride. With faith in Almighty God, with a strength rooted in love of family, and with full confidence in the promise of America, Irish immigrants and their descendants steadily achieved social and economic advancement. Well recognizing the virtues of democracy, Irish-Americans organized effectively at the grassroots level and greatly increased their voice in government during the early part of this century. Moreover, as they had done since the earliest days of our Republic, the Irish home, school, and church together affirmed the importance of faith, industry, and learning. Thus, today we celebrate many outstanding contributions and achievements of Irish-Americans in virtually every sphere of our national life.

Although it spans more than three centuries of American history, the Irish-American heritage continues to flourish on this soil—as perennial as the "wearing o' the green." Annual Saint Patrick's Day events in the United States resonate with a deep and earnest affinity between the American and Irish peoples. In recent years, renewed immigration from Ireland has underscored the strong ties between our two countries.

The Congress, by House Joint Resolution 350, has designated March 1992 as "Irish-American Heritage Month."

NOW, THEREFORE, I, GEORGE BUSH, President of the United States of America, do hereby proclaim March 1992 as Irish-American Heritage Month. I invite all Americans to observe this month with appropriate programs and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this fourth day of March, in the year of our Lord nineteen hundred and ninety-two, and of the Independence of the United States of America the two hundred and sixteenth.

George Bush

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the **Federal Register** as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** will be furnished by mail to subscribers for $340 per year in paper form; $195 per year in microfiche form; or $37,500 per year for the magnetic tape. Six-month subscriptions are also available at one-half the annual rate. The charge for individual copies in paper or microfiche form is $1.50 for each issue, or $1.50 for each group of pages as actually bound, or $175.00 per magnetic tape. Remit check or money order, made payable to the Superintendent of Documents. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250–7954, or charge to your GPO Deposit Account or VISA or Mastercard.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 57 FR 12345.

Rules and Regulations

Federal Register
Vol. 57, No. 46
Monday, March 9, 1992

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 91-NM-120-AD; Amendment 39-8145; AD 92-02-09]

Airworthiness Directives; Airbus Industrie Model A300 Series Airplanes, Excluding Model A300 B4-600 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to Airbus Industrie Model A300 series airplanes, which requires certain structural inspections and modifications. This amendment is prompted by reports of recent incidents involving fatigue cracking and corrosion in transport category airplanes that are approaching or have exceeded their economic design goal. The actions specified by this AD are intended to prevent degradation in the structural capability of the affected airplanes.

DATES: Effective April 13, 1992.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of April 13, 1992.

ADDRESSES: The service information referenced in this AD may be obtained from Airbus Industrie, Airbus Support Division, Avenue Didier Daurat, 31700 Blagnac, France. This information may be examined at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 1100 L Street NW., room 8401, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Greg Holt, Aerospace Engineer, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington 98055-4056; telephone (206) 227-2140; fax (206) 227-1320.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an airworthiness directive (AD) that is applicable to certain Airbus Industrie Model A300 series airplanes, was published in the **Federal Register** on July 12, 1991 (56 FR 31881). That action proposed to require certain structural inspections and modifications.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the comments received.

One commenter requested clarification of the "NOTE" which appears below paragraph (a)(3) of the proposal, specifically: Does the 5-year compliance threshold (reference Airbus Service Bulletin A300-53-146, Revision 6, dated November 9, 1990) apply to the time since the last inspection per AD 85-07-09, Amendment 39-5033? The FAA notes that this 5-year compliance threshold applies from December 12, 1990 [the date of issuance of French AD 90-222-116(B)], and not from the date of last inspection. Airbus Service Bulletin A300-53-197 only converts Area 2 to Area 3 for harmonization of future inspections, and accomplishment of this Service Bulletin is not considered terminating action. Accomplishment of Airbus Service Bulletin A300-53-146 is considered terminating action for Area 1 of Airbus Service Bulletin A300-53-149.

The manufacturer, Airbus Industrie, requested that, since paragraphs (a)(3) and (a)(5) of the AD contain notes that specify compliance thresholds recommended in the related Airbus service bulletins, paragraphs (a)(7) and (a)(13) should also contain a note specifying compliance thresholds in order to provide consistency. Paragraph (a)(7) relates to Revision 5 of Airbus Service Bulletin A300-53-226, dated September 7, 1991, which amends the compliance threshold to recommend action within 5 years after the issuance of French AD 90-222-116(B), but not later than 20 years after the first delivery of the airplane. Paragraph (a)(13) relates to Change Notice 08 of Service Bulletin A300-57-165, dated November 27, 1990, which classifies the Service Bulletin as mandatory, and recommends a compliance threshold of 32,000 landings. The FAA concurs, and a note relaying this information has been added to paragraphs (a)(7) and (a)(13) of the final rule.

Since issuance of the Notice, Airbus Industrie has issued Revision 7 to Service Bulletin A300-53-146, dated April 26, 1991, which revises certain part numbers listed in Revision 6 of the Service Bulletin. The FAA has revised the final rule to reflect these service bulletin revisions as additional service information sources.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule with the changes previously described. The FAA has determined that these changes will neither increase the economic burden on any operator nor increase the scope of the AD.

It is estimated that 66 airplanes of U.S. registry will be affected by this AD, that it will take approximately 512 work hours per airplane to accomplish the required actions, and that the average labor rate is $55 per work hour. Required parts will cost approximately $74,350 per airplane. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be $6,765,660.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location

provided under the caption "ADDRESSES."

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—[AMENDED]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

92-02-09. Airbus Industrie: Amendment 39-8145. Docket No. 91-NM-120-AD.

Applicability: All Model A300 series airplanes, excluding Model A300 B4-600 series airplanes, certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent degradation of the structural capability of the airplane, accomplish the following:

(a) Accomplish the inspections and modifications contained in the Airbus Industrie Service Bulletins listed below, prior to or at the thresholds identified in each of those service bulletins, or within 1,000 landings or 12 months after the effective date of this AD, whichever occurs later. Required inspections must be repeated thereafter at intervals not to exceed those specified in the corresponding service bulletin for the inspection.

(1) A300-53-103, Revision 4, dated June 30, 1983;

(2) A300-53-126, Revision 7, dated November 11, 1990;

(3) A300-53-146, Revision 7, dated April 26, 1991;

Note: This service bulletin provides for a compliance threshold of within 5 years after the date of issuance of French AD 90-222-116(B), issued on December 12, 1990, the accomplishment of which is required by AD 85-07-09, Amendment 39-5033.

(4) A300-53-162, Revision 4, dated November 12, 1990;

(5) A300-53-190, Revision 1, dated November 12, 1990;

Note: This service bulletin provides for a compliance threshold of within 6,000 landings after accomplishment of service bulletin 53-194, accomplishment of which is required by AD 87-04-12, Amendment 39-5536.

(6) A300-53-225, Revision 2, dated May 30, 1990;

(7) A300-53-226, Revision 4, dated November 12, 1990;

Note: This service bulletin provides for a compliance threshold of within 5 years after the issuance of French AD 90-222-116(B), issued on December 12, 1990 (but not later than 20 years after first delivery), the accomplishment of which is required by AD 90-03-08, Amendment 39-6481.

(8) A300-53-278, dated November 12, 1990;

(9) A300-54-045, Revision 4, dated January 31, 1990;

(10) A300-54-060, Revision 2, dated September 7, 1988, and Change Notice 2.A., dated February 13, 1990;

(11) A300-54-063, Revision 1, dated April 22, 1987, and Change Notice 1.A., dated February 13, 1990;

(12) A300-54-066, Revision 1, dated February 15, 1989, and Change Notice 1.A., dated February 13, 1990; and

(13) A300-57-165, dated May 21, 1990, and Change Notice 0B, dated November 27, 1990.

Note: This service bulletin provides for a compliance threshold of prior to the accumulation of 32,000 landings after the issuance of French AD 90-222-116(B), issued on December 12, 1990.

(b) If any of the discrepant conditions identified in the service bulletins are found as a result of the inspections required by this AD, the corresponding corrective action specified in the service bulletins must be accomplished prior to further flight.

(c) An alternative method of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the manager, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate.

Note: The request should be forwarded through an FAA Principal Maintenance Inspector, who may concur or comment and then send it to the Manager, Standardization Branch, ANM-113.

(d) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(e) The inspections and modifications required by this AD shall be done in accordance with the following service bulletins, which include the following lists of effective pages:

Service bulletin No.	Page(s)	Revision No.	Date
A300-53-103	1-4 and 35	4	June 30, 1983.
	5-34 and 36	3	December 21, 1979.

Change Notice 0B to A300-57-165	1	Original	November 27, 1990.
A300-57-165	1-15	Original	May 21, 1990.

This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Airbus Industrie, Airbus Support Division, Avenue Didier Daurat, 31700 Blagnac, France. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 1100 L Street NW., room 8401, Washington, DC.

(f) This amendment (39-8145), AD 92-02-09, becomes effective April 13, 1992.

Issued in Renton, Washington, on December 27, 1991.

James V. Devany,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

[FR Doc. 92-5305 Filed 3-6-92; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 91-NM-169-AD; Amendment 39-8181; AD 92-06-01]

Airworthiness Directives; Boeing Model 747-200, 747-300, and 747-400 Series Airplanes, Equipped With General Electric CF6-80C2 Engines

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: The amendment adopts a new airworthiness directive (AD) applicable to certain Boeing Model 747-200, 747-300, and 747-400 series airplanes, equipped with General Electric CF6-80C2 engines, that requires replacement of certain sections of the engine fuel supply line in the number one, number three, and number four engine struts. This amendment is prompted by reports indicating that the fuel tubes at the number one and number four engine struts do not have sufficient clearance to prevent contact with the surrounding hardware, and by reports indicating that the fuel line and the fire extinguisher line at the number three strut on certain Boeing Model 747-400 series airplanes do not have sufficient clearance to prevent contact and possible wear. The actions specified by this AD are intended to prevent a leak in the fuel line and a potential fire.

DATES: Effective April 13, 1992.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of April 13, 1992.

ADDRESSES: The service information referenced in this AD may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124. This information may be examined at the FAA, Transport Airplane Directorate, Rules Docket, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 1100 L Street NW., room 8401, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. Jon Regimbal, Aerospace Engineer, Propulsion Branch, ANM-140S, Seattle Aircraft Certification Office, FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington 98055-4056; telephone (206) 227-2687; fax (206) 227-1181.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an airworthiness directive (AD) that is applicable to certain Boeing Model 747-200, -300, and -400 series airplanes equipped with General Electric CF6-80C2 engines was published in the **Federal Register** on November 1, 1991 (56 FR 56176). That action proposed to require replacement of certain sections of the engine fuel supply line in the number one, number three, and number four engine struts.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the comments received.

Both commenters support the proposed rule.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule as proposed.

There are approximately 51 Model 747-200, 747-300, and 747-400 series airplanes of the affected design in the worldwide fleet. Currently, no airplanes of U.S. registry would be affected by this AD; therefore, there is no cost impact of this AD on U.S. operators. However, should an affected airplane be imported and placed on the U.S. Register in the future, approximately 28 work hours per airplane would be necessary to accomplish the required actions, and the average labor rate would be $55 per work hour. Based on these figures, the total cost impact of the AD on an affected U.S. operator is estimated to be $1,540 per airplane.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption "ADDRESSES."

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

92-06-01. **Boeing**: Amendment 39-8161. Docket 91-NM-169-AD.

Applicability: Model 747-200, 747-300, and 747-400 series airplanes, equipped with General Electric CF6-80C2 engines; as listed in Boeing Service Bulletin 747-28-2153, dated July 18, 1991, and Boeing Service Bulletin 747-28-2154, dated June 27, 1991; certificated in any category.

Compliance: Required within 6 months after the effective date of this AD, unless accomplished previously.

To prevent the possibility of a fire as a result of fuel leaks, accomplish the following:

(a) For airplanes listed in Boeing Service Bulletin 747-28-2153, dated July 18, 1991: Replace one fuel tube in the number one engine strut and two fuel tubes in the number four engine strut in accordance with the procedures described in that service bulletin.

(b) For airplanes listed in Boeing Service Bulletin 747-28-2154, dated June 27, 1991: Replace two fuel tubes in the number three strut in accordance with the procedures described in that service bulletin.

(c) An alternative method of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Seattle Aircraft Certification Office (ACO), FAA, Transport Airplane Directorate. The request shall be forwarded through an FAA Principal Maintenance Inspector, who may concur or comment and then send it to the Manager, Seattle ACO.

(d) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(e) The replacement shall be done in accordance with Boeing Service Bulletin 747-28-2153, dated July 18, 1991, or Boeing Service Bulletin 747-28-2154, dated June 27, 1991. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR Part 51. Copies may be obtained from Boeing Commercial Airplane Group, P.O. Box 3707, Seattle, Washington 98124. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 1100 L Street NW., Room 8401, Washington, DC.

(f) This amendment becomes effective on April 13, 1992.

Issued in Renton, Washington, on February 18, 1992.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 91-NM-203-AD; Amendment 39-8138; AD 92-02-02]

Airworthiness Directives; British Aerospace Model ATP Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment supersedes an existing airworthiness directive (AD), applicable to all British Aerospace Model ATP series airplanes, which currently requires repetitive applications of an icing inhibitor to each propeller blade. Ice shedding from the propeller blades could strike the fuselage and subsequently result in reduced structural integrity of the fuselage. This amendment adds an additional modification which, if accomplished, will terminate the need for repetitive applications of icing inhibitor. This amendment is prompted by the development of a new propeller blade assembly and ice control timer unit.

DATES: Effective April 13, 1992.

The incorporation by reference of certain publication listed in the regulations is approved by the Director of the Federal Register as of April 13, 1992.

ADDRESSES: The service information referenced in this AD may be obtained from British Aerospace, PLC, Librarian for Service Bulletins, P.O. Box 17414, Dulles International Airport, Washington, DC 20041-0414. This information may be examined at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 1100 L Street NW., 8401, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. William Schroeder, Standardization Branch, ANM-113; telephone (206) 227-2148; fax (206) 227-1320. Mailing address: FAA, Northwest Mountain Region, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington 98055-4056.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations by superseding AD 90-21-12, Amendment 39-6764 (55 FR 41512, October 12, 1990), which is applicable to British Aerospace Model ATP series airplanes, was published in the **Federal Register** on October 8, 1991 (56 FR 50678). That action proposed to add an additional modification which, if accomplished, would terminate the need for repetitive applications of icing inhibitor to the propeller blades.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the single comment received.

The commenter agreed with the proposed requirements of the AD.

After careful review of the available data, including the comment noted above, the FAA has determined that air safety and the public interest require the adoption of the rule as proposed.

It is estimated that 8 airplanes of U.S. registry will be affected by this AD, that it will take approximately 2 work hours per airplane to accomplish the required amendments, and that the average labor cost will be $55 per work hour. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be $880.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this amendment (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this amendment and is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption "**ADDRESSES**."

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—[AMENDED]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by removing Amendment 39-6764, and by adding the following new airworthiness directive:

92-02-02. **British Aerospace**: Amendment 39-8138. Docket 91-NM-203-AD. Supersedes AD 90-21-12, Amendment 39-6764.

Applicability: Model ATP series airplanes, certificated in any category.

Compliance: Required as indicated, unless accomplished previously. To prevent reduced structural integrity of the fuselage, accomplish the following:

(a) Within 50 hours time-in-service after October 29, 1990 (the effective date of AD 90-21-12, Amendment 39-6764), and thereafter at intervals not to exceed 50 hours time-in-service, apply an icing inhibitor to the propeller blades in accordance with British Aerospace Service Bulletin ATP-61-2, Revision 1, dated October 31, 1989, or Revision 2, dated October 25, 1990, or Revision 3, dated April 19, 1991.

(b) Installation of Modification 10129A (installation of ice guards on both the left and right sides of the fuselage) in accordance with British Aerospace Service Bulletin ATP-53-10, dated March 7, 1990; or installation of Modification 10174A (installation of a new propeller digital ice control timer unit and a new propeller blade and roller assembly) in accordance with British Aerospace Service Bulletin ATP-30-13, Revision 1, dated February 15, 1991, constitutes terminating action for the repetitive applications of icing inhibitor to the propeller blades as required by paragraph (a) of this AD.

(c) An alternative method of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate.

Note: The request should be forwarded through an FAA Principal Maintenance Inspector, who may concur or comment and then send it to the Manager, Standardization Branch, ANM-113.

(d) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(e) The icing inhibitor application requirements of this AD must be done in accordance with British Aerospace Service Bulletin ATP-61-2, Revision 1, dated October 31, 1989; or Revision 2, dated October 25, 1990; or Revision 3, dated April 19, 1991; which include the following list of effective pages:

Service bulletin	Page No.	Revision level	Date
ATP-61-2, Revision 1.	1	1	October 31, 1989.
	2, 3	(Original)	July 28, 1989.
ATP-61-2, Revision 2.	1, 2, 3	2	October 25, 1990.
ATP-61-2, Revision 3.	1, 2	3	April 19, 1991.
	3	2	October 25, 1990.

The modifications specified in this AD must be done in accordance with British Aerospace Service Bulletin ATP-53-10, dated March 7, 1990 (for Modification 10129A); and British Aerospace Service Bulletin ATP-30-13, Revision 1, dated February 15, 1991 (for Modification 10174A). This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from British Aerospace, PLC, Librarian for Service Bulletins, P.O. Box 17414, Dulles International Airport, Washington, DC 20041-0414. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 1100 L Street NW., room 8401, Washington, DC.

(f) This amendment (39-8138), AD 92-02-02, becomes effective April 13, 1990.

Issued in Renton, Washington, on December 23, 1991.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 91-NM-170-AD; Amendment 39-8182; AD 92-06-02]

Airworthiness Directives; SAAB-Scania Models SF340A and SAAB 340B Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to SAAB-Scania Models SF-340A and SAAB 340B series airplanes, that requires inspection and modification of the passenger door handle mechanism. This amendment is prompted by reports of cracked spring pins in the door handle attachments. The actions specified by this AD are intended to prevent impeded passenger evacuation during an emergency egress.

DATES: Effective April 13, 1992.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of April 13, 1992.

ADDRESSES: The service information referenced in this AD may be obtained from SAAB-Scania AB, Product Support, S-581.88, Linköping, Sweden. This information may be examined at the FAA, Transport Airplane Directorate, Rules Docket, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 1100 L Street NW., room 8401, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. Mark Quam, Aerospace Engineer, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington 98055-4056; telephone (206) 227-2145; fax (206) 227-1320.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an airworthiness directive (AD) that is applicable to SAAB-Scania Models SF-340A and SAAB 340B series airplanes was published in the **Federal Register** on October 8, 1991 (56 FR 50681). That action proposed to require inspection and modification of the passenger door handle mechanism.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the single comment received.

The commenter supports the proposed rule, but voices concern about the proposed compliance time of 600 landings. The commenter estimates that normal regional air travel may result in eight landings per day. At this rate, the compliance time (600 landings) would occur in 75 days. Five landings per day would result in a compliance schedule of 120 days. The commenter believes that the proposed rule would expose the travelling public to a potential risk longer than desirable, and recommends that the rule be revised to reduce the compliance time to 30 days.

The FAA does not agree with the commenter. The FAA would expect that a pin failure would be detected during normal operation. The door opening mechanism is activated every flight, and is at a time when the failure of the door to open or close would be an obvious indication of a door problem. Since the door opening mechanism is activated every flight, and the potential for a door failure and an emergency evacuation occurring on the same flight are relatively remote, the FAA considers that the commenter's suggested compliance time of 30 days would not significantly increase safety over the proposed compliance time of 600 landings.

After careful review of the available data, including the comment noted above, the FAA has determined that air

safety and the public interest require the adoption of the rule as proposed.

The FAA estimates that 121 airplanes of U.S. registry will be affected by this AD, that it will take approximately 3 work hours per airplane to accomplish the required actions, and that the average labor rate is $55 per work hour. Required parts will be supplied by the manufacturer at no cost to the operators. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be $19,965.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption "ADDRESSES."

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—[AIRWORTHINESS DIRECTIVES]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive.

92-06-02. **SAAB-Scania:** Amendment 39-8182. Docket 91-NM-170-AD.

Applicability: Model SF-340A series airplanes, Serial Numbers 004 through 159; and SAAB 340B series airplanes, Serial Numbers 160 through 259; certificated in any category.

Compliance: Required as indicated, unless accomplished previously.

To prevent impeded passenger evacuation during an emergency egress, accomplish the following:

(a) Within 600 landings after the effective date of this AD, accomplish the following in accordance with SAAB Service Bulletin 340-52-014, dated April 10, 1991:

(1) After removing the two main passenger door handle spring pins (roll pins), perform an inspection of the spring pin holes for proper hole tolerance. If the hole diameter is undersize or oversize, prior to further flight, repair in accordance with the service bulletin.

(2) Replace the two spring pins on the main passenger door handle mechanism with new spring pins, and install additional locking bolts at the upper and lower door handles in accordance with the service bulletin.

(b) An alternative method of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Standardization Branch, ANM-113, FAA, Transport Airplane Directorate. The request should be forwarded through an FAA Principal Maintenance Inspector, who may concur or comment and then send it to the Manager, Standardization Branch, ANM-113.

(c) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate the airplane to a location where the requirements of this AD can be accomplished.

(d) The inspection, repair, and replacement shall be done in accordance with SAAB Service Bulletin 340-52-014, dated April 10, 1991. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from SAAB-Scania AB, Product Support, S-581.88, Linköping, Sweden. Copies may be inspected at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, Washington; or at the Office of the Federal Register, 1100 L Street NW., room 8401, Washington, DC.

(e) This amendment becomes effective on April 13, 1992.

Issued in Renton, Washington, on February 18, 1992.

Darrell M. Pederson,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-M

DEPARTMENT OF JUSTICE

28 CFR Part 16

[AAG/A Order No. 64-92]

Exemption of Records Systems Under the Privacy Act

AGENCY: Department of Justice.

ACTION: Final rule.

SUMMARY: The Department of Justice is exempting a Privacy Act system of records from subsection (d) of the Privacy Act, 5 U.S.C. 552a. This system of records is the "Office of the Inspector General, Freedom of Information/Privacy Acts (FOI/PA) Records, (JUSTICE/OIG-003)." Records in this system may contain information which relates to official Federal investigations and matters of law enforcement of the Office of the Inspector General (OIG) pursuant to the Inspector General Act of 1978, 5 U.S.C. App., as amended by the Inspector General Act Amendments of 1988. Accordingly, where applicable, the exemptions are necessary to avoid interference with the law enforcement functions of the OIG. Specifically, the exemptions are necessary to prevent subjects of investigation from frustrating the investigatory process; preclude the disclosure of investigative techniques; protect the identities and physical safety of confidential sources and of law enforcement personnel; ensure the OIG's ability to obtain information from information sources; protect the privacy of third parties; and safeguard classified information as required by Executive Order 12356.

EFFECTIVE DATE: This rule will be effective March 9, 1992.

FOR FURTHER INFORMATION CONTACT: Patricia E. Neely, (202) 514-6329.

SUPPLEMENTARY INFORMATION: A proposed rule with invitation to comment was published in the **Federal Register** on October 9, 1991. One comment was received regarding the Department's application of the exemption pursuant to 5 U.S.C. 552a(j)(2). The Department responded by explaining that the system contains few original materials and that the exemption is necessary to protect records retrieved from other systems of records subject to the (j)(2) exemption and which are retained also in the FOI/PA system of records to enable the OIG to discharge more efficiently and accurately its responsibilities. Further, the Department explained that it has not claimed the exemption for *all* records in the system; the exemption is claimed only to the extent permitted by law.

This order relates to individuals rather than small business entities. Nevertheless, pursuant to the requirements of the Regulatory Flexibility Act, 5 U.S.C. 601-612, it is hereby stated that the order will not have "a significant economic impact on a substantial number of small entities."

List of Subjects in 28 CFR Part 16

Administrative Practices and Procedures, Courts, Freedom of Information Act, Privacy Act, and Government in the Sunshine Act.

Pursuant to the authority vested in the Attorney General by 5 U.S.C. 552a and delegated to me by Attorney General Order No. 793-78, 28 CFR 16.75 is amended by adding paragraphs (c) and (d) as set forth below.

Dated: February 21, 1992.

Harry H. Flickinger,

Assistant Attorney General for Administration.

1. The authority for part 16 continues to read as follows:

Authority: 5 U.S.C. 301, 552, 552a, 552b(g), 553; 18 U.S.C. 4203(a)(1); 28 U.S.C. 509, 510, 534; 31 U.S.C. 3717, 9701.

2. 28 CFR 16.75 is amended by adding paragraphs (c) and (d) to read as follows: [1]

§ 16.75 Exemption of the Office of the Inspector General Systems/Limited Access.

* * * * *

(c) The following system of records is exempted from 5 U.S.C. 552a(d).

(1) Office of the Inspector General, Freedom of Information/Privacy Acts (FOI/PA) Records (JUSTICE/OIG-003). This exemption applies only to the extent that information in this system is subject to exemption pursuant to 5 U.S.C. 552a (j)(2), (k)(1), and (k)(2). To the extent that information in a record pertaining to an individual does not relate to official Federal investigations and law enforcement matters, the exemption does not apply. In addition, where compliance would not appear to interfere with or adversely affect the overall law enforcement process, the applicable exemption may be waived by the Office of the Inspector General (OIG).

(d) Exemption from subsection (d) is justified for the following reasons:

(1) From the access and amendment provisions of subsection (d) because access to the records contained in this system of records could inform the subject of an investigation of an actual or potential criminal, civil, or regulatory violation of the existence of that investigation; of the nature and scope of the information and evidence obtained as to his activities; of the identity of confidential sources, witnesses, and law enforcement personnel; and of information that may enable the subject to avoid detection or apprehension. These factors would present a serious impediment to effective law enforcement where they prevent the successful completion of the investigation, endanger the physical safety of confidential sources, witnesses, and law enforcement personnel, and/or lead to the improper influencing of witnesses, the destruction of evidence, or the fabrication of testimony. In addition, granting access to such information could disclose security-sensitive or confidential business information or information that would constitute an unwarranted invasion of the personal privacy of third parties. Finally, access to the records could result in the release of properly classified information which would compromise the national defense or disrupt foreign policy. Amendment of the records would interfere with ongoing investigations and law enforcement activities and impose an impossible administrative burden by requiring investigations to be continuously reinvestigated.

[FR Doc. 92-5123 Filed 3-4-92; 8:45 am]

BILLING CODE 4410-01-M

28 CFR Part 16

[AAG/A Order No. 63-92]

Exemption of Records System Under the Privacy Act

AGENCY: Department of Justice.

ACTION: Final rule.

SUMMARY: The Department of Justice is exempting a Privacy Act system of records from subsections (c)(3) and (4), (d), (e)(1), (2), (3), (5), and (8), and (g) of the Privacy Act, 5 U.S.C. 552a. This system of records is the "Office of the Inspector General Investigative Records (JUSTICE/OIG-001)." Information in this system relates to official Federal investigations and matters of law enforcement of the Office of the Inspector General (OIG) pursuant to the Inspector General Act of 1978, 5 U.S.C. App., as amended by the Inspector General Act amendments of 1988. The exemptions are necessary to avoid interference with the law enforcement functions of the OIG. Specifically, the exemptions are necessary to prevent subjects of investigations from frustrating the investigatory process; preclude the disclosure of investigative techniques; protect the identities and physical safety of confidential informants and of law enforcement personnel; ensure the OIG's ability to obtain information from information sources; protect the privacy of third parties; and safeguard classified information as required by Executive Order 12356.

EFFECTIVE DATE: This rule will be effective March 9, 1992.

FOR FURTHER INFORMATION CONTACT: Patricia E. Neely, (202) 514-6329.

SUPPLEMENTARY INFORMATION: A proposed rule with invitation to comment was published in the **Federal Register** on September 25, 1991. One comment was received regarding the Department's application of the exemption pursuant to 5 U.S.C. 552a(j)(2). The Department responded by explaining that the system contains investigative records which are protected by subsection (j)(2) and that the name of the system of records (which may erroneously imply that the system is only an administrative system) will be changed. Accordingly, this final rule reflects the change in the name of the system from "Office of the Inspector General Record Index, JUSTICE/OIG-001" to "Office of the Inspector General Investigative Records, JUSTICE/OIG-001."

This order relates to individuals rather than small business entities. Nevertheless, pursuant to the requirements of the Regulatory Flexibility Act, 5 U.S.C. 601-612, it is hereby stated that the order will not have "a significant economic impact on a substantial number of small entities."

List of Subjects in 28 CFR Part 16

Administrative Practices and Procedure, Courts, Freedom of Information Act, Privacy Act, and Government in the Sunshine Act.

Pursuant to the authority vested in the Attorney General by 5 U.S.C. 552a and delegated to me by Attorney General Order No. 793-78, 28 CFR part 16 is amended by adding a new section, § 16.75, as set forth below.

Dated: February 21, 1992.

Harry H. Flickinger,

Assistant Attorney General for Administration.

1. The authority for part 16 continues to read as follows:

Authority: 5 U.S.C. 301, 552, 552a, 552b(g), 553; 18 U.S.C. 4203(a)(1); 28 U.S.C. 509, 510, 534; 31 U.S.C. 3717, 9701.

2. 28 CFR part 16 is amended by adding § 16.75 to read as follows:

§ 16.75 Exemption of the Office of the Inspector General Systems/Limited Access.

(a) The following system of records is exempted pursuant to the provisions of 5 U.S.C. 552a(j)(2) from subsections (c) (3) and (4), (d), (e)(1), (2), (3), (5), and (8),

[1] A proposal to add Section 16.75 (paragraphs (a) and (b)) was published in the **Federal Register** at 56 FR 48469 on September 25, 1991. A final rule to add these paragraphs; will be published concurrently with this final rule in today's **Federal Register**.

and (g) of 5 U.S.C. 552a. In addition, the following system of records is exempted pursuant to the provisions of 5 U.S.C. 552a(k)(1) and (k)(2) from subsections (c)(3), (d), and (e)(1) of 5 U.S.C. 552a:

(1) Office of the Inspector General Investigative Records (JUSTICE/OIG–001).

These exemptions apply only to the extent that information in this system is subject to exemption pursuant to 5 U.S.C. 552a (j)(2), (k)(1) and (k)(2). Where compliance would not appear to interfere with or adversely affect the law enforcement process, and/or where it may be appropriate to permit individuals to contest the accuracy of the information collected, e.g., public source materials, the applicable exemption may be waived, either partially or totally, by the Office of the Inspector General (OIG).

(b) Exemptions from the particular subsections are justified for the following reasons:

(1) From subsection (c)(3) because release of disclosure accounting could alert the subject of an investigation of an actual or potential criminal, civil, or regulatory violation to the existence of the investigation and the fact that they are subjects of the investigation, and reveal investigative interest by not only the OIG, but also by the recipient agency. Since release of such information to the subjects of an investigation would provide them with significant information concerning the nature of the investigation, release could result in the destruction of documentary evidence, improper influencing of witnesses, endangerment of the physical safety of confidential sources, witnesses, and law enforcement personnel, the fabrication of testimony, flight of the subject from the area, and other activities that could impede or compromise the investigation. In addition, accounting for each disclosure could result in the release of properly classified information which would compromise the national defense or disrupt foreign policy.

(2) From subsection (c)(4) because this system is exempt from the access provisions of subsection (d) pursuant to subsections (j) and (k) of the Privacy Act.

(3) From the access and amendment provisions of subsection (d) because access to the records contained in this system of records could inform the subject of an investigation of an actual or potential criminal, civil, or regulatory violation, of the existence of that investigation; of the nature and scope of the information and evidence obtained as to his activities; of the identity of confidential sources, witnesses, and law enforcement personnel, and of information that may enable the subject to avoid detection or apprehension. These factors would present a serious impediment to effective law enforcement where they prevent the successful completion of the investigation, endanger the physical safety of confidential sources, witnesses, and law enforcement personnel, and/or lead to the improper influencing of witnesses, the destruction of evidence, or the fabrication of testimony. In addition, granting access to such information could disclose security-sensitive or confidential business information or information that would constitute an unwarranted invasion of the personal privacy of third parties. Finally, access to the records could result in the release of properly classified information which would compromise the national defense or disrupt foreign policy. Amendment of the records would interfere with ongoing investigations and law enforcement activities and impose an impossible administrative burden by requiring investigations to be continuously reinvestigated.

(4) From subsection (e)(1) because the application of this provision could impair investigations and interfere with the law enforcement responsibilities of the OIG for the following reasons:

(i) It is not possible to detect relevance or necessity of specific information in the early stages of a civil, criminal or other law enforcement investigation, case, or matter, including investigations in which use is made of properly classified information. Relevance and necessity are questions of judgment and timing, and it is only after the information is evaluated that the relevance and necessity of such information can be established.

(ii) During the course of any investigation, the OIG may obtain information concerning actual or potential violations of laws other than those within the scope of its jurisdiction. In the interest of effective law enforcement, the OIG should retain this information, as it may aid in establishing patterns of criminal activity, and can provide valuable leads for Federal and other law enforcement agencies.

(iii) In interviewing individuals or obtaining other forms of evidence during an investigation, information may be supplied to an investigator which relates to matters incidental to the primary purpose of the investigation but which may relate also to matters under the investigative jurisdiction of another agency. Such information cannot readily be segregated.

(5) From subsection (e)(2) because, in some instances, the application of this provision would present a serious impediment to law enforcement for the following reasons:

(i) The subject of an investigation would be placed on notice as to the existence of an investigation and would therefore be able to avoid detection or apprehension, to improperly influence witnesses, to destroy evidence, or to fabricate testimony.

(ii) In certain circumstances the subject of an investigation cannot be required to provide information to investigators, and information relating to a subject's illegal acts, violations of rules of conduct, or any other misconduct must be obtained from other sources.

(iii) In any investigation it is necessary to obtain evidence from a variety of sources other than the subject of the investigation in order to verify the evidence necessary for successful litigation.

(6) From subsection (e)(3) because the application of this provision would provide the subject of an investigation with substantial information which could impede or compromise the investigation. Providing such notice to a subject of an investigation could interfere with an undercover investigation by revealing its existence, and could endanger the physical safety of confidential sources, witnesses, and investigators by revealing their identities.

(7) From subsection (e)(5) because the application of this provision would prevent the collection of any data not shown to be accurate, relevant, timely, and complete at the moment it is collected. In the collection of information for law enforcement purposes, it is impossible to determine in advance what information is accurate, relevant, timely, and complete. Material which may seem unrelated, irrelevant, or incomplete when collected may take on added meaning or significance as an investigation progresses. The restrictions of this provision could interfere with the preparation of a complete investigative report, and thereby impede effective law enforcement.

(8) From subsection (e)(8) because the application of this provision could prematurely reveal an ongoing criminal investigation to the subject of the investigation, and could reveal investigative techniques, procedures, or evidence.

(9) From subsection (g) to the extent that this system is exempt from the access and amendment provisions of subsection (d) pursuant to subsections (j)(2) and (k)(1) and (k)(2) of the Privacy Act.

BILLING CODE 4410–01–M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 165

[COTP Corpus Christi, Texas, Regulation 01–92]

Safety and Security Zone Regulations; Gulf of Mexico and Corpus Christi Bay

AGENCY: Coast Guard, DOT.

ACTION: Emergency Rule.

SUMMARY: The Coast Guard is establishing safety and security zones in the Gulf of Mexico and Corpus Christi Bay. These zones are needed to safeguard the Spanish replica caravels, NINA, PINTA, and SANTA MARIA, against sabotage or other subversive acts, accidents, or other causes of a similar nature during their visit to Corpus Christi, Texas, in celebration of Christopher Columbus's discovery of the Americas. The safety and security zones will be in place during their arrival and departure transits, and while moored in Corpus Christi Bay. Entry into these zones is prohibited unless authorized by the Captain of the Port.

EFFECTIVE DATES: These regulations become effective at 12:01 a.m. on March 10, 1992, or upon the arrival of the caravels at the seaward limit of the United States territorial sea in the Gulf of Mexico off the entrance to the Aransas jetties (which is located between the Aransas Pass Entrance Lighted Whistle Buoy AP and Aransas Pass Lighted Buoy 3), whichever occurs first; and terminate at 11:59 p.m. on March 23, 1992, or after the last caravel has passed the seaward limit of the United States territorial sea on its departure from Corpus Christi, Texas, whichever occurs first.

Except the stationary waterside safety zone in § 165.T0801(d) becomes effective at 6 a.m. on March 12, 1992, and terminates at 12 p.m. on March 23, 1992.

FOR FURTHER INFORMATION CONTACT: LTJG K. S. ROBERTS at (512) 888–3162.

SUPPLEMENTARY INFORMATION: Under 5 U.S.C. 553, a notice of proposed rulemaking was not published for this regulation and good cause exists for making it effective in less than 30 days after Federal Register publication. Publishing an NPRM and delaying its effective date would be contrary to the public interest since immediate action is needed to prevent damage to or destruction of the caravels and sufficient details on their visit was not available in time to provide for full public participation in this rulemaking effort.

Drafting Information: The drafters of this regulation are LTJG K. S. Roberts, Assistant Chief, Port Operations Department, and CAPT R. J. Reining, Commanding Officer, U.S. Coast Guard Marine Safety Office, Corpus Christi, Texas, and CDR D. Dickman, project attorney, Eighth Coast Guard District, New Orleans, Louisiana.

Discussion of Regulation

The safety and security zones are needed to ensure the safety and security of the caravels while in Corpus Christi, Texas, for Los Barcos, the Columbus Day Fleet Festival, March 13–22, 1992. This festival is part of the United States official Quincentennial Celebration of the 500th anniversary of the Christopher Columbus discovery of the Americas. The caravels are official emissaries of the Kingdom of Spain to the United States. Their visit is intended to promote closer relations between Spain and the United States.

There have been reports published in the local newspaper that certain individuals intend to disrupt or prevent the visit of the caravels to Corpus Christi.

Moving safety zones will protect the caravels during their arrival and departure transits, and their movements within Corpus Christi Bay. Stationary waterside safety and security zones will protect the caravels whenever they are moored within Corpus Christi Bay.

The moving safety zones will be patrolled by Coast Guard and Coast Guard Auxiliary vessels and vessels from other Federal, State, and local law enforcement agencies. Only vessels that are securely moored to fixed structures or beached on the shore and vessels that have prior authorization from the Captain of the Port, Corpus Christi, Texas (COTP), or the Patrol Commander will be allowed within the moving safety zones. Vessels requesting permission to enter a safety or security zone may be boarded and inspected by law enforcement personnel and required to submit a complete list of passengers and crew.

The stationary waterside safety and security zones will be marked by buoys and booms. They will be patrolled by Coast Guard and Coast Guard Auxiliary vessels and vessels from the U.S. Customs Service, Texas Department of Parks and Wildlife, and Corpus Christi Marina Patrol. No vessels, other than the caravels will be permitted within the stationary waterside security zone at the Corpus Christi Barge Dock. Only vessels that have prior authorization from COTP or the Patrol Commander will be allowed within the stationary waterside safety zones and the stationary waterside security zone at Naval Station Ingleside. Vessels requesting permission to enter a stationary waterside safety zone may be boarded and inspected by law enforcement personnel. No swimmers will be permitted within the stationary waterside safety and security zones.

The first moving safety zone, which will surround the caravels during the arrival transit, will be in effect from the time the caravels reach the seaward limit of the United States territorial sea in the Gulf of Mexico off the entrance to the Aransas jetties, which is located between the Aransas Pass Entrance Lighted Whistle Buoy AP and Aransas Pass Lighted Buoy 3, until they moor at either the Naval Station in Ingleside, Texas, or the Barge Dock at Corpus Christi, Texas. The caravels are expected to arrive sometime between March 10th and the morning of March 12, 1992. If they arrive before the morning of March 12, 1992, they will moor at Naval Station Ingleside. If they arrive on March 12th, they will proceed directly to the Barge Dock.

A second moving safety zone will be in effect, if needed, during the transit from Naval Station Ingleside to the Corpus Christi Barge Dock, which is expected to begin at approximately 10 a.m., on March 12, 1992.

The third moving safety zone will be in effect for the departure transit from the Corpus Christi Barge Dock to the seaward limit of the United States territorial sea in the Gulf of Mexico off the entrance to the Aransas jetties, which is located between the Aransas Pass Entrance Lighted Whistle Buoy AP and Aransas Pass Lighted Buoy 3. The transit is expected to begin at approximately 11 a.m., on March 23, 1992. The last caravel should leave the territorial sea before 5 p.m., on March 23, 1992.

A security zone will be established in the waters off the Naval Station Ingleside, while the vessels are moored at the Naval Station. No swimmers or vessels will be permitted inside the security zone without the permission of the Captain of the Port. Permission will be granted to any U.S. Navy vessels, the caravels and their Spanish naval escorts, tugs assisting the caravels, vessels of Spain '92 and the Los Barcos

sponsoring organization, and press boats. No weapons or explosives will be allowed aboard any vessel, other than naval vessels and vessels assisting in the enforcement of the safety zone.

A stationary waterfront security zone will be established in the waters off the Corpus Christi Barge Dock within 75 feet of the caravels, while the vessels are moored at the Barge Dock. No swimmers or vessels will be permitted inside the security zone.

A stationary waterfront safety zone will be established in the waters between the Corpus Christi Barge Dock and the spoil island and breakwater opposite the Barge Dock. No swimmers or vessels will be permitted inside the safety zone without the permission of the Captain of the Port. Permission will be granted to the caravels, tugs assisting the caravels, vessels of the sponsoring organizations, commercial tour boats, and press boats. In addition, a limited number of spectator boats will be allowed to transit through the safety zone during daylight hours, after being boarded by Coast Guard, Corpus Christi Marina Patrol, or the Texas Parks and Wildlife Service. No weapons or explosives will be allowed aboard any vessel, other than those assisting in the enforcement of the safety zone.

In recognition of the public's rights under the First Amendment of the Constitution of the United States of America, arrangements will be made to allow individuals or groups desiring to peacefully protest or demonstrate against the caravels or the exploration and settlement of the Western Hemisphere by Europeans to do so within the safety zone.

The public is advised that anti-swimmer devices may be installed within the waters of the stationary waterside safety and security zones. These devices may pose a threat to the safety and health of anyone swimming in the water in the vicinity of the caravels.

This regulation is issued under 33 U.S.C. 1225 and 1231 and 50 U.S.C. 191, as set out in the authority citation for all of part 165.

Federalism

This proposed action has been analyzed under the principles and criteria contained in Executive Order 12612, and it has been determined that the proposed rulemaking does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Security measures, Vessels, Waterways.

Regulation

In consideration of the foregoing, subpart C of part 165 of title 33, Code of Federal Regulations, is amended as follows:

1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05–1(g), 6.04–1, 6.04–6, and 160.5; 49 CFR 1.46.

2. A new § 165.T0801 is added to read as follows:

§ 165.T0801 Safety and Security Zone: Gulf of Mexico and Corpus Christi Bay.

(a) A moving safety zone exists whenever the Spanish replica caravels NINA, PINTA, or SANTA MARIA are underway within the territorial sea of the United States within the Gulf of Mexico or within Corpus Christi Bay and its approaches. The moving safety zone extends 500 feet ahead of the leading caravel and 250 feet astern of the last caravel, including the intervals between the caravels, and the entire width of the Aransas Pass Entrance Channel and Corpus Christi Ship Channel.

(b) A stationary security zone exists within the waters of Corpus Christi Bay enclosing the western turning basins off the piers of the Naval Station at Ingleside, Texas, whenever the Spanish replica caravels NINA, PINTA, or SANTA MARIA are moored to Naval Station piers A–1 through A–5. The stationary security zone is enclosed by a line drawn from the west end of the Naval Station pier (latitude 27°49'18" N, longitude 97°12'34" W) to the southwest corner of the Naval Station finger pier (latitude 27°49'7" N, longitude 97°12'32" W), thence along the south face of the finger pier to the southeast corner (latitude 27°49'6.5" N, longitude 97°12'31" W), thence along the east face of the finger pier until it joins the main pier (latitude 27°49'18" N, longitude 97°12'26" W), thence along the shoreline to the beginning point. The perimeter of the security zone will be marked by a floating yellow or international orange containment boom.

(c) A stationary security zone exists within the waters of Corpus Christi Bay off the Corpus Christi Barge Dock at Corpus Christi, Texas, whenever the Spanish replica caravels NINA, PINTA, or SANTA MARIA are moored to the Barge Dock. The stationary security zone is a line drawn from the east face of the Barge Dock at a point 75 feet to the south of the first caravel (latitude 27°48'34.2" N, longitude 97°23'33.6" W), thence to a point perpendicular to and 100 feet east of the east face of the Barge Dock (latitude 27°48'34.8" N, longitude 97°23'30.6" W), thence parallel to the Barge Dock to a point 100 feet east of the east face of the Barge Dock and 75 feet north of the last caravel (latitude 27°48'30.5" N, longitude 97°23'30.0" W), thence to a point on the east face of the Barge Dock 75 feet north of the last caravel (latitude 27°48'30.2" N, longitude 97°23'31.3" W). The perimeter of the security zone will be marked by a floating yellow or international orange containment boom.

(d) A stationary safety zone exists within the waters of Corpus Christi Bay between the Corpus Christi Barge Dock at Corpus Christi, Texas, and the breakwater east of and approximately parallel to the Barge Dock. The stationary safety zone is enclosed by lines connecting the Corpus Christi seawall and the breakwater. One line is drawn from the north corner of the Corpus Christi seawall, where the seawall meets the seawall along the Corpus Christi Channel (latitude 27°48'38.0" N, longitude 97°23'33.0" W), to the north end of the breakwater (latitude 27°48'33.8" N, longitude 97°23'18.0" W). The other line is drawn from the south corner of the Barge Dock (latitude 27°48'28.0" N, longitude 97°23'32.0" W) to the south end of the breakwater (latitude 27°48'27.2" N, longitude 97°23'17.0" W). Both lines will be marked by buoys and a floating yellow or international orange containment boom.

(e) *Regulations.* (1) The Captain of the Port is the Captain of the Port, Corpus Christi, Texas.

(2) The Coast Guard Patrol Commander is the commissioned, warrant, or petty officer of the U.S. Coast Guard designated by the Captain of the Port, Corpus Christi, Texas, to serve as the Patrol Commander in charge of enforcing this section. The Coast Guard Patrol Commander will be on board a Coast Guard vessel in the vicinity of the safety or security zone.

(3) No vessel may enter the moving safety zone established in paragraph (a) of this section without the permission of the Captain of the Port or Coast Guard Patrol Commander.

(4) Except for the Spanish replica caravels NINA, PINTA, and SANTA MARIA; the Spanish Navy escort vessel, SN SERVIOLA (P–71); vessels of the United States Navy; and vessels designated by the Captain of the Port to escort the Spanish replica caravels and enforce this section; no vessel may enter or remain in the stationary security zone at Naval Station Ingleside, established in paragraph (b) of this section, without the permission of the Captain of the Port or Coast Guard Patrol Commander.

(5) Except for the Spanish replica caravels NINA, PINTA, and SANTA MARIA no vessel may enter or remain in the stationary security zone at the Corpus Christi Barge Dock, established in paragraph (c) of this section, without the permission of the Captain of the Port or Coast Guard Patrol Commander.

(6) Except for the Spanish replica caravels NINA, PINTA, and SANTA MARIA and vessels designated by the Captain of the Port to escort the Spanish replica caravels and enforce this section; no vessel may enter or remain in the stationary safety zone at the Corpus Christi Barge Dock, established in paragraph (d) of this section, without the permission of the Captain of the Port or Coast Guard Patrol Commander.

(7) No individual may enter or remain in the waters of the stationary waterside security zone at Naval Station Ingleside or the safety and security zones at the Corpus Christi Barge Dock, established in paragraphs (b), (c), and (d) of this section, without the permission of the Captain of the Port .

(8) The Patrol Commander may delegate his authority to permit vessels to enter the stationary waterside safety and security zones established in paragraphs (b) and (d) to the senior Coast Guard boarding officer on board vessels patrolling the perimeter of the safety or security zones.

(9) Vessels desiring to enter one of the safety or security zones may contact:

(i) The Captain of the Port through the Chief, Port Operations Department, U.S. Coast Guard Marine Safety Office, Second Floor, 400 Mann Street, Corpus Christi, Texas, telephone number (512) 888–3162.

(ii) The Coast Guard Patrol Commander by calling on VHF–FM Channel 16 or by coming alongside one of the Coast Guard, Coast Guard Auxiliary, Corpus Christi Marine Patrol, or Texas Department of Public Safety Boats patrolling in the vicinity of the safety of security zone.

(10) Vessels desiring to enter or remain in the safety or security zones may be boarded by either the Coast Guard, U.S. Customs, Texas Department of Parks and Wildlife, or Corpus Christi Marina Patrol to ensure they are in compliance with all applicable Federal or State laws and do not possess any weapons or other articles on board that would pose a threat to the caravels. This paragraph does not apply to naval vessels of the United States or Spain.

(11) Coast Guard vessels will display a flashing blue light while patrolling in the immediate vicinity of the safety and security zones whenever the Coast Guard Patrol Commander is on scene.

(f) *Effective dates.* (1) With the exception of the stationary waterside safety zone in paragraph (d) of this section, this section becomes effective at 12:01 a.m. on March 10, 1992, or upon the arrival of the caravels at the seaward limit of the United States territorial sea in the Gulf of Mexico off the entrance to the Aransas jetties (which is located between the Aransas Pass Entrance Lighted Whistle Buoy AP and Aransas Pass Lighted Buoy 3), whichever occurs first. It terminates at 11:59 p.m. on March 23, 1992, or after the last caravel has passed the seaward limit of the United States territorial sea on its departure from Corpus Christi, Texas, whichever occurs first.

(2) The stationary waterside safety zone in paragraph (d) of this section becomes effective at 6 a.m. on March 12, 1992, and terminates at 12 p.m. on March 23, 1992.

Dated: March 2, 1992.

Robert J. Reining,

Captain, U. S. Coast Guard, Captain of the Port, Corpus Christi, Texas.

BILLING CODE 4910–14–M

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Part 3

RIN 2900–AF06

Mandatory Disclosure of Social Security Numbers

AGENCY: Department of Veterans Affairs.

ACTION: Final rule.

SUMMARY: The Department of Veterans Affairs (VA) has amended its adjudication regulations concerning the disclosure of social security numbers and the discontinuance of compensation and pension benefits. This amendment implements recently enacted legislation. The intended effect of this amendment is to incorporate a requirement for disclosure of social security numbers in VA's adjudication regulations and to establish a date for termination of benefits when the beneficiary fails to disclose his or her social security number.

EFFECTIVE DATE: This amendment is effective November 5, 1990, the date the legislation was signed into law.

FOR FURTHER INFORMATION CONTACT: John Bisset, Jr., Consultant, Regulations Staff, Compensation and Pension Service, Veterans Benefits Administration, Department of Veterans Affairs, 810 Vermont Avenue NW., Washington, DC 20420, (202) 233–3005.

SUPPLEMENTARY INFORMATION: VA published a proposal to add a new § 3.216 to 38 CFR and to amend § 3.500 in the **Federal Register** of April 24, 1991 (56 FR 18796–7). Interested persons were invited to submit written comments, suggestions or objections on or before May 24, 1991. We received one comment from the American Legion.

The commenter expressed concern that many beneficiaries, particularly those receiving benefits via electronic deposit who have failed to keep VA informed of changes in their mailing addresses, might have their benefits terminated without due process of law. The commenter suggests that the 60 day response period is arbitrary and also that VA explore alternative methods of contacting beneficiaries who fail to respond to a VA request for social security numbers.

The Omnibus Budget Reconciliation Act of 1990, Public Law 101–508, amended the Internal Revenue Code of 1986 to allow disclosure to VA of information from Federal tax returns in conjunction with specified VA benefit programs. Public Law 101–508 also authorizes VA to match information from its records against income and death information from other agencies, and makes it mandatory for claimants to furnish social security numbers upon request. Since Congress has taken the cost savings associated with this authority into account in the Budget Reconciliation process, realization of these savings should not be delayed for an indefinite period.

The 60 day period allowed for reply to a request for social security numbers is not arbitrary; it provides a generous period of time for the beneficiary to furnish data already in his or her possession. It also allows time for VA to attempt to discover a current address when the initial request is returned as undeliverable. When VA determines that benefits must be discontinued, 38 CFR 3.105(g) requires that a notice be sent to the beneficiary at his or her latest address of record, and that the beneficiary be given 60 days to reply. Consequently, the beneficiary from whom no response is received would have, at a minimum, an additional 60 days before benefits were terminated for failure to furnish social security numbers as requested.

VA has explored alternative methods of contacting individuals receiving benefits via electronic deposit, and has issued a nationwide press release to inform the general public of the requirement that social security

numbers be of record as a condition of continued receipt of benefits. We have also issued instructions to all field stations concerning additional development procedures to be followed when an initial request for social security numbers is returned as undeliverable. Field stations have been instructed to review the claims folder, telephone directory, and VA hospital records for a more current address. If appropriate, field stations will also contact the service organization or other representative in an attempt to find a more current address. The Postal Service will forward the social security number request and provide VA with a current address if one is available. Where benefits are paid via electronic deposit, VA will contact the financial institution asking it to forward the request for social security numbers to the beneficiary. The Treasury Department is requesting that financial institutions cooperate with VA in this matter.

When a request for social security numbers is returned as undeliverable, VA cannot assume that the reason for the return is not the death of the beneficiary or some other reason which would require termination, nor may it excuse beneficiaries from the statutory obligation to provide social security numbers upon request. VA believes that the steps outlined above provide reasonable protection against premature termination of benefits while ensuring that enforcement of the requirement will not be deferred indefinitely. To further delay discontinuance would be contrary to the purpose of 38 U.S.C. 5101 (formerly 3001).

VA appreciates the comment submitted in response to the proposed rule, which is now adopted with minor technical amendments.

The Secretary hereby certifies that these regulatory amendments will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act (RFA), 5 U.S.C. 601–612. The reason for this certification is that these amendments would not directly affect any small entities. Only VA beneficiaries could be directly affected. Therefore, pursuant to 5 U.S.C. 605(b), these amendments are exempt from the initial and final regulatory flexibility analysis requirements of sections 603 and 604.

In accordance with Executive Order 12291, Federal Regulation, the Secretary has determined that these regulatory amendments are non-major for the following reasons:

(1) They will not have an annual effect on the economy of $100 million or more.

(2) They will not cause a major increase in costs or prices.

(3) They will not have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The information collection requirements contained in § 3.216 of these regulations have been approved by the Office of Management and Budget (OMB) under control number 2900–0522.

The Catalog of Federal Domestic Assistance program numbers are 64.104, 64.105, 64.109 and 64.110.

List of Subjects in 38 CFR Part 3

Administrative practice and procedure, Claims, Handicapped, Health care, Pension, Veterans.

Approved: November 13, 1991.

Edward J. Derwinski,

Secretary of Veterans Affairs.

For the reasons set out in the preamble, 38 CFR part 3, subpart A is amended as set forth below.

PART 3—ADJUDICATION

Subpart A—Pension, Compensation, and Dependency and Indemnity Compensation

1. The authority citation for part 3, subpart A is revised to read as follows:

Authority: 72 Stat. 1114; 38 U.S.C. 501(a).

2. A new § 3.216 is added to read as follows:

§ 3.216 Mandatory disclosure of social security number.

Any person who applies for or receives any compensation or pension benefit as defined in §§ 3.3, 3.4, or 3.5 of this part shall, as a condition for receipt or continued receipt of benefits, furnish the Department of Veterans Affairs upon request with his or her social security number and the social security number of any dependent for whom benefits are sought or received. However, no one shall be required to furnish a social security number for any person to whom none has been assigned. Benefits will be terminated if a beneficiary fails to furnish the Department of Veterans Affairs with his or her social security number or the social security number of any dependent for whom benefits are sought or received, within 60 days from the date the beneficiary is requested to furnish the social security number.

(Authority: 38 U.S.C. 5101)

(Approved by the Office of Management and Budget under control number 2900–0522)

3. In § 3.500, new paragraph (w) and its authority citation are added to read as follows:

§ 3.500 General.

* * * * *

(w) Failure to furnish Social Security number. Last day of the month during which the 60 day period following the date of VA request expires.

(Authority: 38 U.S.C. 5101)

* * * * *

BILLING CODE 8320-01-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Approval and Promulgation of Implementation Plans; Arizona—Maricopa Nonattainment Areas; Carbon Monoxide

[OAQPS No. AZ-3-1-5402; FRL-4100-5]

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA today is approving a revision to the Carbon Monoxide Arizona State Implementation Plan for the Maricopa nonattainment area. Specifically, EPA is approving amendments to the Arizona State oxygenated fuels program to increase the minimum oxygen content level to 2.7 percent and changes to State statute limiting the volatility of gasoline during wintertime to 10 pounds per square inch. EPA is also removing in favor of the State programs the federal regulations on oxygenated fuels and gasoline volatility limits that the Agency promulgated for the Maricopa area on February 11, 1991 (56 FR 5458).

EFFECTIVE DATE: April 8, 1992.

ADDRESSES: The rulemaking docket for this notice, Docket No. 91–AZ–MA–1, may be inspected at the following location between 8 a.m. and 4:30 p.m. on weekdays. A reasonable fee may be charged for copying parts of the docket: U.S. Environmental Protection Agency, Region 9, Air and Toxics Division, Mobile Source Section, A–2–1, 75 Hawthorne Street, San Francisco, California 94105.

FOR FURTHER INFORMATION CONTACT: Frances Wicher, Mobile Source Section, A–2–1, Air and Toxics Division, U.S. Environmental Protection Agency, Region 9, 75 Hawthorne Street, San Francisco, California 94105, (415) 744–1225, FTS: 484–1225.

SUPPLEMENTARY INFORMATION:

I. Background

On February 11, 1991 (56 FR 5458), EPA disapproved portions of the Arizona State Implementation Plan (SIP) and promulgated a federal implementation plan (FIP) under section 110(c) of the Clean Air Act, 42 U.S.C. 7410(c), for the Maricopa County, Arizona, carbon monoxide (CO) nonattainment area. The FIP included regulations requiring that all gasoline intended for use in motor vehicles within the Maricopa nonattainment area contain 2.7 percent (by weight) oxygen and have a volatility of no more than 10 pounds per square inch (psi) during the six-month period from October 1 to March 31 starting October 1, 1991. EPA determined at that time that these two measures are necessary to bring the area into attainment of the CO national ambient air quality standard (NAAQS) by December 31, 1991.

On June 11, 1991, the State of Arizona submitted to EPA Arizona House Bill (H.B.) 2181 which was passed by the Arizona State Legislature and signed by the Governor on May 29, 1991. This bill amends that Arizona Revised Statutes to require all gasoline in the Maricopa CO nonattainment area from September 30 to March 31 of each year starting in 1991 to contain 2.7 percent (by weight) oxygen and to have a volatility of no more than 10 psi.

For the reasons stated in the proposal, 56 FR 40287 (August 14, 1991), EPA proposed to approve Arizona H.B. 2181, withdraw the FIP oxygenated gasoline program and gasoline volatility limit regulations, and grant a waiver to the State of Arizona under Clean Air Act section 211(c)(4). The Agency, however, is leaving in place the other provisions of the FIP promulgated on February 11, 1991, because the State has not yet submitted an attainment demonstration and the conformity and contingency provisions necessary for a complete SIP approval. Therefore, EPA's disapproval of those SIP provisions remains in effect.

II. Response to Comments

EPA received five comments letters on the proposed rulemaking. All comments dealt with the oxygenated fuels program and the gasoline volatility limit. Several letters supported EPA's action to substitute the State rules for the federal regulations. A copy of all comments received on the proposed rulemaking can be found in the docket for this rulemaking.

A. Oxygenated Gasoline Program

In its comments, Chevron U.S.A., Inc. cited the provision for a blending tolerance in the Arizona FIP promulgated by EPA on February 11, 1991 (56 FR 5458). In the notice of final rulemaking, EPA stated that, in its exercise of enforcement discretion, the Agency would allow gasoline blended with methyl-tert-butyl ether (MTBE) to contain up to 2.9 percent oxygen by weight prior to transportation, in order to offset the negative effects of dilution and density on fuels during transportation. As a matter of an enforcement discretion, EPA agreed to accept measurements exceeding the established "substantially similar" standards, without actually amending the requirements of the substantially similar interpretive rule. The "substantially similar" interpretive rule was established by EPA on July 28, 1981 (46 FR 36582) and later revised on February 11, 1991 (56 FR 5352). The rule allows blends of aliphatic alcohol, other than methanol and aliphatic ethers, provided the oxygen content does not exceed 2.7 percent by weight. The comments received from Chevron requested that this blending tolerance be maintained and that EPA make clear to Arizona that a provision for such a blending tolerance would need to be formally adopted before EPA's withdrawal of the federal measure could be completed. This latter request was made although the State had already given Chevron assurances that the 2.9 percent limit would be allowed.

In its proposal, 56 FR 40287, 40288 (August 14, 1991), EPA reiterated its commitment to the exercise of its enforcement discretion with regard to the blending tolerance. However, EPA's statement applies only to federal enforcement of the "substantially similar" rule. The SIP revisions as submtted by the State have been closely reviewed by EPA, and have been found to meet all requirements for approval including equivalency to, or greater stringency than, the federal rules being replaced. EPA does not believe that the State must adopt a blending tolerance before EPA can complete withdrawal of the federal rule. Under section 116 of the CAA, states may adopt more stringent requirements than those mandated by the Act. The choice concerning the use of a blending tolerance or enforcement discretion in implementing its oxygenated fuels program belongs to the State.

Mobil Oil Corporation raised three issues regarding the oxygenated gasoline program. The first comment requested EPA to clarify that the use of any "substantially similar" ethers will be permitted in the program and not just MTBE and ethanol. As the "substantial similar" rule is a federal rule and the Arizona SIP provisions approved today constitute a state program, the SIP does not override the "substantially similar" rule. All oxygenates allowed under the "substantially similar" rule will be found acceptable under the Maricopa County oxygenated gasoline program as a matter of federal law.

Mobil's second comment stated that refiners and blenders should be allowed to use meter reading to calculate the oxygenate content of fuel blends, that this method is superior to current analytical methods for fuel oxygen content determinations, that because of this superiority testing should be required only in cases where calculations based on meter readings could not be established, and that no one test method should be prescribed.

Because Arizona assumes primary responsibility for enforcement of the oxygen content requirements under this rulemaking, this comment is best addressed to the State. In its testing program, Arizona currently adheres to the American Society of Testing and Materials (ASTM) testing standard and method for oxygen content in gasoline. Although there have been some questions raised concerning the data-analysis portions of this method, EPA's position is that the use of a well-established and reproducible testing method is a very valuable component in any state program. The ASTM method is currently the only one which is familiar to all parties involved in the oxygenated gasoline program. Therefore, Arizona's testing program is fully acceptable as a component of the SIP.

Finally, Mobil requested that a testing tolerance be allowed in addition to the blending tolerance discussed above. Again this comment is best directed to the State as it has primary responsibility for enforcing the oxygenated gasoline program. Current ASTM laboratory tests used by the Arizona Department of Weights and Measures include a testing tolerance in the form of reproducibility and repeatability calculations. The establishment of other testing tolerances is left to the State's discretion.

B. Gasoline Volatility Limit

The majority of comments received on the proposal for today's rulemaking addressed the gasoline volatility limit. Several oil companies and refineries

objected to this requirement which would restrict winter gasoline to a Reid Vapor Pressure (RVP) of 10 psi. These comments were based on two lines of reasoning. First, the commenters felt that EPA has presented no clear evidence that reduced volatility can make a significant contribution to reduced CO emissions at the FIP design value of 53 F. Second, they believed that vehicle emissions testing conducted for the American Petroleum Institute (API) and new tests currently underway indicated that the 10 psi RVP requirement will not provide a significant CO emissions reduction at Phoenix wintertime temperatures.

EPA responded to similar comments during its promulgation of the FIP. During the development of the FIP, EPA based its decisions on the same data that are now available. EPA has not received any new information since the FIP promulgation. EPA still believes that the available data (the EPA data detailed in the EPA document "Guidance on Estimating Motor Vehicle Emission Reductions From the Use of Alternative Fuels and Fuel Blends" and the API data) indicate that there is a CO emissions benefit when the RVP of gasoline is reduced to 10 psi in the wintertime. Furthermore, it should be reiterated that EPA believes that the "estimates of the benefits of RVP limit were potentially understated in the attainment demonstration. [T]he high concentrations in the Phoenix area occur in the evening hours and build up over time. The time of peak traffic volumes and slower speeds occurs during warmer conditions when RVP controls would have the most benefit. Therefore using the average temperature over an eight hour period potentially underestimates the benefit of reduced RVP on the ambient CO concentrations in Phoenix." See 56 FR 5458, 5468 (February 11, 1991).

Mobil indicated in its comments that it is performing vehicle emission testing of 10 RVP fuels at the FIP desing temperature. EPA will analyze this new data when it becomes available. However, because the existing data indicate that there is a CO emissions benefit at Phoenix wintertime temperatures, EPA believes that there are adequate grounds to approve the State's wintertime volatility control program and grant a waiver under section 211(c)(4) of the Clean Air Act (CAA).

EPA's FIP volatility limit regulation granted a 1 psi exemption to ethanol blends containing 7.3 percent or more ethanol by volume. A regulation recently adopted by the Arizona Department of Weights and Measures also establishes the same ethanol volume minimum for the 1 psi exemption. ARCO Products Company commented on whether such a minimum ethanol content was necessary. EPA addressed the need for such a minimum in both the proposal and final notice for the FIP indicating that a minimum appeared necessary to assure the emission reductions necessary for attainment and for enforcement purposes. See 55 FR 41204, 41215 (October 10, 1990) and 56 FR 5458, 5467 (February 11, 1991). Mobil commented that there was a potential for non-compliance with the RVP limit where service station tanks containing MTBE blends are delivered fuels containing ethanol. Mobil requested further clarificaton on RVP enforcement during such transitional periods. This is clearly a question of enforcement discretion and because Arizona now has primary responsiblity for enforcement of the RVP requirements, this request is best addressed to the State.

Finally, both the Western States Petroleum Association and Mobil requested a one-month extension of the comment period on the proposal to allow completion of the vehicle testing program on the 10 RVP limit. EPA did not extend the comment period. In its August 14, 1991 notice, EPA proposed two actions regarding the RVP limitation: to approve the Arizona measure and to withdraw the federal regulation *based on the approval of the State measure*. The two proposed actions were coupled. EPA did not propose to withdraw its RVP regulation absent approval of the State measure. Thus a decison not to complete the SIP approval or to disapprove the SIP submittal would have left the federal RVP limitation, which is identical to the Sate limitation, in place. Extending the comment period would therefore not affect the application of the RVP limit to Maricopa County; it would have served only to delay this final action.

III. Finding under Section 211(c)(4)

CAA section 211(c)(4)(A) prohibits a state from prescribing or attempting to enforce any control or prohibition on any characteristic or component of a fuel or fuel additive for the purposes of motor vehicle emission control.

(i) if the Administrator has found that no control or prohibition of the characteristic or component of a fuel or fuel additive under [subsection (c)(1)] is necessary and has published his finding in the **Federal Register** or

(ii) if the Administrator has prescribed under [subsection 211(c)(1)] a control or prohibition applicable to such characteristic or component of the fuel or fuel additive unless the state prohibiton is identical to the prohibition or control prescribed by the Administrator.

Under the first test, EPA has in fact made the opposite demonstration, that the oxygen content and wintertime RVP limit *are necessary* for expeditious attainment of the CO NAAQS in Maricopa County, by promulgating such federal regulations for Maricopa. Under the second test, EPA has concluded that the State rules are essentially identical to those prescribed by EPA.

Section 211(c)(4)(C) allows a state to prescribe and enforce controls or prohibitions on the use of a fuel or fuel additive for the purposes of motor vehicle emission control if the applicable implementation plan allows for it. Section 211(c)(4)(C) also states that the Administrator may approve such provisions in an implementation plan only,

if he finds that the State control or prohibition is necessary to achieve the national primary or secondary ambient air quality standard which the plan implements. The Administrator may find that a State control or prohibition is necessary to achieve the standard if no other measures that would bring about timely attainment exist, or if other measures exist and are technically possible to implement, but are unreasonable or impracticable.

As part of its FIP rulemaking, EPA has already made the findings necessary under section 211(c)(4)(C). EPA evaluated fifty-five measures for controls which it could effectively implement and which could bring about attainment "as soon as possible" as required by the court in *Delaney* v. *EPA*, 898 F.2d 687 (9th Cir. 1990). From its evaluaton, EPA found that the oxygenated gasoline program and the wintertime RVP limitation, combined with existing SIP measures, would result in timely attainment and that no other combination of measures available to EPA would result in attainment any earlier. Included as part of this evaluation were several measures (e.g., mandatory no drive days) that could have brought about attainment earlier yet were rejected because of their potential severe adverse economic or social impacts. Since the State rules are equivalent to the federal rules, EPA need not make any additonal findings under section 211(c)(4)(C).

EPA received no comments on its proposal to grant Arizona a waiver under section 211(c)(4) and no comments received on either the State's oxygenated gasoline program or RVP limitation would lead EPA to revise its conclusions regarding the grounds for such a waiver. Therefore, based upon the above discussion, EPA grants Arizona a waiver under section 211(c)(4) to enforce the State's oxygenated gasoline program and gasoline volatility limit for the Maricopa CO nonattainment area.

IV. Approval of State Measures

EPA today is approving into the SIP for Arizona the provisions in Arizona H.B. 2181 amending the State oxygenated gasoline program for the Maricopa CO nonattainment area to increase the required oxygen content from 2.3 percent to 2.7 percent by weight. EPA is also approving today provisions in H.B. 2181 that restrict the volatility of gasolines sold in the Maricopa CO nonattainment area to 10 psi during the winter season.

Section 211(m)(1) of the Clean Air Act requires all CO nonattainment areas with design values of 9.5 parts per million or greater to adopt and implement by no later than November 1, 1992 an oxygenated gasoline program requiring 2.7 percent oxygen. This section also contains several requirements for the program. These include application of the program to refiners and distributors in the entire metropolitan statistical area (MSA) in which the nonattainment area is located. See section 211(m)(2). The current Arizona program as well as the amended State program being approved today applies only to the Maricopa CO nonattainment area. This nonattainment area is currently defined as the Maricopa Association of Governments urban planning area, which covers the urbanized area around Phoenix; however, the MSA is the entire county.

While the State's oxygenated gasoline program being approved today meets the 2.7 percent oxygen requirement of the CAA, it does not meet these other requirements. However, the Act gives states with moderate CO nonattainment areas such as Maricopa until November 1, 1991 to implement a program consistent with the Act. EPA is today approving the State's enhancements to its oxygenated gasoline program as an equivalent substitution for the current federal program, but the agency is not finding that the enhancements meet all of the requirements of section 211(m). The State must still modify its program by November 1, 1992 or such earlier date as established by EPA to meet these CAA requirements, consistent with EPA's guidance.

The Clean Air Act establishes no standards or prohibitions on the wintertime volatility of gasolines.

V. Withdrawal of Federal Regulations

EPA today is withdrawing the federal oxygenated gasoline program (40 CFR 52.136) and wintertime gasoline volatility limit (40 CFR 52.137) it promulgated on February 11, 1991 for the Maricopa CO nonattainment area. EPA is taking this action because the Arizona SIP, as approved today, now contains fully-approved equivalent programs. These State programs make EPA's regulations unnecessary for attainment and maintenance of the CO NAAQS in the Maricopa area. To leave the federal regulations in place would complicate compliance and enforcement of the programs within Maricopa County and would be unnecessarily redundant. In addition, giving preference to the State programs is consistent with the Clean Air Act intent that states have primary responsibility for the control of air pollution within their borders. See CAA section 101(a)(3).

VI. Regulatory Process

Under 5 U.S.C. section 605(b), I certify that these SIP revisions will not have a significant economic impact on a substantial number of small entities. See 46 FR 5476 (February 11, 1991) for a discussion of the impact of oxygenated gasoline and RVP rules on small entities in Maricopa County.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

BILLING CODE 6560–50–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

42 CFR Part 124

[0905–AD27]

Grants for Hospital Construction and Modernization; Federal Right of Recovery and Waiver of Recovery

AGENCY: Public Health Service, DHHS.

ACTION: Final rule.

SUMMARY: This final rule amends regulations relating to the waiver of the Federal right of recovery for good cause to include instances in which a facility has been acquired from an agency of the United States. Currently, if another agency, having acquired title to an obligated facility in the course of carrying out its responsibilities under Federal law, were to dispose of the facility for operation as anything except a public or nonprofit health care facility, a right of recovery would extend both against the agency as seller and against the purchaser. This amendment is intended to provide a specific waiver that avoids the situation of one Federal agency suing another, while allowing each agency to pursue its responsibilities as reasonably as possible. If the other Federal agency shall have made a good faith effort to dispose of the obligated facility for use as a public or non-profit health care facility, to no avail, then the waiver being sought would allow that agency to dispose of the property as efficiently and as economically as possible, with clear title and without the threat of further action.

EFFECTIVE DATE: This rule is effective March 9, 1992.

FOR FURTHER INFORMATION CONTACT: Donald B. Sylvain, Chief, Medical Facilities Branch, Division of Facilities Assistance and Recovery, Bureau of Health Resources Development, Health Resources and Services Administration,

room 11A-05, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

SUPPLEMENTARY INFORMATION: On December 14, 1990, the Secretary published, at 55 FR 51434, a Notice of Proposed Rulemaking (NPRM) to amend subpart H of part 124 of title 42 of the Code of Federal Regulations, to allow the waiver of the Federal right of recovery when a facility has been acquired from an agency of the United States.

The public comment period on the NPRM closed January 14, 1991. The Department received no written comments.

On March 7, 1986, the Secretary added a new subpart H to part 124 of title 42 CFR, to implement sections 609 and 1622 of the Public Health Service Act (42 U.S.C. 291i, 300s-1a), as amended (51 FR 7935). The regulations provide for recovery of funds by the United States when a health care facility that was constructed with the aid of a grant under titles VI or XVI (the Hill-Burton Program) of the Public Health Service Act is, within 20 years, sold or transferred to an entity that would not have been qualified to receive a grant. The regulations also provide for recovery when, within the same 20-year period, an assisted facility ceases to be a health care facility. In a "cease to be" situation, the statutes and regulations authorize the Secretary to waive the recovery rights of the United States if the Secretary determines, in accordance with applicable regulations, that there is good cause for waiving such rights with respect to a facility. The provisions relating to the good cause waiver are set out in § 124.708.

This final rule amends this section to take into consideration in determining good cause for a waiver that the facility has been acquired from an agency of the United States (e.g., The Federal Housing Administration under its mortgage insurance commitment program) which has made a reasonable effort to dispose of it for operation as a public or nonprofit health care facility.

Regulatory Flexibility Act and Executive Order 12291

The Secretary has determined that this rule will not have a significant economic impact on a substantial number of small entities, and therefore a regulatory flexibility analysis is not required.

Because it will not have an effect on the economy of $100 million or more or otherwise meet the threshold criteria, the Secretary also has determined that this regulation is not a major rule under Executive Order 12291. Thus, a regulatory impact analysis is not required.

Paperwork Reduction Act

This final rule contains no new additional information collection or record keeping requirements.

List of Subjects in 42 CFR Part 124

Grant Programs—Health, Health facilities, Low income persons.

Dated: September 20, 1991.

James O. Mason,

Assistant Secretary for Health.

Approved: December 20, 1991.

Louis W. Sullivan,

Secretary.

Accordingly, 42 CFR part 124 is amended as set forth below:

PART 124—MEDICAL FACILITY CONSTRUCTION AND MODERNIZATION

Subpart H—Recovery of Grant Funds

1. The authority citation for subpart H of part 124 continues to read as follows:

Authority: 42 U.S.C. 291i and 300s-1a.

2. Section 124.708 is amended by adding paragraph (c) as follows:

§ 124.708 Waiver of Recovery—good cause for other use of facility.

* * * * *

(c) The facility has been acquired from an agency of the United States (e.g., the Federal Housing Administration under its mortgage insurance commitment program) which has made a reasonable effort to dispose of it for operation as a public or nonprofit health care facility.

BILLING CODE 4160-15-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Parts 1, 2, and 95

[GEN Docket No. 91-2; FCC 92-22]

Allocation of Spectrum and Establishment of Rules for an Interactive Video and Data Service

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission adopted a Report and Order (Report) that establishes an Interactive Video and Data Service (IVDS), allocates the 218-219 MHz band for its use, and promulgates rules to govern operation of the service. Establishing an IVDS service will permit an array of data communications services and interactive television programs to be provided the public at reasonable cost.

EFFECTIVE DATE: April 8, 1992.

FOR FURTHER INFORMATION CONTACT: Damon C. Ladson, Office of Engineering and Technology, Frequency Allocation Branch, (202) 653-8106.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Report and Order (Report) adopted January 16, 1992, and released February 13, 1992. The full text of Commission decisions are available for inspection and copying during regular business hours in the FCC Dockets Branch (room 239), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's duplication contractor, Downtown Copy Center, (202) 452-1422, 1114 21st Street NW., Washington, DC 20036.

Summary of Report and Order

1. The Report allocates the 218-219 MHz band to IVDS. IVDS is a two-way radio-based data service intended to use broadcast television receivers to display information, product offerings and other services to individual subscribers and to accept interactive data responses from those subscribers. In the Notice of Proposed Rule Making (Notice), 56 FR 10222 (March 11, 1991), the Commission tentatively concluded that, with proper engineering and design, this band could be used for IVDS without disrupting existing services on adjacent frequencies. Based on that conclusion, the Commission proposed to allocate for IVDS the 218-218.5 MHz band as requested by TV Answer, Inc. (TV Answer), the petitioner in this proceeding. The Commission also suggested allocating the entire 218-219 MHz band for IVDS, noting that the subject frequencies were unused, although allocated to the Automated Maritime Telecommunications System (AMTS) in the maritime mobile service. After considering the record in this proceeding in regards to the potential for IVDS, as well as the impact on the AMTS service, the Commission decided the public interest would be served by allocating the entire 218-219 MHz band to IVDS.

2. The Report adopts technical requirements for IVDS systems that are designed primarily to ensure that harmful interference is not caused to TV Channel 13 operations in the 210-216 MHz band and to AMTS operations at 217-218 and 219-220 MHz. For the most part, the technical rules that were proposed in the Notice were based on TV Answer's IVDS system design and interference prevention proposals. Parties responding to those proposals commented on specific technical parameters. After consideration of those comments and our own analysis (see "Test Report, TV Answer Interference Tests," Project No. 91-10, Office of Engineering and Technology, January 10, 1992, placed in the record in this proceeding), we are adopting rules somewhat modified from those in our original proposal. These rules are designed to prevent interference to adjacent services, yet allow flexibility and alternative IVDS technologies.

3. The primary concern in adopting technical rules for IVDS is that interference is not caused to TV Channel 13. That concern required that limits be placed on IVDS transmitters' (for both the base station (cell transmitter station (CTS)), and in-home units (response transmitter unit (RTU)) effective radiated power (ERP), antenna height, CTS separation distance from nearest residence, RTU duty cycle, emissions, and frequency tolerance.

4. With respect to CTS ERP limits, the Commission has adopted the CTS ERP limits proposed in the Notice. These limits are based on an IVDS CTS's location with respect to TV Channel 13 service contours. The maximum CTS ERP is 20 watts. RTU ERP is limited to the minimum power necessary for communication with its associated CTS, up to a maximum of 20 watts. In addition, CTSs are required to maintain automatic power control of associated RTUs. See § 95.855 of the Rule Changes, infra. IVDS CTS and RTU antenna height above average terrain (HAAT) is also limited. The general requirement is that a CTS antenna not exceeded a maximum HAAT of 36.6 meters (120 feet) unless its site is located more than 16 kilometers (10 miles) from the Grade B contour of a TV Channel 13 station. CTS stations beyond that distance can employ antennas with a maximum HAAT of 152.5 meters (500 feet). See § 95.859 (a) of the Rule Changes, infra. RTU antennas must be an integral part of the RTU unit itself. However, exterior RTU antennas will be permitted if installed by an IVDS system operator in connection to a master antenna system. See § 95.859 (c) and (d) of the Rule Changes, infra. To further protect television reception, the Commission has adopted a minimum CTS-to-nearest residence separation distance of 61 meters (200) feet as proposed in the notice. See § 95.859 (b) of the Rule Changes, infra. In addition, the Commission has adopted a maximum duty cycle for IVDS RTUs in order to provide an additional interference safeguard. RTUs will be limited to a maximum duty cycle of five seconds per hour, or alternatively, a duty cycle not to exceed one percent within any 100 millisecond interval. Finally, although an emissions limit and a frequency tolerance was proposed in the notice, the Commission is not imposing those requirements. Instead, IVDS operators will be allowed any emission type and frequency tolerance that results in a system that complies with our out-of-band limits specified in §§ 95.857 and 95.861 of our new rules. See Rule Changes, infra.

5. The purpose of IVDS is to provide information, products, or services to individual subscribers and to accept interactive responses from subscribers. IVDS services are envisioned to be of a personal nature and offered on a subscription basis. Therefore, the Commission decided to regulate IVDS as a private carrier under part 95. Although services will be offered on a subscription basis, the providers will be free to determine to whom, and on what terms, service will be offered. Given the competitiveness of the market for interactive services, the Commission did not discern a public interest reason to legally require that IVDS carriers hold themselves out as providing service to the public indiscriminately, and thereby confer common carrier status. Further, licensees providing IVDS service face competition from other technologies such as the public switched telephone network and interactive (two-way) cable television based systems. Finally, IVDS is not an essential service.

6. In the notice, the Commission proposed to define IVDS service areas using a licensee-defined point-radius (64.4 km radius) approach. However, comments filed in response were persuasive in arguing for pre-designated filing areas. Therefore, the Commission adopted pre-designated filing areas to define local IVDS markets for licensing purposes that are defined in terms of cellular service areas (see Public Notice, Report No. 92-40 (January 24, 1992). Licensees will have exclusive use of their frequencies within their service area.

7. Specific filing procedures for IVDS system license applications will be announced by Public Notice published in the Federal Register. To provide for introduction of IVDS to the public rapidly, and to minimize the filing burden, only FCC Form 155 will be required initially, specifying the applicant's name and address and the service area number (specified in the box labeled "Call Sign or Other FCC identifier) for which the applicant is applying. This form must be submitted with a fee code with the $1400 filing fee, and must be filed in accordance with § 1.1102 of the Rules. Applications not complying with the rules will be dismissed.

8. Selection of a licensee among mutually exclusive applications in each service area will be by lottery. Once a tentative licensee has been selected, that applicant will have two business days to file with the Commission's Licensing Division in Gettysburg, PA, an FCC Form 574 and required attachments as an amendment to its application for an IVDS system license. Tentative licensees not meeting this filing deadline will have their applications dismissed. Those who meet the deadline and have made the appropriate filings will be granted a system license with a block of 40 call signs. This gives the licensee authority to operate up to 40 CTSs (where the antenna does not exceed 6.1 meters above ground or an existing man-made structure) anywhere in its service area. CTSs that have higher antenna heights or require special handling must be individually licensed. Tentative licensees, however, must first obtain their general IVDS system license before filing for special case CTS licenses.

9. Pursuant to 5 U.S.C. 603, an initial Regulatory Flexibility Analysis was incorporated in the *notice of proposed rulemaking* in GEN Docket No. 91-2. Written comments on the proposals in the *notice*, including the Regulatory Flexibility Analysis, were requested.

10. *Need for and Objective of Rules.* Our objective is to establish a consumer-oriented interactive video and data service. The rules adopted herein will allow flexibility in implementing this new service, and ensure the least possible interference to existing services on nearby or adjacent bands.

11. *Issues Raised by the Public in Response to the Initial Analysis.* Most commenters supported allocating spectrum for IVDS, although a majority of those favoring IVDS suggested modifications to specific proposals set forth in the *Notice*. These suggestions did not specifically address the initial regulatory flexibility analysis. We have modified our proposals as appropriate. For example, in the *Notice* we had proposed to define IVDS service areas in terms of a radius from a reference set of coordinates, but now adopt rules that will ease the burden on both the Commission and IVDS applicants by defining IVDS service areas by MSA/RSAs.

12. *Any Significant Alternative Minimizing Impact on Small Entities and Consistent With Stated Objectives.* We have reduced burdens wherever possible. The regulatory burdens we have retained are necessary in order to ensure that the public receives the benefits of this innovative new service in a prompt and efficient manner. In the future we will continue to examine alternatives with the objective of eliminating unnecessary regulations and minimizing any significant economic impact on small entities. The Secretary shall send a copy of this Report and Order to the Chief Counsel for Advocacy of the Small Business Administration.

Ordering Clause

13. Accordingly, *It is Ordered*, that parts 1, 2, and 95 of the Commission's Rules and Regulations are amended as specified below, effective April 8, 1992. This action is taken pursuant to sections 4(i), 7(a), 303(c), (g), and (r), and 309(a) of the Communications Act of 1934, as amended, 47 U.S.C. sections 154(i), 157(a), 303(c), (g), and (r), and 309(a).

Federal Communications Commission.
William F. Caton,
Acting Secretary.

Rule Changes

Parts 1, 2 and 95 of chapter I of title 47 of the Code of Federal Regulations are amend as follows:

PART 1—PRACTICE AND PROCEDURE

1. The authority citation for part 1 continues to read:

Authority: Secs. 4, 303, 48 Stat. 1066, 1082 as amended; 47 U.S.C. 154, 303; Implement. 5 U.S.C. 552, unless otherwise noted.

2. Section 1.926(a)(1) is revised to read as follows:

§ 1.926 Application for renewal of license.

(a) * * *

(1) Renewal of station or system authorizations in the Private Land Mobile Radio Services (part 90 of this chapter), the General Mobile Radio Service (part 95, subpart A of this chapter), and the Interactive Video and Date Service (part 95, subpart F of this chapter) shall be submitted on FCC Form 574–R when the licensee has received that Form in the mail from the Commission. If the licensee has not received the Commission-generated Form 574–R within sixty (60) days of expiration, application for renewal of station or system license shall be submitted on FCC Form 405–A.

* * * * *

3. Section 1.951 is amended by removing paragraph (c), redesignating paragraph (d) as paragraph (c), and revising paragraph (a) to read as follows:

§ 1.951 How applications are distributed.

* * * * *

(a) Special Services Branch

(1) All Aviation Radio Services and Maritime Radio Services applications.

(2) Personal Radio Services applications: Amateur, General Mobile, and Interactive Video and Data.

* * * * *

4. Section 1.952(b) is amended by adding two categories under the heading "Personal Radio Services" to read as follows:

§ 1.952 How file numbers are assigned.

* * * * *

(b) * * *

Personal Radio Services

ZA-General Mobile Radio Service
ZV-Interactive Video and Data Service

* * * * *

5. Section 1.972 is amended in paragraph (a)(1) by adding "Part 95 Subpart F—Personal Radio Services" at the end of the list and revising paragraph (c) to read as follows:

§ 1.972 Grants by random selection.

* * * * *

(c) If there are mutually exclusive applications for an initial license for stations subject to part 80 or part 87, or if there are more applications for an initial license in part 90, part 94 or part 95-subpart F, than can be accommodated on available frequencies, the Commission may process the applications pursuant to a system of random selection. Each such random selection shall be conducted pursuant to an order issued by the Private Radio Bureau and under the direction of the Chief of the Bureau.

* * * * *

6. Section 1.1102 is amended by adding entries 7a(i), 7a(ii), 7b(i), and 7b(ii) to read as follows:

§ 1.1102 Schedule of charges for private radio services.

Action	FCC form No.	Fee amount	Fee type code	Address
* * * * *				
7. General Mobile Radio Service:				
a. New, Modification and/or Renewal (per call sign).				
(i) General Mobile Radio Service	FCC 574	35	PAL	Federal Communications Commission, General Mobile Radio Service, P.O. Box 358230, Pittsburgh, PA 15251–5230
(ii) Interactive Video and Data Service	FCC 574, FCC 155	35	PAV	Federal Communications Commission, Interactive Video and Data Service, P.O. Box 358365, Pittsburgh, PA 15251–5365
b. Renewal of license (per call sign).

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

1. The authority citation in part 2 continues to read:

Authority: Sec. 4, 302, 303, and 307 of the Communications Act of 1934, as amended. 47 U.S.C. 154, 302, 303, and 307 unless otherwise noted.

2. § 2.106, the Table of Frequency Allocations, is amended by revising the entry for 216–220 MHz band in columns 2, 4, 5, and 6 and adding footnote US317 to the list of footnotes at the end of the table as follows:

§ 2.106 Table of frequency allocations.

International table			United States Table		FCC use designators

US317—The band 216.0–219.0 MHz is allocated on a primary basis to the Interactive Video and Data operations.

PART 95—PERSONAL RADIO SERVICES

1. The authority citation for part 95 continues to read as follows:

Authority: Secs. 4, 303, 48 Stat. 1066, 1082, as amended; 47 U.S.C. 154, 303.

2. Section 95.1 is amended by adding paragraph (c) to read as follows:

§ 95.1 The General Mobile Radio Service (GMRS).

* * * * *

(c) The Interactive Video and Data Service (IVDS) is a two-way point-to-multipoint radio service intended for system licensees to provide information, products, and services, and to obtain responses from, subscribers in a specific service area. The rules for this service are contained in subpart F of this part.

3. Part 95 is amended by adding a Subpart F, consisting of §§ 95.801–95.863, to read as follows:

Subpart F—Interactive Video and Data Service (IVDS)

General Provisions

Sec.
95.801 Scope.
95.803 IVDS description.
95.805 Permissible Communications.

System License Requirements

95.811 License requirements.
95.813 Eligibility.
95.815 License application.
95.817 Application for renewal of license.
95.819 License not transferable.
95.821 Application for transfer of control.

95.861 Interference.
95.863 Duty cycle.

Subpart F—Interactive Video and Data Service (IVDS)

General Provisions

§ 95.801 Scope.

This Subpart sets out the regulations governing the licensing and operation of an Interactive Video and Data Service (IVDS) system. The rules in this Subpart are to be read in conjunction with applicable requirements contained elsewhere in the Commission's Rules.

§ 95.803 IVDS description.

(a) An IVDS system is a point-to-multipoint, multipoint-to-point, short distance communications service for its licensee to provide information, products, or services to, and allow interactive responses from, subscribers located at fixed locations in the service area.

(b) The components of each IVDS system are its associated administrative apparatus, its response transmitter units (RTUs), and one or more cell transmitter stations (CTSs). Each IVDS system is authorized for a specific service area, and frequency segment. There can be a maximum of two IVDS systems per service area. There are two frequency segments available for each service area.

(c) Each IVDS system service area is one of the cellular system service areas as defined by the Commission.

§ 95.805 Permissible communications.

(a) Each IVDS system may conduct CTS-to-RTU and RTU-to-CTS communications between the system licensee and its subscriber's locations.

(b) Ancillary CTS-to-CTS communications within the same IVDS system is permitted on a secondary basis.

(c) Direct RTU-to-RTU communications are prohibited.

(d) The licensee may use the IVDS system to interact with its subscribers concerning products and services offered, polls conducted, educational classes taught, and activities in conjunction with broadcast and cable operations.

(e) An IVDS system may provide service to fixed locations within the service area such as private residences, places of business, educational institutions, and local, state, or federal government agencies.

(f) No IVDS system may render a common carrier service.

System License Requirements

§ 95.811 License requirements.

(a) Each IVDS system must be licensed.

(b) Each component CTS where the antenna does not exceed 6.1 meters (m) (20 feet) above ground or an existing man-made structure (other than an antenna structure) are authorized under the IVDS system license. All other component CTSs must be individually licensed to the system licensee.

(c) Each component RTU in an IVDS system is authorized under the IVDS system license or if associated with an individually licensed CTS, under that CTS license.

(d) The term of each IVDS system license and each CTS license is five years.

§ 95.813 Eligibility.

(a) An entity is eligible to hold an IVDS system license and its associated individual CTS licenses if:

(1) The entity is an individual who is not a representative of a foreign government; or

(2) The entity is a partnership and no partner is a representative of a foreign government; or

(3) The entity is a corporation organized under the laws of the United States of America.

(b) No entity is eligible to hold an IVDS system license if:

(1) The entity already holds an IVDS system license or has an interest in an IVDS system license for the same service area.

(2) The entity had an IVDS system license canceled within the past three years for failure to meet the construction requirements specified in § 95.831.

(c) Each individually licensed CTS must also be held by the IVDS system license for the service area in which the CTS is located.

§ 95.815 License application.

(a) An application for an IVDS system license may be filed by an eligible applicant for a service area only when there are less than two existing IVDS system licenses.

(b) Each application for an IVDS system license and each application for a CTS license where the CTS antenna exceeds 6.1 m (20 feet) (See § 95.811(b)) must be made on a separate FCC Form 574. Each application for an IVDS system license must be submitted to the Federal Communications Commission, Interactive Video and Data Service, P.O. Box 358365, Pittsburgh, PA 15251–5230. Each application for the CTS must be submitted to the address set forth in § 1.1102 of this chapter.

(c) Each application shall be personally signed by the applicant, if the applicant is an individual; by one of the partners, if the applicant is a partnership; or by an officer or duly authorized employee, if the applicant is a corporation.

(d) Each application for an IVDS system license must include the following:

(1) A cover sheet specifying the applicant's name and address and the specific service area number and name as defined in § 95.803.

(2) A completed application (FCC Form 574).

(3) A plan showing how the applicant intends to minimize co-channel interference and interference to adjacent channel users and a showing that the proposed system will provide coverage (39 dbu) to at least 50 percent of the population (1990 census) or land area within the service area.

(e) Each IVDS system license is initially licensed for 40 CTSs. Licensees wishing to modify this number must submit a cover sheet as in paragraph (d)(1) of this section and a Form 574 specifying the new number of CTSs.

(f) Each request by an IVDS system licensee to add, delete, or modify an individually licensed CTS (the CTS antenna exceeds 6.1m (20 feet) (See § 95.811(b))) must include the following:

(1) A cover sheet specifying the licensee's name and address and the specific service area number and name where the IVDS system is located.

(2) A description of the system after the proposed addition, deletion, or modification, including the population in the service area, the number of component CTSs, and an explanation of how the system will satisfy the service requirements specified in § 95.831.

(3) A separate application (FCC Form 574) for each CTS that is being added or modified.

(4) The license for each CTS that is being deleted.

(g) Any application not complying with the Commission's Rules will be dismissed.

(h) Each application will be processed on a first-come-first-served basis.

§ 95.817 Application for renewal of license.

(a) Each application for renewal of an IVDS system license and for renewal of each individually licensed CTS shall be submitted on a Commission-generated FCC Form 574–R when the licensee has received that form in the mail from the Commission. If the licensee has not received the Form 574–R within sixty days of expiration, application for renewal shall be submitted on FCC Form 405–A.

(b) Each application for renewal must be submitted as part of a renewal package to the address set forth in § 1.1102 of the Commission's Rules.

(c) The renewal package must include a cover sheet specifying the licensee's name and address and the service area number and name.

§ 95.819 License not transferable.

(a) The licensee may not transfer, assign, sell, or give the IVDS system license or any component CTS license to any other entity until the five year construction benchmark (50 percent coverage) has been met.

(b) Once the five year construction benchmark has been met, the licensee may transfer, sell, assign, or give the IVDS system license together with all of its component CTS licenses to any other entity only in accordance with the provisions of § 95.821. If the licensee sells or gives away the apparatus, the new owner must obtain a new IVDS system license and CTS licenses before placing it in operation.

§ 95.821 Application for transfer of control.

If an IVDS system licensee agrees to a change in control of the station, the holder must request Commission consent for change of control by filing a Form 703. The licensee shall mail the request, together with the filing fee, to the address specified in § 1.1102 of this chapter. The document granting such consent must be kept as part of the IVDS system authorization.

System Requirements

§ 95.831 Service requirements.

Each IVDS system licensee must make the service available to at least 50 percent of the population or land area located within the service area.

§ 95.833 Construction requirements.

(a) Each IVDS system licensee must make the service available to at least 10 percent of the population or area within the service area within one year of grant of the IVDS system license, 30 percent of the population or land area within three years of grant of the IVDS system license, and 50 percent of the population or land area within five years of grant of the IVDS system license. Failure to do so will cancel the IVDS system license automatically. For the purposes of this section, a CTS is not considered as providing service unless that CTS and two associated RTUs are placed in operation.

(b) Each IVDS system licensee must file a progress report at the conclusion of each benchmark period to inform the Commission of the construction status of the system. The report must be addressed to: Federal Communications Commission, Special Services Branch, 1270 Fairfield Road, Gettysburg, PA 17325–7245. The report must include:

(1) A showing of how the system meets the benchmark; and

(2) A list, including addresses, of all component CTSs constructed.

§ 95.835 Station identification.

No RTU or CTS is required to transmit a station identification announcement.

§ 95.837 Station inspection.

Upon request by an authorized Commission representative, the IVDS system licensee must make any component CTS available for inspection.

§ 95.839 Operation in the National Radio Quiet Zone.

(a) Before constructing a CTS in any area within the National Radio Quiet Zone (see § 95.41) or before changing frequency segment, transmitter power, antenna height or directivity, or the coverage area of an existing CTS or RTU located within any area within the National Radio Quiet Zone, the licensee must give written notification thereof to the Interference Office, National Radio Astronomy Observatory, P.O. Box 2, Green Bank, WV 24944.

(b) The notification must include the geographical coordinates of all component CTS antennas, antenna ground elevation above mean sea level, antenna center of radiation above ground level, antenna directivity, proposed frequency, type of emission, and transmitter power.

(c) If an objection to the proposed CTS is received by the Commission from the National Radio Astronomy Observatory at Green Bank, Pocahontas County, WV, for itself or on behalf of the Naval Research Laboratory at Sugar Grove Pendleton County, WV, within 20 days from the date of notification, the Commission will consider all aspects of the problem and take whatever action is deemed appropriate.

§ 95.841 Operation near a Commission monitoring facility.

Each CTS and each RTU transmitting from a location within 1.6 km (1 mile) of a Commission monitoring facility must protect that facility from harmful interference. Failure to do so could result in imposition of restrictions upon the operation of the CTS or RTU by the Engineer-in-Charge of the facility. (Geographical coordinates of the facilities that require protection are listed in § 0.121(c) of this chapter.)

Technical Standards

§ 95.851 Type acceptance.

Each CTS and RTU transmitter must be typed-accepted for use in the IVDS in accordance with Subpart J of Part 2 of this chapter.

§ 95.853 Frequency segments.

(a) Frequency segment A is 218.0–218.500 MHz. Frequency segment B is 218.501–219.0 MHz.

(b) Each CTS and each RTU in the same IVDS system shall transmit in the same assigned frequency segment.

§ 95.855 Transmitter effective radiated power limitation.

(a) The effective radiated power of each CTS and RTU shall be limited to the minimum necessary for successful intercommunication. RTUs must incorporate automatic power control to ensure the minimum power is used. No CTS or RTU may transmit with an effective radiated power (ERP) exceeding 20 watts.

(b) For an IVDS system located in a TV Channel 13 station Grade B predicted contour, the maximum ERP shall be limited as follows:

TV channel 13 service area	Maximum CTS ERP (watts)
City Grade	20
Grade A	7
Grade B	1
Grade B +2 miles	1
Grade B +3 miles	3
Grade B +4 miles	10
Grade B +5 miles and beyond	20

§ 95.857 Emission standards.

(a) All transmissions by each CTS and by each RTU shall use an emission type that complies with the following standard for unnecessary radiation.

(b) All spurious and out-of-band emissions shall be attenuated:

(1) Zero dB on any frequency within the authorized frequency segment.

(2) At least 28 dB on any frequency removed from the midpoint of the assigned frequency segment by more than 250 kHz up to and including 750 kHz;

(3) At least 35 dB on any frequency removed from the midpoint of the assigned frequency segment by more than 750 kHz up to and including 1250 kHz;

(4) At least 43 plus 10 log (base 10) (mean power in watts) dB on any frequency removed from the midpoint of the assigned frequency segment by more than 1250 kHz.

(c) When testing for type acceptance, all measurements of unnecessary radiation are performed using a carrier frequency as close to the edge of the authorized frequency segment as the transmitter is designed to be capable of operating.

(d) The resolution bandwidth of the instrumentation used to measure the emission power shall be 100 Hz for measuring emissions up to and including 250 kHz from the edge of the authorized frequency segment, and 10 kHz for measuring emissions more than 250 kHz from the edge of the authorized frequency segment. If a video filter is used, its bandwidth shall not be less than the resolution bandwidth. The power level of the highest emission within the frequency segment, to which the attenuation is referenced, shall be remeasured for each change in resolution bandwidth.

§ 95.859 Antennas.

(a) No CTS antenna shall be elevated higher than necessary to assure adequate service. No CTS antenna structure, including the radiating elements, tower, supports and all appurtenances, may exceed a maximum Height Above Average Terrain (HAAT), as defined in § 90.309 of this chapter, of 36.6m (120 feet) within an area defined by a boundary line 16 km (10 miles) outside of the Grade B contour of a TV Channel 13 station. When an antenna is

located beyond 16 km (10 miles) from a TV Channel 13 Grade B contour, the HAAT shall not exceed 152.5m (500 feet).

(b) No CTS antenna shall be located within 61m (200 feet) of a residential dwelling.

(c) Except as noted in paragraph (d) of this section, the RTU antenna must be an integral part of the RTU unit.

(d) In buildings with multiple subscribers (10 or more) RTUs can be connected to a master external antenna. The external antenna cannot be more than 6.1m (20 feet) above ground or above an existing man made structure (other than an antenna structure) and is subject to § 95.861.

§ 95.861 Interference.

(a) When an IVDS system suffers harmful interference within its service area from or causes harmful interference to another IVDS system, the licensees of both systems must cooperate and resolve the problem by mutually satisfactory arrangements. If the licensees are unable to do so, the Commission may impose restrictions including, but not limited to, specifying the transmitter power, antenna height, or area or hours of operation of the stations concerned.

(b) The use of any frequency segment at a given geographical location may be denied when, in the judgment of the Commission, its use in that location is not in the public interest; the use of a frequency segment specified for the IVDS system may be restricted as to specified geographical areas, maximum power, or other operating conditions.

(c) Each IVDS system licensee must inform all households located both within a TV Channel 13 station Grade B predicted contour and the CTS service area of the potential for interference from an IVDS system. The IVDS system licensee must also inform those potentially affected households that it will eliminate any objectionable interference caused to television reception by the IVDS system. This notification shall be made no more than two weeks before and no more than two weeks after initiation of IVDS service in that area.

(d) Each IVDS system licensee must provide upon request, and install free of charge, an interference reduction device to any household within a TV Channel 13 station Grade B predicted contour that experiences interference due to a component CTS or RTU.

(e) Each IVDS system licensee must investigate and eliminate interference to television broadcasting and reception, from its component CTSs and RTUs, within 30 days of the time it is notified in writing, by either an affected television station, an affected viewer, or the Commission, of an interference complaint. Should the licensee fail to eliminate the interference within the 30 day period, the CTS or RTU causing the interference must discontinue operation.

(f) The boundaries for each IVDS service area, as defined in § 95.803, are the limit of interference protection for an IVDS system.

§ 95.863 Duty cycle.

The maximum duty cycle of each RTU shall not exceed 5 seconds per hour, or, alternatively, not exceed one percent within any 100 millisecond interval.

47 CFR Parts 73 and 76

[MM Docket No. 91-168, FCC 92-55]

Sponsorship Identification Requirements

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission has reconsidered and revised its rules concerning compliance with the sponsorship identification requirements applicable to political advertisements. This action modifies the requirements recently adopted in the Commission's Report and Order, 57 FR 189 (Jan. 3, 1992) in this docket, released December 23, 1991, 7 FCC Rcd 678 (1992). Due to the urgent need for clarity in this area and the immediacy of numerous primary elections in this important campaign year, it has been determined that the Commission should act promptly to adopt the modified requirements set forth in the text without awaiting completion of the full comment cycle for petitions for reconsideration. Because we do not wish to impose undue burdens upon candidates or broadcasters and seek to minimize disruption of commercials already prepared, political advertisements need not comply with the specific standards adopted herein until April 1, 1992. In the interim, political advertisements will be deemed to satisfy the Commission's sponsorship identification requirements if they comply with either the standards adopted in this Order, or the standards applicable following the December Report and Order.

EFFECTIVE DATE: April 1, 1992.

FOR FURTHER INFORMATION CONTACT: Diane Hofbauer, Office of General Counsel, Federal Communications Commission (202) 632-6990.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Memorandum Opinion and Order in Codification of the Commission's Political Programming Policies, MM Docket No. 91-168. The item was adopted February 12, 1992 and released February 14, 1992. The full text of this ruling is available for inspection and copying during normal business hours in the FCC Dockets Branch (rm. 230), 1919 M Street, NW., Washington, DC. The full text of this item may also be purchased from the Commission's copy contractor, Downtown Copy Center, 1114 21st Street, NW., Washington, DC 20036 (202) 452-1422.

Summary of Memorandum Opinion and Order

1. In our December Report and Order, 57 FR 189 (Jan. 3, 1992) we imposed both an audio and video sponsorship identification requirement for televised political advertisements, but declined to adopt specific objective measurement criteria to use to assess compliance with the video obligation. In response to petitions for reconsideration addressing these particular decisions, we have decided to delete the audio identification requirement and to impose specific, objective standards for video sponsorship identification.

2. In the Notice of Proposed Rulemaking, 56 FR 30526 (July 3, 1991), 6 FCC Rcd. 5707 (1991) in this proceeding, the Commission asked for comment on the possibility of requiring both audio and visual sponsorship identification for television advertisments. Even though most commenters did not address this specific issue, in the Report and Order we adopted the proposal, because we believed that providing both audio and visual information would better inform the public.

3. Petitions for reconsideration were filed by both the Democratic and Republican National Committees objecting to the new audio identification requirement. According to petitioners, adoption of this additional obligation has imposed an excessive burden upon political advertising, particularly with respect to shorter advertisements, such as 10 or 15 second spots. Upon further reflection we agree that requiring any additional audio component that would be of sufficient duration to ensure adequate identification to the average listener may well be unduly burdensome to candidates, particularly for short spot announcements. Thus, upon reconsideration, we have determined that the additional audio identification requirement should not be imposed, and we hereby eliminate that obligation.

4. In the Report and Order we decided that further objective visual requirements were unnecessary. In view of our decision to delete the audio identification rule, however, we believe that the record in this proceeding indicates that certain minimal standards should be articulated with respect to video identification. Thus, we shall henceforth require that in the case of any television political advertisement concerning candidates for public office, the sponsor shall be identified with letters equal to or greater than four percent of the vertical picture height that air for no less than four seconds. Specific visual identification requirements will satisfy the need for more objective guidelines cited by the majority of commenters, will ensure that the sponsor of political advertisements is readily apparent to viewers, and do not appear to be unduly burdensome from a compliance perspective.

5. Commenters originally opposing adoption of specific standards for sponsorship identification were concerned primarily that it would be too difficult to implement with precision the time duration and size requirements. We emphasize that the reasonableness standard traditionally employed by the Commission in evaluating compliance with the Commission's regulations will apply to enforcement of these requirements. We have determined that, rather than imposing undue burdens upon broadcasters, adoption of these standards will significantly assist stations by providing clear standards for compliance with the statutory requirement.

6. Several commenters suggested that if the Commission imposed definitive sponsorship identification standards, broadcasters should have the right to require pre-airing submissions to ensure that advertisements met the Commission's standards. In view of our decision to adopt specific standards for visual identifications with which broadcasters must now comply, we agree that, under normal circumstances, stations must have the right to pre-screen the sponsorship identification element of a political advertisement to ensure that it meets the new standards. However, where there is not enough time for a broadcaster to pre-screen the sponsorship identification in a political advertisement, we will permit the station to run the ad for the first time without risking a Commission finding of a section 317 violation. In the event the station cannot add the required visual identification immediately without taking extraordinary measures, we will allow the station to add only an aural identification, so long as the proper visual identification needed is added within one business day of its first airing. Stations may not refuse to air political advertisements lacking adequate sponsorship identification, but are obligated to add their own identification. We note, however, that licensees need not provide additional time, free of charge, in order to satisfy the sponsorship identification rules, but may include the necessary information within the advertisement itself. Finally, we emphasize that nothing in this ruling alters our prior policies requiring that political advertisements contain information that is sufficient to allow viewers to identify the real sponsor of the ad.

7. Accordingly, *It is ordered,* That the Petitions for Reconsideration filed by People for the American Way and Media Access Project; CBS, Inc.; Capital Cities/ABC, Inc.; The Democratic National Committee and The Democratic Senatorial Committee; The Republican National Committee and The National Republican Senatorial Committee and The National Republican Congressional Committee; National Association of Broadcasters; Multi-Media, Inc.; and A.H. Belo Corporation *et al.* are granted to the extent indicated herein.

8. *It is further ordered,* That, pursuant to authority contained in sections 317, 303(r), and 4(i) of the Communications Act of 1934, as amended, 47 U.S.C. 317, 303(r), 154(i), the Commission's Rules are amended as set forth below effective April 1, 1992.

List of Subjects

47 CFR Part 73

Television broadcasting.

47 CFR Part 76

Administrative practice and procedure, Cable television, Equal employment opportunity, Political candidates, Reporting and recordkeeping requirements.

Federal Communications Commission.

Donna R. Searcy,

Secretary.

Rule Changes

Parts 73 and 76 of title 47 of the Code of Federal Regulations are amended to read as follows:

PART 73—[AMENDED]

1. The authority citation for part 73 continues to read as follows:

Authority: 47 U.S.C. 154, 303.

2. Section 73.1212 is amended by removing the last sentence in paragraph (a)(2)(i) and adding a new paragraph (a)(2)(ii) to read as follows:

§ 73.1212 Sponsorship identification; list retention; related requirements.

(a) * * *

(2) * * *

(ii) In the case of any television political advertisement concerning candidates for public office, the sponsor shall be identified with letters equal to or greater than four percent of the vertical picture height that air for not less than four seconds.

* * * * *

PART 76—[AMENDED]

3. The authority citation for part 76 continues to read as follows:

Authority: Secs. 2, 3, 4, 301, 307, 308, 309, 48 Stat., as amended, 1064, 1065, 1066, 1081, 1082, 1083, 1084, 1085; 47 U.S.C. 152, 153, 154, 301, 303, 307, 308, 309.

4. Section 76.221(a) is amended by revising the last sentence to read as follows:

§ 76.221 Sponsorship identification; list retention; related requirements.

(a) * * * In the case of any political advertisement cablecast under this paragraph that concerns candidates for public office, the sponsor shall be identified with letters equal to or greater than four percent of the vertical picture height that air for not less than four seconds.

* * * * *

BILLING CODE 4712-01-M

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

48 CFR Part 1809

Interim Change to NASA FAR Supplement Prohibiting Contract Awards to Persons Misusing "Made in America" Labels

AGENCY: National Aeronautics and Space Administration.

ACTION: Interim rule with request for comments.

SUMMARY: NASA has revised the NASA FAR Supplement, Subpart 1809.1, to prohibit the award of prime and subcontracts to persons who violate a statutory prohibition against misuse of "Made in America" labels. Public Law 102-195, the NASA Fiscal Year 1992 Authorization Act, states that a person who violates that prohibition is not

eligible for a procurement carried out with amounts authorized under that act.

DATES: This interim rule is effective March 9, 1992; comments must be received by April 8, 1992.

ADDRESSES: Comments should be addressed to Mr. Kenneth I. Jeffries, Procurement Analyst, Procurement Policy Division (Code HP), NASA Headquarters, Washington, DC 20546.

FOR FURTHER INFORMATION CONTACT: Mr. Kenneth I. Jeffries, Telephone: (202) 453–8253.

SUPPLEMENTARY INFORMATION:

Background

Section 18 of the Fiscal Year 1992 NASA Authorization Act (Pub. L. 102–195) states that a person shall not intentionally affix a label bearing the inscription "Made in America", or any inscription with that meaning, to any product sold in or shipped to the United States, if that product is not a domestic product. It also states that a person violating that prohibition shall not be eligible for any contract or subcontract for a procurement carried out with amounts authorized under that act. NASA is implementing the requirement against contracting with persons who wrongfully affix "Made in America" labels by amending subpart 1809.1, Debarment, Suspension, and Ineligibility, to require contracting officers to exclude such persons from NASA prime contracts and subcontracts.

Regulatory Flexibility Act

This interim rule is not expected to have a significant impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 et seq. It is impossible to accurately estimate the number of small entities that will be impacted. Owing to the recent passage of this legislation, the number of entities fraudulently affixing such labels is not known. However, it is anticipated that few, if any, entities doing business with NASA violate the prohibition.

Paperwork Reduction Act

This interim rule does not impose any reporting or recordkeeping requirements which require the approval of OMB under 44 U.S.C. 3501, et seq.

List of Subjects in 48 CFR Part 1809

Government procurement.

Darlene A. Druyun,

Assistant Administrator for Procurement.

1. The authority citation for 48 CFR part 1809 continues to read as follows:

Authority: 42 U.S.C. 2473(c)(1).

PART 1809—CONTRACTOR QUALIFICATIONS

1809.104–70 [Added]

2. Section 1809.104–70 is added to read as follows:

1809.104–70 Ineligibility for NASA contracts and subcontracts.

(a) Public Law 102–195 (the NASA Fiscal Year 1992 Authorization Act) states that a person shall not intentionally affix a label bearing the inscription "Made in America," or any inscription with that meaning, to any product sold in or shipped to the United States, if that product is not a domestic product. A person who violates that prohibition is not eligible for a procurement carried out with amounts authorized under that act, including any subcontract under such a contract.

(b) Contracting officers shall report to the Assistant Administrator for Procurement (Code HP) any violation of this prohibition.

(c) For purposes of this section, the term "domestic product" means a product that—

(1) Is manufactured or produced in the United States; and

(2) At least 50 percent of the cost of the articles, materials, or supplies of which are mined, produced, or manufactured in the United States.

BILLING CODE 7510–01–M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 672

[Docket No. 911176–2018]

Groundfish of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of closure.

SUMMARY: NMFS is establishing a directed fishing allowance and is prohibiting directed fishing for Pacific cod in the Western Regulatory area of the Gulf of Alaska (GOA), statistical area 61. This action is necessary to prevent the total allowable catch (TAC) for Pacific cod in the Western Regulatory area from being exceeded. The intent of this action is to promote optimum use of groundfish while conserving Pacific cod stocks.

EFFECTIVE DATE: 12 noon, Alaska local time (A.l.t.), March 5, 1992, through 12 midnight, A.l.t., December 31, 1992.

FOR FURTHER INFORMATION CONTACT: Patsy A. Bearden, Resource Management Specialist, Fisheries Management Division NMFS, (907) 586–7228.

SUPPLEMENTARY INFORMATION: The domestic and foreign groundfish fisheries in the exclusive economic zone of the GOA are managed by the Secretary of Commerce under the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) under the Magnuson Fishery Conservation and Management Act. The FMP was prepared by the North Pacific Fishery Management Council under the Magnuson Fishery Conservation and Management Act and is implemented by regulations appearing at 50 CFR 611.92 and parts 620 and 672.

The amount of a species or species group apportioned to a fishery is TAC, as stated in § 672.20(a)(2). Under the final notice of specifications (57 FR 2844, January 24, 1992), the amount apportioned to Pacific cod for the Western Regulatory area was set at 23,500 metric tons (mt).

Under § 672.20(c)(2), the Director of the Alaska Region, NMFS (Regional Director), has determined that the amount of Pacific cod apportioned to the Western Regulatory area will soon be reached. Therefore, NMFS is establishing a directed fishing allowance of 22,500 mt, and is setting aside the remaining 1,000 mt of the current apportionment as bycatch to support other anticipated groundfish fisheries. The Regional Director has determined that the directed fishery soon will catch its directed fishing allowance. Consequently, under § 672.20(c)(2), NMFS is prohibiting directed fishing for Pacific cod in the Western Regulatory area, effective from 12 noon, A.l.t., March 5, 1992, through 12 midnight, A.l.t., December 31, 1992.

After this closure, in accordance with § 672.20(g)(3), amounts of Pacific cod retained on board a vessel in the Western Regulatory area may not equal or exceed 20 percent of the amount of all other fish species retained at the same time by the vessel during the same trip as measured in round weight equivalents.

Classification

This action is taken under 50 CFR 672.20 and is in compliance with Executive Order 12291.

List of Subjects in 50 CFR Part 672

Proposed Rules

Federal Register
Vol. 57, No. 46
Monday, March 9, 1992

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

NUCLEAR REGULATORY COMMISSION

10 CFR Part 35

[Docket No. PRM-35-10]

American College of Nuclear Medicine; Receipt of Petition for Rulemaking

AGENCY: Nuclear Regulatory Commission.

ACTION: Petition for rulemaking: Notice of receipt.

SUMMARY: The Commission is publishing for public comment a notice of receipt of a petition for rulemaking which was filed with the Commission by the American College of Nuclear Medicine. The petition was docketed by the Commission on January 14, 1992, and has been assigned Docket No. PRM-35-10. The petitioner requests that the Commission amend its regulations regarding confinement, safety instructions, and precautions used for patients receiving radiopharmaceutical therapy in amounts greater than 30 millicuries.

DATES: Submit comments by May 8, 1992. Comments received after this date will be considered if it is practical to do so but the Commission is able to assure consideration only for comments received on or before this date.

ADDRESSES: Submit written comments to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Service Branch.

For a copy of the petition, write: Rules Review Section, Regulatory Publications Branch, Division of Freedom of Information and Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Telephone: 301-492-7758 or Toll Free: 800-368-5642.

The petition and copies of comments received may be inspected and copied for a fee at the NRC Public Document Room, 2120 L Street NW., (Lower Level), Washington, DC.

FOR FURTHER INFORMATION CONTACT: Michael T. Lesar, Chief, Rules Review Section, Regulatory Publications Branch, Division of Freedom of Information and Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone: 301-492-7758 or Toll Free: 800-368-5642.

SUPPLEMENTARY INFORMATION:

Background

On January 14, 1992, the Nuclear Regulatory Commission (NRC) docketed a petition for rulemaking submitted by the American College of Nuclear Medicine. The petitioner requested amendments to 10 CFR part 35 by deleting the requirement for mandated hospitalization for ambulatory patients receiving oral or IV radiopharmaceuticals in amounts greater than 30 millicuries and allowing patients the option to be treated on an outpatient basis if they qualify medically.

The petitioner states that the requested amendment is in the best interest of patients who require access to affordable quality care and that scientific published data support the changes requested by the petition as consistent with protection of the public as stated in 10 CFR part 35.

Petitioner's Request

The petitioner requests the NRC to revise 10 CFR part 35 to—

(1) Delete the requirement in 10 CFR 35.72(a)(2) that licensees may not authorize release from confinement for medical care any patient administered a radiopharmaceutical until the activity in the patient is less than 30 millicuries;

(2) Amend § 35.75(a)(2) to allow for an outpatient option instead of mandating hospitalization for patients receiving oral or IV radiopharmaceuticals in amounts greater than 30 millicuries.

Reasons for Petition

Section 35.75 prohibits an NRC medical use licensee from releasing from confinement for medical care any patient administered a radiopharmaceutical until certain criteria are met. One of the criteria is that the activity in the patient is less than 30 millicuries. The petitioner believes that the regulation should be changed to allow for temporary home confinement instead of mandating hospitalization. The petitioner claims that with the advent of monoclonal radiolabelled antibodies for diagnosis and treatment, outpatient therapy would provide efficient care and allow costs to be minimized without increased risk to the public. The petitioner also states that published scientific papers attest to the safety of outpatient radiopharmaceutical therapy in doses of up to 400 millicuries of I-131 NaI.

Conclusion

The petitioner states that, if this petition is granted, it would benefit patients by giving them affordable quality care while allowing them to be treated on an outpatient basis instead of being confined to a hospital. The petitioner claims that scientific studies support the finding that treating patients on an outpatient basis with radiopharmaceuticals in doses greater than 30 millicuries would not create a safety hazard to the public.

Dated at Rockville, Maryland, this 3d day of March, 1992.

For the Nuclear Regulatory Commission.

Samuel J. Shilk,

Secretary of the Commission.

[FR Doc. 92-5406 Filed 3-6-92; 8:45 am]

BILLING CODE 7590-01-M

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Chapter III

Regulatory Review

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Request for comment.

SUMMARY: The Federal Deposit Insurance Corporation ("FDIC") is soliciting public comment on which of its regulations and programs impose unnecessary or excessive costs or burdens and what changes can be made to reduce those costs or burdens. This action is being taken to comply with President Bush's request that Federal regulatory agencies evaluate existing regulations and programs and identify and accelerate action on initiatives that will eliminate any unnecessary regulatory burden.

DATES: Written comments must be received on or before April 8, 1992.

ADDRESSES: Written comments shall be addressed to the Office of the Executive Secretary, Federal Deposit Insurance Corporation, 550 17th Street NW., Washington, DC 20429. Comments may be hand-delivered to room F-400, 1776 F Street NW., Washington, DC 20429, on business days between 8:30 a.m. and 5 p.m.

FOR FURTHER INFORMATION CONTACT: William R. Watson, Director, Division of Research and Statistics, Federal Deposit Insurance Corporation, 550 17th Street NW., Washington, DC 20429, (202) 898-3946.

SUPPLEMENTARY INFORMATION: In an effort to promote economic growth and reduce the burden of government regulation, President Bush has requested the major Federal regulatory agencies to conduct a 90-day regulatory review of existing regulations and programs for the purpose of revising those which are unnecessary or burdensome. The President noted that "(a) major part of this undertaking must be to week out unnecessary and burdensome government regulations, which impose needless costs on consumers and substantially impede economic growth."

By memorandum dated January 28, 1992, the President outlined steps to be taken during the 90-day review period. Specifically, the President has asked that each agency work with the public and other interested agencies to (i) identify regulations and programs that impose a substantial cost on the economy and (ii) determine whether each such regulation or program adheres to the following standards:

(1) The expected benefits to society of any regulation should clearly outweigh the expected costs it imposes on society.

(2) Regulations should be fashioned to maximize net benefits to society.

(3) To the maximum extent possible, regulatory agencies should set performance standards instead of prescriptive command-and-control requirements, thereby allowing the regulated community to achieve regulatory goals at the lowest possible cost.

(4) Regulations should incorporate market mechanisms to the maximum extent possible.

(5) Regulations should provide clarity and certainty to the regulated community and should be designed to avoid needless litigation.

At the end of the 90-day review period each federal regulatory agency, including the FDIC, has been asked to report its findings to the President.

In furtherance of the President's regulator review initiative, the FDIC is hereby requesting public comment on which of its regulations and programs impose unnecessary or excessive costs or burdens on the public, the regulated industry, or the economy, and what changes can be made to reduce those costs or burdens.

The FDIC asks that, when responding to this request, commenters (1) identify the regulation and/or program by name and, if possible, by citation to the Code of Federal Regulations or similar citation; (2) provide specific explanations, with examples as appropriate, of the reasons why the program or regulation is unnecessarily costly or burdensome; and (3) provide specific suggestions or recommendations as to how the regulation or program may be improved.

The regulatory review will concentrate exclusively on regulations and programs under the control of the FDIC. Commenters are requested to focus their comments on the FDIC's regulations and programs and to avoid recommending changes to the law.

In connection with this regulatory review, it is noted that section 221 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (the "Improvement Act") requires the Federal Financial Institutions Examination Council ("FFIEC") (of which the FDIC is a member) to conduct a study on regulatory burden with respect to insured depository institutions. Like the President's regulatory review, the objectives of the Improvement Act study are to (1) review policies and procedures, and recordkeeping and documentation requirements used to monitor and enforece compliance with the laws under the jurisdiction of the federal banking agencies; (2) determine which policies and procedures impose unnecessary burdens on insured depository institutions; and (3) identify any revisions to such policies and procedures that could reduce the unnecessary burdens without an adverse impact on safety and soundness or on compliance with or enforcement of consumer laws. The FFIEC must submit a report to Congress describing the identified revisions not later than December 19, 1992. The FDIC also intends to use the input received as a part of the President's regulatory review to assist it as it participates in the Improvement Act study.

By Order of the Board of Directors.

Dated at Washington, DC this 4th day of March, 1992.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

BILLING CODE 6714-01-M

DEPARTMENT OF THE TREASURY

Customs Service

19 CFR Chapter I

Review of Customs Regulations

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Request for comments.

SUMMARY: Pursuant to the President's announcement of a 90-day regulatory review period, the President has asked each agency to identify and eliminate any unnecessary regulatory burden. This document requests that the public assist Customs by filling out and submitting a questionnaire that would identify Customs regulations that are believed to be burdensome, outdated or not cost-effective.

DATE: Responses should be submitted on or before March 25, 1992.

ADDRESS: Responses (preferably in triplicate) shall be addressed to Chairman, Regulatory Reform Working Group, U.S. Customs Service, room 7113, 1301 Constitution Avenue NW., Washington, DC 20229.

FOR FURTHER INFORMATION CONTACT: John O'Loughlin, Regulatory Reform Working Group, 202-566-5853.

SUPPLEMENTARY INFORMATION:

Background

In a Memorandum for Certain Department and Agency Heads signed by the President on January 28, 1992, on the subject of reducing the burden of government regulation, President Bush established a 90-day regulation review period and requested that certain agencies, including the Department of the Treasury, work with the public in an effort to review regulations to reduce their economic burden on the American taxpayer.

A major part of this undertaking is the attempt to weed out regulations which impose needless costs on consumers and substantially impede economic growth. In particular, the President is concerned with regulatory programs that may have been justified when adopted, but fail to keep pace with important innovations and new technologies that could not have been foreseen at the time the regulations were promulgated.

In his memorandum, the President set forth the following standards for effective regulations:

(1) The expected benefits to society of any regulation should clearly outweigh the expected costs it imposes on society.

(2) Regulations should be fashioned to maximize net benefits to society.

(3) To the maximum extent possible, regulatory agencies should set performance standards instead of prescriptive command-and-control requirements, thereby allowing the regulated community to achieve regulatory goals at the lowest possible cost.

(4) Regulations should incorporate market mechanisms to the maximum extent possible.

(5) Regulations should provide clarity and certainty to the regulated community and should be designed to avoid needless litigation.

Customs Request for Public Input

In response to the President's request for review of regulations, Customs has developed a Regulatory Reform Working Group and is making a concerted effort to review all its regulations. In addition, by this document; Customs is asking for the public to assist the agency in determining whether there are any portions of the Customs Regulations which are either outdated or burdensome, as defined by the President.

Customs has prepared the attached form which members of the public may offer suggestions on those Customs regulations which they believe can be eliminated or modified pursuant to the President's initiative. The form is an exact copy of the one sent to all Customs employees by the Regulatory Reform Working Group. Note that the form asks for very specific information on the regulations recommended for modification or repeal. This information is crucial to any decision to amend or repeal regulations and is necessary to be provided at this time due to the time constraints involved in the program. Answer all questions, if you can, and please be as specific as possible. We anticipate a large number of responses and the more detailed information Customs receives, the easier it will be for Customs to evaluate the suggestions.

Please note that this program is in response to the President's call for a 90-day review and therefore, time is of the essence.

Respones should be submitted no later than March 25, 1992. Completed forms should be sent directly to: Chairman, Regulatory Reform Working Group, U.S. Customs Service, room 7113, 1301 Constitution Avenue NW., Washington, DC 20229.

Customs Regulations Review Form

(1) What is the subject of the regulations you are recommending be modified or repealed?

(2) Which sections in particular are you recommending be modified or repealed?

(3) What is the statutory basis for these regulations as they currently exist?

(4) What do you believe is the statutory basis for Customs to amend or repeal these regulations?

(5) What is the exact nature of your suggestion as to how the regulations can be amended or repealed? If you are recommending an amendment, please specify the precise nature of the change.

(6) What is the expected benefit in your suggested modification or repeal? Specify savings in time and/or money and whether to Customs, the public, or both. Quantify, if possible.

(7) Are there any provisions of the Customs Regulations or other agency's regulations which will be affected by your suggested change? Please specify those sections and indicate the impact, if known.

(8) If you are aware of any arguments against Customs making the changes you are recommending, please indicate these and state why you still believe Customs should implement the change.

Approved: March 5, 1992.

Carol Hallett,

Commissioner of Customs.

BILLING CODE 4820-61-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Housing—Federal Housing Commissioner

24 CFR Part 3280

[Docket No. R-92-1497; FR-2622-C-02]

RIN 2502-AE66

Manufactured Home Construction and Safety Standards; Correction

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Proposed rule; Correction.

SUMMARY: On February 24, 1992 (57 FR 6420), the Department published in the **Federal Register**, a proposed rule to amend the Federal Manufactured Home Construction and Safety Standards (FMHCSS) to include preemptive standards significantly upgrading the existing energy conservation requirements. In § 3280.402 of that proposed rule, Figure A–1, Test Procedures for Roof Trusses, was inadvertently omitted from publication. The purpose of this document is to publish that figure.

DATES: Comment due date: May 26, 1992.

FOR FURTHER INFORMATION CONTACT: Donald R. Fairman, Manufactured Housing and Construction Standards Division, Department of Housing and Urban Development, 451 Seventh Street, SW., room 6270, Washington, DC 20410–8000. Telephone (202) 708–0718. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION:

List of Subjects in 24 CFR Part 3280

Fire prevention, Housing standards, Incorporation by references, Manufactured homes.

Accordingly, FR Doc. 92–3603, the proposed rule amending title 24 CFR part 3280, published in the **Federal Register** on February 24, 1992 (57 FR 6420), is corrected to read as follows:

1. The authority citation for 24 CFR part 3280 is proposed to be revised to read as follows and the authority citations following all of the sections in part 3280 are proposed to be removed:

Authority: Secs. 604 and 625 of the National Manufactured Housing Construction and Safety Standards Act of 1974 (42 U.S.C. 5403 and 5424); Sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

2. On page 6438, third column, § 3280.402(c)(1)(i) is corrected by removing the instruction "[Insert Figure A–1.]" and by inserting in its place, "Figure A–1, Test Procedures for Roof Trusses" to read as follows:

§ 3280.402 Test procedure for roof trusses.

DEPARTMENT OF THE TREASURY

Fiscal Service

31 CFR Chapter II

Federal Regulatory Review

AGENCY: Bureau of the Public Debt, Fiscal Service, Department of the Treasury.

ACTION: Federal regulation, review, request for comments.

SUMMARY: This document is being published in response to the President's announcement of a Federal regulatory review. To assist in the review, the Bureau of the Public Debt (31 CFR chapter II, subchapter B) requests the public to provide comments on which Bureau regulations substantially impede economic growth or impose unnecessary costs or burdens. Comments are also requested on proposed changes that would improve the issuance of U.S. government securities.

DATES: Earlier comments are invited, but all comments must be received no later than close of business Friday, March 27, 1992.

ADDRESSES: Comments should be sent to Calvin Ninomiya, Chief Counsel, Bureau of the Public Debt, room 503, 999 E Street, NW., Washington DC 20239-0001.

FOR FURTHER INFORMATION CONTACT: Jacqueline L. Jackson, Office of the Chief Counsel, Bureau of the Public Debt, (202) 219-3320.

SUPPLEMENTARY INFORMATION: On January 28, 1992, as part of his State of the Union Address, President Bush announced a 90-day moratorium and review of regulations. As part of the review process, the President asked agencies to work with the public, other interested agencies, the Office of Information and Regulatory Affairs in the Office of Management and Budget, and the Council on Competitiveness, to identify regulations and programs that impose a substantial burden on the economy and to determine whether regulations and programs adhere to the following standards:

(1) The expected benefits to society of any regulation should clearly outweigh the expected costs it imposes on society.

(2) Regulations should be fashioned to maximize net benefits to society.

(3) To the maximum extent possible, regulatory agencies should set performance standards instead of prescriptive command and control requirements, thereby allowing the regulated community to achieve regulatory goals at the lowest possible cost.

(4) Regulations should incorporate market mechanisms to the maximum extent possible.

(5) Regulations should provide clarity and certainty to the regulated community and should be designed to avoid needless litigation.

As part of its regulatory review, the Bureau of the Public Debt is requesting public comment as to which of its regulations and programs impose substantial burdens on the economy. The Bureau requests that commenters consider the standards listed above and identify, by citation to specific provisions of the Code of Federal Regulations, 31 CFR parts 306 through 391, and to programs that might be improved in light of the standards listed above. Such comments should include not only existing regulatory provisions that are considered burdensome and proposed for elimination, but also specific provisions that should be added to improve Bureau programs.

Dated: March 5, 1992.

Richard L. Gregg,

Commissioner of the Public Debt.

BILLING CODE 4810-40-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Chapter I

[FRL-4113-2]

Open Meetings on How to Develop a National Rule on Architectural and Industrial Maintenance (AIM) Coatings

AGENCY: Environmental Protection Agency.

ACTION: Notice of open meetings.

SUMMARY: As part of its ongoing convening effort to determine the most effective way to reduce emissions of volatile organic compounds (VOC) from the use of paints and coatings, EPA is announcing a "Scope/Data Workgroup" meeting and a general "Overview Exploratory" meeting of those affected by the Agency's current plans to develop a Federal rule for coatings that are applied outdoors—AIM Coatings.

The purpose of the "Scope/Data Workgroup" meeting is to: Help define the scope of a possible Regulatory Negotiation or other consensus-building approach; review existing and planned data collection efforts; determine what additional information would be needed to support an inclusionary rule-making effort—be that Regulatory Negotiation or some other approach; and determine how to generate, amass, and distribute that information in ways that protect appropriate confidentiality. The purpose of the "Overview Exploratory" meeting, using the results of the "scope/data workgroup" meeting, is to continue to:

(1) Explore data needs and how to meet them;

(2) Discuss other issues of concern to affected parties in determining the feasibility and desirability of developing paint and coating emission controls via Regulatory Negotiation or some other consensus-based approach; and

(3) determine the scope, timing, participants, and ground-rules for a negotiation or other consensus-building effort.

DATES: The "Scope/Data Workgroup" meeting will take place on March 19-20 in Washington, DC. The March 19 meeting will start at 12 p.m. and run until completion. On March 20 it will start at 8:30 a.m., and end by 4 p.m. The full "Overview Exploratory" meeting will take place on April 15-16 in Raleigh, North Carolina. The meeting will start at 9 a.m. on April 15 and run until completion. The April 16th meeting will start at 8:30, and end no later than 2 p.m.

ADDRESSES: The March meeting will be held at the Sheraton City Centre, 1143 New Hampshire Avenue, NW., Washington, DC 20037, (202) 775-0800. The April meeting will be held at the Sheraton Raleigh Hotel at Crabtree Valley, 4501 Creedmoor Road, U.S. 70 West, Raleigh, North Carolina, 27612, (919) 787-7111.

FOR FURTHER INFORMATION CONTACT: Persons needing further information on substantive aspects of the rule or meeting logistics should call Barbara Stinson of the Keystone Center, the AIM co-convenor, at 303-468-822. Please inform Sue Deis at the Keystone Center if you plan to attend either of these meetings by March 13, 1992.

Dated: March 3, 1992.

Chris Kirtz,

Director, Consensus and Dispute Resolution Program.

BILLING CODE 6560-50-M

DEPARTMENT OF TRANSPORTATION

Maritime Administration

46 CFR Part 381

[Docket No. M-013]

Liberty Maritime Corporation; Filing of Rulemaking Petition

AGENCY: Maritime Administration, Department of Transportation.

ACTION: Receipt of petition for rulemaking.

SUMMARY: The Maritime Administration (MARAD) has received a petition for rulemaking from Liberty Maritime Corporation (Petitioner). The petition requests that MARAD add two new sections at the end of 46 CFR part 381, Cargo Preference-U.S.-Flag Vessels. The purpose of 46 CFR 381 is to prescribe procedures to be followed by all departments and agencies having responsibility under the Cargo Preference Act of 1954 (which added section 901(b) to the Merchant Marine Act, 1936, as amended) in the administration of their programs with respect to that Act, and to provide a uniform system for the collection of data on the administration of such programs for use in preparing the annual reports to Congress required by that Act.

Petitioner has requested that the text of its proposal be published as an interim final rule. MARAD is precluded from initiating a rulemaking procedure on this matter by the President's 90-day moratorium on the development of new regulations announced January 28, 1992. However, MARAD has decided to publish notice of the Liberty Maritime petition and request comment from members of the public. Comment concerning the need for and content of a rulemaking such as that proposed by Petitioners is invited.

Liberty Maritime's petition in this docket is available for inspection or photocopying during normal office hours in the Office of the Secretary, Maritime Administration, at the address below.

DATES: Comments must be received on or before May 8, 1992.

ADDRESSES: Send an original and two copies of comments to the Secretary, Maritime Administration, room 7300, Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590. To expedite review of the comments, the agency requests, but does not require, submission of an additional ten (10) copies. All comments will be made available for inspection during normal business hours at the above address. Commenters wishing MARAD to acknowledge receipt of comments should enclose a stamped, self-addressed envelop or postcard.

FOR FURTHER INFORMATION CONTACT: Nan Harllee, Associate Administrator for Marketing, Maritime Administration, Washington, DC 20590, telephone (202) 366-4721.

SUPPLEMENTARY INFORMATION: MARAD's authority to promulgate a rule concerning the transportation of dry bulk commodities subject to the Cargo Preference Act of 1954, (46 U.S.C. App. 1241(b) *et seq.*), derives from that Act. As amended by the Merchant Marine Act of 1970, the Cargo Preference Act provides that agencies such as the U.S. Department of Agriculture (USDA) and the Agency for International Development (AID) shall administer their programs "under regulations issued by the Secretary of Transportation," 46 U.S.C. App. 1241(b)(2), who in turn has delegated that authority to MARAD pursuant to 49 CFR 1.66(e).

Petitioner operates six vessels in the United States dry bulk preference trades. In a typical year each of the six vessels completes four to five voyages, transporting an average of 50,000 metric tones of dry bulk commodities on each voyage.

Petitioner has requested, pursuant to Rule 6 of the Maritime Administration Rules of Practice and Procedure (46 CFR 201.61), that MARAD issue a regulation: (I) Requiring all agencies to utilize open tendering or sealed bidding procedures to procure vessels to transport dry bulk commodities subject to the Cargo Preference Act of 1954; and (II) requiring all charters for vessels transporting such commodities to provide for "free out, demurrage and despatch."

"Free out" means that the charterer pays for discharging, as opposed to "berth terms" under which discharging expenses, as well as loading expenses, are for the owner's account. "Demurrage" is a liquidated damages provision under which the owner receives payment as compensation for the lost opportunity of chartering its vessel on another voyage resulting from the charterer's delay. Demurrage is usually a negotiated amount agreed upon by the owner and charterer, and the owner receives demurrage for each day the vessel is delayed in excess of "laytime," typically a stipulated period reflecting a commercially reasonable period for the charterer to load or discharge the vessel. "Despatch" is a payment from the owner to the charterer for completing loading or discharging more expeditiously than was contemplated under the charter's laytime provision, thus permitting the owner to charter its vessel on another voyage. Despatch is usually half the daily demurrage rate.

Petitioner believes that a rule such as that proposed will correct two of what it perceives as the most egregious problems afflicting the ocean transportation of dry bulk commodities subject to the Cargo Preference Act: (1) Obtaining such transportation by "auctioning;" and (2) excessive port fees in the discharging of vessels and delays in the loading and discharging of vessels. It states that the first proposed reform will prevent improper "auctioning" by requiring sealed bidding or open tendering, which it says will foster procurement of ocean transportation for U.S. food aid programs at the lowest rate possible. The second proposed reform, which recommends adoption of standard commercial charter terms relating to certain aspects of loading and discharging, is advanced because Petitioner believes it will also result in substantial freight savings for the United States by employing commercial practices in preference cargo charters. Petitioner states that such terms—"free out, demurrage and despatch"—sensibly allocate the cost of discharging and the burden of delays in vessel loading and discharging upon the persons most able to control such costs and delays rather than vessel owners. Their absence in preference cargo charters, it argues, allows countries that are the recipient of commodities under aid programs administered by USDA or AID to discriminate against a U.S.-flg vessel carrying preference cargoes by forcing it to wait until a vessel carrying commercial cargoes under charters containing demurrage/despatch provisions discharges its cargo and then charging unreasonable discharge fees for that unloading.

Petitioner proposed new § 381.9 and 381.10 to be added at the end of 46 CFR part 381 to read as follows:

Section 381.9 Contracting Procedures.

(a) *Invitations for bids ("IFBs").*

(1) Public freight IFBs are required in the solicitation of bids for the ocean transporation by all U.S.-flag vessels of all dry bulk cargoes that are subject to the Cargo Preference Act of 1954. Such requirement may only be waived by joint authorization from:

(i) The Contracting Officer (as used in this section, "Contracting Officer" includes the Procurement Executive in the case of Agency for International Development procurement); and

(ii) The Maritime Administrator or a person designated by him.

(2) Prior to release to the trade, all IFBs must be submitted to the Contracting Officer and the Maritime Administrator or a person designated by him for approval. IFBs must be submitted to the Contracting Officer and the Maritime Administrator or a person designated by him for approval. IFBs must be issued by means of the Transportation News Ticker, New York, plus at lease one other means of communication, to assure the broadest possible market coverage with adequate notice to interested parties.

(3) All IFBs must: (i) Specify the terms of the offer;

(ii) Specify that all bids must be in writing;

(iii) Specify the place for the receipt of bids and the date and time when the bids shall be opened;

(iv) Specify a closing time for the submission of bids and state that late bids will not be considered and that it is the responsibility of bidders to ensure receipt of their bids; and

(v) Provide that bids are required to have a cancelling date no later than the last contract layday specified in the IFB, and that vessels which are offered with a cancelling date beyond the laydays specified in the IFB will not be considered.

(b) *Competitive Bidding.* All bids shall be opened in public in the United States at the time and place specified in the IFB. Only bids which are responsive to the IFB may be considered. No negotiation, clarification, or submission of additional information shall be permitted. Bids shall be submitted so that they will be received in the place designated in the IFB not later than the exact time set for opening of bids. It is the bidder's responsibility to ensure propoer receipt of the bid. All bidder shall have the right to have a representative present at the bid opening.

(c) *Records of Bids.* Copies of all bids received must be promptly furnished to the Contracting Officer, including a written certification as to the "time of receipt." For purposes of this paragraph, "time of receipt" shall be the time a handcarried offer, mail offer, facsimile transmission or telegram was received at the designated location for presentation or, if transmitted electronically, the time the offer was receivved, as supported by evidence satisfactory to the Contracting Officer.

(d) *Re-tenders.* Preservation of the integrity of the competitive bid system dictates that award must be made to that responsible bidder who submitted the lowest responsive bid, unless there is a compelling reason to reject all bids and either re-tender or cancel the IFB. In such a case, the Contracting Officer and the Maritime Administrator or his designee shall state the reasons for the determination of the "compelling reason" in writing. Any re-tendering shall be governed by the same requirements as the original tenders. The Contracting Officer shall not approve or require freight re-tenders unless in consultation with the Maritime Administrator or a person designated by him, the Contracting Officer and Maritime Administrator or his designee jointly determine that re-tendering:

(1) Will increase the likelihood of meeting the U.S.-flag cargo preference requirement;

(2) Is necessary to permit the desired quantity to be shipped;

(3) Will result in reduced U.S. Government expenditures; or

(4) Will otherwise be in the best interest of the program.

(e) *Cancellation.* The cancellation of an invitation for bids usually involves a loss of time, effort and money spent by the Government and bidders. Invitations shall not be cancelled unless cancellation is clearly in the public interest. Cancellation may occur when the head of the procuring agency and the Maritime Administrator or a person designated by him jointly determine in writing that:

(1) No otherwise acceptable bid is within the applicable fair and reasonable rate as determined by the Maritime Administration pursuant to 46 CFR part 382;

(2) Only one bid was received;

(3) No responsive bid was received from a responsible bidder; or

(4) The bids are not independently arrived at in open competition, were collusive, or were submitted in bad faith.

(f) *Re-Tender or Cancellation Before Bid Opening.* When an invitation is to be re-tendered or cancelled, bids that have been received shall be returned upopened, if possible, to the bidders to preserve the integrity of the competitive bid system and a notice of re-tendering or cancellation shall be issued by means of the Transportation News Ticker, New York, plus at least one other means of communication, to assure the broadest possible market coverage with adequate notice to interested parties.

Section 381.10 Mandatory Charter Provisions for Certain Cargoes.

(a) *Applicability.* This section applies to charters for the transportation of dry bulk cargoes which are subject to the Cargo Preference Act of 1954.

(b) *Charter Approval.* All charters for cargoes listed in subsection (a) shall be submitted to the Maritime Administrator or a person designated by him for approval prior to release to the trade.

(c) *Prohibited Provisions.* No charter for a cargo listed in subsection (a) shall contain:

(1) A provision under which the vessel owner is responsible for the payment of any fees, charges and other costs relating to the discharging of the vessel; or

(2) A provision under which the vessel owner waives any right to receive payment for delays in the discharging of the vessel.

(d) *Mandatory Provisons.* A charter for a cargo listed in subsection (a) shall contain:

(1) A free out provision; and

(2) A demurrage/despatch provision with respect to loading and discharging, said provisions and those related thereto to be in accordance with standard commercial practice.

(e) *Dispute Resolution.* Disputes under this section will be considered under the informal grievance procedure set forth in § 381.6 of this part. If no agreement is reached in accordance with § 381.6, the Maritime Administration shall have the authority to impose charter provision consistent with this section.

Dated: March 4, 1992.

By Order of the Maritime Administrator.

James E. Saari,

Secretary.

Notices

Federal Register
Vol. 57, No. 46
Monday, March 9, 1992

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Soil Conservation Service

Bacon Creek Watershed, KY

AGENCY: Soil Conservation Service, USDA.

ACTION: Notice of a finding of no significant impact.

SUMMARY: Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines CFR part 1500; and the Soil Conservation Service Guidelines (7 CFR part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Bacon Creek Watershed, Whitley County, Kentucky.

FOR FURTHER INFORMATION CONTACT: Billy W. Milliken, State Conservationist, Soil Conservation Service, suite 110, 771 Corporate Drive, Lexington, Kentucky 40503–5479, telephone: 606–224–7360.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Billy W. Milliken, state conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The project concerns a plan to control the serious flooding, soil erosion, sediment deposition, and stream pollution of Bacon Creek. The combined floodwater and sediment problems are estimated to result in $46,300 average annual damage to residential, commercial, industrial, and transportation properties or facilities in the city of Corbin, Kentucky. The planned works of improvement include installation of 7,500 feet of riprap lined flood control channel on Bacon Creek, sediment and debris removal from the channel, culverts, and bridges.

The Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State, and local agencies and interested parties, a limited number of copies of the FONSI are available to fill single copy requests. Basic data developed during the environmental assessment are on file and may be reviewed by contacting Billy W. Milliken, state conservationist, suite 110, 771 Corporate Drive, Lexington, Kentucky 40503–5479.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

(Catalog of Federal Domestic Assistance Program No. 10.904, Watershed Protection and Flood Prevention Program. Office of Management and Budget Circular A–95 regarding State and local clearinghouse review of Federal and federally assisted programs and projects is applicable.)

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

Meeting of the Board

AGENCY: Architectural and Transportation Barriers Compliance Board (ATBCB).

ACTION: Notice of meeting.

SUMMARY: The Architectural and Transportaion Barriers Compliance Board (ATBCB or Access Board) has scheduled its regular business meeetings to take place in Washington, DC on Tuesday and Wednesday, March 10–11, 1992 at the times and locations noted below.

DATES: The schedule of events is as follows:

Tuesday, March 10, 1992

9–4:30 pm—Title II Working Group (closed).

Wednesday, March 11, 1992

9–10 am—Title II Working Group (closed).
10–11:30 am—Planning and Budget Committee.
1–2:30 pm—Executive Committee.
3–5 pm—Board Meeting.

ADDRESSES: Embassy Suites Hotel, Delegate Room, 1250 22nd Street, NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: For further information regarding the business meetings, please contact Barbara A. Gilley, Executive Officer, (202) 272–5434 ext 39 (voice/TDD).

SUPPLEMENTARY INFORMATION:

At its business meeting, the Board will consider the following Agenda Items:

- Approval of the minutes of the January 15, 1992 Board meeting.
- Committee Reports.
- Approval of the Fiscal Year 1992 Operating Plan.
- Approval of the Fiscal Year 1993 Budget.
- Proxy Voting.
- Travel and Extraordinary Work Policies for Board Members.
- Title II Working Group Plan of Aotion (closed).
- American Bankers Association's Petition on Automatic Teller Machines (closed).
- Engraved Signage.
- Complaint Status Report.

Some meetings or items may be closed to the public as indicated above. All meetings are accessible to persons with disabilities. Sign language interpreters and an assistive listening system are available at all meetings.

James J. Raggio,
General Counsel.

COMMISSION ON CIVIL RIGHTS

Agenda and Notice of Public Meeting to the Nevada Advisory Committee

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that the Nevada Advisory Committee to the Commission will convene at 10 a.m. and adjourn at 12 noon on March 30, 1992, Building A, Corporate Headquarters Facility, Southwest Gas Corporation, 5241 Spring Mountain Road, Las Vegas, Nevada 89193–8510. The purpose of the meeting is to discuss the Committee's on-going project on police-community relations and to plan future activities.

Persons desiring additional information, or planning a presentation to the Committee, should contact Advisory Committee Chairperson, Margo Piscevich or Philip Montez, Director of the Western Regional Division (213) 894–3437, (TDD 213/894–0508). Hearing impaired persons who will attend the meeting and require the services of a sign language interpreter, should contact the Regional Division office at least five (5) working days before the scheduled date of the meeting.

The meeting will be conducted pursuant to the provisions of the rules and regulations of the Commission.

Dated at Washington, DC, March 2, 1992.

Carol-Lee Hurley,
Chief, Regional Programs Coordination Unit.

DEPARTMENT OF COMMERCE

Agency Information Collection Under Review by the Office of Management and Budget (OMB); Expedited Review

DOC has submitted to OMB for expedited clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35). The collection is for the International Trade Administration of DOC.

Title: Survey of the Business Climate in the Gulf Cooperation Council (GCC).

Form Number: Agency—N/A; OMB—0625.

Type of Request: New Collection—Expedited review.

Burden: Estimated 5000 respondents; 2500 burden hours—average minutes per response, 30 minutes.

Needs and Uses: This collection will be conducted at the request of the GCC (Saudi Arabia, Kuwait, United Arab Emirates, Bahrain, Oman, Qatar) to assess the U.S. business community's perception of the business climate and opportunities in the GCC markets. The information will be used as a basis for future negotiations with the GCC to improve business conditions and thereby promote the export of U.S. goods and services to the GCC.

Affected Public: Businesses or other for profit, small businesses or organizations.

Frequency: Once.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Gary Waxman, 395–7340.

A copy of the survey is published below. Any questions can be directed to Edward Michals, DOC Clearance Officer, 202–377–3271, Department of Commerce, room 5327, 14th and Constitution Avenue, NW., Washington, DC 20230.

Written comments for the proposed information collection should be sent to Gary Waxman, OMB Desk Officer, room 3208, New Executive Office Building, Washington, DC 20503.

Dated March 3, 1992.

Edward Michals,
Department Clearance Officer, Office of Management and Organization.

OMB No. 0625———Expires

Survey of the Business Climate in the Gulf Cooperation Council

This report is authorized by law (15 U.S.C. 1512 171 et seq., 15 U.S.C. 171 et seq.). While you are not required to respond, your cooperation is needed to make the results of this evaluation comprehensive, accurate, and timely.

Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to Reports Clearance Officer, International Trade Administration, rm. 4001, U.S. Dept. of Commerce, Washington, DC 20230, and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Paperwork Reduction Project (0625———), Washington, DC 20503.

Please answer all questions as completely as possible, whether or not you are currently or have ever done business in the markets of the Gulf Cooperation Council (GCC). Also, if you have further comments, please give them in question 11 or on additional pieces of paper.

1. Check the box which best reflects your company's experience in the GCC market.

None [ ] Less than 2 yrs. [ ]
2–5 yrs. [ ] 5–10 yrs. [ ]
10–20 yrs. [ ] More than 20 yrs. [ ]

2. a. What is the approximate value of your company's total domestic and international sales?

b. What is the approximate value of your company's sales to the GCC?

Note in the following questions, you are asked to indicate the countries to which your response applies. The countries are represented by the following symbols

Bahrain—BA; Kuwait—KU; Oman—OM; Qatar—QA; Saudi Arabia—SA; United Arab Emirates—UAE.

3. a. In which of the countries of the Gulf Cooperation Council do you do business? Circle all that apply.

BA KU OM QA SA UAE None

b. If you are not doing business in the GCC, please check status which best applies.

[ ] Have considered doing business in the GCC, but feel the market/climate is not good for your company.
[ ] Currently considering doing business in the GCC.
[ ] Have not considered doing business in the GCC.

4. In what type of business activity are you involved in the GCC? Circle country(ies) for all that apply.

a. Manufacture:
BA KU OM QA SA UAE
b. Provide services:
BA KU OM QA SA UAE
c. Sell U.S. or other foreign products in the GCC:
BA KU OM QA SA UAE
d. Sell domestic products in the GCC:
BA KU OM QA SA UAE
e. Sell outside the GCC:
BA KU OM QA SA UAE

4. f. Other (please specify and indicate country)

g. Check here if your company has no business activity in the GCC at this time. [ ]

5. Please give the SIC Code for the industry sector(s) in which your company is engaged in each country.

BA _____
KU _____
OM _____
QA _____
SA _____
UAE _____

6. What form(s) of business relationship do you have? Circle country(ies) for all that apply.

a. Direct sales:
BA KU OM QA SA UAE

b. Agent/distributor:
BA KU OM QA SA UAE

c. Joint venture:
BA KU OM QA SA UAE

d. Branch office:
BA KU OM QA SA UAE

e. Other (please specify and indicate country)

f. Check here if your company has no business relationship in the GCC at this time. [ ]

7. Listed below are factors that affect the business climate in the GCC. Some are perceived as beneficial, others as obstacles. Your perception and experience might vary among countries.

Please review the list and rate each factor on a scale of 1–5, where 1 is most negative and 5 is most positive. Please also indicate, by circling the appropriate letter, the importance of each factor (low—L; medium—M; or high—H) to your company's business decisions in the GCC. Finally, circle the country(ies) to which your response applies.

a. Local demand for product/service:

mm. Other (please specify factor(s) and indicate −/+, importance to your company and country to which it applies). Also please feel free to elaborate, here or at the end of the questionnaire, on any of the above.

8. In the last few years, on a scale of 1–5, do you believe the business climate in the GCC is getting worse, staying the same, or improving?

Getting worse/Staying the same/Improving:
1 2 3 4 5
Countries: BA KU OM QA SA UAE
Please explain.

9. a. Please rank the following regions according to the investment climate. Make the best #1.

GCC _____
Africa _____
Asia/Pacific _____
Western Europe _____
Eastern Europe _____
North America _____
South America _____

b. Please rank the following regions according to the market for your products. Make the best #1.

GCC _____
Africa _____
Asia/Pacific _____
Western Europe _____
Eastern Europe _____
North America _____
South America _____

10. Based on information currently available to you, which industry sector(s) in the GCC offer the best opportunities for U.S. companies to do business? Please circle country(ies) for all that apply and specify industry/product, if possible.

a. Oil and Gas production:
BA KU OM QA SA UAE

b. Oil field service industry:
BA KU OM QA SA UAE

c. Petrochemicals and other downstream hydrocarbon industries:
BA KU OM QA SA UAE

d. Basic industries (e.g., aluminum, steel, building materials):
BA KU OM QA SA UAE

e. Engineering/construction industry:
BA KU OM QA SA UAE

f. High tech industries (e.g., computers, other electronics, telecommunications):
BA KU OM QA SA UAE

g. Consumer goods (e.g., clothing, food, household furnishings and appliances):
BA KU OM QA SA UAE

h. Agriculture/food processing:
BA KU OM QA SA UAE

i. Service industries:
BA KU OM QA SA UAE

j. Defense industries:
BA KU OM QA SA UAE

k. Other. Please specify sector(s) and country(ies).
BA KU OM QA SA UAE

11. Please provide any additional comments and/or expand on your answers to other questions.

Agency Form Under Review by the Office of Management and Budget (OMB)

DOC has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: Bureau of Economic Analysis.

Title: Defense Research, Development, Test, and Evaluation Index Data Requirements.

Form Number: Not applicable.

OMB Approval Number: 0608–0033.

Type of Request: Extension of the expiration date of a currently approved collection.

Burden: 700 hours.

Number of Respondents: 100.

Avg. Hours Per Response: 7 hours.

Needs and Uses: The survey collects data for use in estimating constant-dollar purchases of contractual research and development by the Department of Defense. These estimates are used in the compilation of the gross domestic product of the United States.

Affected Public: Businesses or other for–profit institutions.

Frequency: Quarterly.

Respondent's Obligation: Voluntary

OMB Desk Officer: Paul Bugg, (202) 395–3093.

Copies of the above information collection proposal can be obtained by calling or writing Edward Michals, DOC Forms Clearance Officer, (202) 377–3271, Department of Commerce, room 5312, 14th and Constitution Avenue, NW., Washington, DC 20230.

Written comments and recommendations for the proposed information collection should be sent to Mr. Paul Bugg, OMB Desk Officer, room 3228, New Executive Office Building, Washington, DC 20503.

Dated: March 5, 1992.

Edward Michals,

Departmental Forms Clearance Officer, Office of Management and Organization.

BILLING CODE 3510-CW

Foreign-Trade Zones Board

[Docket 5–92]

Proposed Foreign-Trade Zone—Butte-Silver Bow, MT; Application Filed

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the City and County of Butte-Silver Bow, Montana, a Montana public corporation, requesting authority to establish a general-purpose foreign-trade zone in Butte-Silver Bow, Montana, within the Butte Customs port of entry. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR part 400). It was formally filed on February 27, 1992. The applicant is authorized to make the proposal under Section 30–15–101 of the Montana Code Annotated.

The proposed foreign-trade zone would be located at the Butte Industrial Park (104 acres) on South Harrison Avenue, Butte. A major portion of the park is owned by the Port of Montana, the Butte Local Development Corporation, and the Montana College of Mineral Science and Technology. Certain parcels have been sold to individual business firms.

The application contains evidence of the need for zone services in the Butte-Silver Bow area. Several firms have indicated an interest in using zone procedures for warehousing/distribution of such items as carbon electrodes, electronic and mechanical subassemblies and finished survey instruments. Specific manufacturing approvals are not being sought at this time. Requests would be made to the Board on a case-by-case basis.

In accordance with the Board's regulations (as revised, 56 FR 50790–50808, 10–8–91), a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is May 8, 1992. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to May 25, 1992).

While no public hearing has been scheduled for the FTZ Board, consideration will be given to such a hearing during the review.

A copy of the application and accompanying exhibits will be available

during this time for public inspection at the following locations:

Butte Public Library, 226 West Broadway, Butte, Montana 59701.
Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, room 3716, 14th & Pennsylvania Avenue NW., Washington, DC 20230.

Dated: March 3, 1992.

John J. Da Ponte, Jr.,
Executive Secretary.

BILLING CODE 3510-DS-M

[Docket 4-92]

Foreign-Trade Zone 183—Austin, TX; Application for Subzone Dell Computer Corp. Personal Computer Plant

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Foreign Trade Zone of Central Texas, Inc., grantee of FTZ 183, requesting special-purpose subzone status at the personal computer manufacturing plant of Dell Computer Corporation (Dell) located in the City of Austin, Travis County, Texas. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on March 2, 1992.

Dell is an international producer of personal computers (PCs) and related products with annual sales of over $850 million. It has plants in the U.S. and the U.K.

Dell's Austin facility (40 acres) is located in the Braker Center Industrial Park at the intersection of Braker Lane and Metric Blvd. The facility employs 1,900 and is used to assemble personal computers, including portables, desktops, workstations, and power line servers. Dell also sells a complete line of personal computer-related products and peripherals including software, printers, monitors, and accessories, manufactured by third parties.

Some 60 percent of the components for PC production are pruchased from abroad including computer processing units, keyboards, disc drives, monitors, printers, power supplies, batteries, AC adapters, modems, mouses, ribbons, manuals, carrying cases, software, portable computer kits, and related computer components and supplies. Currently, one-third of the products are exported.

Zone procedures would exempt Dell from Customs duty payments on the foreign components used in products made for export. On domestic sales, the company would be able to choose the duty rates that apply to the finished products (3.9 percent). The rates on components range from duty-free to 4.7 percent (average—3.8 percent. Foreign merchandise and merchandise to be exported would also be exempt from state and local *ad valorem* taxes. The application indicates that zone savings would help improve the international competitiveness of Dell's Austin plant and increase export sales.

In accordance with the Board's regulations (as revised, 56 FR 50790-50808, 10-8-91), a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is May 8, 1992. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to May 25, 1992).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:

U.S. Department of Commerce District Office, P.O. Box 12728, suite 1200, 816 Congress Ave., Austin, Texas 78711.
Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, room 3716, 14th Street and Constitution Avenue NW., Washington, DC 20230.

Dated: March 3, 1992.

John J. Da Ponte, Jr.,
Executive Secretary.

International Trade Administration

[A-428-037]

Drycleaning Machinery From Germany; Final Results of Antidumping Duty; Administrative Review in Accordance With Decision Upon Remand

AGENCY: Import Administration/ International Trade Administration Department of Commerce.

ACTION: Notice of final results of antidumping duty administrative review in accordance with decision on remand.

SUMMARY: The Department of Commerce has prepared these revised final results of administrative review pursuant to the remand order from the U.S. Court of International Trade in *American Permac, Inc., Boewe Reinigungstechnik, GmbH, and Boewe Systems & Machinery, Inc.* v. *United States* (Court Nos. 85-08-01148 and 87-05-00653, September 4, 1991).

EFFECTIVE DATE: March 9, 1992.

FOR FURTHER INFORMATION CONTACT: Arthur N. DuBois or Thomas F. Futtner, Office of Antidumping Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230, telephone: (202) 377-8312/ 3814.

SUPPLEMENTARY INFORMATION:

Background

On September 4, 1991, the U.S. Court of International Trade (the Court), in *American Permac, Inc., Boewe Reinigungstechnik, GmbH, and Boewe Systems & Machinery, Inc.* v. *United States* (Court Nos. 85-08-01148 and 87-05-00653), remanded the final results of the 1980-82 and 1982-84 administrative reviews of the antidumping finding on drycleaning machinery from Germany (August 8, 1985, 50 FR 32154 and April 8, 1987, 52 FR 11299, respectively) to the Department of Commerce (the Department) for reconsideration. One review covered the periods July 1, 1980 through October 31, 1981, and November 1, 1981 through October 31, 1982, and the other covered the periods November 1, 1982 through October 31, 1983, and November 1, 1983, through October 31, 1984. Boewe withdrew its objections to our results for the final period; therefore, we made changes only to the results for the first three periods.

In accordance with the Court's opinion, the Department reconsidered the plaintiffs' claim for adjustments to foreign market value for differences in the levels of trade involved in comparisons of home market and U.S. sales and the plaintiffs' claim that the Department used incorrect exchange rates in exporter's sales price (ESP) comparisons. We submitted a draft of these results to the respondent for comments and corrected certain clerical errors.

In accordance with the remand order, the Department treated the level-of-trade (LOT) adjustment as follows:

1. We quantified the LOT adjustment as the sum of bad debt, service, and sales office expenses.

2. We treated all sales in the home market as sales to end-users; therefore, we eliminated the distinction between home market sales made by independent agents and those made by Boewe's own sales agents. In our comparisons of all U.S. sales made to distributors, we made the level-of-trade adjustment to FMV.

3. For ESP transactions, for the purpose of currency conversions, we used the rate of exchange in effect on the date of export.

Amended Final Results of Review

As a result of this redetermination and review of the comments received, we determine the weighted-average dumping margins for Boewe during the periods July 1980 through October 31, 1984 to be as follows:

Review period	Margin percent
1980-81	9.05
1981-82	0.19
1982-83	3.24
1988-84	0.40

The Department will instruct the Customs Service to assess antidumping duties on all appropriate entries. Individual differences between United States price and foreign market value may vary from the percentages stated above. The Department will issue appraisement instructions directly to the Customs Service.

This amendment to final results of antidumping duty administrative review notice is in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and § 353.22 of the Commerce Regulations (19 CFR 353.22).

Dated: March 3, 1992.

Marjorie A. Chorlins,
Acting Assistant Secretary for Import Administration.

Industrial Belts and Components and Parts Thereof, Whether Cured or Uncured, From Italy; Final Results of Antidumping Duty Administrative Review

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of final results of antidumping duty administrative review.

SUMMARY: On June 17, 1991, the Department of Commerce published the preliminary results of its administrative review of the antidumping duty order on industrial belts and components and parts thereof, whether cured or uncured, from Italy (56 FR 27731). The review covers one manufacturer/exporter of the subject merchandise, Pirelli Trasmissioni Industriali, S.p.A., and the February 1, 1989, through May 31, 1990, review period.

Based on our analysis of the comments received and the correction of certain and clerical errors, we have changed the preliminary results. The final margin is listed below in the section "Final Results of Review."

EFFECTIVE DATE: March 9, 1992.

FOR FURTHER INFORMATION CONTACT: Megan Pilaroscia or Laurie Lucksinger, Office of Agreements Compliance, International Trade Administration, U.S Department of Commerce, Washington, DC 20230; telephone (202) 377-3793.

SUPPLEMENTARY INFORMATION:

Background

On July 26, 1990, in accordance with 19 CFR 353.22(c), the Department of Commerce (the Department) initiated an administrative review of the antidumping duty order on industrial belts and components and parts thereof from Italy (55 FR 30490) for the period February 1, 1989, through May 31, 1990. On June 17, 1991, we published the preliminary results of this administrative review (56 FR 27731). We gave interested parties an opportunity to comment on our preliminary results. At the request of the respondent, we held a public hearing on July 31, 1991. The Department has now completed this review in accordance with section 751 of the Tariff Act of 1930, as amended (the Tariff Act).

Scope of the Review

The products covered by this review are shipments of industrial belts and components and parts thereof, whether cured or uncured, from Italy. The covered merchandise consists of V-belts and synchronous industrial belts used for power transmission. These include V-belts and synchronous belts, in part or wholly of rubber or plastic, and containing textile fiber (including glass fiber) or steel wire, cord or strand, and whether in endless (*i.e.*, closed loops) belts, or in belting in lengths or links. This review excludes conveyor belts and automotive belts as well as front engine drive belts found on equipment powered by internal combustion engines, including tracks, tractors, buses and lift trucks.

During the review period, the merchandise was classifiable under Harmonized Tariff System (HTS) subheading 3926.90.55, 3926.90.56, 3926.90.57, 3926.90.59, 3926.90.60, 4010.10.10, 4010.10.50, 4010.91.11, 4010.91.15, 4010.91.19, 4010.91.50, 4010.99.11, 4010.99.15, 4010.99.19, 4010.99.50, 5910.00.10, 5910.00.90 and 7326.20.00. The HTS subheadings are provided for convenience and Customs purposes. The written description remains dispositive.

The review covers the shipments of one manufacturer/exporter of industrial belts from Italy to the United States, Pirelli Trasmissioni Industriali, S.p.A. (Pirelli), and the period February 1, 1989, through May 31, 1990.

Analysis of Comments Received

We invited interested parties to comment on the preliminary results. We received comments from the respondent and rebuttal comments from the petitioner, the Gates Rubber Company (Gates). Based on our analysis of the comments received, we have corrected the following clerical errors: failure to deduct the exporter's sales price (ESP) offset from foreign market value; failure to include comparisons of ESP sales to home market sales of similar merchandise made within the "90/60" contemporaneity window; and failure to include comparisons of purchase price sales to home market sales of identical merchandise.

Comment 1: Pirelli asserts that the Department must exclude sales not subject to this review from the antidumping duty calculation. In its questionnaire response, Pirelli reported all U.S. sales of industrial belts by its U.S. sales subsidiary during the review period. The respondent explained that some of these sales came from pre-existing inventory which was entered prior to February 1, 1989, the date of the affirmative preliminary determination in the less than fair value investigation, and that some were belts manufactured in countries other than Italy. As Pirelli could not tie specific sales to specific customs entries, it conducted an inventory analysis based on its first-in-first-out accounting method to determine when sales of entries subject to the antidumping duty order commenced.

Pirelli claims that the courts have recognized that liability for duties is determined according to the time of entry of merchandise, citing *Cementos Guadalajara, S.A.* v. *United States*, 12 CIT 307, 686 F. Supp. 335 (1988), *aff'd* 879 F.2d 847 (Fed. Cir. 1989) (Cementos); and *Zenith Radio Corp.* v. *United States*, 1 CIT 180, 184, 509 F. Supp. 1282, 1286 (1981); *rev'd and rem'd on other grounds, Zenith Radio Corp.* v. *United States*, 710 F. 2d 806 (Fed. Cir. 1983); *rev'd and rem'd on other grounds, Zenith Radio Corp.* v. *United States*, 764 F.2d 1577 (Fed. Cir. 1985); *aff'd on other grounds, Zenith Radio Corp.* v. *United States*, 823 F.2d 518 (Fed. Cir. 1987) (Zenith). Pirelli states that the sales of belts from pre-existing inventory and belts

manufactured outside of Italy were separately identified on Pirelli's computer tapes, and that, as these sales are not subject to the review, they should be excluded from the Department's dumping analysis.

The petitioner argues that the methodology employed by the Department in its preliminary results was correct and should not be changed for purposes of the final results. Gates asserts that Pirelli is unable to show that sales made during the review period in fact entered prior to the review period.

Department's Position: We agree with respondent that belts manufactured in countries other than Italy are not subject to this review. Beacuse we were able to determine from available information on the record which belts were manufactured elsewhere, we have excluded sales of these belts from the antidumping duty calculation. However, we have analyzed sales of belts identified as "pre-existing" inventory, *i.e.*, subject merchandise which may have entered prior to February 1, 1989. We are not satisfied that Pirelli has established that any sales during the period of review should be excluded because of an early entry date. The methodology employed by Pirelli for this purpose provides no assurance that any sale during the period was, in fact, of merchandise entered before February 1, 1989. In the absence of a satisfactory linkage of sales to entries, we have reviewed all sales with a date of sale that fell within the review period. Pirelli's cites to *Cementos* and *Zenith* are inapposite. These cases merely stated that antidumping and countervailing duties are *imposed* at the time of entry. The cases do not discuss the issue which is relevant here, whether sales can be linked to entries not subject to antidumping duties.

Comment 2: Pirelli asserts that comparisons should be made at the same level of trade. Pirelli states that sales to original equipment manufacturers (OEMs) and to replacement market customers were separately identified in its questionnaire response. The respondent further states that section 353.58 of the Department's regulations explicitly recognizes that, where possible, matching should occur at the same level of trade.

The petitioner asserts that the Department correctly considered all sales to be at the same level of trade. Gates argues that the burden of showing two levels of trade is on the respondent, and that Pirelli did not do this. Gates states that Pirelli did not provide any record evidence to support its contention that sales to OEMs and sales to replacement market customers, both of which are sales to end-users, were made at different levels of trade.

Department's Position: The Department did not find that there were sales at two separate levels of trade in this review. Although Pirelli identified different types of customers in its response, at no time during this segment of the proceeding did Pirelli demonstrate that there were distinct differences between these sales. Therefore, we have calculated weighted-average foreign market value without regard to level of trade and made comparisons to U.S. sales using these weighted-average foreign market values.

Comment 3: Pirelli asserts that cash discounts paid on purchase price sales should be treated as an adjustment to U.S. price. Pirelli cites Final Determination of Sales at Less than Fair Value: Oil Country Tabular Goods from Canada (51 FR 15029, April 22, 1986) (OCTG from Canada) in support of its claim. Pirelli disagrees with the Department's decision to leave cash discounts on U.S. sales in the net U.S. price, deduct cash discounts incurred on home market sales from the foreign market value (FMV), and add U.S. cash discounts to FMV. The respondent states that this method improperly inflates the margins. It argues that the Department should follow its standard methodology and deduct U.S. cash discounts from U.S. price and home market cash discounts from FMV.

Gates asserts that the cash discounts are circumstance of sale adjustments. In a purchase price situation, circumstances of sale adjustments are made to FMV. The petitioner contends, therefore, that the Department correctly adjusted for cash discounts.

Department's Position: We agree with respondent that the cash discount program constitutes an adjustment to price and, therefore, the discount amounts should be deducted from U.S. price (see Final Results of Administrative Review: Iron Construction Castings from Canada (55 FR 460, January 5, 1990), and OCTG from Canada). Contrary to Gates' argument, cash discounts represent reductions in the price paid by the customer; they are not circumstance of sale adjustments. For these final results we have corrected our purchase price calculations accordingly

Comment 4: Pirelli asserts that U.S. packing costs (costs incurred for repacking the subject merchandise in the United States) should be treated as an "addback," by leaving these costs in the U.S. price and adding them to FMV. The respondent claims that the Department's deduction of these costs is inconsistent with the Department's practice and does not allow for an "apples-to-apples" comparison.

Department's Position: Our treatment of repacking costs in the preliminary results was correct. It is the Department's practice to treat expenses incurred for the repacking of subject merchandise in the United States as direct selling expenses, which are deducted from U.S. price (see Final Determination of Sales at Less than Fair Value: Antifriction Bearings from the Federal Republic of Germany (54 FR 18992, May 3, 1989)). In deducting repacking costs, we have deducted from U.S. price all U.S.-incurred expenses to reflect the condition of the good upon entry. We adjusted FMV by adding packing costs incurred in Italy for sales to the United States, and subtracting packing costs incurred in the home market for home market sales, to obtain a packed ex-factory price for our price comparisons. In this way, the Department has achieved an "apples-to-apples" comparison.

Comment 5: Pirelli argues that the Department should make corections of obvious errors which Pirelli discovered in the reported sales data after issuance of the preliminary results. Since there has been no verification in this review, correcting the errors would not deprive the Department of the opportunity to verify the data. Moreover, the Department's decision not to verify resulted in the errors not being discovered sooner. Pirelli also states that the Department's recent administrative decisions in Antifriction Bearings (other than Tapered Roller Bearings) and Parts Thereof, from the Federal Republic of Germany (56 FR 31692, July 11, 1991) support correction of the errors. It is clear from information on the record that there were errors in the submissions and that the new information is accurate.

The petitioner argues that the Department should not accept new information at this stage. Gates notes that the deadline for submission of factual information was the date of the preliminary results and that Pirelli should have submitted the new information prior to that date. Gates asserts that the supposed errors are not merely clerical corrections but are new substantive claims. As there has been no verification, there is no basis to suppose that the revisions are correct. In addition, no supporting information has been provided to justify the respondent's claims. The petitioner asserts that the Department's past decisions do not support acceptance of the type of new information submitted by Pirelli in its case brief.

Department's Position: We agree that corrections should be made for obvious clerical errors that can be readily identified from information on the administrative record prior to the preliminary results of review. Accordingly, we have made corrections for the final results of review for the incorrect gross unit prices and the incorrect duty amount noted by Pirelli. We did not, however, make corrections Pirelli requested that involved new substantive claims and/or the submission of new factual information after the date of publication of the preliminary results (see 19 CFR 353.31(b)(2)). The Department did not find these additional errors to be clerical errors, as claimed by respondent (see Antifriction Bearings (other than Tapered Roller Bearings) and Parts Thereof, from the Federal Republic of Germany (56 FR 31592, July 11, 1991) — section 15d (Miscellaneous Issues) of the Issues Appendix).

Unmatched Sales

After making the changes to the preliminary results detailed above, we found that we had ESP sales for which we could not identify sales of such or similar merchandise in the home market. Respondent's submissions did not provide model matching data for these ESP sales, although it stated in its September 28, 1990 response that Pirelli had submitted tapes "* * * indicating the matches between industrial belts sold by Pirelli in the United States and those sold in the home market." The response stated further that "(i)n most instances, Pirelli sells belts in the home market which are identical to the belts sold in the United States. When a U.S. sale does not have an identical home market match, the most similar home market match was selected and cost difference information has been reported." Because the response was incomplete with regard to these unmatched ESP sales, we have applied best information available, in accordance with section 776(c) of the Tariff Act. The best information available is the highest weighted-average margin from this proceeding. That margin is 78.69 percent, determined for ESP sales in this segment of the proceeding.

Final Results of the Review

As a result of our review, we determine that the following dumping margin exists:

Manufacturer/ exporter	Review period	Margin (percent)
Pirelli Transmissioni Industriali	2/01/89–5/31/90	68.2

The Department will instruct the U.S. Customs Service to assess antidumping duties on all appropriate entries. The Department will issue appraisement instructions directly to the Customs Service. Furthermore, the following deposit requirements will be effective for all shipments of industrial belts and components and parts thereof, whether cured or uncured, from Italy entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of the administrative review provided by section 751(a)(1) of the Tariff Act: (1) The cash deposit rate for Pirelli will be 68.2 percent; and (2) the cash deposit rate for any future entries from all other manufacturers or exporters who are not covered in this administrative review or the original less-than-fair-value investigation and who are unrelated to Pirelli will be 68.2 percent.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: February 28, 1992.

Marjorie A. Chorlins,

Acting Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-M

[A-588-807]

Industrial Belts and Components and Parts Thereof From Japan; Preliminary Results of Antidumping Duty Administrative Review

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of preliminary results of antidumping duty administrative review.

SUMMARY: In response to requests by both the petitioner and respondent, the Department of Commerce is now conducting an administrative review of the antidumping duty order on industrial belts and components and parts thereof, whether cured or uncured (hereinafter referred to as "industrial belts"), from Japan. The review covers one exporter during the period June 1, 1990 through May 31, 1991.

As a result of the review, the Department has preliminarily determined to assess antidumping duties based on the best information available.

Interested parties are invited to comment on the preliminary results of the administrative review.

EFFECTIVE DATE: March 9, 1992.

FOR FURTHER INFORMATION CONTACT: Charles Vannatta or Art Stern, Office of Agreements Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone (202) 377-3793.

SUPPLEMENTARY INFORMATION:

Background

On June 14, 1989, the Department of Commerce (the Department) published in the **Federal Register** (54 FR 25314) the antidumping duty order on industrial belts from Japan. On June 28, 1991, both the petitioner and respondent requested that we conduct an administrative review of the period June 1, 1990 through May 31, 1991. We published a notice of initiation of the antidumping administrative review on July 19, 1991 (56 FR 33251). The Department is now conducting this administrative review in accordance with section 751 of the Tariff Act of 1930 (the Tariff Act), as amended.

Scope of Review

Imports covered by the review are shipments of industrial belts and components and parts thereof, whether cured or uncured, from Japan. These products include V-belts, synchronous belts, and other industrial belts, in part or wholly of rubber or plastic, and containing textile fiber (including glass fiber) or steel wire, cord or strand, and whether in endless (i.e., closed loops) belts, or in belting in lengths or links. This review excludes conveyor belts and automotive belts as well as front engine drive belts found on equipment powered by internal combustion engines, including truck, tractors, buses, and lift trucks.

During the period of review, the merchandise was classifiable under Harmonized Tariff System (HTS) item numbers 3926.90.55, 3926.90.56, 3926.90.57, 3926.90.59, 3926.90.60, 4010.10.10, 4010.10.50, 4010.91.11, 4010.91.15, 4010.91.19, 4010.91.50, 4010.99.11, 4010.99.15, 4010.99.19, 4010.99.50, 5910.00.10, 5010.00.90, and 7326.20.00. The HTS item numbers are provided for convenience and Customs purposes. The written description remains dispositive.

The review covers the shipments of one manufacturer and exporter of industrial belts from Japan to the United States, Mitsuboshi Belting Limited

(MBL), and the period June 1, 1990 through May 31, 1991.

Preliminary Results of the Review

Because MBL did not respond to the Department's questionnaire, the Department has preliminarily determined to use the best information available. The best information available is the rate from the investigation of sales at less-than-fair-value. This rate is 93.16 percent (June 14, 1989, 54 FR 25314).

The Department shall determine, and the U.S. Customs Service shall assess, antidumping duties on all appropriate entries. The Department will issue appraisement instructions directly to the Customs Service.

Parties to the proceeding may request disclosure within five days of the date of publication of this notice. Any interested parties may request a hearing within 10 days of publication. Any hearing, if requested, will be held 44 days after the date of publication of this preliminary notice or the first workday thereafter. Case briefs and/or written comments from interested parties may be submitted not later than 30 days after the date of publication. Rebuttal briefs and rebuttals to written comments, limited to issues raised in the case briefs and comments, may be filed not later than 37 days after the date of publication. The Department will publish final results of this administrative review, including the results of its analysis of issues raised in any such written comments or at a hearing.

Furthermore, the following deposit requirements will be effective for all shipments of the subject merchandise, entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(1) of the Tariff Act: (1) The cash deposit rate for MBL will be that rate established in the final results of this administrative review; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will be the "all other" rate established in the final results of this administrative review.

These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and section 353.22 of the Commerce Department's regulations (19 CFR 353.22).

Dated: February 28, 1992.

Marjorie A. Chorlins,

Acting Assistant Secretary for Import Administration.

Certain Small Business Telephone Systems and Subassemblies Thereof From Korea; Final Results of Antidumping Duty Administrative Review

AGENCY: International Trade Administration, Import Administration, Department of Commerce.

ACTION: Notice of final results of antidumping duty administrative review.

SUMMARY: On November 13, 1991, the Department of Commerce published the preliminary results of its administrative review of the antidumping duty order on certain small business telephone systems and subassemblies thereof from Korea. The review covers one manufacturer/exporter of this merchandise to the United States for the period August 3, 1989, through January 31, 1991.

We gave interested parties an opportunity to comment on the preliminary results. At the request of the petitioner, American Telephone and Telegraph (AT&T), we held a public hearing on January 9, 1992. Based on our analysis of comments received, issues raised at the public hearing, and the correction of clerical errors, the final results of review differ from the preliminary results of review.

EFFECTIVE DATE: March 9, 1992.

FOR FURTHER INFORMATION CONTACT: Timothy A. Volker or Thomas F. Futtner, Office of Antidumping Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone (202) 377-8120.

SUPPLEMENTARY INFORMATION:

Background

On November 13, 1991, the Department of Commerce (the Department) published in the **Federal Register** (56 FR 57611) the preliminary results of its administrative review of the antidumping duty order on certain small business telephone systems and subassemblies thereof from Korea (55 FR 4215, February 7, 1990). The Department has now completed that administrative review in accordance with section 751 of the Tariff Act of 1930 (the Tariff Act) and 19 CFR 353.22 (1991).

Scope of the Review

Imports covered by the review are shipments of certain small business telephone systems and subassemblies thereof (SBTS), currently classifiable under Harmonized Tariff Schedule item numbers 8517.30.2000, 8517.30.2500, 8517.30.3000, 8517.10.0020, 8517.10.0040, 8517.10.0050, 8517.10.0070, 8517.10.0080, 8517.90.1000, 8517.90.1500, 8517.90.3000, 8518.30.1000, 8504.40.0004, 8504.40.0008, 8504.40.0010, 8517.81.0010, 8517.81.0020, 8517.90.4000, and 8504.40.0015.

Certain small business telephone systems and subassemblies thereof are telephone systems, whether complete or incomplete, assembled of unassembled, with intercom or internal calling capability and total non-blocking port capacities of between two and 256 ports, and discrete subassemblies designed for use in such systems. A subassembly is "designed" for use in a small business telephone system if it functions to its full capability only when operated as part of a small business telephone system. These subassemblies are defined as follows:

(1) Telephone sets and consoles, consisting of proprietary, corded telephone sets or consoles. A console has the ability to perform certain functions including: answer all lines in the system; monitor the status of other phone sets; and transfer calls. The term "telephone sets and consoles" is defined to include any combination of two or more of the following items, when imported or shipped in the same container, with or without additional apparatus: housing; hand set; cord (line or hand set); power supply; telephone set circuit cards; console circuit cards.

(2) Control and switching equipment, whether denominated as a key service unit, control unit, or cabinet/switch. "Control and switching equipment" is defined to include the units described in the preceding sentence which consist of one or more circuit cards or modules (including backplane circuit cards) and one or more of the following items, when imported or shipped in the same container as the circuit cards or modules, with or without additional apparatus: connectors to accept circuit cards or modules; building wiring.

(3) Circuit cards and modules, including power supplies. These may be incorporated into control and switching equipment or telephone sets and consoles, or they may be imported or shipped separately. A power supply converts or divides input power of not more than 2400 watts into output power of not more than 1800 watts supplying DC power of approximately 5 volts, 24 volts, and 48 volts, as well as 90-volt AC ringing capability.

The following merchandise has been excluded from the scope of this antidumping duty order: (1) Nonproprietary industry-standard ("tip/ring") telephone sets and other subassemblies that are not specifically designed for use in a covered system, even though a system may be adapted to use such nonproprietary equipment to provide some system functions; (2) telephone answering machines or facsimile machines integrated with telephone sets; and (3) adjunct software used on external data processing equipment.

Analysis of Comments Received

We gave interested parties an opportunity to comment on the preliminary results as provided by § 353.22(c) of the Commerce Regulations. We received comments from one respondent, Samsung, and AT&T, and, at the request of AT&T, held a public hearing on January 9, 1992.

We have corrected any clerical errors noted by both parties, and have addressed them specifically in this notice.

Comment 1: Petitioner contends that the Department is required by 19 U.S.C. 1677e(b)(3) to conduct a verification of Samsung since no verification was conducted during two previous administrative reviews and because "good cause" for verification exists. Petitioner contends that "(d)iscrepancies found in previous verifications, together with apparent inconsistencies and gaps in the data in Samsung's current response" provide "good cause" for verification. Petitioner's case brief December 13, 1991, at 3-4.

Samsung contends that since this is the first administative review, there could not have been verifications during two previous administrative reviews. Moreover, Samsung contends that petitioner has not shown "good cause" for verification because Samsung did not fail its verification in the original less-than-fair-value investigation and instead had been found to have been cooperative in providing information requested by the Department, and had provided data with only minor clerical errors.

Department's Position: We disagree with petitioner and agree with Samsung. Section 776(b) (3) of the Tariff Act Provides that verification is required only if requested in a timely fashion by an interested party and if no verification was conducted during the two immediately peceeding reviews and determinations, unless good cause exists to conduct a review. Petitioner claims that the Department is required to conduct a verification because petitioner submitted a timely request and no verification was conducted during the two preceding reviews. There have not been two immediately preceding reviews and determinations since this is the first administrative review in this proceeding. Therefore, although petitioner made a timely request, verification is not required. See Comment 1, Final Results of Antidumping Duty Administrative Review, Iron Construction Castings from Canada (56 FR 23274, 23275, May 21, 1992.) Nevertheless, parties can claim exception to this rule if they can show "good cause." See the Department's response to petitioner's Comment 1, Final Results of Antidumping Duty Adminstrative Review; Certain Iron Construction Castings from India (55 FR 40697, 50698, October 4, 1990). In reaching the decison not to verify Samsung's response, the Department considered the substantial amount of detail and documentation provided as part and in support of Samsung's questionnaire response. Petitioner did not demonstrate "good cause" for verification, such as a failed verification in the less-than-fair-value investigation. See Comment 1, Final Results of Antidumping Duty Administrative Review, Iron Construction Castings from Canada (56 FR 23274, 23275, May 21, 1991.) Furthermore, although petitioner cites "discrepancies" noted during the verification in the original less-than-fair-value investigation of Samsung, we do not find the "discrepancies" identified by petitioner in this review to constitute "good cause."

Comment 2: Petitioner contends that Samsung's claimed advertising expenses must be rejected because Samsung failed to allocate those expenses appropriately. Samsung asserts that its expense ledgers do not permit model-specific identification of advertising expenses and that the company has accordingly followed the Department's questionnaire instructions for allocating advertising expenses to specific models.

Department's Position: We agree with Samsung. Although we prefer model-specific identification of advertising expenses, we will accept the submission of advertising expenses on a product-line basis if that is how the expenses are maintained in the respondent's accounting records and the respondent cannot easily provide actual model-specific information. Because Samsung's accounting records maintain advertising expenses on a product-line basis, we believe Samsung's methodology for allocating these expenses to be both reasonable and consistent with our instructions in the questionnaire. Accordingly, we have deducted advertising expenses from foreign market value (FMV).

Comment 3: Petitioner contends that the Department should treat Samsung's home market freight expenses incurred in shipping merchandise from the factory to regional warehouses as indirect expenses because such expenses were incurred prior to sale. Samsung contends that the Department correctly deducted home market inland freight expense from home market price since the Department no longer treats "pre-sale" movement expenses as indirect expenses.

Department's Position: We agree with Samsung. Although 19 U.S.C. 1677(d)(2)(A) requires the Department to deduct all inland freight expenses incurred on U.S. sales in order to establish the ex-factory price for sales comparison purposes, there is no explicit provision for deducting home market inland freight expenses from FMV. Previously, the Department attempted to adjust FMV for home market inland freight expenses under the circumstances-of-sale adjustment provision in 19 U.S.C. 1677(a)(4)(B).

This approach, however, denied many respondents' claims for pre-sale inland freight expenses because they were unable to directly tie such expenses to specific sales. By denying an adjustment for pre-sale inland freight expenses to home market price, the Department would compare an ex-factory price in the United States to an ex-warehouse price in the home market. By deducting home market pre-sale inland freight expenses from FMV, we are able to compare U.S. ex-factory prices with their counterpart in the home market. See Comment 18, Tapered Roller

Bearings, and Parts Thereof, Finished and Unfinished, From Japan; Final Results of Antidumping Duty Administrative Review(57 FR 4960, 4967, February 11, 1992). Accordingly, we have deducted the entire amount of home market inland freight expenses from FMV.

Comment 4: Petitioner contends that the Department should use an alternative methodology to calculate Samsung's U.S. freight charges. Samsung contends that the Department was correct to use the methodology Samsung reported, and that the alternative methodology suggested by the petitioner would result in virtually the same U.S. freight expense.

Department's Position: We agree with Samsung. Samsung's U.S. freight costs were incurred in ways not directly attributable to the weight and/or volume of specific products. Accordingly, Samsung allocated freight charges to particular U.S. models on the basis of sales value, not spatial volume.

Samsung contends that it used relative sales value as its basis for allocating freight expenses because it believes that to be the most reliable methodology under the circumstances. While acknowledging that freight charges could be allocated by relative actual volumes as suggested by petitioner, Samsung contends that information it submitted in its December 20, 1991, case brief demonstrates that its methodology leads to substantially the same results as the methodology suggested by petitioner. Based on the information Samsung submitted in its case brief, as well as the fact that Samsung is not charged for freight on a keyphone-specific basis, we believe that allocating freight charges by sales value is reasonable. See Comment 8, Roller Chain, Other Than Bicycle, From Japan; Final Results of Antidumping Duty Administrative Review and Intent To Revoke in Part (54 FR 3099, 3100, January 23, 1989). Accordingly, we have accepted Samsung's reported U.S. freight expenses.

Comment 5: Petitioner contends that the Department's methodology in making an adjustment for value-added tax (VAT) is incorrect because it eliminates the absolute difference between the amount of tax in each market, thus resulting in a circumstance-of-sale adjustment. Petitioner asserts that the correct methodology is to add the amount of VAT to home market price and then to add to the U.S. price the lesser of the VAT applicable to home market price or the amount of VAT that would have been assessed but was forgiven on exportation. Furthermore, petitioner contends that VAT should not be added to constructed value (CV). Samsung contends that the Department is justified in using the VAT methodology it did but agrees with petitioner that VAT should not be added to CV.

Department's Position: We agree with Samsung. We added an imputed VAT to USP under section 772(d)(1)(c) of the Tariff Act. We calculated the addition to USP by applying the HM tax rate to the net U.S. price after all other adjustments were made. We imposed no limitation on the imputed tax added to USP on the basis of the incidence of the HM tax because the statute requires no such limitation. No VAT was added to USP where FMV was based on CV, because section 773(e) of the Tariff Act does not provide for the addition of any tax to CV.

Because all HM sales were reported net of VAT, we added the same VAT amount to FMV as that calculated for USP. This is equivalent to calculating the actual HM tax, and then performing a circumstance-of-sale adjustment to FMV to eliminate the absolute difference between the amount of tax in each market. We are not following *Zenith* v. *United States*, 633 F.Supp. 1382 (CIT 1986) (*Zenith*) and its progeny with respect to the circumstance-of-sale issue because we disagree and such voluntary acquiescence would deprive the Department of its right to appeal this issue in this proceeding. We are relying on the Department's broad statutory authority to make adjustments for such differences in the circumstances of sale. See Section 14, Comment 1, Antifriction Bearings (Other Than Tapered Roller Bearings) and Parts Thereof From the Federal Republic of Germany; Final Results of Antidumping Administrative Review (56 FR 31692, 31729, July 11, 1991).

Comment 6: Petitioner contends that the Department should recalculate Samsung's research and development (R&D) expenses. Samsung contends that its accounting records do not record model-specific R&D expenses. Accordingly, Samsung maintains that the R&D expenses it reported, and which were subsequently used by the Department in its analysis, are appropriate.

Department's Position: We agree with Samsung. The methodology used by Samsung in its questionnaire response for reporting R&D is consistent with the methodology used by Samsung, and verified by the Department, in the Less-than-fair-value investigation. Accordingly, although we recognize that there are potentially several reasonable methodologies for allocating R&D expenses, we do not believe that Samsung's methodology is inappropriate.

Comment 7: Citing the Questionnaire issued in the 1990–1991 administrative review of the antifriction bearings orders, petitioner asserts that the Department should have collected sales data both 90 days prior to the period of review and 60 days following the period of review. Petitioner contends that, at a minimum, the Department should remove the statement in Samsung's computer program which prevents data from outside the period of review from being analyzed. Samsung contends that the Department did not require it to submit sales outside the period of review and even if it had, such sales would not affect the model matches.

Department's Position: Section 773(a)(1) of the Tariff Act provides that FMV is the price at the "time such merchandise is first sold within the United States." We have consistently interpreted this as requiring that price comparisons based on reasonably contemporaneous sales of such or similar merchandise in the U.S. and foreign markets. When there are no home market sales made in the same month as the U.S. sale, we try to find home market sales as close in time to the U.S. sale as possible. A contemporaneity guideline has been developed in which we first attempt to use a home market sale occurring up to three months prior to and, if one cannot be identified, no more than two months after the month of the U.S. sale. See our response to Comment 1 in Final Results of Antidumping Duty Administrative Review: Certain Forged Steel Crankshafts from the United Kingdom. (56 FR 5975, 5976, February 14, 1991.)

Although it has become our practice to require respondents to report sales outside the period of review so that a so-called 90/60-day analysis can be performed on sales transactions which occurred at both the beginning and the end of the period of review, the questionnaire we issued to Samsung did not specifically require the company to report this information. We conducted a 90/60-day analysis of the home market models sold during the period of review. In those few situations in which Samsung did not have sales of such or similar home market merchandise, the company provided CV information.

In its certified December 20, 1991, rebuttal brief, Samsung asserted that although it would be willing to submit home market sales for the three-month period before and the two-month period after the period of review, the use of this information would not affect the model matches used in the preliminary results. After reviewing all of Samsung's CV-based sales which occurred within 90 days of the beginning and 60 days of the end of the review, we found that for every model based on CV during these periods, CV was used for that same model throughout the entire period of review. In light of this, as well as the fact that, despite having had access under administrative protective order to the sales data submitted by Samsung, petitioner did not suggest that we collect the additional data until the filing of its case brief, we have determined that collection of additional sales data does not warrant delaying the completion of this administration review.

Comment 8: Samsung contends that the Department should not compare U.S. sales to distributors with home market sales to end-users. Petitioner contends that since Samsung has provided no evidence to demonstrate that sales to end-users should be excluded from the Department's analysis, such sales should be included.

Department's Position: We agree with Samsung. According to 19 CFR 353.58, "[t]he Secretary normally will calculate foreign market value and United States price based on sales at the same commercial level of trade." Samsung home market sales during the period of review were to both dealers and end-users; its U.S. sales were exclusively to distributors. Accordingly, for the final results we have compared Samsung's U.S. sales to distributors with its home market sales to dealers. In those cases where there were no comparable home market sales to dealers, we used home market sales to end-users for the purpose of comparison.

Comment 9: Samsung contends that the Department should deduct its reported technical service expense from FMV as a direct selling expense. Petitioner argues that the Department correctly considered this expense to be an indirect selling expense and should not allow a deduction.

Department's Position: We agree with petitioner. According to the questionnaire we issued Samsung, and in keeping with our practice, "we will only consider those [technical service expenses] that you can directly relate to sales of the subject merchandise." As in the less-than-fair-value investigation, in which we disallowed Samsung's claimed technical service expenses, Samsung has not been able to identify the amount expended for technical services on a sale by sale, or even model-specific, basis. Accordingly, we have disallowed Samsung's claim to deduct technical service expenses from FMV.

Final Results of the Review

As a result of comments received, we have revised our preliminary results for Samsung, and we determine the margin to be:

Manufacturer exporter	Time period	Margin (percent)
Samsung Electronics Co., Ltd	08/03/89–1/31/91	0.02

The Department shall determine, and the Customs Service shall assess, antidumping duties on all appropriate entries. Individual differences between United States price and foreign market value may vary from the percentage stated above. Upon completion of this review, the Department will issue appraisement instructions directly to the Customs Service.

Furthermore, the following deposit requirements will be effective upon publication of this notice of final results of administrative review for all shipments of small business telephone systems and subassemblies thereof from Korea entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by section 751(a)(1) of the Tariff Act: (1) Because Samsung's margin is *de minimis*, no cash deposit will be required for Samsung; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value investigation, but the manuacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) no cash deposits will be required for all other manufacturers or exporters.

These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice also reserves as a final reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Dated: March 3, 1992.

Alan M. Dunn,

Assistant Secretary for Import Administration.

BILLING CODE 3510–DS–M

[A–533–502]

Certain Welded Carbon Steel Standard Pipe and Tube From India; Preliminary Results of Antidumping Duty Administrative Review

AGENCY: International Trade Administration, Import Administration, Department of Commerce.

ACTION: Notice of preliminary results of antidumping duty order administrative review.

SUMMARY: In response to a request by petitioner, the Department of Commerce is conducting an administrative review of the antidumping duty order on certain welded carbon steel standard pipe and tube from India. The review covers one exporter for the period from May 1, 1990 through April 30, 1991. As a result of this review, the Department has preliminarily determined that dumping margins exist with respect to this exporter. Interested parties are invited to comment on these preliminary results.

EFFECTIVE DATE: March 9, 1992.

FOR FURTHER INFORMATION: Contact Jim Rice or Wendy Frankel, Office of Agreements Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230, telephone (202) 377–3793.

SUPPLEMENTARY INFORMATION: On May 12, 1986, the Department of Commerce (the Department) published in the **Federal Register** an antidumping duty order on certain welded carbon steel standard pipe and tube from India (51 FR 17384). On May 21, 1991, the Department published in the **Federal Register** a notice of opportunity to request an administrative review for the period May 1, 1990 through April 30, 1991 (56 FR 23271). Subsequent to the publication of the notice of opportunity, the Standard Pipe Subcommittee of the Committee on Pipe and Tube Imports and its individual members requested that the Department conduct an administrative review covering Tata Iron and Steel Co., Ltd. (TISCO). On June 18, 1991, the Department published a notice of initiation (56 FR 27943). The Department is now conducting this review in accordance with section 751 of

the Tariff Act of 1930, as amended (the Act).

Scope of the Review

Imports covered by this review are shipments of welded carbon steel pipes and tubes with an outside diameter of 0.375 inch or more but not over 16 inches. These products are commonly referred to in the industry as "standard pipe" and are produced to various American Society for Testing Materials (ASTM) specifications, most notably A–53, A–120, or A–135. Until January 1, 1989, such merchandise was classifiable under item numbers 610.3231, 610.3234, 610.3242, 610.3243, 610.3252, 610.3254, 610.3256, 610.3258, adn 610.4925 of the Tariff Schedule of the United States Annotated (TSUSA). This merchandise is currently classifiable under Harmonized Tariff Schedule (HTS) item numbers 7306.1000, 7306.30.5025, 7306.30.5032, 7306.30.5040, 7306.30.5055, 7306.30.5085, and 7306.30.5040. As with the TSUSA numbers, the HTS numbers are provided for convenience and customs purposes. The written description remains dispositive.

Verification

In accordance with section 776(b)(3) of the Act, the Department conducted a verification of the questionnaire responses submitted by TISCO at the company's headquarters in Calcutta, India, from December 9 through December 13, 1991. We used standard verification procedures, including examination of accounting records and other documents containing relevant information.

During verification, we found minor discrepancies in TISCO's response. In particular, TISCO did not accurately calculate its claimed adjustment for a difference in cost reflecting the difference in physical merchandise between ASTM and Indian Standard (IS) pipe, nor did it report the correct date of sale information on all its U.S. sales. These, and other minor errors, were corrected at verification and accepted by the Department.

United States Price

In accordance with section 772(b) of the Act, the Department based United States price on purchase price because the merchandise was sold to unrelated purchasers in the U.S. prior to its importation. We calculated purchase price based on f.a.s. or f.o.b. packed prices to U.S. customers.

We added to purchase price certain import duties which were rebated, or not collected, by reason of the exportation of the merchandise to the United States, in accordance with section 772(d)(1)(B) of the Act.

Foreign Market Value

In accordance with section 773(a) of the Act, we calculated foreign market value based on delivered packed prices of IS pipe to unrelated purchasers in India at the same commercial level of trade as U.S. customers, *i.e.*, wholesalers and distributors. Although some of the standard pipe TISCO sold in India was identical to the merchandise sold in the United States, which conforms to ASTM specifications, it was determined in the previous review that TISCO's home-market sales of ASTM pipe were "not in the ordinary course of trade for home consumption" within the meaning of section 773(a)(1)(A) of the Act. See Final Results of Antidumping Duty Administrative Review, Certain Welded Carbon Steel Standard Pipes and Tubes from India (56 FR 64753). No conclusive evidence was presented at verification which would cause the Department to alter its position on this issue.

The Department deducted cash discounts, where appropriate, and adjusted foreign market value for differences in packing costs between the two markets. In accordance with section 773(a)(4)(C) of the Act and § 353.57 of our regulations (19 CFR 353.57), we also adjusted foreign market value to account for cost differences attributable to differences in the physical characteristics of the merchandise reflecting ASTM and IS characteristics. We made a similar adjustment where there was no product in the home market with the same end-type as the product sold in the United States.

Preliminary Results of the Review

As a result of our comparison of the United States price to foreign market value, we preliminarily determine that the following dumping margin exists:

Producer	Period of review	Margin
Tata Iron and Steel Co.	05/01/90–04/30/91	67.99

Parties to the proceeding may request disclosure within 5 days of the date of publication of this notice. Interested parties may request a hearing within 10 days of the date of publication of this notice and submit written comments on these preliminary results within 30 days of the date of publication of this notice in the **Federal Register**. We will hold a hearing, if requested, as early as is convenient for the parties but no later than 44 days after the date of publication, or the first business day thereafter. Interested parties may submit case briefs no later than 14 days before the date of the hearing or the first business day thereafter. Rebuttal briefs and rebuttal comments, limited to issues raised in the initial round of comments, may be filed no later than 7 days after submission of the initial round of comments or the first business day thereafter. The Department will publish the final results of this administrative review, including an analysis of all issues raised in any written comments or hearing.

The Department shall determine, and the Customs Service shall assess, antidumping duties on all appropriate entries. Individual differences between United States price and foreign market value may vary from the percentage stated above. The Department will issue appraisement instructions directly to the Customs Service.

Furthermore, the following deposit requirements will be effective for all shipments of the subject merchandise, entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(1) of the Act: (1) The cash deposit rate for the reviewed company will be that rate established in the final results of this administrative review; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will be the "all other" rate established in the final results of this administrative review. This rate represents the highest rate for any firm with shipments in this administrative review, other than those firms receiving a rate based entirely on best information available. These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and notice are in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1), and 19 CFR 353.22.

Dated: February 28, 1992.

Marjorie A. Chorlins,

Acting Assistant Secretary for Import Administration.

Carbon Steel Wire Rod From Saudi Arabia; Final Results of Countervailing Duty Administrative Review

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of final results of countervailing duty administrative review.

SUMMARY: The Department of Commerce has completed an administrative review of the countervailing duty order on carbon steel wire rod from Saudi Ariabia. We determine the total bounty or grant to be 0.01 percent *ad valorem* for the period of January 1, 1990 through December 31, 1990. In accordance with 19 CFR 355.7, any rate less than 0.50 percent *ad valorem* is *de minimis*.

EFFECTIVE DATE: March 9, 1992.

FOR FURTHER INFORMATION CONTACT: Philip Pia or Michael Rollin, Office of Countervailing Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377–2786.

SUPPLEMENTARY INFORMATION:

Background

On December 26, 1991, the Department of Commerce (the Department) published in the **Federal Register** (56 FR 66847) the preliminary results of its administrative review of the countervailing duty order on carbon steel wire rod from Saudi Arabia (February 3, 1986; 51 FR 4206). The Department has now completed this administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Tariff Act).

Scope of Review

Imports covered by these reviews are shipments of Saudi carbon steel wire rod. Carbon steel wire rod is a coiled, semi-finished, hot-rolled carbon steel product of approximately round solid cross section, not under 0.20 inch nor over 0.74 inch in diameter, tempered or not tempered, treated or not treated, not manufactured or partly manufactured, and valued over or under 4 cents per pound. Such merchandise is classifiable under item numbers 7213.20.00, 7213.31.30, 7213.31.60, 7213.39.00, 7213.41.30, 7213.41.60, 7213.49.00 and 7213.50.00 of the *Harmonized Tariff Schedule* (HTS). The HTS item numbers are provided for convenience and Customs purposes. The written description remains dispositive.

The review covers the period January 1, 1990 through December 31, 1990 and four programs: (1) Public Investment Fund loan to HADEED, (2) SABIC's transfer of SULB shares to HADEED, (3) preferential provision of equipment of HADEED, and (4) income tax holiday for joint venture projets in Saudia Arabia. The Saudi Iron and Steel Company (HADEED) was the sole producer and/or exporter of carbon steel wire rod to the United States during the review period.

Analysis of Comments Received

We gave interested parties an opportunity to comment on the preliminary results. We received comments from the respondent (HADEED), and the petitioners.

Comment 1: The respondent argues that the Public Investment Fund (PIF) loan program and the Saudi Industrial Development Fund (SIDF) loan program are "integrally linked" as defined in section 355.43(b)(6) of the Department's proposed regulations; see, Countervailing Duties; Notice of Proposed Rulemaking and Request for Public Comments, 54 FR 23366, (May 31, 1989). Since PIF and SIDF are integrally linked, they should be considered together in determining whether loans provided by these two entities are limited to a specific enterprise or industry, or group of enterprises or industries. SIDF and PIF qualify for linkage under each factor identified in the Department's proposed regulations. These factors are (1) evidence of a government policy to treat industries equally, (2) the purposes of the programs as stated in their enabling legislation, (3) the administration of the programs, (4) the manner of funding the programs, and (5) "other factors."

The information on the record shows a Saudi government policy to treat industries equally. PIF and SIDF provide identical benefits—low-cost, long-term construction loans—on identical terms to a wide variety of industries. PIF and SIDF are two of five Specialized Credit Institutioins that the Saudi government created to develop and diversify the Saudi economy. The PIF and SIDF share a common purpose as the only sources of low-cost financing for the industrial and manufacturing sector. PIF loans are available to companies with some government equity, and are suited for the types of large projects that the Saudi government would be most likely to undertake. SIDF loans, on the other hand, are available to companies with some private Saudi ownership and are best suited for small and medium-sized projects. Between them, the two programs address the borrowing needs of the entire range of Saudi industries.

PIF and SIDF share a common purpose, based on statements in each entity's enabling legislation. PIF was created "to finance investment in the productive projects of a commercial nature." Similarly, SIDF was created "to support industrial development in the private sector of the Kingdom's economy." Both programs are aimed at financing development in the Saudi industrial and manufacturing sector.

PIF and SIDF are administered in a comparable manner through SAMA (the Saudi Central Bank) and the Ministry of Finance and National Economy. Both PIF and SIDF are administered by boards of directors with a common chairman, the Minister of Finance and National Economy, with the remaining members drawn from SAMA and other Saudi government agencies.

PIF and SIDF were orginally funded through the Ministry of Finance and National Economy. Currently, both programs are self-sufficient. SAMA produces a consolidated balance sheet showing assets and liabilities of PIF and SIDF jointly. All information regarding budget allocations, disbursements and repayments of PIF and SIDF are published as consolidated statements.

Other factors integrally linking PIF and SIDF include the fact that there are no *de jure* limitations on the types of industries eligible to receive loans under either fund. The lending practices and histories of both funds are similar. The maximun loan amount is SR 500 million for PIF and SR 400 million for SIDF. The maximum loan period for both PIF and SIDF is 15 years. The PIF requires Saudi government equity participation in a project in order to obtain funds. Similarly, SIDF requires at least 25 percent equity contribution from private Saudi sources in order to obtain funds.

Thus, in light of the factors described above, respondent argues that the Department has a compelling case for finding integral linkage between PIF and SIDF. The programs are part of the same overall government lending policy, they are intended to be complementary and to achieve the same purpose, they are

administered and funded through the same governmental agency, and they provide similar benefits to the same sector of the Saudi economy. Based on a finding of integral linkage, the Department should consider PIF and SIDF programs together and find that neither is specifically provided and therefore countervailable.

The petitioner argues the Department has rejected respondent's argument regarding integral linkage in the previous three reviews (see, Final Results of Countervailing Duty Administrative Review; Carbon Steel Wire Rod from Saudi Arabia, 56 FR 26652, June 10, 1991; and, Final Results of Countervailing Duty Administrative Reviews; Carbon Steel Wire Rod from Saudi Arabia, 56 FR 48158, September 24, 1991). The unique aspects of the PIF program cannot be hidden by lumping it together with other Saudi government financing programs such as SIDF, which were established for other reasons. Nothing the Saudi government does in providing other loans through separate programs detracts from PIF's specificity.

Department's Position: Any conclusion regarding the roles of PIF and SIDF in a broader Saudi governmental policy initiative can only be reached by considering the historical and practical development of each program up to the time the loan in question was contracted. Documented information on the inception of the programs that explicitly ties PIF and SIDF as complementary parts of an overarching governmental policy directive has not been presented by the respondent despite the Department's repeated requests. Therefore, since the factual information on the record relevant to the establishment and development of PIF and SIDF is insufficient to demonstrate integral linkage, we will continue to consider each program separately.

Comment 2: The respondent contends that it is unreasonable for the Department to demand any more factual proof of integral linkage than what HADEED has provided. All known existing evidence has been presented. For reasons relating primarily to the nature of record-keeping during the early stages of Saudi Arabia's industrialization process, better evidence appears not to exist. The Department is not justified in treating evidence of linkage at inception as a criterion for finding integral linkage. Such a criterion is not even explicitly listed in the Department's proposed regulation. Furthermore, the Department's insistence on proof of such additional factors violates prescribed rules of procedure by using factors purporting to be guidance as a final rule determining substantive rights. The Court of International Trade has held that the Department must follow the minimal "notice and comment" procedures embedied in the Administrative Procedures Act (APA) before promulgating final rules. Ipsco, Inc. v. United Sttes, 687 F. Supp. 614 (C.I.T. 1988).

Department's Position: With regard to the question of "integral linkage," the Department has in these reviews consistently focused its attention on the relationship between the programs in question and "an overall government policy or national development plan." See, Final Results of Countervailing Duty Administrative Reviews; Carbon Steel Wire Rod from Saudi Arabia, 56 FR 48156, September 24, 1991). This position was also followed in the Final Affirmative Countervailing Duty Determination; Certain Fresh Cut Flowers from the Netherlands (52 FR 3301, February 3, 1987) wherein the Department would not find integral linkage because "the government was unable to document the inclusion of [the programs] as part of an overall national energy program. * * *" *Id* at 3309.

In requiring that this relationship be explicit at the inception(s) of the programs, the Department violates no statutory or regulatory provision. Even if one turns to the Department's proposed regulations, the decision herein is fully supported. 19 CFR 355.43(b)(6) of the proposed regulations tells us that when deciding an integral linkage question the Secretary will examine "evidence of a government policy to treat industries equally." This broad instruction is included on a list that explicitly advises parties that the Department will consider the factors on the list together with "other factors." Thus, it is within the Department's discretion to explicate each factor listed in the proposed regulation, and to do so in accordance with Departmental precedent. This is precisely what the Department has done with the second factor listed in the proposed regulation.

Comment 3: The respondent argues that, contrary to the Department's preliminary results, PIF loans are not limited to a specific group of enterprises, and therefore, they are not countervailable. HADEED contends that the Department's preliminary determination that the Saudi government, through PIF, provides loans to "a specific enterprise or industry or group of enterprises or industries" within the meaning of section 1677(5)(B), is incorrect. The basis for the Department's determination is the erroneous assumption that only six companies have effectively benefited from the program. In reality, 24 companies in a wide variety of industries have received PIF financing. The 18 companies that are at least 50 percent-owned by either SABIC or PETROMIN should be treated as separate entities. The Department has, in effect, found that there is an intercorporate transfer of benefits based solely on corporate relationships with SABIC or PETROMIN. Such an application of the specificity test based on a commonality of shareholders is without precedent and contravenes the Department's established policy not to assume automatic transfer of benefits based on related party status. Respondents cite the following cases in defense of their argument: Industrial Phosphoric Acid from Israel, 52 FR 25447 (July 7, 1987); Operators for Jalousie and Awning Windows from El Salvador, 51 FR 41516 (November 17, 1986); Low-Fuming Brazing Copper Rod and Wire from New Zealand, 50 FR 31638 (August 5, 1985); and Carbon Steel Structural Shapes from Luxembourg, 47 FR 39364 (September 7, 1982).

The petitioner contends that PIF provides benefits almost exclusively to the projects undertaken by a few companies with controlling government ownership and therefore constitute a specific group of enterprises in Saudi Arabia.

Department's Position: We disagree with respondent. We have considered and rejected respondent's argument in the original investigation, and in the subsequent three reviews (see, Final Affirmative Countervailing Duty Determination and Countervailing Duty Order; Carbon Steel Wire Rod from Saudi Arabia, 51 FR 4206, February 3, 1986; Final Results of Countervailing Duty Administrative Review; Carbon Steel Wire Rod from Saudi Arabia, 56 FR 26652, June 10, 1991; and, Final Results of Countervailing Duty Administrative Reviews; Carbon Steel Wire Rod from Saudi Arabia, 56 FR 48158, September 24, 1991, respectively). We determined that the loan in question was part of a *de facto* specific program, and respondent has presented no new evidence that would disturb this conclusion (other than that pertaining to "integral linkage"). Furthermore, the Court of International Trade has found that Commerce "reasonably applied the Specificity test" and has concluded that Commerce's determination that the Saudi government provides PIF loans to a specific group of enterprises is in accordance with law. See, *Saudi Iron and Steel Co.* v. *United States*, 675 F. Supp. 1362 (C.I.T. 1987).

Comment 4: Petitioners contend that the Department's use of a composite benchmark incorporating a short-term interest rate is incorrect. In calculating the benchmark, the Department relied on the erroneous assumption that HADEED could have obtained the SIDF's maximum loan limit of fifty percent of the project's total cost. In fact, the maximum amount HADEED could have obtained from SIDF was SR400 million, significantly less than fifty percent of the project's total cost.

Department's Position: We disagree. We have considered and rejected this argument in a previous review. See, Final Results of Countervailing Duty Administrative Review; Carbon Steel Wire Rod from Saudi Arabia, 56 FR 26652, June 10, 1991. Our methodology remains unchanged from the original investigation. Since the PIF loan covered 60 percent of HADEED's total project costs, for our benchmark we assumed that HADEED could have financed 50 percent of its total project costs with a SIDF loan (the maximum eligibility for a company with at least 50 percent Saudi ownership) and the remaining 10 percent of project costs with a Saudi commercial bank loan. The commercial bank portion of the benchmark was based on the average Saudi Interbank Offering Rate (SIBOR) for 1990, plus the normal one percent spread that is common for commercial borrowings from private Saudi banks.

Final Results of Review

After reviewing all of the comments received, we determine the total bounty or grant to be 0.01 percent *ad valorem* for the period January 1, 1990 through December 31, 1990. In accordance with 19 CFR 355.7, any rate less than 0.50 percent *ad valorem* is *de minimis*.

Therefore, the Department will instruct the Customs Service to liquidate, without regard to countervailing duties, all shipments of this merchandise exported on or after January 1, 1990 and exported on or before December 31, 1990.

The Department will also instruct the Customs Service to waive cash deposits of estimated countervailing duties on all shipments of this merchandise entered, or withdrawn from warehouse, for consumption, on or after the date of publication of these final results of administrative review. The waiving of cash deposits of estimated countervailing duties shall remain in effect until publication of the final results of the next administrative review. This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR 355.22.

Dated: March 2, 1992.

Marjorie A. Chorlins,

Acting Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-M

[C-122-819]

Notice of Initiation of Countervailing Duty Investigation: Portable Seismographs from Canada

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: March 9, 1992.

FOR FURTHER INFORMATION CONTACT: Vincent Kane or Gary Bettger, Office of Countervailing Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 377-2815 and (202) 377-2239, respectively.

INITIATION:

The Petition

On February 12, 1992, we received a petition in proper form from GeoSonics Inc., on behalf of the U.S. industry producing portable seismographs. In accordance with 19 CFR 355.12 (1991), petitioner alleges that manufacturers, producers, or exporters of portable seismographs in Canada receive subsidies within the meaning of section 701 of the Tariff Act of 1930, as amended (the Act). Petitioner names the following programs as possible sources of subsidies for Canadian producers of portable seismographs: Industrial and Regional Development Program (IRDP); General Development Agreements (GDA) and Economic and Regional Development Agreements (ERDA); Ontario Development Corporation (ODC) Export Support Loans; Program for Export Market Development (PEMD) and promotional Projects Program (PPP); Export Credit Financing; Certain Investment Tax Credits (ITC); and Other Research and Development Grants and/or Subsidies. Because Canada is a "country under the Agreement" within the meaning of section 701(b) of the Act, Title VII of the Act applies to this investigation, and the U.S. International Trade Commission (ITC) is required to determine whether imports of the subject merchandise from Canada materially injure, or threaten material injury to, the U.S. industry.

Petitioner has stated that it has standing to file the petition because it is an interested party as defined under 19 CFR 355.2(i), and because it has filed the petition on behalf of the U.S. industry manufacturing the product subject to this investigation. If any interested party, as described in 19 CFR 355.2(i) (3), (4), (5), or (6), wishes to register support for, or opposition to, this petition, please file written notification with the Assistant Secretary for Import Administration.

Initiation of Investigation

Under 19 CFR 355.13(a) the Department must determine, within 20 days after a petition is filed, whether the petition properly alleges the basis on which a countervailing duty may be imposed under section 701(a) of the Act, and whether the petition contains information reasonably available to the petitioner support the allegations. We have examined the petition on portable seismographs from Canada and have found that it meets these requirements. Therefore, we are initiating a countervailing duty investigation to determine whether Canadian manufacturers, producers, or exporters of portable seismographs receive subsidies. In accordance with 19 CFR 355.13(b), we also are notifying the ITC of this action.

Scope of Investigation

The products covered by this investigation are portable seismographs from Canada. Portable seismographs are used by the mining, construction, and blasting industries to measure the ground and air vibrations produced by man-made blasting. A portable seismograph measures the basic components of man-made ground and air vibrations in compliance with seismograph standards established by the U.S. Bureau of Mines. The basic components and ranges of measurement are: Ground peak particle velocity (.02 to 10 inches per second); ground motion frequency (2 to 200 Hz); direction of motion (3 orthogonal axis (L,T,V)); airblast level (100 to 140 dBL); airblast overpressure (1/10,000 to 1/100 psi); and airblast frequency (2 to 200 Hz). Earthquake, nuclear, and reflection/refraction seismographs are not included in the scope of this investigation. Portable seismographs are currently provided for in subheading 9015.80.6000 of the *Harmonized Tariff Schedule* (HTS). Although the HTS subheadings are provided for convenience and customs purposes, our written description of the scope of this proceeding is dispositive.

ITC Notification

Section 702(d) of the Act requires us to notify the ITC of this action and to provide it with the information we used to arrive at this determination. We will notify the ITC and make available to it all non-privileged and non-proprietary information. We will also allow the ITC access to all privileged and business proprietary information in the Department's files, provided the ITC confirms in writing that it will not disclose such information either publicly or under administrative protective order, without the written consent of the Deputy Assistant Secretary for Investigations, Import Administration.

Preliminary Determination by the ITC

The ITC will determine by March 30, 1992, whether there is a reasonable indication that imports of portable seismographs from Canada are materially injuring, or threaten material injury to, a U.S. industry. If its determination is negative, the investigation will be terminated. If affirmative, the Department will make a preliminary determination on or before May 7, 1992, unless the investigation is terminated pursuant to 19 CFR 355.17 or the preliminary determination is extended pursuant to 19 CFR 355.15.

This notice is published pursuant to 702(c)(2) of the Act.

Dated: March 3, 1992.

Alan M. Dunn,

Assistant Secretary for Import Administration.

[FR Doc. 92-5423 Filed 3-6-92; 8:45 am]

BILLING CODE 3510-DS-M

Minority Business Development Agency

Business Development Center Applications: San Jose, CA

AGENCY: Minority Business Development Agency, Commerce.

ACTION: Notice.

SUMMARY: In accordance with Executive Order 11625, the Minority Business Development Agency (MBDA) is soliciting competitive applications under its Minority Business Development Center (MBDC) Program to operate an MBDC for approximately a 3-year period, subject to Agency priorities, recipient performance, and the availability of funds. The cost of performance for the first budget period (12 months) is estimated at $276,250 in Federal funds and a minimum of $48,750 in non-Federal (cost sharing) contributions. Cost-Sharing contributions may be in the form of cash contributions, client fees, in-kind contributions or combinations thereof. The period of performance will be from August 1, 1992 to July 31, 1993. The MBDC will operate in the San Jose, California Geographic Service Area.

The award number for this MBDC will be 09-10-92008-01.

The funding instrument for the MBDC will be a cooperative agreement. Competition is open to individuals, non-profit and for-profit organizations, state and local governments, American Indian Tribes and educational institutions.

The MBDC program is designed to provide business development services to the minority business community for the establishment and operation of viable minority businesses. To this end, MBDA funds organizations that can identify and coordinate public and private sector resources on behalf of minority individuals and firms; offer a full range of management and technical assistance; and serve as a conduit of information and assistance regarding minority business.

Applications will be evaluated initially by regional staff on the following criteria: The experience and capabilities of the firm and its staff in addressing the needs of the business community in general and, specifically, the special needs of minority businesses, individuals and organizations (50 points); the resources available to the firm in providing business development services (10 points); the firm's approach (techniques and methodologies) to performing the work requirements included in the application (20 points); and the firm's estimated cost for providing such assistance (20 points). An application must receive at least 70% of the points assigned to any one evaluation criteria category to be considered programmatically acceptable and responsive. The selection of an application for further processing by MBDA will be made by the Director based on a determination of the application most likely to further the purpose of the MBDC program. The application will then be forwarded to the Department for final processing and approval, if appropriate. The Director will consider past performance of the applicant on previous Federal awards.

MBDCs shall be required to contribute at least 15% of the total project cost through non-Federal contributions. To assist them in this effort, MBDCs may charge client fees for management and technical assistance (M&TA) rendered. Based on a standard rate of $50.00 per hour, MBDCs will charge client fees at 20% of the total cost for firms with gross sales of $500,000 or less, and 35% of the total cost for firms with gross sales of over $500,000.

MBDCs performing satisfactorily may continue to operate after the initial competitive year for up to 2 additional budget periods. MBDCs with year-to-date "commendable" and "excellent" performance ratings may continue to be funded for up to 3 or 4 additional budget periods, respectively. Under no circumstances shall an MBDC be funded for more than 5 consecutive budget periods without competition. Periodic reviews culminating in year-to-date quantitative and qualitative evaluations will be conducted to determine if funding for the project should continue. Continued funding will be at the discretion of MBDA based on such factors as an MBDC's performance, the availability of funds and Agency priorities.

Awards under this program shall be subject to all Federal and Departmental regulations, policies, and procedures applicable to Federal assistance awards.

In accordance with OMB Circular A-129, "Managing Federal Credit Programs," applicants who have an outstanding account receivable with the Federal Government may not be considered for funding until these debts have been paid or arrangements satisfactory to the Department of Commerce are made to pay the debt.

Applicants are subject to Governmentwide Debarment and Suspension (Nonprocurement) requirements as states in 15 CFR part 26.

The Departmental Grants Officer may terminate any grant/cooperative agreement in whole or in part at any time before the date of completion whenever it is determined that the MBDC has failed to comply with the conditions of the grant/cooperative agreement. Examples of some of the conditions which can cause termination are failure to meet cost-sharing requirements; unsatisfactory performance of MBDC work requirements; and reporting inaccurate or inflated claims of client assistance or client certification. Such inaccurate or inflated claims may be deemed illegal and punishable by law. False information on the application can be grounds for denying or terminating funding.

On November 18, 1988, Congress enacted the Drug-Free Workplace Act of 1988 (Pub. L. 100-690, title V, subtitle D). The statute requires contractors and grantees of Federal agencies to certify that they will provide a drug-free workplace. Pursuant to these requirements, the applicable certification form must be completed by each applicant as a precondition for receiving Federal grant or cooperative agreement awards.

15 CFR part 28 is applicable and prohibits recipients of Federal contracts, grants, and cooperative agreements from using appropriated funds for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a specific contract, grant, or cooperative agreement. Form CD-511, "Certifications Regarding Debarment, Suspension and Other Responsibility Matters; Drug-Free Workplace Requirements and Lobbying" and, when applicable, the SF-LLL, "Disclosure of Lobbying activities," are required.

Closing Date: The closing date for submitting an application is April 20, 1992. Applications must be postmarked on or before April 20, 1992.

Proposals will be reviewed by the Dallas Regional Office. The mailing address for submission is: Dallas Regional Office, Minority Business Development Agency, U.S. Department of Commerce, 1100 Commerce Street, room 7B23, Dallas, Texas 75242, 214/767-8001.

A pre-application conference to assist all interested applicants will be held at the following address and time: San Francisco Regional Office, Minority Business Development Agency, U.S. Department of Commerce, 221 Main Street, room 1280, San Francisco, California 94105, March 31, 1992 at 10 a.m.

FOR FURTHER INFORMATION CONTACT: Xavier Mena, Regional Director, San Francisco Regional Office at 415/744-3001.

SUPPLEMENTARY INFORMATION: Anticipated processing time of this award is 120 days. Executive Order 12372, "Intergovernmental Review of Federal Programs," is not applicable to this program. Questions concerning the preceding information, copies of application kits and applicable regulations can be obtained from the San Francisco Regional Office.

11.800 Minority Business Development (Catalog of Federal Domestic Assistance)

Dated: March 3, 1992.

Xavier Mena,

Regional Director, San Francisco Regional Office.

BILLING CODE 3510-21-M

Business Development Center Applications: San Francisco, California

AGENCY: Minority Business Development Agency.

ACTION: Notice.

SUMMARY: In accordance with Executive Order 11625, the Minority Business Development Agency (MBDA) is soliciting competitive applications under its Minority Business Development Center (MBDC) Program to operate an MBDC for approximately a 3-year period, subject to Agency priorities, recipient performance, and the availability of funds. The cost of performance for the first budget period (12 monthe) is estimated at $553,000 in Federal funds and a minimum of $97,588 in non-Federal (cost sharing) contributions. Cost-Sharing contributions may be in the form of cash contributions, client fees, in-kind contributions or combinations thereof. The period of performance will be from August 1, 1992 to July 31, 1993. The MBDC will operate in the San Francisco, California Geographic Service Area.

The award number for this MBDC will be 09-10-92009-01.

The funding instrument for the MBDC will be a cooperative agreement. Competition is open to individuals, non-profit and for-profit organizations, state and local governments, American Indian Tribes and educational institutions.

The MBDC program is designed to provide business development services to the minority business community for the establishment and operation of viable minority businesses. To this end, MBDA funds organizations that can identify and coordinate public and private sector resources on behalf of minority individuals and firms; offer a full range of management and technical assistance; and serve as a conduit of information and assistance regarding minority business.

Applications will be evaluated initially by regional staff on the following criteria: the experience and capabilitites of the firm and its staff in addressing the needs of the business community in general and, specifically, the special needs of minority businesses, individuals and organizations (50 points); the resources available to the firm in providing business development services (10 points); the firm's approach (techniques and methodologies) to performing the work requirements included in the application (20 points); and the firm's estimated cost for providing such assistance (20 points). An application must receive at least 70% of the points assigned to any one evaluation criteria category to be considered programmatically acceptable and responsive. The selection of an application for further processing by MBDA will be made by the Director based on a determination of the application most likely to further the purpose of the MBDC program. The application will then be forwarded to the Department for final processing and approval, if appropriate. The Director will consider past performance of the applicant on previous Federal awards.

MBDCs shall be required to contribute at least 15% of the total project cost through non-Federal contributions. To assist them in this effort, MBDCs may charge client fees for management and technical assistance (M&TA) rendered. Based on a standard rate of $50.00 per hour, MBDCs will charge client fees at 20% of the total cost for firms with gross sales of $500,000 or less, and 35% of the total cost for firms with gross sales of over $500,000.

MBDCs performing satisfactorily may continue to operate after the initial competitive year for up to 2 additional budget periods. MBDCs with year-to-date "commendable" and "excellent" performance ratings may continue to be funded for up to 3 or 4 additional budget periods, respectively. Under no circumstances shall an MBDC be funded for more than 5 consecutive budget periods without competition. Periodic reviews culminating in year-to-date quantitative and qualitative evaluations will be conducted to determine if funding for the project should continue. Continued funding will be at the discretion of MBDA based on such factors as MBDC's performance, the availability of funds and Agency priorities.

Awards under this program shall be subject to all Federal and Departmental regulations, policies, and procedures applicable to Federal assistance awards.

In accordance with OMB Circular A-129 "Managing Federal Credit Programs," applicants who have an outstanding account receivable with the Federal Government may not be considered for funding until these debts have been paid or arrangements satisfactory to the Department of Commerce are made to pay the debt.

Applicants are subject to Governmentwide Debarment and Suspension (Nonprocurement) requirements as stated in 15 CFR Part 26.

The Departmental Grants Officer may terminate any grant/cooperative agreement in whole or in part at any time before the date of completion whenever it is determined that the MBDC has failed to comply with the

conditions of the grant/cooperative agreement. Examples of some of the conditions which can cause termination are failure to meet cost-sharing requirements; unsatisfactory performance of MBDC work requirements; and reporting inaccurate or inflated claims of the client assistance or client certification. Such inaccurate or inflated claims may be deemed illegal and punishable by law. False information on the application can be grounds for denying or terminating funding.

On November 18, 1988, Congress enacted the Drug-Free Workplace Act of 1988 (Public Law 100–690, Title V, Subtitle D). The status requires contractors and grantees of Federal agencies to certify that they will provide a drug-free workplace. Pursuant to these requirements, the applicable certification form must be completed by each applicant as a precondition for receiving Federal grant or cooperative agreement awards.

15 CFR Part 28 is applicable and prohibits recipients of Federal contracts, grants, and cooperative agreements from using appropriated funds for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a specific contract, grant, or cooperative agreement. Form CD–511, "Certifications Regarding Debarment, Suspension and Other Responsibility Matters; Drug-Free Workplace Requirements and Lobbying" and, when applicable, the SF–LLL, "Disclosure of Lobbying Activities," are required.

CLOSING DATE: The closing date for submitting an application is April 20, 1992. Applications must be postmarked on or before April 20, 1992.

Proposals will be reviewed by the Dallas Regional Office. The mailing address for submission is: Dallas Regional Office, Minority Business Development Agency, U.S. Department of Commerce, 1100 Commerce Street, room 7B23, Dallas, Texas 75242, 214/767–8001.

A pre-application conference to assist all interested applicants will be held at the following address and time: San Francisco Regional Office, Minority Business Development Agency, U.S. Department of Commerce, 221 Main Street, room 1280, San Francisco, California 94105, March 31, 1992 at 10 a.m.

FOR FURTHER INFORMATION CONTACT: Xavier Mena, Regional Director, San Francisco Regional Office at 415/744–3001.

SUPPLEMENTARY INFORMATION: Anticipated processing time of this award is 120 days. Executive Order 12372, "Intergovernmental Review of Federal Programs," is not applicable to this program. Questions concerning the preceding information, copies of applications kits and applicable regulations can be obtained from the San Francisco Regional Office.

11.800 Minority Business Development (Catalog of Federal Domestic Assistance)

Dated: March 3, 1992.

Xavier Mena,

Regional Director, San Francisco Regional Office.

BILLING CODE 3510–21–M

Business Development Center Applications: Jacksonville, FL

AGENCY: Minority Business Development Agency, Commerce.

ACTION: Notice.

SUMMARY: In accordance with Executive Order 11625, the U.S. Department of Commerce's Minority Business Development Agency (MBDA) is soliciting competitive applications under its Minority Business Development Center (MBDC) program to operate an MBDC for approximately a 3-year period, subject to Agency priorities, recipient performance and the availability of funds. The cost of performance for the first budget period (12 months) is $173,250 in Federal funds and a minimum of $30,574 in non-Federal (cost-sharing) contributions. Cost-sharing contributions may be in the form of cash contributions, client fees, in-kind contributions or combinations thereof. The period of performance will be from August 1, 1992 to July 31, 1993. The MBDC will operate in the Jacksonville, Florida geographic service area.

The award number for this MBDC will be 04–10–92008–01.

The funding instrument for the MBDC will be a cooperative agreement. Competition is open to individuals, non-profit and for-profit organizations, State and local governments, American Indian tribes and educational institutions.

The MBDC program is designed to provide business development services to the minority business community for the establishment and operation of viable minority businesses. To this end, MBDA funds organizations that can identify and coordinate public and private sector resources on behalf of minority individuals and firms; offer a full range of management and technical assistance; and serve as a conduit of information and assistance regarding minority business.

Applications will be evaluated initially by regional staff on the following criteria: The experience and capabilities of the firm and its staff in addressing the needs of the business community in general and, specifically, the special needs of minority businesses, individuals and organizations (50 points); the resources available to the firm in providing business development services (10 points); the firm's approach (techniques and methodologies) to performing the work requirements included in the application (20 points); and the firm's estimated cost for providing such assistance (20 points). An application must receive at least 70% of the points assigned to any one evaluation criteria category to be considered programmatically acceptable and responsive. The selection of an application for further processing by MBDA will be made by the Director based on a determination of the application most likely to further the purpose of the MBDC program. The application will then be forwarded to the Department for final processing and approval, if appropriate. The Director will consider past performance of the applicant on previous Federal awards.

MBDCs shall be required to contribute at least 15% of the total project cost through non-Federal contributions. To assist them in this effort, MBDCs may charge client fees for management and technical assistance (M&TA) rendered. Based on a standard rate of $50 per hour, MBDCs will charge client fees at 20% of the total cost for firms with gross sales of $500,000 or less, and 35% of the total cost for firms with gross sales of over $500,000.

MBDCs performing satisfactorily may continue to operate after the initial competitive year for up to 2 additional budget periods. MBDCs with year-to-date "commendable" and "excellent" performance ratings may continue to be funded for up to 3 or 4 additional budget periods, respectively. Under no circumstances shall an MBDC be funded for more than 5 consecutive budget periods without competition. Periodic reviews culminating in year-to-date quantitative and qualitative evaluations will be conducted to determine if funding for the project should continue. Continued funding will be at the discretion of MBDA based on such factors as an MBDC's performance, the availability of funds and Agency priorities.

Awards under this program shall be subject to all Federal and Departmental regulations, policies, and procedures applicable to Federal assistance awards.

In accordance with OMB Circular A–129 "Managing Federal Credit Programs," applicants who have an outstanding account receivable with the Federal Government may not be considered for funding until these debts have been paid or arrangements, satisfactory to the Department of Commerce, are made to pay the debt.

Applicants are subject to Governmental Debarment and Suspension (Nonprocurement) requirements as stated in 15 CFR Part 26.

The Department Grants Officer may terminate any grant/cooperative agreement in whole or in part at any time before the date of completion whenever it is determined that the MBDC has failed to comply with the conditions of the grant/cooperative agreement. Examples of some of the conditions which can cause termination are failure to meet cost-sharing requirements; unsatisfactory performance of MBDC work requirements; and reporting inaccurate or inflated claims of client assistance or client certification. Such inaccurate or inflated claims may be deemed illegal and punishable by law.

On November 18, 1988, Congress enacted the Drug-Free Workplace Act of 1988 (Pub. L. 100–690, title V subtitle D). The statute requires contractors and grantees of Federal agencies to certify that they will provide a drug-free workplace. Pursuant to these requirements, the applicable certification form must be completed by each applicant as a pre-condition for receiving Federal grant or cooperative agreement awards.

15 CFR, part 28, is applicable and prohibits recipients of Federal contracts, grants, and cooperative agreements from using appropriated funds for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a specific contract, grant or cooperative agreement. Form CD-511, "Certifications Regarding Debarment, Suspension and Other Responsibility Matters; Drug-Free Workplace Requirements and Lobbying" and, when applicable, the SF–LLL, "Disclosure of Lobbying Activities," are required.

CLOSING DATE: The closing date for submitting an application is April 15, 1992. Applicants must be postmarked on or before April 15, 1992. Proposals will be reviewed by the Washington Regional Office. The mailing address for submission of RFA responses is: Washington Regional Office, Minority Business Development Agency, 14th & Constitution Avenue, NW., room 6711, Washington, DC 20230.

A pre-application conference to assist all interested applicants will be held on April 1, 1992, 9 a.m. at the following address: U.S. Department of Commerce, Minority Business Development Agency, 401 West Peachtree Street, NW., room 1930, Atlanta, Georgia 30308.

SUPPLEMENTARY INFORMATION: Anticipated processing time of this award is 120 days. Executive Order 12372, "Intergovernmental Review of Federal Programs," is not applicable to this program. To order a Request for Application (RFA) and to receive additional information, contact: Carlton L. Eccles, Regional Director of the Atlanta Regional Office on (404) 730–3300 or U.S. Department of Commerce, Minority Business Development Agency, 401 West Peachtree Street NW., room 1930, Atlanta, Georgia 30308.

BILLING CODE 3510–21–M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Announcement of an Import Restraint Limit for Certain Cotton Textile Products Produced or Manufactured in Panama

March 3, 1992.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs establishing a limit for the new agreement year.

EFFECTIVE DATE: April 1, 1992.

FOR FURTHER INFORMATION CONTACT: Nicole Bivens Collinson, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377–4212. For information on the quota status of this limit, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 566–5810. For information on embargoes and quota re-openings, call (202) 377–3715.

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

The Memorandum of Understanding (MOU) dated November 6, 1991 between the Governments of the United States and Panama establishes designated consultation levels for Categories 347/348.

In a subsequent MOU dated January 31, 1992, the two governments agreed, among other things, to convert the designated consultation levels to specific limits for the periods April 1, 1992 through March 31, 1993 and April 1, 1993 through March 31, 1994.

In the letter published below, the Chairman of CITA directs the Commissioner of Customs to establish a limit for the period beginning on April 1, 1992 and extending through March 31, 1993.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 56 FR 60101, published on November 27, 1991). Also see 56 FR 65045, published on December 13, 1991.

The letter to the Commissioner of Customs and the actions taken pursuant to it are not designed to implement all of the provisions of the January 31, 1992 MOU, but are designed to assist only in the implementation of certain of its provisions.

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

March 3, 1992.

Commissioner of Customs,

Department of the Treasury, Washington, DC 20229.

Dear Commissioner: Under the terms of section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), and the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as further extended on July 31, 1991; pursuant to the Memorandum of Understanding dated January 31, 1992, between the Governments of the United States and Panama; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended, you are directed to prohibit, effective on April 1, 1992, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Categories 347/348, produced or manufactured in Panama and exported during the twelve-month period beginning on April 1, 1992 and extending through March 31, 1993, in excess of 700,000 dozen.

Imports charged to the category limit for the period April 1, 1991 through March 31, 1992 shall be charged against that level of restraint to the extent of any unfilled balance. In the event the limit established for that period has been exhausted by previous entries, such goods shall be subject to the level set forth in this directive.

The limit set forth above is subject to adjustment in the future pursuant to the provisions of the current bilateral agreement between the Governments of the United States and Panama.

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The Committee for the Implementation of Textile Agreements has determined that this action falls within the foreign affairs exception of the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

Department of the Navy

CNO Executive Panel; Meeting

Purusant to the provisions of the Federal Advisory Committee Act (5 U.S.C. app. 2), notice is hereby given that the Chief of Naval Operations (CNO) Executive Panel will meet March 25, 1992, from 9 a.m. to 5 p.m. in Alexandria, Virginia.

The purpose of this meeting is to review maritime environment issues as they impact naval vessel construction and operation and shore establishment environmental protection. The agenda of the meeting will consist of discussions of key issues related to environmental cleanup and protection of naval facilities.

For further information concerning this meeting, contact: Judith A. Holden, Executive Secretary to the CNO Exectutive Panel, 4401 Ford Avenue, room 601, Alexandria, Virginia 22302-0268, Phone (703) 756-1205.

Dated: February 27, 1992.

Wayne T. Baucino,

Lieutenant, JAGC, U.S. Naval Reserve, Alternate Federal Register Liaison Officer.

[FR Doc. 92-5385 Filed 3-6-92; 8:45 am]

BILLING CODE 3810-AE-F

Naval Research Advisory Committee; Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. App. 2), notice is hereby given that the Naval Research Advisory Committee will meet on April 1 and 2, 1992. The meeting will be held at the Office of the Chief of Naval Research, 800 North Quincy Street, Arlington, Virginia, and the Atlantic Undersea Test and Evaluation Center, Andros Island, Bahamas and the West Palm Beach, Florida Detachment. The meeting will commence at 8 a.m. and terminate 2:15 p.m. on April 1; and commence at 9:30 a.m. and terminate at 3 p.m. on April 2, 1992. All sessions of the meeting will be closed to the public.

The purpose of the meeting is to provide briefings and demonstrations for the Committee on deep water testing and evaluation being conducted by the Department of the Navy.

The agenda will include briefings, demonstrations and discussions related to new initiatives related to the Science Opportunities Program; the status of on-going studies; deep water test and evaluation techniques through use of acoustic measurements, test and sonar calibrations; accurate underwater, surface and in-air tracking data on ships, submarines, aircraft and weapons; undersea research and development program; and assessments of fleet anti-submarine warfare and operational readiness.

These briefings and discussions will contain classified information that is specifically authorized under criteria established by Executive order to be kept-secret in the interest of national defense and are in fact properly classified pursuant to such Executive order. The classified and nonclassified matters to be discussed are so inextricably intertwined as to preclude opening any portion of the meeting. Accordingly, the Secretary of the Navy has determined in writing that the public interest requires that all sessions of the meeting be closed to the public because they will be concerned with matters listed in section 552b (c)(1) of title 5, United States Code.

For further information concerning this meeting contact: Commander John Hrenko, USN, Office of the Chief of Naval Research, 800 North Quincy Street, Arlington, VA 22217-5000, Telephone Number: (703) 696-4870.

Dated: February 28, 1992.

Wayne T. Baucino,

Lieutenant, U.S. Naval Reserve, Alternate Federal Register Liaison Officer.

Intent to Grant License

AGENCY: Department of the Navy, DoD.

ACTION: Intent to Grant Exclusive Patent License; Roy L. James.

SUMMARY: The Department of the Navy hereby gives notice of its intent to grant to Roy L. James a revocable, nonassignable, exclusive license to practice the Government-owned invention described in U.S. Patent No. 5,056,760, "T-Slot Sheave", issued October 15, 1991, in the field of plastic sheaves.

Anyone wishing to object to the grant of this license has 60 days from the date of this notice to file written objections along with supporting evidence, if any. Written objections are to be filed with the Office of the Chief of Naval Research (Code OOCCIP), Arlington, Virginia 22217-5000.

FOR FURTHER INFORMATION CONTACT: Mr. R. J. Erickson, Staff Patent Attorney, Office of the Chief of Naval Research (Code OOCCIP), 800 North Quincy Street, Arlington, Virginia 22217-5000, telephone (703) 696-4001.

Dated: February 27, 1992.

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Docket Nos. QF91-59-002, et al.]

Sky River Partnership, et al.; Electric Rate, Small Power Production, and Interlocking Directorate Filings

Take notice that the following filings have been made with the Commission:

1. Sky River Partnership

February 25, 1992.

[Docket No. QF91-59-002]

On February 6, 1992, Sky River Partnership (Applicant) of P.O. Box 1910, 13000 Jameson Road, Tehachapi, California 93561, submitted for filing an application of recertification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's Regulations. No determination has been made that the submittal constitutes a complete filing.

The small power production facility is located in the Tehachapi Mountains, Kern County, California and consists of 342 wind turbine generators. The original certification was issued on October 9, 1991, 57 FERC ¶ 62,019 (1991). The instant recertification is requested due to an increase in the power production capacity of the facility from 76.95MW to 77.45 MW.

Comment Date: April 8, 1992, in accordance with Standard Paragraph E at the end of this notice.

2. Selkirk Cogen Partners, L.P.

February 25, 1992.

[Docket No. QF89-274-003]

On February 13, 1992, Selkirk Cogen Partners, L.P., a Delaware limited partnership with its principal offices at one Bowdoin Square, Boston, Massachusetts 02114, submitted for filing an application for recertification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's Regulations. No determination has been made that the submittal constitutes a complete filing.

The topping-cycle congeneration facility will be located within the confines of the General Electric Company's Plastic Division Manufacturing Complex in Selkirk, New York and will include Phase I and Phase II of the Selkirk Congeneration project. The Commission previously certified Phase I as a 79.9 MW qualifying cogeneration facility, Selkirk Cogen Partners, L.P., 51 FERC ¶ 61,284 (1990). The integrated facility will include three combustion turbine generators, three supplementary fired heat recovery boilers and one steam turbine generator. Thermal energy recovered from the facility will be sold to General Electric Company's Plastics Division for building heating and industrial processes in the manufacturing of plastics. The integrated net electric power production capacity of the facility will be 363.84 MW. The primary source of energy will be natural gas.

Comment date: April 8, 1992, in accordance with Standard Paragraph E at the end of this notice.

3. Inter-Power of Pennsylvania, Inc.

February 25, 1992.

[Docket No. QF87-632-001]

On February 7, 1992, Inter-Power of Pennsylvania, Inc. tendered for filing an amendment to its filing in this docket. No determination has been made that the submittal constitutes a complete filing.

The amendment modifies the initial application in that it provides additional information regarding fuel use by the facility, increases the capacity of the facility from 83.5 MW to 89.5 MW and provides for the inclusion of twelve

miles of 115KV transmission line. In addition, the facility will now be owned by a limited partnership consisting of Inter-Power of Pennsylvania, Inc., a wholly-owned subsidiary of Constellation Energy, Inc. and a wholly-owned subsidiary of Ahlstrom Development Corporation.

Comment date: April 8, 1992, in accordance with Standard Paragraph E at the end of this notice.

4. Public Service Company of New Mexico

February 25, 1992.

[Docket No. ER91-445-000]

Take notice that on February 11, 1992, Public Service Company of New Mexico (PNM) submitted for filing an Amendment to the Economy Energy Agreement (Agreement) between PNM and the City of Colton, California (Colton). The Agreement was filed on May 20, 1991, and is pending before the Commission in Docket No. ER91-445-000. Under the Agreement PNM and the City of Colton will make economy energy available to one another at rates reflecting current market conditions. The Amendment to the Agreement provides minimum pricing language, an appendix to the Agreement and clarification of share-savings language.

Copies of the filing have been served upon Colton and the New Mexico Public Service Commission.

Comment date: March 6, 1992, in accordance with Standard Paragraph E at the end of this notice.

5. PSI Energy, Inc.

February 25, 1992

[Docket No. ER92-144-000]

Take notice that notice on February 11, 1992 PSI Energy, Inc. (PSI) tendered for filing an Amendment to its October 31, 1991 filing of the Interchange Agreement between PSI and Baltimore Gas and Electric Company (BG&E) in the above captioned docket. The Amendment consists of changes to section 9 of Service Schedule A.

PSI has requested waiver of the Commission's notice requirements to allow an effective date of December 30, 1991 as originally requested.

Copies of the filing were served on the Maryland Public Service Commission.

Comment date: March 6, 1992, in accordance with standard Paragraph E end of this notice.

6. Public Service Company of New Mexico

February 25, 1992.

[Docket No. ER91-446-000]

Take notice that on February 11, 1992, Public Service Company of New Mexico (PNM) submitted for filing an Amendment to the Economy Energy Agreement (Agreement) between PNM and the City of Banning, California (Banning). The Agreement was filed on May 20, 1992, and is pending before the Commission in Docket No. ER91-446-000. Under the Agreement PNM and the City of Banning will make economy energy available to one another at rates reflecting current market conditions. The Amendment to the Agreement provides minimum pricing language, an appendix to the Agreement and clarification of share-savings language.

Copies of the filing have been served upon Banning and the New Mexico Public Service Commission.

Comment date: March 6, 1992, in accordance with Standard Paragraph E at the end of this notice.

7. Southern Indiana Gas and Electric Company

February 26, 1992.

[Docket No. ER92-42-000]

Take notice that on February 10, 1992, Sourthern Indiana Gas and Electric Company tendered for filing an amendment to its October 7, 1991 filing in this docket.

Comment date: March 9, 1992, in accordance with Standard Paragraph E at the end of this notice.

8. Arkansas Power & Light Company

February 26, 1992.

[Docket No. ER92-240-000]

Take notice that Arkansas Power & Light Company (AP&L) tendered for filing on December 30, 1991, a proposed Agreement (Agreement) between AP&L and The City of Campbell, MO (City) and amended this filing on February 20, 1992 to state that the proposed Agreement will increase revenue to AP&L.

Comment date: March 9, 1992, in accordance with Standard Paragraph E at the end of this notice.

9. Kalaeloa Partners, L.P.

February 26, 1992.

[Docket No. QF89-198-001]

On February 21, 1992, Kalaeloa Partners, L.P. (Applicant), filed a petition with the Federal Energy Regulatory Commission for a temporary waiver of the operating and efficiency standards pursuant to § 292.205(c) of the Commission's Regulations. No determination has been made that the submittal constitutes a complete filing.

The 192.2 MW topping-cycle cogeneration facility which is located at the James Campbell Industrial Park in Barbers Point, Oahu, Hawaii consists of two combustion turbine generators and associated heat recovery boilers, and an extraction/condensing steam turbine generator (STG). Steam extracted from the STG is sold to Hawaiian Independent Refinery, Inc. for heating processes at the refinery. The facility uses low sulfur residual fuel oil as its primary energy source.

Applicant states that the temporary waiver is requested due to (1) the unexpected delay of two months in the completion of steam line which delivers the facility's steam to the host (*i.e.*, the refinery) and (2) the limited generation of power during testing and commissioning prior to the start of commercial operation.

Comment date: April 8, 1992, in accordance with Standard Paragraph E at the end of this notice.

10. Canal Electric Company

February 27, 1992.

[Docket No. ER90-245-005]

Take notice that on December 6, 1991, Canal Electric (Canal) submitted for filing a third amendment to the Seabrook Power Contract and a composit conformed copy of the Seabrook Power Contract. Such amendment has been executed pursuant to the Commission's letter order dated November 13, 1991 approving an Offer of Settlement between Canal and the Town of Belmont. Canal is complying with said letter order by revising the Seabrook Power Contract to conform to the language approved in the Offer of Settlement.

Copies of the tendered filing have been served by Canal upon the Commission Staff, the Massachusetts Attorney General, the Town of Belmont and the Department of Public Utilities.

Comment date: March 10, 1992, in accordance with Standard Paragraph E at the end of this notice.

11. New England Power Company

February 27, 1992.

[Docket No. ER92-248-000]

Take notice that New England Power Company (NEP), on February 11, 1992, tendered for filing a Notice of Withdrawal of the amendment to the NEP/Newport Electric Corp. contract submitted in this docket on December 30, 1991.

NEP states that it is withdrawing the amendment because it will not be able to enter into the transaction contemplated under the amendment.

Comment date: March 12, 1992, in accordance with Standard Paragraph E at the end of this notice.

12. Ohio Valley Electric Corporation

February 27, 1992.

[Docket No. ER92-258-000]

Take notice that on February 21, 1992, Ohio Valley Electric Corporation ("OVEC") tendered for filing a modification ("Mod. No. 1") to a Transmission Agreement between Louisville Gas and Electric Company ("Louisville") and OVEC, along with its wholly-owned subsidiary, Indiana-Kentudy Electric Corporation, (together "Transmitting Companies"). Such Transmission Agreement was filed and is under consideration in the pending proceeding referenced above.

Mod. No. 1 changes the rate at which Transmitting Companies would, under the Transmission Agreement, supply to Louisville transmission service over Transmitting Companies' facilities.

Copies of this amendment to OVEC's original filing were served upon all parties on the official service list for this proceeding. Copies were also served upon Louisville, the Public Service Commission of Kentucky and Indiana Michigan Power Company.

Comment date: March 12, 1992, in accordance with Standard Paragraph E at the end of this notice.

13. Central Maine Power Company

February 27, 1992.

[Docket No. ER91-620-000]

Take notice that on February 25, 1992, Central Maine Power Company (CMP) tendered for filing its amended FERC Electric Tariff, 12th Revised Volume No. 1, Wholesale Electric Rates for Other Utilities. This filing is made in response to its Wholesale Customer's letter of January 29, 1992.

This proposed tariff returns the base fuel component of the fuel adjustment clause and the line loss adjustment factor to their levels in the currently effective tariff. Under the proposed tariff, CMP's wholesale rates will be $96,412.57 lower for Period I than under the tariff proposed in CMP's January 10, 1992, response letter and $256,133.44 higher for Period I than under CMP's currently effective tariff.

The proposed tariff will affect CMP's wholesale customers, Kennebunk Light and Power District, Inhabitants of the Town of Madison (Madison Electric Works), and Fox Island Electric Cooperative, Inc. Copies of the filing have been served on CMP's above-named wholesale customers, the Maine Public Utilities Commission and the Public Advocate.

Comment date: March 12, 1992, in accordance with Standard Paragraph E end of this notice.

14. Mississippi Power Company

February 27, 1992.

[Docket No. ER92-295-000]

Take notice that Mississippi Power Company, on January 29, 1992 tendered for filing a proposed change in its FERC Rate Schedule No. 144.

The reason for this change is to extend for two years its Agreements for Transmission Service with Alabama Electric Cooperative, Inc. (Mississippi Power Company, FERC Rate Schedule No. 144).

Copies of the filing were served upon the Alabama Electric Cooperative, Inc. and upon the Mississippi Public Service Commission.

Comment date: March 12, 1992, in accordance with Standard Paragraph E end of this notice.

15. Delmarva Power & Light Company

February 27, 1992.

[Docket No. ER92-321-000]

Take notice that Delmarva Power & Light Company ("Delmarva") on February 10, 1992, tendered for filing proposed Supplement No. 7 to it's FERC Rate Schedule No. 61. This Supplement, filed with the approval and concurrence of the Board of Public Works of Lewes, Delaware (Lewes), is being made to allow Lewes to change their service agreement from the present "Partial Requirements" to one that allows "Parallel Operations" and to operate its generating units up to a maximum level of 2000 kW in parallel with Delmarva to reduce its peak demand on Delmarva's system.

Copies of this filing were served upon the General Manager, Board of Public Works of Lewes, Delaware and the Delaware Public Service Commission.

Comment date: March 12, 1992, in accordance with Standard Paragraph E at the end of this notice.

16. Citizens Power & Light Company

February 27, 1992.

[Docket No. ER89-401-010]

Take notice that on February 7, 1992, Citizens Power & Light Company (Citizens) filed certain information as required by Ordering Paragraph (M) of the Commission's August 8, 1989 order in this proceeding, 48 FERC ¶ 61,210 (1989). Copies of Citizens' informational filing are on file with the Commission and are available for public inspection.

17. Peter F. O'Malley

February 27, 1992.

[Docket No. ID-2674-000]

Take notice that on February 10, 1992, Peter F. O'Malley (Applicant) tendered for filing an application under Section 305(b) of the Federal Power Act to hold the following positions:

Director—Potomac Electric Power Company

Director—Legg Mason, Inc.

Comment date: March 16, 1992, in accordance with Standard Paragraph E at the end of this notice.

18. Central Maine Power Company

February 27, 1992.

[Docket No. ER92-322-000]

Take notice that on February 12, 1992, Central Maine Power Company ("CMP"), tendered for filing a Notice of Cancellation, effective as of April 14, 1992, pertaining to the Transmission Rate Schedule between CMP and Bangor Hydro-Electric Company, effective April 1, 1978 (CMP Rate Schedule FERC No. 57).

CMP has served a copy of the filing on the affected customer and on the Maine Public Utilities Commission.

Comment date: March 12, 1992, in accordance with Standard Paragraph E at the end of this notice.

19. Long Island Lighting Company

February 27, 2992.

[Docket No. ER92-68-000]

Take notice that on February 24, 1992, Long Island Lighting Company (LILCO) tendered for filing an amendment to its earlier filings of October 7, 1991 and November 26, 1991 in this docket. LILCO has requested waiver of the Commission's notice requirements to allow the tariff filings to become effective November 14, 1985.

Copies of this amended filing have been served upon the New York State Public Service Commission, the Power Authority of the State of New York, and the counties of Nassau and Suffolk.

Comment date: March 12, 1992, in accordance with Standard Paragraph E at the end of this notice.

20. Western Massachusetts Electric Company

February 27, 1992.

[Docket No. ER92-067-000]

Take notice that on February 24, 1992, Western Massachusetts Electric Company (WMECO) tendered for filing an amendment to its October 4, 1991 filing for transmission service to New England Power Company.

WMECO states that copies of this amendment to the initial filing have been mailed or delivered to each of the parties.

WMECO further states that the amended filing is in accordance with

Section 35 of the Commission's Regulations.

Comment date: March 12, 1992, in accordance with Standard Paragraph E at the end of this notice.

21. Central Louisiana Electric Company, Inc.

February 27, 1992.

[Docket No. ER90-39-000]

Take notice that on February 21, 1992, Central Louisiana Electric Company, Inc. tendered for filing its refund report in the above-referenced docket.

Comment date: March 12, 1992, in accordance with Standard Paragraph E at the end of this notice.

22. PacifiCorp Electric Operations

February 27, 1992

[Docket No. ER91-494-000]

Take notice that on February 24, 1992, PacifiCorp Electric Operations ("PacifiCorp"), in accordance with the Commission's deficiency letter dated January 23, 1992, tendered an amendment to its filing under Docket No. ER91-494-000.

Copies of this filing amendment have been supplied to Western, the Public Utility Commission of Oregon and the Utah Public Service commission.

Comment date: March 12, 1992, in accordance with Standard Paragraph E at the end of this notice.

23. Florida Power & Light Company

February 27, 1992.

[Docket No. ER92-327-000]

Take notice that on February 20, 1992, tendered for filing an amendment entitled "Amendment Number One to Contract for Interchange Service Between Florida Power & Light Company and Seminole Electric Cooperative, Inc". FPL requests that the amendment be made effective January 1, 1992.

Comment date: March 12, 1992, in accordance with Standard Paragraph E at the end of this notice.

24. Consolidated Edison Company of New York, Inc.

February 27, 1992.

[Docket No. ER92-328-000]

Take notice that on February 24, 1992, Consolidated Edison Company of New York, Inc. ("Con Edison"), in response to a deficiency letter issued in Docket Nos. ER92-52-000 and ER92-56-000, tendered for filing notices of cancellation of two certain agreements to provide transmission service to United Illuminating Company ("UI") and Green Mountain Power Corporation ("GMPC"), which Con Edison has heretofore submitted for filing in said dockets.

The two rate schedules have terminated pursuant to their terms.

Con Edison seeks effective dates of April 30, 1989 and April 30, 1992, respectively, and therefore requests waiver of the Commission's notice requirements.

Con Edison states that copies of this filing have been service by mail upon UI and GMPC.

Comment date: March 12, 1992, in accordance with Standard Paragraph E at the end of this notice.

25. The Washington Water Power Company

February 27, 1992.

[Docket No. ER92-238-000]

Take notice that on February 25, 1992, The Washington Water Power Company (WWP) tendered for filing with the Federal Energy Regulatory Commission pursuant to 18 CFR 35.11 an Amendment 1 to its Agreement For The Purchase and Sale of Firm Capacity between Portland General Electric Company and The Washington Water Power Company. WWP states that the purpose of the amendment is make changes requested by Commission staff. WWP also requests a waiver of the sixty (60) filing requirement in order for the Agreement to have an effective date of March 1, 1992.

A copy of the filing was mailed to Portland General Electric.

Comment date: March 12, 1992, in accordance with Standard Paragraph E at the end of this notice.

26. Onondaga County Resource Recovery Agency, Ogden Martin Systems of Onondaga, Inc.

February 27, 1992.

[Docket No. QF92-85-000]

On February 21, 1992, Onondaga County Resource Recovery Agency of 100 Elwood Davis Road, Syracuse, New York 13212 and Ogden Martin Systems of Onondaga, Inc. of 40 Lane Road, CN 2615, Fairfield, New Jersey 07007-2615 submitted for filing and application for certification of a facility as a qualifying small power production facility pursuant to § 292.207 of the Commission's Regulations. No determination has been made that the submittal constitutes a complete filing.

The small power production facility will be located in the Town of Onondaga, New York. The facility will consist of three mass-burn waterwall boilers and one condensing steam turbine generator. The maximum net electric power production capacity of the facility will be 38 MW. The primary energy source for the facility will be municipal solid waste.

Comment date: April 8, 1992, in accordance with Standard Paragraph E at the end of this notice.

27. Northern States Power Company (Minnesota Company)

February 27, 1992.

[Docket No. ER91-561-000]

Take notice that on February 12, 1992, Northern States Power Company ("NSP") tendered for filing supplemental information which serves as an amendment to NSP's original filing (Docket No. ER91-561-000 filed on August 8, 1991). NSP's original filing consisted of a Transmission Service Letter Agreement dated September 13, 1990, and a Supplemental Agreement dated November 9, 1990, between NSP and Citizens Power and Light Company ("Citizens"). Under both agreements NSP provided interruptible transmission service for Citizens. Service under both agreements has since been terminated.

NSP's filed cost of service analysis was used to determine a maximum permissible rate for the interruptible transmission service. The maximum permissible rate provided recovery of costs over 16 hours/day, and 5 days/week. The two agreements did not contain revenue caps to prevent NSP from over-recovery of its costs in the event transactions occurred in excess of 16 hours/day, or in excess of 5 days/week. The supplemental information provided in NSP's amendment to this filing show NSP's system operating data regarding actual transaction deliveries and revenues under those two agreements. This information indicates that NSP did not over-recover its costs while those two agreements were in effect.

Copies of this amdendment to the filing have been provided Citizens to the State Commission's of Minnesota, North Dakota, South Dakota, Wisconsin, and Michigan.

Comment date: March 10, 1992, in accordance with Standard Paragraph E end of this notice.

28. AES CB Limited Partnership

February 27, 1992.

[Docket No. QF89-126-003]

On February 26, 1992, AES CB Limited Partnership tendered for filing an amendment to its filing in this docket.

The amendment provides additional information pertaining to the economic viability of the cogeneration facility.

Comment date: March 19, 1992, in accordance with Standard Paragraph F at the end of this notice.

29. Hadson Power 11—Southampton

February 27, 1992.

[Docket No. QF88-84-003]

On February 20, 1992, Hadson Power 11—Southampton of 2030 Main Street, Irvine, California 92714, submitted for filing an application for recertification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's Regulations. No determination has been made that the submittal constitutes a complete filing.

The topping-cycle cogeneration facility is located in Franklin, Southampton County, Virginia. The Commission previously certified the facility as a qualifying cogeneration facility, Ultra Cogen Systems, Inc., 43 FERC ¶ 62,023 (1988), and recertified the facility as a qualifying cogeneration facility, Hadson Power 11—Southampton, 53 FERC 62,207 (1990). The instant request for recertification is due to change in: (1) Ownership as delineated in notice of self-recertification filed on December 12, 1991, (2) maximum net electric power production capacity from 60.572 MW to 62.64 MW and, (3) request for waiver of the Commission's operating standard with respect to facility's testing period, pursuant to § 292.205(c) of the Commission's Regulations.

Comment date: April 8, 1992, in accordance with Standard Paragraph E at the end of this notice.

30. Second Imperial Geothermal Company

February 27, 1992.

[Docket No. QF92-53-000]

On February 24, 1992, Second Imperial Geothermal Company, tendered for filing an amendment to its filing in this docket. No determination has been made that the submittal constitutes a complete filing.

The amendment provides additional information pertaining to the ownership structure of the facility.

Comment date: March 20, 1992, in accordance with Standard Paragraph E at the end of this notice.

31. Hadson Power 12—Altavista

February 27, 1992.

[Docket No. QF88-84-003]

On February 20, 1992, Hadson Power 12—Altavista of 2030 Main Street, Irvine, California 92714, submitted for filing an application for recertification of a facility as a qualifying cogeneration facility pursuant to § 292.207 of the Commission's Regulations. No determination has been made that the submittal constitutes a complete filing.

The topping-cycle cogeneration facility is located in Altavista, Virginia. The Commission previously certified the facility as a qualifying cogeneration facility, Ultra Cogen Systems, Inc., 43 FERC ¶ 62,072 (1988), and recertified the facility as a qualifying cogeneration facility, Hadson Power 12—Altavista, 53 FERC 62,205 (1990). The instant request for recertification is due to change in: (1) Ownership as delineated in notice of self-recertification filed on December 12, 1991, (2) maximum net electric power production capacity from 60.577 MW to 62.7 MW and, (3) request for waiver of the Commission's operating standard with respect to facility's testing period, pursuant to § 292.205(c) of the Commission's Regulations.

Comment date: April 8, 1992, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraphs

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Project Nos. 82-016, et al.]

Hydroelectric Applications (Alabama Power Company, et al.; Applications

Take notice that the following hydroelectric applications have been filed with the Commission and are available for public inspection:

1. a. *Type of Application:* Application to Revise Project Boundary Maps.

b. *Project No:* 82-016.

c. *Date Filed:* November 18, 1991.

d. *Applicant:* Alabama Power Company.

e. *Name of Project:* Mitchell Project.

f. *Location:* Coosa County, Alabama.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. Sec. 791(a)-825(r).

h. *Applicant Contact:* Mr. R. M. Akridge, Alabama Power Company, 600 North 18th Street, Post Office Box 2641, Birmingham, AL 35291-0364, (205) 250-1380.

i. *FERC Contact:* Dan Hayes, (202) 219-2660.

j. *Comment Date:* April 10, 1992.

k. *Description of Project:* Alabama Power Company, licensee for the Mitchell Project, has filed an application to revise its project boundary exhibits. The licensee states that survey errors were discovered during an inventory to identify existing leased lots for possible sale. The licensee proposes to realign the project boundary along the 317-foot m.s.l. contour, except for a recreation area required by article 41 of the project license. The licensee states that the revision will not change land use, will correct survey errors in the existing boundary maps, and exclude 35 acres of unneeded property from the project boundary.

1. This notice also consists of the following standard paragraphs: B, C, and D2.

2. a. *Type of Application:* Application to Revise Project Boundary Maps.

[Project No. 11143-000 Connecticut]

Summit Hydropower Availability of Environmental Assessment

March 2, 1992.

In accordance with the National Enrionmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission's) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Hydropower Licensing has reviewed the application for a minor license for the proposed Glen Falls Hydroelectric Project located on the Moosup River, near Plainfield, Windham County, Connecticut, and has prepared an Environmental Assessment (EA) for the project. In the EA, the Commission's staff has analyzed the environmental impacts of the proposed project and has concluded that approval of the project, with appropriate mitigation measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

Copies of the EA are available for review in the Public Reference Branch, room 3308, of the Commission's offices at 941 North Capitol Street, NE., Washington, DC 20426.

Lois D. Cashell,

Secretary.

e. *Name of Project:* Seneca.

f. *Location:* On the Seneca River in Onondaga County, New York. The project utilizes the existing New York State Dam at Balwinsville, New York.
g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. § 791(a)–825(r).
h. *Applicant Contact:* Paul V. Nolan, Esq., Counsel for Seneca Hydro Acquisition Corporation, 6219 N. 19th Street, Arlington, VA 22205, (703) 534–5509.
i. *FERC Contact:* Paul Shannon, (202) 219–2866.
j. *Comment Date:* April 1, 1992.
k. *Description of Amendment:* The application for Amendment of Exemption proposes to rehabilitate one of two abandoned turbines within the Seneca Powerhouse. These two abandoned turbines were not authorized in the Order Granting Exemption from Licensing, 18 FERC ¶ 62,227, issued February 17, 1982. Presently, the powerhouse contains five units. Three of the units are operating with a total installed generating capacity of 950–kW and a total hydraulic capacity of 1450 cfs. The rehabilitation of one abandoned turbine will increase the proejct's installed capacity by 150–kW and the hydraulic capacity by 750 cfs.
1. This notice also consists of the following standard paragraphs: B, C, and D2.

8 a. *Type of Filing:* Transfer of License.
b. *Project No.:* 6221–023.
c. *Date Filed:* January 21, 1992.
d. *Applicants:* Weyerhaeuser Company and Black Creek Hydro, Inc.
e. *Name of Project:* Black Creek.
f. *Location:* On Black Creek in King County, Washington.
g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. § 791(a)–825(r).
h. *Applicant Contacts:* Weyerhaeuser Company: Richard A. Ryon, 7001–396th SE., Snoqualmie, WA 98065; Black Creek Hydro, Inc.: Martin W. Thompson, 19515 North Creek Parkway, Suite 310, Bothell, WA 98011.
i. *Commission Contact:* Mr. James Hunter, (202) 219–2839.
j. *Comment Date:* April 2, 1992.
k. *Description of Proposed Action:* On July 29, 1988, a major license was issued to Weyerhaeuser Company for the construction, operation, and maintenance of the Black Creek Project. Weyerhaeuser Company proposes to transfer its interests and obligations under the license to Black Creek Hydro, Inc. The proposed transfer will not change the operation of the project or the use of project power. Weyerhaeuser Company certifies that it has fully complied with the terms and conditions of the license. Black Creek Hydro, Inc. accepts all the terms and conditions of the license and agrees to be bound thereby to the same extent as if it were the original licensee.
l. This notice also consists of the following standard paragraphs: B and C.

9. a. *Type of Application:* Surrender of Exemption (5MW or less).
b. *Project No:* 7168–004.
c. *Date filed:* September 17, 1991.
d. *Applicant:* Porcupine Reservoir Company.
e. *Name of Project:* Porcupine Reservoir Project.
f. *Location:* On the East Fork Little Bear River in Cache County, Utah near the towns of Logan and Paradise.
g. *Filed Pursuant to:* Federal Power Act, 16 USC 791(a)–825(r).
h. *Applicant Contact:*
Mr. Barnard R. White, President, Porcupine Reservoir Company, Paradise, UT.
Mr. Gary L. Clawson, Porcupine Reservoir Company, Hyrum, UT 84319, (801) 245–6566.
Mr. Allen D. Butler, President, Arizona Micro-Utilities, 3110 S. Rural Rd., suite B, Tempe, AZ 85282, (602) 921–0611.
i. *FERC Contact:* Ms. Deborah Frazier-Stutely (202) 219–2842.
j. *Comment Date:* April 2, 1992.
k. *Description of Proposed Action:* The existing project for which the exemption is being surrendered consists of (1) A 165-foot-high, 600-foot-long earthfill dam; (2) a 220 acre reservoir with a surface area of 14,000 acre-feet at elevation 5384.6 feet msl; (3) an ungated concrete box weir spillway; (4) outlet works consisting of a concrete intake structure with steel trashracks, a 36-inch-diameter steel outlet pipe, a 30-inch-diameter steel pipe, a 24-inch butterfly valve; (5) a 30-inch-diameter, 140-foot-long steel penstock; (6) a powerhouse containing three Wortington pump-type turbine generator units with a total rated capacity of 566 kW; (7) a 2.5-mile-long, 12.5-kV transmission line that connects to a Utah Power and Light Company line.
The exemptee says that, although all the units are operational, the powerhouse does not operate above 55% of the installed capacity and the project does not generate sufficient revenues to warrant continued operation of the project.
1. Purpose of Project: B, C, and D2.

Standard Paragraphs

B. Comments, Protests, or Motions to Intervene: Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

C. Filing and Service of Responsive Documents: Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing refers. Any of the above-named documents must be filed by providing the original and the number of copies provided by the Commission's regulations to: The Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426. An additional copy must be sent to Director, Division of Project Review, Federal Energy Regulatory Commission, room 1027, at the above-mentioned address. A copy of any notice of intent, competing application or motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

D2. Agency Comments: Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

Dated: March 3, 1992, Washington, DC.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

Office of Energy Research

Special Research Grant Program Notice 92–8: Global Survey of Carbon Dioxide in the Ocean

AGENCY: Department of Energy (DOE).

ACTION: Notice inviting grant applications.

SUMMARY: The Office of Health and Environmental Research (OHER) of the Department of Energy (DOE) hereby

announces its interest in receiving applications for Special Research Grants to support the second three-year phase of global survey of carbon dioxide (CO_2) in the ocean in conjunction with the World Ocean Circulation Experiment Hydrographic Program (WOCE/HP) Cruises. This notice requests applications for grants to support the acquisition of CO_2 data at sea (dissolved inorganic carbon (C_T) is required and at least one of the following: Partial pressure of CO_2 (pCO_2), pH, or alkalinity must also be measured).

Grant applications must state the number of days at sea per year that the application is intended to support and the associated at-sea costs as supplemental budget information. Applicants should include in the application approaches for controlling and/or minimizing the cost of sea time and shipboard analyses and a detailed discussion of their approach to logistics for at-sea operations. It is anticipated that five to seven grants will be awarded for 3-year period beginning in October 1992. (Some portion of the funds being set aside for this program may be used to support research at DOE laboratories.)

DATES: The tentative schedule for WOCE/HP cruises for FY 1993 and FY 1994 is given below. This schedule is included for planning level of effort only (e.g., planning the number of days at sea per year). Applicants are not encouraged to propose specific cruises as the schedule is likely to change. However, applicants may indicate preferences for specific cruises and/or specific cruises in which they do not wish to participate. Successful applicants will participate in the Ocean CO_2 Science Team meetings that will recommend the scheduling of CO_2 associated measurements on the WOCE cruises.

Section	Ocean	Dates	Vessel (country)

I07A	Indian	1993	FEDEROV (RUSSIA).
I08A	Indian	1993	FEDEROV (RUSSIA).
I09A	Indian	1993	FEDEROV (RUSSIA).

Applications must be received by the Division of Acquisition and Assistance Management (see address section for mailing address) prior to May 12, 1992.

ADDRESSES: Completed applications referencing Program Notice 92–8 should be forwarded to: U.S. Department of Energy, Division of Acquisition and Assistance Management, Office of Energy Research, ER–64, room G–232, Washington DC 20585. The following address must be used when submitting applications by U.S. Postal Service Express, any commercial mail delivery service or when handcarried by the applicant: U.S. Department of Energy, Division of Acquisition and Assistance Management, Office of Energy Research, ER–64/GTN, 1990 Germantown, MD 20874.

FOR FURTHER INFORMATION CONTACT: Michael R. Riches, Environmental Sciences Division, Office of Health and Environmental Research, ER–74, Washington, DC 20585, (301) 903–3264.

SUPPLEMENTARY INFORMATION: One of the major scientific objectives of the Carbon Dioxide Research Program is to quantify the uptake of atmospheric CO_2 by the ocean and to make estimates of furture atmospheric concentrations resulting from fossil fuel combustion. The purpose of the global carbon dioxide survey is to provide a data set to characterize the global distribution of CO_2 in the oceans in support of the Joint Global Ocean Flux Study (JGOFS) Program. A global description of CO_2 chemistry will provide essential data for the development of three-dimensional models of the ocean carbon cycle, which are critically needed for predicting future atmospheric CO_2 concentrations.

This notice requests applications for grants to support the acquisition of CO_2 data at sea (dissolved inorganic carbon (C_T) is required and at least one of pCO_2, pH, or alkalinity must also be measured). The application should address the following topics: (1) Total number of days at sea that the scientific approach, human resources and budget will support, (2) personnel and equipment required for the proposed at-sea effort, (3) number of CO_2 analyses that can be conducted per day at sea, (4) estimates of the mobilization/demobilization costs per expedition (excluding costs for travel and freight to and from the research vessel; these should be included as appropriate elsewhere in the budget), and (5) stragegies to cooperate with other laboratories and strategies to control personnel and logistical costs.

Successful applications for grants to make at-sea measurements will provide personnel and equipment to perform accurate measurements of dissolved inorganic carbon (C_T), and at least one of the following other parameters: total alkalinity, carbon dioxide partial pressure (pCO_2), and pH in small-volume water samples (0.5–1.0 liter) aboard WOCE/HP research vessels. The primary technique for measuring C_T will be coulometry. Quality control of C_T measurements at sea will be accomplished with certified aqueous reference materials (CRMs). Successful applicants will be expected to attend a comprehensive training course on CO_2 coulometry and to be familiar with DOE Standard Operating Procedures (SOPs) for handling and analyzing samples at sea. Training, SOPs and CRMs will be provided to successful applicants by DOE prior to the FY 1993 WOCE/HP cruises. Secondary analytical techniques for measuring C_T, alkalinity, pCO_2, and pH, or for automating exisitng measurement techniques, may be proposed as a development task with the ultimate purpose of improving the accuracy and efficiency of CO_2 analyses on later WOCE/HP cruises.

It is essential that the global CO_2 measurements be made simultaneously with the WOCE/HP surveys so that carbon fluxes can be estimated from synoptic hydrographic data. The estimated total number of WOCE Hydrographic stations and sampling opportunities for the next 3-year phase of the global CO_2 survey is as follows:

	Hydrographic stations	Samples
Atlantic Ocean	200	7,000
Pacific Ocean	300	10,000
Indian Ocean	200	7,000
Totals	700	24,000

This level may be modified to reflect the actual level of the WOCE field program.

Funding in FY 1993 and continuation of the Global CO_2 Surveys beyond FY 1983 is contingent upon availability of funds. About $2,000,000 is projected for FY 1993 to fund (1) carbon dioxide measurements on WOCE/HP cruises in FY 1993; (2) CO_2 Science Team activities; (3) training on CO_2 coulometry; and (4) instrumentation support. Activities (2), (3), and (4) will be conducted by DOE laboratories. It is anticipated that five to seven grants will be awarded for a 3-year period beginning in November 1992. Funding for at-sea measurements ((1) above) during FY 1994 and 1995 will depend on the WOCE/HP cruise scheduled and the resources required for scientific and logistical support for CO_2 measurements. It is anticipated that funding could reach a maximum of $3,000,000 per year at some time during the program.

Information about submission of applications, eligibility, limitations, evaluation and selection processes, and other policies and procedures may be found in the OER Application and Guide for the Special Research Grants Program 10 CFR Part 605. The application kit and guide is available from the U.S. Department of Energy, Acquisition and Assistance Management Division, Office of Energy Research, ER–64, Washington, DC 20585. Telephone requests may be made by calling (301) 903–4902. The Catalog of Federal Domestic Assistance Number for this program is 81.049.

Issued in Washington, DC, on February 28, 1992.

D.D. Mayhew,

Deputy Director for Management, Office of Energy Research.

BILLING CODE 6450–01–M

Federal Energy Regulatory Commission

[Docket No. RP92–127–000]

Panhandle Eastern Pipe Line Co.; Proposed Changes in FERC Gas Tariff

March 2, 1992.

Take notice that Panhandle Eastern Pipe Line Company (Panhandle) on February 27, 1992, tendered for filing the following revised tariff sheets to its FERC Gas Tariff, Original Volume No. 1:

Original Sheet No. 3–C.20
Original Sheet No. 3–C.21
2nd / 1st / Third / Sheet No. 32–BD
Original Sheet No. 43–20
Original Sheet No. 43–21

Panhandle proposes that these revised tariff sheets become effective March 29, 1992.

Panhandle states that the tariff changes proposed will provide Panhandle with the means of recovering the Trunkline LNG Company (TLC) minimum bill charges which Trunkline Gas Company (Trunkline) filed to recover from Panhandle contemporaneously herewith.

Specifically, Trunkline proposed to direct bill Panhandle a total of $151,359,802.66, which represents Panhandle's allocated share of the net present value of the obligations under TLC's minimum bill. In that filing, Trunkline represented that upon the effectiveness of its tariff sheets, that it would suspend collections in its demand charge of the amount of TLC's minimum bill in the base demand rates of its sales services applicable to Panhandle to be effective during the period of suspension of the collection of TLC minimum bill charges. Upon the commencement of that suspension, Panhandle will reflect the reduced current charges in an appropriate PGA filing.

Panhandle proposes to allocate these costs among its sales customers and its transportation customers served under Rate Schedule PT-Firm whose service is the result of the exercise of conversion opportunities provided by § 284.10 of the Commission's Regulations.

Panhandle states that copies of this filing have been sent to sales customers, transportation customers served under Rate Schedule PT–Firm and affected shippers and to the respective state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before March 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 92–5334 Filed 3–6–92; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. RP92–128–000]

Panhandle Eastern Pipe Line Co.; Proposed Changes in FERC Gas Tariff

March 2, 1992.

Take notice that Panhandle Eastern Pipe Line Company (Panhandle) on February 27, 1992, tendered for filing the following tariff sheets to its FERC Gas Tariff, Original Volume No. 1:

Original Sheet No. 3–C.22
Original Sheet No. 43–22

Panhandle proposes that these tariff sheets become effective March 29, 1992.

Panhandle states that the filing flows through to Panhandle's customers the direct bill charges proposed to be recovered by Trunkline Gas Company (Trunkline) from Panhandle in Trunkline's compliance filing of October 9, 1991 in Docket No. RP87–15–030. In that filing, Trunkline filed in compliance with the Commission's directives in its July 22, 1991, "Order On Remand" in Docket No. RP87–15–027 (Phase I), 56 FERC ¶61,095 that: (1) Trunkline's commodity minimum bill be eliminated effective April 22, 1988; and (2)

Trunkline be permitted to include the LNG costs in the demand component of its rates for the period governed by the rates in Trunkline's Docket No. RP87–15, *et al.* Both of these items resulted from court reviews of Docket No. RP87–15 orders.

In order to calculate the amounts due in connection with Trunkline's reclassified demand charge, Panhandle allocated the demand charge amount due to Trunkline among its existing jurisdictional sales customers using the ratios which each of their current individual annualized contract demands bear to their total current annualized contract demands. Because Trunkline's own minimum bill charges to Panhandle during this period would have been recovered via Panhandle's commodity rates, Panhandle allocated the Trunkline minimum commodity bill amounts due to Trunkline among its existing jurisdictional sales customers using the ratios of each customer's projected sales to the aggregate projected sales in Docket No. RP91–229–000.

Panhandle states that copies of this filing have been sent to affected sales customers and to the respective state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before March 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. TM92–7–17–000]

Texas Eastern Transmission Corp.; Proposed Changes FERC Gas Tariff

March 2, 1992.

Take notice that Texas Eastern Transmission Corporation (Texas Eastern) on February 27, 1992 tendered for filing as part of its FERC Gas Tariff, Fifth Revised Volume No. 1, six copies of the following tariff sheet:

Forty-third Revised Sheet No. 50.2

Texas Eastern states that this sheet is being filed pursuant to section 4.F of Texas Eastern's Rate Schedules SS–2 and SS–3 to flow through a change in a CNG Transmission Corporation's (CNG) Rate Schedule GSS rate which underlies Texas Eastern's Rate Schedules SS–2 and SS–3.

Texas Eastern states that on February 13, 1992 CNG made a tariff filing in Docket No. RP90–143–010 which revises the Rate Schedule GSS Storage Demand rate effective March 1, 1992.

Texas Eastern states that copies of the filing were served on Texas Eastern's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before March 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket Nos. CP92–361–000, et al.]

Questar Pipeline Co., et al.; Natural Gas Certificate Filings

Take notice that the following filings have been made with the Commission:

1. Questar Pipeline Co.

[Docket No. CP92–361–000]

February 25, 1992.

Take notice that on February 24, 1992, Questar Pipeline Company (Questar) filed in Docket No. CP92–361–000 an application pursuant to section 7(b) of the Natural Gas Act requesting authority to abandon, effective June 1, 1991, certain interruptible natural gas exchange services provided to Northwest Pipeline Corporation (Northwest) under Questar's Rate ScheduleX–24 to Original Volume No. 3 of its FERC Gas Tariff, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Questar states that on April 1, 1991, Questar and Northwest entered into a Termination Agreement that canceled the Letter Agreement dated May 23, 1979, as amended, between Questar and Northwest, which was certificated as Rate Schedule X–24, effective June 1, 1991.

Comment date: March 17, 1992, in accordance with Standard Paragraph F at the end of this notice.

2. Questar Pipeline Co.

[Docket No. CP92–363–000]

February 28, 1992.

Take notice that on February 25, 1992, Questar Pipeline Company (Questar) filed in Docket No. CP92–363–000 an application pursuant to section 7(b) of the Natural Gas Act requesting authority to abandon, effective October 1, 1990, certain interruptible natural gas exchange and gathering services involving Northwest Pipeline Corporation (Northwest) under Questar's Rate Schedules X–1 and X–2 to Original Volume No. 3 of its FERC Gas Tariff, all as more fully set forth in the application which is on file with the Commission and open to public inspeciton.

Questar states that on October 1, 1990, Questar and Northwest entered into a Termination Agreement that conceled the July 1, 1958, Gas Transportation and Exchange Agreement (Rate Schedule X–1), and the December 6, 1958, Gas Gathering Agreement (Rate Schedule X–2), between Questar and Northwest. Questar represents that Questar and Northwest mutually agreed to terminate Rate Schedules X–1 and X–2 effective October 1, 1990.

Comment date: March 20, 1992, in accordance with Standard Paragraph F at the end of this notice.

3. Seagull Marketing Services, Inc., et al.

[Docket No. CI86–7–008, *et al.*] [1]

February 28, 1992.

Take notice that each Applicant listed on the Appendix hereto filed an application pursuant to sections 4 and 7 of the Natural Gas Act and the Federal Energy Regulatory Commission's (Commission) regulations thereunder for extension of its blanket limited-term certificate with pregranted abandonment authorizing sales for resale in interstate commerce previously issued by the Commission for a term expiring March 31, 1992, all as more fully set forth in the applications which are on file with the Commission and open for public inspection.

Comment date: March 12, 1992, in accordance with Standard Paragraph J at the end of the notice.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

APPENDIX

Docket No.	Date filed	Applicant
CI86–7–008	2–24–92	Seagull Marketing Services, Inc., 1001 Fannin, suite 1700, Houston, Texas 77002.
CI87–734–005	2–24–92	Williams Gas Supply Company, P.O. Box 3102, Tulsa, Oklahoma 74101.
CI87–730–007 [1]	2–24–92	Williams Gas Marketing Company, P.O. Box 3102, Tulsa, Oklahoma 74101.

[1] Applicant also requests that the Commission remove the rate restriction on sales of interruptible sales service (ISS) gas purchased from affiliates.

4. Colorado Interstate Gas Co.

[Docket No. CP92–358–000]

February 26, 1992.

Take notice that on February 20, 1992, Colorado Interstate Gas Company (CIG), Post Office Box 1087, Colorado Springs, Colorado 80944, filed in Docket No. CP92–358–000 an application pursuant to section 7(b) of the Natural Gas Act for an order granting permission and approval to abandon by sale certain certificated natural gas facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

CIG states that it has entered into contracts with Associated Natural Gas, Inc. (ANGI) to sell both the certificated and non-certificated facilities in the natural gas gathering system referred to as Spindle/Wattenburg/Aristocrat Field, Weld County, Colorado. CIG indicates that it would sell the certificated facilities under the terms of a certificated facilities sales agreement dated January 6, 1992. It is stated that the certificated facilities consist of 8.1 miles of 2-inch pipeline, 5.8 miles of 4-inch pipeline, and 7.0 miles of 6-inch pipeline and facilities appurtenant thereto. CIG states that the certificated facilities would be sold at or above their present net book value of $333,429. It is indicated that CIG has already sold the non-certificated facilities to ANGI effective on January 6, 1992. It is also stated that CIG and ANGI have entered into a transitional lease and operating agreement to permit ANGI to operate the certificated facilities pending Commission action on the abandonment application.

Comment date: March 16, 1992, in accordance with Standard Paragraph F at the end of this notice.

5. Sabine Pipe Line Co.

[Docket No. CP92–360–000]

February 26, 1992.

Take notice that on February 24, 1992, Sabine Pipe Line Company (Sabine), 1111 Bagby Street, Houston, Texas 77002, filed in Docket No. CP92–360–000 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon an offshore pipeline lateral, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Sabine requests authorization to abandon 4.9 miles of 12-inch pipeline located in West Cameron, Block 547, Offshore, Louisiana and extending to an interconnect with Stingray Pipeline Company. Sabine states that natural gas produced from West Cameron Block 547 has been depleted and the production platform was removed in 1988.

Comment date: March 18, 1992, in accordance with Standard Paragraph F at the end of this notice.

6. Transcontinental Gas Pipe Line Corp.

[Docket No. CP92–347–000]

February 26, 1992.

Take notice that on February 12, 1992, Transcontinental Gas Pipe Line Corporation (Transco), P. O. Box 1396, Houston, Texas 77251, filed in Docket No. CP92–347–000 an application, pursuant to section 7(b) of the Natural Gas Act, for permission and approval to abandon certain interruptible gas transportation services to Tennessee Gas Pipeline Company (Tennessee), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Transco states that on November 22, 1982, Transco and Tennessee entered in a Service Agreement (Transco's Rate Schedule X–252) whereby Transco receives and transports on an interruptible basis up to 12,000 dekatherms per day of natural gas for Tennessee from Ship Shoal block 246B, and redelivers to Tennessee equivalent quantities at existing interconnections between Transco and Tennessee at Louise in Wharton County, Texas; Crowley in Acadia Parish, Louisiana; Starks in Calcasieu Parish, Louisiana; and Kinder in Allen Parish, Louisiana. It is also stated that such service under Transco's Rate Schedule X–252 was authorized by a Commission order issued January 30, 1984 in Docket No. CP83–520, 26 FERC 62,066 (1984).

It is asserted that the Service Agreement provides that such agreement shall remain in force until November 1, 1985, and from year to year thereafter until canceled by either party upon six months prior written notice to the other party.

Transco maintains that by letter dated January 4, 1991, Transco provided Tennessee written notice of termination of Rate Schedule X–252. In additin, by letter dated May 23, 1991, Tennessee requested successor interruptible transportation service under Transco's blanket certificate. Accordingly, Transco hereby seeks the abandonment of Rate Schedule X–252 effective on the date of a Commission order granting abandonment, and the waiver described below so as to provide replacement interruptible transportation service for Tennessee under Transco's blanket certificate (Rate Schedule IT) effective as of the same date.

It is also stated that effective with the abandonment of service under Transco's Rate Schedule X–252, Transco requests that the Commission authorize Transco to provide Tennessee with replacement interruptible transportation service, under Rate Schedule IT. Transco requests that such replacement interruptible transportation service be available from the receipt points listed herein as well as from other mutually agreeable receipt points in accordance with Transco's Rate Schedule IT and Transco's blanket certificate, to Tennessee's existing delivery points and other mutually agreeable points. Transco requests replacement interruptible transportation service of 12,000 dekatherms per day (the level at which Tennessee currently receives service pursuant to rate Schedule X–252).

Transco requests authority such that the replacement IT service for Tennessee shall maintain the same "grandfathered" priority which the interruptible transportaiton service under Rate Schedule X–252 currently is entitled to under section 28.2 of Transco's General Terms and Conditions.

Transco requests waiver of the General Terms and Conditions of its FERC Gas Tariff to the extent necessary to allow replacement Rate Schedule IT interruptible service for Tennessee to maintain the same "grandfathered" priority as that which existed under Rate Schedule X–252. Transco asserts that because replacement interruptible service pursuant to Transco's Rate Schedule IT is not a new service but

rather is merely the conversion of regulatory authorizations, Transco submits that Tennessee should be able to retain such priority and furthermore, allowing such would result in neither preferential nor unduly discriminatory treatment of any of Transco's customers or potential customers.

Comment date: March 18, 1992, in accordance with Standard Paragraph F at the end of the notice.

7. The Inland Gas Co., Inc.

[Docket No. CP92-356-000]

February 20, 1992.

Take notice that on February 18, 1992, The Inland Gas Company, Inc. (Inland), P.O. Box 1180, Ashland, Kentucky 41105-1180, filed in Docket No. CP92-356-000 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon either in place or by sale to Columbia Gas of Kentucky, Inc. (CKY) and Columbia Natural Resources, Inc. (CNR), all remaining portions of Inland's pipeline system and service obligations in Kentucky, Ohio and West Virginia, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Inland States that it received its original "Grandfather Certificate" in Docket No. CP61-266, 28 FERC 683 (1962), auththorizing Inland to operate production facilities in portions of Kenturky and provide sales service to residential, commercial and industrial customers in Kentucky, Ohio and West Virginia.

According to Inland, its markets have declined to the extent that it no longer provides any service for customers located in Ohio and transports for only one customer located in West Virginia. Additionally, Inland states that its sales service in the state of Kentucky has steadily declined. It is stated that the continued erosion of Inland's gas sales market is such that Inland proposes to either abandon in place or through transfer to affiliated companies its jurisdictional facilities and service obligations.[2]

Specifically, Inland proposes to:

1. Abandon by sale to CKY all of its jurisdictional properties in Carter and Boyd Counties, Kentucky, except the Big Sandy River crossing between Kentucky and West Virginia which will be abandoned in place.

2. Abandon by sale to CKY its 12-inch Ohio River crossing.[3]

3. Assign its present gas contract with Tennessee Gas Pipeline Company (Tennessee) and abandon by transfer its Mavity Measuring Station in Boyd County, Kentucky to CKY. The Mavity Measuring Station is Tennessee's delivery point to Inland.

4. Abandon by sale to CNR approximately 8,000 feet of its Line T-88. (A substantial portion of Inland's Line T-88 was previously abandoned by sale to Magnum Drilling of Ohio, Inc. in Docket No. CP91-1228-000, 56 FERC ¶ 61,169 (1991)).

5. Abandon in place its three miles of West Virginia facilities. Continuing service to Inland's sole jurisdictional customer in West Virginia, American Natural Rubber, will be provided by Mountaineer Gas Company (Mountaineer) through its existing facilities.

In addition to the transfer of jurisdictional facilities, Inland states that it will also transfer to CNR all of its non-jurisdictional production wells and gathering lines located in Johnson, Floyd, Magoffin, Pike, Knott and Perry Counties, Kentucky, and all wells located in Boyd County, Kentucky. It is stated that all of Inland's non-jurisdictional well lines and gathering lines located in Boyd County will be transferred to CKY or CNR. In accepting the transfer of these facilities, Inland submits that each assignee agrees to accept any continuing obligation to provide gas service, either under an existing tariff or pursuant to Kentucky Revised Statute 278.485, to all of Inland's existing customers now being served from the facilities to be transferred or sold.

Inland also requests abandonment authority for the delivery points and service obligations to the following customers:

1. In West Virginia: American Natural Rubber Company.

2. In Ohio: Allied Chemical Corporation, Ashland Oil, Inc. and B.C.R. Paving Company. (These delivery points are in idle service and Allied Chemical and B.C.R. Paving are no longer in business).

3. In Kentucky: Armco Credit Union, Armco Steel Company, L.P., Ashland Leather Company, Ashland Oil, Inc. (two delivery points which are now idle), Ashland Board of Education (two locations now being served by another gas supplier), Big Sandy Diesel, Cardinal Cleaners, Corbin, Ltd., Christ Temple Church, Federal Correctional Institution, General Concrete Co., Hackett Division of Harsco Corporation, Helton Hardware, Holy Family Church and School, Gene Jackson, Johnson's Dairy, Kay's Market, Kentucky Electric Steel Corporation, King's Daughters' Medical Center, Knight's Inn, Masonic Building Company, Meade Station Church of God, Mountain Enterprises, National Mines Service Company (delivery point in idle service), Pine Mountain Asphalt Company, Rental Uniform Service, Ruth Equipment Company, United Parcel Service, U.S. Brick and Air Products and Chemicals, Inc.

4. 734 farm tap customers served pursuant to rights-of-way agreements or Kentucky Revised Statute 278.485. Of the 734, 136 are located on pipeline facilities in the northern part of Inland's operations and will be transferred to either CKY or CNR, which will assume the obligation to serve these customers. The remaining 598 are located on those non-jurisdictional production and gathering lines located in Inland's southern operating area. These facilities will be transferred to CNR. CNR has agreed to continue to provide gas service to these customers as required by state law.

Inland also seeks abandonment authorization of the following certificate authorities: Inland's curtailment plan in Docket No. RP76-3; the blanket certificate in Docket No. CP83-139-000 for certain routine activities; and its blanket transportation certificate in Docket No. CP89-779-000.

In Docket No. RP89-65-000, 50 FERC ¶ 61,374 (1990), Inland states that it has been recouping from its customers the upstream take-or-pay charges of Tennessee which were billed to Inland and which Inland paid to Tennessee in a lump sum. Inland anticipates that under Tennessee's current proposal pending in Docket No. RP91-29-000, *et. al.*,[4] Inland will be entitled to a portion of its lump-sum payment. In light of Tennessee's revised allocation of take-or-pay, Inland states that it may have overcollected take-or-pay reimbursements from its customers. Inland states that it will remain in existence as a corporate entity and will receive any refund owing from Tennessee and refund any overcollection to its customers. At such time as Tennessee has in place a final and unappealable take-or-pay allocation methodology and makes refunds, Inland states that it will pass these refunds through to its former customers to the extent that Inland overcollected from these customers.

Finally, as authorized in Docket No. RP89-65-000, Inland states that it has agreed to refund $201,869 of excess accumulated deferred income-taxes created by the reduction in the federal income rates to 34 percent on July 1, 1987. It is stated that this amount was to be refunded in the cost-of-service over a fifteen-year period. Upon approval of this application and acceptance of the abandonment authority by Inland, Inland states that it will pass the remaining excess taxes through to its customers.

Comment date: March 18, 1992, in accordance with Standard Paragraph F at the end of this notice.

8. Transcontinental Gas Pipe Line Corp.

[Docket No. CP92-346-000]

February 20, 1992.

Take notice that on February 12, 1992, Transcontinental Gas Pipe Line Corporation (Transco), P.O. Box 1396, Houston, Texas 77251, filed in Docket No. CP92-346-000 an application, pursuant to section 7(b) of the Natural Gas Act, for permission and approval to abandon certain interruptible gas transportation services to Tennessee Gas Pipeline company (Tennessee), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Transco states that on April 21, 1980, Transco and Tennessee entered in a Service Agreement (Transco's Rate Schedule X-231) whereby Transco receives and transports on an interruptible basis up to 20,000 Mcf per day of natural gas for Tennessee from Decade, Louisiana and redelivers to Tennessee equivalent quantities at existing interconnections between Transco and Tennessee at Louise in Wharton County, Texas; Crowley in Acadia Parish, Louisiana; and Kinder in Allen Parish, Louisiana. It is also stated that such service under Transco's Rate Schedule X-231 was authorized by a Commission order issued November 6, 1980, in Docket No. CP80-440, 13 FERC 61,111 (1980).

It is asserted that the Service Agreement provides that such agreement shall remain be for a term of one year and from year to year thereafter until canceled by either party upon 90 days prior written notice to the other party.

Transco maintains that by letter dated January 4, 1991, Transco provided Tennessee written notice of termination of Rate Schedule X-231. In addition, by letter dated May 23, 1991, Tennessee requested successor interruptible transportation service under Transco's blanket certificate. Accordingly, Transco hereby seeks the abandonment of Rate Schedule X-231 effective on the date of a Commission order granting abandonment, and the waiver described below so as to provide replacement interruptible transportation service for Tennessee under Transco's blanket certificate (Rate Schedule IT) effective as of the same date.

It is also stated that effective with the abandonment of service under Transco's Rate Schedule X-231, Transco requests that the Commission authorize Transco to provide Tennessee with replacement interruptible transportation service, under Rate Schedule IT. Transco requests that such replacement interruptible transportation service be available from the receipt points listed herein as well as from other mutually agreeable receipt points in accordance with Transco's Rate Schedule IT and Transco's blanket certificate, to Tennessee's existing delivery points and other mutually agreeable points. Transco requests replacement interruptible transportation service of 20,000 Mcf per day (the level at which Tennessee currently receives service pursuant to Rate Schedule X-231).

Transco requests authority such that the replacement IT service for Tennessee shall maintain the same "grandfathered" priority which the interruptible transportation service under Rate Schedule X-231 currently is entitled to under section 28.2 of Transco's General Terms and Conditions.

Transco request waiver of the General Terms and Conditions of its FERC Gas Tariff to the extent necessary to allow replacement Rate Schedule IT interruptible service for Tennessee to maintain the same "grandfathered" priority as that which existed under Rate Schedule X-231. Transco asserts that because replacement interruptible service pursuant to Transco's Rate Schedule IT is not a new service but rather is merely the conversion of regulatory authorizations, Transco submits that Tennessee should be able to retain such priority and furthermore, allowing such would result in neither preferential nor unduly discriminatory treatment of any of Transco's customers or potential customers.

Comment date: March 18, 1992, in accordance with Standard Paragraph F at the end of this notice.

9. Tennessee Gas Pipeline Co.

[Docket No. CP92-355-000]

February 26, 1992.

Take notice that on February 18, 1992, Tennessee Gas Pipeline Company (Tennessee), P.O. Box 2511, Houston, Texas 77252, filed an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon five interruptible natural gas transportation services which were provided for Transcontinental Gas Pipe Line Corporation under Tennessee's Rate Schedules T-102, T-146, T-148, T-150 and T-160, all as more fully set forth in the application which is on file with the commission and open to public inspection.

Tennessee indicates that by letter dated November 27, 1991, Transco stated that the transportation services rendered under each applicable rate schedule may be abandoned, but because the particular rate schedules are currently in use, Transco requests that each rate schedule be subject to Tennessee's providing an equivalent replacement service. Tennessee would perform such replacement service under its blanket certificate and submits that service provided under the blanket authorization for Transco would incur reduced transportation costs for Transco. Tennessee believes that a waiver of the first-come first-serve provision of Tennessee's tariff would allow Transco to take early advantage of this benefit. As a result, Tennessee is requesting a waiver of such first-come first-serve provision.

No facilities are proposed to be abandoned herein.

Comment date: March 18, 1992, in accordance with Standard Paragraph F at the end of this notice.

Standard Paragraphs

E. Any person desiring to be heard or make any protest with reference to said filing should on or before the comment date file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act

[2] Inland states that its facilities located in Ohio and West Virginia will be abandoned in place.

[3] Since the border between Kentucky and Ohio lies at the low water mark on the Ohio side of the river, Inland states that this facility is located in Kentucky.

[4] Inland states that this proceeding was filed in response to the Commission's Order No. 528 establishing revised procedures for recalculating take-or-pay liability.

and the Commission's Rules of Practive and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

J. Any person desiring to be heard or make any protest with reference to said filings should on or before the comment date file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426 a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, .214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party in any proceeding herein must file a petition to intervene in accordance with the Commission's rules.

Under the procedure herein provided for, unless otherwise advised, it will be necessary for the applicant to appear or be represented at the hearing.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. JD92–01642T West Virginia–8]

West Virginia Amended NGPA Determination

March 2, 1992.

Take notice that on February 24, 1992, the West Virginia Department of Commerce, Labor and Environmental Resources (West Virginia) amended its notice of determination that was filed in the above-referenced proceeding on November 26, 1991, pursuant to § 271.703(c)(3) of the Commission's regulations. The November 20, 1991 notice determined that the Keener/Injun, Gantz/Fifty-Foot, Gordon, 4th Sand, and 5th Sand intervals, underlying portions of Marion, Monongalia, Preston, and Taylor Counties, West Virginia, qualify as tight formations under section 107(b) of the Natural Gas Policy Act of 1978.

The amended notice of determination reduces the geographical area recommended for tight formation designation as follows:

Sand interval	Corresponding acreage deleted
Keener/Injun	All of Preston County.
Gantz/Fifty-Foot	All of Preston County.
Gordon	All of Preston County.
4th Sand	All of Preston County except the Gladesville Quadrangle portion.
5th Sand	All of Preston County.

The amended notice of determination is available for inspection, except for material which is confidential under 18 CFR 275.206, at the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington DC 20426. Persons objecting to the determination may file a protest, in accordance with 18 CFR, 275.203 and 275.204, within 20 days after the date this notice is issued by the Commission.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. TM92–5–22–000]

CNG Transmission Corp.; Proposed Changes in FERC Gas Tariff

[March 2, 1992]

Take notice that CNG Transmission Corporation ("CNG"), on February 2, 1992, pursuant to section 4 of the Natural Gas Act, provisions of the Stipulation and Agreement approved by the Commission on October 6, 1989, in Docket Nos. RP88–217–000, *et al.*, § 12.10 of the General Terms and Conditions of CNG's FERC Gas Tariff, and Order Nos. 528 and 528–A, filed six copies of Third Revised Sheet No. 50, to First Revised Volume No. 1 of CNG's FERC Gas Tariff.

The proposed effective date for this tariff sheet is February 1, 1992.

CNG states that the purpose of this filing is to flow through changes in take-or-pay costs allocated to CNG by Texas Gas Transmission Corporation ("Texas Gas"). CNG proposes to reflect the revised allcoation of take-or-pay costs proposed by Texas Gas in its January 16, 1992 filing in Docket No. RP91–61.

CNG states that copies of the filing were served upon CNG's customers as well as interested parties.

Any person desiring to be heard or to protest said filing should file a protest or motion to intervene with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure, 18 CFR 385. 214 and 385.211. All motions or protests should be filed on or before March 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell

Secretary.

BILLING CODE 6717–01–M

[Docket No. RP92–131–000]

K N Energy, Inc.; Filing of Restatement of Base Tariff Rates

March 2, 1992

Take notice that on February 28, 1992, K N Energy, Inc. ("K N") tendered for filing a restatement of Base Tariff Rates on: Eighth Revised Sheet No. 4, Sixth Revised Sheet No. 4A, and Eighth Revised Sheet No. 4B of Fourth Revised Volume No. 1; Third Revised Sheet No. 4 of First Revised Volume No. 1–A of its FERC Gas Tariff to be effective April 1, 1992.

K N states that this filing reflects no changes in the non-gas cost components of its jurisdictional rates, that sales rates have been updated for the cumulative changes in gas purchase costs, and that the filing is being made for the sole purpose of restating and justifying such rates, as required by the thirty-six month review procedures within the Commission's Regulations governing PGA provisions. Accordingly, for this purpose, the filing contains a supporting cost study pursuant to § 154.303(e)(1)(ii) of the Commission's Regulations.

K N states its agreement that this filing will automatically be subject to refund as of April 1, 1992, as required by § 154.303(e)(1)(i) of the Commission's Regulations.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions of protests should be filed on or before March 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717–01–M

[Docket No. RP92–130–000]

Michigan Gas Storage Co.; Proposed Changes in FERC Gas Tariff

March 2, 1992.

Take notice that on February 28, 1992, Michigan Gas Storage Company ("Storage Company") tendered the following tariff sheets for filing pursuant to Order No. 537 as part of its FERC Gas Tariff Original Volume No. 2, to be effective March 1, 1992:

2nd Revised Sheet No. 1
2nd Revised Sheet No. 55
1st Revised Sheet Nos. 56 and 57

The proposed changes are in response to revisions to 18 CFR 284.102 relating to "on behalf of" transportation service. Storage Company states that copies of the filing were served upon its transportation customers and the Michigan Public Service Commission.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with 18 CFR 385.214 and 385.211. All such motions or protests should be filed on or before March 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene with the Commission. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717–01–M

[Docket No. TQ92–6–25–000]

Mississippi River Transmission Corp.; Rate Change Filing

March 2, 1992.

Take notice that on February 27, 1992 Mississippi River Transmission Corporation (MRT) tendered for filing Seventy-Fourth Revised Sheet No. 4, and Thirty-Third Sheet No. 4.1 to its FERC Gas Tariff, Second Revised Volume No. 1, to be effective March 1, 1992. MRT states that the purpose of the instant filing is to reflect an out-of-cycle purchase gas cost adjustment (PGA).

MRT states that Seventy-Fourth Revised Sheet No. 4 and Thirty-Third Revised Sheet No. 4.1 reflect an increase of 9.37 cents per MMBtu in the commodity cost of purchased gas from PGA rates filed to be effective March 1, 1992 in Docket No. TQ92–7–25–000. MRT also states that since the January 30, 1992 filing date, MRT has experienced increases in purchase and transportation costs for its system supply that could not have been reflected in that filing under current Commission regulations.

MRT states that a copy of the filing has been mailed to each of MRT's jurisdictional sales customers and to the State Commissions of Arkansas, Missouri, and Illinois.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before March 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the public reference room.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. TM92–2–27–000]

North Penn Gas Co.; Proposed Changes in FERC Gas Tariff

March 2, 1992.

Take notice that North Penn Gas Company (North Penn) on February 28, 1992 tendered for filing Eleventh Revised Sheet No. 3A to its FERC Gas Tariff First Revised Volume No. 1.

This filing is North Penn's Annual take-or-pay (TOP) surcharge rate adjustment filing proposed to become effective April 1, 1992. North Penn has computed a second annual TOP surcharge rate of $0.1796 per Mcf, which represents an increase of $0.0144 per Mcf.

While North Penn believes that no other waivers are necessary in order to permit this filing to become effective April 1, 1992, as proposed, North Penn respectfully requests waiver of any of the Commission's Rules and Regulations as may be required to permit this filing to become effective April 1, 1992, as proposed.

North Penn states that copies of this letter of transmittal and all enclosures are being mailed to each of North Penn's jurisdictional customers and State Commissions shown on the attached service list.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before March 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717–01–M

[Docket No. FA90–65–000]

Pipeline Rates; Northern Border Pipeline Co.; Order Establishing Hearing Procedures

Issued March 3, 1992.

On December 6, 1991, the Chief Accountant issued a contested audit report [1] under delegated authority noting Northern Border Pipeline Company's (Northern Border) disagreement with the recommendation of the Division of Audits as discussed in Schedule No. 2. Northern Border was requested to advise whether it would agree to the disposition of the contested matters under the shortened procedures provided for by part 158 of the Commission's Regulations. 18 CFR 158.1, *et seq.*

On January 6, 1992, Northern Border responded that it did not consent to the shortened procedures. Section 158.7 of

[1] 57 FERC ¶ 62,216 (1991).

the Commission's Regulations provides that in case consent to the shortened procedures is not given, the proceeding will be assigned for hearing. Accordingly, the Secretary, under authority delegated by the Commission, will set these matters for hearing.

Any interested person seeking to participate in this docket shall file a protest or a motion to intervene pursuant to Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) no later than 15 days after the date of publication of this order in the Federal Register.

It is Ordered:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by section 402(a) of the Department of Energy Organization Act, the provisions of the Natural Gas Act, particularly sections 4, 5 and 8 thereof, and pursuant to the Commission's Rules of Practice and Procedure (18 CFR, chapter I), a public hearing shall be held concerning the appropriateness of Northern Border's accounting practices as discussed in the audit report.

(B) A presiding Administrative Law Judge, to be designated by the Chief Administrative Law Judge, shall convene a prehearing conference in this proceeding, to be held within 45 days of the date of this order, in a hearing room of the Federal Energy Regulatory Commission, 810 First Street, NE., Washington, DC 20426. The Presiding Judge is authorized to establish procedural dates and to rule on all motions (except motions to dismiss) as provided in the Commission's Rules of Practice and Procedure.

(C) This order shall be promptly published in the Federal Register.

Lois D. Cashell,

Secretary.

[FR Doc. 92-5330 Filed 3-6-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. RP92-125-000]

Panhandle Eastern Pipeline Co.; Proposed Changes in FERC Gas Tariff

March 2, 1992.

Take notice that Panhandle Eastern Pipe Line Company (Panhandle) on February 27, 1992, tendered for filing the following revised tariff sheets to its FERC GAS Tariff, Original Volume No. 1:

Original Sheet No. 3-C.18
Original Sheet No. 3-C.18
1st/2nd/Third/Sheet No. 32-BB
1st/1st/Third/Sheet No. 32-BD
Original Sheet No. 43-18
Original Sheet No. 43-19

Panhandle proposes that these revised tariff sheets become effective March 29, 1992.

Panhandle states that the tariff provisions proposed herein will provide for the recovery by Panhandle of:

(i) $3,907,269.74, the amount of costs which Panhandle's upstream supplier, Trunkline Gas Company (Trunkline) has filed to recover contemporaneously herewith, representing the direct bill to Panhandle and other customers of 50% of the take-or-pay byout and buydown costs which Trunkline has incurred and which were not included in Trunkline's earlier take-or-pay cost recovery filing (Docket No. RP91-54-000); and

(ii) $46,773,862.56, the amount of costs which Trunkline has filed to recover contemporaneously herewith, representing its flow-through of a portion of the take-or-pay buyout and buydown costs sought to be recovered via a direct bill from Trunkline LNG Company (TLC), after that latter company's absorption of 50% of the costs which it incurred to settle take-or-pay and to reform its supply contract.

The costs involved are those costs which Trunkling LNG Company (TLC) incurred in settling take-or-pay claims and reforming its gas supply contract with Sonatrach, the Algerian state-owned oil and gas company and which Trunkline incurred in the resolution of take-or-pay matters with certain of its suppliers.

Panhandle proposes to allocate these costs among its sales customers and customers served under Rate Schedule PT-Firm as a result of the exercise of conversion opportunities afforded by section 284.10 of the Commission's Regulations. The allocation uses the proportion each customer's current annualized contract demand bears to the aggregate of all applicable customers' annualized current contract demands and substitutes projections of commodity volumes of the Rate Schedule SG/SSS customers for their contract demand. This latter basis satisfies the standards which the Commission developed in Order No. 528-A.

Panhandle states that copies of this filing have been sent to the sales customers, transportation customers served under Rate Schedule PT-Firm and to the respective state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20428, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before March 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell

Secretary.

[FR Doc. 92-5318 Filed 3-6-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. RP92-122-000]

Trunkline LNG Co., Proposed Changes in FERC Gas Tariff

March 2, 1992.

Take notice that Trunkline LNG Company (TLC) on February 27, 1992, tendered for filing proposed changes to its FERC Gas Tariff, Original Volume No. 1, attached to the filing as Appendix A. The subject tariff sheets bear an issue date of February 27, 1992, and a proposd effective date of March 29, 1992.

TLC states that the proposed tariff sheets will permit TLC to recover from Trunkline Gas Company (Trunkline) on a direct bill basis 50% of the cash consideration paid to resolve take-or-pay obligations to the Algerian state-owned oil and gas company, Societé Nationale pour La Recerche, La Production, Le Transport, La Transformation et La Commercialization des Hydrocarbures (Sonatrach).

TLC further states that upon approval of the filing TLC will agree to absorb an amount equal to the amount directly billed hereunder in the same manner as contemplated by the Commission's Order Nos. 500 and 528 *et seq.* "equitable sharing" mechanism.

Trunkline states that copies of the filing were served upon Trunkline's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, Union Center Plaza Building, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before March 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of Columbia's filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. RP92-123-000]

Trunkline Gas Co.; Proposed Changes in FERC Gas Tariff

March 2, 1992.

Take notice that Trunkline Gas Company (Trunkline) on February 27, 1992, tendered for filing proposed changes to its FERC Gas Tariff, Original Volume No. 1, attached to the filing as Appendix A. The subject tariff sheets bear an issue date of February 27, 1992, and a proposed effective date of March 29, 1992.

Trunkline states that the proposed tariff sheets reflect fixed demand surcharges to effectuate the recovery on a direct bill basis 50% of certain additional take-or-pay settlement and contract reformation costs in accordance with the Commission's Order No. 528 cost-sharing and recovery mechanism. This supplemental fixed take-or-pay charge will be billed in addition to Trunkline's currently effective rates.

Trunkline further states that for purposes of allocating the costs to be recovered hereunder, allocation percentages are developed for each sales customer and each customer served under Rate Schedule PT-Firm whose service is the result of the exercise of conversion opportunities provided by § 284.10 of the Commission's Regulations.

Trunkline states that copies of the filing were served upon Trunkline's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, Union Center Plaza Building, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before March 19, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of Columbia's filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. RP92-124-000]

Trunkline Gas Co. Proposed Changes in FERC Gas Tariff

March 2, 1992.

Take notice that Trunkline Gas Company (Trunkline) on February 27, 1992, tendered for filing proposed changes to its FERC Gas Tariff, Original Volume No. 1, attached to the filing as Appendix A. The subject tariff sheets bear an issue date of February 27, 1992, and a proposed effective date of March 29, 1992.

Trunkline states that the proposed tariff sheets provide for the recovery by Trunkline the full amount of costs which Trunkline's upstream supplier, Trunkline LNG Company (TLC) has filed contemporaneously herewith to recover from Trunkline effective on the same date as the tariff sheets filed herein are proposed to become effective.

Trunkline further states that for purposes of allocating the costs to be recovered hereunder, allocation percentages are developed for each sales customer, each customer served under Rate Schedule PT-Firm whose service is the result of the exercise of conversion opportunities provided by § 284.10 Transmission Corporation.

Trunkline states that copies of the filing were served upon Trunkline's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, Union Center Plaza Building, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before March 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of Columbia's filing are on file with the Commission and are available for public inspection.

Trunkline Gas Company Proposed Changes in FERC Gas Tariff

March 2, 1992.

Take notice that Trunkline Gas Company (Trunkline) on February 27, 1992, tendered for filing proposed changes to its FERC Gas Tariff, Original Volume No. 1 attached to the filing as Appendix A. The subject tariff sheets bear an issue date of February 27, 1992, and a proposed effective date of March 29, 1992.

Trunkline states that the proposed tariff sheets will change the means of Trunkline's recovery of Trunkline LNG Company's (TLC) Rate Schedule PLNG-1 minimum bill costs by recovering the net present value of debt service and related minimum bill costs for which Trunkline's customers are responsible to Trunkline and TLC.

Trunkline further states that for purposes of allocating the cost to be recovered hereunder, allocation percentages are developed for each sales customer and each customer served under Rate Schedule PT-Firm whose service is the result of the exercise of conversion opportunities provided by § 284.10 of the Commission's Regulations.

Trunkline states that copies of the filing were served upon Trunkline's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Commission, Union Center Plaza Building, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before March 9, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of Columbia's filing

are on file with the Commission and are available for public inspection.

Office of Hearings and Appeals

Cases Filed During the Week of January 24 Through January 31, 1992

During the Week of January 24 through January 31, 1992, the appeals and applications for exception or other relief listed in the Appendix to this Notice were filed with the Office of Hearings and Appeals of the Department of Energy.

Under DOE procedural regulations, 10 CFR part 205, any person who will be aggrieved by the DOE action sought in these cases may file written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of the regulations, the date of service of notice is deemed to be the date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first. All such comments shall be filed with the Office of Hearings and Appeals, Department of Energy, Washington, DC 20585.

Dated: March 3, 1992.

George E. Breznay,

Director, Office of Hearings and Appeals.

LIST OF CASES RECEIVED BY THE OFFICE OF HEARINGS AND APPEALS

[Week of January 24 to January 31, 1992]

Date	Name and location of applicant	Case No.	Type of submission
January 27, 1992	University of Utah Salt Lake City, UT	LFA-0179	Appeal of an information request denial. *If granted:* The January 8, 1992, Freedom of Information Request Denial issued by the Office of Basic Energy Sciences, Office of Energy Research, would be rescinded, and the University of Utah would receive access to information pertaining to the background, scope and results of the Department of Energy's investigation of "cold fusion".
January 28, 1992	Cox Newspapers Washington, DC	LFA-0180	Appeal of an information request denial. *If granted:* Cox Newspapers would receive access to documents related to the trip of the Secretary of Energy James Watkins and other Department of Energy employees to Alaska in June and July of 1991.
January 28, 1991	International Technology Corporation Knoxville, TN	LFA-0181	Appeal of an information request denial. *If granted:* The December 30, 1991, Freedom of Information Request Denial issued by the Albuquerque Field Office would be rescinded, and International Technology Corporation would receive access to withheld information regarding the Firm Fixed Unit Prices and Accelerated Unit Prices in a subcontract bid.
January 29,1992	Albuquerque Journal Albuquerque, NM	LFA-0182	Appeal of an information request denial. *If granted:* The January 8, 1992 Freedom of Information Request Denial issued by the Office of Arms Control & Nonproliferation Technology Support would be rescinded, and Albuquerque Journal would receive access to the denied portion of the requested information concerning verification of dismantlement of nuclear weapons.
January 31, 1992	Gulf/Ona Gulf Woodbridge, VA	RR300-127	Request for modification/rescission in the Gulf refund proceeding. *If granted:* The January 3, 1992 Dismissal Letter (Case No. RF300-12955) issued to Ona Gulf would be modified regarding the firm's application for refund submitted in the Gulf Refund Proceeding.
January 31, 1992	Ernest E. Latsha, Inc. Harrisburg, PA	LEE-0035	Exception to the reporting requirement. *If granted:* Ernest E. Latsha, Inc. would not be required to file Form EIA-863, "Petroleum Product Sales."

REFUND APPLICATIONS RECEIVED

[Week of January 24 to January 31, 1992]

Date received	Name of refund proceeding/name of refund applicant	Case No.
01/29/92	Columbus Oil Co.	RF323-31.
01/28/92	Anchor Gas & Fuel	RF340-54.
01/28/92	Solar Gas, Inc.	RF340-55.
01/27/92	Ed Avilas Texaco Service	RF321-18414.

REFUND APPLICATIONS RECEIVED—Continued

[Week of January 24 to January 31, 1992]

Date received	Name of refund proceeding/name of refund applicant	Case No.
01/27/92	Enis Jerram	RF341-19.
01/27/92	Larry Moeller	RF342-132.
01/27/92	Ed's Clark Station	RF342-133.
01/24/92 thru 01/31/92	Texaco refund applications received	RE321-18415 thru RF321-18422.
01/24/92 thru 01/31/92	Crude Oil applications received	RF272-91480 thru RF272-91517.
01/24/92 thru 01/31/92	Gulf Oil refund applications received	RF300-19446 thru RF272-19484.
01/24/92 thru 01/31/92	Atlantic Richfield applications received	RF304-12710 thru RF304-12787.

[FRL-4113-4]

Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden.

DATES: Comments must be submitted on or before April 8, 1992.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA, (202) 260-2740.

SUPPLEMENTARY INFORMATION:

Office of Air and Radiation

Title: Reporting and Recordkeeping Requirements for the New Source Performance Standards (NSPS) for Coal Preparation Plants - subpart Y (ICR No. 1062.04, OMB No. 2060-0122).

Abstract: This ICR is for an extension of an existing information collection in support of the Clean Air Act, as described under the general NSPS at 40 CFR 60.7-60.8 and the specific NSPS, regulating emissions from coal preparation plants, at 40 CFR 60.253. The information will be used by the EPA to direct monitoring, inspection, and enforcement efforts, thereby ensuring facility compliance with the NSPS.

Owners or operators of all new facilities subject to this NSPS, estimated at 18 facilities per year, must provide EPA with: (1) Notification of the date of construction or reconstruction, (2) notification of the anticipated and actual

dates of the start-up, and (3) notification of date for continuous monitoring system (CMS) demonstration. The EPA estimates the respondent universe to expand at an annual rate of 18 new facilities over the next three years.

Owners and operators of all affected facilities must report to EPA: (1) Any physical or operational change to their facility which may result in an increase in the regulated pollutant emission rate. An estimated 18 existing facilities will submit reports of physical or operational changes each year, over the next three years. All facilities must maintain records on the facility operation that document: (1) The occurrence and duration of any start-ups, shutdowns, and malfunctions; (2) measurements of particulate matter (PM) emissions; (3) pressure drops across any scrubber system; and (4) the initial performance test results of the CMS demonstration. All subject facilities must maintain records related to compliance for two years.

Burden Statement: Public reporting burden for facilities subject to this collection of information is estimated to average 86.5 hours per response for new facilities and 12 hours per response for existing facilities including time for reviewing instructions, searching existing data sources, gathering and maintaining data, and completing and reviewing the collection of information. Public recordkeeping burden is estimated to average 26 hours per recordkeeper, annually.

Respondents: Owners or operators of coal preparation plants subject to this NSPS.

Estimated Number of Respondents: 18 new facilities, 18 existing facilities.

Estimated Number of Responses per Respondent: 10 for new facilities, 1 for existing facilities with physical or operational changes.

Estimated Total Annual Burden on Respondents: 21,973 hours

Frequency of Collection: One-time for new facilities, on occasion for existing facilities.

Send comments regarding the burden estimate, or any other aspect of this collection of information, including suggestions for reducing the burden, to: Sandy Farmer, U.S. Environmental Protection Agency, Information Policy Branch (PM–223Y), 401 M Street, SW., Washington, DC 20460; and Troy Hillier, Office of Management and Budget, Office of Information and Regulatory Affairs, 725 17th St., NW., Washington, DC 20503.

Dated: February 27, 1992.

Paul Lapsley,

Director, Regulatory Management Division.

Government-Owned Inventions: Available for Licensing

AGENCY: Environmental Protection Agency.

ACTION: Notice of availability of inventions for licensing.

SUMMARY: The inventions listed below are owned by the U.S. Government and are available for licensing in the United States in accordance with 35 U.S.C. 207 and 37 CFR part 404. Pursuant to 37 CFR 404.7, the Government may grant exclusive or partially exclusive licenses on any of the inventions listed below three months after the date of this notice.

Copies of the listed patents and patent applications are available from the person indicated below. Requests for copies of the patents must include the patent number and requests for copies of patent applications must include the patent application serial number. An application for a license should include the information set forth in 37 CFR 404.8, including applicant's plan for development or marketing the invention.

DATES: Exclusive licenses may be granted for the inventions listed below after June 9, 1992.

FOR FURTHER INFORMATION CONTACT: Thomas Gorman, Patent Counsel, Office of General Counsel (LE–132G), U.S. Environmental Protection Agency, Washington, DC 20460, Telephone (202) 260–7510.

SUPPLEMENTARY INFORMATION:

BILLING 6560–50–M

FEDERAL FINANCIAL INSTITUTIONS EXAMINATION COUNCIL

Appraisal Subcommittee; Agency Form Submitted for OMB Review

AGENCY: Appraisal Subcommittee, Federal Financial Institutions Examination Council.

ACTION: Notice.

SUMMARY: The Appraisal Subcommittee of the Federal Financial Institutions Examination Council has sent to the Office of Management and Budget the following proposal for the collection of information under the Paperwork Reduction Act (44 U.S.C. chapter 35).

DATES: Comments on this information collection must be received on or before April 8, 1992.

ADDRESSES: Send comments to Paul N. Romani, Associate Director for Administration, Appraisal Subcommittee, 1776 G Street, NW., suite 850B; Washington, DC 20006, and Gary Waxman, Clearance Officer, Office of Management and Budget, New Executive Office Building, room 3228, Washington, D.C. 20503.

FOR FURTHER INFORMATION CONTACT: Paul N. Romani, Associate Director for Administration, Appraisal Subcommittee, 1776 G Street, NW., suite 850B; Washington, DC 20006, or at (202) 357–0133, from whom copies of the information collection and supporting documents are available.

SUMMARY OF PROPOSAL(S)

(1) *Collection title:* 12 CFR part 1102, subpart C, Rules pertaining to the privacy of individuals and systems of records maintained by the Appraisal Subcommittee.

(2) *Form(s) submitted:* Not applicable.

(3) *Frequency of collection:* On occasion.

(4) *Use:* The information will be used by the ASC and its staff in determining whether to grant to an individual access to records pertaining to that individual and whether to amend or correct ASC records pertaining to that individual under the Privacy Act of 1974, 5 U.S.C. 552a.

(5) *Estimated number of respondents:* 325.

(6) *Frequency of response:* Once.

(7) *Estimated hours for respondents to provide information:* 20 minutes per respondent.

(8) *Estimated total annual reporting and recordkeeping burden:* 108.33 hours.

Dated: March 3, 1992.

By the Appraisal Subcommittee of the Federal Financial Institutions Examination Council.

Edwin W. Baker,

Executive Director.

BILLING CODE 6210–01–M

Appraisal Subcommittee; Agency Form Submitted for OMB Review

AGENCY: Appraisal Subcommittee, Federal Financial Institutions Examination Council.

ACTION: Notice.

SUMMARY: The Appraisal Subcommittee of the Federal Financial Institutions Examination Council has sent to the Office of Management and Budget the following proposal for the collection of information under the Paperwork Reduction Act (44 U.S.C. chapter 35).

DATES: Comments on this information collection must be received on or before April 8, 1992.

ADDRESSES: Send comments to Paul N. Romani, Associate director for Administration, Appraisal Subcommittee, 1776 G Street NW., suite 850B; Washington DC 20006, and Gary Waxman, Clearance Officer, Office of Management and Budget, New Executive Office Building, room 3228, Washington, DC 20503

FOR FURTHER INFORMATION CONTACT: Paul N. Romani, Associate Director for Administration, Appraisal Subcommittee, 1776 G Street NW., suite 850B; Washington, DC 20006, or at (202) 357–0133., from whom copies of the information collection and supporting documents are available.

SUMMARY OF PROPOSAL(S)

(1) Collection title: 12 CFR part 1102, subpart B, Rules of Practice for Proceedings.

(2) Form(s) submitted: Not applicable.

(3) Frequency of collection: On occasion.

(4) Use: Procedures for Appraisal Subcommittee non-recognition and "further action" proceedings against State Appraiser Regulatory Agencies and other persons under section 1118 of Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989, 12 U.S.C. 3347 (1990).

(5) Estimated number of respondents: 6.

(6) Frequency of response: Once.

(7) Estimated hours for respondents to provide information: 60 hours per respondent.

(8) Estimated total annual reporting and recordkeeping burden: 360 hours.

Dated: March 3, 1992.

By the Appraisal Subcommittee of the Federal Financial Institutions Examination Council.

Edwin W. Baker,

Executive Director.

BILLING CODE 6210–01–M

FEDERAL MARITIME COMMISSION

City of Los Angeles/Distribution and Auto Services, Inc. Terminal Agreement, et al; Notice of Agreement(s) Filed

The Federal Maritime Commission hereby gives notice of the filing of the following agreement(s) pursuant to section 5 of the Shipping Act of 1984.

Interested parties may inspect and obtain a copy of each agreement at the Washington, DC. Office of the Federal Maritime Commission, 1100 L Stret, NW., room 10325. Interested parties may submit comments on each agreement to the Secretary, Federal Maritime Commission, Washington, DC 20573, within 10 days after the date of the Federal Register in which this notice appears. The requirements for comments are found in § 572.603 of title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the Commission regarding a pending agreement.

Agreement No.: 224–200100–004.

Title: City of Los Angeles/Distribution and Auto Services, Inc. Terminal Agreement.

Parties:

City of Los Angeles, Board of Harbor Commissioners

Distribution and Auto Service, Inc. ("DAS")

Synopsis: The subject modification provides for the re-setting of compensation levels to be paid by DAS during the five year period that commenced on November 1, 1991.

Agreement No.: 224–200626.

Title: L.A. Cruise Ship Terminals, Inc./ Seabourn Cruise Line Terminal Agreement.

Parties:

L.A. Cruise Ship Terminals, Inc.

Seabourn Cruise Line.

Synopsis: The Agreement provides for the use by Seabourn Cruise Line of terminal facilities and services provided by L.A. Cruise Ship Terminals Inc. at the port of Los Angeles.

Dated: March 3, 1992.

By Order of the Federal Maritime Commission

Joseph C. Polking,

Secretary.

BILLING CODE 6730–01–M

FEDERAL RESERVE SYSTEM

Agency Forms Under Review

March 3, 1992.

Background

On June 15, 1984, the Office of Management and Budget (OMB) delegated to the Board of Governors of the Federal Reserve System (Board) its approval authority under the Paperwork Reduction Act of 1980, as per CFR 1320.9, " to approve of and assign OMB control numbers to collection of information requests and requirements conducted or sponsored by the Board under conditions set forth in 5 CFR 1320.9." Board-approved collections of information will be incorporated into the official OMB inventory of currently approved collections of information. A copy of the SF 83 and supporting statement and the approved collection of information instrument(s) will be placed into OMB's public docket files. The following form, which is being handled under this delegated authority, has received initial Board approval and is hereby published for comment. At the end of the comment period, the proposed information collection, along with an analysis of comments and recommendations received, will be submitted to the Board for final approval under OMB delegated authority.

DATES: Comments must be submitted on or before March 27, 1992.

ADDRESSES: Comments, which should refer to the OMB Docket number, should be addressed to Mr. William W. Wiles, Secretary, Board of Governors of the Federal Reserve System, 20th and C Streets, NW., Washington, DC 20551, or delivered to room B–2223 between 8:45 a.m. and 5:15 p.m. Comments received may be inspected in room B–1122 between 8:45 a.m. and 5:15 p.m., except as provided in § 261.8(a) of the Board's Rules Regarding Availability of Information, 12 CFR 261.8(a).

A copy of the comments may also be submitted to the OMB desk office for the Board: Gary Waxman, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office building, room 3208, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: A copy of the proposed form, the request for clearance (SF 83), supporting statement, instructions, and other documents that will be placed into OMB's public docket files once approved may be requested from the agency clearance officer, whose name appears below. Federal Reserve Board Clearance Officer—Frederick J. Schroeder—Division of Research and Statistics, Board of Governors of the Federal Reserve System, Washington, DC 20551 (202–452–3829).

Questions on the proposal should be directed to Mr. James McEneaney, Department Administrator, Research, Federal Reserve Bank of Boston, Boston, Massachusetts 02106 (617–973–3196) or to Mr. Glenn Canner, Senior Economist, Division of Research and Statistics, Board of Governors of the Federal Reserve System, Washington, DC 20551 (202–452–2910).

Proposal to Approve Under OMB Delegated Authority the Implementation of the Following Report

Report title: Follow-up to 1990 Home Mortgage Disclosure Act (HMDA) Reports.

Agency form number: FR 3070.

OMB docket number: 7100–0253.

Frequency: One-time survey.

Reporters: 132 financial institutions operating in the Boston Metropolitan Statistical Area (MSA).

Annual Reporting hours: 1,650 hours.

Estimated average hours per response: 12.5 hours.

Number of respondents: 132.

Small businesses are not affected.

General description of report: This survey is authorized by law (12 U.S.C. 2803 (b) and (h); 12 U.S.C. 2804(a); 12 U.S.C. 2809(b); and 12 U.S.C. 2802 (2) and (4)). Reporting will be voluntary. Individual respondent data will be given confidential treatment (15 U.S.C. 552(b)(4) and (6)).

Abstract: The proposed survey will collect from creditors information they relied on in determing the disposition of mortgage loan applications. The proposed survey will include selected financial institutions in the Boston Metropolitan Statistical Area. A purpose of the survey is to gain a better understanding of the reasons for different in the loan dispostion rates among difference racial groups. It will provide information that can be used to determine statistically the importance of various factors considered by lenders when they evaluate loan applications. The information gained may also help better educate the public about the mortgage loan application process.

Board of Governors of the Federal Reserve System, March 3, 1992.

William W. Wiles,

Secretary of the Board.

BILLING CODE 6210–01–M

Chemical Banking Corporation; Notice of Application to Engage de novo in Permissible Nonbanking Activities

The company listed in this notice has filed an application under § 225.23(a)(1) of the Board's Regulation Y (12 CFR 225.23(a)(1)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to commence or to engage *de novo*, either directly or through a subsidiary, in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Comments regarding the application must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than March 31, 1992.

A. Federal Reserve Bank of New York (William L. Rutledge, Vice President) 33 Liberty Street, New York, New York 10045:

1. Chemical Banking Corporation, New York, New York; to engage *de novo* through its subsidiary, The CIT Group Holdings, Inc., New York, New York, in operating a collection agency for the collection of accounts receivable, either retail or commercial, pursuant to § 225.25(b)(23) of the Board's Regulation Y.

Board of Governors of the Federal Reserve System, March 3, 1992.

Jennifer J. Johnson,

Associate Secretary of the Board.

[FR Doc. 92–5404 Filed 3–6–92; 8:45 am]

BILLING CODE 6210–01–F

Michael F. Daddona, Jr., et al.; Change in Bank Control Notices; Acquisitions of Shares of Banks or Bank Holding Companies

The notificants listed below have applied under the Change in Bank Control Act (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire a bank or bank holding company. The factors that are considered in acting on the notices are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The notices are available for immediate inspection at the Federal Reserve Bank indicated. Once the notices have been accepted for processing, they will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank indicated for that notice or to the offices of the Board of Governors. Comments must be received not later than March 27, 1992.

A. Federal Reserve Bank of Boston (Robert M. Brady, Vice President) 600 Atlantic Avenue, Boston, Massachusetts 02106:

1. Michael F. Daddona, Jr., Milford, Connecticut; to acquire an additional 15.9 percent of the voting shares of DS Bancor, Inc., Derby, Connecticut, for a total of 24.9 percent, and thereby indirectly acquire Derby Savings Bank, Derby, Connecticut.

B. Federal Reserve Bank of Dallas (W. Arthur Tribble, Vice President) 400 South Akard Street, Dallas, Texas 75222:

1. FirstBank Group, Inc. Employee Stock Ownership Plan, Los Fresnos, Texas; to acquire an additional 3.87 percent of the voting shares of FirstBank Group, Inc., Los Fresnos, Texas, for a total of 12.06 percent, and thereby indirectly acquire FirstBank, Los Fresnos, Texas

Board of Governors of the Federal Reserve System, March 3, 1992.

BILLING CODE 6210–01–F

GENERAL SERVICES ADMINISTRATION

[Federal Supply Schedule FSC 26 Part II]

Federal Supply Service; Casing Requirements for Retread Tires

AGENCY: General Services Administration.

ACTION: Notice.

SUMMARY: The Federal Supply Service (FSS) of the General Services Administration (GSA) manages the acquisition of retread tires for Federal Supply Schedules. Requirements have been instituted to allow only casings with the original tread rubber worn off in the United States (U.S.), regardless of whether the original tire was of foreign or domestic manufacture.

DATES: Comments concerning the GSA/FSS retread tire program should be submitted no later than 30 days from the date of this notice.

ADDRESSES: Submit comments to the FSS Acquisition Management Center (FCO), Federal Supply Service, General Services Administration, Washington, DC 20406.

FOR FURTHER INFORMATION CONTACT: Bryce Frey, Director, Engineering & Commodity Management Division, Automotive Commodity Center, (703) 603–1207.

SUPPLEMENTARY INFORMATION:

A. Definition

"Acceptable Casing" is defined as a used tire casing which had its original tread rubber worn off in the U.S. regardless of whether the original tire was of foreign or domestic manufacture.

B. Background

The U.S. Environmental Protection Agency (EPA) "Guideline for the Federal Procurement of Retread Tires" (40 CFR 253) became effective November 17, 1988. The purpose of this guideline is to retard the growing scrap tire disposal problem in the U.S. by promoting recycling of used tire casings (i.e., to keep the rubber in use because the alternative is the scrap tire dump).

GSA proposes to further the objectives of the Guideline by procuring retread tires made from only those used casings which represent waste produced in the United States—not the waste produced in other countries. The GSA requirement would additionally help to ensure that the EPA Guideline does not have the unintended result of exacerbating the scrap tire disposal problem in the U.S. by stimulating the import of waste generated by other countries into the U.S. Scrap tires have become an environmental and public health problem with a total of over 2 billion scrap tires located in various tire dump sites throughout the U.S. Tires are a non-biodegradable item and provide a home for rodents and insects, and act as fuel for fires.

Over 2 million worn casings are brought into the U.S. every year. Some are not retreadable and immediately become part of the solid waste stream when disposed of in U.S. dump piles. All of them eventually end up in the tire piles. This practice results in the transference of foreign solid waste to U.S. tire dump sites.

The Guidelines recommended that tire specifications indicate the functional requirements of tires to be procured in order to allow new and retread tires to compete on an equitable basis. The GSA action was to apply the qualification tests used for new tires to retread tires. The resulting qualified products list (QPL) contains both new and retread tires that are eligible to be bid on Federal procurements. This QPL is used by a majority of the States to simplify their own procurement of quality tires without duplicating the testing.

GSA's purpose in developing a retread tire program is to help alleviate the national tire disposal problem. GSA has taken the position that allowing unacceptable casings to be utilized in GSA contracts for retread tires is likely to exacerbate rather than help alleviate the problem.

C. Buy American Act (BAA) and Trade Agreements Act (TAA)

Concerns had been expressed regarding possible conflicts of the GSA retread tire program with the BAA and TAA. The Office of the United States Trade Representative is aware of this program and has not notified GSA of any objections.

D. Information Sought

GSA is interested in receiving written comments and/or information regarding the foregoing specification requirement. Specific issues for comment include:

1. The impact on the availability of retreadable used casings.

2. The viability of identifying and segregating casings to meet the requirement.

3. Regardless of the requirement on Government contracts, will retreaders still bring the same number of tire casings into the U.S. from other countries?

4. Alternate programs for procuring retread tires (cap and casing) that achieve the goal of alleviating the national tire disposal problem.

5. Potential conflicts between the requirements and the BAA, TAA, or EPA guidelines.

E. Executive Order 12291

The Director, Office of Management and Budget (OMB), by memorandum dated December 14, 1984, exempted certain agency procurement regulations from Executive Order 12291. The exemption applies.

F. Regulatory Flexibility Act

This requirement to use only acceptable casings for retread tires in GSA contracts has not resulted in, nor is it expected to, have an economic impact on a substantial number of small entities. All of the retreaders that have tires on the QPL have bid to supply tires under the Federal Supply Schedule. The same number and category of bidders have continued to bid under the retread tire program since the requirement was established. To date, there have not been any requests from retread tire contractors for a waiver from the acceptable casing requirement.

G. Paperwork Reduction Act

This technical requirement does not contain information collection requirements that require the approval of OMB under the Paperwork Reduction Act of 1980 (44 U.S.C. 3501).

Dated: February 27, 1992.

Nicholas M. Economou,

Director, FSS Acquisition Management Center.

[FR Doc. 92-5304 Filed 3-6-92; 8:45 am]

BILLING CODE 6820-24-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Assistant Secretary for Management and Budget; Statement of Organization, Functions and Delegations of Authority

Part A, Office of the Secretary, Statement of Organization, Functions and Delegations of Authority for the Department of Health and Human Services is being amended as follows: Chapter AM, "HHS Management and Budget Office" as last amended at 55 FR 2879, 1/29/90, and Chapter AMN, Office of Finance, as last amended at 55 FR 5072-3, 2/13/90. These Chapter are being amended to reflect the functions of the Chief Financial Officer and Deputy Chief Financial Officer under the Chief Financial Officers Act of 1990; and that the authorities for this Act are vested with the Chief Financial Officer.

I. Make the following changes to Chapter AM

A. Section AM.00 Mission. Delete in its entirety and replace with the following:

AM.00 Mission. The mission of the HHS Management and Budget Office is to provide advice and guidance to the Secretary on administrative and financial management, excluding personnel management, and to provide for the direction and coordination of these activities throughout the Department on a day-to-day basis.

B. Section AM.10 Organization. Delete in its entirety and replace with the following:

AM.10 Organization. The HHS Management and Budget Office is headed by the Assistant Secretary for Management and Budget (ASMB) who is also the Departmental Chief Financial Officer (CFO). The ASMB/CFO reports to the Secretary. The office consist of the following organizations:

Immediate Office (AM)
Office of Management and Acquisition (AME)
Office of Budget (AML)
Office of Information Resources Management (AMM)
Office of Finance (AMN)

C. Section AM.20 Functions. Delete in its entirety and replace with the following: AM.20 Functions.

A. The immediate office of the Assistant Secretary for Management and Budget/Chief Financial Officer (AM) provides executive direction to ASMB components. The ASMB/CFO is the principal adviser to the Secretary on all aspects of administrative and financial management. By delegation from the Secretary, the ASMB/CFO exercises full Departmentwide authority of the Secretary in the assigned areas of responsiblity to include all responsiblities provided by the Chief Financial Officers Act of 1990. This includes the approval of the job descriptions and skill requirements, and the selection of OPDIV CFOs as well as participation with the OPDIV Head in the annual performance plan/evaluation of the OPDIV CFO. In addition, the ADMB/CFO provides Departmentwide policy guidance on the qualifications, recruitment, performance, training, and retention of all financial management personnel.

B. The Office of Management and Acquisition (AME) provides Departmentwide policy leadership and advises the ASMB/CFO and the Secretary on management issues related to reorganizations, delegations of authority, postal management, real property, space management and occupational safety and health: serves as Departmental Liaison with the General Services Administration on all policy related issues; administers reports clearance, records management, equal employment opportunity, telecommunications, and emergency preparedness programs for the Office of the Secretary; manages and operates the HHS fitness center; provides facilities management services to HHS components in the Southwest Washington, DC area complex which includes mail, property management, supplies, facilities maintenance, physical security, reprographics and other office services; serves as the Departmental Liaison with the Office of Management and Budget on all procurement policy related issues; provides Departmental leadership in the areas of procurement, discretionary grants, and logistics through policy development, oversight and training; manages the Department's Small and Disadvantaged Business Utilization Program, and awards and administers contracts in support of the Office of the Secretary.

C. The Office of Budget (AML) oversees the preparation of the Departmental budget estimates and forecasts resources required to support programs and activities of the Department; analyzes budgetary and financial management implications of new or proposed legislation, programs or activities; appraises program activities and operations in terms of policies, goals and objectives of the Department; operates HHS' integrated funding system; recommends and administers policies and procedures for allocation and control of employment ceilings; establishes and monitors audit management policy for the Department and prepares reports to Congress on audit management; and establishes and monitors the implementation of the quality improvement program in the Department. Through studies, analyses and other survey methods, assesses the management processes and structures of the Department to ensure cost-effective and efficient practices. With particular reference to the Office of the Secretary (OS), is responsible for the overall formulation, and execution of the OS budget; serves as the focal point for OS budget operations, providing assistance in the development of budget policy and management of positions and financial resources for the OS; and manages audit follow-up and resolves issues OS: and manages audit follow-up and resolves issues relating to audit management in the OS.

D. The Office of Information Resources Management advises the ASMB/CFO and the Secretary on issues and policies pertaining to the utilization of information resources and establishes the IRM control mechanisms and administers the Department's IRM strategic plan; guides and oversees the development of information systems and communications networks; approves the acquisition of major administrative and program systems and is responsible for their subsequent periodic review; develops strategies and frameworks for regional information systems; formulates and coordinates the Department's policies on the creation, processing, handling, storage, dissemination and disposition of information; guides and oversees the Department's printing management programs; provides and supports automated data processing and communications equipment and administrative application systems for the Office of the Secretary; and develops and supports Decision Support Systems for top-level Departmental managers.

E. The Office of Finance advises the Secretary on all aspects of financial activities across the Department and is headed by the Deputy Assistant Secretary, Finance who is also the Deputy Chief Financial Officer. Oversees, monitors and evaluates the design, development, operation and enhancement of Departmentwide and component accounting systems. Coordinates CFO activities and reports throughtout HHS including the preparation of audited financial statements and the preparation of the annual CFO report for submission to the ASMB/CFO. Also reviews biennially the fees, royalties, rents and services and things of value provided by the Department to assure that costs of these services are being properly recovered. In coordination with other ASMB components, participates in the clearance/approval process for program information systems that provide financial and or program performance data which are used in financial statements. Provides advice to the ASMB/CFO on approval of the job descriptions and skill requirements for OPDIV CFOs and on approval of the selection of OPDIV CFOs. Provides advice to the ASMB/CFO who participates with the OPDIV Head in the annual performance plan/evaluation of the OPDIV CFO. Provides advice to the ASMB/CFO on the qualifications, recruitment, performance, training, and retention of all financial management personnel. Serves as the Departmental liaison with GAO, OMB, Treasury and other Federal agencies on financial matters. Manages the Department's Federal Managers Financial Integrity Act Program. Maintains Departmental finance and accounting standards. Resolves monetary findings involving deficiencies in grantee/contractor accounting and management systems. Directs the regional review and negotiation of cost allocation plans and indirect cost rates. Formulates audit resolution policy, cost principles, and other policies for determining and reimbursing grantee/contractor organizations. Serves as Departmental liaison with OMB and other Federal agencies in these areas. In coordination with the Office of Budget, recommends and implements Departmental budget execution policies and procedures. Serves as the focal point dealing with OMB on these matters. In addition, manages the Departmentwide Payment Management System which pays all of the Department's grants and provides service to other Federal agencies and manages the day-to-day finance and accounting activities of the Office of the Secretary and other Departmental components as determined by the ASMB/CFO.

AMN.30 Delegations of Authority: Notice is hereby given that I have delegated to the Assistant Secretary for Management and Budget/Chief Financial Officer all of the authorities contained in the Chief Financial Officers Act of 1990, and as amended hereafter, except for the nomination of the HHS Chief Financial Officer.

II. Make the following changes to Chapter AMN

A. Section AMN.00 Mission. Delete in its entirety and replace with the following:

AMN.00 Mission. The Office of Finance provides guidance on budget execution, accounting systems, financial and accounting policy, cost and other finanical and accounting policy, cost and other financial management reporting, financial management activities, cash management, credit and debt management and travel management. The office is responsible for the coordination of CFO activities and reports throughout HHS, under the guidance of the ASMB/CFO and in conjunction with the CFO officials of the Operating Divisions. The office also oversees, monitors, and evaluates the design, development, implementation, operation and enhancement of Departmentwide and component accounting and financial management systems. This responsibility includes overseeing the preparation of audited financial statements and the preparation of the annual CFO Report.

The Office is also responsible for operating Departmental automated financial systems and for operating the accounting system and providing fiscal services to the Office of the Secretary and other components as mutually agreed by the ASMB/CFO and the OPDIV Head. The Office of Finance also manages the operation and approval of cost allocation plans and indirect cost rates; resolves cross-cutting audit findings; and formulates cost principles, grant and contract cost reimbursement policy. Reviews biennially the fees, royalties, rents, and other services and things of value provided by the Department. Develops and executes Departmentwide policies and procedures relating to implementation and management of internal controls under the Federal Managers' Financial Integrity Act. Serves as the adviser to the Assistant Secretary for Management and Budget/Chief Financial Officer in these areas.

B. Section AMN.10 Organization. Delete in its entirety and replace with the following:

AMN.10 Organization. The Office of Finance is headed by the Deputy Assistant Secretary, Finance who is also the Deputy Chief Financial Officer and reports to the Assistant Secretary for Management and Budget/Chief Financial Officer. The organization is composed of the following:

Immediate Office
Office of Financial Operations
Office of Financial Policy
Office of Financial Systems
Office of Grant and Contract Financial Management
Budget Execution Staff
Program Coordination Staff

C. Section AMN.20 Functions. Delete in its entirety and replace with the following:

AMN.20 Functions. The Office of Finance:

A. Develops and executes, in coordination with the Office of Budget, spending policies and procedures for continuing resolutions and appropriations.

B. Makes specific studies and appraisals of the financial aspects of program operations including systems designs and data requirements to ensure compliance with CFO objectives in area assigned by the Assistant Secretary for Management and Budget/Chief Financial Officer (ASMB/CFO).

C. Establishes and maintains a Departmental system of financial operating plans.

D. Establishes a financial management planning process for providing guidance and performance measurement indicators that enable the ASMB/CFO to evaluate the financial management programs and activities of the Operating Divisions.

E. Develops and manages a Departmentwide system for estimating and controlling outlays. Assists the Office of Budget in the presentation of budget outlay estimates to the Office of Management and Budget and the Congress.

F. Recommends and issues Departmentwide policies and procedures relating to fiscal, cost, travel, and accounting activities.

G. Recommends and executes policies and procedures relating to the expenditure and collection of funds administered by the Department.

H. Establishes uniform standards, policies, classifications and terminologies to be used throughout the Department in budget execution and financial and cost reporting.

I. Develops and maintains financial management data collection and reporting systems on programs, activities, and operations of the Department.

J. Oversees, monitors, and evaluates the design, development, implementation, operation and enhancement of Departmentwide and component accounting and financial management systems.

K. Ensures that financial systems provide for timely and accurate reporting of grantee and/or contractor costs and performance data.

L. In coordination with other ASMB components, participates in the clearance/approval process for program information systems that provide financial and/or program performance data which are used in financial statements.

M. Develops and executes policies and procedures relating to (1) implementation and management of internal controls and (2) evaluation of accounting and related systems for conformance with Comptroller General's principles and standards.

N. Develops and executes policies and procedures relating to cash management and financing of receipient organizations that receive funding from HHS.

O. Develops, coordinates and issues ADP policy related to the development, implementation, and maintenance of Departmentwide financial systems.

P. In its areas of responsibility represents the Department in its relationship with Office of Management and Budget, the General Accounting Office, the General Services Administration, Treasury and other Federal Agencies. Oversees Departmental implementation of central agency directives relating to budget execution, fiscal policy, accounting, internal controls, debt and credit management.

Q. Operates and maintains Departmentwide financial systems.

R. Provides fiscal, accounting and financial reporting services for the Office of the Secretary and other Departmental components as determined by the ASMB/CFO.

S. Directs the Department's management integrity (internal controls) program as required by the Federal Managers' Financial Integrity Act.

T. Formulates cost principles and other cost policies and procedures for determining and reimbursing the cost of grantee and contractor organizations applicable to HHS awards, including procedures necessary for indirect cost and similar cost negotiations. Also formulates Departmental policy for resolving audit findings on grantee/contractor organizations.

U. Provides direction and oversight of the cost allocation/indirect cost negotiations performed by the Department Regional Divisions of Cost Allocations including development of policies, standards and procedures.

V. Conducts cost allocation activities including the review, negotiations and approval of indirect cost rates and cost allocation plans for grantees and contractors located in the United States as specified in paragraph 4D of the functional statement for the Office of Grant and Contract Financial Management.

W. Resolves monetary audit findings involving deficiencies in grantee/contractor accounting and management systems which affect awards made by more than one HHS Operating Division or Federal agency.

X. Evaluates ADP facilities operated by State and Local units of government, colleges and universities and other grantee/contractor organizations to determine whether charges for ADP services to Federal programs are reasonable, equitable and allowable under Federal cost principles.

Y. Provides advice to the ASMB/CFO on the approval of the job descriptions and skill requirements for OPDIV CFOs and on the approval of the selection of OPDIV CFOs. Provides advice to the ASMB/CFO who participates with the OPDIV Head in the annual performance plan/evaluation of the OPDIV CFO.

Z. Provides advice to the ASMB/CFO on the qualifications, recruitment, performance, training, and retention of all financial management personnel.

AA. Prepares the annual HHS report on CFO activities as guided by the ASMB/CFO.

1. Office of Financial Operations. The office is composed of the following:

A. Division of Accounting Operations

a. Develops and maintains the accounting manual for the Office of the Secretary in conformance with the Departmental Accounting Manual.

b. Maintains the official accounting records and documents for the Office of the Secretary and other Departmental components as determined by the Assistant Secretary for Management and Budget.

c. Operates the computerized accounting system including responsibility for the automatic data processing (ADP) support and maintenance of the system which provides for the computerized obligation records and accounts and financial and cost reports of the activities of the Office of the Secretary and other Departmental components as determined by the Assistant Secretary for Management and Budget.

d. Establishes and maintains financial controls over cash, accounts receivable, property and other assets.

e. Examines and pays vendors' invoices, transportation and other bills.

f. Examines and pays travel vouchers for employees.

g. Provides cashier services, including the issuance of Third Party Drafts.

h. Provides billing services for reimbursable activities (other than the Departmental Working Capital fund).

B. Division of Federal Assistance Financing

a. Operates and provides the automatic data processing (ADP) support and maintenance of the Departmental Payment System (PMS).

b. Assures timely payment to grantees and contractors and prescribes requirements for grantee and contractor reporting of expenditures and accountability of Federal cash received.

C. Division of Financial Systems Operations

a. Operates and provides the automatic data processing (ADP) and maintenance of the Regional Accounting System (RAS) and ensures the proper exchange of data with other automated systems; provides technical assistance to regional personnel for operating the system.

b. Provides financial oversight and direction to the Regional Finance Offices related to their accounting and fiscal activities.

c. Operates and provides the automatic data processing (ADP) support and maintenance of a system for tracking and reporting awards and other obligations to meet the needs of the Financial Assistance Awards Data System (FAADS) reports and for preparing other geographic-based domestic assistance reports.

d. Develops policies and procedures and operates and provides the automatic data processing (ADP) support and maintenance of the Central Registry System (CRS) used throughout the Department in other data systems as a source of recipient identity, address and related information.

2. Office of Financial Policy. The Office of Financial Policy is composed of the following:

A. Division of Financial Management Policy (DFMP)

The Division of Financial Management Policy (DFMP) functions as one of two major components within the Office of Financial Policy, Office of Finance and is responsible for all Departmentwide policies, procedures and standards relating to cash management, credit management, debt management, payment management including disbursement activities and functions and entitlement grants. The Division has the following responsibilities:

a. Develops Departmentwide policies, procedures, and standards for financial management areas including cash management, credit management, debt management, travel management, payment and disbursement activities and functions, and entitlement grants and promulgates these and related Governmentwide financial management requirements through the Departmental Staff Manual System.

b. Provides advice and assistance to OPDIVs and STAFFDIVs on financial management areas.

c. Services as principal staff advisers to the Office of Finance on financial management matters.

d. Reviews and drafts Departmental reports on Congressional bills affecting financial management of the Department's programs.

e. Maintains liaison with the Office of Management and Budget (OMB), the Treasury Department, the General Accounting Office (GAO), the General Services Administration (GSA) and other agencies on all financial management matters including grant entitlement policy.

f. Recommends policy and maintains a system for tracking and improving cash and credit management and debt collection performance throughout the Department.

g. Develops and maintains travel and voucher examination policies, payment and disbursing policies and procedures for Departmentwide applications and publishes them through the Departmental Staff Manual System.

h. Performs studies and analyses in any of these subjects singularly or with outside organizations. Maintains continuous contact with GAO, OMB, Treasury, CSA or other agencies.

i. Establishes a financial management planning process for providing guidance and financial management indicators that enable the ASMB/CFO to evaluate the financial management programs and activities of the Department.

j. Makes specific studies and appraisals of the financial aspects of program operations to ensure compliance with CFO objectives in areas assigned by the Deputy CFO.

B. Division of Accounting and Fiscal Policy (DAFP)

The Division of Accounting and Fiscal Policy (DAFP) functions as one of two major components within the Office of

Financial Policy, Office of Finance and is responsible for matters relating to accounting policy, fiscal policy, financial statements presentation, publications, legislative and other special initiatives. The Division has the following responsibilities:

a. Develops policies, procedures and standards for Departmentwide accounting and fiscal areas including legislative or special accounting initiatives such as the Standard General Ledger (SGL) and promulgates these policies, procedures and standards as well as other Governmentwide accounting and fiscal procedures through the Departmental Staff Manual System and maintains appropriate reference material.

b. Provides advice and assistance to OPDIVs and STAFFDIVs on accounting and related fiscal matters.

c. Serves as principal advisers to the Office of Finance on accounting and related fiscal matters.

d. Reviews and drafts Departmental reports on Congressional bills affecting accounting and fiscal matters.

e. Maintains liaison with the Office of Management and Budget (OMB), the General Accounting Office (GAO), Treasury Department and other agencies on matters involving accounting and related fiscal matters.

f. Develops and maintains financial statements presentation policies, procedures and standards for Departmentwide applications and oversees the preparation of audited financial statements.

g. Performs studies and analyses in any of these or related subjects singularly or with outside organizations. Maintains continuous contact with OMB, GAO, Treasury, GSA or other agencies.

h. Makes specific studies and appraisals of the financial aspects of program operations to ensure compliance with CFO objectives in areas assigned by the Deputy CFO.

i. Prepares the annual HHS report on CFO activities as guided by the DASF/Deputy CFO.

3. Office of Financial Systems. Provides leadership and coordination in the development of HHS financial systems. Responsible for the establishment of Departmentwide standard financial definitions and data structures. Responsible for the administration of a data integrity and quality control program to ensure compliance with Federal Directives, Departmental financial systems policy and automated financial data exchange requirements. Also provides advice on financial systems and serves as the focal point with Federal control agencies on financial systems matters.

The office consists of the following:

A. Division of Financial Systems Integrity

a. Oversees, monitors, evaluates and recommends approval for the design, development, implementation, operation and enhancement of Departmentwide and component accounting and financial management systems.

b. Establishes and maintains a Departmentwide quality assurance program that ensures the auditability of financial and performance data and functions as a data administrator for financial systems.

c. Develops and issues policies and procedures relating to the evaluation of accounting and related systems for conformance with Comptroller General principles and standards under Section 4 of the Federal Managers' Financial Integrity Act and with related systems review guidelines of the Office of Management and Budget, the Treasury Department and the General Accounting Office.

d. Develops financial systems requirements and policy regarding data structure and interface techniques necessary to communicate between HHS financial systems and with Departmental systems.

e. Makes specific studies and appraisals of the financial aspects of program operations including systems designs and data requirements to ensure compliance with CFO objectives in areas assigned by the Deputy CFO.

f. Serves as principal staff adviser to the Office of Finance on all financial systems related matters.

g. Maintain liaison with the Office of Management and Budget, the Treasury Department, the General Accounting Office and other agencies on matters involving financial systems.

B. Division of Financial Systems Design and Analysis

a. Provides ADP expertise and guidance to the Office of Finance.

b. Performs systems analysis and design in the development of the Office of Finance financial systems to include systems interfaces, distributed processing requirements and reporting capabilities.

c. Participates in the evaluation and selection of vendors and equipment. Serves as the project officer and monitors performance of vendors supplying software to the Office of Finance.

d. Provides technical assistance in the development of hardware, software, telecommunications and ADP service acquisitions for Office of Finance systems. This assistance includes the areas such as cost benefit analyses, requirements statements and performance criteria.

e. Utilizes the financial systems quality assurance program to review and analyze on-going Departmental operations (including the Office of Finance) for compliance with directives and to determine possible problem areas and resolutions thereto.

f. Makes specific studies and appraisals of the financial aspects of program operations including systems designs and data requirements to ensure compliance with CFO objectives in areas assigned by the Deputy CFO.

4. Office of Grant and Contract Financial Management.

a. Resolves audit findings on grantee/contractor organizations which affect the programs of more than one Operating Division or Federal Department or Agency. Makes recommendations to the Secretary, the ASMB/CFO and other officials on safeguards or other actions against grantee/contractor organizations when necessary to protect the interests of the Department.

b. Exercises functional management responsibilities over indirect cost and cost allocation negotiations performed by the Department's Regional Divisions of Cost Allocation.

c. Formulates cost principles and other cost policies and procedures for determining and reimbursing the costs of grantee/contractor organizations including procedures necessary for indirect cost negotiations.

d. Formulates HHS cost policy on the resolution of audit findings on grantee/contractor organizations.

e. Reviews ADP facilities operated by States and Local governments, universities and other grantee/contractor organizations to determine whether charges for ADP services to Federal programs are reasonable, equitable, and allowable under Federal cost principles.

f. Develops and presents training programs for Departmental staff and grantee/contractor organizations on audit resolution, cost principles, indirect costs and other areas related to the financial management of grants and contracts.

g. Provides technical assistance to the OPDIVs, grantee/contractor organizations, and other Federal Agencies on the financial management of grants and contracts.

h. Conducts cost allocation activities, including the review, negotiation, and approval of indirect cost rates and cost allocation plans for grantees and contractors located in the States specified in paragraph 4D of this functional statement.

i. Reviews on a biennial basis, the fees, royalties, rents, and other charges imposed by the Department for services and things of value, and make recommendations on revising these charges to reflect costs incurred in providing these services and things of value.

The office is composed of the following:

A. Division of Audit Resolution

a. Reviews audit reports containing monetary findings or findings involving deficiencies in the management systems of grantee/contractor organizations which affect the programs of more than one OPDIV or Federal Agency; and conducts or arranges for additional reviews or acquires additional information to the extent necessary to determine the actions required to resolve the findings and correct the deficiencies.

b. Coordinates where necessary with other affected Federal Agencies to establish a uniform Federal position on the actions needed to be taken to resolve the findings and correct the deficiencies.

c. Negotiates and determines the settlement of the findings and the actions needed to correct the deficiencies with grantee and contractor organizations. As designated by OMB performs these functions on behalf of all Federal Departments and Agencies.

d. As necessary, makes recommendations to the Secretary and other officials on safeguards or other actions against a grantee or contractor to protect the Department's interests where the organization is unwilling to correct serious deficiencies in a timely manner or fails to comply with previous agreements on corrective actions.

e. Provides and arranges for technical assistance to grantees and contractors on the correction of deficiencies and on other matters related to the financial management of grants and contracts.

f. Upon request reviews and approves accounting or other systems developed by grantees and contractors to comply with Federal cost principles and policies.

g. Provides technical assistance to OPDIV audit resolution staffs on the resolution of audit reports assigned to them and on other matters related to the financial management of grants and contracts.

h. Develops and presents training programs for Department staff and grantee/contractor organizations on audit resolution, cost principles and other areas related to the financial management of grant and contract activity.

B. Division of ADP Review

a. Evaluates a wide range of sophisticated ADP facilities operated by State and Local governments, colleges and universities, and other types of grantee/contractor organizations to determine whether charges for ADP services to Federal programs are reasonable, equitable and allowable under Federal cost principles. These reviews cover the propriety of cost accounting methods and billing algorithms, operational efficiency, hardware configurations and need, software, hardware and software compatibility, internal controls, etc.

b. Recommends and participates in the negotiation of ADP cost recoveries and charges to costing/billing methods and internal controls where reviews disclose unreasonable, inequitable or unallowable charges to Federal programs. Recommends modifications to grantee and contractor ADP systems to improve operational efficiency based on state-of-the art and advances in techniques.

c. Develops guidelines and analysis techniques for the Department's regional Divisions of Cost Allocation (DCAs) in their evaluation of grantee/contractor ADP costs and costing/billing methods. Provides technical assistance and training to DCAs in ADP operations and techniques.

d. Develops and assists in the implementation of ADP systems and techniques in support of DCA and OGCFM operations.

e. Provides technical assistance to grantee or contractor organizations in analyzing and improving their ADP costing/billing systems.

f. Identifies common ADP costing/billing from a national perspective; and recommends and participates in the development of policies, guidelines, model systems, etc., to overcome those problems and promote improvements in ADP costing/billing systems.

c. Division of Cost Determination Management

a. Exercises functional management responsibilities over indirect cost and cost allocation negotiations performed by the Department's regional Divisions of Cost Allocation (DCAs).

(1) Acts as principal Headquarters contact in day-to-day activities of the DCAs; provides management oversight of function; and resolves problems relating to individual negotiations or organizational conflicts between the DCAs and the OIG, the OPDIV or other Federal agencies.

(2) Provides direction in development of DCA budget and staffing needs and performance requirements.

(3) Provides technical assistance and guidance to the DCAs in negotiating cost allocation plans, indirect cost rates, and other special rates with State and Local governments, universities and other grantee/contractor organizations.

(4) Conducts on-sight reviews of DCA activities to ensure that proposal evaluations are performed effectively and in compliance with Governmentwide policies; and monitors the correction of deficiencies disclosed by the reviews.

(5) Evaluates tentative DCA determinations on issues which may be appealed by grantees or contractors; and provides guidance on whether and how the issues should be pursued prior to the DCA's final determination.

(6) Reviews negotiation agreements on cost allocation plans, indirect cost rates and other rates for completeness, understandability and conformance with Department policies and distributes them to users.

(7) Provides direction to DCAs in the preparation of their work plans; establishes workload and other management reporting systems; and receives and analyzes management reports.

(8) Performs analyses of the results of indirect cost negotiations to identify trends and problems areas and to direct review and negotiation efforts to areas of greatest need.

b. Formulates cost principles and Departmentwide cost policies affecting grand and contract programs and Departmentwide policies on the resolution of audit findings on grantee/contractor organizations.

c. Serves as the Department liaison and maintains working relationships with OMB and other Federal agencies in the development of Governmentwide cost principles and audit resolution policies; and maintains similar relationships with associations of States, universities and other grantee/contractor organizations.

d. Develops and presents training programs for Department staff and grantee/contractor organizations on indirect costs, cost allocation and negotiation, audit resolution and other areas related to the financial management of grant and contract activities.

e. Provides technical assistance to the OPDIVs, grantee or contractor organizations and other Federal

agencies on the financial management of grant and contract activities.

f. Reviews on a biennial basis, the fees, royalties, rents and other charges imposed by the Department for services and things of value and makes recommendations on revising these charges to reflect costs incurred in providing these services and things of value.

D. Division of Cost Allocation and Liaison

a. Serves as the liaison between regional cost allocation staff and Federal agencies in the Washington, DC, area on operational matters involving the review and negotiation of indirect cost rates and cost allocation plans. Reviews, negotiates, and approves indirect cost rates, State and Local government cost allocation plans, research plans, research patient care rates and amounts, fringe benefit rates and other special rates for grantees and contractors located in the District of Columbia and the following States: Alabama, Delaware, Florida, Georgia, Kentucky, Maryland, Mississippi, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, and West Virginia.

b. Resolves audit findings on cost allocation plans, indirect cost rates, etc., for grantees and contractors under the Division's cognizance. Also provides technical assistance on cost allocation matters in these guidelines to these grantees and contractors.

c. Carries out the functions described in paragraphs a and b on behalf of all Federal agencies when HHS is designated the cognizant agency by OMB.

5. Budget Execution staff. a. Establishes and maintains a Departmental budget execution system based on uniform standards, classification, and procedures, so as to apply resources consistent with Departmental policy and budget. Resolves questions regarding financial issues and proper authority and application of funds.

b. Establishes and maintains a Departmentwide system of outlay estimates in support of formulation and execution of the budget, including a tracking process for identifying variances and preparing reports.

c. In cooperation with the Office of Budget and other staff offices recommends policy for activities and services to continue in the absence of appropriations and for continuing Departmental operations during periods of Continuing Resolutions (CRs).

d. Reviews agency Treasury warrant requests and apportionment requests and develops recommendations in cooperation with the Office of the Budget before submission to the Treasury Department and the Office of Management and Budget.

e. Maintains the Catalog of Federal Domestic Assistance and develops State tables of projected obligations for selected programs.

6. Program Coordination Staff. a. Develops and executes Departmentwide policies and procedures relating to implementation and management of internal controls under the Federal Managers' Financial Integrity Act (FMFIA). Also exercises Departmentwide operational and oversight responsibility for Departmentwide internal control activities for Section 2. Represents the Department in governmentwide activities related to FMFIA.

b. Supervises the administrative office for the Office of Finance, providing personnel, budget, management and general administrative functions.

c. Represents the Deputy Assistant Secretary, Finance/Deputy CFO as alternate on boards and committees. This includes the Chief Financial Officers' Council, the Joint Financial Program Steering Committee and the Federal Financial Managers' Council.

d. Directs or coordinates special projects or initiatives which cut across activities or programs within the Office of Finance, the Department or governmentwide initiatives.

Dated: February 27, 1992.

Louis W. Sullivan,

Secretary.

BILLING CODE 4150-04-M

Food and Drug Administration

[Docket No. 92N-0110]

Drug Export: Neupogen® Recombinant Methionyl Human Granulocyte Colony Stimulating Factor (R-Methug-CSF)

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that Amgen Inc., has filed an application requesting approval for the export of the biological product NEUPOGEN® Recombinant Methionyl Human Granulocyte Colony Stimulating Factor (r-metHuG-CSF) to Australia.

ADDRESSES: Relevant information on this application may be directed to the Dockets Management Branch (HFA-305), Food and Drug Administration, rm. 1-23, 12420 Parklawn Dr., Rockville, MD 20857, and to the contact person identfied below. Any future inquiries concerning the export of human biological products under the Drug Export Amendments Act of 1986 should also be direced to the contact person.

FOR FURTHER INFORMATION CONTACT: Boyd Fogle, Jr., Center for Biologics Evaluation and Research (HFB-120), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-295-8191.

SUPPLEMENTARY INFORMATION: The Drug Export Amendments Act of 1986 (Pub. L. 99-660) (section 802 of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 382)) provides that FDA may approve applications for the export of biological products that are not currently approved in the United States. Section 820(b)(3)(B) of the act sets forth the requirements that must be met in an application for approval. Section 820(b)(3)(C) of the act requires that the agency review the application within 30 days of its filing to determine whether the requirements of section 820(b)(3)(B) have been satisfied. Section 820(b)(3)(A) of the act requires that the agency publish a notice in the **Federal Register** within 10 days of the filing of an application for export to facilitate public participation in its review of the application. To meet this requirement, the agency is providing notice that Amegen Inc., Amegen Center, 1840 Dehavilland Dr., Thousand Oaks, CA 91320, has filed an application requesting approval for the export of the bilogical product NEUPOGEN® Recombinant Methionyl Human Granulocyte Colony Stimulating Actor (r-metHuG-CSF) to Australia. NEUPOGEN® Recombinant Methionyl Human Granulocyte Colony Stimulating Actor (r-metHuG-CSF) is indicated to decrease the incidence of infection, as manifested by febrile neutropenia, in patients with non-myeloid malignancies receiving myelosuppressive anti-cancer drugs in doses not usually requiring bone marrow transplantation. The application was received and filed in the Center for Biologics Evaluation and Research on February 19, 1992, which shall be considered the filing date for purposes of the act.

Interested persons may submit relevant information on the application to the Dockets Management Branch (address above) in two copies (except that individuals may submit single copies) and identified with the docket number found in brackets in the heading of this document. These submissions may be seen in the Dockets

Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

The agency encourages any person who submits relevant information on the application to do so by March 19, 1992, and to provide an additional copy of the submission directly to the contact person identified above, to facilitate consideration of the information during the 30-day review period.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (sec. 802 (21 U.S.C. 382)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Center for Biologics Evaluation and Research (21 CFR 5.44).

Dated: February 27, 1992.

Thomas S. Bozzo,

Director, Office of Compliance, Center for Biologics Evaluation and Research.

BILLING CODE 4160-01-M

Indian Health Service

Tribal Demonstration Projects for Diabetes Services for American Indians/Alaska Natives

AGENCY: Indian Health Service, HHS.

ACTION: Notice of competitive grant applications for tribal demonstration projects for diabetes services for American Indians/Alaska Natives.

SUMMARY: The Indian Health Service (IHS) announces that competitive grant applications are now being accepted for Tribal Demonstration Projects for Diabetes Services for American Indians/Alaska Natives established under the authority of section 103(b)(1), Indian Self-Determination and Education Assistance Act. Public Law 93-638, as amended by Public Law 100-472, 25 U.S.C. 450h(b)(1). There will be only one funding cycle during Fiscal Year (FY) 1992. Grants shall be administered in accordance with 42 CFR part 36, subpart H, and applicable OMB Circulars and DHHS policies. This program is within the Catalog of Federal Domestic Assistance Number 93.228. Executive Order 12372 requiring intergovernmental review is not applicable to this program.

The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of Healthy People 2000, a PHS-led activity for setting priority areas. This program announcement is related to the priority area of Diabetes. Potential applicants may obtain a copy of Healthy People 2000 (Full Report; Stock No. 017-001-00474-0) or Healthy People 2000 (Summary Report; Stock No. 017-001-00473-1) through the Superintendent of Documents, Government Printing Office, Washington, DC 20402-9325, (Telephone 202-783-3238).

DATE: An original and two (2) copies of the completed grant application must be submitted, with all required documentation, to the Grants Management Branch, Division of Acquisitions and Grants Operations, Twinbrook Metro Plaza-Suite 605, 12300 Twinbrook Pkwy., Rockville, MD 20852, by c.o.b. April 10, 1992.

Applications shall be considered as meeting the deadline if they are either: (1) Received on or before the deadline with hand carried applications received by c.o.b. 5 p.m.; or (2) postmarked on or before the deadline date and received in time to be reviewed along with all other timely applications. A legibly dated receipt from a commercial carrier or the U.S. Postal Service will be accepted as proof of timely mailing. Private metered postmarks will not be accepted as proof of timely mailing.

Applications received after the announced closing date will be returned to the applicant and will not be considered for funding.

ADDITIONAL DATES: A. Application Receipt Date: April 10, 1992.

B. Application Review: May 5-7, 1992.

C. Applicants Notified of Results (approved, approved unfunded, or disapproved): June 1, 1992.

D. Anticipated Start Date: July 1, 1992.

FOR FURTHER INFORMATION CONTACT: For program information, contact William Mitchell, Operations Officer, Indian Health Service Diabetes Program, 2401 12th Street NW., room 211N, Albuquerque, New Mexico 87102, (505) 766-3980.

For grants information, contact M. Kay Carpentier, Grants Management Officer, Grants Management Branch, Division of Acquisitions and Grants Operations, Indian Health Service, Twinbrook Metro Plaza-Suite 605, 12300 Twinbrook Pkwy., Rockville, MD 20852, (301) 443-5204. (The telephone numbers are not toll-free numberrs.)

SUPPLEMENTARY INFORMATION: This announcement provides information on the general program goal, eligibility requirements, programmatic activities, funding availability, and application procedures.

General Program Goal

The goal of this project is to develop or enhance public health efforts to meet Healthy People 2000 objectives directly related to diabetes as it affects American Indians and Alaska Natives.

Eligibility Requirements

Any federally recognized Indian tribe of Indian tribal organization is eligible to apply for a demonstration grant from the IHS under this announcement.

Programmatic Activities

A grant awarded under this announcement shall support a program which develops or enhances progress toward reducing the diabetes related morbidity and mortality afflicting American Indians/Alaska Natives. Efforts may include, but not be limited to: (1) Improving surveillance; (2) assessing/improving diabetes patient education; (3) developing plans or strategies to mobilize the Tribal community and target persons at high risk for amputations, blindness or kidney disease; (4) providing professional education and training to improve care and education available for persons with diabetes; and (5) improving the screening, referral and treatment process for prevention efforts.

Fund Availability and Period of Support

In FY 1992, it is anticipated that $100,000 will be available to support 8-10 projects at approximately $10,000-$15,000 each. Projects will be funded for one year. The anticipated start date will be June 15, 1992.

Application Process

An IHS Grant Application Kit, including form PHS 5161-1 (rev. 3/89), may be obtained from the Grants Management Branch, Division of Acquisitions and Grants Operations, Twinbrook Metro Plaza-Suite 605, 12300 Twinbrook Pkwy., Rockville, MD 20852, telephone (301) 443-5204.

A. Narrative

The narrative section of the application must include the following: 1) Need for assistance, 2) approach, 3) adequacy of management controls and 4) key personnel. The work plan section should be project specific. These instructions for the preparation of the narrative are to be used in lieu of the instructions on page 15-16 of the PHS 5161-1. The narrative section should be written in a manner that is clear to outside reviewers unfamiliar with prior related activities of the applicant. It should be well organized, succinct, and contain all information necessary for reviewers to understand the project fully. *The narrative may not exceed five single spaced pages in length, excluding attachments, budget, and letters of support resolution.*

1. Need for Assistance

(a) Describe and define the target population at the project location.

(b) Describe the existing resources and services available related to the specific service the applicant is proposing to provide.

(c) Describe in detail the needs of the target population and what efforts have been made in the past to meet these needs, if any.

(d) Summarize the applicable State, IHS, and/or national standards and describe the unmet needs of the applicant's current program in relation to applicable State, IHS, and/or national standards.

2. Approach

(a) Program Objectives

1. State concisely the objectives of the project.

2. Describe briefly what the project intends to accomplish.

3. Describe how accomplishment of the objectives will be measured.

(b) Work Plan

1. Describe the tasks and resources needed to implement and complete this project.

2. Provide a task timeline (milestones) breakdown or chart.

3. Discuss data collection for the project, how it will be obtained, analyzed, and maintained by the project.

4. Describe how the project will be evaluated.

5. Identify who will conduct the evaluation of the projected deliverable/outcomes.

3. Adequacy of Management Controls

(a) Describe where the project will be housed, i.e. facilities and equipment available.

(b) Describe the management control of the grantee over the directions and acceptability of work to be performed.

(c) Applicant must demonstrate that the organization has adequate systems and expertise to manage Federal funds.

4. Key Personnel

(a) Provide a biographical sketch and position description for the program director and other key personnel as described on page 17 of PHS 5161-1.

(b) Provide an organizational chart and indicate how the project will operate within the organization.

(c) List the qualifications and experience of consultants or contractors where their use is anticipated.

B. Budget

An itemized estimate of costs and justification for the proposed program by line item must be provided on form PHS-5161-1 (effective date 3/89. A narrative justification must be submitted for costs. Indicate needs by listing individual items and quantities necessary. Grant funding may not be used to supplant existing public and private resources.

C. Documentation of Support

1. Tribal Resolutions

A resolution of the Indian tribe or Indian tribal organization supporting the project must accompany the application submission. Applications which propose services which will benefit more than one Indian tribe must include resolutions from all Tribes to be served. Applications by tribal organizations will not require tribal resolution(s) if the tribal resolution(s) under which they operate would encompass the application for the grant. A statement of such must accompany the application.

2. Letters of the Cooperation/Collaboration/Assistance

If other related human service programs are to be involved in the project, letters confirming the nature and extent of their cooperation/collaboration/Assistance must be submitted. Letters should be specific.

D. Assurances

The application shall contain assurances to the Secretary that the applicant will comply with program regulations, 42 CFR 36, subpart H.

Review Process

Applications that meet eligibility requirements, are complete, and conform to this program announcement will be reviewed by a centralized Objective Review Committee (ORC) conducted at the IHS Headquarters and in accordance with IHS objective review procedures. The ORC will be comprised of not more than 40% IHS staff and at least 60% non-IHS staff (to include tribal) with appropriate expertise. The ORC will review each application against established criteria. Based upon the evaluation criteria, the reviewers will assign a numerical score to each application.

In making the final funding decision the IHS will also consider recommendations of the IHS Area Office within which the applicant organization is located.

Evaluation Criteria

Applications will be evaluated against the following criteria and weights:

Weights

30—1. Need—The demonstration of identified problems and risks in the target population. Extent of community involvement and commitment.

40—2. Approach—The soundness and effectiveness of the applicant's plan for conducting the project, with special emphasis on the objectives and methodology portion of the application.

15—3. Adequacy of Management Controls—The apparent capability of the applicant to successfully conduct the project including both technical and business aspects. The soundness of the applicant's budget in relation to the project work plan and for assuring effective utilization of grant funds. Adequacy of facilities and equipment available within the organization or proposed for purchase under the project.

15—4. Key Personnel—Qualifications and adequacy of the staff.

100 Total Weight

Reporting Requirements

A. Progress Report

Program progress reports will be submitted quarterly with a final report due 90 days after the end of the project period.

B. Financial Status Report

Financial status reports will be submitted quarterly with a final financial status report due 90 days after the end of the project period. Standard Form 269 will be used for financial reporting.

Grant Administration Requirements

Grants are administered in accordance with the following documents:

A. 45 CFR part 92, Department of Health and Human Services, Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments, or 45 CFR part 74, Administration of Grants to Non-profit recipients.

B. Public Health Service Grants Policy Statement, and

C. Appropriate Cost Principles: OMB Circular A-87, State and Local Governments, or OMB Circular A-122, Nonprofit Organizations.

Dated: January 13, 1992.

Everett R. Rhoades,

Assistant Surgeon General, Director.

[FR Doc. 92-5376 Filed 3-6-92; 8:45 am]

BILLING CODE 4160-16-M

Tribal Management Program for American Indians/Alaska Natives; Grants Application Announcement

AGENCY: Indian Health Service, HHS.

ACTION: Notice of competitive grant applications for Tribal Management Grants for American Indians/Alaska Natives.

SUMMARY: The Indian Health Service (IHS) announces that competitive grant applications are now being accepted for Tribal Management Grants for American Indians/Alaska Natives. These grants are established under the authority of section 103(b)(2) of the Indian Self-Determination and Education Assistance Act, Public Law 93-638, as amended by Public Law 100-472, 25 U.S.C. 450h(b)(2). There will be only one funding cycle during fiscal year (FY) 1992. This program is described at 93.228 in the Catalog of Federal Domestic Assistance. These grants will be awarded and administered in accordance with this announcement; Department of Health and Human Services regulations governing Public Law 93-638 grants at 42 CFR 36.101 et seq. and 45 CFR part 92, Department of Health and Human Services, Uniform Administration Requirements for Grants and Cooperative Agreements to State and Local Government, or 45 CFR part 74, Administration of Grants to Non-profit recipients; the Public Health Service Grant Policy Statement; and applicable Office of Management and Budget Circulars. Executive Order 12372 requiring intergovernmental review is not applicable to this program. Public Health Service urges applicants submitting feasibility studies or health plans to address specific objectives of Healthy People 2000. Such interested applicants may obtain a copy of Healthy People 2000 (Summary Report; Stock No. 017-001-00473-1) through the Superintendent of Documents, Government Printing Office, Washington, DC 20402-9325 (Telephone 202-783-3238).

DATES: A. *Application Receipt Date.* An original and two (2) copies of the completed grant application must be submitted with all required documentation to the Grants Management Branch, Division of Acquisition and Grants Operations, Twinbrook Building, suite 605, 12300 Twinbrook Parkway, Rockville, Maryland 20852, by close of business April 20, 1992.

Applications shall be considered as meeting the deadline if they are either: (1) Received on or before the deadline with hand carried applications received by close of business 5 p.m. or (2) postmarked on or before the deadline and received in time to be reviewed along with all other timely applications. A legibly dated receipt from a commercial carrier or the U.S. Postal Service will be accepted in lieu of a postmark. Private metered postmarks will not be accepted as proof of timely mailing.

Late applications not accepted for processing will be returned to the applicant and will not be considered for funding.

B. *Additional Dates:*

1. Application Review: May 18, 1992.
2. Applicants Notified of Results: June 18, 1992 (approved, recommended for approval but not funded, or disapproved).
3. Anticipated Start Date: September 1, 1992.

CONTACTS FOR ASSISTANCE: For Tribal Management grant program information, contact Ms. Bea Bowman, Division of Community Services, Indian Health Service, Parklawn Building, room 6A-05, 5600 Fishers Lane, Rockville, Maryland 20857, (301) 443-6840. For grants information, contact Mrs. Kay Carpentier, Grants Management Branch, Indian Health Service, Twinbrook Building, suite 605, 12300 Twinbrook Parkway, Rockville, Maryland 20852, (301) 443-5204. (The telephone numbers are not toll-free.)

SUPPLEMENTARY INFORMATION:

This announcement provides information on the general program purpose, eligibility, programmatic priorities, project types, fund availability, required affiliation, period of support and application procedures for FY 1992.

A. General Program Purpose

To improve the management capacity of a tribal organization to enter into a contract under Public Law 93-638. Tribal management grants assist tribal organizations in assuming operation of all or part of an existing IHS direct operation health care program by enabling them to develop and maintain their management capabilities. Tribal Management grants are also available for tribal organizations under the authority of Public Law 93-638 section 103(e) for obtaining technical assistance from providers designated by the tribal organization, including tribal organizations that operate mature contracts, for the purposes of (1) program planning and evaluation, including the development of any management systems necessary for contract management, and the development of cost allocation plans for indirect cost rates, and (2) the planning, designing, monitoring, and evaluation of Federal health programs serving the tribe, including Federal administrative functions. Tribal management grants may not be used to support operational programs, or to supplant existing public and private resources. The grants may, however, be used as matching shares for other Federal grant programs that develop tribal capabilities to contract for the administration and operation of health programs.

B. Eligible Applicants

Any federally recognized Indian tribe or Indian tribal organization is eligible to apply for a grant. Applicants include tribal organizations that operate mature contracts who are designated by a tribe or tribes to provide technical assistance and/or training. Only one tribal management grant will be awarded and funded to a tribe or tribal organization per funding cycle.

C. Program Priorities

In accordance with Office of Management and Budget Circular A-102, Grants and Cooperative Agreements for State and Local Governments, a comment period on proposed funding priorities was provided during the 1991 grant cycle. No written comments were received; 56 FR 27624 No. 114 dated June 13, 1991, provided notice of final funding priorities for competitive grant applications for Tribal Management grants under this program. They are as follows.

Priority I

An Indian tribe that has received Federal recognition (new, restored, unterminated, funded or unfunded) within the past three (3) years and is in the process of establishing health care services. (Verification of documents is required, i.e.: Letter of Acknowledgment, **Federal Register** notice. See Section I, Required Affiliation).

Priority II

An Indian tribe or Indian tribal organization stating an interest in contracting IHS health programs for the first time. The feasibility study will address requirements for assumption of currently operated IHS health programs.

Priority III

An Indian tribe or Indian tribal organization planning to develop/update their health plan, develop tribal health management structure, human resource development, and evaluation studies to expand their operation of health programs.

Priority IV

An Indian tribe or Indian tribal organization currently operating all health programs previously provided by IHS.

D. Project Types

The tribal management grant program consists of five (5) types of projects: (1) Feasibility, (2) planning, (3) development of tribal health management structure, (4) human resources development, and (5) evaluation.

Projects related to water, sanitation, waste management; and long term care; tuition, fees, stipends for certification and training of staff providing direct services; and design and planning of construction for facilities will not be considered eligible for review. Projects for training and technical assistance related to the Indian Self-Determination and Education Assistance Act, Public Law 93–638, as amended by Public Law 100–472, will not be considered for funding. Inclusion of these activities in a proposed project shall render the application ineligible and will be returned to the applicant.

Project Types Descriptions

1. Feasibility Study

A study of a specific IHS program or segment of a program to determine if tribal management of the program is possible. This study shall indicate necessary plans, approach, training and resources required to assume tribal management of the program. The study shall include, at minimum, four (4) major components:

—Health needs and health care services assessments, which identify existing health care services and delivery system, program divisibility issues, health status indicators, unmet needs, volume projections, and demand analysis.
—Management analysis of existing management structure, proposed management structure, implementation plans and requirements; and personnel staffing requirements and recruitment barriers.
—Financial analysis of historical trends data, financial projections and new resource requirements for program and management costs, and analysis of potential revenues from Federal/Non-Federal sources.
—Decision stage incorporates findings; conclusions and recommendations; and the presentation of the study and recommendations to the governing body for tribal determination as to whether tribal assumption of program(s) is desirable or warranted.

2. Planning

A collection of data to establish goals, policies, methods of action or procedures for overall tribal health activities. Health plans shall specify the anticipated phasing of tribal assumption and operation of specific IHS programs. A planning study shall include the following components:

—A plan of action including goals and benefits to be obtained.
—The objectives for tribal assumption and operation of selected IHS programs.
—Strategies including methods, policies, and procedures for operation of tribal health programs.
—Detailed plans for each major program or functional area to correspond with the identified goals, benefits, objectives and strategies.

3. Development of tribal Health Management Structure

The development, requisition or enhancement of management systems (including skills and knowledge to operate the management system) as defined through a feasibility study or health plan. Management studies shall include the following:

—Determine and outline the specific purpose of the program to (re)design a management structure.
—Improve the organization of work and worker productivity and achievement, as it relates to the performance of the program as well as the responsibility, leadership and role of management.
—Determine impact of tribal operation on the service population and surrounding community.
—Develop current, short range and long range strategies for tribal operation of programs.

4. Human Resources Development

The development of a particular skill or group of skills required for tribal staff to manage or operate an IHS program. The human resources development training plan shall include:

—Assessment of current staff to identify qualifications (experience and education) and special skills.
—Determination of current human resources requirements in order to provide managerial and administrative competence.
—Project short range and long range management training program based on training needs.

5. Evaluation Studies

Systematic collection, analysis, and interpretation of data for the purpose of determining the value of a program, to be used by decisionmakers to:

—Determine the value or extent of the effects of previous studies as they relate to the goals and objectives, policies and procedures, or programs on target groups.
—Determine effectiveness and efficiency of tribal program operation, i.e. direct services, financial management, personnel, data collection and analysis, and third party billing, which will assist tribal efforts to improve health care delivery systems.

E. Fund Availability

In FY 1992, it is anticipated that approximately $4,938,000 will be available for new and continuing tribal management grants. Although it is expected that project funding needs will vary depending on the scope of work and the review process recommendations, it is anticipated that 80 awards will be issued averaging $65,000 each. Grant funding levels include both direct and indirect costs. Only one project grant will be awarded per tribe or tribal organization.

F. Period of Support

1. The start date for approved projects is September 1, 1992. Feasibility studies and planning are limited to a one-year funding award; development of tribal health management structure, human resources development, and evaluation studies may be multi-year projects depending on the scope of work. Each proposal shall address only one (1) project type to be accomplished.

2. Multi-Year Projects—Determination of the length of multi-year projects will be based on the scope of work. Projects that are based on previous studies or activities should provide a description of accomplishments to date and establish how this proposed project will accomplish the projected goal. A brief description of the scope of work and funding requirements for each additional year must be submitted with the application. The second and third year continuations will be based on the following criteria: (1) Satisfactory progress; (2) availability of funds; and (3) continuation is deemed to be in the best interest of the Government.

G. Application Process

An IHS Tribal Management Grant Application Kit, including required form PHS 5161–1 (rev. 3/89), may be obtained from the Grants Management Branch, Division of Acquisition and Grants Operations, Twinbrook Building, suite 605, 12300 Twinbrook Parkway, Rockville, Maryland 20852. Telephone (301) 443–5204. Information is being collected on form PHS 5161–1 as well as the narrative form approved under OMB Clearance No. 0937–0189.

H. Application

These instructions are to be used in preparing the narrative and are the instructions on pages 15–16 of the PHS–5161–1. Completed application must include:

1. Abstract (1 page).
2. Table of Contents (1 page).
3. Narrative (25 pages).
   a. Introduction (5-points).
   b. Need for Assistance (10-points).
   c. Objective(s), Result, and Benefit Expected (25-points).
   d. Approach (35-points).
   e. Key Personnel (10-points).
   f. Adequacy of Management Controls (15-points).
4. Appendix (10 pages).

Applications must be complete and contain all information needed for review. Material will not be accepted after the receipt date for inclusion in an application. The application shall consist of no more than 37 pages (including Abstract and Table of Contents). Pages must be numbered. Applications exceeding the 35 pages (excluding Abstract and Table of Content) will not be accepted for review.

1. Abstract

An abstract may not exceed one typewritten page. The abstract should clearly present the grant application in summary form, from a "who-what-when-where-how-cost" point of view so that reviewers see how the multiple parts of the application fit together to form a coherent whole.

2. Table of Contents

A one page typewritten table of content must be included.

3. Narrative

This section of the application should be written in a manner that is self-explanatory to outside reviewers who are unfamiliar with prior related activities of the applicant. It should be succinct and well organized, should not exceed 25 single spaced pages, and include the following:

a. *Introduction.*

—Identify funding priority and provide justification of why the priority was selected.
—Identify the type of project.
—State the type and date of resolution (specific or blanket) submitted with the application. (Refer to Section I, Required Affiliation).

b. *Need for assistance.*

—Explain the reason for the project.
—Describe the population to be served by management of tribal health programs, particularly the tribe(s) to benefit and the number of eligible beneficiaries.
—Provide a precise location of the project or area to be served by the proposed project including a map.
—Describe the overall and specific need for assistance by explaining the current situation or demand and unmet requirements (i.e.: resources, staffing, equipment, training, etc.).
—Identify relevant physical, economic, social, financial, institutional or organizational problems requiring solutions.
—Include relevant statistical and/or historical data to be considered in the project purpose.
—If this project is based on a previous and/or current tribal management grant, describe the accomplishments of the project and how it relates to this application or provide an update on progress. (Do not include copies of reports).

c. *Objective(s), result and benefit expected.*

—State in measurable terms, realistic principal and subordinate objectives of the project.
—Identify the expected results, benefits and outcome or product to be derived from this project.
—Describe the relationship between this project and other work planned, anticipated, or underway which are supported by other Federal funds.

d. *Approach.*

—Outline the workplan, grouping tasks and activities under the objective to be achieved.
—Identify present staffing proposed positions, include the position descriptions of staff responsible for each activity.
—Provide a workplan of tasks and activities including a start, target milestones and completion date on a calendar timeline.
—Discuss data collection for the project, how it will be obtained, analyzed, and maintained by the project.
—Describe any unusual features which may affect the project, (i.e.: unique design, reduction in cost or time, or special organizational or community involvement).
—If consultant or contractor is to be used, provide the scope of work to be performed for the project.
—Identify the accomplishments (deliverables/outcomes) to be achieved.
—Describe the evaluation component of the project to determine the project accomplishments.
—Identify who will conduct the evaluation of the projected deliverables/outcomes.
—Identify individuals/group to whom the evaluation and final results of the grant will be presented for acceptability or further decision within the tribal/organizational structure.

e. *Key personnel.*

—Provide a position description and resume for the project director/staff, including experience, and formal education/training that is related to the success of this project.
—List the qualifications and experience of consultants or contractors where their use is anticipated.

f. *Adequacy of management controls.*

—Prepare an itemized budget, i.e. line item or cost category for the budget period, supported by a narrative rationale and justification for cost and purchases.
—If indirect costs are claimed, applicant must submit a copy of Indirect Cost Rate Agreement supporting this claim.
—Describe where the project will be housed, i.e. facilities and equipment available.
—List equipment purchases necessary for implementation of the project; include narrative rationale and justification for computer hardware/software.
—Identify the IHS area office staff contacted to ensure the compatibility of any ADP equipment/software purchases with IHS systems.
—Describes the management control of the grantee over the direction and acceptability of work to be performed by the consultant.
—Applicant must demonstrate that the organization has adequate systems and expertise to manage Federal funds.

4. Appendix

Up to 10 typewritten pages may be used, i.e. map, tribal resolution, organizational chart, resumes, cost agreement documentation, etc.

I. Required Affiliation

A. Documentation of Newly Recognized Tribes

A copy of the Federal Register Notice or letter from the Bureau of Indian Affairs verifying tribal status must accompany the application.

B. Tribal Resolution

(1) A resolution of the Indian tribe served by the project *must* accompany the application submission. (2) Applications which propose services affecting more than one Indian tribe must include resolutions from all affected tribes to be served. (3) Applications by tribal organizations will not require a specific tribal resolution(s) if the current tribal resolution(s) under which they operate would encompass the proposed grant activities. A statement of proof or a copy of the current operational resolution must accompany the application. If a resolution or a statement is not submitted, the application will be considered incomplete and will be returned without consideration.

J. Assurances

The application shall contain assurances to the Secretary that the applicant will comply with program regulations, 42 CFR part 36, subpart H.

K. Reporting

1. Progress Report

Program progress reports will be submitted quarterly with a final report for each budget period to be included in the continuation application. A final progress report will be due for the final budget period 90 days after the end of the project period.

2. Financial Status Report

Quarterly financial status reports will be submitted with a final status report due 90 days after the end of each budget period. Standard Form 269 (long form) will be used for financial reporting.

L. Grant Administration Requirements

Grants are administered in accordance with the following documents:

1. 45 CFR part 92, Department of Health and Human Services, Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments, or 45 CFR part 74, Administration of Grants to Non-profit recipients.

2. Public Health Service Grant Policy Statement, and

3. Appropriate Cost Principles: OMB Circular A–87, State and Local Governments, or OMB Circular A–122, Non-profit Organizations.

M. Objective Review Process

Applications meeting eligibility requirements that are complete and conform to this program announcement will be reviewed by a centralized Ad Hoc Objective Review Committee (ORC) appointed by IHS primarily for review of these applications. The review will be conducted at the IHS Headquarters and in accordance with IHS objective review procedures. The objective review process ensures nationwide competition for limited funding. The ORC will be comprised of IHS (40% or less) and other federal or non-federal individuals (60% or more) with appropriate expertise. The ORC will review each application against established criteria. Based upon the evaluation criteria, the reviewers assign a numerical score to each application, which will be used in making the final funding decision.

N.A. Evaluation Criteria

To score individual applications, the following weights and criterion are considered:

Weights	Criteria
5	Introduction.
10	Need for Assistance.
25	Results.
35	Approach.
10	Key Personnel.
15	Adequacy of Management Controls.
100	Total Criterion Weight.

1. Introduction

—Does the Introduction have the funding priority identified and justified?
—Is only one project type selected?
—Is a specific/blanket tribal resolution attached to the application?
—Is the approved tribal resolution (specific/blanket) current?

2. Need for Assistance

—Is there an explanation of the reason for the project?
—Is the precise location of the project or area to be served by the proposed project including a map provided?
—Does it describe the overall and specific need for assistance by explaining the current situation or demand and unmet requirements (i.e.: resources, staffing, equipment, training, etc.)?
—Are relevant statistical/historical data included?
—Is data collection, analysis and maintenance addressed?
—State impact of previous or current tribal management grant on this application.

3. Objective(s), Result and Benefit Expected

—Principal and subordinate objectives of the project are stated in realistic and measurable terms?
—The population, number of participants and personnel to benefit from the project are defined?
—The expected results, benefits and outcome or product to be derived from this project are identified?
—The relationship between this project and other work planned, anticipated, or underway which are supported by other Federal funds are identified?

4. Approach

—An outline of the plan of action and program activities to achieve each objective is provided?
—Activities are grouped under the objective they are designed to achieve?
—Indicates staff position responsible for each activity?
—Identifies IHS staff used for technical assistance, if any?
—Provides a workplan including start and completion calendar of activities?
—Identifies collection, analysis and maintenance of data related to project?
—If required, identifies the scope of work for a consultant or contractor?
—Describes any unusual features of the project, which may affect the project (i.e.: design, uniqueness, reduction in cost or time, or special organizational or community involvement?
—Identifies the accomplishments, deliverables/outcomes to be achieved?
—Describes the evaluation component of the project in a plan which will accomplish objectives (deliverables/outcomes)?
—Identifies who will conduct and report on the evaluation component of the projected deliverables/outcomes?
—Identifies who in the tribal/organization structure will receive the evaluation report and final results of the grant?

5. Key Personnel

—Resumes and position descriptions are provided for all project staff and director?
—Position descriptions are provided for project staff to be recruited for the project?
—Are qualifications and experience of consultants or contractors identified and appropriate where applicable?

6. Adequacy of Management Controls

—Prepares a budget and narrative justification. The budget justification narrative provides a rationale for total project costs, i.e. staff, equipment, supplies, contractual agreements, travel, training, etc., directly related to the project.
—Describes application of Indian Preference in recruitment and hiring of positions and work to be contracted.
—Describes adequacy of facilities and equipment for the project?
—Lists equipment purchases necessary for implementation of the project, include a narrative rationale and justification (i.e.: computer hardware/software)?
—Identifies the IHS Area Office contact used to determine compatibility of ADP equipment purchases with IHS systems?
—Demonstrates that the applicant organization has adequate systems and expertise to manage Federal funds.

B. Qualitative Rating Factors for the Criteria Are

1.0=Excellent—very comprehensive, in-depth clear response. The application meets this standard with no omissions. Consistently high performance can be expected.

0.8=Very Good—extensive, detailed application similar to excellent in quality, but with minor area requiring additional clarification. High quality performance is likely, but not assured due to minor omissions or areas where less than excellent performance might be expected.

0.6=Good—no deficiencies in the response. Better than acceptable performance can be expected, but in some significant area there is lack of clarity which might impact on performance.

0.4=Fair—The response generally meets minimum standards. Existing deficiencies are confined to areas with minor impact on performance and can be corrected without revision.

0.2=Marginal—deficiencies exist in significant areas. The application can be corrected without major revision or serious deficiencies exist in areas with minor impact.

0.0=Unsatisfactory—serious deficiencies exist in significant areas. The project cannot be expected to meet minimum requirements without revisions. The application only indicates a willingness to perform a project without specifying how or demonstrating the capacity to do so. Only vague indications exist regarding capability.

O. Results of the Review

The results of the Objective Review Committee are forwarded to the Associate Director, Office of Tribal Activities, for final review and approval. Applicants are notified of their approval or approval without funds, on June 18, 1992. A Notice of Grant Award will be issued approximately ten (10) days prior to the start date of September 1, 1992. Unsuccessful applicants are notified in writing of disapproval not later than June 18, 1992. A brief explanation of the reasons the application was not approved is provided along with the name of an IHS official to contact if more information is desired.

Dated: March 3, 1992.

Everett R. Rhoades,

Assistant Surgeon General, Director.

BILLING CODE 4160–16–M

Health Resources and Services Administration

Program Announcement for Loans for Disadvantaged Students

The Health Resources and Services Administration (HRSA) announces that applications for fiscal year (FY) 1992 for the Loans for Disadvantaged Students (LDS) program are now being accepted under the authority of section 740(c) of the Public Health Service Act (the Act), as added by the Disadvantaged Minority Health Improvement Act of 1990, Public Law 101–527. Section 740(c) is part of the legislative authority for the Health Professions Student Loan (HPSL) program. As such, this program is governed by relevant requirements associated with the HPSL program (42 CFR part 57, subpart C), including, except as otherwise provided, school eligibility, student eligibility, institutional contributions, and terms of the loan. Additional school and student eligibility requirements for the LDS program are described below.

Approximately $15 million is available in FY 1992 for competing applications for the LDS Program. It is expected that about 2,400 loans averaging $6,250 will be supported with these and the required $1: $9 school matching funds. Each loan will be provided for one academic year.

Purpose

The LDS program provides funding (new Federal Capital Contributions) to eligible health professions schools for the purpose of establishing revolving funds (LDS funds) which are available for providing long-term, low-interest loans to eligible individuals from disadvantaged backgrounds who are enrolled (or accepted for enrollment) as full-time students at an eligible school. The LDS fund (including one dollar in school funds for each nine dollars in Federal funds) is to be used for the purpose of (1) making loans to individuals from disadvantaged backgrounds, and (2) paying the costs of the collection of the loans and interest on the loans.

For purposes of the LDS program in FY 1992 "an individual from a disadvantaged background" is defined as in 42 CFR 57.1804, as one who:

1. Comes from an environment that has inhibited the individual from obtaining the knowledge, skill, and abilities required to enroll in and graduate from a health professions school, or from a program providing education or training in an allied health profession; or

2. Comes from a family with an annual income below a level based on low income thresholds according to family size published by the U.S. Bureau of the Census, adjusted annually for changes in the Consumer Price Index, and adjusted by the Secretary for use in all health professions programs. The Secretary will periodically publish these income levels in the **Federal Register**.

The following income figures determine what constitutes a low income family for purposes of the Loans for Disadvantaged Students program for FY 1992.

Size of parents' family [1]	Income Level [2]
1	$8,600
2	11,400
3	13,500
4	17,300
5	20,400
6 or more	23,000

[1] Includes only dependents listed on Federal income tax forms.

[2] Adjusted gross income for calendar year 1990, rounded to $100.

Use of Funds

As loans made from the LDS fund are repaid, the money returned to the fund will continue to be used solely for support of students from disadvantaged backgrounds through the LDS program. HPSL funds provided to schools as previous years' Federal Capital Contributions, i.e., funds already circulating in the schools' revolving HPSL loan funds, may also be utilized for loans to individuals from disadvantaged backgrounds. Any school receiving LDS funds will be required to maintain separate accountability for these funds.

School Eligibility

As required by statute, to qualify for participation in the LDS program, a school must meet the HPSL school eligibility requirements and must be:

1. Carrying out a program for recruiting and retaining students from

disadvantaged backgrounds, including racial and ethnic minorities; and

2. Carrying out a program for recruiting and retaining minority faculty.

If a school has no students from disadvantaged backgrounds, or no full-time minority faculty, or provides no data as required in the application materials, it is not eligible for participation in the LDS program.

In addition, each school that received funds in FY 1991 must agree in its fiscal year 1992 application to be carrying out all of the statutory requirements listed below:

1. Ensure that adequate instruction regarding minority health issues is provided for in the curricula of the school. This does not include normal coursework, that by definition includes minority health issues (e.g., sickle cell anemia in a pathology class), but refers to coursework reflecting an institutional awareness of the special health needs of minority populations;

2. Enter into arrangements with one or more health clinics providing services to a significant number of individuals who are from disadvantaged backgrounds, including members of minority groups, for the purpose of providing students of the school with experience in providing clinical services to such individuals;

3. Enter into arrangements with one or more public or nonprofit private secondary educational institutions and undergraduate institutions of higher education for the purpose of carrying out programs regarding:

a. The educational preparation of disadvantaged students, including minority students, to enter the health professions; and

b. The recruitment of disadvantaged students, including minority students, into the health professions; and

4. Establish a mentor program for assisting disadvantaged students, including minority students, regarding the completion of the educational requirements for degrees from the school. This program may include the involvement of students, community health professionals, faculty, alumni, past recipients of Health Career Opportunity Program (HCOP) funds, faculty/staff of feeder schools, etc., in institutionally organized activity (e.g., tutoring, counseling, and summer/bridge programs).

Guidance for presenting the information will be provided in the FY 1992 application materials. Each school funded for the first time in FY 1992 will also be required to carry out each of the activities specified above by not later than twelve months from receipt of award. In addition, a school will be required to continue to carry out all described activities and also the student/faculty recruitment and retention activities throughout the period during which the school is making loans from its LDS loan fund.

Student Eligibility

As required by statute, to qualify for a loan from the LDS fund, a student must meet the definition of an individual from a disadvantaged background.

The following definitions, Methodology for Implementing the Statutory Special Consideration and Procedures for Calculating Loans were established in FY 1991 after public comment (October 1, 1991, at 56 FR 49777) and the Administration is extending them in FY 1992.

Definitions

Black means a person having origins in any of the black racial group of Africa.

Hispanic means a person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin, regardless of race.

American Indian or Alaskan Native means a person having origins in any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition.

Definitions listed above are contained in Directive No. 15 of Office of Management and Budget Circular No. A–46 dated May 3, 1974.

Native American, as defined in Public Law 101–527, means American Indians, Alaskan Natives, Aleuts, and Native Hawaiians.

Minority, with respect to faculty, refers to Blacks, Hispanics, Native Americans, Filipinos, Koreans, Pacific Islanders, and Southeast Asians whose percentage among the total supply of practitioners in the applicable health profession is below that group's percentage in the total population.

Health professions school means a public or private nonprofit school of medicine, school of dentistry, school of osteopathic medicine, school of podiatric medicine, school of optometry, or school of veterinary medicine as defined in sections 701(4) of the Act, or a school of pharmacy as defined in section 747 of the Act, which is located in a State as defined in section 701(11) of the Act, and which is accredited as provided in section 701(5) of the Act.

Methodology for Implementing the Statutory Special Consideration

A school's funding will be enhanced based on the extent of underrepresented minority student enrollment. (Refer to the section below on the procedures for allocating funds.)

Special consideration will be given to any school of medicine, osteopathic medicine, dentistry, optometry, podiatric medicine, pharmacy, or veterinary medicine that provides information, according to instructions in the application materials, that evidences an underrepresented minority enrollment that exceeds the national average for the particular discipline.

For purposes of determining school eligibility for the special consideration, "underrepresented minorities" will be defined as Blacks, Hispanics, and Native Americans. Although certain Asian subgroups (i.e., Filipinos, Koreans, Pacific Islanders, and Southeast Asians) are considered to be underrepresented in the health professions and are included as minorities for purposes of program requirements relating to faculty recruitment and retention (see above), national data on these subgroups are not available as a basis for establishing national average enrollment of underrepresented minorities for the particular health professions discipline.

For purposes of the FY 1992 award cycle, the national average enrollments of Blacks, Hispanics, and Native Americans (in combination) are: for medicine, 12.7 percent; osteopathic medicine, 7.8 percent; dentistry, 13.5 percent; pharmacy, 11.2 percent; podiatric medicine, 17.5 percent; optometry, 9.4 percent; and veterinary medicine, 6.0 percent.

Procedures for Calculating Loans

Funds will be awarded on a per capita basis, by comparing the enrollment of each eligible school, weighted in accordance with any special consideration, with the total enrollment of all eligible schools. A school with an above average underrepresented minority enrollment will be given double credit (i.e., its enrollment will be doubled for awarding purposes). The basic procedure for awarding funds is in accordance with a statutory procedure which must be followed in awarding HPSL loan funds.

National Health Objectives for the Year 2000

The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of Healthy People 2000, a PHS-led national activity for setting priority areas. The Loans for Disadvantaged Students Program is related to the priority area of Educational and Community-Based Programs. Potential applicants may obtain a copy of Health People 2000 (Full Report; Stock No. 017–001–00474–0) or Health People 2000 (Summary Report, Stock No. 017–001–00473–1) through the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402–9325 (Telephone (202) 783–3238).

Application Requests

The application form and instructions for this program have been approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act. The OMB clearance number is 0915–0149.

Requests for application materials and questions regarding program policy and business management should be directed to: Mr. Bruce Baggett, Chief, Student Institutional Support Branch, Division of Student Assistance, Bureau of Health Professions, Health Resources and Services Administration, Parklawn Building, room 8–34, 5600 Fishers Lane, Rockville, Maryland 20857. Telephone: (301) 443–4776.

Completed applications should be forwarded to the Student Institutional Support Branch at the above address.

The application deadline date is May 15, 1992. Applications shall be considered as meeting the deadline if they are either:

(1) *Received on* or before the deadline date, or

(2) *Postmarked on* or before the deadline *and* received in time for consideration. A legibly dated receipt from a commercial carrier or U.S. Postal Service will be accepted in lieu of a postmark. Private metered postmarks shall not be acceptable as proof of timely mailing.

Late applications not accepted for processing will be returned to the applicant.

The Catalog of Federal Domestic Assistance Number for the Loans for Disadvantaged Students is 93.342. It is not subject to the provisions of Executive Order 12372, Intergovernmental Review of Federal Programs (as implemented through 45 CFR part 100).

Dated: January 3, 1992.

Robert G. Harmon,

Administrator.

BILLING CODE 4160–15–M

National Institutes of Health

Consolidation and Relocation of National Institutes of Health Management and Staff: Environmental Impact Statement

AGENCY: National Institutes of Health.

ACTION: Notice of intent.

SUMMARY: The National Institutes of Health (NIH) is issuing this notice to inform the public that an environmental impact statement (EIS), in accordance with the National Environmental Policy Act (NEPA), 42 U.S.C. 4321 et. seq., will be prepared for the proposed consolidation and relocation of NIH management and staff. The proposed action involves the construction of a suitable building on the NIH campus located in Bethesda, Maryland.

FOR FURTHER INFORMATION CONTACT: Mr. William Fedyna, Office of Communications, National Institutes of Health, Building 1, room 350, 9000 Rockville Pike, Bethesda, Maryland 20892, telephone (301) 496–1776—this is not a toll-free number.

SUPPLEMENTARY INFORMATION: NIH has contracted with consultants to prepare an EIS to assess the environmental impacts of the proposed action that involves consolidation and relocation of NIH management and staff through the construction of a suitable building on the NIH Bethesda campus. A portion of the NIH staff now located on campus and in six leased buildings off campus would relocate to the new facility. The proposed facility would provide approximately 539,000 gross square feet of administrative offices, support and special purpose space. Special purpose space may include, but may not be limited to, a cafeteria, mail room, health unit, and loading dock. The proposed building would provide parking for some of the occupants and be within walking distance of the METRO station and bus stop.

Alternative actions to be considered in preparing the EIS include: (1) No action (maintain the status quo), (2) consolidation to a single existing facility off the NIH campus, (3) consolidation to a single new facility on the NIH campus.

A scoping meeting will be held at the Walter Johnson High School on March 16, 1992, at 7:30 p.m. Advertisements with details concerning the meeting will be posted in local newspapers. Individuals and representatives of business, community, and citizen groups are encouraged to present their views and concerns or information relating to pertinent environmental issues at the meeting.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues are identified, a list of contacts is being prepared. Contacts on the list will participate in addressing and resolving issues throughout the EIS process. The list will include individuals from government agencies, business interests, and citizen and community action groups. Comments or questions concerning this proposed action and the EIS are welcome and should be directed to the address and/or telephone number provided above.

Dated: February 27, 1992.

Bernadine Healy,

Director, NIH.

BILLING CODE 4140–01–M

National Institute of Dental Research; Meeting of Dental Research Programs Advisory Committee

Pursuant to Public Law 92–463, notice is hereby given of a meeting of the Dental Research Programs Advisory Committee, National Institute of Dental Research, on April 7–8, 1992, in Building 31C, Conference Room 10, National Institutes of Health, Bethesda, Maryland, from 9 a.m. to recess on April 7 and 8:30 a.m. to adjournment of April 8. The entire meeting will be open to the public to discuss NIDR extramural research—Research Opportunities on Oral Health Needs of Special Care Populations. Attendance by the public will be limited to space available.

Dr. John D. Townsley, Associate Director for Policy and Coordination, extramural Program, NIDR, NIH, Westwood Building, Room 506, Bethesda, MD 20892 (telephone 301/496–7807) will provide a summary of the meeting, roster of committee members and substantive program information upon request.

(Catalog of Federal Domestic Assistance Program No. 93.121, Oral Diseases and Disorders Research)

Dated: March 2, 1992.

Susan K. Feldman,

Committee Management Officer, NIH.

BILLING CODE 4140–01–M

Meeting of the Planning Subcommittee of the Board of Regents of the National Library of Medicine

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the Planning Subcommittee of the Board of Regents of the National Library of

Medicine on March 24–25, 1992, in the Board Room of the National Library of Medicine, 8600 Rockville Pike, Bethesda, Maryland.

The entire meeting will be open to the public from 9 a.m. to approximately 5 p.m. on March 24, and from 9 a.m. to adjournment on March 25. This is the final meeting in a series of three to discuss and determine the role of the National Library of Medicine in serving the information needs of those concerned with toxicology and the environment. Attendance by the public will be limited to space available.

Ms. Susan P. Buyer, Deputy Assistant Director for Planning and Evaluation of the National Library of Medicine, 8600 Rockville Pike, Bethesda, Maryland, telephone 301–496–8834, will provide a summary of the meeting, a roster of subcommittee members, and substantive program information upon request.

(Catalog of Federal Domestic Assistance Program No. 93.879—Medical Library Assistance, National Institute of Health)

Dated: March 2, 1992.

Susan K. Feldman,

Committee Management Officer, NIH.

BILLING CODE 4140–01–M

Division of Research Grants; Meeting of the Division of Research Grants Advisory Committee

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the Division of Research Grants Advisory Committee, April 6–7, 1992, Wilson Hall, Building 1, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20892.

The entire meeting will be open to the public, from 8:30 a.m. to 4:30 p.m. both days. The topics for the two-day meeting will include how study sections change or new ones are formed; framework for discussion of the NIH Strategic Plan; and women as applicants and grantees of NIH. Attendance by the public will be limited to space available.

The Office of Committee Management, Division of Research Grants, Westwood Building, National Institutes of Health, Bethesda, Maryland 20892, telephone (301) 496–7534, will furnish a summary of the meeting and a roster of the committee members.

Dr. Samuel Joseloff, Executive Secretary of the Committee, Westwood Building, Room 449, National Institutes of Health, Bethesda, Maryland 20892, phone (301) 496–7441, will provide substantive program information upon request.

Dated: March 2, 1992.

Susan K. Feldman,

Committee Management Officer, NIH.

BILLING CODE 4140–01–M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Migratory Birds: Development of an Agreement on Interpretation and Implementation of a Protocol on Subsistence Hunting of Migratory Birds

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of public meetings.

SUMMARY: This Notice is to inform the public that the Fish and Wildlife Service (Service) has scheduled a series of five meetings across the contiguous 48 States to allow opportunity for public comment on the proposal to develop an agreement with Canada to amend the subsistence hunting provisions of the Convention for the Protection of Migratory Birds concluded by the U.S. and Great Britain on behalf of Canada, in 1916. Meetings are also being held in Alaska but are not detailed in this Notice. The amendment would provide a basis for managing subsistence hunting or migratory birds in Alaska and Canada during what is otherwise the closed period presently prescribed by the Convention.

DATES: The dates for the scheduled meetings are listed in the **SUPPLEMENTARY INFORMATION** section.

ADDRESSES: Communications regarding this Notice should be addressed to: Director (FWS/MBMO), U.S. Fish and Wildlife Service, 634 Arlington Square, Washington, DC 20240, or Regional Director, Region 7, U. U. Fish and Wildlife Service, 1011 E. Tudor Road, Anchorage, Alaska 99503. The addresses of the scheduled meetings are listed in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: Thomas J. Dwyer, Chief, Office of Migratory Bird Management, U.S. Fish and Wildlife Service, 634 Arlington Square, Washington, DC 20240 (703/358–1714), or Regional Director, Attention Migratory Bird Coordinator, U.S. Fish and Wildlife Service, 1011 E. Tudor Road, Anchorage, Alaska 99503 (907/786–3423).

SUPPLEMENTARY INFORMATION: Meetings scheduled for the contiguous 48 States are as follows:

Portland, Oregon

April 7, 1992, 9 a.m. to Noon, 3rd Floor Conference Room, Eastside Federal Complex, 911 NE. 11th Avenue, Portland, Oregon.

Washington, DC

April 17, 1992, 8:30 a.m. to Noon, Main Interior Auditorium, 1849 C Street, NW., Washington, DC.

Twin Cities, Minnesota

April 30, 1992, 8 a.m. to Noon, Visitor Center, Minnesota Valley National Wildlife Refuge, 3815 East 80th Street, Bloomington, Minnesota.

Sacramento, California

April 9, 1992, 9 a.m. to Noon, room 210, Downtown Federal Building, 001 "I" Street, Sacramento, California.

Denver, Colorado

April 27, 1992, 1 to 4 p.m. room 320, 134 Union Boulevard, Lakewood, Colorado.

With the exception of the Twin Cities, Minnesota location, the meetings detailed above were first announced in a general context in the Notice of Public Involvement published in the **Federal Register** on Thursday, January 9, 1992 (57 FR 922). The Twin Cities meeting has been added to provide better coverage across the U.S. In the same Notice of Public Involvement, meetings were announced for Alaska locations but the public was advised to contact the Service's Regional Office in Alaska to obtain more detailed information, such as dates and times, because of the possibility of a changing schedule. Meetings to be conducted in Alaska to solicit comment on this matter are being held at: Anchorage, Barrow, Bethel, Dilligham, Fairbanks, Ft. Yukon, Galena, Hooper Bay, Juneau, Kodiak, Kotzebue, Nome, Tok and Toksook Bay. The Alaska meetings are being held over the period February through April and many will have been completed at the time this Notice is published in the **Federal Register**.

As outlined previously, the reasons for the meetings are to better inform the public of the effort to modify the existing Convention with Canada and to gather information to be used in establishing a final Service position for negotiations. The history and recent progress by the U.S. and Canada in resolving this issue is explained in greater detail in the January 9, 1992, **Federal Register** Notice of Public Involvement.

The authority for the Service's actions in this matter is the Migratory Bird Treaty Act, as amended (16 U.S.C. 703 *et seq.*).

Dated: February 24, 1992.

Suzanne Mayer,

Acting Director, Fish and Wildlife Service.

[FR Doc. 92–5432 Filed 3–6–92; 8:45 am]

BILLING CODE 4310–55–M

Geological Survey

Acquisition of Digital Line Graph (DLG) Data

SUMMARY: The U.S. Geological Survey (USGS) needs to acquire Digital Line Graph (DLG) data digitized from USGS topographic maps for entry into National Digital Cartographic Data Base (NDCDB) as part of the public domain. The USGS recognizes the public benefit of acquiring DLG data prepared by public utilities, resource management organizations and other non-governmental organizations. The USGS wishes to identify other possible sources of DLG data for areas now lacking DLG coverage, and to determine the potential for cooperative acquisition of the data. When it is in the Government's interest, and subject to the availability of funds, the USGS intends to work with those source organizations to acquire DLG Data for NDCDB archiving and non-proprietary public distribution.

FOR FURTHER INFORMATION CONTACT: U.S. Geological Survey, Attn Richard L. Kleckner, 590 National Center, 12201 Sunrise Valley Drive, Reston VA 22092, (703) 648–5741.

SUPPLEMENTARY INFORMATION This announcement does not solicit for contract support for specific USGS digital mapping requirements. The intent is to identify other sources of DLG data being prepared coincidentally by private organizations from USGS quads in support of their own mapping needs, and to determine whether the data can be acquired from the producer in DLG format or easily upgraded to DLG format and made available to the public domain by USGS. Proprietory data will not be accepted.

Acceptable data must meet the general requirements for content, accuracy, and format as detailed in USGS National Mapping Program Technical Instructions, "Standards for Digital Line Graphs", parts 1 and 2 issued 06/10/88 and part 3 issued 10/29/90. For example, ninety percent of all DLG elements digitized will be within 0.005 inches in any direction from the true position as found on the scale-stable source, with all remaining elements within 0.010 inches.

Subject to the availability of funds and capacity, the USGS will support acceptable projects by any one or a combination of the following: Funds, source materials, technical assistance, post collection processing or other materials or services. All joint/collaborative projects must be determined by the Department of the Interior and the USGS to serve the public interest.

Authority for This Program

Is contained in the Department of the Interior, U.S. Geological Survey Fiscal Year 1992 appropriation bill.

Application Forms

A broad agency announcement is expected to be available by mid April 1992. Prospective applicants are requested to state in writing their interest. Letters should be addressed to Nedra Stallone, Contracting Officer, U.S. Geological Survey, 12201 Sunrise Valley Drive, Mail Stop 205A, Reston, VA 22092, (703) 648–7364).

Dated: February 12, 1992.

Jack J. Stassi,

Assistant Director for Administration.

Bureau of Land Management

[NM–030–02–4212–24]

Emergency Closure of Trespass Bridge on BLM Administered Land in Otero County

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of emergency closure.

SUMMARY: Notice is hereby given that effective March 2, 1992, all vehicle use is prohibited over a bridge located in T. 16 S., R. 9 E., Section 3, E½NE¼, NMPM. The bridge is located off of County Road A042, approximately 2½ miles southwest of La Luz, New Mexico in Otero County.

The purpose of the closure is to protect public health and safety. The authority for this closure is 43 CFR 8364.1. This designation remains in effect until further notice.

FOR FURTHER INFORMATION CONTACT: Dwayne Sykes, Acting Multi-Resources Chief, Caballo Resource Area, 1800 Marquess, Las Cruces, New Mexico 88005 orat (505) 526–8228.

Dated: March 4, 1992.

Tim Salt,

Acting District Manager.

[NV–930–02–4212–13; N–54527]

Realty Action; Exchange of Public Lands in Elko, Eureka, and Clark Counties, Nevada

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Realty Action, N–54527.

SUMMARY: This exchange involves trading 47,149.50 acres of public lands in Elko and Eureka Counties and 389 acres of public lands in Clark County, as described in section I., for 10,131 acres of private land in Elko County and 3,178 acres of private land in Clark County, as described in Section II.

I.

The following described public lands in (A) Elko and Eureka Counties, and (B) Clark County, administered by the Bureau of Land Management, including the mineral estate with no known value, have been determined to be suitable for disposal by exchange pursuant to section 206 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1716).

Comprising 47,149.50 acres, more or less, and including four water rights or interests therein (Certificate Nos. 36420 [50% interest], 44877, 44974, and Application No. 44927).

The patent, when issued, will contain the following reservations to the United States:

1. A right-of-way for ditches or canals constructed by the authority of the United States. Act of August 30, 1890 (43 U.S.C. 945).

2. All oil and gas deposits.

3. All geothermal resources on the following described lands:

Sec. 32, W½NW¼NW¼NW¼, NW¼SW¼NW¼NW¼.

4. One-half interest in water right Certificate No. 36420.

5. An easement and right-of-way over, across, and upon a strip of land, 100 feet wide crossing Sections 2, 10, and 14 in T. 39 N., R. 63 E., as shown on the official Bureau of Land Management status records for the State of Nevada, and further identified in case file No. N–55365 for the full use as a road by the United States and its assigns, licensees, and permittees, including the right of access and use for and by the people of the United States generally to lands owned, administered, or controlled by the United States.

6. Easements and rights-of-way for roads over, across and upon strips of land 80 feet wide along existing roads crossing portions of the above described lands, as shown on the official Bureau of Land Management status records for the State of Nevada, and further identified in case file Nos. N–1122, N–5361, N–7851, N–51008, and N–55607 through N–55617, for the full use as roads by the United States and its assigns, licensees, and permittees, including the right of access and use for and by the people of the United States generally to lands owned, administered, or controlled by the United States.

7. Rights-of-way for fences, pipelines, and a well as reserved under rights-of-way Nos. N–55623 through N–55634, pursuant to title V of the Act of October 21, 1976 (43 U.S.C. 1767), and the right to enforce all or any of the terms and conditions of the rights-of-way, including the right to renew it or extend it upon its termination.

And will be subject to:

1. A restriction which constitutes a covenant running with the land, that the land, as listed below, may be used only for (1) agricultural purposes, but not for dwellings or buildings, or (2) for park and non-intensive open space recreation purposes, pursuant to the authority contained in Section 3(d) of Executive Order 11988 of May 25, 1977 (42 CFR 26955) and the Act of October 21, 1976, (43 U.S.C. 1716).

2. Those rights for highway purposes granted to the Nevada Department of Transportation, its successors or assigns by rights-of-way Nos. CC–018412, CC–018442, CC–019434, CC–020107, CC–021024, CC–021059, CC–023693, Nev-012205, Nev-027844, Nev-044165, Nev-047887, Nev-050001, Nev-05117, pursuant to the Act of November 9, 1921 (42 Stat. 216) and rights-of-way Nos. Nev-058170, Nev-062013, Nev-064983, Nev-065047, pursuant to the Act of August 27, 1958, as amended (23 U.S.C. 317).

3. Those rights for material site purposes granted to the Nevada Department of Transportation, its successors or assigns by rights-of-way Nos. CC–019440, Nev-014501 pursuant to the Act of November 9, 1921 (42 Stat. 216) and rights-of-way Nos. Nev-058187, Nev-064946, pursuant to the Act of August 27, 1958, as amended (23 U.S.C. 317).

4. Those rights for powerline purposes granted to Wells Rural Electric Company, its successors or assigns, by rights-of-way Nos. Nev-058476, N–17084, N–2110, N–43323, N–47134, pursuant to the Act of October 21, 1976 (90 Stat. 2776; 43 U.S.C. 1761), and rights-of-way Nos. N–1027, N–11194, N–6714, pursuant to the Act of March 4, 1911, as amended (formerly 43 U.S.C. 961).

5. Those rights for powerline purposes granted to Sierra Pacific Power Company, its successors or assigns, by

rights-of-way Nos. CC–021208, N–37156, N–5421, N–54232, N–7639C, pursuant to the Act of October 21, 1976 (43 U.S.C. 1761), rights-of-way Nos. Nev-055032, N–7833, pursuant to the Act of March 4, 1911, as amended (formerly 43 U.S.C. 961), and right-of-way No. Nev-058361 pursuant to the Act of February 15, 1901, as amended (formerly 43 U.S.C. 959).

6. Those rights for powerline purposes granted to Idaho Power Company, its successors or assigns, by right-of-way No. Nev-055364, pursuant to the Act of March 4, 1911, as amended (formerly 43 U.S.C. 961).

7. Those rights for communication line purposes granted to CP National, its successors or assigns, by rights-of-way Nos. N–16732, N–19958, N–2235, pursuant to the Act of October 21, 1976 (43 U.S.C. 1761).

8. Those rights for communication line purposes granted to AT&T, its successors or assigns, by right-of-way No. N–3335, pursuant to the Act of March 4, 1911, as amended (formerly 43 U.S.C. 961), and by right-of-way No. N–46286, pursuant to the Act of October 21, 1976 (43 U.S.C. 1761).

9. Those rights for communication line purposes granted to Nevada Bell, its successors or assigns, by right-of-way No. Elko-01655, pursuant to the Act of October 21, 1976 (43 U.S.C. 1761).

10. Those rights for communication line purposes granted to Rural Telephone Company, its successors or assigns, by rights-of-way Nos. N–33412, N–46278, pursuant to the Act of October 21, 1976 (43 U.S.C. 1761).

11. Those rights for communication line purposes granted to Beehive Telephone Company, its successors or assigns, by right-of-way No. N–46946, pursuant to the Act of October 21, 1976 (43 U.S.C. 1761).

12. Those rights for communication line purposes granted to Lands of Sierra, its successors or assigns, by right-of-way No. N–39938, pursuant to the Act of October 21, 1976 (43 U.S.C. 1761).

13. Those rights for railroad and station purposes granted to the Union Pacific Railroad, its successors or assigns, by rights-of way Nos. CC–016074, CC–04691, CC–04693, Elko-04896, Elko-04897, pursuant to the Act of March 3, 1875 (formerly 43 U.S.C. 934–939).

14. Those rights for communication site purposes granted to the Western Pacific Railroad, its successors or assigns, by right-of way No. N–39973, pursuant to the Act of October 21, 1976 (43 U.S.C. 1761).

15. Those rights for railroad and station purposes granted to the Southern Pacific Railroad, its successors or assigns, by right-of way No. CC–04066, pursuant to the Act of March 3, 1875 (formerly 43 U.S.C. 934–939).

16. Those rights for roadway purposes granted to the City of Wells, its successors or assigns, by right-of-way No. N–41272, pursuant to the Act of October 21, 1976 (43 U.S.C. 1761).

17. Those rights for roadway purposes granted to Elko County, its successors or assigns, by rights-of-way Nos. N–46210, N–46529, N–46530, N–46532, N–46755, N–48341, N–48343, N–48347, N–52546 pursuant to the Act of October 21, 1976 (43 U.S.C. 1761).

18. Those rights for roadway purposes granted to Eureka County, its successors or assigns, by right-of-way No. N–55117, pursuant to the Act of July 26, 1866 (43 U.S.C. 932).

19. Those rights for irrigation purposes granted to the Boies Ranches, its successors or assigns, by right-of-way No. N–6103, pursuant to the Act of March 3, 1891, as amended (formerly 43 U.S.C. 946–951).20.

An easement, 60 feet in width, along the north and east boundaries and 30 feet in width along the south and west boundaries of section 2, T. 36 N., R. 58 E. in favor of Elko County.

21. Those rights granted by oil and gas lease Nos. N–35910, N–38851, N–40808, N–41600, N–42225, N–43459, N–43484, N–43485, N–44141, N–46628, N–47968, N–48792, N–51693, N–53908, N–53911, N–53912, N–53915, N–53916, N–53919, N–53920, N–53921, N–53922, N–53923, N–53925, N–53926, N–53930, N–53933, N–55014, pursuant to the Act of February 25, 1920 as amended and supplemented (30 U.S.C. 181 et seq.). This patent is issued subject to the rights of the prior permittees or lessees to use so much of the surface of said land as is required for oil and gas exploration and development operations, without compensation to the patentee for damages resulting from proper oil and gas operations, for the duration of the oil and gas leases printed above, and any authorized extension of those leases.

22. Those rights granted by geothermal lease Nos. N–49958, N–54748 pursuant to the Act of December 24, 1970 (30 U.S.C. 1001–1025). This patent is subject to the rights of the prior permittees or lessees to use so much of the surface of said land as is required for geothermal exploration and development operations, without compensation to the patentee for damages resulting from proper geothermal operations, for the duration of the geothermal leases, and any authorized extension of those leases.

Disposal of the above described land will be conditioned upon:

1. Execution of an agreement for a conservation easement to provide continued public access to and use of the Boies Reservoir in T. 43 N., R. 62 E., Section 24, W½.

2. Compensation for range improvements; any grazing permittee with a financial interest in an authorized permanent range improvement on the selected public lands will receive reasonable compensation for the adjusted value of their interest in accordance with Title 43 of the Code of Federal Regulations, Section 4120.3–6(c). Specific range improvements to be transferred are listed on pages 12–13 of Environmental Assessment #EA–NV–010–91–85.

3. Protection of cultural resources found to be eligible for listing on the National Register of Historic Places and/or significant paleontological sites. These sites will be mitigated or remain under the jurisdiction of the Bureau of Land Management.

4. Certification that there is no hazardous material contamination. If sites cannot be brought to Bureau standards the affected lands will not be transferred.

5. Partial revocation of withdrawal No. Nev-065863 which was issued to the Federal Energy Regulatory Commission as the holding agency, and Wells Rural Electric Company as the holder, its successors or assigns, pursuant to the Act of March 3, 1879, as amended (43 U.S.C. 31).

B. Clark County Selected Lands

Mount Diablo Meridian, Nevada

T. 19 S., R. 60 E.,
Sec. 6, Lots 13, 15–17;
Sec. 7, Lots 9–12, 15, 18–21.

Comprising 389.00 acres, more or less. The selected land in Clark County will be transferred only if the offered land values will permit with minimal equalization payment.

The patent, when issued, will contain the following reservations to the United States:

1. A right-of-way for ditches or canals constructed by the authority of the United States. Act of August 30, 1890 (43 U.S.C. 945).

2. All the oil, gas, sodium and potassium and any other minerals of known value.

And will be subject to:

1. Those rights for highway purposes granted to Nevada Department of Highways, its successors or assigns by

rights-of-way Nos. CC–018138, CC–018191, CC–018234, pursuant to the Act of November 9, 1921 (42 Stat. 216).

2. Those rights for communication line purposes granted to Nevada Bell, its successors or assigns by right-of-way No. CC–021488, pursuant to the Act of March 4, 1911, as amended (formerly 43 U.S.C. 961).

3. Those rights for highway purposes granted to Nevada Department of Transportation, its successors or assigns by right-of-way No. N–46063 pursuant to the Act of August 27, 1958, as amended (23 U.S.C. 317).

4. A right-of-way for flood control purposes to be granted to the City of Las Vegas on the south 150 feet of the SW¼ of Section 7, T. 19 S., R. 60 E., MDM, Nevada, pursuant to the Act of October 21, 1976 (43 U.S.C. 1761).

5. An easement of varying widths along the exterior boundaries of the property in favor of the City of Las Vegas, for road, public utilities and flood control purposes to insure continued ingress and egress to adjacent lands.

Disposal of the above described land will be conditioned upon certification that there is no hazardous material contamination. If sites cannot be brought to Bureau standards the affected lands will not be transferred.

II

In exchange for the above described public lands, the United States will acquire the following described private lands in (A) Elko County, Nevada, and (B) Clark County, Nevada, from Olympic Nevada, Inc.

A. Elko County Offered Lands

Mount Diablo Meridian, Nevada

Sec. 31, Lots 3, 4, 5(within), 6, 11, 14(within).
T. 42 N., R. 62 E.,
Sec. 6, SW¼NW¼.

Comprising 10,131 acres, more or less, and including four partial water rights or interests therein (vested water right Nos. #04831 (10%), #04832 (50%), #04848 (20%), #04854 (5%). All of Olympic Nevada Inc.'s interest in the surface of the private lands will be transferred. No mineral rights will be transferred.

Acquisition will be subject to all valid existing rights and reservations found in First American Title Company's Amended Preliminary Title Report Nos. EL–416465.TO, EL–416465.TO.

Acquisition of the above described land will be conditioned upon:

1. Transfer of the following range improvements appurtenant to the above described lands to the Bureau:

Bureau related Project No.	Improvement Name
0661	Glaser Hansen Fence.
0507	Dorsey-Jackstone Creek Fence.
0654	Jackstone Fence.
4271	Sherman Creek Fence.
4119	Tom Cain Fence.
N/A	Water Gap Fence.
5204	Tabor Creek Exclosure No. 3.
N/A	Fence along Marys River Floodplain.
0250	Bull Pasture Fence.
0095	Tabor Creek Cattle Guard.
0281	Grock Fence.
0731	West Tabor Seeding.
N/A	Allotment Boundary Fences.
N/A	Allotment Boundary Fences.

Certification that there is no hazardous material contamination. If sites cannot be brought to Bureau standards by Olympic Nevada, Inc., the affected lands will not be accepted.

B. Clark County Offered Lands

Sec. 31, Lot 2 (within).
T. 13 S., R. 70 E.,
Sec. 33, SE¼SE¼.
T. 14 S., R. 70 E.,
Sec. 7, Lot 1.

Comprising 3,178 acres, more or less. All of Olympic Nevada Inc.'s interest in the surface of the private lands and the mineral rights will be transferred. There are no water rights associated with these lands.

The lands to be acquired by the United States from Olympic Nevada, Inc. shall be subject to all valid existing rights and reservations found in Nevada Title Company's Preliminary Title Report Nos. 90–12–0335, 90–09–0255, 91–01–0415, 91–02–0081, 91–01–0726, 91–02–0139, 91–02–0080, 91–02–0053, 91–02–

0141, 91–02–0140, 91–01–0920, 91–02–0055, 91–02–0792, 91–02–1089, 91–03–0303, 91–08–0329, 91–04–0595, 91–02–0284, 90–12–0550, and in Las Vegas Title & Escrow Company's Preliminary Title Report No. 23550FQ.

Acquisition of the above described land will be conditioned upon certification that there is no hazardous material contamination. If sites cannot be brought to Bureau standards by Olympic Nevada, Inc., the affected lands will not be accepted.

SUPPLEMENTARY INFORMATION: This exchange mitigates the loss of property tax revenues resulting from a previous exchange. (See Decision Record from the Marys River Land Exchange, EA–010–90–050, May 1991.)

The exchange is consistent with, and implements decisions from both the Wells and Elko Resource Management Plans through consolidation of private and public land ownership patterns in both Resource Areas. The exchange will place public land into private ownership, increasing the tax base in Elko County; thereby mitigating the loss of tax base resulting from the Marys River Land Exchange.

The acquired lands in Clark County will facilitate Colorado River salinity control, provide potentially important recreational opportunities, as well as provide important habitat for wildlife and desert tortoise. Obtaining desert tortoise habitat will mitigate the loss of low potential tortoise habitat that exists on affected public lands in the city of Las Vegas, including those lands transferred in the earlier Marys River Land Exchange. This action also implements the Clark County Management Framework Plan by disposing of public land in the Las Vegas Valley.

All of the above described lands will be subject to an appraisal to determine the value of the lands to be exchanged. If necessary, land values may be equalized through an acreage adjustment and/or payment by the exchange proponent in accordance with 43 CFR 2201.5(c)(2).

It has been determined that disposal of these public lands by this exchange is of greater public benefit than allowing entry and possible disposal under the Desert Land Act. Therefore, the lands requested in the following desert land entry applications have been determined to be unsuitable for classification under the Desert Land Act: N–22404, N–22871, N–22872, N–22873, N–30389, N–38762, N–46470.

The Notice of Realty Action that was published in the **Federal Register** on May 28, 1991 repealed and replaced any and all land classifications on the above described public lands *nunc pro tunc*.

The grazing preference on the above described public lands in Elko and Eureka Counties will be deducted from grazing permits. Disposal of these public lands will result in reductions to the following grazing permits:

Permittee	Allotment	AUM reduction
Walter Winchell	Bishop Flat	111
Vernon Dalton	Cedar Hill	82
Lee Livestock	Chimney Creek	552
Kenneth Johns	City	39
Frank & Phyllis Hooper.	Clover Creek	212
Glaser Land & Livestock.	Coal Mine Basin	1,325
Gund Ranches	Cottonwood	204
Vernon Dalton	Dalton	15
Russell Ranches	Double Mountain	36
Van Norman Ranches.	Eagle Rock	917
N. Fork Cattle Co.	Evans	140
Maggie Creek Ranch.	Hadley	1,252
M. Jeffrey Dahl	Healfly	66
Robert Wright Co	Holborn	15
Frank & Phyllis Hooper.	Horsefly	465
W.H. Gibbs Co	Hotcreek	97
Boies Ranches	Hubbard Vineyard	88
Petan Company	Indian Creek	505
Miller & Wood Ranches.	Morgan Hill	33
Heguy Bros	Morgan Hill	3
Glaser Land & Livestock.	North Fork Group	1,187
Neff Ranches	Ruby #6	86
Neff Ranches	Ruby #5	22
Palisade Ranch	Safford Canyon	50
Pete Marble	Secret	144
J.M. Smiley, et al.	Smiley	9
Warm Springs Ranch.	Snow Water Lake	108
Gund Ranches	South Fork	592
Marys River Ranch.	Stormy	918
James Wright	Taylor Canyon	88
Walter Winchell	Town Creek	50
Dalton Livestock	Wells	46
Ray Mendive	Wild Horse Group	81
Reed Ranching Co.	Willow	23
Demar Dahl	Wood Hills	11

Unless the two year notification is waived for the above described deductions, deductions will occur on May 28, 1993 in accordance with 43 CFR 4110.4.

The public lands in Clark County are not within a grazing allotment, therefore no reduction in grazing privileges is required.

Livestock carrying capacity associated with the offered lands will be added to existing grazing permits in accordance with 43 CFR 4110.4. Upon acceptance of title, the offered lands will become public lands, thus resulting in the increase to the following grazing permits:

Permittee	Allotment	AUM increase
William Spratling	Black Butte	73
Glaser Land & Livestock.	Coal Mine Basin	926
Tabor Ck. Cattle Co.	Death	41
Boies Ranches	Hubbard Vineyard	8
Glaser Land & Livestock.	North Fork Group	797
Marys River Ranch.	Stormy	479

Future livestock grazing on the Clark County offered lands in Block I will be in accordance with the Tortoise Management Area stipulations.

The following described public lands in Elko County have moderate or high potential for certain minerals. The value of these minerals will be appraised with the surface estate and mineral interests will be transferred if consistent with the objectives of the exchange; otherwise, they will be reserved to the United States and included with those reservations listed under section I.A.3., or the lands will be dropped from the exchange.

a. Lands containing moderate or high potential for valuable minerals:

T. 45 N., R. 51 E.,
Sec. 7, S½;
Sec. 8, SW¼;
Sec. 17, W½;
Sec. 18, N½.
T. 40 N., R. 52 E.,
Sec. 25, Lots 5, 6;
Sec. 36, Lots 1, 2, 4–6, SE¼SW¼, SE¼.
T. 40 N., R. 53 E.,
Sec. 7, Lots 5–8, 12.
T. 38 N., R. 56 E.,
Sec. 18, S½.
T. 42 N., R. 61 E.,
Sec. 11, SW¼SE¼, W½SE¼SE¼;
Sec. 14, N½N½NE¼, SW¼NW¼NE¼.
T. 42 N., R. 61 E.,
Sec. 23, N½NW¼, SE¼NW¼.
T. 42 N., R. 61 E.,
Sec. 24, W½SW¼NW¼, SE¼SW¼NW¼.
T. 42 N., R. 61 E.,
Sec. 25, Lot 1(within), S½NW¼NE¼, N½SW¼NE¼.
T. 41 N., R. 61 E.,
Sec. 1, S½NW¼, SW¼.

b. Lands containing high potential for saleable minerals:

T. 31 N., R. 59 E.,
Sec. 10, SE¼SE¼SE¼.
T. 35 N., R. 59 E.,
Sec. 17, W½;
Sec. 18, N½, N½SE¼.

In accordance with the regulations of 43 CFR 2201.1(b), publication of this Notice shall segregate the affected public lands from appropriation under the public lands laws, including the mining laws, but not the mineral leasing laws, and from any subsequent land exchange proposals filed by any proponent other than Olympic Nevada, Inc. This segregation will terminate upon the issuance of patent or two years from the date of publication of the original Notice of Realty Action published in the **Federal Register** on May 28, 1991 (56 FR 24088), or upon publication of a notice terminating the segregation.

Further information regarding this exchange, including the Environmental Assessment, is available at the Elko District Office, Bureau of Land Management, P.O. Box 831, 3900 East Idaho Street, Elko, Nevada 89801. For a period of 45 days from the date of publication of this notice in the **Federal Register**, interested parties may submit comments to the District Manager, Elko District, at the above address. All objections will be reviewed by the Nevada State Director who may sustain, vacate, or modify this realty action. In the absence of timely objection, this realty action shall become the final determination of the Department of the Interior.

Dated: March 2, 1992.

Rodney Harris,

Elko District Manager.

BILLING CODE 4310–HC–M

[NV–02–4212–22]

Filing of Plats of Survey; NV

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The purpose of this notice is to inform the public and interested State and local government officials of the latest filing of Plats of Survey in Nevada.

EFFECTIVE DATE: Filing was effective at 10 a.m. on February 24, 1992.

FOR FURTHER INFORMATION CONTACT: John S. Parrish, Chief, Branch of Cadastral Survey, Bureau of Land Management, (BLM), Nevada State Office, 850 Harvard Way, P.O. Box 12000, Reno, Nevada 89520, 702–785–6543.

SUPPLEMENTARY INFORMATION: 1. The Plats of Survey of lands described below were officially filed at the Nevada State Office, Reno, Nevada on February 24, 1992:

Mount Diablo Meridian, Nevada

T. 34 N., R. 51 E.—Dependent Resurvey
T. 11 N., R. 21 E.—Dependent Resurvey and Survey

2. These surveys were accepted February 10, 1992, and were executed to meet certain administrative needs of the Bureau of Land Management.

3. The Plats of Survey of lands described below were also officially filed at the Nevada State Office, Reno, Nevada on February 24, 1992:

T. 21 S., R. 58 E.—Dependent Resurvey and Survey
T. 21 S., R. 59 E.—Dependent Resurvey and Survey

4. These surveys were accepted February 12, 1992, and were executed to meet certain administrative needs of the Bureau of Land Management.

5. The above-listed surveys are now the basic record for describing the lands for all authorized purposes. These surveys will be placed in the open files in the BLM Nevada State Office and will be available to the public as a matter of information. Copies of the surveys and related field notes may be furnished to the public upon payment of the appropriate fees.

Robert G. Steele,

Deputy State Director, Nevada.

BILLING CODE 4310–HC–M

(NV–050–92–4214–10; N–16095)

Determination Regarding Opening of Nellis Air Force Range Withdrawn Lands to Mineral Exploration and Development; NV

February 25, 1992.

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: In accordance with section 12 of Public Law 99–606, as amended by Public Law 100–338 in 1988, the Nevada State Director has determined, after conferring with the Commander, Nellis Air Force Base, that no withdrawn lands within the Nellis Air Force Range are suitable to opening for operation under the Mining Law of 1872, the Mineral Lands Leasing Act of 1920, as amended, the Mineral Leasing Act for Acquired Lands of 1947, the Geothermal Steam Act of 1970, or any one or more of such Acts. The Nellis Air Force Range is used as high hazard tactical and weapons training area and is closed to the public.

FOR FURTHER INFORMATION CONTACT: Curtis G. Tucker, Area Manager, Bureau of Land Management, Caliente Resource Area, Las Vegas District, P.O. 237, Caliente, Nevada 89008, 702–726–3141.

SUPPLEMENTARY INFORMATION: The Military Lands Withdrawal Act of 1986 (Pub. L. 99–606), as amended, provided for the withdrawal of lands for military purposes in four states, including 2,209,326 acres in Clark, Lincoln, and Nye Counties of Nevada for the Nellis Air Force Range (see **Federal Register** Notice Vol. 53, No. 131, pages 25694–25696, dated July 8, 1988, for the legal description of the affected lands). Section 12(a) requires that the Secretary of the Interior, with the concurrence of the Secretary of the appropriate military department, determine which, if any, of the withdrawn lands may be considered for opening to operation under the Mining Law of 1872, the Mineral Lands Leasing Act of 1920, as amended, the Mineral Leasing Act for Acquired Lands of 1947, the Geothermal Steam Act of 1970, or any one or more of such Acts. The Department of the Air Force has closed the Nellis Air Force Range from public access. The intent of the closure is threefold: to protect the public from injury due to ordnance hazards; to ensure that national security is not compromised; and to ensure that military programs can be conducted without disruption. Therefore, it has been determined that no withdrawn lands within Nellis Air Force Range are suitable to opening for mineral exploration and development.

Billy R. Templeton,

State Director, Nevada.

BILLING CODE 4310–HC–M

DEPARTMENT OF JUSTICE

[AAG/A Order No. 65–92]

Privacy Act of 1974; Modified System of Records

Pursuant to the Privacy Act of 1974 (5 U.S.C. 552a), notice is provided that the Department of Justice, Immigration and Naturalization Service, proposes to modify a system of records entitled, "Alien Status Verification Index, JUSTICE/INS–009," which was last published in the **Federal Register** (55 FR 49180) on November 26, 1990.

Section 101(d) of the Immigration Reform and Control Act (IRCA) of 1986 provides a congressional mandate for the Attorney General to study and report to Congress on the use of a Telephone Verification System (TVS) by employers to determine the employment eligibility of aliens. Executive Order 12781 authorizes a pilot project for a period of three years for this purpose. Therefore, the TVS is the basis for a new routine use designated as C. and for related changes which are consistent with the new routine use. In addition, routine use D. has been added to permit a private contractor access to perform

maintenance and administrative support operations, and further clarification of routine use A. as it relates to the issuance of "benefits" has been included as new routine use B. Finally, other changes have been made to clarify the system description. To the extent possible, the changes have been italicized for public convenience.

Title 5 U.S.C. 552a(e)(4) and (11) provide that the public be given a 30-day period in which to comment on any new use or intended use of information in the system. Therefore, please submit any comments by April 8, 1992. Comments may be submitted to Patricia E. Neely, Staff Assistant, Systems Policy Staff, Justice Management Division, Department of Justice, Washington, DC 20536 (Room 1103, CAB Building).

The modified system description is printed below.

Dated: February 26, 1992.

Harry H. Flickinger,

Assistant Attorney General for Administration.

JUSTICE/INS-009

SYSTEM NAME:

Alien Status Verification Index.

SYSTEM LOCATION:

Immigration and Naturalization Service (INS), 425 I Street NW., Washington, DC 20536.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals covered by provisions of the immigration and nationality laws of the United States.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system consists of an index of aliens and other persons on whom INS has a record as an applicant, petitioner, beneficiary, or possible violator of the Immigration and Nationality Act. Records *include* index and file locator data *such as last and first* name, alien registration number (or "A-file" number), date and place of birth, social security account number, date coded status transaction data *and* immigration status classification, *verification number, and an employment eligibility statement.*

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Sections 101 and 121 of the Immigration Reform and Control Act of 1986, 8 U.S.C. 1360, 8 U.S.C. 1324a, 20 U.S.C. 1091, 42 U.S.C. 1436a, 42 U.S.C. 1320b-7, and Executive Order 12781.

PURPOSE:

This system of records is used to *verify the alien's immigrant, non-immigrant, and/or eligibility status for any purpose consistent with INS statutory responsibilities.*

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Relevant information contained in this system of records may be disclosed as follows:

A. To a Federal, State, or local government agency, in response to its request in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

B. To authorized non-INS agencies and organizatons including Federal, State and local Government agencies, to perform their own automated verification of an alien's immigrant status or non-immigrant status and/or eligibility for employment, unemployment compensation or other benefits, when those entities have been authorized by Federal statute or Executive Order of the Presdient to obtain such verification from the INS. Such agencies and organizations are assigned appropriate access codes for remote access through secured terminals. Records may also be disclosed to these agencies for use in computer matching programs for the purpose of making eligibility determinations.

C. To employers for verifying the employment eligibility of aliens to work in the United States in compliance with employer sanctions of the 1986 Immigration Reform and Control Act. Employers are assigned secure access codes and will have access through touch-tone telephone and/or point of sale equipment.

D. To the private contractor for maintenance and for other administrative support operations (e.g., preparing for INS management reimbursable cost reports etc. based on user access), to the extent necessary to perform such contract duties.

E. To other Federal, State, or local government agencies for the purpose of verifying information in conjunction with the conduct of a national intelligence and security investigation or for criminal or civil law enforcement purposes.

F. To the news media and the public pursuant to 23 CFR 50.2 unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

G. To a Member of Congress or staff acting upon the Member's behalf when the Member of staff request the information on behalf of and at the request of the individual who is the subject of the record.

H. To the National Archives and Records Administration (NARA) and the General Services Administration in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored on magnetic disk and tape.

RETRIEVABILITY:

Records are indexed and retrievable by name and date and place of birth, or by name and social security account number, by name and A-file number.

SAFEGUARDS:

Records are safeguarded in accordance with Department of Justice *Orders governing security of automated records and Privacy Act systems of records.* Access is controlled by restricted password for use of remote terminals in secured areas.

RETENTION AND DISPOSAL:

A request for disposition authority is pending the approval of NARA.

SYSTEM MANAGER AND ADDRESS:

The *Assistant Commissioner, Records Systems Division,* Immigration and Naturalization Service, 425 I Street NW., Washington, DC., is the sole manager of the system.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the system manager listed above.

RECORD ACCESS PROCEDURES:

In all cases, requests for access to a record from this system shall be in writing. If a request for access is made by mail the envelope and letter shall be clearly marked "Privacy Act Request." The requester shall include the name, date and place of birth of the person whose record is sought and if known, the alien file number. The requester shall also provide a return address for transmitting the information.

CONTESTING RECORD PROCEDURES:

Any individual desiring to contest or amend information maintained in the system should direct *his or her* request to the System Manager or to the INS office that maintains the *file.* The request should state clearly what information is being contested, the reasons for contesting it, and the proposed amendment to the information.

RECORD SOURCE CATEGORIES:

Basic information contained in this system is taken from Department of State and INS applications and reports on the individual.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

[FR Doc. 92-5125 Filed 3-4-92; 8:45 am]

BILLING CODE 4410-10-M

Notice of Lodging of Consent Decree Pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act

In accordance with Departmental policy, 28 CFR 50.7, notice is hereby given that on February 27, 1992, a proposed Consent Decree in *United States* v. *Olin Hunt Specialty Products, Inc. et al,* Civil No. CA-920106, was lodged with the United States District Court for the District of Rhode Island resolving the matter. The proposed Consent Decree concerns the response to the existence of hazardous substances at the Western Sand Site ("Site") in Smithfield and Burrillville, Rhode Island, pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act, as amended.

Under the terms of the Consent Decree, five (5) parties agree to perform the entire remedial design and remedial action for the third operable unit for the Site, including full reimbursement of future oversight costs associated with the remedy. The remedial action to be performed for the third operable unit includes:

1. Restoration of contaminated groundwater by natural attenuation with contingent active restoration;

2. Utilization of institutional controls to reduce the risk to pubic health from consumption of the groundwater; and

3. Implementation of a site monitoring program that shall include, at a minimum, long-term monitoring of the overburden groundwater.

The remedy has an overall expected cost, including oversight costs, of $4,746,799.00. Thirty-three (33) additional parties agree to contribute $1,574,816.18 toward the cost of the remedial design and remedial action. The defendants also will reimburse the United States for $850,074.39 in past costs related to the Site.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the proposed Consent Decree. Comments should be addressed to the Assistant Attorney General of the Environment and Natural Resources Division, Department of Justice, Washington, DC 20530, and should refer to *United States* v. *Olin Hunt Specialty Products, Inc., et al.,* D.J. Ref. 90-11-2-688.

The proposed Consent Decree may be examined at the Region 1 Office of the Environmental Protection Agency, One Congress Street, Boston, Massachusetts. Copies of the Consent Decree may be examined at the Environmental Enforcement Section Document Center, 601 Pennsylvania Ave., NW., Box 1097, Washington, DC 20044, (202) 347-7829. A copy of the proposed Consent Decree (excluding Appendices) may be obtained in person or by mail from the Document Center. In requesting a copy, please refer to the referenced case and enclose a check in the amount of $32.50 (25 cents per page reproduction cost) made payable to Consent Decree Library.

Barry M. Hartman,

Acting Assistant Attorney General, Environment and Natural Resources Division.

BILLING CODE 4410-01-M

Antitrust Division

United States v. Borland International, Inc., et al.; Comments and Response on Proposed Final Judgment

Pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. 16(a) and (b), the United States publishes below the comments it received on the proposed Final Judgment in *United States* v. *Borland International, Inc. and Ashton-Tate Corporation,* Civil Action No. C 91 3666 MHP, United States District Court for the Northern District of California, together with the response of the United States to those comments.

Copies of the response and the public comments are available on request for inspection and copying in room 3233 of the Antitrust Division, U.S. Department of Justice, Tenth Street and Pennsylvania Avenue, NW., Washington, DC 20530 and for inspection at the Office of the Clerk of the United States District Court for the Northern District of California, 450 Golden Gate Avenue, San Francisco, California.

Joseph H. Widmar,

Director of Operations, Antitrust Division.

In the matter of *United States of America,* Plaintiff, v. *Borland International, Inc., and Ashton-Tate Corporation,* Defendants.

Patricia A. Shapiro, Brent E. Marshall, Kenneth W. Gaul, Attorneys, U.S. Department of Justice, Antitrust Division, 555 Fourth Street, NW., Washington, DC 20001, (202) 514-5798, Counsel for Plaintiff, United States of America.

Filed: 2/28/92.

[Civil Action No. C 91 3666 MHP]

Response of the United States to Public Comments and Motion of the United States for Entry of Final Judgment

Pursuant to section 2(b) of the Antitrust Procedures and Penalties Act (15 U.S.C. 16(b)-(g)) ("APPA"), the United States of America hereby files its Response to Public Comments and moves for entry of the proposed Final Judgment in this civil antitrust proceeding.

I. Introduction

After carefully reviewing the comments submitted on the proposed Final Judgment, the United States remains convinced that entry of the proposed Final Judgment is in the public interest.

II. Background

This action began on October 17, 1991, when the United States filed a complaint alleging that the acquisition of Ashton-Tate Corporation ("Ashton-Tate") by Borland International, Inc. ("Borland") violated section 7 of the Clayton Act, 15 U.S.C. 18. The complaint alleged that the effect of the acquisition may be substantially to lessen competition in the sale of relational database management system ("RDBMS") software for IBM and IBM-compatible personal computers ("PCs") running the MS-DOS/PC-DOS operating system ("DOS") in the United States.

On October 17, 1991, the United States filed a Stipulation between the United States and defendants Borland and Ashton-Tate for entry of the proposed Final Judgment, and on October 22, 1991, the United States filed a Competitive Impact Statement explaining the basis for the complaint and for the United States' conclusion that entry of the proposed Final Judgment would be in the public interest. The proposed Final Judgment provides relief by enjoining Borland from initiating any claim that asserts copyright infringement in the command names, menu items, menu command hierarchies, command

languages, programming languages, and file structures used in Ashton-Tate's dBASE family of products and directing Borland to dismiss Ashton-Tate's pending copyright suit against Fox Software, Inc. ("Fox"), with prejudice within fifteen days following the dismissal with prejudice of Fox's counterclaims against Ashton-Tate.

The Stipulation provides that the proposed Final Judgment may be entered by the Court after completion of the procedures required by APPA.

III. Compliance With APPA

Upon publication of this Response in the **Federal Register**,[1] the procedures required by APPA will be completed, and the Court may enter the proposed Final Judgment. The United States hereby certifies that it has complied with all the other provisions of the APPA, 15 U.S.C. 16(b)–(d) and states:

A. Stipulation, Proposed Final Judgment and Competitive Impact Statement

The United States has caused the Stipulation between the parties for entry of the proposed Final Judgment and the proposed Final Judgment to be filed with the Court on October 17, 1991, and the Competitive Impact Statement, in the form prescribed by 15 U.S.C. 16(b), to be filed with the Court on October 22, 1991, and it has caused those documents to be published in the **Federal Register** (56 FR 56096, October 31, 1991).[2] It has also furnished copies of these documents to all persons who have requested them.

B. Newspaper Notices

The United States has caused newspaper notices of the proposed Final Judgment and its Competitive Impact Statement to be published in the San Francisco Chronicle and Washington Post in accordance with the procedures set forth in 15 U.S.C. 16(c).[3]

C. Statements Regarding Communications

As required by 15 U.S.C. 16(g), defendants Borland and Ashton-Tate on October 22, 1991, filed with the Court a description of communications, by or on behalf of the defendants, with officers and employees of the United States concerning the proposed Final Judgment.

D. Waiting Period, Comments and Publication of Comments and Response

The 60-day comment period prescribed in 15 U.S.C. 16(d) expired on January 2, 1992. The United States received two comments between October 31, 1991 and January 2, 1992. In accordance with the APPA, the United States has evaluated the two comments and responds to them below.[4]

E. Response to Comments

The United States received two comments regarding the proposed Final Judgment—one from the American Committee for Interoperable Systems ("ACIS") [5] and the other from plaintiffs in *Expert Information Service, Inc.* verses *Ashton-Tate Corporation*, Civ. No. 91–0893 TJH (C.D. Calif., filed Feb. 19, 1991) ("*EIS*").[6] Both comments address the terms of the proposed Final Judgment from the perspective of improper extension of intellectual property protection and copyright law.

ACIS supports the proposed Final Judgment, recognizing that "the United States expresses no view on the validity or invalidity of any claims to copyright protection by any party * * *." *ACIS Comments* at 6, *citing* 56 FR 56096 at 56100. ACIS does state, however, that while "the Antitrust Division reached its conclusion * * * on the antitrust merits, the relief contained in the proposed Final Judgment is consistent with copyright principles." *ACIS Comments* at 2.

ACIS expresses a concern with reference to section IV.B of the proposal Final Judgment's use of the phrase "structure, sequence and organization" of computer program code. ACIS urges removal of the reference because it is not an accepted term of art either in the computer industry or under copyright law and because the Copyright Office will not register a copyright in the structure, sequence and organization of a computer program. *Id.* at 7 n.4. Section IV.B, however, does not impose any obligations on Borland nor does it create any rights in any party, it merely clarifies that Borland is not prevented from asserting copyright claims except for those claims specifically barred by section IV.A. The United States takes no position on the degree of protection, if any, afforded the phrase "structure, sequence and organization" or any other therm listed in section IV.B. The United States, therefore, does not believe that this change is necessary for the proposed Final Judgment to adequately address the antitrust violations alleged in the complaint.

The *EIS* plaintiffs, a class of dBASE software consumers, disapprove of the proposed Final Judgment because it has no effect on their class action suit challenging the validity and appropriateness of Ashton-Tate's copyright claims related to its dBASE software. First, *EIS* suggests that if the Fox claims against Ashton-Tate are valid, then the class claims are also valid, and thus if settling the Fox claims is a condition to approving the acquisition, then settling the class claims should also be a condition. Second, they suggest that the proposed Final Judgment raises issues regarding the validity of Ashton-Tate's copyrights, and therefore, the *EIS* plaintiffs should be included as parties to the proposed Final Judgment.

These arguments are based on a misunderstanding of the antitrust nature of this proceeding and of the relief contained in the proposed Final Judgment. First, as previously described, this is an antitrust case brought by the United States because it concluded that Borland's acquisition of Ashton-Tate violated section 7 of the Clayton Act. As stated in the Competitive Impact Statement, in settling the case

> the United States sought to assure the continued availability of competitive alternatives by requiring Borland to relinquish certain copyright claims acquired through its acquisition of Ashton-Tate. In requiring this relief, *the United States expresses no view on the validity or invalidity of any claims to copyright protection by any party to this Final Judgment or any third party or on the appropriateness of asserting any such claims.*

Competitive Impact Statement at 10–11, 59 FR at 56100. (emphasis added). The purpose of the relief was to protect against the possible exercise of market power by Borland after the acquisition, not to provide redress for any alleged

[1] Upon filing of this Response with the Court, the United States began procedures for publication of this Response in the **Federal Register**. Publication in the **Federal Register** generally takes five to seven days. The United States will advise the Court of the **Federal Register** publication date. The United States is required to publish its Response and the public comments one time in the **Federal Register**.

[2] A copy of the **Federal Register** notice is attached to this Response as exhibit A.

[3] A copy of the Certificates of Publication are attached to this Response as exhibit B.

[4] The two comments are attached to the Response as exhibit C. An appendix of court documents to the Expert Information Services, Inc. plaintiffs' comment may be requested for inspection and copying at room 3233, Antitrust Division, Department of Justice, Washington, DC 20530 and at the Office of the Clerk of the United States District Court for the Northern District of California.

[5] ACIS is an informal organization of companies that develop innovative software and hardware products that interoperate with computer systems developed by other companies.

[6] The *EIS* plaintiffs brought a class action on behalf of themselves and all other similarly situated dBASE program purchasers and licensees, to recover damages and obtain injunctive relief against Ashton-Tate for illegally enforcing invalid copyrights and thereby monopolizing or attempting to monopolize the database management system market in violation of the federal antitrust laws. The *EIS* plaintiffs also allege RICO, 18 U.S.C. 1961, *et seq.*, violations, and state law claims for breach of contract, fraud and deceit, negligent misrepresentation, unfair competition and unjust enrichment.

exercises of market power unrelated to the acquisition.

Moreover, the United States expressly disclaimed any views as to the validity or invalidity of any claims to copyright protection. *Id.* The validity of Fox' claims, *i.e.*, its counterclaims against Ashton-Tate, is not at issue in this antitrust case, nor is settlement of these claims a pre-condition to approving the acquisition. Thus, even if Ashton-Tate's claims and Fox' counterclaims present issues also present in the *EIS* class action, the *EIS* plaintiffs have stated no basis that makes their claims relevant to the resolution of this antitrust case or justifies their inclusion as parties to the proposed Final Judgment.

The issue in an APPA proceeding is "[w]hether the relief provided * * * was adequate to remedy the antitrust violations alleged in the complaint." [7] The comments do not dispute the United States' conclusion that the relief provided by the proposed Final Judgment effectively will remedy the antitrust violations alleged in the Complaint. The proposed Final Judgment will guard against possible anticompetitive effects which might have otherwise occurred as a result of the proposed acquisition. The prohibition against Borland initiating any claim that asserts copyright infringement in the programming languages, commands, menus, and file structures used in Ashton-Tate's dBASE family of products, and related relief regarding the existing lawsuit against Fox, will maintain competition in the market for RDBMS software for the DOS operating system.

The comments raise no new contentions related to competition that have not already been considered by the United States before agreeing to the proposed Final Judgment and contain no factual or policy arguments that would justify a judicial refusal to enter the proposed Final Judgment.

In sum, the public comments on the proposed Final Judgment do not demonstrate that the proposed Final Judgment would be inadequate to address the antitrust violations alleged in the complaint and do not provide grounds for rejecting, or even modifying, the proposed Final Judgment. To the extent that the comments relate to copyright claims and other issues of copyright law, it is unnecessary for this Court to resolve such issues to find the proposed Final Judgment is in the public interest.

F. Public Interest Determination

Pursuant to the Stipulation filed on October 17, 1991, and 15 U.S.C. 16(e), the Court may enter the proposed Final Judgment after it determines that the proposed Final Judgment serves the public interest. The United States' Competitive Impact Statement demonstrates that the proposed Final Judgment satisfies the public interest standard of 15 U.S.C. 16(e). Accordingly, the United States requests that this Court enter the proposed Final Judgment without further hearings. Counsel for Defendants have authorized the United States to state that Defendants join in this request.

IV. Conclusion.

For the reasons set forth in the Competitive Impact Statement and this Response, the Court should find that the proposed Final Judgment is in the public interest and should enter the proposed Final Judgment after publication of this Response in the **Federal Register**.

Respectfully submitted,

Constance K. Robinson,
Chief, Communications & Finance Section.
Richard L. Rosen,
Assistant Chief, Communications & Finance Section.
United States Department of Justice, Antitrust Division.
Patricia A. Shapiro,
Brent E. Marshall,
Kenneth W. Gaul,
Attorneys, United States Department of Justice, Antitrust Division, 555 Fourth Street, NW., Room 8104, Washington, DC 20001, (202) 514–5796.

Dated: February 28, 1992.

Exhibits A and B

Exhibit A, the Final Judgment as originally proposed, the Competitive Impact Statement, and the Stipulation, previously were published in the **Federal Register** (56 FR 56096, October 31, 1991) and are not republished herein. Exhibit B, copies of affidavits of publication of newspaper notices of the proposed Final Judgment and Competitive Impact Statement, also are omitted from publication herein; these may be requested for inspection and copying at room 3233, Antitrust Division, Department of Justice, Washinton, DC 20530 and at the Office of the Clerk of the United States District Court for the Northern District of California.

Exhibit C

December 27, 1991

Ms. Constance K. Robinson,
Chief, Communication and Finance Section, Antitrust Division, U.S. Department of Justice, 555 4th Street, NW., Room 8104, Washington, DC 20001

Re: *United States v. Borland International, Inc., et al.*

Dear Ms. Robinson: Attached are the comments of the American Committee for Interoperable Systems on the Proposed Final Judgment in the above-referenced case. We understand that pursuant to 15 U.S.C. 16(d) these comments, along with the Antitrust Division's response, will be published in the **Federal Register**. If you have any questions concerning these comments, please do not hesitate to contact me.

Sincerely,

Peter M.C. Choy

Attachment

Comments of The American Committee for Interoperable Systems on the Proposed Final Judgment in United States v. Borland International, Inc., et al.

The American Committee for Interoperable Systems ("ACIS") is an informal organization of companies that develop innovative software and hardware products that interoperate with computer systems developed by other companies.[1] The members of ACIS believe that computer programs deserve strong intellectual property protection to provide developers with sufficient incentives to create new computer programs. At the same time, ACIS members are concerned that the improper extension of intellectual property protection generally, and copyright law in particular, will impede innovation and inhibit fair competition in the U.S. computer industry. ACIS therefore seeks the adoption of legal standards that reflect copyright law's long-established plan, in which "Congress balanced the competing concerns of providing incentive to authors to create and of fostering competition in such creation." *Kern River Gas Transmission Co. v. Coastal*

[7] *United States v. Bechtel Corp.*, 1979–1 Trade Cas. (CCH) ¶ 62,429 (N.D. Cal. 1979), *aff'd*, 648 F. 2d 660, 665 (9th Cir. 1981), cert denied, 454 U.S. 1083 (1982) See also *United States v. National Broadcasting Companies*, 449 F. Supp. 1127, 1144 (C.D. Cal. 1978), citing *United States v. Automobile Manufacturers Ass'n.*, 307 F. Supp. 617, 621, (C.D. Cal. 1969), *aff'd per curiam sub nom. City of New York v. United States*, 397 U.S. 248 (1970) ("[i]n evaluating a proposed consent decree, one highly significant factor is the degree to which the proposed decree advances and is consistent with the government's original prayer for relief, [citations omitted]").

[1] The members of ACIS are: Amdahl Corporation, Bull HN Information Systems, Inc., Chips and Technologies, Inc., Clearpoint Research Corporation, Comdisco, Inc., Emulex Corporation, Forecross Corporation, Informix Software Corporation, Johnson-Laird Inc., Kapor Enterprises, Inc., Landmark Systems Corporation, NCR Corporation, Phoenix Technologies Ltd., Seagate Corporation, Software Association of Oregon, Storage Technology Corporation, Sun Microsystems, Inc., Systems Center, Inc., 3Com Corporation, Unisys Corporation, and Zenith Data Systems Corporation.

Corp., 899 F.2d 1458, 1463 (5th Cir.), *cert. denied*, 111 S. Ct. 374 (U.S. 1990).

As discussed below in greater detail, a copyright claim in a computer interface standard can effectively—and improperly—be leveraged into market power over products conforming to the standard, a result that offends traditional principles of copyright law as well as public policy. Although the Antitrust Division reached its conclusion in this case on the antitrust merits, the relief contained in the Proposed Final Judgment is consistent with copyright principles. Because copyright law can so easily be misused to establish monopoly power in software markets, ACIS requests that the Antitrust Division become more active in the development of U.S. copyright law and the formation of the U.S. government's international copyright law policies, with the aim of ensuring continued competitiveness of domestic companies in the dynamic software industry.

* * * * *

The Competitive Impact Statement correctly recognizes that Ashton-Tate's dBASE has become a programming language standard in the database management software market. 56 FR 56096 at 56100 (1991). The widespread use of dBASE has resulted in a large pool of trained users, applications developers, and compatible tools that in turn promote further use of dBASE. *Id.* at n.6. Existing customers of dBASE find it difficult to switch away from dBASE to a rival standard "because there are considerable costs associated with switching, including (1) rewriting end user applications written for * * * [dBASE] software; (2) retraining * * * end users and (3) reconfiguring data file structures * * *" *Id.* Further, Ashton-Tate's assertion of copyright claims to dBASE has inhibited competition from other vendors of dBASE products. *Id.* Ashton-Tate, consequently, has a tight grasp on its existing customers because switching from dBASE will be prohibitively expensive, and Ashton-Tate has eliminated competition from other potential dBASE vendors by its assertion of copyright claims to dBASE. Moreover, because dBASE is the industry standard with a large pool of trained end users and numerous compatible tools, even new customers often have little choice but to submit to Ashton-Tate's costly embrace.

This pattern of leveraging a copyright claim in a *de facto* standard into market power over products conforming to the standard is a familiar one in the computer industry, largely because of the unique nature of computer programs. Traditional copyrightable works such as novels and poems stand alone and do not need to interact with any other work. Computer programs, by contrast, never stand by themselves; they function only by interacting with the computer environment in which their developer places them. This environment is extremely unforgiving. Unless the program conforms to the precise rules for interacting with the other elements of the system, no interaction between the program and the system is possible. These rules of interaction—or interface specifications, in computer parlance—include the language in which the program is written, such as dBASE. If the developer of the first computer program to conform to these interface specifications could use copyright law to prevent all subsequent developers from writing programs that conform to these interface specifications, the first developer could prevent all subsequent developers from filling a similar market niche in the computer system.

Such a broad monopoly would have serious implications for consumer welfare. In the absence of competition, the first developer would have little incentive to develop more innovative and less costly products. Further, similar monopolies would exist everywhere computer programs are used in a computer system, *e.g.*, applications software, system software such as the operating system, and the software embedded in peripherals such as terminals, printers and memory devices. In many instances these monopolies would be held by the computer company that developed the entire system. Given the purchaser's large initial investment in the computer system, the purchaser would be "locked" into products offered—and monopoly rents would be charged—by the first entrant if the purchaser ever wanted to expand or upgrade its system. The first entrant would effectively become the only entrant.

ACIS believes that to allow copyright to confer such sweeping monopoly power would contradict three related, traditional copyright principles, each a different articulation of the idea/expression dichotomy codified at section 102(b) of the Copyright Act.[2] First, the copyright "monopoly" in the expression describing or implementing a system does not extend to the system itself. See *Baker* v. *Selden*, 101 U.S. 99 (1879). Second, functionally dictated elements are not protectable. See *Plain Cotton Co-op* v. *Goodpasture Computer Serv.*, 807 F.2d 1256, 1262 (5th Cir.), *cert. denied*, 484 U.S. 821 (1987); 1 P. Goldstein, *Copyright Principles, Law & Practice*, § 2.15.1.2. at 204 (1989) ("Goldstein"). Third, when an idea can be expressed only in a limited number of ways, the idea and the expression merge, making the expression unprotectable. *E.g.*, *Herbert Rosenthal Jewelry Corp.*, v. *Kalpakian*, 446 F.2d 738 (9th Cir. 1971). See 1 Goldstein § 2.15 at 196 (1989). Thus, the Final Report of the National Commission on New Technologies Uses of Copyrighted Works ("CONTU Report") [3] observed that

> * * * copyrighted language may be copied without infringing when there is but a limited number of ways to express a given idea. This rule is the logical extension of the fundamental principle that copyright cannot protect ideas. In the computer context, this means that when specific instructions, even though previously copyrighted, are the only and essential means of accomplishing a given task, there later use by another will not amount to an infringement.

CONTU Report at 20.

The trust of these historic principles is that a copyright owner's monopoly in its expression should not, however inadvertently, give it a monopoly over the ideas expressed. To be sure, Congress has provided for the grant of monopoly power over product interconnections—but under patent law, not copyright law. A patent for an invention will issue only if the invention meets the Patent Act's exacting standards of novelty and nonobviousness. It is not the role of copyright law to confer patent-like protection on computer programs, particularly where the program has not passed the scrutiny of the Patent and Trademark Office. See CONTU Report at 20.

ACIS recognizes that in seeking the relief contained in the Proposed Final Judgment , "the United States expresses no view on the validity or invalidity of any claims to copyright protection by any party * * *." 56 FR 56096 at 56100 (1991). Nevertheless, the proposed relief—enjoining Borland from asserting copyright claims in the dBASE programming language—is consistent with the foregoing copyright principles. The dBASE language is uncopyrightable under section 102(b) because it is a (1) functionally dictated (2) system that (3) as a *de facto* industry standard can be expressed only in a limited number of ways. Accordingly, ACIS supports the proposed relief.[4]

Further, although the Antitrust Division reached its conclusion in this case on the antitrust merits, rather than the copyright merits, the Division's examination of Borland's proposed acquisition of Ashton-Tate must have made it aware of the extraordinary market power that copyright can create in the computer industry. As the foregoing discussion indicates, the proper application of copyright law will not confer such market power; properly applied, copyright will never protect interface specifications, including programming languages such as dBASE. Unfortunately, a handful of courts, notably *Whelan Associates, Inc.* v. *Jaslow Dental Laboratory, Inc.*, 797 F.2d 1222 (3d Cir. 1986), *cert. denied*, 479 U.S. 1031 (1987), have improperly applied copyright to computer programs, effectively granting the copyright holder sweeping market power. These decisions, if followed, threaten the competitive environment of the computer industry.[5] ACIS strongly urges the Antitrust Division to use its considerable resources in economic and policy analysis, together with the knowledge it acquired in connection with this transaction, to study the potential and actual misuse of copyright in this industry both by dominant firms and by the courts. The Division should participate as an *amicus curiae* in those cases where the improper (*i.e.*, overbroad) application of copyright law will have serious antitrust consequences.

Additionally, ACIS urges the Antitrust Division to become more active in the formation of the U.S. government's international copyright law policies. The copyright positions taken by the U.S. government in international fora should reflect the careful balance between the encouragement of competition and rewards to creativity struck by the U.S. Copyright Act. More active participation by the Division in the development of the U.S. government's international copyright law positions will ensure proper emphasis on the encouragement of competition, which in turn will ensure the continued competitiveness of domestic companies in the dynamic global software industry.

In sum, copyright law and copyright policy have a direct impact on competition in the U.S. computer industry. The Antitrust Division should help the courts and the U.S. government find the proper balance between protection and competition in this critical industry.—December 27, 1991.

Federal Express

December 13, 1991.

Constance K. Robinson,

Chief, Communications & Finance Section, Antitrust Division, room 8104, 555 Fourth Street NW., Washington, DC 20001

Re: *Expert Information Services, Inc. et al. v. Ashton-Tate Corporation, Case No. 91-0893 TJH (TX)*

Dear Ms. Robinson: Plaintiffs in the above-mentioned case (The "E.I.S. Plaintiffs") submit the following in response to the proposed Agreement in acquisition of Ashton-Tate Corporation ("Ashton-Tate") by Borland International ("Borland") pursuant to the 60-day comment period provision in the Antitrust Procedures and Penalties Act, 15 U.S.C. § 16(b)–(h).

The E.I.S. Plaintiffs brought a class action on behalf of themselves and all others similarly situated dBase program purchasers and licensees, to recover damages and obtain injunctive relief against defendant Ashton-Tate for illegally enforcing invalid copyrights and thereby monopolizing or attempting to monopolize the database management system market in violation of the federal antitrust laws. Further, plaintiffs allege RICO, 18 U.S.C. § 1961, *et seq.*, violations, and state law claims for breach of contract, fraud and deceit, negligent misrepresentation, unfair competition and injust enrichment. (*See*, Complaint attached at Exhibit "A").

Counsel for the E.I.S. Plaintiffs recently became aware of the proposed Agreement in acquisition of Ashton-Tate by Borland. The proposed agreement would enjoin Borland from suing competitors for copyright infringement based upon Ashton-Tate's dBase programming language. Further, the proposed consent decree directs Borland, within 90 days from the entry of the final judgment, to attempt to resolve *Ashton-Tate Corp. v. Fox Software, Inc., et al.*, No. CV 88-6837 TJH (TX), (the "Fox case") a case in which Fox Software claims that Ashton-Tate's conduct constitutes, among other things, fraud and inequitable conduct and monopolization and attempt to monopolize. (*See*, Fox's Answer, Affirmative Defenses and Counterclaims at 12 and 15 attached as Exhibit "B").

The E.I.S. Plaintiffs disapprove of the proposed agreement for the following reasons. First, if the claims by Fox are valid, then it follows that the class claims on behalf of consumers for direct purchases are also valid. Therefore, we respectfully suggest that if settlement of the Fox claims is a condition to merger approval, a settlement of the companion consumer claims should also be a condition to merger approval.

Second, in any event, the E.I.S. Plaintiffs believe that they should be a party to the agreement because the agreement raises issues concerning the validity of the Ashton-Tate's copyrights in the command names, menu items, menu command hierarchies, command languages, programming languages and file structures used in Ashton-Tate's dBase products. These issues are at the core of the E.I.S. Plaintiffs' case and the E.I.S. Plaintiffs should have some input in resolving these matters.

The E.I.S. Plaintiffs respectfully request the opportunity to fully address the problems and concerns mentioned herein.

Sincerely,

H. Laddie Montague, Jr.,

Co-counsel for the E.I.S. Plaintiffs.

[2] 17 U.S.C. 102(b) provides that "[i]n no case does copyright protection for an original work of authorship extend to any idea, procedure, process, system, method of operation, concept, principle, or discovery * * *."

[3] CONTU was created by Congress to study, *inter alia*, computer uses of copyrighted works. Public Law No. 96-517, 94 Stat. 3015, 3028 (1980). In adopting the CONTU recommendations into law, Congress accepted the CONTU majority's proposals almost verbatim, and therefore the report may be considered as accepted by Congress. *See Apple Computer, Inc.* v. *Franklin Computer. Corp.*, 714 F.2d 1240, 1252 (3d Cir. 1983), *cert. dismissed*, 464 U.S. 1033 (1984).

[4] Of course, programs written in dBASE are copyrightable, and ACIS agrees that Borland should be permitted to assert copyright protection in the computer code of programs written in dBASE. ACIS is concerned, however, with the reference in the Proposed Final Judgment at IV.B to the protectability of the "structure, sequence, and organization" of computer program code. The phrase "structure, sequence, and organization" is not an accepted term of art either in traditional copyright law or computer programming. Further, the Copyright Office refuses to register a copyright in the "structure, sequence and organization" of computer programs. Accordingly, we strongly urge that the reference to "structure, sequence and organization" be deleted from the Proposed Final Judgment.

[5] Numerous courts have awarded computer programs an appropriate scope of protection. See, *e.g.*, *Plains Cotton Co-op* v. *Goodpasture Computer Serv.*, 807 F.2d 1256, 1262 (5th Cir.), *cert. denied*, 484 U.S. 821 (1987); *Engineering Dynamics, Inc.* v. *Structural Software, Inc.*, Civ. No. 89-1655, 1989 WL 81305 (E.D. La. Aug. 29, 1991); *Computer Associates International, Inc.* v. *Altai, Inc.*, No CV89-0611 (E.D.N.Y. Aug. 19, 1991).

Joseph H. Widmar,

Director of Operations, Antitrust Division.

Hon. George W. Lindberg

Notice of Filing

Filed: March 4, 1992.

TO: Attached Service List

Please Take Notice That on Wednesday, March 4, 1992, the United States filed with the Clerk of the United States District Court for the Northern District of Illinois, Eastern Division, the comment on the proposed final judgment and the United States' response to the comment, a copy of which is attached hereto and herewith served upon you.

Dated: March 2, 1992

Michael L. Scott,

Antitrust Division, United States Department of Justice.

Certificate of service

I, Michael L. Scott, attorney, certify that a copy of the attached comment on the proposed final judgment and the United States' response to the comment, was mailed, first class, postage pre-paid to the following counsel on the 3rd day of March, 1992:

William F. Baxter, Shearman & Sterling, 555 California Street, San Francisco, CA 94014.
Glen S. Howard, W. Todd Miller, Sutherland, Asbill & Brennan, 1275 Pennsylvania Avenue, NW., Washington, DC 20004–2402.
Donald I. Baker, Jones, Day, Reavis & Pogue, 1450 G Street, NW., Washington, DC 20005.
Gary L. Starkman, Ross & Hardies, 150 N. Michigan Avenue, Suite 2500, Chicago, IL 60601.
Gilbert A. Abramson, Thomas S. McNamara, Abramson, Freedman & Thall, PC., 2128 Locust Street, Philadelphia, PA 19103.
Martin A. Miller, Chertow & Miller, 30 North LaSalle Street, Chicago, IL 60602.
James G. Rosenberg, Scott D. Patterson, Paul M. Hummer, Thomas W. Sheridan, Saul, Ewing, Remick & Saul, 3800 Centre Square West, Philadelphia, PA 19192.

Dated: March 2, 1992.

Michael L. Scott

Comment on the Proposed Final Judgment and the United States' Response to the Comment

Pursuant to the requirements of the Antitrust Procedures and Penalties Act ("APPA"), 15 U.S.C. 16(b)-(h), the United States hereby files the attached comment on the proposed Final Judgment in the above-captioned civil antitrust proceeding, together with the United States' response to the comment.

This action commenced on October 1, 1991, when the United States filed a Complaint alleging that Varian Associates, Inc. and Richardson Electronics, Ltd. conspired to monopolize certain markets for power grid electron tubes. The United States also filed a proposed Final Judgment, a Stipulation signed by each of the parties stipulating to entry of the Final Judgment, and a Competitive Impact Statement.

The APPA requires a sixty-day period for the submission of public comments on the proposed Final Judgment. 15 U.S.C. 16(b). During this sixty-day period, the United States received one comment on the proposed Final Judgment, a November 6, 1991, letter from Michael Matich of M & S Communications Engineering. The United States considered the comment and sent a written response to Mr. Matich.

Pursuant to 15 U.S.C. 16(e), the proposed Final Judgment can be entered only after the Court determines that the Judgment is in the public interest. The focus of this determination is whether the relief provided by the proposed Final Judgment is adequate to remedy the antitrust violations alleged in the Complaint. *United States* v. *Bechtel Corp.*, 1979–1 Trades Cases (CCH) ¶ 62,430 (N.D.Cal. 1979), *aff'd*, 648 F.2d 660, 665 (9th Cir. 1981), cert. denied, 454 U.S. 1083 (1982). After careful consideration of the comment, the United States continues to believe that for the reasons stated in the response to the comment and in the Competitive Impact Statement, the proposed Final Judgment will remedy the violations alleged in the Complaint. Entry of the proposed Final Judgment is in the public interest.

After the comment and the response have been published in the **Federal Register**, pursuant to 15 U.S.C. 16(d) of the APPA, the United States will move this Court for entry of the proposed Final Judgment.

Dated: March 2, 1992.

Respectfully submitted,

Michael L. Scott,

Attorney, Antitrust Division, United States Department of Justice.

M & S Communications Engineering, 14191 Executive Lane, Nevada City, California 95959, (916) 272–5500, Fax (916) 272–5083.

November 6, 1991.

Terry Lubeck: Enclosed is a letter I received from Varian on October 23, 1991. I asked what their requirements are for becoming a distributor, and this is their response!

Please acknowledge this material and please help me to understand how the court case involving Richardson Electronics and Varian has changed anything. To this day Richardson is sole distributor for Varian products in the United States, Canada, and Europe.

Richardson has a exclusive contract to sell product to Europe and Canada. It appears nothing has changed!

Please show a copy of my letter to the judge who is hearing this case.

Feel free to call me at the above phone number if I can be of further assistance.

Respectfully,

Michael Matich.

October 23, 1991.

Mr. Michael Matich,

M & S Communications, 14191 Executive Lane, Nevada City, CA 95959.

Dear Mr. Matich: Thank you for your inquiry regarding distribution of Eimac products. We are not adding distributors at this time. Our policy, however, is to function only through master distribution with international capability. Inventory requirements are generally several million dollars.

Sincerely yours,

Robert L. Chapman,

Marketing Manager.

U.S. Department of Justice, Antitrust Division, Judiciary Center Building, 555 Fourth Street, NW., Washington, DC 20001

November 26, 1991.

Mr. Michael Matich,

M & S Communications Engineering, 14191 Executive Lane, Nevada City, California 95959.

Re: United States of America v. Varian Associates, Inc. and Richardson Electronics, Ltd., Civil Action No. 91 C 6211 (N.D. Ill.)

Dear Mr. Matich: This letter responds to your letter, dated November 6, 1991, submitted to the Antitrust Division of the United States Department of Justice regarding the antitrust suit against Varian Associates, Inc. ("Varian") and Richardson Electronics, Ltd. ("Richardson"). Attached to your letter is Varian's response to your inquiry about becoming a distributor of Varian products. Because Varian told you that it was not adding distributors at this time, you asked for help in understanding how the court case involving Varian and Richardson has changed the industry.

On October 1, 1991, the United States filed a civil antitrust Complaint against Varian and Richardson alleging violations of Section 2 of the Sherman Act, 15 U.S.C. § 2. The United States and the defendants agreed to settle the matter by way of a proposed Final Judgment. The proposed Final Judgment would impose several prohibitions and obligations upon Varian and Richardson. After a public comment period has passed, the Court can enter the Final Judgment if the Court determines that the Final Judgment is in the public interest.

The proposed Final Judgment, a Competitive Impact Statement, and a summary of the Complaint have been published in the **Federal Register** at page 52,059, Volume 56, No. 201, October 17, 1991. Enclosed is a copy of the applicable pages from the **Federal Register**.

The proposed Final Judgment, among other things, would require Varian and Richardson to dissolve Varian Supply Company ("VASCO"), a joint venture between Varian and Richardson that made Richardson Varian's exclusive distributor for certain power grid tubes. Moreover, the proposed Final Judgment would prohibit Varian and Richardson from entering into any exclusive distribution arrangement in the future. Thus, Varian could establish other distributors or distribute its own power grid tubes. If Varian chooses to establish an additional distributor, Varian would be prohibited from granting to Richardson distribution rights that are more favorable than the rights granted to the other distributor.

However, the Final Judgment would not force Varian to establish other distributors. Varian could exercise its business judgment to have no distributors, one distributor, or several distributors, depending on what Varian believes is the most efficient arrangement. In this way, the proposed Final Judgment would restore the industry to the condition that existed before VASCO and before any alleged violations of the federal antitrust laws. Thus, Richardson no longer would have a contractual right to be Varian's sole distributor, but Varian voluntarily could choose to grant no further distribution rights, leaving Richardson as Varian's only distributor.

In your letter, you asked whether the proposed Final Judgment will change the industry. The proposed Final Judgment is designed to improve the industry in several ways. As previously discussed, it would enable Varian, if Varian chooses, to introduce competing distributors rather than being contractually bound to a single distributor. It would require Varian and Richardson to dissolve VASCO, their joint venture, and to establish a traditional manufacturer/distributor relationship. It would prohibit the parties from acquiring competitors in the industry without first obtaining the consent of the Department of Justice. The proposed Final Judgment also would prohibit the parties from collecting tube carcasses other than for specific legitimate purposes.

You were informed by a representative of Varian that even if the company decided to add a distributor, inventory requirements are "generally several million dollars." For additional information about inventory levels, you can consult Varian and Richardson's new Distributor Agreement, a copy of which has been filed with the Court and published in the **Federal Register** along with the Competitive Impact Statement. Should Varian choose to add a distributor, the Distributor Agreement establishes minimum inventory levels as follows: $500,000 during the first twelve months; $750,000 during the second twelve months; $875,000 during the third twelve months; and $1 million during the fourth twelve months and in each twelve month period thereafter. (See Definition 9 and Section 2.7.) Those inventory levels are designed to allow entry into the distribution market, while at the same time ensuring that any future distributor will maintain a broad range of products and will be able to adequately serve the industry. Varian, however, may increase these minimum inventory levels up to $7 million if it determines that higher levels are warranted. (See Section 2.7(e).)

We appreciate your interest in this case and in the proposed Final Judgment, which we believe is in the public interest. Your letter is being treated as a comment on the proposed Final Judgment. As a result, a copy of your letter and a copy of this response will be filed with the Court. In addition, your letter and this response will be published in the **Federal Register**. If you have any objections to your letter being treated as a comment, please let us know as soon as possible.

Sincerely,

P. Terry Lubeck,

Chief Litigation II Section, Antitrust Division.

BILLING CODE 4410-01-M

DEPARTMENT OF LABOR

Employment and Training Administration

Emergency Unemployment Compensation Program; Emergency Unemployment Compensation Periods in All States

This notice announces the beginning of benefit periods under the Emergency Unemployment Compensation Program in all States beginning on November 17, 1991, changes in benefit levels that have occurred in eight States, and further changes in all States resulting from amendments to the law.

Background

The Emergency Unemployment Compensation Act of 1991 (Pub. L. 102–164) established the Emergency Unemployment Compensation (EUC) Program. The EUC Program took effect in all States with the week beginning on November 17, 1991. Under the EUC Program, individuals who have exhausted their rights to regular unemployment compensation under State (and Federal) unemployment compensation laws may be eligible to receive EUC benefits. Under the original law, individuals in a State could receive up to 6, 13 or 20 weeks of EUC benefits, depending on the measure of unemployment for that State, at the same weekly rate of benefits as previously received under the State law. Attached is a list of the States and the EUC benefit level in each State.

The first amendments to the law (Pub. L. 102–182) eliminated the 6 week tier and established the trigger levels so that all States which had been at the 6-week tier level were now eligible to pay up to 13 weeks, effective from the beginning of the program. Requirements for receipt of up to 20-weeks remained the same.

Under the Emergency Unemployment Compensation Act of 1991, as amended by Public Law 102–182, a State triggers onto a 20 week period for a week in which the adjusted insured unemployment rate (AIUR) equals or exceeds 5 percent or the average total unemployment rate (ATUR) equals or exceeds 9 percent. All other States are in a 13 week period. A change in the level of benefit duration from 13 to 20 weeks begins with the third week after the week in which (1) the AIUR in the State for the period consisting of such week and the immediately preceding 12 weeks is at least 5 percent, or (2) the ATUR in the State for the period consisting of the most recent 6-calendar month period for which data are published before the close of such week is at least 9 percent. A change in the level of benefit duration from 20 to 13 weeks begins with the third week after the week in which (1) the ATUR in the State for the period consisting of such week and the immediately preceding 12 weeks has dropped below 5 percent, and (2) the ATUR in the State for the period consisting of the most recent 6-calendar month period for which data are published before the close of such week is less than 9 percent.

The 20-week level in a State must have been in effect for at least 13 weeks before the State can drop to the 13-week level, no matter what the AIUR and ATUR levels are during such 13-week period. A 20-week benefit period will end the third week after the State does not meet the AIUR and ATUR requirement. Conversely, a State may trigger up to the 20-week level at any time, without regard to whether the State has been in a 13-week period for 13 weeks.

The EUC Program was amended by Public Law 102–244, effective for weeks of unemployment beginning after February 7, 1992. Section 1 of that law amended section 102(b)(2) of P.L. 102–164 to increase weeks of benefits in States in a 13-week period to 26 weeks, and States in a 20-week period to 33 weeks. All other trigger criteria remain unchanged.

In addition, the following changes have occurred in States since the beginning of the program:

- January 5, 1992—California to 20 weeks.
- January 12, 1992—Oregon to 20 weeks.
- January 19, 1992—Vermont to 20 weeks.
- January 26, 1992—Pennsylvania to 20 weeks.
- February 2, 1992—Arkansas and Washington to 20 weeks.

• February 16, 1992—Mississippi dropped to 26 weeks and New York increased to 33 weeks.

In addition, section 101(e) of Public Law 102-164 permits the Governor of a State to elect to trigger off an Extended Benefit Period in order to provide payment of EUC benefits to individuals who have exhausted their rights to regular compensation under the State law. As of February 22, 1992, the Governors of Alaska, Maine, and Vermont have elected to trigger off Extended Benefits and instead pay EUC benefits.

EMERGENCY UNEMPLOYMENT COMPENSATION BENEFIT LEVELS

Information for Claimants

The duration of benefits payable in the Emergency Unemployment Compensation Period, and the terms and conditions on which they are payable, are governed by the Act and the operating instructions issued to the States by the U.S. Department of Labor. The State employment security agency will furnish a written notice of potential entitlement to each individual who has exhausted all rights to regular benefits and is potentially eligible for EUC benefits (20 CFR 615.13(c)).

Persons who believe they may be entitled to EUC benefits, or who wish to inquire about their rights under the Program, should contact the nearest State employment service office or unemployment compensation claims office in their locality.

Signed at Washington, DC, on March 2, 1992.

Roberts T. Jones,

Assistant Secretary of Labor.

BILLING CODE 4510-30-M

Occupational Safety and Health Administration

Iowa State Standards; Notice of Approval

1. Background

Part 1953 of title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667; hereinafter called the Act) by which the Regional Administrators for Occupational Safety and Health (hereinafter called the Regional Administrator) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State Plan which has been approved in accordance with section 18(c) of the Act and 29 CFR part 1902. On July 20, 1973, notice was published in the **Federal Register** (38 FR 19368) of the approval of the Iowa Plan and the adoption of subpart J of part 1952 containing the decision. Iowa was granted final approval under section 18(e) of the Act on July 2, 1985.

The Iowa Plan provides for the adoption of Federal standards (by reference after comments and public hearing). By letter dated January 8, 1992, from Walter H. Johnson, Deputy Labor Commissioner, to Alonzo L. Griffin, Area Director, and incorporated as part of the Plan, the State submitted State standards comparable to: Occupational Exposure to Asbestos, Tremolite, Anthophyllite, and Actinolite; extension of partial stay and amendment of final rule, 29 CFR 1910.1001, as published in the **Federal Register** (56 FR 43700, dated September 4, 1991).

This standard, which is contained in chapter 88 of the Code of Iowa (1983), was promulgated after public comment requested on October 30, 1991; hearing scheduled for November 21, 1991 (no comments were received); and resolution adopted by the Division of Labor Services on December 20, 1991, pursuant to Chapter 17a, Iowa Code. The standard was effective February 12, 1992; and notice of its adoption was published by the State on January 8, 1992.

The State also submitted State standards comparable to: Occupational Exposure to Asbestos, Tremolite, Anthophyllite, and Actinolite; extension of partial stay and amendment of final rule, 29 CFR 1926.58, as published in the **Federal Register** (56 FR 43700, dated September 4, 1991). This standard, which is contained in Chapter 88 of the Code of Iowa (1983), was promulgated after public comment requested on October 30, 1991; hearing scheduled for November 21, 1991 (no comments were received); and resolution adopted by the Division of Labor Services on December 20, 1991, pursuant to chapter 17a, Iowa Code. The standard was effective February 12, 1992; and notice of its adoption was published by the State on January 8, 1992.

The State also submitted State standards comparable to: Safety Standards for Stairways and Ladders Used in the Construction Industry; amendment, 29 CFR 1926.1052 and 29 CFR 1926.1053, as published in the **Federal Register** (56 FR 41794, dated August 23, 1991). This standard, which is contained in chapter 88 of the Code of Iowa (1983), was promulgated after public comment requested on October 30, 1991; hearing scheduled for November 21, 1991 (no comments were received); and resolution adopted by the Division of Labor Services on December 20, 1991, pursuant to chapter 17a, Iowa Code. The standard was effective February 12, 1992; and notice of its adoption was published by the State on January 8, 1992.

The Iowa Plan provides for the adoption of Federal standards (by reference after comments and public hearing). By letter dated November 15, 1991, from Walter H. Johnson, Deputy Labor Commissioner, to Alonzo L. Griffin, Area Director, and incorporated as part of the Plan, The State submitted State standards comparable to: Hazardous Waste Operations and Emergency Response; Final Rule, corrections, 29 CFR 1910.120, as published in the the **Federal Register** (55 FR 15832, dated April 18, 1990).

This standard, which is contained in chapter 88 of the Code of Iowa (1983), was promulgated after public comment requested on July 24, 1991; hearing scheduled for August 15, 1991 (no comments were received); and resolution adopted by the Division of Labor Services on September 27, 1991, pursuant to chapter 17a, Iowa Code. The standard was effective November 20, 1991; and notice of its adoption was published by the State on October 16, 1991.

The State also submitted State standards comparable to: Occupational Exposure to Lead; final rule; corrections 29 CFR 1910.1025, as published in the **Federal Register** (55 FR 24686, dated May 31, 1991). This standard, which is contained in chapter 88 of the Code of Iowa (1983), was promulgated after public comment requested on July 24, 1991; hearing scheduled for August 15, 1991 (no comments were received); and resolution adopted by the Division of Labor Services on September 27, 1991, pursuant to chapter 17a, Iowa Code. The standard was effective November 20, 1991; and notice of its adoption was published by the State on October 16, 1991.

The Iowa Plan provides for the adoption of Federal Standards (by reference after comments and public hearing). By letter dated July 31, 1991, from Walter H. Johnson, Deputy Labor Commissioner, to Alonzo L. Griffin, Area Director, and incorporated as part of the Plan, the State submitted State standards comparable to: Hazardous Waste Operations and Emergency Response; Final Rule, corrections, 29 CFR 1910.120, as published in the **Federal Register** (55 FR 14073, dated April 13, 1990). This standard, which is contained in chapter 88 of the Code of Iowa (1983), was promulgated after public comment requested on May 15, 1991; hearing scheduled for June 6, 1991 (no comments were received); and resolution adopted by the Division of Labor Services on June 28, 1991, pursuant to chapter 17a, Iowa Code. The standard was effective August 28, 1991; and notice of its adoption was published by the State on July 24, 1991.

2. Decision

Having reviewed the State submission in comparison with the Federal standards, it has been determined that the State standards are identical to the comparable Federal standards and should therefore be approved.

3. Location of Supplement for Inspection and Copying

A copy of the standard supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Directorate of Federal/State Operations, Office of State Programs, room N3700, 200 Constitution Avenue, NW., Washington, DC 20210; Office of the Regional Administrator, Occupational Safety and Health Administration, 406 Federal Office Building, 911 Walnut Street, Kansas City, Missouri 64106; and Division of Labor Services, 1000 East Grand Avenue, Des Moines, Iowa 50319.

4. Public Participation

Under 20 CFR 1953.2(c) of this chapter, the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the Iowa State Plan as a proposed change and for making the Regional Administrator's approval effective upon publication for the following reasons:

1. The standards are identical to the comparable Federal standards and are therefore deemed to be at least as effective.

2. The standards were adopted in accordance with the procedural requirements of State law and further public participation and notice would be unnecessary.

This decision is effective march 9, 1992. (Section 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667)).

Signed Kansas City, Missouri, this 7th day of February, 1992.

John T. Phillips,

Regional Administrator.

BILLING CODE 4510-26-M

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (92-17)]

NASA Advisory Council (NAC), Aeronautics Advisory Committee (AAC); Meeting

AGENCY: National Aeronautics and Space Administration

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Public Law 92-463, as amended, the National Aeronautics and Space Administration announces a forthcoming meeting of NASA Advisory Council, Aeronautics Advisory Committee.

DATE: April 3, 1992, 9a.m. to 4:30 p.m.

ADDRESS: National Aeronautics and Space Administration, Federal Building 10B, room 625, 600 Independence Avenue, SW., Washington, DC 20546.

FOR FURTHER INFORMATION CONTACT: Ms. Catherine Smith, Office of Aeronautics and Space Technology, National Aeronautics and Space Administration, Washington, DC 20546, 202/453-2367.

SUPPLEMENTARY INFORMATION: The NAC Aeronautics Advisory Committee was established to provide overall guidance and direction to the aeronautics research and technology activities in the Office of Aeronautics and Space Technology (OAST). The Committee, chaired by Mr. Phil M. Condit, is composed of 17 members. The meeting will be open to the public up to the seating capacity of the room (approximately 30 persons including the Committee members and other participants).

Type of Meeting: Open

Agenda

April 3, 1992

9 a.m.—Opening Remarks
9:15 a.m.—NASA and OAST Update.
9:30 a.m.—Budget Update.
10 a.m.—Fiscal Year 1993 Aeronautics Budget Status, Strategy and Program Direction.
12 Noon—Group Discussion.
1 p.m.—AAC/Aerospace Research and Technology Subcommittee Discipline Reviews.
2 p.m.—Ad Hoc Study Reports
2:45 p.m.—NASA Responses to Ad Hoc Recommendations.
3:30 p.m.—General Discussion
4:30 p.m.—Adjourn.

Dated: March 3, 1992.

John W. Gaff,

Advisory Committee Management Officer, National Aeronautics and Space Administration.

Aerospace Safety Advisory Panel; Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting change.

"Federal Register" Citation of Previous Announcements: 57 FR 20, Notice Number 92–08, January 30, 1992.
Previously Announced Times and Date of Meeting: March 18, 1992, 2 p.m. to 3:30 p.m.
Changes in the Meeting: Date changed to March 17, 1992, 4:30 p.m. to 6 p.m.
Contact Person for More Information: Arthur V. Palmer, Code Q–1, National Aeronautics and Space Administration, Washington, DC 20546, 202/453–8971.

Dated: March 3, 1992.

John W. Gaff,

Advisory Committee Management Officer, National Aeronautics and Space Administration.

[FR Doc. 92–5399 Filed 3–6–92; 8:45 am]

BILLING CODE 7510–01–M

NATIONAL CREDIT UNION ADMINISTRATION

Public Information Collection Requirement Submitted to OMB for Review

March 2, 1992.

The National Credit Union Administration has submitted the following public information collection requirements to OMB for review and clearance under the Paperwork Reduction Act of 1980, Public Law 96–511. Copies of the submissions may be obtained by calling the NCUA Clearance Officer listed. Comments regarding information collections should be addressed to the OMB reviewer listed and to the NCUA Clearance Officer, NCUA, Administrative Office, room 7344, 1776 G Street, Washington, DC 20456.

National Credit Union Administration

OMB Number: 3133–0067.
Form Number: NCUA Form 5310.
Type of Review: Reinstatement of a previously approved collection for which approval has expired.
Title: Corporate Credit Union Monthly Report.
Description: Federally insured corporate credit unions are required by section 202(a) of the Federal Credit Union Act to make reports of financial condition to the National Credit Union Administration upon dates determined by it.
Respondents: Federally-insured corporate credit unions.
Estimated Number of Respondents: 33.
Estimated Burden Hours per Response: 1 hour.
Frequency of Response: Monthly.
Estimated Total Reporting Burden: 396 hours.
Clearance Officer: Wilmer A. Theard, (202) 682–9700, National Credit Union Administration, room 7344, 1776 G Street, NW., Washington, DC 20456.
OMB Reviewer: Gary Waxman (202) 395–7340, Office of Management and Budget, room 3208, New Executive Office Building, Washington, DC 20503.

Becky Baker,

Secretary of the NCUA Board.

[FR Doc. 92–5391 Filed 3–6–92; 8:45 am]

BILLING CODE 7535–01–M

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Agency Information Collection Under OMB REVIEW

AGENCY: National Endowment for the Humanities.

ACTION: Notice.

SUMMARY: The National Endowment for the Humanities (NEH) has sent to the Office of Management and Budget (OMB) the following proposals for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

DATE: Comments on this information collection must be submitted on or before April 8, 1992.

ADDRESSES: Send comments to Ms. Susan Daisey, Assistant Director, Grants Office, National Endowment for the Humanities, 1100 Pennsylvania Avenue NW, room 310, Washington, DC 20506 (202–786–0494) and Mr. Daniel Chenok, Office of Management and Budget, New Executive Office Building, 726 Jackson Place NW, room 3002, Washington, DC 20503 (202–395–7316).

FOR FURTHER INFORMATION CONTACT: Ms. Susan Daisey, Assistant Director, Grants Office, National Endowment for the Humanities, 1100 Pennsylvania Avenue NW., room 310, Washington, DC 20506 (202) 786–0494 from whom copies of forms and supporting documents are available.

SUPPLEMENTARY INFORMATION: All of the entries are grouped into new forms, revisions, extensions, or reinstatements. Each entry is issued by NEH and contains the following information: (1) The title of the form; (2) the agency form number, if applicable; (3) how often the form must be filled out; (4) who will be required or asked to report; (5) what the form will be used for; (6) an estimate of the number of responses; (7) the frequency of response; (8) an estimate of the total number of hours needed to fill out the form; (9) an estimate of the total annual reporting and recordkeeping burden. None of these entries are subject to 44 U.S.C. 3504(h).

Category: Revisions.
Title: Guidelines and Application Forms for the Reference Materials Program.
Form Number: Not Applicable.
Frequency of Collection: Annual.
Respondents: Humanities Researchers and Institutions.
Use: Application for funding.
Estimated Number of Respondents: 140 per year.
Frequency of Response: Once.
Estimated Hours for Respondents to Provide Information: 52 hours per respondent.
Estimated Total Annual Reporting and Recordkeeping Burden: 14,468 hours

Thomas S. Kingston,

Assistant Chairman for Operations.

[FR Doc. 92–5410 Filed 3–6–92; 8:45 am]

BILLING CODE 7536–01–M

Public Partnership Office Advisory Panel; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), as amended, notice is hereby given that a meeting of the Office of Public Partnership (States: Arts Projects in Underserved Communities Section) will be held on March 30–31, 1992, from 9 a.m.–5:30 p.m. and April 1 from 9 a.m.–12:30 p.m. in room M–09 at the Nancy Hanks Center, 1100 Pennsylvania Avenue, NW., Washington, DC 20506.

This meeting will be open to the public on a space available basis. The topics for discussion will be introductory remarks, application review, review of rankings and recommendation of awards, discussion of issues raised in application review, guidelines review and other issues.

Any interested person may observe meetings, or portions thereof, which are open to the public, and may be permitted to participate in the discussions at the discretion of the meeting chairman and with the approval of the full-time Federal employee in attendance.

If you need special accommodations due to a disability, please contact the Office of Special Constituencies, National Endowment for the Arts, 1100 Pennsylvania Avenue NW., Washington, DC 20506, 202/682–5532, TTY 202/682–5496, at lease seven (7) days prior to the meeting.

Further information with reference to this meeting can be obtained from Ms. Yvonne M. Sabine, Advisory Committee Management Officer, National Endowment for the Arts, Washington, DC 20506, or call (202) 682–5433.

Dated: March 3, 1992.

Yvonne M. Sabine,

Director, Council and Panel Operations, National Endowment of the Arts.

BILLING CODE 7537–01–M

NUCLEAR REGULATORY COMMISSION

Documents Containing Reporting or Recordkeeping Requirements: Office of Management and Budget Review

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of the Office of Management and Budget Review of Information Collection.

SUMMARY: The Nuclear Regulatory Commission has recently submitted to the Office of Management and Budget (OMB) for review the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

1. *Type of submission, new revision or extension:* Revision.
2. *The title of the information collection:* "Licensee Event Report."
3. *The form number if applicable:* NRC Forms: 366, 366A, and 366B.
4. *How often the collection is required:* On Occasion.
5. *Who will be required or asked to report:* Holders of Operating Licenses for Commercial Nuclear Power Plants.
6. *An estimate of the number of responses:* 2,120.
7. *An estimate of the total number of hours needed annually to complete the requirement or request:* Approximately 50 hours per response. The total industry burden is 106,000 hours.
8. Section 3504(h), Public Law 96–511 does not apply.
9. *Abstract:* NRC collects reports of operational events at commercial nuclear power plants in order to incorporate lessons of that experience in the licensing process and to feed back the lessons of that experience to the nuclear industry.

Copies of the submittal may be inspected or obtained for a fee from the NRC Public Document Room, 2120 L Street NW., Lower Level, Washington, DC.

Comments and questions can be directed by mail to the OMB reviewer: Ronald Minsk, Office of Information and Regulatory Affairs (3150–0104), NEOB–3019, Office of Management and Budget, Washington, DC 20503.

Comments can also be submitted by telephone at (202) 395–3084.

The NRC Clearance Officer is Brenda Jo. Shelton, (301) 492–8132.

Dated at Bethesda, Maryland, this 27th day of February 1992.

For the Nuclear Regulatory Commission.

Gerald F. Cranford,

Designated Senior Official for Information Resources Management.

BILLING CODE 7590–01–M

[Docket No. 50–423]

Northeast Nuclear Energy Co., Millstone Nuclear Power Station, Unit No. 3; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of a license amendment to Northeast Nuclear Energy Company, et al. (the licensee) for the Millstone Nuclear Power Station, Unit No. 3, located at the licensee's site in New London County, Connecticut.

Environmental Assessment

Identification of the Proposed Action:

The proposed amendment would:

- Improve overall diesel generator reliability and performance by conforming plant requirements to NRC Generic Letter 84–15.
- Reduce the diesel generator loading criteria in order to ensure that operations at the upper limit of the load band do not lead to overload conditions.
- Eliminate the fast cold repetitive starting of the diesel generators, and make changes concerning instrumentation and test standards. In addition, clarify the remedial measure for inoperability of the required full capacity battery chargers.

The Need for the Proposed Action

The license amendment is needed to enhance diesel generator reliability by minimizing severe test conditions which can lead to premature failure.

Environmental Impacts of the Proposed Action

The Commission has completed its evaluation of the proposed revision to the TS. The impact of the above change has been evaluated in the licensee's proposal for amendment dated March 28, 1990 which has been evaluated by the staff using NRC-approved methodology. The TS change will not increase the probability or consequences of accidents. No changes are being made in the types of any effluents that may be released offsite, and there is no significant increase in the allowable individual or cumulative occupational radiation exposure. In addition, the TS change described is a refinement, rather than a substantial change in the operation of the facility. Therefore, the Commission concludes that there are no significant radiological environmental impacts associated with this proposed TS amendment.

With regard to potential nonradiological impacts, the proposed amendment does involve features located entirely within the restricted area as defined in 10 CFR part 20. It does not affect nonradiological plant effluents and has no other environmental impact. Therefore, the Commission concludes that there are no significant nonradiological impacts associated with the proposed amendment.

Alternatives to the Proposed Action

It has been concluded that there is no measurable impact associated with the proposed amendment; any alternatives to the amendment would have either essentially the same or greater environmental impact.

Alternative Use of Resources

This action does not involve the use of any resources different from or beyond the scope of resources used during normal plant operation, which were assessed in the Final Environmental Statement relating to plant operation.

Agencies and Persons Consulted

The Commission's staff reviewed the licensee's request that supports the proposed amendment. The staff did not consult other agencies or persons.

Finding of No Significant Impact

Based upon the foregoing environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed amendment.

For further details with respect to this action, see the request for license amendment dated March 25, 1990, as supplemented July 24, 1990, and November 22, 1991, which are available

for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555, and at the local public document room located at the Learning Resources Center, Thames Valley State Technical College, 574 New London Turnpike, Norwich, Connecticut 06360.

Dated at Rockville, Maryland this 3rd day of March 1992.

For the Nuclear Regulatory Commission.

John F. Stolz,

Director, Project Directorate I–4, Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.

[FR Doc. 92–5408 Filed 3–6–92; 8:45 am]

BILLING CODE 7590–01–M

NUCLEAR WASTE TECHNICAL REVIEW BOARD

Full Board meeting

Pursuant to the Nuclear Waste Technical Review Board's (the Board) authority under section 5051 of Public Law 100–203 of the Nuclear Waste Policy Amendments Act (NWPAA) of 1987, the Board will help hold its spring Board meeting April 7–8, 1992. The meeting will be held at the Adolphus Hotel, 1321 Commerce Street, Dallas, Texas 7502; (214) 742–8200.

The Board is holding the meeting to gain additional insight into issues the Board has raised concerning the U.S. Department of Energy's (DOE) program to characterize the Yucca Mountain site in Nevada. In the Nuclear Waste Policy Amendments Act of 1987 (NWAPAA), Congress directed the DOE to determine the suitability of the Yucca Mountain as a potential site for the nation's first permanent repository for spent nuclear fuel and defense high-level waste. In the same law, Congress established the Board to review and evaluate the DOE's work.

On Tuesday, April 7, the Board has invited representatives of the Department of Energy (DOE) to discuss three ongoing or recently completed studies: The Performance Assessment (PA), the Early Site Suitability Evaluation (ESSE), and the next phase of the Test Prioritization Task (TPT). The Board is interested in reviewing the scope and depth of he DOE's latest performance assessment and finding out how the results compare with the results reached by other groups, such as the Nuclear Regulatory Commission (NRC) and the Electric Power Research Institute (EPRI). The Board has also asked for a presentation summarizing the study methodology and conclusions reached in the ESSE. The ESSE program was conducted by the DOE in an effort to assess early site suitability. Last, the Board will be briefed on the second phase of the TPT study. Its original purpose was to identify, in some order of priority, those tests that need to be conducted at the Yucca Mountain site to detect potentially unsuitable site conditions. In addition to assigning priority to the scientific tests, the first phase recommended that the TPT be expanded to enhance its use as a management tool. The Board wants to learn more about the second phase of the TPT, including its potential application and relationship to the DOE's most recent performance assessment and the early site suitability evaluation.

On April 8, the Board has asked the DOE to address ongoing and proposed site-characterization activities. First, the DOE has been asked to provide an overview of the surface-based drilling program and to describe the technology being developed to improve the performance of the Lang 300 drill rig. Second, the Board has requested a progress report on the Exploratory Shaft Facility (ESF) design activities that have been undertaken since the September 1991 Structural Geology & Geoengineering Panel meeting. Third, the Board will review the DOE's responses to Board recommendations in the Fourth Report about enhancing the ESF design and gaining early access to the Ghost Dance Fault. Fourth, the Board will be given an update on the DOE's efforts to secure permits to characterize the site, including a description of the additional permits required for underground exploration. Finally, pending its availability, the Board has requested that the DOE make a presentation on engineered barriers, originally scheduled for a February 10 meeting of the Board's panel on engineered barrier system.

The public is welcome to attend the meeting as observers. Transcripts of the meeting will be available on a library-loan basis from Ms. Victoria Reich, Board Librarian, beginning May 28, 1992.

For further information, contact Paula N. Alford, Director, External Affairs, 1100 Wilson Boulevard, suite 910, Arlington, Virginia 22209; (703) 235–4473.

Dated: March 4, 1992.

William D. Barnard,

Executive Director, Nuclear Waste Technical Review Board.

[FR Doc. 92–5388 Filed 3–6–92; 8:45 am]

BILLING CODE 6820–AM–M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–30437; File No. SR–NASD–91–37]

Self-Regulatory Organizations; Order Approving Proposed Rule Change of the National Association of Securities Dealers, Inc., Amending Schedule G to the By-Laws To Require Transaction Reporting for Exchange-Listed Securities Until 5:15 p.m. and Use of a Special Indicator for Certain Pricing Formula Trades

March 3, 1992.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), on August 2, 1991, the National Association of Securities Dealers, Inc. ("NASD" or "Association") filed with the Securities and Exchange Commission ("Commission" or "SEC") a proposed rule change to amend Schedule G to the By-Laws to require members to continue real-time trade reporting of transactions in exchange-listed securities until 5:15 p.m. and to use a special indicator to denote transactions priced on an average-weighting or other special pricing formula.

Notice of the proposed rule change was given in Securities Exchange Act Release No. 29632 (August 30, 1991), 56 FR 46022. The Commission received no comments on the proposal. This order grants approval of the proposed rule change.

I. Description of the Proposed Rule Change

Current trade reporting obligations for listed securities in Schedule G to the NASD By-Laws require members to report transaction within 90 seconds after execution from 9:30 a.m. to 4:30 p.m. Eastern time. The commencement of the New York Stock Exchange's after-hours sessions in June, 1991 prompted the NASD to permit voluntary 90-second reporting by members until 5:15 p.m., to coincide with the extended hours of the Consolidated Tape Association ("CTA"). This rule change extends the reporting hours specified in Schedule G for listed securities until 5:15 p.m., so that 90-second reporting will be mandatory for all reporting members until that time. This will enable the automated capture and dissemination of transactions in listed securities occurring between 4 p.m. and 5:15 p.m. in the over-the-counter market.

In addition, the proposal requires the use of the ".SLD" identifier for certain trades reported after 4 p.m.[1] The NASD states that confusion has arisen recently regarding a limited number of agency cross trades executed after 4 p.m. that have been reported at a price based on an average-weighting or other formula rather than a current negotiated price. An example of such a transaction would be a trade negotiated during the trading day to be executed after 4 p.m. at a price equal to the average of weighted prices of transactions taking place during the trading day. The NASD states that certain institutions find average-weighting trades attractive because they ensure that the institutions will not purchase at a high for the day or sell at the low.

Trade reports such as these, although made in a timely fashion, often do not relate to the closing price on the primary exchanges but, until now, have not carried an identifier describing their specialized nature. To alleviate confusion with regard to these trade reports, the NASD proposed modifications to Schedule G to provide for the use of an indicator. Although there are various specialized sale condition indicators employed in the reporting of consolidated transaction data to vendors, none accurately describes average-weighted trades. Until a new indicator is implemented, the amendment provides for the use of the .SLD late trade indicator to denote these "formula" trades and to specify that these trades would be exempted from the normal interpretation that printing trades .SLD as a course of conduct would subject a firm to disciplinary action.

The Commission understands that the NASD and the other CTA participants have worked to devise a permanent identifier to be used for these trades. Under this agreement, a "B" identifier would be used for disseminating average-weighting trades. Another identifier would be required for inputting average-weighting trades. The Commission understands that the NASD is still determing the appropriate identifier for incoming data.[2]

II. Discussion

The Commission finds that approval of this proposed rule change is consistent with the Act, in particular, section 15A(b)(6), in that it will foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, and remove impediments to and perfect the mechanism of a free and open market. In addition, the Commission finds that the proposed rule change furthers the objective set forth in section 11A(a)(1)(C)(iii) of ensuring the availability to brokers, dealers and investors of information with respect to quotations for and transactions in securities.

The Commission believes that mandatory 90-second reporting until 5:15 p.m. will enhance transparency of transactions and thereby permit investors and market professionals to follow after-hours trading activity in listed securities. Market transparency is one of the paramount goals of the Commission and any advances in transparency are to be encouraged. In addition, the amendments will assure the efficient integration of this information into NASD's automated surveillance systems. The Commission believes that these measures are consistent with the goals of the Act in that they facilitate securities transactions and remove impediments to a free and open market.

Although the Commission believes that the proposed rule is consistent with the Act, the Commission encourages the NASD to implement the new, permanent identifier as soon as practicable. The NASD has stated that it will work with CTA participants to undertake the technical enhancements necessary to implement a new indicator so that any investor confusion with respect to these agency cross trades will be eliminated. The Commission encourages the NASD and CTA to work together towards this goal. In the meantime, the Commission concludes that the use of the .SLD indicator to designate average-weighting or other special formula trades furthers the purposes of the statute.

It is Therefore Ordered, Pursuant to section 19(b)(2) of the Act, that the rule change be, and hereby is, approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority, 17 CFR 200.30–3(a)(12).

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 92–5401 Filed 3–6–92; 8:45 am]

BILLING CODE 8010–01–M

[1] The CTA Plan, the plan that governs trade reporting for New York and American Stock Exchange securities and certain regional listed securities that substantially meet American Stock Exchange listing standards, provides that any trade report made more than 90 seconds after execution must be designated as late by appending the ".SLD" identifier.

[2] The permanent identifier should be filed with the Commission for approval pursuant to Rule 19(b).

Self-Regulatory Organizations; Applications of Unlisted Trading Privileges and of Opportunity for Hearing; Boston Stock Exchange, Incorporated

March 3, 1992.

The above named national secruties exchange has filed applications with the Securities and Exchange Commission ("Commission") pursuant to section 12(f)(1)(B) of the Securities Exhange Act of 1934 and rule 12f-1 thereunder for unlisted trading privileges in the following securities:

BILLING CODE 4710-10-M

DEPARTMENT OF TRANSPORTATION

Employee Protection Program Investigations

AGENCY: Department of Transportation.

ACTION: Notice of the Issuance of Order 92-3-9 in the following dockets:

Airlift International—Docket 38418
American Airlines—Docket 38570
Continental Airlines—Docket 38720
Frontier Airlines—Docket 45234
Pan American World Airways—Docket 38883
Republic Airlines—Docket 41072
Transamerica Airlines—Docket 44397
Trans World Airlines—Docket 38184
United Airlines—Docket 38571
Western Airlines—Docket 41061

Notice

In Order 92-3-9, issued March 3, 1992, the Department is requiring that at least one party in interest in each of these ten investigations except that in Docket 44397 identify himself or herself by filing a notice in the appropriate docket no later than 120 days after the order's issuance. It is taking this step to avoid conducting any investigation for which no person would claim benefits even if qualifying dislocations were found and Congress were to appropriate funds for the Employee Protection Program. Due to the long time lag between the initial filings in these dockets and the Department's order reactivating these investigations last November, it is necessary to ascertain the existence of at least one party in interest in each case.

In addition, the Department is asking that anyone who knows the address of any of the individuals listed in the attached appendix inform James Craun, Deputy Director of the Office of Aviation Analysis, in writing as soon as possible at the following address: U.S. Department of Transportation, P-51, 400 Seventh St. SW., Washington, DC 20590. These individuals have been on our service lists but no longer reside at the addresses indicated in the appendix.

Anyone wishing to obtain a copy of Order 92-3-9 can do so by contacting Mr. Craun.

DATES: Notices are due 120 days after the order's issuance. Addresses of lost parties should be provided as soon as possible.

ADDRESSES: Notices should be filed in the appropriate dockets and addressed to the Docket Section, Documentary Services Division, U.S. Department of Transportation, 400 Seventh Street SW., room 4107, Washington, DC 20590. Addresses of lost parties should be sent to James Craun at the address stated above.

Dated: March 3, 1992.

Jeffrey N. Shane,

Assistant Secretary for Policy and International Affairs.

BILLING CODE 4910-62-M

Federal Highway Administration

Environmental Impact Statement: Shawano County, WI

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Revised notice of intent.

SUMMARY: The FHWA is issuing this revised notice to advise the public that an environmental impact statement will not be prepared for a proposed highway project in Shawano County, Wisconsin.

FOR FURTHER INFORMATION CONTACT: Robert Cooper, Federal Highway Administration, 4502 Vernon Boulevard, Madison, Wisconsin, 53705; Telephone: (608) 264-5940. Carol Cutshall, Wisconsin Department of Transportation, Office of Environmental Analysis, 4802 Sheboygan Avenue, Madison, Wisconsin, 53705; Telephone: (608) 267-4473. William Nicholson, Wisconsin Department of Transportation, Highway 29 Project Management Team, 1681 Second Avenue South, Wisconsin Rapids, Wisconsin, 54495; Telephone: (715) 421-8365.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Wisconsin Department of Transportation will not prepare an environmental impact statement as previously intended on a proposal to improve State Trunk Highway 29 (STH 29) from near Bonduel to the east Shawano County Line. Based on further review of the project and related impacts it was determined that an environmental assessment would be prepared.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program.)

Issued on: February 28, 1992.

Robert W. Cooper,

District Engineer.

BILLING CODE 4910-22-M

National Highway Traffic Safety Administration

Highway Safety Programs; Amendment of Conforming Products List of Calibrating Units for Breath Alcohol Testers

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Notice.

SUMMARY: This notice amends the Conforming Products List for instruments which have been found to conform to the Model Specifications for Calibrating Units for Breath Alcohol Testing (49 FR 48865).

EFFECTIVE DATE: March 9, 1992.

FOR FURTHER INFORMATION CONTACT: Mrs. Robin Mayer, Office of Alcohol and State Programs, NTS-21, National Highway Traffic Safety Administration, 400 Seventh Street, SW., Washington, DC 20590; Telephone: (202) 366-9825.

SUPPLEMENTARY INFORMATION: On August 19, 1975, (40 FR 36167), the National Highway Traffic Safety Administration (NHTSA) published the Standards for Calibrating Units for Breath Alcohol Testers. A Qualified Products List of Calibrating Units for Breath Alcohol Testers, of devices which met this standard, was first issued on November 30, 1976, (41 FR 53384).

On December 14, 1984, (49 FR 48864), NHTSA converted this standard to Model Specifications for Calibrating Units for Breath Alcohol Testers, and published in Appendix B (49 FR 48872), a Conforming Products List (CPL) of calibrating units which where found to conform to the Model Specifications. Amendments to the CPL have been published in the **Federal Register** since that time.

Since the last publication of the CPL for calibrating units, the PLD of Florida, Inc., model BA 500 calibration device has been tested and found to meet the requirements of the Model Specifications. The Conforming Products

List is therefore amended to read as follows:

Conforming Products List of Calibrating Units for Breath Alcohol Testers (Manufacturer and Calibrating Unit)

1. Century Systems, Inc., Arkansas City, KA: Breath Alcohol Simulator BAS311.
2. CMI, Inc., Owensboro, KY: Toxitest II.
3. Federal Signal Corporation, CMI, Inc., Minturn, CO: Toxitest Model ABS 120.
4. Guth Laboratories, Inc., Harrisburg, PA: Model 34C Simulator; Model 34C Cal DOJ; Model 34C–FM; Model 34C–NPAS; and Model 10–4.
5. Intoximeters, Inc., St. Louis, MO: Nalco Breath Alcohol Standard.
6. Luckey Laboratories, Inc., San Bernardino, CA: Simulator.
7. PLD of Florida, Inc. Rockledge, FL: BA 500.
8. Protection Devices, Inc., Dayton, NJ: LS34 Model 6100.
9. Smith & Wesson Electronic Co., Springfield, MA: Mark II–A Simulator.
10. Systems Innovation, Inc., Hallstead, PA: True-Test MD 901.

(23 U.S.C. 402; delegations of authority at 40 CFR 1.50 and 501.8)

Michael B. Brownlee,

Associate Administrator for Traffic Safety Programs.

[FR Doc. 92-5297 Filed 3-3-92; 3:50 pm]

BILLING CODE 4910-59-M

Highway Safety Program; Amendment of Conforming Products List of Evidential Breath Testing Devices

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Notice.

SUMMARY: This notice amends the Conforming Products List for instruments which have been found to conform to the Model Specifications for Evidential Breath Testing Devices (49 FR 48854).

EFFECTIVE DATE: March 9, 1992.

FOR FURTHER INFORMATION CONTACT: Mrs. Robin Mayer, Office of Alcohol and State Programs, NTS–21, National Highway Traffic Safety Administration, 400 Seventh Street, SW., Washington, DC 20590; Telephone: (202) 366–9825.

SUPPLEMENTARY INFORMATION: On November 5, 1973, the National Highway Traffic Safety Administration (NHTSA) published the Standards for Devices to Measure Breath Alcohol (38 FR 30459). A Qualified Products List of Evidential Breath Measurement Devices comprised of instruments that met this standard was first issued on November 21, 1974, (39 FR 41399).

On December 14, 1984, (49 FR 48854), NHTSA converted this standard to Model Specifications for Evidential Breath Testing Devices, and published in Appendix D to that notice (49 FR 48864), a Conforming Products List (CPL) of instruments that were found to conform to the Model.

Specifications. Amendments to the CPL have been published in the **Federal Register** since that time.

Since the last publication of the CPL, two (2) breath measurement devices have been tested and found to conform to the requirements of the Specifications for mobile and non-mobile evidential breath testers: Intoximeters, Inc., Alcomonitor and Alco-Sensor IV. Since the Alco-Sensor IV has been found to conform, the Intoximeters RBT IV is also deemed to be in conformance, and is hereby added to the Conforming Products List. Further, the list has been corrected through the change of the Intoximeters Alco-Sensor IIIA to the RBT III–A. This is a model designation correction only

The Conforming Products List is therefore amended to read as follows:

BILLING CODE 4910-59-M

[Docket No. 92-11; Notice 1]

Receipt of Petition for Determination that Nonconforming 1989 BMW 520iA Passenger Cars Are Eligible for Importation

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Notice of receipt of petition for determination that nonconforming 1989 BMW 520iA passenger car are eligible for importation.

SUMMARY: This notice requests comments on a petition submitted to the National Highway Traffic Safety Administration (NHTSA) for a determination that a 1989 BMW 520iA passenger car that was not originally manufactured to comply with all applicable Federal motor vehicle safety standards is eligible for importation into the United States because (1) it is substantially similar to a vehicle that was originally manufactured for importation into and sale in the United States and that was certified by its manufacturer as complying with the safety standards, and (2) it is capable of being readily modified to conform to the standards.

DATES: The closing date for comments on the petition is April 8, 1992.

ADDRESSES: Comments should refer to the docket number and notice number, and be submitted to: Docket Section, room 5109, National Highway Traffic Safety Administration, 400 Seventh St., SW., Washington, DC 20590. [Docket hours are from 9:30 a.m. to 4 p.m.]

FOR FURTHER INFORMATION CONTACT: Ted Bayler, Office of Vehicle Safety Compliance, NHTSA (202–366–5306).

SUPPLEMENTARY INFORMATION:

Background

Under section 108(c)(3)(A)(i) of the National Traffic and Motor Vehicle Safety Act (the Act), 15 U.S.C. § 1397(c)(3)(A)(i), a motor vehicle that was not originally manufactured to conform to all applicable Federal motor vehicle safety standards shall be refused admission into the United States on and after January 31, 1990, unless NHTSA has determined that:

"(I) the motor vehicle is * * * substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under section 114 [of the Act], and of the same model year * * * as the model of the motor vehicle to be compared, and is capable of being readily modified to conform to all applicable Federal motor vehicle safety standards * * *"

Petitions for eligibility determinations may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA determines, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this determination in the **Federal Register**.

G&K Automotive Conversion, Inc. of Anaheim, California (Registered Importer No. R–90–007) has petitioned NHTSA to determine whether 1989 BMW 520iA passenger cars are eligible for importation into the United States. The vehicle which G&K believes is substantially similar is the 1989 BMW 525iA. G&K has submitted information indicating that Bayerische Motoren-Werke A.G., the company that manufactured the 1989 BMW 525iA, certified that vehicle as conforming to all aplicable Federal motor vehicle safety standards and offered it for sale in the United States.

The petitioner contends that the 520iA is substantially similar to the 525iA with respect to most aspects of performance governed by applicable Federal motor vehicle safety standards and regulations. The petitioner stated that the two models differ only with regard to engine size, and surmised that the less-powered 520iA may not have been introduced into the United States because of low sales potential in that market. The petitioner further speculated that the 520iA's absence from the United States market could be attributed to "legislative restrictions such as the strict emission control requirements in the United States."

G&K submitted information with its petition intended to demonstrate that the 1989 model 520iA, as originally manufactured, conforms to many Federal motor vehicle safety standards in the same manner as the 1989 BMW 525iA that was offered for sale in the United States, or is capable of being readily modified to conform to those standards.

Specifically, the petitioner claims that the 1989 model 520iA is identical to the certified 1989 model 525iA with respect to compliance with Standards Nos. 102 Transmission Shift Level Sequence * * *, 103 Defrosting and Defogging Systems, 104 Windshield Wiping and Washing Systems, 106 Brake Hoses, 107 Reflecting Surfaces, 109 New Pneumatic Tires, 113 Hood Latch Systems, 124 Accelerator Control Systems, 201 Occupant Protection in Interior Impact, 202 Head Restraints, 203 Impact Protection for the Driver From the Steering Control System, 204 Steering Control Rearward Displacement, 205 Glazing Materials, 206 Door Locks and Door Retention Components, 207 Seating Systems, 209 Seat Belt Assemblies, 210 Seat Belt Assembly Anchorages, 211 Wheel Nuts, Wheel Discs and Hubcaps, 212 Windshield Retention, 216 Roof Crush Resistance, 219 Windshield Zone Intrusion, and 302 Flammability of Interior Materials.

Petitioner also contends that the vehicle is capable of being readily modified to meet the following standards, in the manner indicated:

Standard No. 101 *Controls and Displays*: (a) Substitution of a lens marked "Brake" for a lens with an ECE symbol on the brake failure indicator lamp; (b) installation of a seat belt warning lamp; (c) recalibration of the speedometer/odometer from kilometers to miles per hour.

Standard No. 105 *Hydraulic Brake Systems:* (a) Modification of the electrical circuit powering the brake failure indicator lamp so that it activates when the ignition switch is turned to the "on" position; (b) information molded into the brake fluid reservoir cap is incomplete and must be supplemented to comply with the standard.

Standard No. 108 *Lamps, Reflective Devices and Associated Equipment:* (a) Installation of U.S.–model headlamp assemblies; (b) modification of models equipped with integral parking lamps and headlamps to permit the parking lamp to be activated independently of the headlamp; (c) installation of front and rear sidemarker lamps and reflex reflectors; (d) installation of U.S.-model taillamp assemblies; (e) installation of a high mounted stop lamp.

Standard No. 110 *Tire Selection and Rims*: Installation of a tire information placard.

Standard No. 110 *Rearview Mirrors*: Replacement of the passenger's outside rearview mirror, which is convex but does not bear the required warning statement.

Standard No. 114 *Theft Protection*: Installation of a buzzer microswitch in the steering lock assembly, and a warning buzzer.

Standard No. 115 *Vehicle Identification Number*: Installation of a VIN plate that can be read from outside the left windshield pillar, and a VIN reference label on the edge of the door or latch post nearest the driver.

Standard No. 118 *Power Window Systems*: Rewiring of the power window system so that the window transport is inoperative when the ignition is switched off.

Standard No. 208 *Occupant Crash Protection*: (a) Installation of a belt webbing-actuated microswitch in the driver's seat belt retractor to activate the seat belt warning system; (b) installation of an ignition switch-actuated seat belt warning lamp and buzzer.

Standard No. 214 *Side Door Strength*: Installation of reinforcing beams.

Standard No. 301 *Fuel System Integrity*: Installation of a rollover valve in the fuel tank vent line between the fuel and the evaporative emissions collection canister.

Additionally, the petitioner states that the bumpers on the 1989 model 520iA must be reinforced to comply with the Bumper Standard found in 49 CFR part 581.

Interested persons are invited to submit comments on the petition described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, room 5109, 400 Seventh Street, SW., Washington, DC 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the **Federal Register** pursuant to the authority indicated below.

Comment closing date: April 8, 1992.

Authority: 15 U.S.C. 1397(c)(3)(A) (i) (II) and (C) (iii); 49 CFR 593.8; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: February 27, 1992.

William A. Boehly,

Associate Administrator for Enforcement.

DEPARTMENT OF THE TREASURY

Public Information Collection Requirements Submitted to OMB for Review

March 3, 1992.

The Department of the Treasury has submitted the following public information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1980, Public Law 96–511. Copies of the submission(s) may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments regarding this information collection should be addressed to the OMB reviewer listed and to the Treasury Department Clearance Officer, Department of the Treasury, room 3171 Treasury Annex, 1500 Pennsylvania Avenue, NW., Washington, DC 20220.

Internal Revenue Service

OMB Number: New.
Form Number: None.
Type of Review: New collection.
Title: Customer Survey for the Form 1040EZ–1 1992 Test.
Description: A 1992 filing season test of the Form 1040EZ–1 was conducted among 342,000 taxpayers in Texas, Rhode Island, and Washington. This survey of a sample of approximately 3,000 of them will ascertain their reactions to the new form and estimate the amount of burden to be saved through use of the new form.
Respondents: Individuals or households.
Estimated Number of Respondents: 3,000.
Estimated Burden Hours Per Respondent: 10 minutes.
Frequency of Response: Other (One-time survey).
Estimated Total Reporting Burden: 500 hours.
Clearance Officer: Garrick Shear (202) 535–4297, Internal Revenue Service, room 5571, 1111 Constitution Avenue, NW., Washington, DC 20224.
OMB Reviewer: Milo Sunderhauf (202) 395–6880, Office of Management and Budget, room 3001, New Executive Office Building, Washington, DC 20503.

Lois K. Holland,

Departmental Reports Management Officer.

Public Information Collection Requirements Submitted to OMB for Review

Dated: March 3, 1992.

The Department of Treasury has made revisions and resubmitted the following public information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1980, Public Law 96–511. Copies of the submission(s) may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments regarding this information collection should be addressed to the OMB reviewer listed and to the Treasury Department Clearance Officer, Department of the Treasury, Room 3172 Treasury Annex, 1500 Pennsylvania Avenue, NW., Washington, DC 20220.

Internal Revenue Service

OMB Number: 1545–1144.
Form Number: IRS Form 706GS(D).
Type of Review: Resubmission
Title: Generation-Skipping Transfer Tax Returns for Distributions
Description: Form 706GS(D) is used by the distributees to compute and report the Federal Generation-Skipping Transfer (GST) tax imposed by Internal Revenue Code (IRC) section 2601. IRS uses the information to enforce this tax and to verify that the tax has been properly computed.
Respondents: Individuals or households.
Estimated Number of Respondents/ Recordkeepers: 1,000.
Estimated Burden Hours Per Respondent/Recordkeeper:
Recordkeeping—7 minutes.
Learning about the law or the form—28 minutes.
Preparing the form—24 minutes
Copying, assembling and sending the form to IRS—19 minutes.
Frequency of Response: Annually.
Estimated Total Reporting/ Recordkeeping Burden: 1,020 hours.
Clearance Officer: Garrick Shear (202) 535–4297, Internal Revenue Service, room 5571, 1111 Constitution Avenue, NW., Washington, DC 20224.
OMB Reviewer: Milo Sunderhauf (202) 395–6880, Office of Management and Budget, Room 3001, New Executive Office Building, Washington, DC 20503.

Public Information Collection Requirements Submitted to OMB for Review

Dated: March 3, 1992.

The Department of Treasury has submitted the following public information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1980, Public Law 96–511. Copies of the submission(s) may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments regarding this information collection should be addressed to the OMB reviewer listed and to the Treasury Department Clearance Officer, Department of the Treasury, Room 3171 Treasury Annex, 1500 Pennsylvania Avenue, NW., Washington, DC 20220.

Internal Revenue Service

OMB Number: 1545–0720.
Form Number: IRS Forms 8038, 8038–G, 8038–GC and 8038–T.
Type of Review: Revision.
Title:
1. Information Return for Tax-Exempt Private Activity Bond Issues (8038).
2. Information Return for Tax-Exempt Governmental Obligations (8038–G).
3. Information Return for Small Tax-Exempt Governmental Bond Issues, Leases and Installment Sales (8038–GC).
4. Arbitrage Rebate (8038–T).

Description: Forms 8038, 8038–G and 8038–GC collect the information that IRS is required to collect by Code Section 149(e). IRS uses the information to complete the required study of tax-exempt bonds (requested by Congress). IRS also uses the information to assure that tax-exempt bonds are issued consistent with the rules of Internal Revenue Code (IRC) sections 141–149. Form 8038–T is used to implement the arbitrage rebate requirement.
Respondents: State or local governments, Businesses or other for-profit, Non-profit institutions.
Estimated Number of Respondents/ Recordkeepers: 77,000.
Estimated Burden Hours Per Respondent/Recordkeeper:

Form	Recordkeeping	Learning about the law or the form	Preparing, copying, assembling, and sending the form to IRS
8038	23 hrs., 26 min.	4 hrs., 36 min.	6 hrs., 26 min.
8038–G	13 hrs., 38 min.	1 hr., 29 min.	1 hr., 47 min.
8038–GC	3 hrs., 21 min.	1 hr., 34 min.	2 hrs., 53 min.
8038–T	4 hrs., 47 min.	1 hr., 41 min.	1 hr., 50 min.

Frequency of Response:
Forms 8038 and 8038–G—Quarterly.
Forms 8038–GC—Annually.
Forms 8038–T—Other (at least once every 5 years.
Estimated Total Reporting/ Recordkeeping Burden: 1,443,925 hours.
Clearance Officer: Garrick Shear (202) 535–4297, Internal Revenue Service, room 5571, 1111 Constitution Avenue, NW., Washington, DC 20224.

UNITED STATES INFORMATION AGENCY

Culturally Significant Objects Imported for Exhibition; Determination

Notice is hereby given of the following determination: Pursuant to the authority vested in me by the Act of October 19, 1965 (79 Stat. 985, 22 U.S.C. 2459), Executive Order 12047 of March 27, 1978 (43 FR 13359, March 29, 1978), and Delegation Order No. 85–5 of June 27, 1985 (50 FR 27393, July 2, 1985), I hereby determine that the object to be included in the exhibit, "The Quedlinburg Treasury" (see list) [1] imported from abroad for the temporary exhibition without profit within the United States is of cultural significance. The object is imported pursuant to a loan agreement with the foreign lender. I also determine that the tempory exhibition or display of the listed exhibit object at the Dallas Museum of Art, Dallas Texas, beginning on or about March 7, 1992, to on or about May 24, 1992, is the national interest.

Public notice of this determination is ordered to be published in the **Federal Register.**

Dated: March 4, 1992.

Alberto J. Mora,

General Counsel.

[FR Doc. 92–5516 Filed 3–5–92; 11:03 am]

BILLING CODE 8230–01–M

[1] A copy of this list may be obtained by contacting Mr. R. Wallace Stuart of the Office of the General Counsel of USIA. The telephone number is 202/619–5078, and the address is room 700, U.S. Information Agency, 301 Fourth Street, SW., Washington, DC 20547.

Central American Program of Undergraduate Scholarships, (CAMPUS)

AGENCY: United States Information Agency.

ACTION: Notice—Request for proposals.

SUMMARY: Subject to the availability of funds, the United States Information Agency (USIA) invites applications for the seventh Central American Program of Undergraduate Scholarships (CAMPUS) from accredited U.S. educational institutions to host groups of Central American undergraduate students for English language training and the final two years of their undergraduate studies. USIA anticipates awarding five or six grants under this competition.

DATES: Deadline for proposals: Proposals must be received at the U.S. Information agency by 5 p.m. E.D.T. on April 20, 1992. Faxed documents will not be accepted, nor will documents postmarked on April 20, 1992, but received at a later date. It is the responsibility of each grant applicant that proposals are received by the above deadline. Grants should begin September 1, 1992. The duration of the grant should be for thirty-four to thirty-five months. Note: The students will arrive in January, 1993. The grant start date allows for time to prepare for the students' arrival. No funds may be expended until the grant agreement is signed.

ADDRESSES: The original and fourteen copies of the completed application, and the original and two copies of the required U.S. Government forms, should be submitted by the deadline to: U.S. Information Agency, Ref: CAMPUS VII, Grants Management Office, E/XE, room 357, 301 Fourth St., SW., Washington, DC 20547.

FOR FURTHER INFORMATION CONTACT: Interested U.S. institutions should contact the Academic Exchange Programs Division, American Republics Branch, at the U.S. Information Agency, E/AEL, Room 246, 301 4th St., S.W., Washington, D.C. 20547 (202) 619–5365, to request detailed application packets which include specific guidelines for preparing proposals, all necessary forms, and specific budget preparation information.

SUPPLEMENTARY INFORMATION: Pursuant to the Bureau's authorizing legislation, programs must maintain a non-political character and should be balanced and representative of the diversity of American political, social and cultural life. Overall authority for this program is contained in the Mutual Educational and Cultural Exchange Act of 1961, as amended, Public Law 87–256 (Fulbright-Hays Act). The purpose of the Act is "to enable the Government of the United States to increase mutual understanding between the people of other countries; to strengthen the ties which unite us with other nations by demonstrating the educational and cultural interests, developments, and achievements of the people of the United States and other nations and thus to assist in the development of friendly, sympathetic and peaceful relations between the United States and the other countries of the world."

I. Background

A. Overview

The objectives of the program are to improve the range and quality of educational alternatives for talented young Central Americans of limited financial means, to match educational opportunities with regional needs, and to build lasting links betwwen the U.S. and Central America.

B. Program Scope and Calendar

Approximately 69 upper division transfer students from Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua, Panama and Belize will be sponsored for up to 30 months of U.S. study toward a bachelor's degree, including intensive English language training and undergraduate academic coursework. In selecting student grantees, the Agency will seek those who, by prior academic preparation and performance, are likely to succeed in rigorous U.S. college courses.

USIA will award grants to five or six accredited U.S. colleges and universities to host nationally diverse groups of 10–15 student participants.

Applicant institutions should pledge administrative and faculty commitment, as well as instructional and counseling support, to implement an extensive range of educational and cultural program elements and to assist students in achieving academic and personal success.

The scholarship period will be for a maximum total of 30 months, including English language training as needed, appropriate academic programs, and program enhancements as specified below.

About 65 of the participants will be Spanish-speaking students from Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua, and Panama, who will arrive in January 1993 to begin intensive English language training.

About four of the participants will be English-speaking Belizean students, who will also arrive in January, 1993. Since they will not require ESL training, they will begin academic coursework immediately, and continue through the last academic term ending by June 1995.

C. Student Selection

Selection will be conducted by a joint private sector-USIA team working with Central American organizations, universities, and USIS posts in Central America. The team will recommend the selection and placement of candidates to USIA; final selection is subject to review by the J. William Fulbright Foreign Scholarship Board.

D. Admission and Credit Transfer

Once student participants are identified, their application dossiers will be sent to the prospective host institution, which will have a specified time in which to review student qualifications and confirm admission.

E. Project Driectors' Workshop

USIA will hold a two-day conference in Washington, DC in October 1992, for university Project Directors. Project issues and policies will be discussed with USIA staff.

F. Plenary Arrival Orientation Program

USIA will conduct an orientation program for the students from Spanish-speaking countries in January, 1993 (the actual dates to be determined in accordance with the selected universities' academic calendars), in Miami, Florida.

II. The Program

A. Intensive English Language Program

Institutions shall provide intensive English as a Second Language programs responsive to widely varying levels of individual ability and rates of progress, to enable students to achieve adequate English fluency to enter regular academic courses in the fall of 1993.

Host institutions should be prepared to admit qualified students to regular academic coursework as soon as possible.

Provisions should be made for those students requiring some additional English tutoring during the first semester of academic coursework.

B. Nature and Level of Academic Program

CAMPUS students will enroll at each U.S. host institution as undergraduates seeking (unless otherwise specified) to earn a bachelor's degree during the scholarship period. As they will have completed at least two years of college-level study at recognized Central American institutions, CAMPUS students should in many ways be considered upper division (third and fourth year) students.

C. Academic Program: Guidance and Monitoring

Host institutions are expected to ensure that CAMPUS students are enrolled in a substantive undergraduate study program throughout the duration of scholarship. If careful assessment of a participant's prior studies suggests that a bachelor's degree can be earned before the program expiration date, that participant is expected to return home immediately after graduation. Conversely, if careful assessment while the student is pursuing studies in the U.S. suggests that a bachelor's degree cannot be earned within the scholarship period, USIA will work with the host institution to determine an appropriate course of action.

D. Academic Program: Fields of Study

Institutional grantees should expect to offer academic programs in three or more of the six following fields of study (with specializations indicated in parentheses):

1. Business Administration (including management, accounting, marketing, and finance);
2. Communications (including print and electronic journalism, mass media, and public relations);
3. Education (including administration, guidance, special education, teaching specialties in levels pre-K through secondary, and TESOL);
4. Social Sciences (including anthropology, agricultural economics, economics, geography, history, international relations, political science, psychology, and sociology);
5. Natural Sciences (including biology, botany, chemistry, ecology, genetics, geology, marine biology, mathematics, natural resources management, physics, plant physiology, and zoology);
6. Information Science (including computerized information systems analysis, design, and management).

The proposal should include a list of all major fields of study and the specializations offered in which, based on the institution's previous experience with Central American students and the standards of the departments involved, the students have a reasonable expectation of attaining a degree.

E. Special Programs and Services

The special needs of this foreign student group should be addressed in orientation programs treating social and cultural adaptation, introduction to preparation for U.S. scholarly traditions and classroom methodology, ongoing intercultural counseling, appropriate undergraduate coursework, and intellectual, cultural, and social enchancement activities to strengthen understanding of U.S. society and culture, promote group support, and enrich personal experiences. Guded cultural and social activities, e.g. attending a play, concert, lecture, sports event, or other community or cultural activities, are encouraged and should be offered during the entire length of the program. To the extent possible, faculty members or local citizens with relevant expertise should prepare and/or accompany the students for each activity.

III. Technical Format Requirements

Proposals must be submitted by the deadline. The proposal package should include one original and fourteen complete copies and all required documentation. Proposals should be presented as follows:

A. A Bureau Cover Sheet with the name of the institution, project directors with their addresses, telephone and fax numbers, and other required information. A sample cover sheet is included in the application packet.

B. An executive summary (two pages, double-spaced) should preface your proposal and include the university's experience with Central American students, an overview of the ESL program, and the three prioritized fields of study which the university considers most appropriate for these students.

C. A narrative of approximately thirty double-spaced pages addressing all requisite program features mentioned above, the university's objectives, proposed participants and activities, and a plan for institutional evaluation of the project. (Note: the Agency will monitor the program by requiring periodic reports and through USIA and outside contractor visits.) Number all pages (including budget and addenda) and provide a Table of Contents.

D. A comprehensive line item budget outlining specific expenditures. Detailed information, the required budget format, and other required forms are available in the application packet.

E. Documentation of institutional support for the program, including a signed letter of commitment from the institution's President or acting President and other supporting documents affirming the institution's ability to execute the project as proposed.

F. Applicants should refer to the application packets for additional required forms, documentation, and the arrangement of materials.

IV. Review Process

USIA will acknowledge receipt of all proposals and will review them for technical eligibility. Proposals will be deemed ineligible if they do not fully adhere to the guidelines established herein and in the application packet. Eligible proposals will be forwarded to panels of USIA officers for advisory review. All eligible proposals will also be reviewed by the American Republics area office, and the budget and contracts offices. Proposals may also be reviewed by the Agency's Office of General Counsel. Funding decisions are at the discretion of the Associate Director for Educational and Cultural Affairs. Final technical authority for grant awards resides with USIA's contracting officer.

V. Review Criteria

Technically eligible applications will be competitively reviewed according to the following criteria:

1. Overall quality. This includes academic rigor, a high level of institutional commitment and flexibility, the quality of the program plan, adherence of the activity to the criteria and conditions described above, and creative design in all program areas.

2. Feasibility of the program plan as it relates to the stated goals.

3. Value to U.S.-partners country relations. Assessments by USIA's American Republic's office and overseas officers of the need, potential impact and significance in the partner countries.

4. Cost effectiveness. The overhead and administrative components, as well as salaries and honoraria, should be kept as low as possible. All other items should be necessary and appropriate. Proposals should maximize cost-sharing through other private sector support as well as institutional direct funding contributions.

5. Institutional capacity. Proposed personnel and institutional resources should be adequate and appropriate to achieve the program's goals.

6. Potential for program excellence and/or track record of the applicant institution. The Agency will consider the past performance of prior grantees and the demonstrated potential of new applicants, as well as the CAMPUS program's potential for strengthening the institution's existing international program.

7. Follow-on Activities. Proposals should provide a plan for follow-on activity (without USIA support) which insures that USIA supported programs are not isolated events.

8. Evaluation Plan. Proposals should provide a plan for evaluation by the grantee institution.

Applicants should refer to the guidelines provided with the application packets for specific details.

Notice: The terms and conditions published in this RFP are binding and may not be modified by any USIA representative. Explanatory information provided by the Agency that contradicts published language will not be binding. Issuance of the RFP does not constitute an award commitment on the part of the Government. The final award cannot be made until funds have been fully appropriated by Congress, allocated, and committed through internal USIA procedures.

Notification

All applicants will be notified of the results of the review process on or about August 1, 1992. Funded proposals will be subject to periodic reporting and evaluation requirements.

Dated: March 2, 1992.

William P. Glade,

Associate Director, Bureau of Educational and Cultural Affairs.

Group Projects for International Visitor Grantees

AGENCY: United States Information Agency.

ACTION: Notice—Cancellation Request for Proposals.

Cancellation

The U.S. Information Agency finds it necessary to cancel one of the Group Projects for which it issued a Request for Proposals, published in the **Federal Register** on September 23, 1991, Volume 56, Number 184, Page 47987. Because of a lack of response from the U.S. Embassies on which we rely to nominate participants for group projects, we will be unable to conduct the Multi-Regional Project entitled "Regional and Ethnic Culture in the U.S.", scheduled for June 22–July 17, 1992. The deadline for submission of Proposals was to have been March 30, 1992.

Dated: March 2, 1992.

Barry Fulton,

Deputy Associate Director, Bureau of Educational and Cultural Affairs.

BILLING CODE 8230-01-M

U.S. Advisory Commission on Public Diplomacy Meeting

AGENCY: United States Information Agency.

ACTION: Notice.

SUMMARY: A meeting of the U.S. Advisory Commission on Public Diplomacy will be held on March 11 in room 600, 301 4th Street SW., Washington, DC, from 10–12:30 a.m.

At 10 a.m. the Commission will meet with Mr. Tom Rogers, Chief Scientist, International Radio Satellite Corporation, to discuss international broadcasting technologies. Mr. Alberto Mora, USIA General Counsel, is scheduled to meet with the Commission at 11:45, to discuss domestic dissemination, use of the J–1 visa, and other legal issues.

FOR FURTHER INFORMATION CONTACT: Please call Gloria Kalamets, (202) 619–4468, if you are interested in attending the meeting. Space is limited and entrance to the building is controlled.

Dated: March 3, 1992.

Rose Royal,

Management Analyst, Federal Register Liaison.

Sunshine Act Meetings

Federal Register

Vol. 57, No. 46

Monday, March 9, 1992

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

COMMISSION ON NATIONAL AND COMMUNITY SERVICE

TIME AND DATE: Monday, March 30, from 8:30 a.m. to 4:30 p.m.

PLACE: Williamsburg Room, Dept. of Agriculture, 14th and Jefferson Drive, Washington, D.C.

STATUS: The meeting will be open to the public with the exception of the 8:30–9:30 a.m. session which will be closed in order for the Board of Directors to discuss selection of the Executive Director. The closed session is pursuant to the Privacy Act

MATTERS TO BE CONSIDERED: The Board of Directors of the Commission on National and Community Service will meet on March 30, 1992 to discuss the grant process, committee reports, strategic planning, and Subtitle E. The public is invited to address the Board from 1:00 to 2:00 p.m. on March 30. The public is invited to address the Board specifically regarding Subtitle E programs. Statements should be limited to 3–5 minutes, although supplementary written information may be provided. Please provide at least 28 copies of any such materials, either in advance or at the meeting. If we receive requests to speak from more people than can be accommodated, we will select speakers to ensure representation of a variety of viewpoints. If there is not sufficient time for everyone present to speak, comments may be submitted in writing at that time. Persons wishing to comment should contact Cindy Radle at (202) 724-0600 by Thursday, March 26.

CONTACT PERSON FOR MORE INFORMATION: Terry Russell, General Counsel, Commission on National and Community Service, 529 14th Street, NW (Suite 428), Washington, D.C. 20045, (202) 724–0600.

Catherine Milton,

Executive Director, Commission on National and Community Service.

[FR Doc. 92-5615 Filed 3-5-92; 3:34 pm]

BILLING CODE 6820-BA-M

FEDERAL DEPOSIT INSURANCE CORPORATION

Notice of Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 10:50 a.m. on Wednesday, March 4, 1992, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session to consider matters relating to the Corporation's corporate activities.

In calling the meeting, the Board determined, on motion of Director C.C. Hope, Jr. (Appointive), seconded by Director T. Timothy Ryan, Jr., Director (Office of Thrift Supervision), concurred in by Vice Chairman Andrew C. Hove, Jr., Director Stephen R. Steinbrink (Acting Comptroller of the Currency), and Chairman William Taylor, that Corporation business required its consideration of the matters on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting by authority of subsections (c)(2), (c)(6), (c)(9)(B), and (c)(10) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(2), (c)(6), (c)(9)(B), and (c)(10)).

The meeting was held in the Board Room of the FDIC Building located at 550–17th Street, N.W., Washington, DC.

Dated: March 5, 1992.

Federal Deposit Insurance Corporation.

Robert E. Feldman,

Deputy Executive Secretary.

[FR Doc. 92-5614 Filed 3-5-92; 3:33 pm]

BILLING CODE 6714-0-M

INTERSTATE COMMERCE COMMISSION

Commission Conference

TIME AND DATE: 10:00 a.m., Tuesday, March 10, 1992.

PLACE: Hearing Room A, Interstate Commerce Commission, 12th and Constitution Avenue, N.W., Washington, D.C. 20423.

STATUS: The Commission will meet to discuss among themselves the agenda items listed in the notice served on March 3, 1992. Although the conference is open for public observation, no public participation is permitted.

MATTER TO BE DISCUSSED: There has been a change in the agenda listed in the notice served March 3, 1992. The following item has been deleted from the agenda:

Finance Docket No. 29802, *Delaware and Hudson Railway Company v. Consolidated Rail Corporation—Reciprocal Switching Agreement.*

CONTACT PERSONS FOR MORE INFORMATION: Alvin H. Brown or A. Dennis Watson, Office of External Affairs, Telephone: (202) 927–5350, TDD: (202) 927–5721.

Sidney L. Strickland, Jr.,

Secretary.

BILLING CODE 7035-01-M

SECURITIES AND EXCHANGE COMMISSION

Agency Meetings

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94–409, that the Securities and Exchange Commission will hold the following meetings during the week of March 9, 1992.

A closed meeting will be held on Tuesday, March 10, 1992, at 2:30 p.m. An open meeting will be held on Wednesday, March 11, 1992, at 9:00 a.m., in Room 1C30.

Commissioners, Counsel to the Commissioners, the Secretary to the Commission, and recording secretaries will attend the closed meeting. Certain staff members who have an interest in the matters may also be present.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, one or more of the exemptions set forth in 5 U.S.C. 552b(c)(4), (8), (9)(A) and (10) and 17 CFR 200.402(a)(4), (8), (9)(i) and (10), permit consideration of the scheduled matters at a closed meeting.

Commissioner Roberts, as duty officer, voted to consider the items listed for the closed meeting in a closed session.

The subject matter of the closed meeting scheduled for Tuesday, March 10, 1992, at 2:30 p.m., will be:

Settlement of injunctive actions.
Institution of injunctive actions.
Settlement of administrative proceedings of an enforcement nature.
Institution of administrative proceedings of an enforcement nature.

The subject matter of the open meeting scheduled for Wednesday, March 11, 1992, at 9:00 a.m., will be:

1. Consideration of whether to issue for comment amendments to Regulation E under the Securities Act of 1933. Regulation E

provides a conditional exemption from registration under the 1933 Act for securities issued by small business investment companies that are registered under the Investment Company Act of 1940 and by business development companies the elect to be regulated under the 1940 Act. The proposed amendments would increase the aggregate offering price of (a) securities of a small business investment company that may be offered within a twelve-month period from $5 million to $15 million and (b) securities of a small business investment company or business development company offered by a person other than the issuer from $100,000 to $1.5 million. For further information, please contact Kathleen K. Clarke at (202) 272–2097.

2. Consideration of whether to publish revisions to the Guidelines for Form N–1A, the registration statement form for open-end management investment companies. The revised Guidelines would permit open-end management investment companies to increase the amount of assets held in illiquid securities from 10% to 15%. For further information, please contact Richard Pfordte at (202) 272–2103.

3. Consideration of whether to publish for comment proposed rule changes to facilitate capital formation by small businesses. The proposals involve revisions to Regulations A and D, a definition of "small business issuer," new forms and disclosure requirements for such companies and revisions to the exemptive rules regarding the use of trust indentures. For further information, please contact Teresa E. Iannaconi at (202) 272–2553.

At times, changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: Holly Smith at (202) 272–2100.

Dated: March 4, 1992.

Jonathan G. Katz,

Secretary.

BILLING CODE 8010–01–M

federal register

Monday
March 9, 1992

Part II

Department of Commerce

Bureau of the Census

Qualifying Urbanized Areas for the 1990 Census; Notice

DEPARTMENT OF COMMERCE

Bureau of the Census

[Docket No. 920132-2032]

Qualifying Urbanized Areas for the 1990 Census

AGENCY: Bureau of the Census, Commerce.

ACTION: Notice.

SUMMARY: This document provides the list of urbanized areas that qualified based on the results of the 1990 Census of Population and Housing [1] for the United States and Puerto Rico. The Census Bureau determined these urbanized areas using the final criteria that were published in the **Federal Register** on October 22, 1990 (55 FR 42592).[2]

The Bureau of the Census identifies and delineates urbanized areas to provide better data on the separation of the urban and rural population and housing in the vicinity of large cities. Because the Census Bureau identifies and tabulates data for urbanized areas solely for the purpose of statistical presentation and comparison, it does not take into account or attempt to anticipate any nonstatistical uses that others may make of these areas or their associated data, nor does it attempt to meet the requirements of any such nonstatistical program uses. Nevertheless, the Census Bureau recognizes that some Federal and State agencies are required by statute to use the Census Bureau defined urbanized areas for allocating program funds, setting program standards, and implementing other aspects of their programs. If a Federal or State agency voluntarily uses these urbanized areas or their associated data in a nonstatistical program, it is the agency's responsibility to ensure that the results are appropriate for such use. In considering the appropriateness of such nonstatistical program uses, the Census Bureau urges each agency to consider permitting appropriate modifications of the urbanized area results specifically for purposes of its program. When an agency permits such modifications, the Census Bureau urges each agency to use descriptive terminology that clearly avoids confusion with the Census Bureau's official urbanized areas.

As a result of the 1990 census, there are 396 urbanized areas in the United States and nine additional urbanized areas in Puerto Rico. Three 1990 urbanized areas resulted from merging previously qualifying areas: St. Petersburg merged with Tampa, FL; Newport News-Hampton with Norfolk, VA; and Meriden with New Haven, CT. Two areas that qualified as urbanized areas in 1980, Danville, IL and Enid, OK, no longer qualify because their 1990 census populations were lower than the required 50,000.

An alphabetical list of qualified urbanized areas follows; a footnote "1" identifies newly qualified urbanized areas.

Part III

Environmental Protection Agency

40 CFR Part 47

National Environmental Education Act Grants Regulations; Interim Final Rule

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 47

[FRL-4026-7]

National Environmental Education Act Grants Regulations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Interim final rule.

SUMMARY: The Environmental Protection Agency (EPA) is promulgating an interim final rule on the award of financial assistance under section 6 of the National Environmental Education Act (NEEA). This rule codifies policies and procedures for financial assistance awarded by EPA to eligible agencies, institutions and organizations to support projects related to environmental education and training.

EFFECTIVE DATES: EPA is publishing this rule as an interim final rule which is effective on March 9, 1992. EPA will accept public comments on this rule until April 8, 1992.

ADDRESSES: Comments may be mailed to Mr. George Walker, Office of Environmental Education (A-107), U.S. Environmental Protection Agency, 401 M Street SW., Washington, DC 20460.

The docket for this rule and copies of the public comments submitted will be available for public inspection and copying at a reasonable fee at EPA Headquarters Library, Public Information Reference Unit, room 2904, 401 M Street, telephone (202) 260-5926.

FOR FURTHER INFORMATION CONTACT: Mr. George Walker, (202) 260-4484.

SUPPLEMENTARY INFORMATION:

I. Background

On November 16, 1990, Congress enacted and the President signed the National Environmental Education Act (NEEA), Public Law 101-619. In section 6 of the NEEA, it established a program for grants and cooperative agreements to support projects related to environmental education and training, and directed EPA to publish a regulation to implement the program. This regulation implements the statutory requirements of section 6 of the NEEA. The definitions, eligibility requirements, solicitation procedures, priorities for award, and limits on amount of award are taken directly from the NEEA.

The NEEA also establishes a maximum Federal share of 75% for demonstration projects. As a policy matter, to ensure that recipients are committed to successful completion of projects, EPA has decided to apply this maximum to all types of grants awarded under section 6. Thus, as a general rule, all grant recipients in this program will be expected to provide at least a 25% match, including in-kind contributions.

In addition to the requirements of the Act, recipients must comply with the provisions of EPA's general assistance regulations at 40 CFR parts 30 and 31, as appropriate.

This regulation applies only to the environmental education program established by section 6 of the NEEA. It does not govern the Environmental Education and Training Program to train education professionals authorized by section 5, nor the Internship/Fellowship Program authorized by section 7 of the NEEA. EPA will develop separate guidance for these programs.

II. Executive Order 12291

Under Executive Order 12291, EPA must judge whether a new regulation is "major" and therefore subject to the requirement of a Regulatory Impact Analysis. This regulation does not satisfy any of the criteria the Executive Order specifies for a major rulemaking, and therefore this is not subject to a Regulatory Impact Analysis.

This regulation was submitted to the Office of Management and Budget (OMB) for review as required by Executive Order 12291.

III. Paperwork Reduction Act

The information collection requirements in this rule have been approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.* and have been assigned control number 2030-0020.

Public reporting burden for this collection of information is estimated at 19 hours per response, including time for reviewing instructions, gathering information, preparing the application package and status reports, maintaining records on the data needed, and completing the collection of information.

Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: Chief, Information Policy Branch, Regulatory Management Division (PM-223Y); EPA; 401 M St., SW., Washington, DC 20460, and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503, marked "Attention: Desk Officer for EPA."

IV. Regulatory Flexibility Act

EPA did not develop a Regulatory Flexibility Analysis for this regulation because it is exempt from notice and comment rulemaking under section 553 of the APA, and therefore, is not subject to the analytical requirements of sections 603 and 604 of the Regulatory Flexibility Act (5 U.S.C. 603 and 604).

List of Subjects in 40 CFR Part 47

Grant programs—education, Grant programs—environmental protection, and Reporting and recordkeeping requirements.

Dated: February 27, 1992.

William K. Reilly,

Administrator.

For the reasons set out in the preamble, title 40, chapter I of the Code of Federal Regulations is amended by adding a new part 47 to read as follows:

PART 47—NATIONAL ENVIRONMENTAL EDUCATION ACT GRANTS

Sec.

47.100 Purpose and scope.
47.105 Definitions.
47.110 Eligible applicants.
47.115 Award amount and matching requirements.
47.120 Solicitation notice and proposal procedures.
47.125 Eligible and priority projects and activities.
47.130 Project performance.
47.135 Disputes.

Authority: 20 U.S.C. 5505.

§ 47.100 Purpose and scope.

This regulation codifies policy and procedures for the award of grants or cooperative agreements under section 6 of the NEEA. Specifically, this regulation defines eligible applicants, eligible activities, EPA priorities for selecting recipients, funding limits, and matching requirements. Projects funded under this regulation are also subject to the Code of Federal Regulations (40 CFR) part 31 for State and local recipients, and part 30 for other than State and local recipients. Those regulations contain Federal audit and other general administrative requirements. This regulation does not apply to the programs implemented under sections 5 and 7 of the NEEA.

§ 47.105 Definitions.

(a) *Environmental education* and *environmental education and training* mean educational activities and training activities involving elementary, secondary, and postsecondary students, as such terms are defined in the State in which they reside, and environmental education personnel, but does not include technical training activities directed toward environmental management professionals or activities primarily directed toward the support of noneducational research and development;

(b) *Federal agency* or *agency of the United States* means any department, agency or other instrumentality of the Federal Government, any independent agency or establishment of the Federal Government including any Government corporation;

(c) *Local education agency* means any education agency as defined in section 198 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 3381) and shall include any tribal education agency, as defined in § 47.105(f);

(d) *Not-for-profit* organization means an organization, association, or institution described in section 501(c)(3) of the Internal Revenue Code of 1986, which is exempt from taxation pursuant to the provisions of section 501(a) of such Code;

(e) *Noncommercial education broadcasting entities* means any noncommercial educational broadcasting station (and/or its legal nonprofit affiliates) as defined and licensed by the Federal Communications Commission;

(f) *Tribal education agency* means a school or community college which is controlled by an Indian tribe, band, or nation, including any Alaska Native village, which is recognized as eligible for special programs and services provided by the United States to Indians because of their status as Indians and which is not administered by the Bureau of Indian Affairs;

(g) Refer to 40 CFR parts 30 and 31 for definitions for budget period, project period, continuation award, cooperative agreement, grant agreement, and other Federal assistance terms.

§ 47.110 Eligible applicants.

Any local education agency (including any tribal education agency), college or university, State education agency or environmental agency, not-for-profit organization, or noncommercial educational broadcasting entity may submit an application to the Administrator in response to the solicitations described in § 47.120.

§ 47.115 Award amount and matching requirements.

(a) Individual awards shall not exceed $250,000, and 25 percent of all funds obligated under this section in a fiscal year shall be for individual awards of not more than $5,000.

(b) The Federal share shall not exceed 75 percent of the total project costs. The non-Federal share of project costs may be provided by in-kind contributions and other noncash support. In cases where the EPA determines that a proposed project merits support and cannot be undertaken without a higher rate of Federal support, the EPA may approve awards with a matching requirement other than that specified in this paragraph, including full Federal funding.

§ 47.120 Solicitation notice and proposal procedures.

Each fiscal year the Administrator shall publish a solicitation for environmental education grant proposals. The solicitation notice shall prescribe the information to be included in the proposal and other information sufficient to permit EPA to assess the project.

§ 47.125 Eligible and priority projects and activities.

(a) Activities eligible for funding shall include, but not be limited to, environmental education and training programs for:

(1) Design, demonstration, or dissemination of environmental curricula, including development of educational tools and materials;

(2) Design and demonstration of field methods, practices, and techniques, including assessment of environmental and ecological conditions and analysis of environmental pollution problems;

(3) Projects to understand and assess a specific environmental issue or a specific environmental problem;

(4) Provision of training or related education for teachers, faculty, or related personnel in a specific geographic area or region; and

(5) Design and demonstration of projects to foster international cooperation in addressing environmental issues and problems involving the United States and Canada or Mexico.

(b) EPA shall give priority to those proposals which will develop:

(1) A new or significantly improved environmental education practice, method, or technique;

(2) An environmental education practice, method, or technique which may have wide application;

(3) An environmental education practice, method, or technique which addresses a skill or scientific field identified as a priority in the report which will be developed within two years of enactment pursuant to section 9(d) of the Act; and

(4) An environmental education practice, method, or technique which addresses an environmental issue which, in the judgment of EPA, is of a high priority.

§ 47.130 Performance of grant.

(a) Each project shall be performed by the recipient, or by a person satisfactory to the recipient and to the EPA. Workplans shall accompany all applications, shall identify who will be performing activities, and shall be approved by EPA prior to funding.

(b) Budget periods normally will not exceed one year. Project periods may be longer, and additional funding may be awarded for continuations.

(c) Procurement procedures, which are found in 40 CFR part 33 for all recipients other than State and local governments. Procurement procedures for State and local governments are described in 40 CFR part 31. These procedures include provisions for small purchase procedures.

§ 47.135 Disputes.

Disputes arising under these grants shall be governed by 40 CFR 30.1200 for recipients other than State and local governments and 40 CFR 31.70 for State and local governments.

The President

Proclamation 6409—National Day of Prayer, 1992

Federal Register
Vol. 57, No. 46
Monday, March 9, 1992

Presidential Documents

Title 3—

The President

Proclamation 6409 of March 5, 1992

National Day of Prayer, 1992

By the President of the United States of America

A Proclamation

We live during a time of great and historic change, a time that has seen the rise of newly democratic nations and the fall of once firmly entrenched totalitarian regimes. While such progress is cause for optimism and hope, the dramatic pace of global developments and the uncertainty they generate can also leave us with a faint sense of anticipation and unease. As we seek to chart a proper course in a world that is changing by the hour, our observance of a National Day of Prayer reminds us that we can always place our trust in the steady, unfailing light that is the love of God.

Time and again, Scripture tells us of the constancy of the Almighty. Indeed, His kingdom is an everlasting kingdom, wrote the Psalmist, and His dominion endures throughout all generations.

Our ancestors trusted in the faithfulness of the Almighty, and they frequently turned to Him in humble, heartfelt prayer. When they finally reached these shores, the early settlers gave thanks for their very lives—and for the promise of freedom in a new land. Members of the Continental Congress began their deliberations with prayer, and later when members of that same body pledged their lives, their fortunes, and their sacred honor in support of our Nation's independence, they did so "with a firm reliance on the protection of Divine Providence."

Today we know that their trust was well placed; their faith, richly rewarded. The great American experiment in liberty and self-government has not only endured but prospered. The triumph of freedom in this country has inspired the advance of human rights and dignity around the globe.

Although much has transpired since our ancestors prayed for divine mercy and direction, this occasion calls us to remember, as did Ben Franklin and his contemporaries, "that God governs in the affairs of men." The One to whom George Washington turned when he knelt in the snow at Valley Forge is the same God who heard the prayers of President Lincoln nearly a century later during the darkest hours of the Civil War. While our needs today may be different, we are no less dependent on the help of Almighty God. Therefore, let us likewise seek His forgiveness, strength, and guidance.

Whatever our individual religious convictions may be, each of us is invited to join in this National Day of Prayer. Indeed, although we may find our own words to express it, each of us can echo this timeless prayer of Solomon, the ancient king who prayed for, and received, the gift of wisdom:

> The Lord our God be with us, as He was with our fathers; may He not leave us or forsake us; so that He may incline our hearts to Him, to walk in all His ways . . . . that all the peoples of the earth may know that the Lord is God; there is no other.

Since the approval of the joint resolution of the Congress on April 17, 1952, calling for the designation of a specific day to be set aside each year as a National Day of Prayer, recognition of such a day has become a cherished annual event. Each President since then has proclaimed a National Day of Prayer annually under the authority of that resolution, continuing a tradition that dates back to the Continental Congress. By Public Law 100-307, the first Thursday in May of each year has been set aside as a National Day of Prayer.

NOW, THEREFORE, I, GEORGE BUSH, President of the United States of America, do hereby proclaim May 7, 1992, as a National Day of Prayer. I urge all Americans to gather together on that day in homes and places of worship to pray, each after his or her own manner, in thanksgiving to Almighty God. On this occasion, let us also pray for His continued blessing upon our families and Nation.

IN WITNESS WHEREOF, I have hereunto set my hand this fifth day of March, in the year of our Lord nineteen hundred and ninety-two, and of the Independence of the United States of America the two hundred and sixteenth.

LIST OF PUBLIC LAWS

This is a continuing list of public bills from the current session of Congress which have become Federal laws. It may be used in conjunction with "P L U S" (Public Laws Update Service) on 202–523–6641. The text of laws is not published in the **Federal Register** but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone, 202–512–2470).

H.R. 476/P.L. 102–249

Michigan Scenic Rivers Act of 1991. (Mar. 3, 1992; 106 Stat. 45; 8 pages) Price: $1.00

Last List March 6, 1992

CFR CHECKLIST

This checklist, prepared by the Office of the Federal Register, is published weekly. It is arranged in the order of CFR titles, stock numbers, prices, and revision dates.

An asterisk (*) precedes each entry that has been issued since last week and which is now available for sale at the Government Printing Office.

A checklist of current CFR volumes comprising a complete CFR set, also appears in the latest issue of the LSA (List of CFR Sections Affected), which is revised monthly.

The annual rate for subscription to all revised volumes is $620.00 domestic, $155.00 additional for foreign mailing.

Mail orders to the Superintendent of Documents, Attn: New Orders, P.O. Box 371954, Pittsburgh, PA 15250–7954. All orders must be accompanied by remittance (check, money order, GPO Deposit Account, VISA, or Master Card). Charge orders may be telephoned to the GPO Order Desk, Monday through Friday, at (202) 783–3238 from 8:00 a.m. to 4:00 p.m. eastern time, or FAX your charge orders to (202) 512-2233.

[1] Because Title 3 is an annual compilation, this volume and all previous volumes should be retained as a permanent reference source.

[2] The July 1, 1985 edition of 32 CFR Parts 1–189 contains a note only for Parts 1–39 inclusive. For the full text of the Defense Acquisition Regulations in Parts 1–39, consult the three CFR volumes issued as of July 1, 1984, containing those parts.

[3] The July 1, 1985 edition of 41 CFR Chapters 1–100 contains a note only for Chapters 1 to 49 inclusive. For the full text of procurement regulations in Chapters 1 to 49, consult the eleven CFR volumes issued as of July 1, 1984 containing those chapters.

[4] No amendments to this volume were promulgated during the period Jan. 1, 1987 to Dec. 31, 1990. The CFR volume issued January 1, 1987, should be retained.

[5] No amendments to this volume were promulgated during the period Apr. 1, 1990 to Mar. 31, 1991. The CFR volume issued April 1, 1990, should be retained.

[6] No amendments to this volume were promulgated during the period July 1, 1989 to June 30, 1991. The CFR volume issued July 1, 1989, should be retained.

[7] No amendments to this volume were promulgated during the period July 1, 1990 to June 30, 1991. The CFR volume issued July 1, 1990, should be retained

Public Laws

102d Congress, 2nd Session, 1992

Pamphlet prints of public laws, often referred to as slip laws, are the initial publication of Federal laws upon enactment and are printed as soon as possible after approval by the President. Legislative history references appear on each law. Subscription service includes all public laws, issued irregularly upon enactment, for the 102d Congress, 2nd Session, 1992.

(Individual laws also may be purchased from the Superintendent of Documents, Washington, DC 20402-9328. Prices vary. See Reader Aids Section of the Federal Register for announcements of newly enacted laws and prices).

The United States Government Manual 1991/92

As the official handbook of the Federal Government, the *Manual* is the best source of information on the activities, functions, organization, and principal officials of the agencies of the legislative, judicial, and executive branches. It also includes information on quasi-official agencies and international organizations in which the United States participates.

Particularly helpful for those interested in where to go and who to see about a subject of particular concern is each agency's "Sources of Information" section, which provides addresses and telephone numbers for use in obtaining specifics on consumer activities, contracts and grants, employment, publications and films, and many other areas of citizen interest. The *Manual* also includes comprehensive name and agency/subject indexes.

Of significant historical interest is Appendix C, which lists the agencies and functions of the Federal Government abolished, transferred, or changed in name subsequent to March 4, 1933.

The *Manual* is published by the Office of the Federal Register, National Archives and Records Administration.

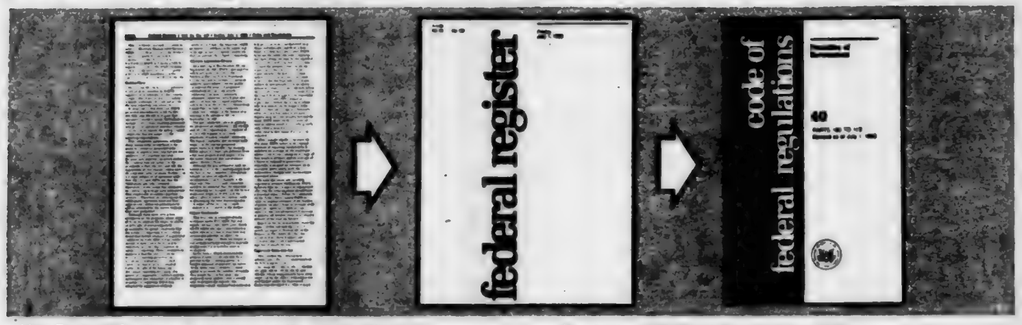
The Federal Register

Regulations appear as agency documents which are published daily in the **Federal Register** and codified annually in the **Code of Federal Regulations**



The **Federal Register**, published daily, is the official publication for notifying the public of proposed and final regulations. It is the tool for you to use to participate in the rulemaking process by commenting on the proposed regulations. And it keeps you up to date on the Federal regulations currently in effect.

Mailed monthly as part of a **Federal Register** subscription are: the LSA (List of CFR Sections Affected) which leads users of the **Code of Federal Regulations** to amendatory actions published in the daily **Federal Register**; and the cumulative **Federal Register Index.**

The **Code of Federal Regulations** (CFR) comprising approximately 196 volumes contains the annual codification of the final regulations printed in the **Federal Register**. Each of the 50 titles is updated annually.

Individual copies are separately priced. A price list of current **CFR** volumes appears both in the **Federal Register** each Monday and the monthly **LSA** (List of **CFR** Sections Affected). Price inquiries may be made to the Superintendent of Documents, or the Office of the Federal Register.

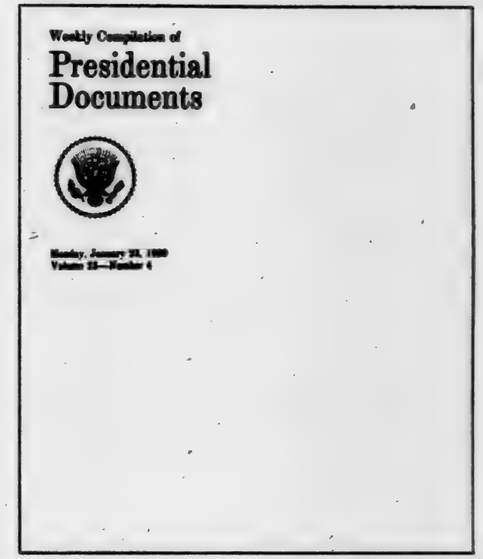
Rev 1-91

The authentic text behind the news . . .

The Weekly Compilation of **Presidential Documents**

Administration of George Bush



This unique service provides up-to-date information on Presidential policies and announcements. It contains the full text of the President's public speeches, statements, messages to Congress, news conferences, personnel appointments and nominations, and other Presidential materials released by the White House.

The Weekly Compilation carries a Monday dateline and covers materials released during the preceding week. Each issue contains an Index of Contents and a Cumulative Index to Prior Issues.

Separate indexes are published periodically. Other features include lists of acts approved by the President, nominations submitted to the Senate, a checklist of White House press releases, and a digest of other Presidential activities and White House announcements.

Published by the Office of the Federal Register, National Archives and Records Administration.

Would you like to know...

if any changes have been made to the Code of Federal Regulations or what documents have been published in the Federal Register without reading the Federal Register every day? If so, you may wish to subscribe to the *LSA (List of CFR Sections Affected)*, the *Federal Register Index*, or both.

LSA • List of CFR Sections Affected

The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. The LSA is issued monthly in cumulative form. Entries indicate the nature of the changes—such as revised, removed, or corrected.
$21.00 per year

Federal Register Index

The index, covering the contents of the daily Federal Register, is issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references.
$19.00 per year.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Note to FR Subscribers:
FR Indexes and the LSA (List of CFR Sections Affected) are mailed automatically to regular FR subscribers.

Briefing on How To Use the Federal Register
For information on a briefing in Washington, DC, see announcement on the inside cover of this issue.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the **Federal Register** as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** will be furnished by mail to subscribers for $340 per year in paper form; $195 per year in microfiche form; or $37,500 per year for the magnetic tape. Six-month subscriptions are also available at one-half the annual rate. The charge for individual copies in paper or microfiche form is $1.50 for each issue, or $1.50 for each group of pages as actually bound, or $175.00 per magnetic tape. Remit check or money order, made payable to the Superintendent of Documents. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7054, or charge to your GPO Deposit Account or VISA or Mastercard.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 57 FR 12345.

THE FEDERAL REGISTER
WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: The Office of the Federal Register.

WHAT: Free public briefings (approximately 3 hours) to present:
1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

WASHINGTON, DC

WHEN: April 7, at 9:00 a.m.
WHERE: Office of the Federal Register, First Floor Conference Room, 1100 L Street NW., Washington, DC.
RESERVATIONS: 202-523-5240.
DIRECTIONS: North on 11th Street from Metro Center to corner of 11th and L Streets

Rules and Regulations

Federal Register
Vol. 57, No. 47
Tuesday, March 10, 1992

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 97

[Docket No. 26789; Amdt. No. 1481]

Standard Instrument Approach Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: *Effective:* An effective date for each SIAP is specified in the amendatory provisions.

Incorporation by reference-approved by the Director of the Federal Register on December 31, 1980, and reapproved as of January 1, 1982.

ADDRESSES: Availability of matter incorporated by reference in the amendment is as follows:

For Examination—

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591;
2. The FAA Regional Office of the region in which affected airport is located; or
3. The Flight Inspection Field Office which originated the SIAP.

For Purchase—

Individual SIAP copies may be obtained from:

1. FAA Public Inquiry Center (APA-200), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591; or
2. The FAA Regional Office of the region in which the affected airport is located.

By Subscription—

Copies of all SIAPs, mailed once every 2 weeks, are for sale by the Superintendent of Documents, US Government Printing Office, Washington, DC 20402.

FOR FURTHER INFORMATION CONTACT: Paul J. Best, Flight Procedures Standards Branch (AFS-420), Technical Programs Division, Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591; telephone (202) 267-8277.

SUPPLEMENTARY INFORMATION: This amendment to Part 97 of the Federal Aviation Regulations (14 CFR Part 97) establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs). The complete regulatory description of each SIAP is contained in the appropriate FAA Form 8260 and the National Flight Data Center (FDC)/Permanent (P) Notices to Airmen (NOTAM) which are incorporated by reference in the amendment under 5 U.S.C. 552(a), 1 CFR part 51, and § 97.20 of the Federal Aviation Regulations (FAR). Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the **Federal Register** expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction of charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form documents is unnecessary. The Provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

The Rule

This amendment to part 97 of the Federal Aviation Regulations (14 CFR part 97) establishes, amends, suspends, or revokes SIAPs. For safety and timeliness of change considerations, this amendment incorporates only specific changes contained in the content of the following FDC/P NOTAM for each SIAP. The SIAP information in some previously designated FDC/Temporary (FDC/T) NOTAMs is of such duration as to be permanent. With conversion to FDC/P NOTAMs, the respective FDC/T NOTAMs have been cancelled.

The FDC/P NOTAMs for the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). In developing these chart changes to SIAPs by FDC/P NOTAMs, the TERPs criteria were applied to only these specific conditions existing at the affected airports.

This amendment to part 97 is effective upon publication of each separate SIAP as contained in the transmittal. All SIAP amendments in this rule have been previously issued by the FAA in a National Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for all these SIAP amendments requires making them effective in less than 30 days.

Further, the SIAPs contained in this amendment are based on the criteria contained in the US Standard for Terminal Instrument Approach Procedures (TERPs). Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs are unnecessary, impracticable, and contrary to the public interest and, where applicable, that good cause exists for making these SIAPs effective in less than 30 days.

Conclusion

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are

necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 97

Air traffic control, Airports, Incorporation by reference, Navigation (Air), Standard instruction approaches, Weather.

Issued in Washington, DC on February 28, 1992.

Thomas C. Accardi,

Director, Flight Standards Service.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 97 of the Federal Aviation Regulations (14 CFR part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures, effective at 0901 UTC on the dates specified, as follows:

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

1. The authority citation for part 97 continues to read as follows:

Authority: 49 U.S.C. App. 1348, 1354(a), 1421 and 1510; 49 U.S.C. 106(g); and 14 CFR 11.49(b)(2).

2. Part 97 is amended to read as follows:

§§ 97.23, 97.25, 97.27, 97.29, 97.31, 97.33, 97.35 [Amended]

By amending: § 97.23 VOR, VOR/DME, VOR or TACAN, and VOR/DME or TACAN; § 97.25 LOC, LOC/DME, LDA, LDA/DME, SDF, SDF/DME; § 97.27 NDB, NDB/DME; § 97.29 ILS, ILS/DME, ISMLS, MLS, MLS/DME, MLS/RNAV; § 97.31 RADAR SIAPs; § 97.33 RNAV SIAPs; and § 97.35 COPTER SIAPs, identified as follows:

BILLING CODE 4910–13–M

---

14 CFR Part 97

[Docket No. 26796; Amdt. No. 1482]

Standard Instrument Approach Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: *Effective:* An effective date for each SIAP is specified in the amendatory provisions.

Incorporation by reference—approved by the Director of the Federal Register on December 31, 1980, and reapproved as of January 1, 1982.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

For Examination—

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue SW., Washington, DC 20591;
2. The FAA Regional Office of the region in which the affected airport is located; or
3. The Flight Inspection Field Office which originated the SIAP.

For Purchase—

Individual SIAP copies may be obtained from:

1. FAA Public Inquiry Center (APA–200), FAA Headquarters Building, 800 Independence Avenue SW., Washington, DC 20591; or
2. The FAA Regional Office of the region in which the affected airport is located.

By Subscription—

Copies of all SIAPs, mailed once every 2 weeks, are for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

FOR FURTHER INFORMATION CONTACT: Paul J. Best, Flight Procedures Standards Branch (AFS–420), Technical Programs Division, Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591; telephone (202) 267–8277.

SUPPLEMENTARY INFORMATION: This amendment to part 97 of the Federal Aviation Regulations (14 CFR part 97) establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR part 51, and § 97.20 of the Federal Aviation Regulations (FAR). The applicable FAA Forms are identified as FAA Forms 8260–4, and 8260–5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the **Federal Register** expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic dipiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form documents is unnecessary. The provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

This amendment to part 97 is efffective upon publication of each separate SIAP as contained in the transmittal. Some SIAP amendments may have been previously issued by the FAA in a National Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAPs, an effective date at least 30 days after publication is provided.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). In developing these SIAPs, the TERPS criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs are unnecessary, impracticable, and contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 97

Air traffic control, Airports, Incorporation by reference, Navigation (Air), Standard instrument approaches, Weather. Issued in Washington, DC on February 28, 1992.

Thomas C. Accardi,

Director, Flight Standards Service.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 97 of the Federal Aviation Regulations (14 CFR part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures, effective at 0901 utc on the dates specified, as follows:

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

1. The authority citation for part 97 continues to read as follows:

Authority: 49 U.S.C. App. 1348, 1354(a), 1421 and 1510; 49 U.S.C. 106(g) and 14 CFR 11.49(b)(2).

2. Part 97 is amended to read as follows:

§§ 97.23, 97.25, 97.27, 97.29, 97.31, 97.33, 97.35 [Amended]

By amending: § 97.23 VOR, VOR/DME, VOR or TACAN, and VOR/DME or TACAN; § 97.25 LOC, LOC/DME, LDA, LDA/DME, SDF, SDF/DME; § 97.27 NDB, NDB/DME; § 97.29 ILS, ILS/DME, ISMLS, MLS, MLS/DME, MLS/RNAV; § 97.31 RADAR SIAPs; § 97.33 RNAV SIAPs; and § 97.35 COPTER SIAPs, identified as follows:

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 558

Animal Drugs, Feeds, and Related Products; Zoalene; Editorial Amendments

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending certain portions of its regulations, for use of Zoalene in animal feeds, to remove a reference to an outdated sponsor and to simplify the conditions of use. This action is editorial in nature and is intended to improve the accuracy and clarity of the regulations.

EFFECTIVE DATE: March 10, 1992.

FOR FURTHER INFORMATION CONTACT: Benjamin A. Puyot, Center for Veterinary Medicine (HFV–130), Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855, 301–295–8646.

SUPPLEMENTARY INFORMATION: FDA is editorially amending § 558.680 *Zoalene* (21 CFR 558.680) by revising the table in paragraph (c)(1), to simplify the conditions of use listed in entry (i) under the heading "Limitations," and to remove an outdated sponsor in entry (ii) of the same table (§ 558.680(a) identifies the current sponsor).

The amendments are wholly editorial in nature. For this reason, notice and public procedure and delayed effective date are unnecessary (5 U.S.C. 553(b)(3)(b) and (d)).

List of Subjects in 21 CFR Part 558

Animal drugs, Animal feeds.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Center for Veterinary Medicine, 21 CFR Part 558 is amended as follows:

PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

1. The authority citation for 21 CFR part 558 continues to read as follows:

Authority: Secs. 512, 701 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b, 371).

2. Section 558.680 *Zoalene* is amended by revising the table in paragraph (c)(1) to read as follows:

§ 558.680 Zoalene.

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 100

[CGD 05-92-005]

Special Local Regulations for Marine Events; Crawford Bay Crew Classic; Southern Branch, Elizabeth River, Portsmouth, VA

AGENCY: Coast Guard, DOT.
ACTION: Temporary final rule.

SUMMARY: Special local regulations are being adopted for the Crawford Bay Crew Classic to be held on the Southern Branch, Elizabeth River, at Portsmouth, Virginia. The event will consist of crew shells racing in heats on the Elizabeth River from Mobil Oil to Portside, in Portsmouth. These regulations are necessary to control spectator craft and to provide for the safety of life and property on navigable waters during the event.

EFFECTIVE DATE: These regulations are effective for the following periods:
12:15 p.m. to 7 p.m. March 20, 1992;
6 a.m. to 6 p.m. March 21, 1992.

FOR FURTHER INFORMATION CONTACT: Mr. Stephen L. Phillips, Chief, Boating Affairs Branch, Boating Safety Division, Fifth Coast Guard District, 431 Crawford Street, Portsmouth, Virginia 23704-5004 (804) 398-6204, or Commander, Coast Guard Group Hampton Roads (804) 483-8559.

SUPPLEMENTARY INFORMATION: In accordance with 5 U.S.C. 553, a notice of proposed rulemaking has not been published for these regulations and good cause exists for making them effective in less than 30 days from the date of publication. Adherence to normal rulemaking procedures would not have been possible. Specifically, the sponsor's application to hold the event was not received in the district office until January 23, 1992, leaving insufficient time to publish a notice of proposed rulemaking in advance of the event.

Drafting Information

The drafters of this notice are Stephen Phillips, project officer, Boating Affairs Branch, Fifth Coast Guard District, and Lieutenant Monica L. Lombardi, project attorney, Fifth Coast Guard District Legal Staff.

Background and Purpose

Ports Events Inc. has submitted an application to hold the Crawford Bay Crew Classic on the Southern Branch of the Elizabeth River at Portsmouth, Virginia. As part of the application, Ports Events Inc. requested that the Coast Guard provide control of spectator and commercial traffic within the regulated area.

Discussion of Regulations

These regulations will regulate the area surrounding the Crawford Bay Crew Classic on the Southern Branch of the Elizabeth River. Crew racing shells will be racing in heats starting in the vicinity of the Mobil Oil Docks and will finish in the vicinity of Portside, Portsmouth. These regulations are necessary to control spectator craft and to provide for the safety of life and property on navigable waters during the event. Marine traffic will be allowed to transit the regulated area between races. Since the main shipping channel will not be closed for extended periods of time, commercial traffic should not be severely disrupted.

Regulatory Evaluation

This final rule is not considered major under Executive Order 12291 and not significant under Department of Transportation regulatory policies and procedures (44 FR 11034; February 26, 1979). The economic impact of this regulation is expected to be so minimal that a full regulatory evaluation is unnecessary. This regulation will only be in effect for a short period of time and the impacts on routine navigation are expected to be minimal.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Coast Guard must consider whether this regulation will have a significant economic impact on a substantial number of small entities. "Small Entities" include independently owned and operated small businesses that are not dominant in their field and that otherwise qualify as "small business concerns" under section 3 of the Small Business Act (15 U.S.C. 632). Since the impact of this regulation on non-participating small entities is expected to be minimal, the Coast Guard certifies under 5 U.S.C. 605(b), that this regulation will not have a significant economic impact on a substantial number of small entities.

Federalism Assessment

This action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that the final rule does not raise sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Environmental Assessment

This final rule has been thoroughly reviewed by the Coast Guard and determined to be categorically excluded from further environmental documentation in accordance with section 2.B.2.c. of Commandant Instruction M16475.1B. A Categorical Exclusion Determination statement has been prepared and been placed in the rulemaking docket.

List of Subjects in 33 CFR Part 100

Marine Safety, Navigation (water).

Final Regulations

In consideration of the foregoing, part 100 of title 33, Code of Federal Regulations is amended as follows:

1. The authority citation for part 100 continues to read as follows:

Authority: 33 U.S.C. 1233; 49 CFR 1.46 and 33 CFR 100.35.

2. A temporary § 100.35-05 is added to read as follows:

§ 100.35-05 Southern Branch, Elizabeth River, Portsmouth, Virginia.

(a) *Definitions.—(1) Regulated area.* The waters of the Southern Branch, Elizabeth River from shoreline to shoreline bounded to the south by a line drawn from latitude 36°49'11.0" North, longitude 76°17'33.0" West to latitude 36°49'11.0" North, longitude 76°17'22.0" West and bounded to the north by a line drawn from latitude 36°50'17.5" North, longitude 76°17'45.0" West to latitude 36°50'17.5" North, longitude 76°17'30.0" West

(2) Coast Guard Patrol Commander. The Coast Guard Patrol Commander is a commissioned, warrant, or petty officer who has been designated by the Commander, Coast Guard Group Hampton Roads.

(b) Special Local Regulations. (1) Except for persons or vessels authorized by the Coast Guard Patrol Commander, no person or vessel may enter or remain in the regulated area.

(2) The operator of any vessel in the immediate vicinity of this area shall:

(i) Stop the vessel immediately when directed to do so by any commissioned, warrant, or petty officer on board a vessel displaying a Coast Guard ensign.

(ii) Proceed as directed by any commissioned, warrant or petty officer on board a vessel displaying a Coast Guard ensign.

(3) Any spectator vessel may anchor outside of the regulated area specified in paragraph (a)(1) of this section, but may not block a navigable channel.

(c) *Effective Dates:* These regulations are effective for the following periods: 2 p.m. to 7 p.m. March 20, 1992, 6 a.m. to 6 p.m. March 21, 1992.

Dated: February 21, 1992.

R. T. Rufe, Jr.,

Captain, U.S. Coast Guard, Commander, Fifth Coast Guard District, Acting.

[FR Doc. 92-5529 Filed 3-9-92; 8:45 am]

BILLING CODE 4910-14-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 281

[FRL-4113-7]

Maryland; Approval of State Underground Storage Tank Program

AGENCY: Environmental Protection Agency.

ACTION: Notice of Tentative Determination on Maryland's application for approval of underground storage tank program, public hearing and public comment period.

SUMMARY: The State of Maryland has applied for approval of its underground storage tank program under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The Environmental Protection Agency (EPA) has reviewed the State of Maryland's Application and has made the tentative decision that the State of Maryland's underground storage tank program satisfies all of the requirements necessary to qualify for approval. The State of Maryland's application for approval is available for public review and comment, and a public hearing will be held to solicit comments on the application, unless insufficient public interest is expressed.

DATES: Unless insufficient public interest is expressed in holding a hearing, a public hearing will be held on May 4, 1992. However, EPA reserves the right to cancel the public hearing if sufficient public interest in a hearing is not communicated to EPA in writing by April 23, 1992. EPA will determine after April 23, 1992 whether there is significant interest to hold the public hearing. The State of Maryland will participate in any public hearing held by EPA on this subject. All written comments on the State of Maryland's application for program approval must be received by 4:30 p.m. on May 1, 1992.

ADDRESSES: Copies of the State of Maryland's application for program approval are available between 8:30 a.m. to 4:30 p.m. at the following addresses for inspection and copying:

Maryland Department of the Environment
Hazardous and Solid Waste Management Administration
2500 Broening Highway
Baltimore, Maryland 21234
(410) 631-3442

United States Environmental Protection Agency
Headquarters Library, PM 221A
401 M Street, SW.,
Washington, DC 20460
(202) 382-5926

United States Environmental Protection Agency
Region III Library
841 Chestnut Building
Philadelphia, Pennsylvania 19107
Contact: Diane McCreary, (215) 597-7904.

Written comments should be sent to: Rosemarie P. Nino, Program Manager, Underground Storage Tank (UST) Section, (3HW63), U.S. EPA Region III, 841 Chestnut Building, Philadelphia, Pennsylvania 19107, (215) 597-0270.

Anyone who wishes to learn whether or not the public hearing on the State's application has been cancelled should write or telephone after April 23, 1992, the EPA Program Manager listed above or telephone Bernard Bigham, Chief, UST Division, Department of the Environment, Hazardous and Solid Waste Management Administration, 2500 Broening Highway, Baltimore, Maryland 21234, (410) 631-3442.

Unless insufficient public interest is expressed, EPA will hold a public hearing on the State's application for program approval on May 4, 1992 at 7:00 p.m. at the Loch Raven Senior High School, Baltimore County Public Schools, 1212 Cowpens Avenue, Baltimore, Maryland 21204.

FOR FURTHER INFORMATION CONTACT: Rosemarie P. Nino, UST Section (3HW63), U.S. EPA Region III, 841 Chestnut Building, Philadelphia, Pennsylvania 19107, (215) 597-0270.

SUPPLEMENTARY INFORMATION:

A. Background

Section 9004 of the Resource Conservation and Recovery Act (RCRA) authorizes EPA to approve State underground storage tank programs to operate in the State in lieu of the Federal underground storage tank (UST) program. EPA may approve a State program if the Agency finds pursuant to section 9004(b), 42 U.S.C. 6991c(b), that the State program: is "no less stringent" than the Federal program in all seven elements set forth at section 9004(a)(1) through (7), 42 U.S.C. 6991c(a) (1) through (7), includes the notification requirements of section 9004(a)(8), 42 U.S.C. 6991c(a)(8) and provides for adequate enforcement of compliance with UST standards (section 9004(a), 42 U.S.C. 6991c(a)).

B. State of Maryland

The Maryland Department of the Environment (MDE), is the implementing agency for UST activities in the State. The Hazardous and Solid Waste Management Administration (HSWMA) of MDE is dedicating a substantial effort to remediate, prevent, and control UST-related groundwater contamination by maintaining a visible enforcement presence in the industrial community.

The scope of the Maryland UST Program extends beyond the scope of the Federal UST Program. In addition to 30,000 USTs covered by both the Federal and Maryland's programs, Maryland also regulates an estimated additional 40,000 USTs containing heating oil.

Maryland's requirements which exceed the stringency or scope of the Federal regulations include the following subject matter:

(1) Heating oil tanks—With the exception of residential and farm tanks of 1,100 gallons or less, all heating oil tanks were required to be registered with the State by July 1, 1990. They also must meet Maryland's installation requirements and be precision-tested when they are 15 years old and every 5 years therafter.

(2) Installer Certification—Maryland requires that a State-certified installer be present during any underground storage tank installation or repair work. Installers must pass a certification test and pay a certification fee. The test consists of 100 questions concerning accepted industry practice for installing underground storage tanks and questions on the Maryland regulations. Certifications are valid for 2 years from the date of issue.

(3) Reporting of spills—Maryland requires all releases of product and tank test failures to be reported within 2 hours.

(4) Cathodic protection system testing—Maryland requires yearly testing of all cathodic protection systems to insure that protection is achieved.

(5) Monitoring pipes—Monitoring pipes must be installed at all underground storage tank installations regardless of the method used for release detection.

(6) Marking of fill lines—Maryland requires all fill lines to underground storage tanks be clearly marked to indicate the size of the tank and type of product stored.

(7) Interior lining of existing tanks—Maryland requires all existing tanks that are relined to add cathodic protection simultaneously.

(8) Inventories—Maryland requires all metered storage systems to keep daily inventories; additionally, these inventories must be reconciled to ½ to 1% of throughput for a 30-day period.

The Maryland Department of the Environment submitted a draft application for program approval on January 19, 1990. EPA reviewed and provided comments on the regulations on January 30, 1990 and commented on the other components on April 2, 1990.

On November 5, 1990, the State of Maryland submitted an official application for approval. The State reaffirmed its application by letter dated January 31, 1992, and submitted a revised Attorney General's Statement and a revised Memorandum of Agreement. Prior to its submission, the State of Maryland provided an opportunity for public notice and comment in the development of its underground storage tank program, as required by 40 CFR § 281.50(b). EPA has reviewed Maryland's application, and has tentatively determined that the State's program meets all of the requirements necessary to qualify for final approval. However, EPA intends to review all timely public comments prior to making a final decision whether to grant approval to the State of Maryland to operate its program in lieu of the Federal program.

In accordance with Section 9004 of RCRA, 42 U.S.C. 6991c, and 40 CFR § 281.50(e), the Agency will hold a public hearing on its tentative decision on May 4, 1992 at 7 p.m. at the Loch Raven Senior High School, Baltimore County Public School, 1212 Cowpens Avenue, Baltimore, Maryland 21204, unless insufficient public interest is expressed. The public may also submit written comments on EPA's tentative determination until May 1, 1992. Copies of Maryland's application are available for inspection and copying at the locations indicated in the "**ADDRESSES**" section of this notice.

EPA will consider all public comments on its tentative determination received at the public hearing, if a hearing is held, and during the public comment period. Issues raised by those comments may be the basis for a decision to deny approval to the State of Maryland. EPA will give notice of its decision in the **Federal Register**; the notice will include a summary of the reasons for the final determination and a response to all significant comments.

Compliance With Executive Order 12291

The Office of Management and Budget has exempted this action from the requirements of section 3 of Executive Order 12291.

Certification Under the Regulatory Flexibility Act

Pursuant to the provisions of 5 U.S.C. 605(b), I hereby certify that this approval will not have a significant economic impact on a substantial number of small entities. Final approval of the Maryland UST program will suspend the applicability of certain Federal regulations in favor of Maryland's programs, thereby eliminating duplicative requirements for owners and operators of underground storage tanks in the State. It does not impose any significant new burdens on small entities. This rule, therefore, does not require a regulatory flexibility analysis.

List of Subjects in 40 CFR Part 281

Administrative practice and procedure, Hazardous materials, State program approval, and Underground storage tanks.

Authority: This notice is issued under the authority of Sections 2002(a), 7004(b), and 9004 of the Resource Conservation and Recovery Act as amended, 42 U.S.C. 6912(a), 6974(b) and 6991c.

Dated: March 2, 1992.

Edwin B. Erickson,

Regional Administrator.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 91-349; RM-7862]

Radio Broadcasting Services; Hartselle, AL

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document substitutes Channel 291C3 for Channel 291A at Hartselle, Alabama, and modifies the permit for Station WYAM(FM) to specify operation on the higher powered channel, as requested by Dorsey Eugene Newman. See 56 FR 64228, December 9, 1991. Coordinates for Channel 291C3 at Hartselle are 34-27-09 and 86-42-27. With this action, the proceeding is terminated.

EFFECTIVE DATE: April 20, 1992.

FOR FURTHER INFORMATION CONTACT: Nancy Joyner, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Report and Order, MM Docket No. 91-349, adopted February 24, 1992, and released March 4, 1992. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, Downtown Copy Center, (202) 452-1422, 1714 21st Street, NW., Washington, DC 20036.

47 CFR Part 73

[MM Docket No. 91-284; RM-7814]

Radio Broadcasting Services; Independence, CA

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document substitutes Channel 223B for Channel 292A at Independence, California, and modifies the permit for Station KDAY(FM) to specify operation on the higher powered, non-adjacent channel, as requested by Benett Kessler. See 56 FR 50843, October 9, 1991. Coordinates for Channel 223B at Independence are 36-46-56 and 118-00-36.

Although the Notice also announced that Channel 288B would be available as an additional equivalent channel at

Independence, in the event other parties expressed an interest in the use of a Class B channel at that community, no expression of interest was received. With this action, the proceeding is terminated.

EFFECTIVE DATE: April 20, 1992.

FOR FURTHER INFORMATION CONTACT: Nancy Joyner, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Report and Order, MM Docket No. 91–284, adopted February 24, 1992, and released March 4, 1992. 47 CFR Part 73

[MM Docket No. 91–174; RM–7728]

Radio Broadcasting Services; Goliad, TX

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission, at the request of Alco Communications, allots Channel 240A to Goliad, Texas. See 56 FR 30374, July 2, 1991. Channel 240A can be allotted to Goliad in compliance with the Commission's minimum distance separation requirements with a site restriction of 3.7 kilometers (2.3 miles) west to avoid a short-spacing to the proposed substation of Channel 241C1 for Channel 241C2 for Station KXGJ–GM, Bay City, Texas. The coordinates for the allotment of Channel 240A are 28–40–23 and 97–25–40. Since Goliad is located within 320 kilometers (199 miles) of the Mexican border, concurrence of the Mexican government has been obtained for this allotment. With this action, this proceeding is terminated.

DATES: *Effective Date:* April 20, 1992. The window period for filing applications will open on April 21, 1992, and close on May 21, 1992.

FOR FURTHER INFORMATION CONTACT: Pamela Blumenthal, Mass Media Bureau, (202) 634–6530.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Report and Order, MM Docket No. 91–174, adopted February 24, 1992, and released March 4, 1992. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street, NW., Washington, DC. 47 CFR Part 90

[PR Docket No. 91–112; RM–7317, FCC 92–70]

Private Land Mobile Radio Services

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission has adopted a Report and Order amending section 90.209(b)(6) of its rules to delete the 50 MHz bandwidth limitation in the 24.05–24.25 GHz and 33.4–36.0 GHz bands. Bandwidth authorizations in these two bands will be authorized on a case-by-case basis. This rule change will promote increased use of these bands by enabling the development of equipment utilizing wideband modulation techniques.

EFFECTIVE DATE: April 9, 1992.

FOR FURTHER INFORMATION CONTACT: Eugene Thomson, Rules Branch, Land Mobile and Microwave Division, Private Radio Bureau, (202) 634–2443.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Report and Order, PR Docket No. 91–112, rm–7317, adopted February 20, 1992, and released March 5, 1992. The full text of the Report and Order is available for inspection and copying during normal business hours in the FCC Dockets Branch, room 230, 1919 M Street NW., Washington, DC. The complete text may be purchased from the Commission's copy contractor, Downtown Copy Center, 1114 21st Street NW., Washington, DC 20036, telephone (202) 452–1422.

Summary of Report and Order

The frequency bands 24.05–24.25 GHz and 33.4–36.0 GHz are designated for part 90 Radiolocation Service use. Frequencies in these bands are used in equipment designed to determine distance, speed, direction, or position for purposes other than navigation, and are authorized for operation with up to a maximum bandwidth of 50 MHz. In April 1991, a Notice of Proposed Rule Making 6 FCC Rcd 2145 (1991), 56 FR 18799, April 24, 1991 was released that proposed to delete the 50 MHz bandwidth limitation and authorize bandwidths in the two bands on a case-by-case basis.

After reviewing the record in this proceeding, the Commission concluded that the removal of the restrictive rule would provide the industry with the technical flexibility to develop new and different technologies and promote more efficient use of the spectrum.

The Report and Order amends sections 90.209(b)(6) to provide that bandwidths in the 24.05–24.25 GHz and 33.4–36.0 GHz bands will be authorized on a case-by-case basis. Additionally, because the 10.55–10.68 GHz band is no longer available to part 90 applicants, the Report and Order updates section 90.209(b)(6) to indicate that the 25 MHz bandwidth limitation for the 10.55–10.68 GHz band applies only to grandfathered systems.

Amendatory Text

47 CFR part 90 is amended as follows:

PART 90—[AMENDED]

1. The authority for part 90 continues to read as follows:

Authority: Sections 4, 303, 331, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303 and 332 unless otherwise noted.

2. Section 90.209 is amended by revising paragraph (b)(6) to read as follows:

§ 90.209 Bandwidth limitation.

* * * * *

(b) * * *

(6) The authorized bandwidth for assignments in the 24.050 to 24.250 MHz and 33.400 to 36.000 MHz frequency bands listed in § 90.103 shall be specified in the station authorization. Stations authorized in the 10.550 to 10.680 MHz band under this part prior to April 17, 1981, will retain their initial bandwidth authorization.

Federal Communications Commission.

Donna R. Searcy,

Secretary.

Proposed Rules

Federal Register
Vol. 57, No. 47
Tuesday, March 10, 1992

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Office of the Comptroller of the Currency

12 CFR Part 8

[Docket No. [92-2]

Assessments

AGENCY: Office of the Comptroller of the Currency, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Office of the Comptroller of the Currency (OCC) is requesting comments on amending 12 CFR part 8 to increase its assessment schedule. The current schedule is increased by 27 to 30 percent effective with the semiannual assessment due by July 31, 1992. This increase reflects an annual increase of approximately 15 percent in 1992 and another 15 percent in 1993. The OCC also proposes to change the method it uses to index the assessment schedule to adjust for imbalances caused by inflation or deflation.

The proposed increase is designed to help the OCC comply with the Federal Deposit Insurance Corporation Improvement Act of 1991 (FDICIA), which requires the OCC to augment significantly its examination efforts over the next three years. The OCC will require an approximate 30 percent increase or more in examiners, an increase that will be funded by the proposed assessment schedule.

At the same time that the OCC is seeking comments on an increase in the current assessment schedule to meet immediate statutory and other requirements, it is also considering alternative assessment structures for future implementation. Thus, the OCC is requesting comments on a proposed, alternative assessment structure that would charge higher assessments for those banks with performance or other characteristics that cause the OCC to devote additional resources to supervise them.

DATES: Comments must be received by April 9, 1992.

ADDRESSES: Comments should be directed to: Communications Division, 9th Floor, 250 E Street SW., Washington, DC 20219, Attention: Docket No. 92-2. Comments will be available for public inspection and photocopying at the same location.

FOR FURTHER INFORMATION CONTACT: Roy Madsen, Associate Director, Financial Management, (202) 874-5130; or Christina Trojan-Masnyk, Attorney, Legal Advisory Services Division, (202) 874-5320, Office of the Comptroller of the Currency, Washington, DC 20219.

SUPPLEMENTARY INFORMATION:

Background

Under the National Bank Act, 12 U.S.C. 1 *et seq.*, the OCC is responsible for supervising national banks and ensuring that they comply with all applicable laws and operate in a safe and sound manner. The OCC uses the examination process to carry out these responsibilities. Pursuant to 12 U.S.C. 482, as amended by section 114 of the FDICIA, Public Law 102-242, 105 Stat. 2236 (1991), the OCC "may impose and collect assessments, fees, or other charges as necessary or appropriate . . ." from national banks, District of Columbia banks supervised by the OCC, and federally licensed branches and agencies of foreign banks ". . . to meet the Comptroller's expenses in carrying out authorized activities." The OCC's assessment regulation is located at 12 CFR part 8.

On November 30, 1990 (55 FR 49838), the OCC modified 12 CFR part 8 to increase assessments to meet short-term funding needs projected at that time. In view of the increased examination requirements in FDICIA, that increase is now insufficient to fund the OCC's operations. Section 111 of FDICIA requires an examination of all insured depository institutions every 12-months; as an exception, a small number of banks may be examined on an 18-month cycle if they meet certain asset size and condition criteria. To meet the statutory requirements, the OCC needs to increase its examination force over the next three years.

The new statutory requirements have been placed on the OCC at a time when the condition of the banking industry remains weak. The difficulties in selected geographic sectors, such as New England, and economic sectors, such as real estate, are reflected in the condition of the banking system. Problem banks and bank failures have continued at high levels. These factors continue to demand increased resources.

Additionally, the rapid changes in the financial services industry increase the demands on the OCC's supervisory capabilities. To ensure the safety and soundness of national banks in a dynamic financial services industry, the OCC must develop policies and maintain expertise consistent with marketing, strategic, and technological advances. To carry out the OCC's mission, new products and new markets in banking require more OCC resources, specialized training and additional examination efforts.

Due to these changes in the legal, regulatory, and economic environments, the OCC must increase examiner resources by approximately 30 percent or more over the next three years. Without additional assessments, the OCC cannot fund a staff increase of this magnitude. Without the staff increase, the OCC cannot conduct the requisite examinations or fulfill statutory and other requirements.

OCC Costs

The OCC has made significant efforts to control its costs. For example, in 1991, the OCC increased its supervision efforts by 330 examiner workyears, although only 150 new examiners were hired. More than 50 percent of the increased supervisory resources was met by redirecting existing staff from support, training, and overhead activities to examination related activities.

The OCC continues its long-term effort to reduce its non-supervision expenses as a proportion of its overall budget. The OCC has aggressively sought long-term reductions in office space costs by renegotiating or improving leases. For example, the relocation of OCC's headquarters to Independence Square saves $13.2 million in office space expenditures over 15 years. Significant reductions also have been made to travel and training expenditures not-related to bank supervision, and all employees are responsible for making their work processes more efficient.

These efforts are reflected in the trend in the OCC's overhead rate, which measures the relationship of support activity costs to bank examination costs. Since 1987, the proportion of the OCC's expenses devoted to support activities, rather than direct bank supervision, fell 16 percent.

Despite these efforts, the OCC operated at a deficit in 1991 of $2 million as a result of assessment shortfalls. The 1991 deficit represents one percent of the OCC's total expenditures. In 1992, if the proposed assessment increase is not adopted, the OCC is projecting a $36 million deficit from the cumulative costs of hiring, training, and deploying additional examiners in 1991 and 1992. Further deficits for 1993 and beyond will occur as the OCC continues to increase resources to fulfill the new examination requirements.

The OCC estimates that implementation of the annual examination provisions of FDICIA will require an average of 35 more work days per bank under $1 billion in assets. Overall, the OCC will need a significant increase, estimated at 30 percent or greater, in its examination staff. The OCC plans to increase the size of its examiner staff over several years starting with hiring approximately 300 new examiners in 1992.

OCC budget increases in 1992 and those estimated for 1993 that are directly related to implementation of FDICIA include: A 30 percent or greater increase in the size of the OCC's examiner work force; increases in training and equipment to accommodate the new examiners and to maintain the qualifications of existing examiners; travel costs to conduct more frequent and lengthier examinations; and relocation costs to ensure that its experienced work force is distributed to implement the mandated examination schedule in the most cost effective manner.

The cost of complying with FDICIA, combined with inflation, will cause a 13.8 percent increase in the OCC's 1992 budget, and a comparable increase in 1993. Without the staff increases and increased examination requirements resulting from FDICIA, OCC's budget for 1992 would have increased 4.8 percent over 1991 with an anticipated deficit of $9.4 million—a level which would not have required an assessment increase in 1992, but at a minimum, would have required an increase of 3 percent in 1993. Therefore, the combined effect of FDICIA, inflation, and revenue shortfalls require 15 percent increases in 1992 and 1993.

The combined effect of the mandated increase in examination requirements, inflation, and the decrease in the assessment growth rate, render the current schedule inadequate.

Assessment Revenue

Asset-based assessments provide over 90 percent of the OCC's revenue. Under the current assessment schedule, the OCC's revenues do not increase unless bank assets grow. However, in recent years, such growth in the assessment base has not kept pace with inflation or costs. The recent slowdown in bank asset growth, coupled with increasing supervisory requirements, has hampered the OCC's ability to fund its supervisory activities through the current assessment schedule.

In the early 1980s, national bank assets grew at annual rates of 7.0 percent or more. In 1987, the growth rate fell dramatically to 1.7 percent. Although 1988 and 1989 asset growth rates were 4.3 and 7.0 percent, respectively, the 1990 national bank asset growth rate fell to only 0.4 percent. Although assets declined during the first six months of 1991, this decline was offset by growth in the third quarter. Total 1991 bank asset growth stands at 0.4 percent through the third quarter. The OCC anticipates that asset growth will continue to be uncertain through the 1990s, with only nominal growth anticipated in the short-term.

The OCC intended its 1990 assessment increase of 11 percent to cover 1991 and 1992. However, deteriorating economic conditions and an increased number of problem institutions have already required the OCC to increase supervisory resources to levels not anticipated when the 1990 assessment increase was promulated. These factors were exacerbated by lower than anticipated asset growth resulting in the current revenue shortfall.

Proposal

A. Increase the Current Assessment

In 1992, the OCC is proposing to increase the assessment schedule by 15 percent to fund the initial staff increase of 300 examiners, and by another 15 percent in 1993 to fund another increase of 300 examiners. These two increases will be effected by imposing a 30 percent increase to the assessment schedule set forth below for the second semiannual assessment period in 1992. The same schedule will be used in 1993, with the exception of an adjustment for indexation, as discussed later.

This proposal would continue the OCC's present assessment methodology. The OCC expects the assessment increase to generate additional revenue of about $40 million per semiannual assessment period. The OCC is proposing to make the increase reflected in the following table effective with the semiannual assessment due by July 31, 1992, and beyond.

If the banks' total assets (consolidated domestic and foreign subsidies) are:		The semiannual assessment is:		
		This amount—	Plus	Of excess over—
Over—	But not over—	Base amount	Marginal rates	
Column A	Column B	Column C	Column D	Column E
Million	Million			Million
0	$2	0	.001645020	0
$2	20	3,290	.000205626	$2
20	100	6,991	.000164502	20
100	200	20,151	.000106926	100
200	1,000	30,844	.000090476	200
1,000	2,000	103,225	.000074026	1,000
2,000	5,000	177,251	.000065801	2,000
5,000	20,000	440,454	.000055986	5,000
20,000	40,000	1,224,292	.000052670	20,000
40,000		2,277,682	.000034488	40,000

The following table illustrates the impact of this proposal on national banks.

ASSESSMENT INCREASES FOR SELECTED BANK SIZES

	Bank size (millions)								
	$20	$100	$200	$300	$1,000	$2,000	$5,000	$20,000	$40,000
Semiannual assessment:									
Revised	$6,991	$20,151	$30,844	$39,682	$103,225	$177,251	$440,454	$1,224,292	$2,277,682
Current	5,489	15,612	24,058	31,091	79,799	137,122	339,934	944,169	1,755,937
Change	1,502	4,539	6,786	8,811	23,426	40,129	100,520	280,123	521,745
Increase (percent) [1]	27	29	28	28	29	29	30	30	30
Annualized impact on ROA (basis points)	−.991	−.509	−.448	−.398	−.309	−.265	−.221	−.185	−.172

[1] The increase in semiannual assessments may be less than 30 percent due to the rounding of each asset bracket.
Annualized impact on return on assets (ROA)=Change in Semi-Annual Assessment/Total Assets; assumes a 34-percent tax rate.

The majority of national banks (3,345 banks or approximately 87 percent) have assets under $300 million. Banks in this category would pay, on average, an additional $3,613 each semiannual assessment period. On an annual basis, this represents 0.008 percent of return on assets (ROA) for those banks. For large banks, the impact on ROA is somewhat less. Therefore, this proposal will not have a significant or disparate impact on small banks. All national banks, regardless of size, will receive 27 to 30 percent increase in their assessment fees on July 31, 1992.

B. Indexing Marginal Rates

The OCC also is proposing to revise its method of indexing the assessment schedule. Presently, the OCC indexes asset brackets. Because indexing the asset brackets of the assessment schedule has not matched inflationary cost increases, the OCC proposes to index instead the assessment schedule's marginal rates. This change is intended to offset bank asset/OCC expense growth imbalances caused by future inflationary or deflationary pressures.

In the past, the OCC has indexed the endpoints of each of the ten assessment asset brackets each year to adjust for the change in the "implicit price deflator" (deflator). This methodology was used because bank assets in the 1970s and early 1980s grew at rates at least as great as inflation, matching changes in the OCC's costs. As discussed above, in the late 1980s and early 1990s, banks have experienced little asset growth while the OCC has face unprecedented growth in resources demands.

In order to make the relationship between inflation/deflation and OCC costs more direct, the OCC is proposing to index marginal rates by the change in the deflator. The asset brackets have been rounded.

The actual increase in the marginal rates in a particular year will depend upon the rate of inflation and the asset growth in the industry. A particular bank's assessment increase may significantly differ from the industry average if the bank's asset growth differs from the industry's asset growth.

The proposal allows, but does not require, the OCC to adjust the marginal rates up to the percentage change in the deflator. This provides the OCC flexibility to use a lower indexing factor in situations where funds may be generated above those required (*e.g.*, national bank asset growth increases, providing the OCC with surplus funding, or the OCC reduces expenditures). Each one percent increase in the index equals approximately $2.6 million of revenue based upon current asset levels. If the proposal is adopted, the OCC will publish the revised marginal rates for assessments in its annual "Notice of Comptroller of the Currency Fees" published each December.

Alternative Assessment Structures

In this notice, the OCC is also considering alternative assessment structures for implementation in the future. In 1990, the OCC's Comprehensive Revenue Study Steering Committee (Steering Committee) recognized that the OCC's funding structure was inadequate to meet any significant increase in examination needs, particularly in an environment of slow bank asset growth. Further, the Steering Committee recognized problems with the current funding methodology where banks of the same size pay the same amount, regardless of their condition.

On July 6, 1990 (55 FR 27964), the Steering Committee solicited comments on various funding options. Respondents suggested that problem banks should be assessed higher fees to pay for the greater OCC resources devoted to their supervision. Because of the preliminary nature of that request for comment, the OCC received few comments, many of which were limited in nature.

As a result of the additional funding flexibility allowed under section 114 of the FDICIA, the OCC could change its current assessment schedule "as necessary to carry out the responsibilities of the duties of the Comptroller." An alternative structure could be based in whole or in part on the characteristics of individual banks that cause the OCC to devote additional resources to supervise them. The characteristics could include the amount of capital the bank maintains, the quality of the loans in its portfolio, and/or other indicators of a bank's condition. An advantage of a structure of this type would be that each bank would have an incentive to reduce its examination cost by reducing factors that create supervisory concern. The current structure contains no similar incentives.

The OCC is not proposing to adopt, at this time, an alternative structure for the assessments that banks will pay in 1992 or 1993. The OCC's proposal for the immediate future is to meet needs for additional revenue by making modest adjustments within the existing assessment structure. As indicated below, the OCC is awaiting information that will become available after implementation of FDICIA to develop the details of an alternative proposal, and would also like to receive substantial public comment on the issues surrounding such an alternative.

First, operational aspects of the OCC will change significantly as a result of the new examination schedule mandated by the FDICIA. The OCC has never operated at the resource levels that are required by FDICIA. To make a major change in its approach to assessments at this time, the OCC would need to rely on historical resource allocations that may not meet OCC's resource needs under FDICIA. Second, bank composite ratings are confidential. Public disclosure of bank ratings, even indirectly, must be fully evaluated. Finally, section 302 of FDICIA requires the Federal Deposit Insurance Corporation (FDIC) to impose a "risk-based" deposit insurance assessment scheme by July 1993. Any specific approach ultimately adopted by the OCC should take into account the approach used by FDIC to impose risk-based insurance premiums.

Critical to any such proposed alternative assessment structure is determining the factor(s) that would differentiate between the supervision costs incurred by national banks. One option might be to provide two separate assessment schedules, each setting different marginal assessment rates. The difference in schedules could be based on a bank's condition as indicated by the Composite CAMEL (Capital, Asset quality, Management, Earnings, and Liquidity) rating. For example, a healthy bank with a Composite CAMEL rating of "1" or "2", which generally would require fewer supervisory resources, could pay a lower fee. A bank with a Composite CAMEL rating of "3", "4", or "5", could pay a performance-based surcharge. This higher rate would reflect the increased cost usually involved in examining and supervising these types of banks.

The Office of Thrift Supervision (OTS) employs a performance-based assessment approach. The OTS, which regulates thrift institutions, last revised its assessment regulation on August 23, 1990 (55 FR 34519) pursuant to the provisions of the Home Owners' Loan Act as amended by the Financial Institutions Reform, Recovery, and Enforcement Act of 1989, Public Law 101–73, 103 Stat. 183 (1989). The OTS adopted two asset-based assessment schedules. The first schedule is available to institutions with a MACRO (Management, Asset quality, Capital adequacy, Risk management, and Operating results) rating of "1", "2", or "3". A second schedule recovers the OTS's costs of examining and supervising problem institutions—those with a MACRO rating of "4" or "5". The OTS believes the MACRO rated "4" and "5" institutions merit special supervisory attention and/or warrant a higher normal degree of supervisory concern.

Comments

The OCC is soliciting comments on its proposal to increase assessment rates and on its new method for indexing marginal rates. The OCC also requests comments on the proposed alternative assessment structure or other alternatives commenters wish to recommend.

Given that the OTS has already adopted an alternative approach, and in view of the OCC's interest in considering alternatives for future implementation, commenters are urged to address this issue.

Effective Date

As noted earlier, the proposed assessment increase will be applied to the assessment that national banks must pay by July 31, 1992, for the period beginning July 1 and ending December 31. Every attempt will be made to publish the final assessment schedule by May 30 (60 days before payment is due and 30 days before the beginning of the period for which payment is being made). However, the very recent enactment of FDICIA and the need to evaluate the comments received, may delay publication until some time in June.

Regulatory Flexibility Act

Pursuant to the Regulatory Flexibility Act, 5 U.S.C. 605(b), it is certified that this proposal, if adopted as a final rule, will not have a substantial economic impact on a significant number of small entities. Accordingly, a regulatory flexibility analysis is not required. As described in the preamble, the majority of national banks (3,345 banks or approximately 87 percent) have assets under $3000 million. Banks in this category would pay, on average, an additional $3,613 each semiannual assessment period. On an annual basis, this represents 0.006 percent of those banks' return on assets, which is not considered substantial. While this proposal will have some impact on all national banks, it will not have a significant or disparate impact on small banks. All national banks, regardless of size, will receive a 27 to 30 percent increase in their assessment fees.

Executive Order 12291

It has been determined that this proposed rule, if adopted as a final rule, is not a major regulation as defined in Executive Order 12291 and a regulatory impact analysis is not required. As described in the preamble, this proposal will have some impact on all national banks. All national banks, regardless of size, will receive a 27 to 30 percent increase in their assessment fees. The effect of this increase on a bank's return on assets is not substantial.

List of Subjects in 12 CFR Part 8

Assessments, Fees, National banks.

Authority and Issuance

For the reasons set forth in the preamble, part 8 of chapter I of title 12 of the Code of Federal Regulations is proposed to be amended as set forth below:

PART 8—[AMENDED]

1. The authority citation for part 8 continues to read as follows:

Authority: 12 U.S.C. 93a, 481, 482 and 3102; 15 U.S.C. 78c and 1; and 26 D.C. Code 102.

2. Section 8.2 is amended by revising paragraph (a), including the table, to read as follows:

§ 8.2 Semiannual assessment.

(a) Each national bank and each District of Columbia bank shall pay to the Controller of the Currency a semiannual assessment fee, due by January 31 and July 31 of each year, for the six-month period beginning 30 days before each payment date. The amount of the semiannual assessment paid by each bank is computed as follows:

If the banks' total assets (consolidated domestic and foreign subsidies) are:		The semiannual assessment is:		
		This amount—	Plus	Of excess over—
Over—	But not over—	Base amount	Marginal rates	
Column A	Column B	Column C	Column D	Column E
Million	Million			Million
0	$2	0	Y1	0
$2	20	$X1	Y2	$2
20	100	X2	Y3	20
100	200	X3	Y4	100
200	1,000	X4	Y5	200
1,000	2,000	X5	Y6	1,000
2,000	6,000	X6	Y7	2,000
6,000	20,000	X7	Y8	6,000
20,000	40,000	X8	Y9	20,000
40,000		X9	Y10	40,000

(1) Every national bank falls into one of the ten asset-size brackets denoted by Columns A and B. A bank's semiannual assessment is composed of two parts. The first part is the calculation of a base amount of the assessment, which is computed on the assets of the bank up to the lower endpoint (Column A) of the bracket in which it falls. The base amount of the assessment is calculated by the OCC in Column C.

(2) The second part of the calculation by the bank of assessments due on the remaining assets of the bank in excess of Column E. The excess is assessed at the marginal rate shown in Column D.

(3) The total semiannual assessment is the amount in Column C, plus the amount of the bank's assets in excess of Column E times the marginal rate in Column D: Assessments=C+[(Assets−E)×D].

(4) Each year, the OCC may index the marginal rates in Column D to adjust for changes in Gross Domestic Product Implicit Price Deflator (GDPIPD). The percent change in the level of prices, as

measured by the GDPIPD, will be calculated for each June-to-June period and used by the Comptroller to adjust marginal rates as necessary. The OCC will also adjust the amounts of Column C to reflect any change made to the marginal rate.

(5) The specific marginal rates and complete assessment schedule will be published in the "Notice of Comptroller of the Currency Fees", provided for at § 8.8. Each semiannual assessment is based upon the total assets shown in the bank's most recent "Consolidated Report of Condition (including Domestic and Foreign Subsidiaries)" (Call Report) preceding the payment date. The assessment shall be computed in the manner and on the form provided by the Comptroller of the Currency. Each bank subject to the jurisdiction of the Comptroller of the Currency on the date of the second or fourth quarterly Call Report required by the Office under U.S.C. 161 is subject to the full assessment for the next six-month period without proration for any reason.

* * * * *

Dated: February 20, 1992.

Robert L. Clarke,

Comptroller of the Currency.

UNITED STATES INFORMATION AGENCY

22 CFR Part 514

[Notice No. 2]

The Exchange Visitor Program

AGENCY: United States Information Agency.

ACTION: Notice of public meeting on proposed insurance regulations.

SUMMARY: The United States Information Agency (the "Agency") is in the process of revising the Exchange Visitor Program (J-1) regulations. Notice of proposed rulemaking regarding general provisions and training regulations for the Exchange Visitor Program was published in the **Federal Register** (56 FR 59622-42) on November 25, 1991. The 90-day comment period ended on February 24, 1992. A number of comments addressed the proposed regulations on insurance, which were part of the general provisions. The Agency will convene a public meeting on Thursday, March 19, 1992, at 2 p.m., est. to address the exchange community's concerns with the insurance proposal. All persons are welcome to attend. Reservation is requested as stated in this notice.

DATE: Thursday, March 19, 1992. See supplementary information for further details.

ADDRESS: Room 840, 301 Fourth Street SW., Washington, DC 20547.

FOR FURTHER INFORMATION CONTACT: Persons who request more information about the public meeting should contact William G. Ohlhausen, Assistant General Counsel, Office of the General Counsel, United States Information Agency, Room 700, 301 Fourth Street, SW., Washington, DC 20547, Telephone (202) 619-6829, FAX (202) 619-4573.

SUPPLEMENTARY INFORMATION: The public meeting is scheduled to be held at 2 p.m., EST, on Thursday, March 19, 1992 in room 840, USIA Building, 301 Fourth Street, SW., Washington, DC 20547, or in a larger room if warranted by public interest. The meeting will be conducted by USIA General Counsel Alberto J. Mora. The Agency encourages the widest possible participation from all interested parties, such as Exchange Visitor Program sponsors, educational associations, educational administrators, corporate training personnel, government agencies, exchange visitors, representatives of the international travel insurance industry, and members of the public at large.

Reservations: Persons planning to attend the public meeting are requested to make reservations by calling Tonya Reed, Office of the General Counsel, USIA, at (202) 401-1707.

Dated: March 4, 1992.

Alberto J. Mora,

General Counsel.

BILLING CODE 8230-01-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 117

[CGD13-92-01]

Drawbridge Operation Regulations; Snake River, ID

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: The Coast Guard proposes a change to the regulations governing the drawspan of the Interstate Highway Bridge (U.S. Route 12) across the Snake River, mile 140.0, between Lewiston, Idaho, and Clarkston, Washington. This change would require that advance notice be given by 5 p.m. on Wednesday for any openings on Friday, Saturday, and Sunday. For openings on holidays, notice would need to be given by 5 p.m. two workdays preceding the day of requested opening. This proposal is being made because of a marked decrease in requests for bridge openings on weekends and holidays. This action should relieve the bridge owner of the burden of having a person continuously available on two-hour standby to open the draw. The proposed regulation change should still provide adequately for the reasonable needs of navigation.

DATES: Comments should be received on or before April 24, 1992.

ADDRESSES: Comments should be mailed to Commander (oan), Thirteenth Coast Guard District, 915 Second Avenue, Seattle, Washington 98174-1067. The comments and any other materials referenced in this notice will be available for inspection and photocopying at 915 Second Avenue, room 3410. Normal office hours are between 7:45 a.m. and 4:15 p.m., Monday through Friday, except holidays. Comments may also be hand-delivered to this address.

FOR FURTHER INFORMATION CONTACT: John E. Mikesell, Chief, Bridge Section, Aids to Navigation and Waterways Management Branch (Telephone: (206) 553-5864).

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, data, or arguments. Persons submitting comments should include their names and addresses, identify the bridge, and give reasons for concurrence with, or any recommended changes in, the proposal. Persons desiring acknowledgement that their comments have been received should enclose a stamped, self-addressed postcard or envelope.

The Commander, Thirteenth Coast Guard District, will evaluate all communications received and determine a final course of action on this proposal. The proposed regulations may be changed in light of comments received.

Drafting Information

The drafters of this notice are: Austin Pratt, project officer, and Lieutenant Laticia J. Argenti, project attorney.

Discussion of the Proposed Regulations

The Washington State Department of Transportation has asked the Coast Guard to approve a change to the operating regulations which would require a longer advance notice from vessel operators for opening the drawspan on weekends (including Friday) and holidays. The proposed regulation change would require that notice be given by 5 p.m. Wednesday for any opening on Friday, Saturday, and Sunday. For an opening of the lift-span on holidays, vessel operators would have to give notice by 5 p.m. on the second workday preceding the holiday on which the opening is required. For the purposes of the proposed regulation change, workdays include Monday, Tuesday, Wednesday, and Thursday except holidays. The number of requests for opening the drawspan have decreased. The vertical lift span was raised 28 times in 1990 for the passage of vessels. From January through August of 1991, there were three openings for the passage of vessels. If approved, these regulations would reduce operational costs for the Washington State Department of Transportation and still provide for the reasonable needs of navigation.

Existing regulations provide that the drawspan shall open on signal if two hours notice is provided and only at 6 a.m., 10 a.m., 3 p.m., 7 p.m., and 9 p.m. from March 15 through November 15 and at 9 a.m., 10 a.m., 2 p.m., and 3 p.m. from November 16 through March 14. At all other times the drawspan need not be opened for the passage of vessels.

Federalism

This action has been analysed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that the proposed rulemaking does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Economic Assessment and Certification

The proposed regulations are considered to non-major under Executive Order 12291 on Federal Regulation and nonsignificant under the Department of Transportation regulatory policies and procedures (44 FR 11034; February 26, 1979).

The economic impact of this proposal is expected to be so minimal that a full regulatory evaluation is unnecessary. Navigation and marine-related businesses would not be significantly affected by the proposed action because the present trend of infrequent openings is expected to continue. Since the economic impact of this proposal is expected to be minimal, the Coast Guard certifies that, if adopted, it will not have a significant impact on a substantial number of small entities.

Environmental Impacts

This action has been determined by the Coast Guard to be categorically excluded from further environmental documentation under the authority of 40 Code of Federal Regulations § 1507.3 and in accordance with paragraph 2.B.2.g.(5) of the NEPA Implementing Procedures COMDTINST M16475.1B.

List of Subjects in 33 CFR Part 117

Bridges.

Proposed Regulations

In consideration of the foregoing, the Coast Guard proposes to amend part 117 of 33, Code of Federal Regulations as follows:

PART 117—[AMENDED]

1. The authority citation for part 117 continues to read as follows:

Authority: 33 U.S.C. 499; 49 CFR 1.46; 33 CFR 1.05-1(g).

2. Section 117.385 is revised to read as follows:

§117.385 Snake River.

The drawspan of the U.S. 12 bridge, mile 140.0, between Lewiston, Idaho, and Clarkston, Washington, operates as follows:

(a) The draw need not open for the passage of vessels except at these hours:

(1) From March 15 through November 15 at 6 a.m., 10 a.m., 3 p.m., 7 p.m., and 9 p.m.

(2) From November 16 through March 14 at 9 a.m., 10 a.m., 2 p.m., and 3 p.m.

(b) Requests for openings shall be given to the Washington State Department of Transportation.

(1) Monday through Thursday of every week, except holidays, the draw shall open if at least two hours notice is given.

(2) Friday through Sunday of every week, except holidays, the draw shall open if notice is given by 5 p.m. if the preceding Wednesday.

(3) The draw shall open on holidays if notice is given by 5 p.m. two workdays, excluding Friday, preceding the holiday.

Dated: March 3, 1992.

J.E. Vorbach,

Rear Admiral, U.S. Coast Guard, Commander, 13th Coast Guard District.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 50

[FRL-4114-3]

Court Order; Review of National Ambient Air Quality Standards for Ozone

AGENCY: Environmental Protection Agency.

ACTION: Notice of order and final judgment; opportunity for public comment.

SUMMARY: Notice is hereby given of an order conditionally entered on February 28, 1992, in litigation concerning the national ambient air quality standards for ozone under the Clean Air Act ("Act"). As discussed more fully below, the Environmental Protection Agency ("EPA") is providing an opportunity for public comment on the order under section 113(g) of the Act.

DATE: Written comments on the order must be received by April 9, 1992.

ADDRESSES: Written comments should be sent, preferably in triplicate, to Gerald K. Gleason, Air and Radiation Division (LE-132A), Office of General Counsel, U.S. Environmental Protection Agency, 401 M Street SW., Washington, DC 20460. Copies of the order are available from Betty S. Mobley at the same address (telephone 202-260-7606) or from Craig Galli, U.S. Department of Justice, Environment and Natural Resources Division, Environmental Defense Section, P.O. Box 23986, Washington, DC 20026-3986 (telephone 202-514-1538).

FOR FURTHER INFORMATION CONTACT: John H. Haines (Program Officer), 919-541-5533 or Gerald K. Gleason (Senior Attorney), 202-260-7623.

SUPPLEMENTARY INFORMATION: In *American Lung Ass'n* v. *Reilly*, No. 91-CV-4114 (JRB) (E.D.N.Y.), the American Lung Association and other plaintiffs sued to compel a decision on whether to revise EPA's national ambient air quality standards ("NAAQS") for ozone, codified at 40 CFR 50.9, under section 109(d) of the Act. On February 28, 1992, the U.S. District Court for the Eastern District of New York conditionally entered an Order and Final Judgment requiring by August 1, 1992, a proposed decision and by March 1, 1993, a final decision on whether to revise the NAAQS for ozone. The proposed and final decisions are to be made pursuant to rulemaking procedures, including a public comment period of at least sixty (60) days. The order states that the above requirements are conditioned upon and subject to section 113(g) of the Act (requiring notice and opportunity for comment on certain consent orders and settlement agreements) and requires EPA to recommend by May 4, 1992, that the Court enter or not enter the order on that date.

Accordingly, for a period of thirty (30) days following the date of publication of this notice, EPA will receive any written comments on the order. Under section

113(g), EPA or the Department of Justice may withhold or withdraw consent to the order if the comments disclose facts or circumstances that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act.

Dated: March 5, 1992.

Gerald H. Yamada,

Acting General Counsel.

BILLING CODE 6560-50-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 92-32, RM-7907]

Radio Broadcasting Services; Blacksburg and Roanoke, VA, and Lewisburg, WV

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission requests comments on a petition by Blacksburg-Christiansburg Company proposing the substitution of Channel 287C3 for Channel 285A at Blacksburg, Virginia, and modification of Station WVVV-FM's license to specify operation on the higher powered channel. In order to accommodate the allotment of Channel 287C3 to Blacksburg, we also propose to substitute Channel 275A for Channel 288A at Lewisburg, West Virginia, and the modification of Station WKCJ-FM's license accordingly; and the substitution of Channel 285C3 for Channel 287A at Roanoke, Virginia, and modification of the construction permit for Channel 287A accordingly. See Supplemental Information, *infra*.

DATES: Comments must be filed on or before April 27, 1992, and reply comments on or before May 12, 1992.

ADDRESSES: Federal Communications Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner, or its counsel or consultant, as follows: Mark J. Prak, Esq., Tharrington, Smith & Hargrove, P.O. 1151, 209 Fayetteville Street Mall, Raleigh, North Carolina 27602 (Counsel for petitioner) and Julian P. Freret, Esq., Booth, Freret & Imlay, 1920 N Street, NW., suite 150, Washington, DC 20036 (Counsel for Susan Brown).

FOR FURTHER INFORMATION CONTACT: Pamela Blumenthal, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Notice of Proposed Rule Making and Order to Show Cause, MM Docket No. 92-32, adopted February 24, 1992, and released March 4, 1992. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractor, Downtown Copy Center, (202) 452-1422, 1714 21st Street, NW., Washington, DC 20036.

Channel 287C3 and Channel 285C3 can be allotted to Blacksburg and Roanoke, Virginia, respectively, in compliance with the Commission's minimum distance separation requirements. Channel 287C3 can be allotted to Blacksburg, Virginia, with a site restriction of 6.2 kilometers (3.9 miles) northwest to accommodate petitioner's desired site. The coordinates for Channel 287C3 at Blacksburg are North Latitude 37-16-14 and West Longitude 80-27-39. Channel 285C3 can be allotted to Roanoke, Virginia, with a site restriction of 8.4 kilometers (5.2 miles) northeast to avoid a short-spacing to Station WDCG-FM, Channel 286C, Durham, North Carolina. The coordinates for Channel 285C3 at Roanoke are North Latitude 37-20-33 and West Longitude 79-53-50. Channel 275A can be allotted to Lewisburg, West Virginia, in compliance with the Commission's minimum distance separation requirements and can be used at the transmitter site specified in Station WKCJ-FM's license. The coordinates for Channel 275A at Roanoke are North Latitude 37-48-17 and West Longitude 80-21-03.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1204(b) for rules governing permissible *ex parte* contacts.

For information regarding proper filing procedures for comments, see 47 CFR 1.415 and 1.420.

BILLING CODE 6712-01-M

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1048

[Ex Parte No. MC-37 (Sub-No. 41)]

Petition To Establish a Commercial Zone of El Paso County, TX and Dona Ana and Luna Counties, NM

AGENCY: Interstate Commerce Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: This rulemaking proceeding proposes to amend the regulations at 49 CFR 1048 to provide for a specifically defined commercial zone that would embrace the Texas county of El Paso and the New Mexico counties of Dona Ana and Luna for transportation of property. The expansion of the existing zones in those counties into a single unified commercial zone is intended to reflect current economic conditions, commercial realities, and prevailing service needs.

DATES: Comments are due April 9, 1992.

ADDRESSES: Send pleadings (original and 10 copies) referring to Ex Parte No. MC-37 (Sub-No. 41) to: Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423.

FOR FURTHER INFORMATION CONTACT: Richard B. Felder, or Jane Udovic, (202) 927-5610, (202) 927-5323. (TDD for hearing impaired: (202) 927-5721.)

SUPPLEMENTARY INFORMATION: Additional information is contained in the Commission's decision. To obtain a copy of the full decision, write to, call, or pick up in person from: Office of the Secretary, room 2215, Interstate Commerce Commission, Washington, DC 20423. Telephone: (202) 927-7428. (Assistance for the hearing impaired is available through TDD service (202) 927-5721.)

Environmental and Energy Considerations

The proposed action will not affect significantly either the quality of the human environment or the conservation of energy resources.

Regulatory Flexibility Analysis

The Commission certifies that this proposal will not have a significant economic impact on a substantial number of small entities. The primary purpose for establishing this three-county commercial zone is to maintain the *status quo* insofar as the local cross-border property operations by Mexican motor carriers are concerned. These

carriers will have the authority to operate under certificates of registration to areas that encompass the businesses that they had been serving as exempt carriers prior to the time when 49 U.S.C. 10530 took effect on May 1, 1985, and as amended, on January 1, 1990.

List of Subjects in 49 CFR Part 1048

Motor carriers, Commercial zones.

Decided: February 12, 1992.

By the Commission, Chairman Philbin, Vice Chairmen McDonald, Commissioners Simmons, Phillips, and Emmett.

Sidney L. Strickland, Jr.,

Secretary.

Agricultural Marketing Service

[CN-92-003]

National Advisory Committee on Cotton Marketing Meeting

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice of meeting.

SUMMARY: The National Advisory Committee on Cotton Marketing will meet on Tuesday, March 31, 1992, beginning at 8 a.m. at the Dallas/Fort Worth Airport, Hyatt Regency Hotel (west building).

The primary purpose of the meeting is to review progress in implementing previous committee recommendations and to consider additional steps that may be needed to improve the efficiency of the U.S. cotton marketing system. This meeting is open to the public, and written comments may be submitted in advance or following the meeting to Jesse F. Moore, Director, Cotton Division.

FOR FURTHER INFORMATION CONTACT: Jesse F. Moore, Director, Cotton Division, AMS, USDA, P.O. Box 96456, Washington, DC 20090-6456; (202) 720-3193.

SUPPLEMENTARY INFORMATION: The Advisory Committee on Cotton Marketing was initially established in 1988 by the Secretary of Agriculture to review the cotton marketing system and to recommend ways of improving its efficiency. Notice of this meeting is provided in accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. No. 92-463).

Dated: March 5, 1992.

Animal and Plant Health Inspection Service

[Docket 92-032]

Public Meeting; Veterinary Biologics

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Advance notice of public meeting and request for topics.

SUMMARY: This is to notify producers of veterinary biological products and other interested persons that we are holding a fourth annual public meeting to discuss regulatory and policy issues related to the manufacture, distribution, and use of veterinary biological products. The agenda for this year's meeting is being finalized and suggestions for topics of general interest to producers and other interested persons are requested.

PLACE, DATES AND TIMES OF MEETING: The fourth annual public meeting will be held in the Scheman Building at the Iowa State Center, Ames, Iowa, on August 18-20, 1992. The meeting is schedule for 8 a.m. to approximately 5 p.m. on Tuesday and Wednesday, August 18 and 19, 1992, and 8 a.m. to 12 noon on Thursday, August 20, 1992.

FOR FURTHER INFORMATION CONTACT: Dr. Frank Y. Tang, Biotechnology Coordination and Technical Assistance Staff, Biotechnology, Biologics, and Environmental Protection, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, room 852, 6505 Belcrest Road, Hyattsville, MD 20782, Telephone (301) 436-4833, FAX (301) 436-8669.

SUPPLEMENTARY INFORMATION: The Animal and Plant Health Inspection Service (APHIS) holds an annual public meeting on veterinary biologics in Ames, Iowa.

The meeting provides an opportunity for the exchange of information between APHIS representatives, producers of veterinary biological products, and interested persons on issues of common concern. APHIS is in the process of planning the agenda for a fourth annual public meeting on veterinary biological products to be held in Ames, Iowa, on August 18-20, 1992.

As yet, the agenda for the fourth annual meeting is not complete. APHIS is seeking suggestions for meeting topics from producers and the interested public before finalizing the agenda. Topics and formats which have been suggested include: (1) program updates; (2) consumer views on veterinary biologics; (3) breakout sessions for individual discussion topics (to be suggested); and (4) meetings with individual APHIS reviewers. Please submit addtional suggested meeting topics (for both break out and general sessions) to the person listed under **"FOR FURTHER INFORMATION CONTACT"** on or before April 10, 1992.

After the agenda is finalized, APHIS will announce the schedule and registration information for the fourth annual public meeting on veterinary biologics in a notice in the **Federal Register**

Done in Washington, DC, this 4th day of March 1992.

Lonnie J. King,

Acting Administrator, Animal and Plant Health Inspection Service.

BILLING 3410-34-M

Forest Service

Bohemia Mountain Timber Sale, Stikine Area, Tongass National Forest, Petersburg, AK; Withdrawal of the Record of Decision Signed September 30, 1991

This is notice that I am withdrawing my decision to implement Alternative 5 of the Bohemia Mountain Timber Sale, as reflected in the Record of Decision (ROD) I signed on September 30, 1991.

My decision to implement this alternative was appealed by the Narrows Conservation Coalition, City of Kupreanof, and Kake Area Conservation Council (jointly) and by American Rivers, Inc. Our attempts to negotiate a settlement that would permit the sale to proceed without further analysis were unsuccessful. Therefore, we will revisit the points raised in the appeals to determine if a supplemental Environmental Impact Statement will be prepared.

Laura L. Nelson, Acting Forest Supervisor, Stikine Area, Tongass National Forest, is the responsible official for this withdrawal decision.

For additional information concerning the withdrawal of this decision, contact Tammy Malone, Interdisciplinary Team Leader, Supervisor's Office, Stikine Area, Tongass National Forest, P.O. Box 309, Petersburg, Alaska, 99833, or call (907) 772-3841.

Dated: December 20, 1991.

Laura L. Nelson,

Acting Forest Supervisor.

[FR Doc. 92-5449 Filed 3-9-92; 8:45 am]

BILLING CODE 3410-11-M

Soil Conservation Service

Big Limestone Creek Watershed, Tennessee

AGENCY: Soil Conservation Service.

ACTION: Notice of a finding of no significant impact.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR part 1500); and the Soil Conservation Service Guidelines (7 CFR part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Big Limestone Watershed, Greene and Washington Counties, Tennessee.

FOR FURTHER INFORMATION CONTACT: Jerry S. Lee, State Conservationist, Soil Conservation Service, 675 U.S. Courthouse, 801 Broadway, Nashville, Tennessee 37203, telephone No. (615) 736-5471.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Jerry S. Lee, State Conservationist, has determined that the preparation and review of an environmental impact statement is not needed for this project.

Big Limestone Creek Watershed, Tennessee Notice of a Finding of No Significant Impact

The project concerns a plan for watershed protection and water quality improvement. The planned works of improvement include animal waste systems, critical area treatment, and exclusion of cattle from streams. Federal financial assistance will be provided to accelerate financial and technical assistance for water quality improvement.

The Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State and local agencies and interested parties. A limited number of copies of the FONSI are available at the above address to fill single copy requests. Basic data developed during the environmental assessment are on file and may be reviewed by contacting Jerry S. Lee.

No administrative action on implementation of the proposal will be taken under 30 days after the date of this publication in the **Federal Register.**

(This activity is listed in the catalog of Federal Domestic Assistance under No. 10.904—Watershed Protection and Flood Prevention—and is subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with State and local officials)

Dated: March 2, 1992.

Jerry S. Lee,

State Conservationist.

BILLING CODE 3410-16-M

DEPARTMENT OF COMMERCE

International Trade Administration

[A-588-056]

Melamine From Japan; Determination Not To Revoke Antidumping Duty Finding

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of determination not to revoke antidumping duty finding.

SUMMARY: The Department of Commerce is notifying the public of its determination not to revoke the antidumping duty finding on melamine from Japan.

EFFECTIVE DATE: March 10, 1992.

FOR FURTHER INFORMATION CONTACT: Jorge A. Arce or Robert Marenick, Office of Antidumping Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377-5255.

SUPPLEMENTARY INFORMATION: The Department may revoke an antidumping duty finding, pursuant to section 353.25(d)(4) of the Department's regulations, if no interested party has requested an administrative review for four consecutive annual anniversary months and no interested party objects to the revocation (19 CFR 353.25(d)(4)). We had not received a request to conduct an administrative review of the antidumping duty finding on melamine from Japan (42 FR 6366, February 2, 1977) for the last four consecutive annual anniversary months. Therefore, pursuant to the Department's regulations, on January 31, 1992, we published in the **Federal Register** a notice of intent to revoke the finding and served written notice of the intent to revoke to each interested party on the Department's service list.

On February 24, 1992, Melamine Chemical, Inc., a petitioner, objected to our intent to revoke this finding. Therefore, because an interested party objects to the revocation, we no longer intend to revoke this finding.

Dated: March 3, 1992.

Roland L. MacDonald,

Acting Deputy Assistant Secretary for Compliance.

BILLING CODE 3510-DS-M

[C-549-401]

Noncontinuous Noncellulosic Yarn From Thailand; Final Results of Countervailing Duty Administrative Review

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of final results of countervailing duty administrative review.

SUMMARY: On December 3, 1991, the Department of Commerce published a notice of preliminary results of its administrative review of the agreement suspending the countervailing duty investigation on noncontinuous noncellulosic yarn from Thailand covering the period January 1, 1990 through December 31, 1990 and six programs. We have now completed that review and have determined that the Government of Thailand and the exporters of noncontinuous noncellulosic yarns have complied with the terms of the suspension agreement during the review period.

EFFECTIVE DATE: March 10, 1992.

FOR FURTHER INFORMATION CONTACT: Robert Bolling or Wendy Frankel, Office of Agreements Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377-3793.

SUPPLEMENTARY INFORMATION:

Background

On December 3, 1991, the Department of Commerce (the Department) published in the **Federal Register** (56 FR 61402) a notice of preliminary results of administrative review of the agreement suspending the countervailing duty investigation on noncontinuous noncellulosic yarn from Thailand (50 FR 9832; March 3, 1985). We have now completed this review in accordance with section 751 of the Tariff Act of 1930, as amended (the Tariff Act).

Scope of Review

Imports covered by this review are shipments of noncontinuous noncellulosic yarn from Thailand. During the period of review, such merchandise was classifiable under item numbers 5509.21.0000, 5509.22.0010, 5509.22.0090, 5509.32.0000, 5509.51.3000, 5509.51.6000, and 5509.69.4000 of the Harmonized Tariff Schedule (HTS). The HTS item numbers are provided for convenience and Customs purposes. The written description remains dispositive.

The review covers the period January 1, 1990 through December 31, 1990 and six programs: (1) Export Packing Credits; (2) Rediscount of Industrial Bills; (3) Electricity Discounts for Exporters; (4) Tax Certificates for Exports; (5) Foreign Marketing Expenses; and (6) Flat Rate Tax Rebates.

Final Results of the Review

We gave interested parties an opportunity to comment on the preliminary results, in which we noted that information on the record provided by the Government of Thailand and the United States Customs Service indicates that there were no known shipments of the subject merchandise to the United States during the period of review. We received no comments. Therefore, we determine that the Government of Thailand and exporters of the subject merchandise have complied with the terms of the suspension agreement for the period January 1, 1990 through December 31, 1990.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR 355.22.

Dated: March 3, 1992.

Marjorie A. Chorlins,

Acting Assistant Secretary for Import Administration.

[FR Doc. 92-5578 Filed 3-9-92; 8:45 am]

BILLING CODE 3510-DS-M

[C-549-401]

Noncontinuous Noncellulosic Yarn From Thailand; Preliminary Results of Countervailing Duty Administrative Review

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of preliminary results of countervailing duty administrative review.

SUMMARY: The Department of Commerce is conducting an administrative review of the agreement suspending the countervailing duty investigation on noncontinuous noncellulosic yarn from Thailand. The review covers the period January 1, 1989 through December 31, 1989 and nine programs. We preliminarily determine that the Government of Thailand and the Thai exporters of noncontinuous noncellulosic yarn have complied with the terms of the suspension agreement. We invite interested parties to comment on these results.

EFFECTIVE DATE: March 10, 1992.

FOR FURTHER INFORMATION CONTACT: Robert Bolling or Wendy Frankel, Office of Agreements Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377-3793.

SUPPLEMENTARY INFORMATION:

Background

On February 26, 1990, the Department of Commerce (the Department) published in the **Federal Register** (55 FR 6669) a notice stating its intent to terminate the suspended countervailing duty investigation on certain textile mill products from Thailand (50 FR 9862; March 12, 1985), pursuant to § 355.25(d)(4) of the Commerce Regulations. On March 26, 1990, the American Yarn Spinners Association (AYSA), a trade association, objected to the Deparment's intent to terminate the suspended investigation and requested an administrative review for calendar year 1989. On January 17, 1991, the Department initiated an administrative review covering yarn products imported during calendar year 1989 (56 FR 1800). Subsequently, as a result of litigation, the Department terminated the suspended investigation with respect to all products but noncontinuous noncellulosic yarn (56 FR 54836; October 23, 1991). The Department is now conducting the review on noncontinuous noncellulosic yarn in accordance with section 751 of the Tariff Act of 1930, as amended (the Tariff Act).

Scope of Review

Imports covered by this review are shipments of noncontinuous noncellulosic yarn from Thailand. During the period of review, such merchandise was classifiable under item numbers 5509.21.0000, 509.22.0010, 5509.22.0090, 5509.32.0000, 5509.51.3000, 5509.51.6000, and 5509.69.4000 of the Harmonized Tariff Schedule (HTS). The HTS item numbers are provided for convenience and Customs purposes. The written description remains dispositive.

During the review period, three producers/exporters exported the subject merchandise to the United States: Saha Union Corporation (Saha Union), Thai American Textile Company (Thai American), and Thai Melon Textile Company (Thai Melon). The review covers the period January 1, 1989 through December 31, 1989 and nine programs: (1) Export Packing Credits; (2) Rediscount of Industrial Bills; (3) Electricity Discounts for Exporters; (4) Tax Certificates for Exports; (5) Foreign Marketing Expenses; (6) Flat Rate Tax Rebates; (7) Investment Promotion Act; (8) International Trade Promotion Act; and (9) Export Processing Zones.

Analysis of Programs

(1) Export Packing Credit

Under the terms of the suspension agreement, the producers and exporters are not to apply for, or receive, Export Packing Credits (EPCs) from the Bank of Thailand that permit the rediscounting of promissory notes for exports of the subject merchandise to the United States.

EPCs are pre- or post-shipment short-term loans available to exporters for a maximum of 180 days from the date of issuance. Under the EPC program, commercial banks are allowed to lend up to 100 percent of the value of a shipment to the exporter, and then may rediscount up to 50 percent of the loan amount with the Bank of Thailand (BOT).

The BOT grants EPCs on a shipment-by-shipment basis. To be eligible for EPCs on pre-shipment loans, an exporter must submit one of the following: An irrevocable letter of credit from a foreign customer, a sales contract, a purchase order, or a warehouse receipt. To be eligible for EPCs on post-shipment loans, an exporter must submit a bill of exchange.

The exporter applies for EPCs through its commercial bank by providing a promissory note to the bank at an interest rate slightly below the prime interest rate. The commercial bank then sells a note at a lower interest rate to the BOT for up to one half the amount of the loan it issued to the exporter.

At verification, we examined the accounting records at the BOT and found that this program was not used by Saha Union, Thai American or Thai Melon for exports of noncontinous noncellulosic yarn to the United States during the review period. In addition, we examined the three companies' accounting records and found no indication of the program being used during the review period.

(2) Tax Certificates for Export

The RTG issues tax certificates to exporters to rebate indirect taxes and import duties on raw materials that are manufactured into exported products. The rebate is provided for in the "Tax and Duty Compensation of Exported Goods Produced in the Kingdom Act" (Tax and Duty Act). The rebate rates are computed on the basis of an input/output (I/O) study initially published in 1980 based on 1975 data, and updated in 1985 using 1980 data.

The Thai Ministry of Finance (MOF) uses the I/O study to compute the value of all inputs (both imports and local purchases) to calculate two distinct rebate rates ("A" and "B") on a sectoral basis at ex-factory prices. The "A" rate rebates both import duties and indirect domestic taxes. Exporters that received duty drawback, or import duty exemptions on raw materials, are eligible only for the "B" rate. The "A" or "B" rate is then applied to the total f.o.b. value of the export to determine the amount of the rebate. The rebates are granted in the form of tax certificates which may be used for payment of any future tax liabilities, transferred, or sold to other companies.

In the Final Affirmative Countervailing Duty Determination and Countervailing Duty Order; Certain Apparel from Thailand (50 FR 9818; March 12, 1985), we examined Thailand's tax certificate rebate system under the Tax and Duty Act. We found that, as noted above, the program was intended to rebate indirect taxes and import duties and that the rebate rates had been reasonably calculated.

In subsequent investigations involving products from Thailand, most recently in the Final Affirmative Countervailing Duty Determination and Countervailing Duty Order; Steel Wire Rope from Thailand (56 FR 46299; September 11, 1991), we reaffirmed this determination. Because this program is available only to exporters, it is countervailable to the extent that it confers a rebate in excess of the Department's calculated allowable rebate of import duties and indirect taxes on physically incorporated inputs.

In the original investigation in this proceeding, the Department calculated allowable "A" and "B" tax rates for the spinning sector (I/O 67) and weaving sector (I/O 68), and then calculated a weighted-average of those rates, because the products in the scope of the original investigation included products other than noncontinuous noncellulosic yarn (*i.e.*, included products from both of those sectors). These rates ("A" rate, 5.06 percent and "B" rate, 0.56 percent) were applied by the Department at the time the suspension agreement was signed, and subsequently were the rates at which the RTG offered rebates.

Under the terms of the suspension agreement, the RTG will not provide any tax certificates or other rebates, remissions or exemptions under the Tax and Duty Act on the subject merchandise exported to the United States in excess of the import duties and indirect taxes on items that are physically incorporated into the exported products. At verification in this review, we reviewed the original investigation methodology used to calculate the "A" and "B" rates. We confirmed that during the period of review the RTG only rebated indirect taxes for the subject merchandise at the "A" and "B" rates that were established in the original investigation. Because Saha Union, Thai American and Thai Melon received rebates at the rates established in the original investigation, we preliminarily determine that no overrebate of indirect taxes occurred and that this program did not provide any countervailable benefit to the noncontinuous noncellulosic yarn exporters during the review period.

In the Final Affirmative Countervailing Duty Determination and Countervailing Duty Order; Butt-Weld Pipe Fittings from Thailand (55 FR 1695, January 18, 1990) (Butt-Weld Pipe Fittings), the Department revised its methodology for calculating the "A" and "B" rates. In the RTG's questionnaire and supplemental responses in this review, in addition to using the original calculation methodology used by the Department in the investigation, the RTG submitted calculations based upon this new methodology. The RTG submitted this revised methodology because the instant period of review post-dated the period of investigation in the Butt-Weld Pipe Fittings case. Further, since the revised scope of the suspension agreement only covers noncontinuous noncellulosic yarn (merchandise under the spinning sector), in this review the RTG employed the new methodology properly using only those physically-incorporated inputs applicable to the spinning sector, including some inputs that were not included in the orginal investigation methodology.

We verified the revised calculations that were submitted prior to verification and which were based on the Butt-Weld Pipe Fittings methodology and found no discrepancies. However, at verification the RTG submitted additional calculations that embodied additional physically-incorporated inputs which were not included in their questionnaire calculations: Printing and publishing, basic industrial chemicals, and plastic ware. Because this recalculation constituted new information under section 353.31(a)(ii) of the Department's regulations (19 CFR 353.31(a)(ii)(1991)), the Department has not considered this information for this preliminary determination.

Because a new methodology for calculating tax rebates has been employed since the original investigation, the Department has determined to set new allowable tax rebate rates based upon the methodology derived in the Butt-Weld Pipe Fittings investigation and the RTG's information submitted for this review. The new rates are as follows: "A" rate, 5.31 percent; and the "B" rate, 0.60 percent. These new rates will be applicable from the date of publication of the notice of final results of the administrative review.

(3) Electricity Discounts for Exporters

Under the terms of the suspension agreement, the producers and exporters are not to apply for, or receive, any discount on electricity rates provided by the electricity authorities in Thailand (the Electricity Generating Authority of Thailand (EGAT), Metropolitan Electricity Authority (MEA) or the Provincial Electricity Authority (PEA)) for exports of the subject merchandise.

The EGAT, the MEA and the PEA are responsible for administering the electricity discounts for exporters program. To calculate the discount EGAT calculates the amount of electricity consumed (in kilowatt hours) per unit of output and the electricity cost in baht per kilowatt hour charged to the producer. Separate rates are calculated for each producer. Actual discounts are applied on a shipment-by-shipment basis.

During verification, we examined accounting records of Saha Union, Thai American and Thai Melon and found that the EGAT, MEA, and PEA did not provide, and the three exporters did not receive, electricity discounts for exports on noncontinuous noncellulosic yarn to the United States during the review period.

(4) Rediscount of Industrial Bills

Under the terms of the suspension agreement, the producers and exporters are not to apply for, or receive, any promissory notes from the Bank of Thailand for exports of the subject merchandise to the United States.

The Bank of Thailand's "Regulations Governing the Rediscount of Promissory Notes Arising from Industrial Undertakings" permit commercial banks to rediscount short-term promissory notes for industrial purchases. These

industrial promissory notes are also called industrial bills. The BOT determines the maximum rediscount amount each year for each eligible company as a percentage of that company's annual production costs. This program is aimed at financing particular industries based on types of input products, a company's contribution to urban development, etc.

During verification, we examined BOT's accounting records and found no listing of Saha Union, Thai American and Thai Melon having applied for, or received, industrial bills for exports of noncontinuous noncellulosic yarn to the United States during the review period. In addition, we examined the three companies' accounting records and found no indication of the program having been applied for, or benefits received, during the review period.

(5) Double Deduction for Foreign Marketing Expenses

Under the terms of the suspension agreement, the producers and exporters are not to apply for, or receive, double deductions of foreign marketing expenses for income tax purposes or concessionary financing from the BOT for exports of the subject merchandise.

Under this program, an international trading enterprise may reduce income tax payments by doubling its foreign maketing expenses and including this amount in its operating expense deductions from income on its income tax return. This program was only available to companies holding a valid Board of Investment (BOI) license which met qualifications outlined in the Investment Promotion Act (see Below). As of March 2, 1991, international trading companies were no longer eligible to be promoted under the IPA.

During verification, we examined tax returns at the Ministry of Finance which all three companies filed for 1989. We verified that Saha Union, Thai American and Thai Melon did not claim a double deduction for foreign marketing expenses on their tax returns.

(6) Flat Rate Tax Rebates

During verification, government officials stated that the flat tax rebate program was terminated on March 31, 1985. We reviewed documentation that stated that this program had indeed been terminated on that date.

Other Programs

Although not listed specifically in the suspension agreement, under section II(g) of the suspension agreement, we examined the following programs detailed in the questionnaire responses:

(1) Investment Promotion Act, Section 28: Tax and Duty Exemptions

The Investment Promotion Act of 1977 (IPA) is a general act, administered by the BOI, that allows for the promotion of different industries selected for development assistance by the BOI. Section 28 of the IPA provides an exemption from payments of import duties and business taxes on imported machinery.

Only Thai Melon Received tax and duty exemptions under Section 28 during the review period. Thai Melon claimed that the exemptions it received under section 28 during the review period were granted on machinery used to produce merchandise outside the scope of the agreement. During verification, we examined Thai Melon's accounting records and found that the company paid taxes on all imported machinery used in the production of the subject merchandise and that tax exemptions were earned exclusively for machinery used for the production of non-subject merchandise.

(2) International Trade Promotion Act

During verification, we reviewed documentation that stated that exporters did not use this program during the period of review.

(3) Export Processing Zones

During verification, we reviewed documentation that stated that exporters did not use this program during the period of review.

Preliminary Results of Review

As a result of our review, we preliminarily determine that the RTG and Saha Union, Thai American and Thai Melon, the Thai exporters of noncontinuous noncellulosic yarn to the United States during the period January 1, 1989 through December 31, 1989, complied with the terms of the suspension agreement.

Interested parties may submit written comments on these preliminary results within 30 days of the date of publication of this notice and may request disclosure and/or a hearing within 10 days of the date of publication. Any hearing, if requested, will be held 44 days after the date of publication or the first workday thereafter. Rebuttal briefs and rebuttals to written comments, limited to issues raised in those comments, must be filed not later than 37 days after the date of publication. The Department will publish the final results of its analysis of issues raised in any such written comments or at a hearing.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1) and 19 CFR 355.22.

Dated: March 9, 1992.

Marjorie A. Chodins,

Acting Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-M

[C-507-501]

In-Shell Pistachios From Iran; Intent To Revoke Countervailing Duty Order

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of intent to revoke countervailing duty order.

SUMMARY: The Department of Commerce is notifying the public of its intent to revoke the countervailing duty order on in-shell pistachios from Iran. Interested parties who object to this revocation must submit their comments in writing not later than March 31, 1992.

EFFECTIVE DATE: March 10, 1992.

FOR FURTHER INFORMATION CONTACT: Christopher Beach or Maria MacKay, Office of Countervailing Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377-2786.

SUPPLEMENTARY INFORMATION:

Background

On March 11, 1986, the Department of Commerce (the Department) published a countervailing duty order on in-shell pistachios from Iran (51 FR 8344). The Department has not received a request to conduct an administrative review of the countervailing duty order on in-shell pistachios from Iran for at least four consecutive annual anniversary months.

In accordance with 19 CFR 355.25(d)(4)(iii), the Secretary of Commerce will conclude that an order is no longer of interest to interested parties and will revoke the order if no interested party objects to revocation or requests an administrative review by the last day of the fifth anniversary month. Accordingly, as required by § 355.25(d)(4)(i) of the Department's regulations, we are notifying the public of our intent to revoke this order.

Opportunity to Object

Not later than March 31, 1992, interested parties, as defined in § 355.2(i) of the Department's regulations, may object to the Department's intent to revoke this countervailing duty order.

Seven copies of any such objections should be submitted to the Assistant Secretary for Import Administration, International Trade Administration, room B-099, U.S. Department of Commerce, Washington, DC 20230.

If interested parties do not request an administrative review or object to the Department's intent to revoke by March 31, 1992, we shall conclude that the order is no longer of interest to interested parties and shall proceed with the revocation.

This notice is in accordance with 19 CFR 355.25(d).

Dated: March 3, 1992.

Roland L. MacDonald,

Acting Deputy Assistant Secretary for Compliance.

[C-549-503]

Rice From Thailand; Preliminary Results of Countervailing Duty Administrative Review

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of preliminary results of countervailing duty administrative review.

SUMMARY: The Department of Commerce has conducted an administrative review of the countervailing duty order on rice from Thailand. We preliminarily determine the total bounty or grant during the period January 1, 1990 through December 31, 1990 to be 0.69 percent *ad valorem*. We invite interested parties to comment on these preliminary results.

EFFECTIVE DATE: March 10, 1992.

FOR FURTHER INFORMATION CONTACT: Sylvia Chadwick, Dana Mermelstein or Maria MacKay, Office of Countervailing Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377-2786.

SUPPLEMENTARY INFORMATION:

Background

On April 12, 1991, the Department of Commerce (the Department) published in the **Federal Register** a notice of "Opportunity to Request an Administrative Review" (56 FR 14927) of the countervailing duty order on rice from Thailand (51 FR 12356; April 10, 1986). On April 29, 1991, the original petitioner, the Rice Millers Association, together with the USA Rice Council, requested an administrative review of the order. We initiated the review covering the period from January 1, 1990 through December 31, 1990, on May 21, 1991 (56 FR 23271). The Department has now conducted this review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act). The final results of the last administrative review in this case were published on January 2, 1991 (56 FR 68).

Scope of Review

Imports covered by this review are shipments of Thai rice including rice in the husk (paddy or rough); husked (brown) rice including basmati and other; semi-milled or wholly-milled rice, whether or not polished or glazed, including parboiled and other; and broken rice. During the review period, such merchandise was classifiable under item numbers 1006.10.00, 1006.20.20, 1006.20.40, 1006.30.10, 1006.30.90 and 1006.40.00 of the Harmonized Tariff Schedule (HTS). The HTS item numbers are provided for convenience and Customs purposes. The written description remains dispositive.

The review covers the period January 1, 1990 through December 31, 1990, and twelve programs.

Analysis of Programs

Export Packing Credits

Export packing credits (EPCs) are short-term loans used for pre-shipment or post-shipment export financing. The Bank of Thailand (BOT) purchases promissory notes issued to commercial banks by reliable exporters. The notes must be supported by an irrevocable letter of credit, a sales agreement, purchase order, warehouse receipt, or usance export bill. The loans are issued in baht and are available for a maximum of 180 days. Interest is paid on the due date of the loan. On that date, the BOT debits the commercial bank's account with the principal amount of the loan and the interest due. If the terms of the loan are not met, the BOT charges the commercial bank a penalty retroactive to the first day of the loan.

In accordance with BOT regulation 1349/1986, commercial banks may lend up to 100 percent of the export shipment value but the BOT will rediscount only a maximum of 50 percent of the promissory note. In accordance with BOT regulation 1329/1986, commercial banks are required to charge no more than a maximum interest rate of 10 percent per annum on the loan. In case of non-performance by the exporter on the due date of the loan, the exporter is charged a penalty interest rate on the entire loan. This penalty is forgiven and the loan receives the EPC preferential rate if the promissory note issuer exports or receives payment in foreign currency for his product within 60 days after the due date of the promissory note. We preliminarily determine that because the EPC program is limited to exporters, it is countervailable to the extent that the loans are provided at preferential rates.

As the benchmark for short-term financing, we ordinarily use the predominant source of short-term financing in the country in question. Where there is no single, predominant source of short-term financing, we may use a benchmark composed of the interest rates for two or more sources of short-term financing in the country in question, weighted, wherever possible, according to the value of the financing granted by each source. In Final Affirmative Countervailing Duty Determination and Countervailing Duty Order; Steel Wire Rope from Thailand (56 FR 46299; Sept. 11, 1991) (Steel Wire Rope), the Department concluded that the minimum loan rate (MLR) and the minimum overdraft rate (MOR) as reported in the BOT Quarterly Bulletin are more representative of the prevailing short-term interest rates in Thailand than the rates used in previous Thai cases. Based on that determination, we are using the average of the 1990 MCR and MOR rates, as reported in the BOT Quarterly Bulletin for 1990, as the most appropriate benchmark in this review. The benchmark interest rate, thus calculated, is 14.60 percent.

Of the 40 companies exporting rice to the United States during the review period, 12 received EPCs. We received specific loan information from eight of the 12 companies. We did not receive any loan information from four of the 12 companies, as requested in our original questionnaire and in our supplemental questionnaire of December 3, 1991. To calculate the eight reponding companies' benefits from the EPCs during the review period, we subtracted the amount of interest actually paid on the loan principal from the amount that would have been paid at the benchmark rate. Because the total interest paid for EPCs exceeded the interest due at the benchmark rate when penalties were assessed and not refunded, we excluded from our calculations all loans on which penalties were charged and not refunded during the review period. However, we included all loans, including loans provided prior to the review period, on which penalties were refunded during the review period. We then used the highest individual

company benefit rate, as best information available, for the four companies which did not submit loan information. We weighted the resulting benefit by each exporter's share of the value of total country exports of subject merchandise to the United States. On this basis, we preliminarily determine the benefit from this program to be 0.362 percent *ad valorem* for the review period.

Price Support and Stabilization Programs

The price support and stabilization programs are determined each year by the Rice Policy and Measures Committee (RPMC) of the Royal Thai Government (RTG). The RPMC is composed of representatives of the Office of the Prime Minister, the Defense Ministry, the Agriculture and Cooperative Ministry, the Commerce Ministry and the Interior Ministry. During the review period, six price stabilization programs provided benefits to producers of rice.

In accordance with Thai law, only milled rice is exported from Thailand. Because there are no published statistics on the total sales value (both domestic and export sales) of milled rice and because we are examining benefits on an aggregate basis and not on a company-specific basis, it was necessary to calculate a value for use as a domestic subsidy denominator in determining the benefit from these programs. To calculate this denominator, we first estimated the quantity of milled rice production by multiplying the quantity of paddy rice production by a conversion factor of 0.66. In our previous review of this order, Rice from Thailand; Final Results of Countervailing Duty Administrative Review (56 FR 68; Jan. 2, 1991), we verified that the average yield from 1,000 kilograms of paddy rice is 660 kilograms of milled rice. We then multiplied the quantity of milled rice production by the yearly average domestic price of milled rice, to calculate a total value of milled rice production. Finally, because exports are sold at prices higher than the average domestic milled price, we made an adjustment to account for the higher sales value derived from exports.

A. Marketing Organization for Farmers (MOF)

The MOF operates under the Ministry of Agriculture and Cooperatives (MAC). During the review period, MOF administered two programs designed to assist paddy rice farmers:

1. *Payment-in-kind Program (PIK)*—Under this program, the MOF accepted paddy rice as payment for farmers' and agricultural organizations' fertilizer debt. For the purposes of this transaction, the value of the rice per ton was not more than 10 percent higher than the prevailing local price. MOF then generally sold the paddy rice at a profit of 100 baht per ton over its purchase price.

2. *Paddy Rice Purchase Program*—Under this program, the MOF purchased, on the same terms as the PIK program, additional paddy rice from farmers and agricultural organizations who settled their fertilizer debts under the payment-in-kind program.

Because the RTG appropriation for these programs did not include a grant for operating expenses as did appropriations for other government projects, the MOF selling price for paddy rice to rice millers was higher than the market price. For this reason, few rice millers agreed to buy paddy rice from the MOF and the project was discontinued on April 30, 1990.

We preliminarily determine that these two programs are countervailable because they are limited to producers of paddy rice and because a price premium was paid by MOF for all purchases of paddy rice.

To calculate the benefit from each of these programs, we subracted the average farm gate price of paddy rice from the average MOF purchase price and multiplied the difference by the total quantity of paddy rice purchased by the MOF under each of these two programs. Using the domestic subsidy denominator and the adjustment described *supra*, we preliminarily determine the benefit from this program to be 0.0003 percent *ad valorem* for the PIK program, and 0.003 percent *ad valorem* for the Paddy Rice Purchase program.

B. Agricultural Cooperative Federation of Thailand (ACFT)

ACFT is a private organization that coordinates the activities of agricultural cooperatives on a national level. During the review period, ACFT received one-year, interest-free loans from the "linkage project" under the Cooperative Promotion Department (CPD) of the MAC. The "linkage project" linked credit extension by the CPD to the ACFT's rice marketing service.

ACFT used the government loans to buy rice from member producers at the local market price, mill the rice and sell the milled rice both in Thailand and abroad. Profits from the ACFT's sales were later distributed to ACFT member paddy rice producers, thereby giving them a higher final price for their product. The interest-free loans were repaid to CPD's circulatory investment fund to be used again for the next year's marketing activities.

Because the MAC loans were used by the ACFT for its rice marketing service, we preliminarily determine that this program is countervailable because it is limited to a specific enterprise or industry, or group of enterprises or industries, and because the interest-free loans are inconsistent with commercial considerations.

One-third of the funds for these loans was provided from a transnational source; we therefore calculated the benefit on only two-thirds of the total amount provided. See, Countervailing Duties; Notice of Proposed Rulemaking and Request for Public Comments (54 FR 23366; May 31, 1991), Section 355.44(o)(1). To calculate the benefit, we multiplied two-thirds of the amount of interest-free loans repaid during the review period by the 1990 short-term benchmark interest rate of 14.60 percent. Using the domestic subsidy denonminator and the adjustment described *supra*, we preliminarily determine that the benefit from this program is 0.038 percent *ad valorem*.

C. Bank of Agriculture and Agricultural Cooperatives (BAAC) Paddy Rice Mortgage Program

The BAAC is a state-owned bank that provided low-interest loans to qualifying farmers, farmer associations and cooperatives. Although the loans are available to farmers producing several agricultural products including rice, livestock and poultry, tree crops, cassava, maize, fisheries and others, the BAAC offers "special"low-interest loans under this program to rice producers in furtherance of the RTG's policy to support and stabilize paddy rice prices. The purpose of the loans is to allow farmers to hold back sales of paddy rice at the beginning of the harvest season, when market prices are low, and to sell it later in the season when prices are more favorable. The BAAC loaned up to 80 percent of the value of the paddy rice pledged, for a maximum of six months, at a three percent interest rate. If the loan was not repaid in six months, the interest rate escalated to a commercial overdraft rate.

We preliminarily determine that this program is countervailable because it is limited to a specific enterprise or industry, or group of enterprises or industries, and because the three-percent lending rate is inconsistent with commercial considerations.

Because the BAAC made loans to a large number of farmers under this program, we used aggregate figures from the BAAC to calculate the benefit from these loans. We multiplied the short-term benchmark interest rate of 14.60 percent by the total amount of loans made by the BAAC during the review period, from which we then subtracted the total actual interest paid during the review period. Using the domestic subsidy denominator and the adjustment described *supra*, we preliminarily determine the benefit from this program to be 0.126 percent *ad valorem*.

D. Bank of Agriculture and Agricultural Cooperatives Second Crop Paddy Rice Purchasing Program

To supplement the price stabilization effects of the paddy rice mortgage program, the BAAC implemented a second-crop paddy rice purchasing program. The purpose of this program was to buy second-crop paddy rice from farmers when prices were low (at harvest time) in order to stabilize prices over the course of the year. These purchases were made at premium prices, established at the provincial level by a committee designated by the Governor.

We preliminarily determine that this program is countervailable because it is limited to a specific enterprise or industry, or group of enterprises or industries, and because a price premium was paid by the BAAC on its purchases of second-crop paddy rice.

To calculate the benefit from this program, we subtracted the average farm gate price per metric ton of second-crop paddy rice from the average BAAC purchase price and multiplied the difference by the quantity of paddy rice purchased by the BAAC. Using the domestic subsidy denominator and the adjustment described *supra*, we preliminarily determine the benefit from this program to be 0.008 percent *ad valorem*.

E. Paddy Price Raising Project and Compensatory Financing Program for Millers

During the review period, the RPMC mandated a market price intervention program. This program, implemented by the Ministry of Interior (MOI), required rice millers and traders to purchase paddy rice from small and poor rice farmers at a price ten percent higher than market prices during peak harvesting seasons. The MOI allocated funds to the provincial governors who provided interest-free loans to rice millers and rice traders participating in the program.

We preliminarily determine that the government-mandated price premium of ten percent provides a countervailable benefit to paddy rice producers. Further, we determine that the interest-free loans provided by the government to the millers and traders are also countervailable because they are limited to a specific group of enterprises or industries and are provided on terms inconsistent with commercial considerations.

To calculate the benefit from the price premium received by the paddy rice producers during the review period, we subtracted the average farm gate price per metric ton of paddy rice from the MOI premium purchase price and multiplied the difference by the total volume of rice purchased by millers and traders under this program. Using the domestic subsidy denominator and the adjustment described *supra*, we preliminarily determine the benefit from the MOI price premium to be 0.014 percent *ad valorem* for the review period.

To calculate the benefit from the interest-free loans provided under this program, we multiplied the total amount of loans repaid during the review period by the short-term benchmark interest rate of 14.60 percent. We then multiplied this amount by the 10-month repayment period for all loans, in accordance with information provided in the questionnaire response. Using the domestic subsidy denominator and the adjustment described *supra*, we preliminarily determine the benefit from these loans to be 0.022 percent *ad valorem* for the review period.

F. Bank of Thailand Agricultural Purchase Project

According to BOT regulations effective November 11, 1988, commercial banks may provide short-term loans for up to 100 percent of the amount of a promissory note issued by rice traders or millers against the value of their stocked paddy rice. The commercial bank then discounts 50 percent of the face value of the promissory note with the BOT. The maximum interest charged by the commercial bank to the borrower is 10 percent; the principal and interest are due either at the end of 90 days or up to three days after the paddy is sold, whichever is earlier. If repayment of the loan is not made when due or if other terms of the loan are violated, a penalty interest amount is imposed by the BOT on 50 percent of the face value of the promissory note over the term of the loan. This penalty is then passed on to the borrower by the commercial bank. During the review period, this penalty interest rate was five percent through May 1990 and 6.5 percent beginning in June 1990. There is no penalty refund.

Because only rice traders and millers are eligible for these loans, we preliminarily determine that this program is countervailable because it is limited to a specific enterprise or industry, or group of enterprises or industries, and because the lending rate is inconsistent with commercial considerations.

Because commercial banks made over a thousand loans under this program, we used aggregate figures from the BOT to calculate the benefit from these loans. We calculated the interest due on the loans at the preferential rate of 10 percent; we then adjusted this amount for penalty interest which was paid at an annual rate of either 2.5 or 3.25 percent over the total amount of the loan. We then subtracted interest and penalties actually paid from the amount that would have been paid at the short-term benchmark interest rate of 14.60 percent. Using the domestic subsidy denominator and the adjustment described *supra*, we preliminarily determine the benefit to be 0.037 percent *ad valorem* for the review period.

G. Department of Agricultural Extension (DAE) Loans to Farmer Associations

Although the DAE provides a wide variety of extension services for all of the Thai agricultural sectors, during the review period the DAE provided a special interest-free short-term loan program to farmer associations for the purpose of buying paddy rice at harvest when prices are low, storing it, and selling it when prices are rising. We preliminarily determine that this loan program is countervailable because it is limited to a specific enterprise or industry, or group of enterprises and industries, and because the interest-free loans are provided on terms inconsistent with commercial considerations.

To calculate the benefit from this program, we calculated the difference between the interest actually paid and the interest that would have been paid at the 14.60 short-term benchmark interest rate. Using the domestic subsidy denominator and the adjustment described *supra*, we preliminarily determine the benefit to be 0.011 percent *ad valorem* for the review period.

H. Programs Preliminarily Determined To Be Not Used

We also examined the following programs and preliminarily determine that producers and exporters of rice did not apply for or receive benefits under these programs during the review period.

1. Public Warehouse Organization (PWO)
2. Department of Foreign Trade (DFT) Purchase of Milled Rice

3. Export Processing Zones
4. Incentives for International Trading Firms
5. Export Promotion Fund
6. Tax Certificates for Exports

Preliminary Results of Review

As a result of our review, we preliminarily determine the net bounty or grant to be 0.69 percent *ad valorem* during the period January 1, 1990 through December 31, 1990.

Therefore, the Department intends to instruct the Customs Service to assess countervailing duties of 0.69 percent of the f.o.b. invoice price on all shipments of this merchandise exported on or after January 1, 1990 and on or before December 31, 1990.

The Department also intends to instruct the Customs Service to collect cash deposits of estimated countervailing duties on shipments of this merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice at the rate of 0.69 percent *ad valorem*.

Parties to the proceeding may request disclosure of the calculations methodology and interested parties may request a hearing not later than 10 days after date of publication of this notice. Interested parties may submit written arguments in case briefs on these preliminary results within 30 days of the date of publication. Rebuttal briefs, limited to arguments raised in case briefs, may be submitted seven days after the time limit for filing the case brief. Any hearing, if requested, will be held seven days after the scheduled date for submission of rebuttal briefs. Copies of case briefs and rebuttal briefs must be served on interested parties in accordance with § 355.38(e) of the Commerce Regulations.

Representatives of parties to the proceeding may request disclosure of proprietary information under administrative protective order no later than 10 days after the representative's client or employer becomes a party to the proceeding, but in no event later than the date the case briefs, under § 355.38(c), are due.

The Department will publish the final results of this administrative review including the results of its analysis of issues raised in any case or rebuttal brief or at a hearing.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFP 355.22.

Dated: March 3, 1992.

Marjorie A. Chorlins,

Acting Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-M

[C-122-603]

Standard Carnations From Canada; Intent To Revoke Countervailing Duty Order

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of intent to revoke countervailing duty order.

SUMMARY: The Department of Commerce is notifying the public of its intent to revoke the countervailing duty order on standard carnations from Canada. Interested parties who object to this revocation must submit their comments in writing not later than March 31, 1992.

EFFECTIVE DATE: March 10, 1992.

FOR FURTHER INFORMATION CONTACT: Christoper Beach or Maria MacKay, Office of Countervailing Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 377-2786.

SUPPLEMENTARY INFORMATION:

Background

On March 12, 1987, the Department of Commerce ("the Department") published a countervailing duty order on standard carnations from Canada (52 FR 7645). The Department has not received a request to conduct an administrative review of the countervailing duty order on standard carnations from Canada for four consecutive annual anniversary months. This is the fifth anniversary.

In accordance with 19 CFR 355.25(d)(4)(iii), the Secretary of Commerce will conclude that an order is no longer of interest to interested parties and will revoke the order if no interested party objects to revocation or requests an administrative review by the last day of the fifth anniversary month. Accordingly, as required by section 355.25(d)(4) of the Department's regulations, we are notifying the public of our intent to revoke this order.

Opportunity to Object

Not later than March 31, 1992, interested parties, as defined in section 355.2(i) of the Department's regulations, may object to the Department's intent to revoke this countervailing duty order.

Seven copies of any such objections should be submitted to the Assistant Secretary for Import Administration, International Trade Administration, room B-099, U.S. Department of Commerce, Washington, DC 20230.

If interested parties do not request an administrative review or object to the Department's intent to revoke March 31, 1992, we shall conclude that the order is no longer of interest to interested parties and shall proceed with the revocation.

This notice is in accordance with 19 CFR 355.25(d).

Dated: March 3, 1992.

Roland L. MacDonald,

Acting Deputy Assistant Secretary for Compliance.

National Institute of Standards and Technology

[Docket No. 910527-1289]

RIN 0693-AA91

Approval of Withdrawal of Twelve Federal Information Processing Standards

AGENCY: National Institute of Standards and Technology (NIST), Commerce.

ACTION: Notice.

SUMMARY: The purpose of this notice is to announce that the Secretary of Commerce has approved the withdrawal of twelve Federal Information Processing Standards (FIPS).

On June 19, 1991, notice was published in the **Federal Register** (56 FR 28141) proposing withdrawal of twelve Federal Information Processing Standards (FIPS), because the technical specifications that they adopt are obsolete and are no longer supported by industry.

The written comments submitted by interested parties and other material available to the Department relevant to these standards were reviewed by NIST. On the basis of this review, NIST recommended that the Secretary approve the withdrawal of the twelve FIPS, and prepared a detailed justification document for the Secretary's review in support of that recommendation.

The detailed justification document which was presented to the Secretary is part of the public record and is available for inspection and copying in the Department's Central Reference and Records Inspection Facility, room 6020, Herbert C. Hoover Building, 14th Street between Pennsylvania and Constitution Avenues NW., Washington, DC 20230.

This notice provides only the FIPS publication number, title, and the technical specifications number for each of the twelve standards being withdrawn:

—FIPS 3-1, Recorded Magnetic Tape for Information Interchange (800 CPI, NRZI) (ANSI X3.22-1973).
—FIPS 25, Recorded Magnetic Tape for Information Interchange (1600 CPI, Phase Encoded) (ANSI X3.39-1973).
—FIPS 50, Recorded Magnetic Tape for Information Interchange, 6250 cpi (246 cpmm), Group Coded Recording (ANSI X3.54-1976).
—FIPS 51, Magnetic Tape Cassettes for Information Interchange (3.810 mm [0.150 in] Tape at 32 bpmm [800 bpi], PE) (ANSI X3.48-1977).
—FIPS 52, Recorded Magnetic Tape Cartridge for Information Interchange, 4-Track, 6.30 mm (¼ in), 63 bpmm (1600 bpi), Phase Encoded (ANSI X3.56-1977).
—FIPS 79, Magnetic Tape Labels and File Structure for Information Interchange (ANSI X3.27-1978).
—FIPS 93, Parallel Recorded Magnetic Tape Cartridge for Information Interchange, 4-Track, 6.30 mm (¼ in), 63 bpmm (1600 bpi), Phase Encoded (ANSI X3.72-1981/R1987).
—FIPS 114, 200 mm (8 in Flexible Disk Cartridge Track Format Using Two-Frequency Recording at 6631 bprad on One Side—1.9 tpmm (48 tpi) for Information Interchange (ISO 5654/2-1985).
—FIPS 115, 200 mm (8 in) Flexible Disk Cartridge Track Format Using Modified Frequency Modulation Recording at 13262 bprad on Two Sides—1.9 tpmm (48 tpi) for Information Interchange (ISO 7065/2-1985).
—FIPS 116, 130 mm (5.25 in) Flexible Disk Cartridge Track Format Using Two-Frequency Recording at 3979 bprad on One Side—1.9 tpmm (48 tpi) for Information Interchange (ISO 6596/2-1985).
—FIPS 117, 130 mm (5.25 in) Flexible Disk Cartridge Track Format Using Modified Frequency Modulation Recording at 7958 bprad on Two Sides—1.9 tpmm (48 tpi) for Information Interchange (ISO 7487/3-1984).
—FIPS 118, Flexible Disk Cartridge Labelling and File Structure for Information Interchange (ISO 7665-1983).

EFFECTIVE DATE: This withdrawal is effective March 10, 1992.

FOR FURTHER INFORMATION CONTACT: Ms. Shirley Radack, National Institute of Standards and Technology, Gaithersburg, MD 20899, telephone (301) 975-2833.

Authority: Federal Information Processing Standards Publications (FIPS PUBS) are issued by the National Institute of Standards and Technology after approval by the Secretary of Commerce pursuant to section 111(d) of the Federal Property and Administrative Services Act of 1949 as amended by the Computer Security Act of 1987, Public Law 100-235.

Dated: February 4, 1992.

John W. Lyons,

Director.

National Oceanic and Atmospheric Administration

Florida Keys National Marine Sanctuary Advisory Council; Open Meeting

AGENCY: The Office of Ocean and Coastal Resource Management, National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice.

SUMMARY: The Council was established in December 1991 to advise and assist the Secretary of Commerce in the development and implementation of the comprehensive management plan for the Florida Keys National Marine Sanctuary.

TIME AND PLACE: March 24 and 25, 1992 from 9 a.m. until adjournment. The meeting will take place at Buccaneer Resort, 2600 Overseas Highway, in Marathon, Florida.

AGENDA:

1. Review goals and objectives for the Florida Keys National Marine Sanctuary.
2. Elect chairperson and vice chairperson and adopt by-laws for council.
3. Review and discuss possible water use zoning categories and criteria.

PUBLIC PARTICIPATION: The meeting will be open to public participation and the last thirty minutes will be set aside for oral comments and questions. Seats will be set aside for the public and the media. Seats will be available on a first-come first-served basis.

FOR FURTHER INFORMATION CONTACT: Pamala James at (305) 743-2437 or Ben Haskell at (202) 606-4122.

Federal Domestic Assistance Catalog Number 11.429 Marine Sanctuary Program

Dated: March 5, 1992.

BILLING CODE 3510-08-M

National Oceanic and Atmospheric Administration.

Modification of Scientific Research Permit.

AGENCY: National Marine Fisheries Service.

ACTION: Modification of Scientific Research Permit No. 648 (P #45D)

Notice is hereby given that pursuant to the provisions of the Endangered Species Act of 1973 (16 U.S.C. 1531-1543), the National Marine Fisheries Service regulations governing endangered species permits (50 CFR parts 217-222), and the Conditions hereinafter set out, Scientific Research Permit No. 648, issued to the United States Fish and Wildlife Service, 75 Spring Streets, SW., Atlanta, GA 30303, on Octover 4, 1988, has been modified to authorize the taking of short-nosed sturgeon from waters in Georgia as well as from South Carolina. Eggs from up to twenty of the originally authorized fish may be used for studies of dioxin and furan loads.

This modification becomes effective upon publication in the **Federal Register**.

Documents pertaining to this Modificaiton and Permit are available for review in the following offices by appointment:

Office of Protected Resources, National Marine Fisheries Service, 1335 East-West Highway, Silver Spring, MD 20910; and

Director, Southeast Region, National Marine Fisheries Service, 9450 Koger Blvd., St. Petersburg, FL 33702 (813/893-3141).

Dated: March 2, 1992.

Charles Karnella,

Acting Director, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-M

DEPARTMENT OF DEFENSE

Public Information Collection Requirements Submitted to OMB for Review

ACTION: Notice.

The Department of Defense has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Title, Applicable Form, and Applicable OMB Control Number: Statistical Process Control Manufacturing Plan.
Type of Request: New Collection.
Average Burden Hours/Minutes Per Response: .5
Responses Per Respondent: 1.
Number of Respondents: 1500.
Annual Burden Hours: 750.
Annual Responses: 1500.
Needs And Uses: The Defense Logistics Agency (DLA), Office of the Secretary of Defense, will require the contractor to prepare a documented plan showing how Statistical Process Control (SPC) is to be used to monitor its manufacturing processes. SPC will be used as a tool to improve the quality of products.
Affected Public: Businesses or other for-profit, small businesses or organizations and federal agencies or employees.
Frequency: On occasion.
Respondent's Obligation: Required to obtain or retain a benefit.
OMB Desk Officer: Mr. Peter Weiss.

Written comments and recommendations on the proposed information collection should be sent to Mr. Weiss at the Office of Management and Budget, Desk Officer for DoD, room 3235, New Executive Office Building, Washington, DC 20503.

DOD Clearance Officer: Mr. William P. Pearce.

Written requests for copies of the information collection proposal should be sent to Mr. Pearce, WHS/DIOR, 1215 Jefferson Davis Highway, suite 1204, Arlington, Virginia 22202-4302.

Dated: March 3, 1992.

L.M. Bynum

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 3810-01-M

Office of the Secretary

Defense Science Board Task Force on In-House Microelectronics Research Facilities

ACTION: Notice of advisory committee meetings.

SUMMARY: The Defense Science Board Task Force on In-House Microelectronics Research Facilities will meet in closed session on March 24, 1992 at Ft. Monmouth, New Jersey and March 31-April 2, 1992 at the Naval Ocean Systems Center, San Diego, California.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition on scientific and technical matters as they affect the perceived needs of the Department of Defense. At these meetings the Task Force will assess the advantages and disadvantages of a single microelectronics facility for the Department of Defense.

In accordance with section 10(d) of the Federal Advisory Committee Act, Public Law 92-463, as amended (5 U.S.C. app. II, (1988)), it has been determined that these DSB Task Force meetings, concern matters listed in 5 U.S.C. 552b(c)(1) (1988), and that accordingly these meetings will be closed to the public.

Dated: March 4, 1992.

Linda M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

[FR Doc. 92-5458 Filed 3-9-92; 8:45 am]

BILLING CODE 3810-01-M

Special Operations Policy Advisory Group; Meeting

The Special Operations Policy Advisory Group (SOPAG) will meet on Thursday, March 26, 1992 in the Pentagon, Arlington, Virginia to discuss sensitive, classified topics.

The mission of the SOPAG is to advise the Office of the Secretary of Defense on key policy issues related to the development and maintenance of effective Special Operations and Low-Intensity Conflict forces.

In accordance with section 10(d) of Public Law 92-463, the "Federal Advisory Committee Act," and section 552b(c)(1) of title 5, United States Code, this meeting will be closed to the public.

Dated: March 4, 1992.

L. M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 3810-01-M

Meeting

AGENCY: Defense Advisory Committee on Women in the Services (DACOWITS)

ACTION: Notice of conference.

SUMMARY: Pursuant to Public Law 92-463, notice is hereby given of a forthcoming conference of the Defense Advisory Committee on Women in the Services (DACOWITS). The purpose of DACOWITS is to advise the Secretary of Defense on matters relating to women in the Services. The Committee meets semiannually.

DATES: April 26-29, 1992 (summarized agenda follows).

ADDRESSES: Radisson Mark Plaza Hotel, 5000 Seminary Road, Alexandria, Virginia, unless otherwise noted in agenda.

Agenda: Sessions will be conducted daily and will be open to the public. The agenda will include the following:

Saturday, April 25, 1992, 8:30 a.m.-5 p.m.

For DACOWITS 1992 Appointees only: Conference registration; Orientation briefing on the DACOWITS; Subcommittee orientations; Army, Navy, Marine Corps, Air Force, and Coast Guard orientations.

Sunday, April 26, 1992, 7:30 a.m.-7 p.m.

Conference Registration (Former Members and Conference Participants; Briefings: Office of the Secretary of Denfense (ODS) Overview; Force Reductions and Restructuring; Weight Standards After Pregnancy; Sexual Harassment; National Guard Promotion Opportunties; No-host Working Breakfast (current DACOWITS members only); Get Acquainted Luncheon (current DACOWITS members, military representatives, legal advisors, and liaison officers only); Subcommittee Sessions; and Social.

Monday, April 27, 1992, 9:30 a.m.-10 p.m.

Official Opening Ceremony in Pentagon Auditorium, room 5A1070 (board buses at hotel 9:30 a.m.; ceremony begins at 10:30 a.m.); Subcommittee Sessions; and OSD Reception and Dinner (By Invitation Only).

Tuesday, April 28, 1992 7:30 a.m.-8 p.m.

Field trip to the U.S. Naval Academy, Annapolis, Maryland (By Invitation Only), and Executive Committee Session.

Wednesday, April 29, 1992, 7:30 a.m.-1 p.m.

No-host Working Breakfast (current DACOWITS members only); Individual Review of Resolutions; Presentations by members of the public; General Business Session; Installation Visit Reports; OSD Luncheon (By Invitation Only).

FOR FURTHER INFORMATION CONTACT: Captain Branda M. Weidner, Assistant Director, DACOWITS and Military Women Matters, OASD (Force Management and Personnel), The Pentagon, room 3D769, Washington, DC 20301-4000; telephone (703) 697-2122.

SUPPLEMENTARY INFORMATION: The following rules and regualtions will govern the participation by members of the public at the conference.

(1) Members of the public will not be permitted to attend official OSD Luncheon, Field Trip, or OSD Reception and Dinner.

(2) All business sessions will be open to the public.

(3) Interested persons may submit a written statement for consideration by the Committee and/or make an oral presentation of such during the conference.

(4) Persons desiring to make an oral presentation or submit a written statement to the Committee must notify the point of contact listed above no later than March 27.

(5) Length and number of oral presentations to be made will depend on the number of requests received from members of the public.

(6) Oral presentations by members of the public will be permitted only on Wendesday, April 29, before the full Committee.

(7) Each person desiring to make an oral presentation must provide the DACOWITS office 1 copy of the presentation by April 10 and make available 200 copies of any material that is intended for distribution at the conference.

(8) Persons submitting a written statement for inclusion in the minutes of the conference must submit to the DACOWITS staff one copy either before or by the close of the conference.

(9) Other new items from members of the public may be presented in writing to any DACOWITS member for transmittal to the DACOWITS Chair or Director, DACOWITS and Military Women Matters, to consider.

(10) Members of the public will not be permitted to enter into oral discussion conducted by the Committee members at any of the sessions; however, they will be permitted to reply to questions directed to them by the members of the Committee.

(11) Members of the public will be permitted to orally question the scheduled speakers if recognized by the Chair and if time allows after the official participants have asked questions and/or make comments.

(12) Questions from the public will not be accepted during the Subcommittee Sessions, the Executive Committee Session, or the General Business Session. Sessions will be conducted daily and will be open to the public.

Dated: March 4, 1992.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 3810-01-M

Department of the Air Force

USAF Scientific Advisory Board; Meeting

The USAF Scientific Advisory Board's Committee on Technology Options for Global Reach—Global Power: 1995-2020 (Power Projection Panel) will meet on 26-27 March 1992, at McDonnell Douglas Missile Systems Co, St. Louis, MO at 8 a.m. to 5 p.m.

The purpose of this meeting is to receive briefings and gather information for the study.

The meeting will be closed to the public in accordance with section 552b(c) of title 5, United States Code, specifically subparagraphs (1) and (4) thereof.

For further information, contact the Scientific Advisory Board Secretariat at (703) 697-4811.

Patsy J. Conner,

Air Force Federal Register, Liaison Officer.

BILLING CODE 3910-01-M

Department of the Army

Army Science Board; Open Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following Committee Meeting:

Name of the Committee: Army Science Board (ASB).
Dates of the Meeting: 30 March-2 April 1992.
Time: 0800-1630.
Place: Denver, Colorado.
Agenda: The Army Science Board's Infrastructure and Environment Issue Group will meet to discuss the study, "Groundwater Modeling in the Army's Environmental Restoration Programs." This meeting will be open to the public. Any interested person may attend, appear before, or file statements with the committee at the time and in the manner permitted by the committee. The ASB Administrative Officer, Sally Warner, may be contacted for further information (703) 695-0781.

Sally A. Warner,

Administrative Officer, Army Science Board.

BILLING CODE 3710-08-M

DEPARTMENT OF EDUCATION

Proposed Information Collection Requests

AGENCY: Department of Education.

ACTION: Notice of proposed information collection requests.

SUMMARY: The Director, Office of Information Resources Management, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1980.

DATES: Interested persons are invited to submit comments on or before April 9, 1992.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Dan Chenok: Desk Officer, Department of Education, Office of Management and Budget, 726 Jackson Place NW., room 3208, New Executive Office Building, Washington, DC 20503. Requests for copies of the proposed information collection requests should be addressed to Wallace R. McPherson, Jr., Department of Education, 400 Maryland Avenue SW., room 5624, Regional Office Building 3, Washington, DC 20202.

FOR FURTHER INFORMATION CONTACT: Wallace R. McPherson, (202) 708-5174.

SUPPLEMENTARY INFORMATION: Section 3517 of the Paperwork Reduction Act of 1980 (44 U.S.C. chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Acting Director, Office of Information Resources Management, publishes this notice containing proposed information collection requests prior to submission to these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Frequency of collection; (4) The affected public; (5) Reporting burden; and/or (6) Recordkeeping burden; and (7) Abstract. OMB invites public comment at the address specified above. Copies of the requests are available from Wallace R. McPherson, Jr. at the address specified above.

Dated: March 4, 1992.

Wallace R. McPherson, Jr.,

Acting Director, Office of Information Resources Management.

Office of Educational Research and Improvement

Type of Review: Reinstatement.
Title: Application for Grants Under Library Research and Demonstration Program, Title II–B of the Higher Education Act of 1965 as amended.
Frequency: Annually.
Affected Public: Non-profit institutions.
Reporting Burden:
Responses: 50.
Burden Hours: 1600.
Recordkeeping Burden:
Recordkeepers: 0
Burden Hours: 0.
Abstract: This form will be used by State Education Agencies to apply for funding under the Library Research and Demonstration Program. The Department uses the information to make grant awards.

Office of Policy and Planning

Type of Review: Reinstatement.
Title: General Education Provisions Act (GEPA) 406A: State Uses of Federal Funds Under State-Administered Federal Education Programs.
Frequency: Annually.
Affected Public: State or local government.
Reporting Burden:
Responses: 57.
Burden Hours: 2,565.
Recordkeeping Burden:
Recordkeepers: 0
Burden Hours: 0.
Abstract: Under section 406A of the General Education Provisions Act (GEPA) as amended, ED is responsible for collecting data from the States and reporting to the Congress on the States' distribution of funds for the State-administered Federal education programs. In addition, GEPA data are necessary for a number of different kinds of analyses performed by ED on a regular basis regarding accountability and targeting.

BILLING CODE 4000-10-M

Follow Through Program

AGENCY: Department of Education.
ACTION: Correction.

On September 18, 1991, the U.S. Secretary of Education (Secretary) published a notice inviting applications for new awards under the Follow Through Program for fiscal year 1992 (56 FR 47270). The notice inadvertently omitted reference to the preference the Secretary gives to applications that meet the following competitive priority:

For the purpose of making grants to local educational agencies (LEAs) for local projects under section 662 of the Follow Through Act, the Secretary will give priority to any LEA that requests a grant for purposes of carrying out a Follow Through Program in a school that—

(1) Is designated as a schoolwide project under section 1015(a) of Chapter 1 of Title I of the Elementary and Secondary Education Act of 1965, as amended (20 U.S.C. 2725(a) (1988)); and

(2) Has a high concentration of children from low-income families in kindergarten and primary grades who were previously enrolled in Head Start or similar quality preschool programs.

Under 34 CFR 75.105(c)(2)(i), an application that meets this competitive priority in a particularly effective way receives from the Secretary 25 points in addition to any points the application earns under the selection criteria for the program. However, to receive the additional 25 priority points, an application must first obtain a rating of at least 70 points as provided in § 215.24(a) of the regulations. In addition, in order to determine the average points awarded to local project applications contained in a joint application, as required in § 215.20(b)(3) of the regulations, priority points are included in the calculation of the average.

FOR FURTHER INFORMATION CONTACT: Ms. Patricia McKee, Compensatory Education Programs, Office of Elementary and Secondary Education, U.S. Department of Education, 400 Maryland Avenue, SW. (room 2043), Washington, DC 20202–6132. Telephone: (202) 401–1892. Deaf and hearing impaired may call the Federal Dual Party Relay Service at 1–800–877–8339 (in the Washington, DC 202 area code, telephone 708–9300) between 8 a.m. and 7 p.m., Eastern time.

Program Authority: 42 U.S.C. 9861–9869.

Dated: March 5, 1992.

John T. MacDonald,
Assistant Secretary of Elementary and Secondary Education.

DEPARTMENT OF ENERGY

Response to Recommendation 91–5 of the Defense Nuclear Facilities Safety Board Concerning Operation of Savannah River Site K-Reactor Above 30 Percent of Historical Maximum Power

AGENCY: Department of Energy.
ACTION: Notice and request for public comment.

SUMMARY: Pursuant to section 312(d) of the Atomic Energy Act of 1954, as amended, 42 U.S.C. 2286(d), the Department of Energy (DOE) hereby publishes notice of a response of the Secretary of Energy (Secretary) to Recommendation 91–5 of the Defense Nuclear Facilities Safety Board, published in the **Federal Register** on December 27, 1991, (56 FR 67066) concerning operation of Savannah River Site K-reactor above 30 percent of historical maximum power.

DATES: Comments, data, views, or arguments concerning the Secretary's response are due on or before April 9, 1992.

ADDRESSES: Send comments, data, views, or arguments concerning the Secretary's response to: Defense Nuclear Facilities Safety Board, 625 Indiana Avenue, NW., suite 700, Washington, DC 20004.

FOR FURTHER INFORMATION CONTACT: Donald F. Knuth, Deputy Assistant Secretary for Operations, Defense Programs, Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585.

Mario Fiori,
Departmental Representative to the Defense Nuclear Facilities Safety Board.

February 7, 1992.

The Honorable John T. Conway,
Chairman, Defense Nuclear Facilities Safety Board, 625 Indiana Avenue, NW., Suite 700, Washington, DC 20004.

Dear Mr. Conway: Your letter, dated December 18, 1991, forwarded your reporting requirement pursuant to 42 U.S.C. 2286b(d) to inform the Defense Nuclear Facilities Safety Board (DNFSB) well before any decision to increase the K-Reactor's power level above 30 percent of the historical value of its maximum full power. Additionally, you provided three recommendations regarding an increase in operating power beyond 30 percent.

The DNFSB will be informed well before any decision is made to increase reactor power level above 30 percent of the historical value of maximum full power. I accept the DNFSB's recommendation to perform additional studies prior to authorizing an increase in reactor operating power above 30 percent. Much analysis has been accomplished to establish the safe operating power level at 30 percent of historical maximum full power. Evaluation of power limits to determine the feasibility of increasing the operating power level is continuing at Westinghouse Savannah River Company and Los Alamos National Laboratory to determine the feasibility of increasing the operating power level.

At the present time, it is not intended that the reactor power be increased to greater than 30 percent due to the reduced need for tritium. If the need to operate at greater than 30 percent is established, then an implementation plan will be developed and forwarded to the DNFSB.

In accordance with 42 U.S.C. 2286d, the Department of Energy's responses to the DNFSB's recommendations will be published in the **Federal Register**.

Sincerely,

James D. Watkins,
Admiral, U.S. Navy (Retired).

[FR Doc. 92–5575 Filed 3–9–92; 8:45 am]
BILLING CODE 6450-01-M

Response to Recommendation 91–6 of the Defense Nuclear Facilities Safety Board Concerning Radiation Protection Issues Throughout the DOE Defense Nuclear Facilities Complex

AGENCY: Department of Energy.
ACTION: Notice and request for public comment.

SUMMARY: Pursuant to section 312(d) of the Atomic Energy Act of 1954, as amended, 42 U.S.C. 2286(d), the Department of Energy (DOE) hereby publishes notice of a response of the Secretary of Energy (Secretary) to Recommendation 91–6 of the Defense Nuclear Facilities Safety Board, published in the **Federal Register** on December 27, 1991, (56 FR 67066) concerning radiation protection for workers and the general public at DOE facilities.

DATES: Comments, data, views, or arguments concerning the Secretary's response are due on or before April 9, 1992.

ADDRESSES: Send comments, data, views, or arguments concerning the Secretary's response to: Defense Nuclear Facilities Safety Board, 625 Indiana Avenue, NW., suite 700, Washington, DC 20004.

FOR FURTHER INFORMATION CONTACT: Mr. C. Rick Jones, U.S. Department of Energy, Office of Health (EH–41), 19901 Germantown Road, Germantown, MD 20874, at 301–903–6061.

Mario Fiori,
Departmental Representative to the Defense Nuclear Facilities Safety Board.

January 31, 1992.

The Honorable John T. Conway,
Chairman, Defense Nuclear Facilities Safety Board, 625 Indiana Avenue, NW., Suite 700, Washington, DC 20004.

Dear Mr. Conway: Your letter dated December 19, 1991, forwarded Recommendation 91–6 regarding radiation protection issues throughout the Department of Energy (DOE) defense nuclear facilities complex.

I share your concerns regarding DOE's radiation protection program at these facilities and have recently taken steps to strengthen radiological protection practices. On January 16, 1992, I directed the Assistant Secretary for Environment, Safety, and Health to prepare and issue a comprehensive and definitive Radiological Control Manual. I have also directed that the Department's independent monitoring and assessment of the effectiveness of radiological protection performance be transferred to the Office of Nuclear Safety. Also, the Program Secretarial Officers responsible for radiological programs have been directed to ensure that appropriately trained personnel are assigned to their organizations to monitor the performance of their radiation protection programs. My goal is to be the pacesetter for radiological health and safety at our facilities.

I accept the Board's recommendations. In addition to the actions described above, I have also tasked the Assistant Secretary for Environment, Safety, and Health and Senior Nuclear Managers to develop a detailed response and course of action to be responsive to each of your seven recommendations for the defense nuclear facilities complex. I will forward this plan to you no later than March 15, 1992.

In accordance with 42 U.S.C. 2286d, the Department's responses to the DNFSB's recommendations will be published in the **Federal Register**.

Sincerely,

James D. Watkins,
Admiral, U.S. Navy (Retired).

BILLING CODE 6450-01-M

Energy Information Administration

Agency Information Collections Under Review by the Office of Management and Budget

AGENCY: Energy Information Administration, DOE.

ACTION: Notice of request submitted for review by the Office of Management and Budget.

SUMMARY: The Energy Information Administration (EIA) has submitted the energy information collection(s) listed at the end of this notice to the Office of Management and Budget (OMB) for review under provisions of the Paperwork Reduction Act (Pub. L. No. 96–511, 44 U.S.C. 3501 *et seq.*). The listing does not include collections of information contained in new or revised regulations which are to be submitted under section 3504(h) of the Paperwork Reduction Act, nor management and procurement assistance requirements collected by the Department of Energy (DOE).

Each entry contains the following information: (1) The sponsor of the collection (a DOE component which term includes the Federal Energy Regulatory Commission (FERC)); (2) Collection number(s); (3) Current OMB docket number (if applicable); (4) Collection title; (5) Type of request, e.g., new, revision, extension, or reinstatement; (6) Frequency of collection; (7) Response obligation, i.e., mandatory, voluntary, or required to obtain or retain benefit; (8) Affected public; (9) An estimate of the number of respondents per report period; (10) An estimate of the number of responses per respondent annually; (11) An estimate of the average hours per response; (12) The estimated total annual respondent burden; and (13) A brief abstract describing the proposed collection and the respondents.

DATES: Comments must be filed within 30 days of publication of this notice. If you anticipate that you will be submitting comments but find it difficult to do so within the time allowed by this notice, you should advise the OMB DOE Desk Officer listed below of your intention to do so as soon as possible. The Desk Officer may be telephoned at (202) 395–3084. (Also, please notify the EIA contact listed below.)

ADDRESSES: Address comments to the Department of Energy Desk Officer, Office of Information and Regulatory Affairs, Office of Managment and Budget, 726 Jackson Place N.W., Washington, DC 20503. (Comments should also be addressed to the Office of Statistical Standards at the address below.)

FOR FURTHER INFORMATION AND COPIES OF RELEVANT MATERIALS CONTACT: Jay Casselberry, Office of Statistical Standards, (EI–73), Forrestal Building, U.S. Department of Energy, Washington,

DC 20585. Mr. Casselberry may be telephoned at (202) 254–5348.

SUPPLEMENTARY INFORMATION:

The energy information collection submitted to OMB for review was:

1. Federal Energy Regulatory Commission
2. FERC–510
3. 1902–0068
4. Application for the Surrender of Hydropower License
5. Extension
6. On occasion
7. Mandatory
8. Individuals or households, State or local governments, Businesses or other for-profit, Non-profit institutions, Small businesses or organziations
9. 30 respondents
10. 1 response
11. 10 hours per response
12. 300 hours
13. To carry out the requirements of part 1, section 4(e), 6 and 13 of the Federal Power Act. These sections direct that a hydropower license may be surrendered or terminated upon application and where agreement exists between the FERC and the licensee or by implied surrender.

Statutory Authority: Sec. 5(a), 5(b), 13(b), and 52, Pub. L. No. 93–275, Federal Energy Administration Act of 1974, 15 U.S.C. §§ 764(a), 764(b), 772(b), and 790a.

Issued in Washington, DC; March 4, 1992.

Yvonne M. Bishop,

Director, Statistical Standards Energy Information Administration.

[FR Doc. 92–5576 Filed 3–9–92; 8:45 am]

BILLING CODE 6450–01–M

Federal Energy Regulatory Commission

[Docket No. TQ92–2–1–000]

Alabama-Tennessee Natural Gas Co.; Proposed PGA Rate Adjustment

March 3, 1992.

Take notice that on February 28, 1992, Alabama-Tennessee Natural Gas Company ("Alabama-Tennessee"), Post Office Box 918, Florence, Alabama 35631, tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, the following tariff sheets:

Twenty-Ninth Revised Sheet No. 4

The tariff sheet is proposed to become effective April 1, 1992. Alabama-Tennessee states that the purpose of this filing is to adjust its rates to conform to the rates of its suppliers and to reflect certain transportation costs as purchased gas costs as permitted under the Commission's recent order issued on February 7, 1992 in Docket No. RP92–87–000 (58 FERC ¶ 61,130). Alabama-Tennessee has requested any necessary waivers of the Commission's Regulations in order to permit the tariff sheet to become effective as proposed.

Alabama-Tennessee states that copies of the tariff filing have been mailed to all of its jurisdictional sales and transportation customers and affected state regulatory commission.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rule 211 or Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214. All such motions or protests should be filed on or before March 10, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party to the proceeding must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Linwood A. Watson, Jr.,

Acting Secretary.

[FR Doc. 92–5476 Filed 3–9–92; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. TA92–1–48–000]

ANR Pipeline Co.; Proposed Changes in FERC Gas Tariff

March 3, 1992.

Take notice that ANR Pipeline Company ("ANR"), on February 28, 1992, tendered for filing as part of its F.E.R.C. Gas Tariff, Original Volume No. 1, the following tariff sheet to be effective May 1, 1992.

Fifty-Seventh Revised Sheet No. 18

ANR states that the purpose of the instant filing is to implement its Annual PGA rate adjustment pursuant to Section 15 of the General Terms and Conditions of ANR's Tariff.

Fifty-Seventh Revised Sheet No. 18 reflects a decrease of $0.3832 per dekatherm ("dth") in the gas cost component of the commodity rate of ANR's CD–1/MC–1 Rate Schedules from rates reflected in ANR's February 1, 1992 Quarterly PGA at Docket No. TQ92–3–48–000, including the elimination of the GRI Adjustment Charge of $0.0147 per dth, that was filed in Docket No. TM92–4–48–000, to be effective March 1, 1992.

There is a decrease of $0.091 in the gas cost component of the monthly D–1 demand rate and an increase of $0.0093 in the gas cost component of the D–2 demand rate, from rates reflected in the February 1, 1992 Quarterly PGA.

The instant filing further reflects a decrease in the gas cost component of ANR's one-part rate applicable to Rate Schedule SGS–1 of $0.3643 per dth from rates reflected in the February 1, 1992 Quarterly PGA and includes the elimination of the GRI surcharge.

ANR states that copies of the filing were served upon all of its jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with §§ 385.121 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before March 18, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Linwood A. Watson, Jr.,

Acting Secretary.

[FR Doc. 92–5468 Filed 3–9–92; 8:45 am]

BILLING CODE 6717–01–M

[Docket Nos. TA92–1–21–000 and TM92–8–21–000]

Columbia Gas Transmission Corp.; Proposed Changes in FERC Gas Tariff

March 3, 1992.

Take notice that Columbia Gas Transmission Corporation (Columbia) on February 28, 1992, tendered for filing the following proposed changes to its FERC Gas Tariff, First Revised Volume No. 1, to be effective May 1, 1992.

Sixteenth Revised Sheet No. 26
Eighth Revised Sheet No. 26.1
Sixteenth Revised Sheet No. 26A
Eighth Revised Sheet No. 26A.1
Sixteenth Revised Sheet No. 26B
Seventh Revised Sheet No. 26B.1
Fifteenth Revised Sheet No. 26C
Sixth Revised Sheet No. 26D
Sixteenth Revised Sheet No. 163

Columbia states that the sales rates set forth on Eighth Revised Sheet No. 26 reflect an overall decrease of 13.71¢ per Dth in the commodity rate and an increase of $0.369 per Dth in the demand rate. In addition, the transportation rates set forth on Fifteenth Revised Sheet No. 26C and Sixth Revised Sheet No. 26D reflect a decrease in the Fuel Charge component of 0.35¢ per Dth.

Columbia states that the purpose of the subject tariff sheets is to reflect the following:

(1) A Current Purchased Gas Cost Adjustment applicable to Sales Rate Schedules;
(2) Unrecovered Purchased Gas Cost Surcharges to be effective during the 12-month period commencing May 1, 1992;
(3) Current Transportation Cost Rate Adjustments;
(4) Unrecovered Transportation Fuel Charge Adjustments;
(5) A surcharge adjustment to provide for the recovery, over the 12-month period commencing May 1, 1992, of carrying charges related to take-or-pay reimbursements paid by Columbia to Panhandle Eastern Pipe Line Company (Panhandle) pursuant to the terms of a Commission approved settlement in Docket No. RP83–5–000; and
(6) A Transportation Fuel Charge Adjustment.

Columbia states that copies of the filing were served upon Columbia's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, Union Center Plaza Building, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before March 18, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of Columbia's filing are on file with the Commission and are available for public inspection.

Linwood A. Watson, Jr.,

Acting Secretary.

East Tennessee Natural Gas Co.; Rate Filing Pursuant to Tariff Rate Adjustment Provisions

March 3, 1992.

Take notice that on February 28, 1992, East Tennessee Natural Gas Company (East Tennessee) submitted for filing ten copies each of Eighteenth Revised Sheet Nos. 4 and 5 to First Revised Volume No. 1 of its FERC Gas Tariff to be effective April 1, 1992.

East Tennessee states that the purpose of the revisions to Eighteenth Revised Sheet Nos. 4 and 5 is to reflect a purchased gas adjustment (PGA) to East Tennessee's Rates for the quarterly period of April 1992–June 1992 pursuant to section 21 of the General Terms and Conditions of East Tennessee's Tariff.

East Tennessee states that copies of the filing have been mailed to all of its jurisdictional customers and affected state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before March 10, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene; provided, however, that any person who had previously filed a motion to intervene in this proceeding is not required to file a further motion. Copies of this filing are on file with the Commission and are available for public inspection.

Linwood A. Watson, Jr.,

Acting Secretary.

BILLING CODE 6717–01–M

[Docket No. TA92–1–34–000]

Florida Gas Transmission Co.; Proposed Changes in FERC Gas Tariff

March 3, 1992.

Take notice that on February 28, 1992 Florida Gas Transmission Company ("FGT") tendered for filing the following tariff sheet to become part of its FERC Gas Tariff effective May 1, 1992.

FERC Gas Tariff, Second Revised Volume No. 1

Twenty-Fifth Revised Sheet No. 8

Pursuant to § 154.305 of the Commission's regulations and Section 15 of the General Terms and Conditions of FGT's FERC Gas Tariff, FGT submits the above-referenced tariff sheet as part of FGT's annual PGA filing to be effective May 1, 1992.

FGT states that the current adjustment reflects FGT's projected cost of gas for the period May 1, 1992 through July 31, 1992. FGT anticipates a decrease from the $2.1452 per MMBtu saturated reflected in FGT's last scheduled filing in Docket No. TQ92–2–34 effective February 1, 1992 to $1.7375 per MMBtu saturated in the instant filing.

FGT states that the Surcharger Adjustments set forth on the tariff sheet reflect the amortization of the current deferral balance accumulated during the period January 1, 1991 through December 31, 1991 and the deferral balance accumulated during the period January 1, 1990 through December 31, 1990, for which FGT sought waiver in Docket No. TA91–1–34 to defer recovery.

FGT further states that in its last annual PGA filing in Docket No. TA91–1–34, FGT sought a waiver of the Commissions' regulations to permit FGT to defer collection by transferring the commodity portion of the December 31, 1990 current deferral subaccount balance to its current deferral subaccount which commenced January 1, 1991. By order issued April 30, 1991, the Commission granted FGT the requested waiver, and further required FGT to implement the surcharge in FGT's next annual PGA filing. In this filing, FGT is including the December 31, 1990 balance in the proposed commodity surcharge adjustments.

FGT also states that it has filed certain schedules in accordance with FERC Form No. 542–PGA (Revised). FGT has submitted a diskette containing such schedules.

FGT states that a copy of its filing has been served on all customers receiving gas under its FERC Gas Tariff, Second Revised Volume No. 1 and interested State commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426 in accordance with §§ 385.211 and 385.214 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before March 18, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene.

Copies of this filing are on file with the Commission and are available for public inspection in the Pubilc Reference Room.

Linwood A. Watson, Jr.

Acting Secretary.

BILLING CODE 6717–01–M

[Docket No. CP92-322-000]

National Fuel Gas Supply Corp. v. Tennessee Gas Pipeline Co.; Informal Technical Conference

March 3, 1992.

Take notice that on March 18, 1992 at 10 a.m., the Commission Staff will convene an informal technical conference in the above-captioned proceeding to discuss the issues raised in the complaint filed on January 29, 1992, by National Fuel Gas Supply Corporation against Tennessee Gas Pipeline Company. National Fuel requests in its complaint that a show cause order be issued against Tennessee for abandoning certificated transportation service without authorization, in violation of section 7(b) of the Natural Gas Act, and for undertaking unjust and unreasonable contracting practices, in violation of section 5 of the Act.

The conference will be held in a room to be designated at the offices of the Federal Energy Regulatory Commission at 825 North Capitol Street, NE., Washington, DC 20426.

All interested persons are invited to attend. Attendance at the conference will not confer party status.

Linwood A. Watson, Jr.,

Acting Secretary.

[FR Doc. 92-5471 Filed 3-9-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. 229-005]

Panhandle Eastern Pipe Line Co.; Notice of Compliance Filing

March 3, 1992.

Take notice that on February 28, 1992 Panhandle Eastern Pipe Line Company (Panhandle) tendered for filing the revised tariff sheets as listed on appendices A and B attached to the filing.

Panhandle states that the revised tariff sheets to be effective April 1, 1992 reflect (1) compliance with Ordering Paragraphs (A), (B), (C), (E) and (F) of the Commission's suspension Order dated October 31, 1991; (2) the application of Ordering Paragraph (A) reflects the current determinations arising from Docket No. RP88-262-000, *et al.*, as detailed in the report filed in this proceeding on January 15, 1992; (3) the elimination of the proposal for a third-party charge as required by Ordering Paragraph (B); (4) the proposed transportation cost adjustment which permits Panhandle to reflect current levels of Account No. 858 as contemplated by Ordering Paragraph (C); (5) the test period certificated levels in the rate design as required by Ordering Paragraph (E); and, (6) revisions to Section 18.9 of the General Terms and Conditions as required by Ordering Paragraph (F) and the Technical Conference by December 6, 1991.

Panhandle states that the rates and tariffs submitted also reflect ACA, GRI, PGA and Take-or-Pay filings which have been made since the rate filing of September 30, 1991, including Docket Nos. TM92-1-28-000, TM92-2-48-000, TF92-1-28-000, TA92-1-28-000 and 001, TQ2-2-28-000 and Docket No. RP92-118-000, respectively. The rates and tariffs also reflect the Commission's preliminary order approving the refunctionalization of facilities in Docket No. RP87-103-000 which was included in the original filing therein, the final approval of the settlements in Docket Nos. RP88-88-000 *et al.* RP88-262-000, *et al.* and RP91-53-000, *et al.* and the Commission's Order dated February 5, 1992 in Docket No. RP92-64-000.

Panhandle states that the filing of these revised tariff sheets which satisfies the requirements of the Commission's Order dated October 31, 1991 in this proceeding is without prejudice to Panhandle's rights on rehearing or in any judicial review proceeding or its position in this proceeding and the Docket No. RP88-262-000 proceeding.

Panhandle states that copies of the revised tariff sheets are being served on all jurisdictional customers, interested state commissions and all parties to this proceeding.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure 18 CFR 385.211. All such protests should be filed on or before March 10, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

Linwood A. Watson, Jr.,

Acting Secretary.

[FR Doc. 92-5473 Filed 3-9-92; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. RP92-134-000]

Southern Natural Gas Co.; Proposed Changes to FERC Gas Tariff

March 3, 1992.

Take notice that on February 28, 1992, Southern Natural Gas Company (Southern) tendered for filing proposed changes in its FERC Gas Tariff on the tariff sheets in appendix A attached to the filing. The aforesaid tariff sheets reflect a decrease in rates attributable to a reduction of $4.6 million in Southern's annual non-gas cost of service and significant levels of conversions by Southern's customers from CD to FT service.

Southern states that it has employed Straight Fixed Variable methods of cost classification, allocation, and rate design in the development of its proposed rates that are consistent with the Commission's expressed preference in its Notice of Proposed Rulemaking in Docket No. RM91-11-000 and consistent with the utilization of Southern's system and the competitive nature of the markets served by it.

Southern requested waiver of the five-month suspension period and the thirty (30) day notice requirement of § 154.22 of the Commission's Regulations to allow the proposed tariff sheets to become effective March 1, 1992. Southern stated that a shortened suspension period is required so that the benefits of the rate decrease will accrue to the customers at the earliest possible time. The conversions from CD to FT have either already occurred or will occur by March 1, 1992.

Southern states that copies of its filing were served upon Southern's jurisdictional purchasers, shippers, and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure (§§ 385.214, 385.211). All such petitions or protests should be filed on or before March 10, 1992.

Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Linwood A. Watson, Jr.,

Acting Secretary.

BILLING CODE 6717-01-M

[Docket No. RP92-132-000]

Tennessee Gas Pipeline Co.; Tariff Filing of Changes in Rates

March 3, 1992.

Take notice that on February 28, 1992, Tennessee Gas Pipeline Company (Tennessee) tendered for filing changes in its FERC Gas Tariff to Rate Schedules NET-EU and T-180 to be effective April 1, 1992, consisting of the following revised tariff sheets:

Third Revised Volume No. 1

Seventh Revised Sheet No. 30
Sixth Revised Sheet No. 156

Original Volume No. 2

Ninth Revised Sheet No. 9
First Revised Sheet No. 9A
Fourteenth Revised Sheet No. 10

Tennessee states that the rate change for Rate Schedule NET-EU is necessary to reflect increases in the costs of facilities and other costs incurred by Tennessee to render the service and the rate change for Rate Schedule T-180 is necessary to reflect Tennessee's proposed decoupling of Rate Schedule T-180 from Rate Schedule NET-EU.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such petitions or protests should be filed on or before March 10, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to made protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. RP91-203-007]

Tennessee Gas Pipeline Co.; Rate Filing

March 3, 1992.

Take notice that on February 28, 1992, Tennessee Gas Pipeline Company (Tennessee) filed the following revised tariff sheets to its FERC Gas Tariff to be effective February 1, 1992:

Original Volume No. 2

Second Substitute Eight Revised Sheet No. 9
Second Substitute Original Sheet No. 9A

The purpose of the filing is to provide workpapers in support of the rates filed January 31, 1992, in the referenced docket. The tariff sheets are being filed to reflect a reduction in the rates for Rate Schedule T-180. This reduction is the result of plant not placed in service by February 1, 1992.

Tennessee states that copies of the filing have been mailed to all affected customers and state regulator commissions.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure 18 CFR 385.211. All such protests should be filed on or before March 10, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket Nos. TQ92-2-9-000 and TM92-3-9-000]

Tennessee Gas Pipeline Co.; Rate Filing Pursuant to Tariff Rate Adjustment Provisions

March 3, 1992.

Take notice that on February 18, 1992, Tennessee Gas Pipeline Company (Tennessee) filed the following revised tariff sheets to its FERC Gas Tariff to be effective April 1, 1992:

Item A: Third Revised Volume No. 1

Seventh Revised Sheet No. 20
First Revised Sheet No. 20A
Seventh Revised Sheet No. 21
First Revised Sheet No. 21A
Seventh Revised Sheet No. 22

Item B: Original Volume No. 2

Twenty-sixth Revised Sheet No. 5
First Revised Sheet No. 5A

Tennessee states that the current Purchased Gas Cost Rate Adjustments consist of a $.0340 per dekatherm adjustment applicable to the gas component of Tennessee's sales rates and $.15 per dekatherm adjustment applicable to the Demand component.

Tennessee states that copies of the filing have been mailed to all of its jurisdictional customers on its system and affected stated regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20425, in accordance with Rules of Practice and Procedure. All such petitions or protests should be filed on or before March 10, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. TA92-2-18-003]

Texas Gas Transmission Corp.; Proposed Changes in FERC Gas Tariff

March 3, 1992.

Take notice that Texas Gas Transmission Corporation (Texas Gas), on February 28, 1992, tendered for filing the following revised tariff sheets to its FERC Gas Tariff, Original Volume No. 1:

TA92-2-18

Second Substitute Forty-ninth Revised Sheet No. 10
Second Substitute Forty-ninth Revised Sheet No. 10a
Second Substitute Thirtieth Revised Sheet No. 11
Second Substitute Twentieth Revised Sheet 11A
Second Substitute Twentieth Revised Sheet 11B
Third Revised Sheet No. 109
Fourth Revised Sheet No. 112

TF92-4-18

Second Substitute Fiftieth Revised Sheet No. 10
Second Substitute Fiftieth Revised Sheet No. 10A
Second Substitute Thirty-first Revised Sheet No. 11

Second Substitute Twenty-first Revised Sheet No. 11A
Second Substitute Twenty-first Revised Sheet No. 11B

TA92-2-18-003

Texas Gas states that these tariff sheets are being filed to comply with the Commission's "Order Accepting and Suspending Tariff Sheets Subject to Refund and Conditions" issued January 31, 1992, in Docket No. TA92-2-18-000, December 10, 1991, and Commission Letter Order issued February 14, 1992, in Docket No. TA92-2-18-002, filed February 10, 1992.

Texas Gas states that the proposed tariff sheets reflect a commodity rate decrease of $(.2972) per MMBtu from those rates reflected in the Annual PGA filing of December 10, 1991, and a commodity rate decrease of $(.1684) per MMBtu from the rates reflected in the last scheduled Quarterly PGA in Docket No. TQ-92-1-18. No changes are being proposed for the damand rates or SGN standby charges.

TF92-4-18

Texas Gas states that these tariff sheets are being filed to reflect the revised current adjustment and pagination due to the compliance filing in TA92-2-18. The effective rates reflected in the proposed sheets are the same as those accepted by Commission Letter Order dated January 31, 1992, in Texas Gas's interim PGA filing of January 18, 1992 (Docket No. TF92-4-18-000).

Texas Gas states that copies of the filing were served upon Texas Gas's jurisdictional sales customers and interested state commissions.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with rule 211 of the Commission's Rules of Practice and Procedures, 18 CFR 385.211. All such protests should be filed on or before March 10, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make portestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

Linwood A. Watson, Jr.,
Acting Secretary.

BILLING CODE 6717-01-M

[Docket No. TQ92-2-18-000]

Texas Gas Transmission Corporation; Proposed Changes in FERC Gas Tariff

March 3, 1992.

Take notice that Texas Gas Transmission Corporation (Texas Gas), on February 28, 1992, tendered for filing the following revised tariff sheets to its FERC Gas Tariff, Original Volume No. 1:

Fifty-first Revised Sheet No. 10
Fifty-first Revised Sheet No. 10A
Thirty-second Revised Sheet No. 11
Twenty-second Revised Sheet No. 11A
Twenty-second Revised Sheet No. 11B

Texas Gas states that these tariff sheets reflect changes in purchased gas costs pursuant to an Out-of-Cycle PGA Rate Adjustment and are proposed to be effective March 1, 1992. Texas Gas further states that the proposed tariff sheets reflect a commodity rate decrease of $(.1976) per MMBtu, a D-2 demand rate decrease of $(.0033) per MMBtu, a D-1 demand rate increase of $.13 per MMBtu, and an SGN Standby rate increase of $.0050 to $.0058 per MMBtu from the rates set forth in the Annual PGA (compliance) filed February 28, 1992 (Docket No. TA92-2-18). In addition, the instant filing reflects a $(.1452) per MMBtu commodity rate decrease from the rates effective February 1, 1992 (Docket No. TF92-4-18).

Texas Gas states that copies of the filing were served on Texas Gas' jurisdictional customers and interested State commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with §§ 385.214 and 385.211 of the Commission's Rules and Regulations. All such protests or motions should be filed on or before March 10, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

[Docket No. CP89-1916-005]

Transcontinental Gas Pipe Line Corp.; Application To Extend and Amend Certification of Public Convenience and Necessity

March 3, 1991.

Take notice that on March 2, 1992, Transcontinental Gas Pipe Line Corporation (Transco), Post Office Box 1396, Houston, Texas 77251, filed an application in Docket No. CP89-1916-005 pursuant to section 7(c) of the Natural Gas Act, to extend and amend the certificate of public convenience and necessity issued in Docket No. CP89-1916-002 on December 17, 1991, Transcontinental Gas Pipe Line Corporation, 55 FERC § 61,446 (1991), which allowed Transco to assign to its customers its rights under firm transportation arrangement on consenting upstream pipeline systems.

Transco states that the instant application is being filed in conjunction with Transco's general rate case under Section 4 of the NGA filed on March 2, 1992 in Docket No. RP92-137. Transco states the proposed amendment to the upstream capacity assignment program provides for the deletion of the term limitation of the authority granted in Docket No. CP89.1916.002 such that the authority will extend for an unlimited period. In addition, a further amendment is requested such that the requirement that upstream pipelines consent to the capacity assignment program to be eliminated.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commisison, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with rule 211 of the Commission's Rules of Practice and Procedure 18 CFR 385.211. All such protests should be filed on or before March 19, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

Take further notice, that pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commisison by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Transco to appear or be represented at the hearing.

Linwood A. Watson, Jr.,
Acting Secretary.

BILLING CODE 6717-01-M

[Docket No. TM92-7-29-000]

Transcontinental Gas Pipe Line Corp.; Proposed Changes in FERC Gas Tariff

March 3, 1992.

Take notice that Transcontinental Gas Pipe Line Corporation (Transco) tendered for filing on February 27, 1992 the following revised certain sheets to Third Revised Volume No. 1 of its FERC Gas Tariff included in appendix A attached to the filing.

Transco states that the purpose of the filing is to track rate changes attributable to (1) storage services purchased from Consolidated Natural Gas (CNG) under its Rate Schedule GSS the costs of which are included in the rates and charges payable under Transco's Rate Schedule LSS, (2) storage services purchased from Texas Eastern Transmission Corporation (TETCO) under its Rate Schedule X-28 the costs of which are included in the rates and charges payable under Transco's Rate Schedule S-2 and (3) transportation services purchased from CNG under its Rate Schedule X-74 the costs of which are included in the rates and charges payable under Transco's Rate Schedule FT-NT. The tracking filing is being made pursuant to section 4 of Transco's Rate Schedule LSS, section 28 of the General Terms and Conditions of Volume No. 1 of Transco's FERC Gas Tariff and section 4 of Transco's Rate Schedule FT-NT.

Included in appendices B through D attached to the filing are explanations of the tracking rate changes and details regarding the computation of the revised LSS, S-2 and FT-NT rates.

Transco states that copies of the filing are being mailed to each of its customers and interested State Commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before March 10, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Linwood A. Watson, Jr.,
Acting Secretary.

[FR Doc. 92-5487 Filed 3-9-92; 8:45 am]
BILLING CODE 6717-01-M

[Docket No. RP92-137-000]

Transcontinental Gas Pipe Line Corp.; Proposed Changes in FERC Gas Tariff

March 3, 1992.

Take notice that Transcontinental Gas Pipe Line Corporation ("Transco") on March 2, 1992, tendered for filing certain tariff sheets to Second Revised Volume No. 1 and Original Volume No. 2 of its FERC Gas Tariff. The proposed changes would increase revenues from jurisdictional sales, transportation and storage services by approximately $234 million annually based upon the 12-month period ended November 30, 1991, as adjusted. The proposed effective date of the instant filing is April 10, 1992. However, Transco states that it anticipates that the Commission will suspend this filing for a period of up to five months. If so, Transco requests that the Commission shorten the maximum suspension so that the instant filing may take effect subject to refund on September 1, 1992. Transco states that a longer suspension period would create a situation of rate changes in mid-month on the Transco system during September 1992 which would complicate and disrupt business planning for producers and their customers who negotiate monthly gas prices based on a known and unchanging transmission rate. For this reason and because Transco has provided additional notice in order to facilitate the Commission's consideration of the instant filing, Transco states that there is ample justification for shortening the maximum suspension period.

Transco states that the principal causes of the rate increase are (1) increases in operating and maintenance expenses and depreciation expenses, (2) an increase in rate base, (3) an increase in the cost of capital and, (4) rate design related changes, specifically (i) with regard to the increase in firm transportation (FT) reservation charges, the adoption of Fixed-Variable (F-V) rate design, and (ii) with regard to the increase in the Non-Gas Demand Charge, an increase in costs allocated to such charge and a reduction in the quantity of firm service subscriptions to Transco's sales service.

Transco states that the principal changes in the instant filing compared to the currently effective methodologies are:

(1) The use of F-V rate design in compliance with the policy in the Mega-NOPR;
(2) The allocation of Transco's system storage flexibility purchased from CNG Transmission Corporation to transportation service (rather than to FS service) to assist in balancing service;

(3) The allocation of costs to Transco's FS service to account for FS service's annual injections into the Eminence storage field;
(4) Setting Transco's backhaul rate equal to the applicable forward haul rate (no fuel will be retained for backhauls); and
(5) The removal from Transco's X-Rate Schedule transportation rates of the costs associated with the part of the Eminence storage field reserved for emergency service for FT shippers.

In addition to the foregoing rate design and cost allocation changes, additional changes proposed in Transco's filing include (1) an increase in Transco's onshore depreciation rates which results in an increase in depreciation expense, and (2) a higher working capital allowance. Transco states that the increase in working capital is caused by the inclusion therein of the cost of the outstanding net amount of historical transportation imbalances between Transco and its shippers. In that regard, Transco states that it is proposing new tariff language to address the resolution of such historical transportation imbalances incurred prior to the August 1, 1991 implementation date of the "cash out" program which operates to resolve imbalances on a monthly basis. Transco has also proposed an electric power tracker.

Transco is also requesting that the Commission consolidate the instant rate filing with Transco's contemporaneous and related certificate filings in Docket Nos. CP92-378 and CP89-1916. In Docket No. CP92-378, Transco is proposing several programs designed to promote an efficient allocation of firm and interruptible capacity and to maintain proper incentives on pipeline management under F-V rate design. These programs are (1) an unregulated secondary market capacity on a firm or interruptible basis at unregulated rates in competition with the capcacity assignment program for market area FT capacity holders on the Transco system; (2) a capacity release program under which Transco could participate in the secondary market by negotiating with such FT capacity holders for firm capacity; (3) a Negotiated Transportation Services (NTS) Rate Schedule under which (i) Transco could remarket capacity purchased under the capacity release program or unutilized capacity on a firm interruptable basis at unregulated rates in competition with the capacity assignment program and (ii) current FT capacity holders could renegotiate the rates that they otherwise pay under Transco's FT Rate Schedule; and (4) an incentive ratemaking regime called "yardstick competition" under which Transco's ability to profit would be directly tied to its ability to establish and maintain costs at levels at or below industry average cost levels. In Docket No. CP89-1916, Transco is requesting that the Commission extend Transco's existing capacity assignment program regarding Transco's capacity on its upstream pipelines.

Transco states that copies of the filing were served upon Transco's customers and interested State Commissions. In accordance with the provisions of § 154.16 of the Commission's Regulations, copies of this filing are available for public inspection during regular business hours, in a convenient form and place in Transco's main office at 2800 Post Oak Boulevard in Houston, Texas.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with rule 211 and rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before March 19, 1992. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Linwood A. Watson, Jr.,

Acting Secretary.

BILLING CODE 6717-01-M

ENVIRONMENTAL PROTECTION AGENCY

[FRL-4113-9]

EPA Border Environmental Plan Public Advisory Committee

AGENCY: Environmental Protection Agency.

ACTION: Notice of establishment of the EPA border environmental plan public advisory committee and request for nominations to the advisory committee.

SUMMARY: Pursuant to section 9(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. app. 2 section 9(a)(2), EPA gives notice of the establishment of the EPA Border Environmental Plan Public Advisory Committee (the "Advisory Committee"), as called for by the recently-released Integrated Environmental Plan for the Mexican-U.S. Border Area (First Stage, 1992-1994) (the "Border Plan"). After consultation with the General Services Administration, EPA has determined that this action is necessary and in the public interest in connection with the performance of duties imposed on the Agency by law and its responsibilities under the Border Plan. EPA has also determined that the Advisory Committee will advise the Agency in its implementation of the Border Plan.

EPA is also requesting nominations from the public to the Advisory Committee. The Agency intends the membership of the Advisory Committee to include a balanced representation of interested persons with professional and personal qualifications and experience to contribute to the functions of the Advisory Committee. Accordingly, Advisory Committee membership will be drawn from: industry and business, Border Area community leaders, non-governmental organizations (including labor groups), local, state, national and binational environmental agencies, academia and the general public. Residence in the U.S. portion of the Border Area is desirable but not required.

INSTRUCTIONS FOR SUBMISSION OF NOMINATIONS TO EPA: Any member of the public or any interested organization may submit the names of qualified persons for consideration by EPA as potential members of the Advisory Committee. These nominees should be identified by name, occupation, organizational affiliation (if any), position (if any), address, and telephone number. All nominees will be requested to submit a resume of their background and qualifications and other relevant information to assist EPA in forming the Advisory Committee.

All nominations for membership on the Advisory Committee should be submitted to: Sylvia Correa, Office of International Activities, U.S. Environmental Protection Agency (A-106), 401 M Street, SW., Washington, DC 20460; telephone: (202) 260-4890; telefax: (202) 260-8512 or (202) 260-4470. All nominations must be received by EPA no later than March 25, 1992.

The Agency will not formally acknowledge or respond to nominations.

SUPPLEMENTARY INFORMATION: The EPA Border Environmental Plan Public Advisory Committee (the "Advisory Committee") will draw on the expertise of its members and other sources to provide advice and make recommendations to the EPA Administrator on environmental problems and issues arising in the U.S.-Mexico Border Area, identified as a 100 kilometer-wide area on either side of the U.S.-Mexico border. The establishment of the Advisory Committee (and the acceptance of nominees to membership on the Advisory Committee) represents one facet of EPA's efforts to implement the Integrated Environmental Plan for the Mexican-U.S. Border Area (First Stage, 1992-1994) (the "Border Plan") and, generally, to expand public involvement in Border Area environmental issues.

It is anticipated that the Committee will serve as a forum for the exchange of ideas and discussion on Border Area environmental problems. Its activities will include promoting information and technology transfer among industry, nongovernmental organizations, local state, national and binational environmental agencies.

The Committee will function solely as an advisory body, and will comply fully with the provisions of the Federal Advisory Committee Act.

The Advisory Committee will meet at least once a year. Such subcommittees as the Advisory Committee deems necessary will be formed. These subcommittees will hold meetings when the Advisory Committee considers it to be appropriate. No honoraria or salaries are available to members of the Advisory Committee or any of its subcommittees that may be formed. However, compensation for travel and expenses incurred in connection with attendance at meetings and other necessary Advisory Committee business will be provided upon request.

The initial meeting of the Advisory Committee will be held in Santa Fe, New Mexico, during the last week of June 1992.

FOR FURTHER INFORMATION CONTACT: Sylvia Correa at the above address, telephone or telefax numbers.

Dated: March 4, 1992.

Sylvia Correa,

Mexico Program Manager, Office of International Activities, U.S. Environmental Protection Agency.

[FR Doc. 92-5586 Filed 3-9-92; 8:45 am]

BILLING CODE 6560-50-M

Integrated Environmental Plan for the Mexican-U.S. Border Area

AGENCY: Environmental Protection Agency.

ACTION: Notice of Availability of the Integrated Environmental Plan for the Mexican-U.S. Border Area (First Stage, 1992-1994), EPA Summary of the Border Plan, and Public Comments on the Border Plan.

SUMMARY: On November 27, 1990, in Monterrey, Mexico, U.S. President George Bush and Mexican President Carolos Salinas de Gortari instructed the environmental agencies of both countries to design an integrated plan to solve the environmental problems along the U.S.-Mexico border. It was the intent of both Presidents that the Integrated Environmental Plan for the Mexican-U.S. Border Area (the Border Plan) involve the participation of the relevant government, business and academic institutions, and environmental organizations. The First Stage, 1992-1994, of the Border Plan has undergone extensive review by the U.S. Government, the Mexican Government, and state and local governments. Opportunity for comment on the draft plan has been given to the U.S. public, including non-governmental organizations, the regulated community, academic institutions, and interested individuals. EPA and SEDUE, EPA's Mexican counterpart agency, have now released the First Stage, 1992-1994, of the Border Plan.

AVAILABILITY OF PLAN AND EPA SUMMARY: Copies of the following documents are available to the public: (1) the English-language text of the Integrated Environmental Plan for the Mexican-U.S. Border Area (First Stage, 1992-1994); and (2) a summary of the Border Plan prepared by EPA. Any member of the public wishing to obtain copies of these documents is requested to contact: U.S. EPA Public Information Center, 401 M Street, SW., Washington DC 20460; Telephone: (202) 260-2080; Telefax: (202) 260-7883 or (202) 260-7884.

AVAILABILITY OF PUBLIC COMMENTS: In September 1991, EPA held a series of nine public hearings in the Border Area (**Federal Register** notices: Wednesday, August 14, 1991 (56 FR 40324); Wednesday, August 28, 1991 (56 FR 42614); and Tuesday, September 10, 1991 (56 FR 46179). Transcripts of these public hearings and all written comments received by EPA are available for public review at the following EPA library locations during the hours specified:

EPA Headquarters: EPA Library (INFOTERRA), Room Mall 2904, 401 M Street, SW., Washington, DC 20460. Telephone: (202) 260-5917; Telefax: (202) 260-7883 or (202) 260-7884. Library Hours: 8:30 a.m.-5 p.m.

EPA Region 6: EPA Library, 12th Floor, 1445 Ross Avenue, Dallas, Texas 75202. Telephone: (214) 655-6444; Telefax: (214) 655-2140. Library Hours: 8 a.m.-4:30 p.m. Contact Person: Leticia Lane.

EPA Region 9: EPA Library, 13th Floor, 75 Hawthorne Street, San Francisco, California 94105. Telephone: (415) 744-1510. Telefax: (415) 744-1474. Library Hours: 8:00 a.m.-5:00 p.m. Contact Person: Linda Sunnen.

ADDITIONAL QUESTIONS: All other questions concerning the Border Plan should be directed to: Richard Kiy, Special Assistant for U.S./Mexico Border Affairs, Office of International Activities (A-106), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460; Telephone: (202) 260-0791; Telefax: (202) 260-9653.

Approved by:

Timothy B. Atkeson,

Assistant Administrator for International Activities, U.S. EPA.

BILLING CODE 6560-50-M

[FRL-4113-6]

Acid Rain Advisory Committee; Subcommittee on Conservation Verification; Open Meeting

SUMMARY: In August of 1990, the U.S. Environmental Protection Agency gave notice of the establishment of an Acid Rain Advisory Committee (ARAC) which would provide advice to the Agency on issues related to the development and implementation of the requirements of the acid deposition control title of the Clean Air Act Amendments of 1990.

At its December 3-4, 1991 meeting, ARAC advised the establishment of a Subcommittee on Conservation Verification to provide advice on the development of conservation verification protocols for electric utility energy conservation programs under Title IV of the Clean Air Act Amendments of 1990. The protocols will be used to verify energy conservation and renewable energy reserve allowances under the proposed allowance system rule (40 CFR 73, subpart F) and reduced utilization provisions under the proposed permits rule (40 CFR 72, subpart D).

OPEN MEETING DATES AND ADDITIONAL INFORMATION: Notice is hereby given that the ARAC Subcommittee on Conservation Verification will hold its first open meeting on March 31 and April 1 from 9 a.m. to 5 p.m. at the Double Tree Hotel, 300 Army Navy Drive, Crystal City, VA (703) 892-4100. The meeting will include discussions of the likely format, length, timing, and data requirements for the development of conservation verification protocols, as well as an outline and preferred approach to the protocols and alternatives.

INSPECTION OF COMMITTEE DOCUMENTS: All documents for this meeting, including a more detailed meeting agenda will be publicly available in limited numbers at the meeting. Thereafter, these documents be available in EPA Air Docket Number A-

90–39 in room 1500 of EPA headquarters, 401 M Street SW., Washington, DC. Hours of inspection are 9:30 a.m. to 12 noon and 1:30 to 3:30 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Concerning the Subcommittee on Conservation Verification and its activities, contact Barry Solomon at (202) 260–4334.

Dated: March 3, 1992.

Eileen B. Clausen,

Director, Office of Atmospheric and Indoor Air Programs, Office of Air and Radiation.

BILLING CODE 6560–50–M

[FRL–4114–1]

Clean Air Act Advisory Committee; Special Meeting

SUMMARY: On November 8, 1990, the U.S. Environmental Protection Agency (EPA) gave notice of the establishment of a Clean Air Act Advisory Committee (CAAAC) (55 FR No. 217, 46993). This Committee was established pursuant to the Federal Advisory Committee Act (5 U.S.C. app I) to provide advice to the Agency on policy and technical issues related to the development and implementation of the requirements of the Clean Air Act Amendments of 1990.

OPEN MEETING DATE: Notice is hereby given that the Clean Air Act Advisory Committee will hold a special open meeting on March 31, 1992 from 10:30 a.m. to 4 p.m., at the J.W. Marriott Hotel, 1313 Pennsylvania Avenue, NW., Washington, DC. Seating will be available on a first come, first served basis.

The meeting is in support of the President's announcement of a 90-day federal regulatory review. The CAAAC will discuss the Office of Air and Radiation's regulatory review which is intended to identify opportunities to foster economic growth and reduce the regulatory burden without adversely affecting public health or the environment. Included in this discussion will be a summary of public comments received by EPA during the review period preceding this meeting. Following the CAAAC meeting, EPA officials will remain to hear comments from the public regarding issues related to the 90-day review and the Committee's discussion of them. This public comment period will last from approximately 4 p.m. to 5 p.m.

The recommendations of the CAAAC and the public will assist in selecting regulatory reform initiatives that could involve the modification of certain existing regulations. At the end of the 90-day period, the EPA will report the results of the review to the President.

INSPECTION OF COMMITTEE DOCUMENTS: Documents relating to the above noted topics will be publicly available at the meeting. Thereafter, these documents, together with the CAAAC meeting minutes will be available for public inspection in EPA Air Docket No. A–90–39 in room 1500 of EPA Headquarters 401 M Street, SW., Washington, DC. Hours of inspection are 8:30 a.m. to 12 noon and 1:30 to 3:30 p.m. Monday through Friday.

FOR FURTHER INFORMATION: Concerning this special meeting of the CAAAC please contact Mr. Paul Rasmussen, Office of Air and Radiation, US EPA (202) 260–7430, FAX (202) 260–4185, or by mail at US EPA, Office of Program Management Operations (ANR–443), Office of Air and Radiation, Washington, DC 20460.

Dated: March 4, 1992.

Thomas C. Kiernan,

Acting Assistant Administrator, Office of Air and Radiation.

BILLING CODE 6560–50–M

[FRL–4114–2]

Science Advisory Board

Environmental Health Committee; Open Meeting

Under Public Law 92–463, notice is hereby given that a meeting of the Environmental Health Committee of the Science Advisory Board will be held on April 7–8, 1992 at the Bethesda Holiday Inn, 8120 Wisconsin Ave., Bethesda MD 20814. The hotel telephone number is (301) 652–2000.

The meeting will start at 9 a.m. on April 7, and will adjourn no later than 5 p.m. April 8, and is open to the public. The main purpose of this meeting is to review the interim Superfund guidance for site health risk assessment guidance prepared by the Agency's Office of Solid Waste and Emergency Response (OSWER). The Committee will also receive briefings from the Office of Research and Development on approaches and progress on its reassessment of dioxin health risk, and from OSWER staff on methodologies for estimating population risks from hazardous waste sites (i.e., methods for making preliminary estimates of the number of people potentially at risk from uncontrolled releases from Superfund sites, and the risks these populations may experience).

The review of the draft Risk Assessment Guidance for Superfund Human Health Evaluation Manual (RAGS/HHEM), on April 8, will address four major issues: (1) Approaches for estimating the reasonable maximum exposure; (2) the procedures for dealing with risk estimation for multiple chemical exposures; (3) approaches for setting preliminary remediation goals; and (4) the interim methods used to determine short-term toxicity values. To obtain a copy of the RAGS/HHEM, or to receive specific information on this topic, please contact Mr. James Konz, Health Scientist, Toxics Integration Branch, OSWER (OS 230), U.S. Environmental Protection Agency, 401 M St., SW., Washington DC 20460. Mr. Konz may be called at (202) 260–9495. This document is not available from the Science Advisory Board.

An Agenda for the meeting is available from Mary Winston, Staff Secretary, Science Advisory Board (A101F), U.S. Environmental Protection Agency, Washington, DC 20460 (202–260–6552). Members of the public desiring additional information about the conduct of the meeting should contact Mr. Samuel Rondberg, Designated Federal Official, Environmental Health Committee, by telephone at the number noted above or by mail to the Science Advisory Board (A101F), U.S. EPA, 401 M Street, SW., Washington, DC 20460. Anyone wishing to make a presentation at the meeting should forward a written statement (20 copies) to Mr. Rondberg by March 27, 1992. The Science Advisory Board expects that the public statements presented at its meetings will not be repetitive of previously submitted written statements. In general, each individual or group making an oral presentation will be limited to a total time of ten minutes.

Dated: March 2, 1992.

Donald Barnes,

Staff Director, Science Advisory Board.

[FR Doc. 92–5591 Filed 3–9–92; 8:45 am]

BILLING CODE 6560–50–M

[OPPTS–44582; FRL–4051–7]

TSCA Chemical Testing; Receipt of Test Data

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the receipt of test data on 2-ethylhexanol (CAS No. 104–76–7), submitted pursuant to a final test rule under the Toxic Substances Control Act (TSCA).

Publication of this notice is in compliance with section 4(d) of TSCA.

FOR FURTHER INFORMATION CONTACT: David Kling, Acting Director, Environmental Assistance Division (TS–799), Office of Pollution Prevention and Toxics, Environmental Protection Agency, rm. E–543B, 401 M St., SW., Washington, DC 20460, (202) 554–1404, TDD (202) 554–0551.

SUPPLEMENTARY INFORMATION: Section 4(d) of TSCA requires EPA to publish a notice in the **Federal Register** reporting the receipt of test data submitted pursuant to test rules promulgated under section 4(a) within 15 days after it is received.

I. Test Data Submissions

Test data for 2-ethylhexanol were submitted by the Chemical Manufacturers Association on behalf of the test sponsors and pursuant to a test rule at 40 CFR 799.1645. They were received by EPA on February 11, 1992. The submission describes the oncogenic potential of 2-ethylhexanol in rats after administration by gavage (aqueous emulsion) for 18 months. Health effects testing is required by this test rule. This chemical is used as an intermediate for the production of ester derivatives of various acids, such as phthalic, adipic, and phosphoric acid, which are used as plasticizers; and to make ethylhexyl acrylate. It is also used as a wetting agent in the mercerization of cotton, as a defoamer in textile printing, as a solvent for gums and resins, as a solvent extractant, and as a miscellaneous chemical intermediate.

EPA has initiated its review and evaluation process for these data submissions. At this time, the Agency is unable to provide any determination as to the completeness of the submissions.

II. Public Record

EPA has established a public record for this TSCA section 4(d) receipt of data notice (docket number OPPTS–44582). This record includes copies of all studies reported in this notice. The record is available for inspection from 8 a.m. to 12 noon, and 1 p.m. to 4 p.m., Monday through Friday, except legal holidays, in the TSCA Public Docket Office, rm. NE–G004, 401 M St., SW., Washington, DC 20460.

Authority: 15 U.S.C. 2603.

Dated: March 2, 1992.

James B. Willis,

Acting Director, Existing Chemical Assessment Division, Office of Pollution Prevention and Toxics.

[FR Doc. 92–5592 Filed 3–9–92; 8:45 am]

BILLING CODE 6560–50–F

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collection Requirements Submitted to Office of Management and Budget for Review

March 3, 1992.

The Federal Communications Commission has submitted the following information collection requirements to OMB for review and clearance under the Paperwork Reduction Act of 1980 (44 U.S.C. 3507).

Copies of these submissions may be purchased from the Commission's copy contractor, Downtown Copy Center, 1114 21st Street, NW., Washington, DC 20036, (202) 452–1422. For further information on these submissions contact Judy Boley, Federal Communications Commission, (202) 632–7513. Persons wishing to comment on these information collections should contact Jonas Neihardt, Office of Management and Budget, room 3235 NEOB, Washington, DC 20503, (202) 395–4814.

OMB Number: 3060–0450.

Title: Detariffing the Installations and Maintenance of Inside Wiring Services; Reports on State Regulatory Activities (Third Report and Order, CC Docket No. 79–105).

Action: Revised collection.

Respondents: Business or other for-profit.

Frequency of Response: On occasion reporting.

Estimated Annual Burden: 68 responses; 2 hours average burden per response; 136 hours total annual burden.

Needs and Uses: Certain local exchange carriers (LECs) are required to file copies of any state statute, rule, order or other document that regulates, or proposes to regulate, the prices for inside wiring services. The attached Third Report and Order requires that only one LEC need file any document that applies to more than one LEC having annual operating revenues of $100 million or more. The filing LEC would be the LEC to which the document applies that serves the greatest number of access lines within the relevant state. The information to be filed by the LECs will be used by the Commission to monitor the activities of state agencies that desire to impose price regulation for inside wiring services provided by telephone companies. The information is required to help ensure that such actions do not impede federal policies.

OMB Number: 3060–0361.

Title: Section 80.29, Change during license term.

Action: Extension of a currently approved collection.

Respondents: Individuals or households, state or local governments, non-profit institutions, businesses or other for-profit (including small businesses).

Frequency of Response: On occasion reporting.

Estimated Annual Burden: 250 responses; 1 hour average burden per response; 250 hours total annual burden.

Needs and Uses: The reporting requirement contained in this rule section is necessary to comply with section 303 of the Communications Act of 1934, as amended. When the name or mailing address of a license is changed during the license term, the FCC must be notified in order that the license files and data base remain accurate as to who the licensees are and where they can be located. The information is used by FCC personnel to update the coast and ship station license files and data base concerning the concurrent name and address of licensees. Information concerning changes in names of vessels is also used to update the ITU List of Ship Stations which is used by ship stations and coast stations of all nations. If this data were not collected the station license files and data base would become inaccurate and the ability to contact licensees would deteriorate.

OMB Number: 3060–0362.

Title: Section 80.401, Station documents requirement.

Action: Extension of a currently approved collection.

Respondents: Individuals or households, state or local governments, non-profit institutions, business or other for-profit (including small businesses).

Frequency of Response: Recordkeeping requirement.

Estimated Annual Burden: 10,208 recordkeepers; 4.33 hours average burden per recordkeeper; 44,200 hours total annual burden.

Needs and Uses: The recordkeeping requirements contained in this rule section are necessary to implement the documentation requirements for radiotelephone equipped vessels and radiotelegraph equipped vessels contained in appendix 11 of the international Radio Regulations and insure that public coast radiotelephony and radio telegraph stations are properly licensed and equipped to carry on domestic and international ship-to-shore public correspondence service. If this documentation were not available, enforcement efforts would suffer, treaty requirements would not be complied with, and efficiency and safety of maritime operations could deteriorate.

Federal Communications Commission.
Donna R. Searcy,
Secretary.
[FR Doc. 92-5585 Filed 3-9-92; 8:45 am]
BILLING CODE 6712-01-M

FEDERAL MARITIME COMMISSION

Jacksonville Port Authority et al.; Agreement(s) Filed

The Federal Maritime Commission hereby gives notice of the filing of the following agreement(s) pursuant to section 5 of the Shipping Act of 1984.

Interested parties may inspect and obtain a copy of each agreement at the Washington, DC Office of the Federal Maritime Commission, 1100 L Street NW., room 10325. Interested parties may submit comments on each agreement to the Secretary, Federal Maritime Commission, Washington, DC 20573, within 10 days after the date of the **Federal Register** in which this notice appears. The requirements for comments are found in § 572.603 of title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the Commission regarding a pending agreement.

Agreement No.: 224-200147-004.

Title: Jacksonville Port Authority/Sea-Land Service, Inc. Terminal Agreement.

Parties:

Jacksonville Port Authority ("JPA")
Sea-Land Service, Inc. ("Sea-Land").

Synopsis: The proposed Agreement permits Sea-Land to exercise its option on the use of a ten acre parcel in five acre segments, either singly or together, and provides for JPA to upgrade facilities available to Sea-Land rather than to construct a new warehouse facility.

Agreement No.: 224-200628.

Title: L.A. Cruise Ship Terminals, Inc./Costa Cruise Lines Terminal Use Agreement.

Parties:

L.A. Cruise Ship Terminals, Inc. ("LACST")
Costa Cruise Lines ("CCL").

Synopsis: This Agreement, filed March 2, 1992, provides that LACST will furnish various facilities and services to CCL for, and with respect to, passenger vessels owned and operated by CCL. The facilities being furnished are located in Los Angeles Harbor (as described in Permit Nos. 506 and 684).

Dated: March 4, 1992.

By Order of the Federal Maritime Commission.
Joseph C. Polking,
Secretary.
[FR Doc. 92-5500 Filed 3-9-92; 8:45 am]
BILLING CODE 6730-1-M

FEDERAL RESERVE SYSTEM

Consumer Advisory Council; Meeting

The Consumer Advisory Council will meet on Thursday, March 26. The meeting, which will be open to public observation, will take place in Terrace Room E of the Martin Building. The meeting is expected to begin at 9 a.m. and to continue until 4 p.m., with a lunch break from 1 until 2 p.m. The Martin Building is located on C Street, Northwest, between 20th and 21st Streets in Washington, DC.

The Council's function is to advise the Board on the exercise of the Board's responsibilities under the Consumer Credit Protection Act and on other matters on which the Board seeks its advice. Time permitting, the Council will discuss the following topics:

Truth in Savings Act. Discussion led by the Depository and Delivery Systems Committee on issues regarding the Board's implementation of the Truth in Savings Act, which requires lenders to disclose to consumers interest rates, yields and other terms on various savings instruments.

Electronic Benefits Transfer Programs. Discussion led by the Depository and Delivery Systems Committee on how electronic benefits transfer programs for recipients of public assistance should be treated under the Board's consumer protection regulation governing electronic fund transfers.

Availability of Appraisal Reports to Mortgage Applicants. Discussion of issues regarding the Board's implementation of recent amendments to the Equal Credit Opportunity Act that give mortgage loan applicants the right to receive from lenders copies of appraisal reports on properties associated with their loans.

Home Equity Lending Disclosures. Discussion led by the Consumer Credit Committee on regulatory provisions (currently under review by the Board) on how lenders must disclose discounted initial rates and payment examples for home equity lines of credit.

Members Forum. Presentation of individual Council members' views relating to the President's request for a review of existing and proposed regualtions, designed to minimize unnecessary burdens and foster economic growth. In particular, the Council will consider the regulatory burden associated with the Board's consumer financial protection regulations and the willingness of consumers to "pay" for protections.

Council Member Perspectives. Remarks by Council members identifying special areas of importance and concern to their organizations regarding the provision of financial services to consumers and communities.

Committee Reports. Reports from Council committees on their work and plans for 1992.

Other matters previously considered by the Council or initiated by Council members may also be discussed.

Persons wishing to submit to the Council their views regarding any of the above topics may do so by sending written statements to Ann Marie Bray, Secretary, Consumer Advisory Council, Division of Consumer and Community Affairs, Board of Governors of the Federal Reserve System, Washington, DC 20551. Comments must be received no later than close of business Friday, March 20, and must be of a quality suitable for reproduction.

Information with regard to this meeting may be obtained from Bedelia Calhoun, Staff Specialist, Consumer Advisory Council, Division of Consumer and Community Affairs, Board of Governors of the Federal Reserve System, Washington, DC 20551, (202) 452-2412. Telecommunications Device for the Deaf (TDD) users may contact Dorothea Thompson, (202) 452-3544.

Board of Governors of the Federal Reserve System, March 5, 1992.
William W. Wiles,
Secretary of the Board.

BILLING CODE 6201-01-M

FEDERAL TRADE COMMISSION

[Docket C-3371]

Excell Mortgage Corporation; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.
ACTION: Consent order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order requires, among other things, a New Jersey corporation to accurately calculate and disclose the annual percentage rate, finance charge, payment schedule and other information required by Regulation Z. The order also requires respondent to make adjustments to the accounts of consumers extended an adjustable rate mortgage on or after January 1, 1987, and before January 1, 1990, and who had an open loan as of April 1, 1991, to whom it disclosed annual percentage rates (APRs) that were miscalculated by more then ¼ of one percentage point below the APR determined in accordance with Regulation Z.

DATES: Compliant and Order issued February 26, 1992.[1]

FOR FURTHER INFORMATION CONTACT: Carole Reynolds, FTC/S-4429, Washington, DC 20580. (202) 326-3230.

SUPPLEMENTARY INFORMATION: On Friday, September 27, 1991, there was published in the **Federal Register**, 56 FR 49185, a proposed consent agreement with analysis In the Matter of Excell Mortgage Corporation, for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions or objections regarding the proposed form of the order.

A comment was filed and considered by the Commission. The Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered an order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or apply sec. 5, 38 Stat. 719, as amended; 82 Stat. 146, 147; (12 CFR part 226) of the Truth in Lending Act; Pub. L. 90-321, 15 U.S.C. 45, 1601, *et seq.*)

[Docket 9241]

Tower Loan of Mississippi, Inc.; Prohibited Trade Practices and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.
ACTION: Consent order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order requires, among other things, the respondent to: accurately disclose the annual percentage rate, finance charge, and amount financed in accordance with the Truth in Lending Act; offer its customers an opportunity to cancel the credit insurance written on their loans and to obtain cash refunds or credits to their accounts; and provide future customers with a separate disclosure that sets out the costs of the loan with and without credit insurance and that emphasizes that the purchase of credit insurance is not required as a condition to obtaining a loan.

DATES: Complaint issued June 27, 1990. Order issued February 10, 1992.[1]

FOR FURTHER INFORMATION CONTACT: Sandra Wilmore or Stephen Cohen, FTC/S-4429, Washington, DC 20580. (202) 326-3169 or 326-3222.

SUPPLEMENTARY INFORMATION: On Wednesday, November 13, 1991, there was published in the **Federal Register**, 56 FR 57656, a proposed consent agreement with analysis In the Matter of Tower Loan of Mississippi, Inc., for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions or objections regarding the proposed form of the order.

A comment was filed and considered by the Commission. The Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered an order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

BILLING CODE 6750-01-M

Disclosure Requirements and Prohibitions Concerning Franchising and Business Opportunity Ventures

AGENCY: Federal Trade Commission.
ACTION: Invitation to Comment on Requested Exemption from Trade Regulation Rule.

SUMMARY: The commission is requesting public comment with respect to a request from Porsche Cars North America, Inc. for an exemption from the requirements of the franchise rule.

DATE: Written comments will be accepted until May 11, 1992.

ADDRESS: Comments may be filed in person or mailed to: Secretary, Federal Trade Commission, 6th & Pennsylvania Avenue, NW., Washington, DC 20580. Requests for copies of the petition and the franchise rule should be directed to the Public Reference Branch, room 130. (202) 326-2222.

FOR FURTHER INFORMATION CONTACT: Elizabeth Grant, Attorney, PC-H-238, Federal Trade Commission, Washington, DC 20580 (202) 326-3299.

SUPPLEMENTARY INFORMATION: On December 21, 1978, the Federal Trade Commission promulgated a trade regulation rule entitled "Disclosure Requirements and Prohibitions Concerning Franchising and Business Opportunity Ventures" (16 CFR part 436) ("the Rule"). In general, the Rule provides for pre-sale disclosure to prospective franchisees of important information about the franchisor, the franchise business and the terms of the proposed franchise relationship. A summary of the Rule is available from the FTC Public Reference Branch, room 130, upon request.

Section 18(g) of the Federal Trade Commission Act provides that any person or class of persons covered by a trade regulation rule may petition the Commission for an exemption from such rule, and if the Commission finds that the application of such rule to any person or class of persons is not necessary to prevent the unfair or deceptive act or practice to which the rule relates, the Commission may exempt such person or class from all or any part of the rule.

Porsche Cars North America, Inc., a Delaware corporation, filed a petition for exemption pursuant to section 18(g) on October 22, 1991. Briefly stated, Petitioner alleges that an exemption should be granted to Porsche because: (1) Porsche dealers will be extremely sophisticated business persons; (2) Porsche dealers will have dual or multiple franchises with other automobile companies exempted from the rule; (3) prospective dealers and their advisors will have more than adequate time to review the dealer agreement and other information; (4) given their experience and sophistication, prospective dealers will be well-acquainted with the automobile industry and all relevant facts about the dealership; (5) dealer associations have supported or not opposed previous exemption petitions; and (6) failure to grant the petition would place Porsche Cars North America, Inc. at a

[1] Copies of the Complaint and the Decision and Order are available from the Commission's Public Reference Branch, H-130, 6th Street & Pennsylvania Avenue, NW., Washington, DC 20580.

[1] Copies of the Complaint and the Decision and Order are available form the Commission's Public Reference Branch, H-130, 6th Street & Pennsylvania Avenue, NW., Washington, DC 20580.

competitive disadvantage in view of the other exemptions the Commission has granted.

For a complete presentation of the arguments submitted by Petitioner, please refer to the full text of the petition, which can be obtained from the FTC Public Reference Branch, room 130, upon request.

In assessing the present exemption request, the Commission would like comments on all relevant issues germane to the proceeding, including the following: (1) Is there any evidence to indicate that Petitioner may engage in unfair or deceptive acts or practices in the offer and sale of motor vehicle franchises? (2) If not, is it in the public interest to exempt it from coverage under the Franchise Rule?

The Commission has analyzed the arguments made by Petitioner and concluded that further inquiry is warranted before a determination regarding the petition can be made. The Commission, therefore, seeks comment regarding the exemption requested by Petitioner.

All interested parties are hereby notified that they may submit written data, views or arguments on any issues of fact, law or policy that may have some bearing on the requested exemption, whether or not such issues have been raised by the petition or in this notice. Such submissions may be made for sixty days to the Secretary of the Commission.

Comments should be identified as "Porsche Franchise Rule Exemption Comment," and two copies should be submitted, if possible.

By direction of the Commission.

Donald S. Clark,

Secretary.

BILLING CODE 6750-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service, Centers for Disease Control; Statement of Organization, Functions, and Delegations of Authority

Part H, Chapter HC (Centers for Disease Control) of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health and Human Services (45 FR 67772-67776, dated October 14, 1980, and corrected at 45 FR 69296, October 20, 1980, as amended most recently at 56 FR 32583 dated July 17, 1991) is amended to reflect the following changes within the International Health Program Office: (1) Revision of the mission statement for the International Health Program Office, and (2) revision of the functional statement for the Office of the Director.

Section HC-G, Organization and Functions, is hereby amended as follows:

1. Delete in its entirely the functional statement for the *International Health Program Office (HCG)* and substitute the following:

Within the framework of the overall mission of the Centers for Disease Control and under the direction of the Assistant Director for International Health, contributes to the establishment of overall organizational policies and goals related to improvements in international health through the following activities: (1) Provides consultation to and participates with other nations, other U.S. agencies, and international agencies in preventing and controlling diseases and environmental health problems and developing and applying health promotion and health education activities; (2) in cooperation with Ministries of Health, identifies and develops activities where CDC provision of technical and scientific expertise can be used for maximum public health benefit; (3) coordinates the provision of CDC expertise and resources to developing countries to help them build national infrastructure and capacity in disease prevention and control; (4) coordinates and conducts applied research addressing key technical issues confronting intervention programs in developing countries; assists in developing national capacity to carry out operational research; provides decisionmakers with scientifically sound, cost-effective research results to promote appropriate national policy decisions in developing countries; (5) participates in disease prevention and control programs designed to decrease the risk of disease importation into the U.S.; (6) coordinates requests for international assistance for natural and man-made disasters, refugee relief, and epidemic assistance; (7) coordinates bilateral health agreements between CDC and foreign governments; (8) maintains liaison with the PHS Office of International Health and other agencies involved in international health activities such as USAID, WHO, PAHO, UNICEF, the World Bank, private voluntary organizations, and international academic institutions; (9) receives and orients foreign visitors to the Centers for Disease Control; (10) manages and coordinates internal efforts to increase CDC's institutional capacity of address international health issues; (11) manages technical assistance activities where the CIOs have no clear responsibility; assists other CIOs with administrative and management of international activities; (12) in carrying out the above functions, collaborates with the Centers and Offices of the CDC.

2. Delete in its entirety the functional statement for the *Office of the Director (HCG1)* and substitute the following:

(1) Manages, directs, and coordinates the activities of the International Health Program Office (IHPO); (2) provides leadership in developing IHPO policy, program planning, implementation, and evaluation; (3) facilities development of international activities with benefit CDC programs and the United States; (4) assists other nations to improve their public health infrastructure; (5) takes the lead in developing initiatives to improve CDC's and IHPO's ability to conduct international health activities; (6) works with other government agencies, international organizations, private voluntary organizations, and academic institutions engaged in international health activities; (7) coordinates CDC-wide support for child survival activities fund by USAID, WHO, AND UNICEF; (8) provides general policy direction and guidance to the office of Administrative Services and the Information Resources Management Activity, IHPO; (9) ensures scientific and technical quality of IHPO programs; (10) advises the Assistant Director for International Health on policy matters concerning IHPO activities and on the coordination of CDC-wide international health activities.

Dated: February 29, 1992.

Louis W. Sullivan,

Secretary.

BILLING CODE 4160-18-M

Agency for Health Care Policy and Research

Public Meeting on the Clinical Practice Guideline for Treatment of Stage Two and Greater Pressure Ulcers

The Agency for Health Care Policy and Research (AHCPR) announces that a public meeting will be held on the clinical practice guideline for treatment of stage two and greater pressure ulcers. The guideline will address the most appropriate and effective methods of treatment for pressure ulcers. The guideline is under development by a panel of experts and health care consumers. A Notice announcing the development of the first seven sets of clinical practice guidelines and inviting written comments was published in the

Federal Register on August 28, 1990 (55 FR 35185).

In addition to the solicitation of written material through the Federal Register, a series of public meetings is being held to provide an opportunity for interested parties to contribute relevant information and comments concerning the particular guidelines under development.

A public meeting to address the guideline for the treatment of stage two and greater pressure ulcers will be held on April 9, 1992, as follows: Thursday, April 9, 1992, in Washington, DC, 8:30 a.m. to 11:30 a.m., Sheration Washington Hotel, 2660 Woodley Road at Connecticut Avenue, NW., Washington, DC 20008, Phone: 202-328-2000.

Background

The Omnibus Budget Reconciliation Act of 1989 (Pub. L. 101-239) enacted on December 19, 1989, added a new Title IX to the Public Health Service Act (the Act) (42 U.S.C. 299-299c-6), which established the Agency for Health Care Policy and Research (AHCPR) to enhance the quality, appropriateness, and effectiveness of health care services, and access to such services.

Section 911 of the Act (42 U.S.C. 299b) established within AHCPR, the Office of the Forum for Quality and Effectiveness in Health Care (the Forum). Through this office, AHCPR is arranging for the development and periodic review and updating of clinically relevant guidelines that may be used by physicians, educators, other health care practitioners, and consumers to assist in determining how diseases, disorders, and other health conditions can most effectively and appropriately be prevented, diagnosed, treated, and managed clinically.

Section 912 of the Act (42 U.S.C. 299b-1(d)) provides for the development of initial guidelines, standards, performance measures, and review criteria that:

1. Account for a significant portion of expenditures under the Medicare program, and have a significant variation in the frequency or the type of treatment provided; or

2. Otherwise meet the needs and priorities of the Medicare program.

Section 914 of the Act (42 U.S.C. 299b—3(a)) identifies factors to be considered in establishing priorities for guidelines, including the extent to which the guidelines would:

1. Improve methods of prevention, diagnosis, treatment, and clinical management, and thereby benefit a significant number of individuals;

2. Reduce clinically significant variations among clinicians in the particular services and procedures utilized in making diagnoses and providing treatments; and

3. Reduce clinically significant variations in the outcomes of health care services and procedures.

The following topics were selected in 1990 for guidelines development:

1. Management of Functional Impairment Due to Cataract in the Adult.
2. Diagnosis and Treatment of Benign Prostatic Hyperplasia.
3. Urinary Incontinence in Adults.
4. Prediction, Prevention, and Early Intervention of Pressure Ulcers.
5. Sickle Cell Disease.
6. Acute Pain Management: Operative or Medical Procedures and Trauma.
7. Diagnosis and Treatment of Depressed Outpatients in Primary Care Settings.

In 1991, the following additonal topics were selected for guidelines development by panels of experts and consumer representatives arranged for by AHCPR:

1. Management of Cancer-Related Pain.
2. Treatment of Stage II and Greater Pressure Ulcers.
3. HIV Positive Asymptomatic Patient: Evaluation and Early Intervention.
4. Low Back Problems.
5. Development of Quality Determinants of Mammography.
6. Screening for Alzheimer's and Related Dementias.

Also in 1991, three topics were selected for guidelines development by contractors, with assistance from panels of experts and consumer representatives:

1. Otitis Media in Children.
2. Diagnosis and Treatment of Heart Failure Secondary to Coronary Vascular Disease.
3. Post Stroke Rehabilitation.

Responsibilities of the expert panels and contractors, assisted by contract panels, include determination of the scope of the guidelines, assessment of the available scientific evidence and clinical consensus, and conducting peer review of drafts of the guidelines.

Thus far, public meetings of panels to solicit information and comments from interested parties have been held with respect to benign prostatic hyperplasia, depression, management of post-operative and cancer pain, pressure ulcers prevention, urinary incontinence, sickle cell disease, and cataracts.

Arrangements for the April 9 Public Meeting on Treatment of Stage Two and Greater Pressure Ulcers.

Representatives of organizations and other individuals are invited to provide relevant written comments and information and make a brief (5 minutes or less) oral statement to the panel. Mikalix and Company (M&C), the organization which provides logistical and technical support to the panels, is making the administrative arrangements for this public meeting on behalf of the panel. Individuals and representatives who would like to attend must register with M&C at the address set out below by March 20, 1992, and indicate whether they plan to make an oral statement. Those wishing to make oral statements and provide written comments and information should also submit copies of these to M&C by March 20. If more requests to make oral statements are received than can be accommodated between 8:30 a.m. and 11:30 a.m. on April 9, the chairperson will allocate speaking time in a manner which ensures, to the extent possible, that a range of views of health care professionals and providers, health care consumers, product manufacturers, and pharmaceutical manufacturers, is presented. Those who cannot be granted their requested speaking time because of time constraints can be assured that their written comments will be considered by the panel in developing the guideline.

Registration should be made with and written materials submitted to the following address: Mikalix and Company, Attn: Mary Ann Freshour, 404 Wyman Street, suite 375, Waltham, Massachusetts 02154-1210, Phone: 617-290-0090, Fax: 617-290-0180.

Dated: March 4, 1992.

J. Jarrett Clinton,

Administrator.

BILLING CODE 4160-90-M

Centers for Disease Control

Advisory Committee for Energy Related Epidemiologic Research; Establishment

Pursuant to Federal Advisory Committee Act, 5 U.S.C. appendix 2, the Centers for Disease Control (CDC) announces the establishment by the Secretary of Health and Human Services (HHS), on February 29, 1992, of the following Federal advisory committee:

DESIGNATION: Advisory Committee for Energy-Related Epidemiologic Research.

SUPPLEMENTARY INFORMATION: The Secretary of Energy established an advisory committee to make recommendations on strengthening the

Department of Energy's (DOE) epidemiologic research activities. This distinguished committee recommended that DOE enter into a Memorandum of Understanding (MOU) with HHS to manage and conduct analytic epidemiologic research (studies which test hypotheses). The Secretary of Energy agreed with the Committee's recommendations and requested that HHS enter into an MOU for implementation. The MOU recommended the establishment of an Advisory Committee for Energy-Related Epidemiologic Research.

PURPOSE: The Advisory Committee for Energy-Related Epidemiologic Research will advise and make recommendations to the Secretary, HHS, the Assistant Secretary for Health, the Director, CDC, and the Administrator, Agency for Toxic Substances and Disease Registry, on establishment of a research agenda and the conduct of a research program pertaining to energy-related analytic epidemiologic studies. The Committee will take into consideration information and proposals provided by DOE, and advisory committee which will be established by DOE under the guidelines of the MOU, and other agencies and organizations, regarding the direction HHS should take in establishing the research agenda and in the development of a research plan.

Authority for this committee will expire February 29, 1994, unless the Secretary of HHS, with the concurrence of the Committee Management Secretariat, General Services Administration, formally determines that continuance is in the public interest.

Dated: March 4, 1992.

Elvin Hilyer,

Associate Director for Policy Coordination, Centers for Disease Control.

BILLING CODE 4160-18-M

Food and Drug Administration

[Docket No. 92F-0015]

GE Silicones; Filing of Food Additive Petition

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that GE Silicones has filed a petition proposing that the food additive regulations be amended to provide for the safe use of polyoxyethylene-grafted polydimethylsiloxane as a flow-control agent in silicone coatings intended for use in contact with food.

FOR FURTHER INFORMATION CONTACT: Helen R. Thorsheim, Center for Food Safety and Applied Nutrition (HFF-335), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-254-9511.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5) (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 2B4302) has been filed by GE Silicones, c/o Hyman, Phelps and McNamara, 1120 G St. NW., Washington, DC 20005. The petition proposes to amend the food additive regulations in § 175.300 *Resinous and polymeric coatings* (21 CFR 175.300) to provide for the safe use of polyoxyethylene-grafted polydimethylsiloxane as a flow-control agent in silicone coatings intended for use in contact with food.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c).

Dated: February 27, 1992.

Fred R. Shank,

Director, Center for Food Safety and Applied Nutrition.

[Docket No. 92F-0055]

Miles, Inc.; Filing of Food Additive Petition

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice

SUMMARY: The Food and Drug Administration (FDA) is announcing that Miles, Inc., has filed a petition proposing that the food additive regulations be amended to provide for the safe use of dimethyl dicarbonate as a yeast inhibitor in ready-to-drink tea beverages.

FOR FURTHER INFORMATION CONTACT: Rosalie M. Angeles, Center for Food Safety and Applied Nutrition (HFF-334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-254-9515.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5) (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 2A4310) has been filed by Miles, Inc., Mobay Rd., Pittsburg, PA 15205-9741. The petition proposes to amend the food additive regulations in § 172.133 *Dimethyl dicarbonate* (21 CFRF 172.133) to provide for the safe use of dimethyl dicarbonate as a yeast inhibitor in ready-to-drink tea beverages.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c).

Dated: February 27, 1992.

BILLING CODE 4160-01-M

[Docket No. 90P-0193]

Cottage Cheese Deviating From Identity Standard; Extension and Amendment of Temporary Permit for Market Testing

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the extension and amendment of a temporary permit issued to the The Kroger Co., to market test a product designated as "nonfat cottage cheese" the deviates from the U.S. standards of identity for cottage cheese (21 CFR 133.128), dry curd cottage cheese (21 CFR 133.129), and lowfat cottage cheese (21 CFR 133.131). These actions will allow the permit holder to continue experimental market testing of the product while the agency takes action on a petition to establish a new standard of identity for "nonfat cottage cheese."

DATES: The new expiration date of the permit will be either the effective date of a final rule which may result from the petition, or 30 days after termination of such rulemaking.

FOR FURTHER INFORMATION CONTACT: Margaret E. Cole, Center for Food Safety and Applied Nutrition (HFF-414), Food and Drug Administration, 200 C St. SW., Washington, DC, 20204, 202-485-0343.

SUPPLEMENTARY INFORMATION: In accordance with 21 CFR 130.17 concerning temporary permits to facilitate market testing of foods deviating from the requirements of the standards of identity promulgated under section 401 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341), a temporary permit was issued to The Kroger Co., 1014 Vine St., Cincinnati, OH 45202-1100, to market test a product designated as "nonfat cottage cheese" that deviates from the U.S. standards of identity for cottage cheese (21 CFR 133.128), dry curd cottage cheese (21 CFR 133.129), and lowfat cottage cheese (21 CFR 133.131). Notice of issuance of the temporary permit to The Kroger Co., was published in the **Federal Register** of August 9, 1990 (55 FR 32473). The temporary permit was amended August 23, 1991 (56 FR 41850) to include additional container sizes and to change the milkfat content of the test product to less than 0.4 percent.

The Kroger Co. has requested that the temporary permit be extended so that the market test period can continue while agency action on a petition to establish a new standard of identity for "nonfat cottage cheese" proceeds. The permit holder also requested that their existing temporary permit be amended as follows: (1) to provide for market testing of 4,535,147 kilograms (kg) (10,000,000 pounds (lb)) of the test product in 1992 and 5,442,177 kg (12,000,000 lb) in 1993 and (2) to include a 425-gram (15-ounce) container size of nonfat cottage cheese not specified in the firm's previous temporary marketing permit (August 9, 1990, 55 FR 32473), as amended (August 23, 1991, 56 FR 41850).

The Kroger Co., in accordance with 21 CFR 130.17(i), submitted a petition from the Milk Industry Foundation (MIF) to establish a new standard of identity for "nonfat cottage cheese" at the same time the application for an extension and amendment was submitted. FDA is inviting interested persons to participate in the market test under the conditions that apply to The Kroger Co., including the labeling requirements and the amounts of test product to be distributed, except that the designated area of distribution shall not apply.

Any person who wishes to participate in the extended market test must motify, in writing, the Acting Director, Division of Food Chemistry and Technology (HFF-410), Center for Food Safety and Applied Nutrition, Food and Drug Administration, 200 C St. SW., Washington, DC 20204. The notification must include the amount of test product to be distributed, the area of distribution, and the labeling that will be used for the test product (i.e., a label for each size of container and each brand of product to be test marketed).

Therefore, under the provision of 21 CFR 130.17(i), FDA is extending the expiration date of the permit so that the permit expires either on the effective date of a final rule which may result from the petition, or 30 days after termination of such relemaking. All other conditions and terms of this permit remain the same.

Dated: February 24, 1992.

Fred R. Shank,

Director, Center for Food Safety and Applied Nutrition.

ADDRESSES: Submit written comments to the Dockets Management Branch (HFA-305), Food and Drug Administration, rm. 1-23, 12420 Parklawn Dr., Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Nega Beru, Center for Food Safety and Applied Nutrition (HFF-334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-254-9519.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409 (21 U.S.C. 321(s), 348)) and the regulations for affirmation of GRAS status in § 170.35 (21 CFR 170.35), notice is given that the law offices of Patton, Boggs & Blow, on behalf of Opta Food Ingredients, Inc., have filed a petition (GRASP 2G0386) proposing that 4-hexylresorcinol be affirmed as GRAS as a direct human food ingredient for the prevention of melanosis in shrimp. The petition has been placed on display at the Dockets Management Branch (address above).

Any petition that meets the requirements outlined in §§ 170.30 and 170.35 (21 CFR 170.30 and 170.35) is filed by the agency. There is no prefiling review of the adequacy of data to support a GRAS conclusion. Thus, the filing of a petition for GRAS affirmation should not be interpreted as a preliminary indication of suitability for GRAS affirmation.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c).

Interested persons may, on or before May 11, 1992, review the petition and/or file comments (two copies, identified with the docket number found in brackets in the heading of this document) with the Dockets Management Branch (address above). Comments should include any available information that would be helpful in determining whether the substance is, or is not, GRAS for the proposed use. A copy of the petition and received comments may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Dated: February 27, 1992.

Fred R. Shank,

Director, Center for Food Safety and Applied Nutrition.

BILLING CODE 4160-01-M

[Docket No. 91E-0491]

Determination of Regulatory Review Period for Purposes of Patent Extension; Pravachol®

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) has determined the regulatory review period for Pravachol® and is publishing this notice of that determination as required by law. FDA has made the determination because of the submission of an application to the Commissioner of Patents and Trademarks, Department of Commerce, for the extension of a patent which claims that human drug product.

ADDRESSES: Written comments and petitions should be directed to the Dockets Management Branch (HFA-

305), Food and Drug Administration, rm. 1-23, 12420 Parklawn Dr., Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Joel Sparks, Office of Health Affairs (HFY-20), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-1382.

SUPPLEMENTARY INFORMATION: The Drug Price Competition and Patent Term Restoration Act of 1984 (Pub. L. 98-417) and the Generic Animal Drug and Patent Term Restoration Act (Pub. L. 100-670) generally provide that a patent may be extended for a period of up to 5 years so long as the patented item (human drug product, animal drug product, medical device, food additive, or color additive) was subject to regulatory review by FDA before the item was marketed. Under these acts, a product's regulatory review period forms the basis for determining the amount of extension an applicant may receive.

A regulatory review period consists of two periods of time: a testing phase and an approval phase. For human drug products, the testing phase begins when the exemption to permit the clinical investigations of the drug becomes effective and runs until the approval phase begins. The approval phase starts with the initial submission of an application to market the human drug product and continues until FDA grants permission to market the drug product. Although only a portion of a regulatory review period may count toward the actual amount of extension that the Commissioner of Patents and Trademarks may award (for example, half the testing phase must be subtracted as well as any time that may have occurred before the patent was issued), FDA's determination of the length of a regulatory review period for a human drug product will include all of the testing phase and approval phase as specified in 35 U.S.C. 156(g)(1)(B).

FDA recently approved for marketing the human drug product Pravachol®. Pravachol® (pravastatin sodium) is indicated as an adjunct to diet for the reduction of elevated total and LDL-cholesterol levels in patients with primary hypercholesterolemia when the response to a diet restricted in saturated fat cholesterol has not been adequate. Subsequent to this approval, the Patent and Trademark Office received a patent term restoration application for Pravachol® (U.S. Patent No. 4,346,227) from E. R. Squibb & Sons, Inc., and the Patent and Trademark Office requested FDA's assistance in determining this patent's eligibility for patent term restoration. FDA, in a letter dated December 20, 1991, advised the Patent and Trademark Office that this human drug product had undergone a regulatory review period and that the approval of Pravachol® represented the first commercial marketing of the product. Shortly thereafter, the Patent and Trademark Office requested that FDA determine the product's regulatory review period.

FDA has determined that the applicable regulatory review period for Pravachol® is 2,189 days. Of this time, 1,040 days occurred during the testing phase of the regulatory review period, while 1,149 days occurred during the approval phase. These periods of time were derived from the following dates:

1. The Date an Exemption Under Section 505(i) of the Federal Food, Drug, and Cosmetic Act Became Effective

November 2, 1985. FDA has verified the applicant's claim that the date the investigational new drug application (IND) became effective was November 2, 1985.

2. The Date the Application Was Initially Submitted With Respect to the Human Drug Product Under Section 505(b) of the Federal Food, Drug, and Cosmetic Act

January 31, 1989. The applicant claims September 7, 1988, as the date the new drug application (NDA 19-898) was filed. However, FDA records indicate that the NDA application submitted on September 7, 1988, was incomplete. FDA refused this application and notified the applicant of this fact by letter dated November 1, 1988. The completed NDA was then submitted on January 31, 1989.

3. The Date the Application Was Approved

October 31, 1991. FDA has verified the applicant's claim that NDA 19-898 was approved on October 31, 1991.

This determination of the regulatory review period establishes the maximum potential length of a patent extension. However, the U.S. Patent and Trademark Office applies several statutory limitations in its calculations of the actual period for patent extension. In its application for patent extension, this applicant seeks 1,671 days of patent term extension.

Anyone with knowledge that any of the dates as published is incorrect may, on or before May 11, 1992, submit to the Dockets Management Branch (address above) written comments and ask for a redetermination. Furthermore, any interested person may petition FDA, on or before September 8, 1992, for a determination regarding whether the applicant for extension acted with due diligence during the regulatory review period. To meet its burden, the petition must contain sufficient facts to merit an FDA investigation. (See H. Rept. 857, Part 1, 98th Cong., 2d sess., pp. 41-42, 1984.) Petitions should be in the format specified in 21 CFR 10.30.

Comments and petitions should be submitted to the Dockets Management Branch (address above) in three copies (except that individuals may submit single copies) and identified with the docket number found in brackets in the heading of this document. Comments and petitions may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Dated: March 3, 1992.

Stuart L. Nightingale,

Associate Commissioner for Health Affairs.

BILLING CODE 4160-01-M

[Docket No. 91N-0291]

Order for Transitional Class III Devices; Submission off Safety and Effectiveness Information Under Section 520(1)(5)(A) of the Federal Food, Drug, and Cosmetic Act; Reopening of the Reporting Period

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice; reopening of reporting period.

SUMMARY: The Food and Drug Administration (FDA) is reopening to March 31, 1992, the reporting period for manufacturers of transitional class III devices to submit a summary of, and a citation to, any information known or otherwise available to the manufacturers respecting the devices, including adverse safety or effectiveness information, which has not been submitted under provisions of the Federal Food, Drug, and Cosmetic Act (the act). FDA is taking this action in response to numerous inquiries concerning requirements of the order.

DATES: Summaries and citations must be submitted by March 31, 1992.

ADDRESSES: Summaries and citations to the Document Mail Center (HFZ-401), Food and Drug Administration, Center for Devices and Radiological Health, 1390 Piccard Dr., Rockville, MD 20850.

FOR FURTHER INFORMATION CONTACT: Charles H. Kyper, Center for Devices and Radiological Health (HFZ-400), Food and Drug Administration, 1390 Piccard Dr., Rockville, MD 20850, 301-427-1188.

SUPPLEMENTARY INFORMATION:

I. Background

The Safe Medical Devices Act of 1990 (the SMDA) (Pub. L. 101-629) amended the act to include section 520(1)(5)(A) which states that before December 1, 1991, the Secretary of Health and Human Services shall by order require manufacturers of transitional class III devices to submit a summary of, and citation to, any information known or otherwise available to the manufacturers respecting the devices, including adverse safety or effectiveness information which has not been submitted under section 519 of the act. This order was published in the **Federal Register** on November 14, 1991 (56 FR 57960). It is the first step in the process of determining the appropriate classification of transitional class III devices under the SMDA. Final rules, preceded by proposed rules with opportunity to comment, are to be published before December 1, 1992, either reclassifying each transitional class III device or retaining it in class III. This deadline may be extended by an appropriate **Federal Register** notice for an additional period not to exceed 1 year.

Manufacturers were given until January 13, 1992 to submit the information required under the order. Many transitional class III device manufacturers have not complied with this reporting requirment for various reasons. Numerous inquiries received by the agency indicated that firms were uncertain as to what information is required or whether the order applied to their devices. In many instances, these firms had only recently become aware of the order. Because of these misunderstanding, FDA is distributing letters to all premarket approval application (PMA) holders to clarify the reporting provisions and to advise them that the deadline for submitting the required information has been extended to March 16, 1992. This notice further extends the reporting period to March 31, 1992.

II. Submission of Required Information

All summaries and citations must be submitted to the Document Mail Center (address above), by March 31, 1992. The PMA reference number, if any, and the device trade name must be clearly identified. FDA requests that persons submitting information state in the letter that the submission is in response to the November 14, 1991 **Federal Register** order on transitional class III devices, so that the submission will not be confused with other PMA submissions. One copy of each submission is sufficient.

Dated: March 4, 1992.

Michael R. Taylor,

Deputy Commissioner for Policy.

[FR Doc. 92-5513 Filed 3-9-92; 8:45 am]

BILLING CODE 4160-01-M

Social Security Administration

Social Security Acquiescence Ruling

AGENCY: Social Security Administration, HHS.

ACTION: Notice of Social Security Acquiescence Ruling.

In the matter of Social Security Acquiescence Ruling 92-3(4)—*Branham* v. *Heckler*, 775 F.2d 1271 (4th Cir. 1985); *Flowers* v. *U.S. Department of Health and Human Services*, 904 F.2d 211 (4th Cir. 1990)—What Constitutes a Significant Work-related Limitation of Function.

SUMMARY: In accordance with 20 CFR 422.406(b)(2) published January 11, 1990 (55 FR 1012), the Commissioner of Social Security gives notice of Social Security Acquiescence Ruling 92-3(4).

EFFECTIVE DATE: March 10, 1992.

FOR FURTHER INFORMATION CONTACT: Ethel B. Hill, Esq., Litigation Staff, Social Security Administration, 6401 Security Blvd., Baltimore, MD 21235, (410) 966-5044.

SUPPLEMENTARY INFORMATION: Although not required to do so pursuant to 5 U.S.C. 552(a)(1) and (a)(2), we are publishing this Social Security Acquiescence Ruling in accordance with 20 CFR 422.406(b)(2).

A Social Security Acquiescence Ruling explains how we will apply a holding in a decision of a United States Court of Appeals that we determine conflicts with our interpretation of a provision of the Social Security Act or regulations when the Government has decided not to seek further review of that decision or is unsuccessful on further review.

We will apply the holding of the Court of Appeals decision as explained in this Social Security Acquiescence Ruling to claims at all levels of administrative adjudication within the Fourth Circuit. This Social Security Acquiescence Ruling will apply to all determinations and decisions made on or after March 10, 1992. If we made a determination or decision on your application for benefits between November 4, 1985, the date of the Court of Appeals' decision and March 10, 1992, the effective date of this Social Security Acquiescence Ruling, you may request application of the Social Security Acquiescence Ruling to your claim if you first demonstrate, pursuant to 20 CFR 404.985(b) or 416.1485(b), that application of the Ruling could change our prior determination or decision.

If this Social Security Acquiescence Ruling is later rescinded as obsolete, we will publish a notice in the **Federal Register** to that effect as provided for in 20 CFR 404.985(e), or 416.1485(e). If we decide to relitigate the issue covered by this Social Security Acquiescence Ruling as provided for by 20 CFR 404.985(c) or 416.1485(c), we will publish a notice in the **Federal Register** stating that we will apply our interpretation of the Act or regulations involved and explaining why we have decided to relitigate the issue.

(Catalog of Federal Domestic Assistance Programs Nos. 93.802 Social Security—Disability Insurance; 93.803 Social Security—Retirement Insurance; 93.805 Social Security—Survivor's Insurance; 93.806—Special Benefits for Disabled Coal Miners; 93.807—Supplemental Security Income)

Dated: August 19, 1991.

Gwendolyn S. King,

Commissioner of Social Security.

Acquiescence Ruling 92-3(4)

Branham v. *Heckler*, 775 F.2d 1271 (4th Cir.1985); *Flowers* v. *U.S. Department of Health and Human Services*, 904 F.2d 211 (4th Cir. 1990)—What constitutes a significant work-related limitation of function.

Issue

Whether a claimant for disability insurance benefits or for supplemental security income benefits based on disability who cannot perform his or her past relevant work has *per se* established the significant work-related limitation of function requirement of Regulations 20 CFR subpart P, appendix 1, section 12.05C.

Statute/Regulation/Ruling Citation

Sections 223(d)(2)(A) and 1614(a)(3)(B) of the Social Security Act (42 U.S.C. 423(d)(2)(A) and 1382c(a)(3)(B); 20 CFR, subpart P, appendix 1, section 12.05C.

Circuit

Fourth (Maryland, North Carolina, South Carolina, Virginia, West Virginia) *Branham* v. *Heckler*, 775 F.2d 1271 (4th Cir. 1985) *Flowers* v. *U.S. Dept. of H.H.S.*, 904 F.2d 211 (4th Cir. 1990).

Applicability of Ruling

This ruling applies to determinations or decisions at all administrative levels (i.e., initial, reconsideration, administrative law judge hearings and Appeals Council).

Description of Case

Branham

The planitiff, Larry R. Branham, filed his claim for disability benefits following a work-related injury allegedly sustained in October 1979, for which he received Worker's Compensation benefits. Mr. Branham claimed great back, hip, and neck pain associated with the injury; and he also complained of chest pain, disorientation, and bronchitis. The plaintiff had also been diagnosed as having a generalized anxiety disorder. He was taking medication for all of his ailments.

Mr. Branham's claim for disability benefits was denied initially and on reconsideration. After a hearing, the ALJ found that although the plaintiff could not return to his past relevant work, he had the ability to engage in light work and thus was not disabled. The ALJ therefore denied his request for benefits and the Appeals Council upheld the denial.

Upon review by the district court, the plaintiff submitted and the court accepted additional evidence of his emotional problems and vocational abilities, including the results of a test indicating an IQ of 63. The court remanded the case for further proceedings.

On remand, a second ALJ heard the plaintiff's claim and granted Mr. Branham benefits under section 12.05C [1] of Appendix 1 of 20 CFR, subpart P. The ALJ found that Mr. Branham's IQ fit within this section, but referring to the finding of the first ALJ, held that the plaintiff's physical problems held no significant work-related limitation of function since Mr. Branham had the ability to do light work. The second ALJ did find, however, that Mr. Branham's psychotic disorder, agoraphobia, significantly limited his ability to work and was a mental impairment within section 12.05C. The ALJ consequently decided that the plaintiff was disabled as of January 15, 1983, the date the ALJ found the plaintiff's agoraphobia began. The Appeals Council adopted the decision of the second ALJ, awarding benefits on the basis of the plaintiff's IQ and mental impairment.

On review, the district court modified the Secretary's decision, changing the onset date of the plaintiff's disability from January 15, 1983 to December 17, 1982, the date the claimant took his first IQ test. The court found that Mr. Branham satisfied the physical impairment requirement of section 12.05C on account of the 1979 back injury which led to the termination of his employment and said that the claimant's inability to perform his past relevant work as a laborer constituted a significant work-related limitation of function. Mr. Branham appealed the onset date of disability set by the district court, alleging that he met the IQ requirement of section 12.05C prior to the time that he took his first IQ test.

The Court of Appeals held that the plaintiff's inability to do his past relevant work established the significant work-related limitation of function required by the regulation and determined the onset of disability to be October 1979, the date of the injury to Mr. Branham's back.

The court stated that the significant work-related limitation of function specified in section 12.05C need not be disabling in and of itself, reasoning that if the claimant's physical impairment were required to be independently disabling, section 12.05C would be rendered meaningless. The court affirmed the finding of the lower court that the plaintiff's back impairment was a significant work-related limitation of function and remanded the case for an award of benefits. The court cited for support an earlier decision, *Rainey* v. *Heckler*, 770 F.2d 408 (4th Cir. 1985).

Flowers

The plaintiff, Stroun A. Flowers, Jr., was born August 4, 1944. He completed the seventh grade. From 1970 to 1971, he worked as a flag man for a construction company and for the next seven years was a timberjack driver. He had not worked since July 15, 1978. Mr. Flowers filed a claim for supplemental security income payments. He alleged that he was disabled due to seizures and a hip problem and that he met the requirements of section 12.05C. The plaintiff had a Verbal IQ of 66 and a Full Scale score of 68. Following the denial of his claim at the initial and reconsideration levels, the plaintiff requested and received a hearing before an ALJ. The ALJ agreed that the plaintiff met the first part of Listing 12.05C, i.e., he had an IQ between 60 and 69; but he found that the plaintiff's seizure disorder did not satisfy the "significant work-related limitation of function" element. The ALJ also found that the plaintiff's low IQ and seizure disorder did not prevent him from performing his former work and, therefore, denied the plaintiff's request for Supplemental Security Income. The denial was upheld by the district court.

Holding

The Court of Appeals held that the ALJ's finding that the plaintiff's seizure disorder did not prevent him from performing his former work was not supported by substantial evidence. In its holding, the Court of Appeals stated that it was following the Fourth Circuit rule announced in *Branham* that if a claimant cannot return to his past relevant work, he has established a work-related limitation of function which meets the requirement of section 12.05C. Accordingly, the court vacated the decision of the district court and remanded the case for an award of benefits.

Statement as to How Branham and Flowers Differ From Social Security Policy

At issue in *Branham* and in *Flowers* is the meaning of the term "significant work-related limitation of function", as contained in section 12.05C. What constitutes a significant work-related limitation of function is not defined in the Secretary's regulations. Agency policy is that the adjudicator in each case decides whether an impairment constitutes a significant work-related limitation of function based on all evidence, including the requirements of a claimant's past work. The fact that a claimant has an IQ between 60 and 69 and is unable to perform his or her past relevant work may or may not mean that the claimant is disabled. It depends upon the facts of the particular case. In the Fourth Circuit, the rule has evolved that an inability to do one's past relevant work meets the significant work-related limitation of function requirement of section 12.05C of the regulations.

Explanation of How SSA Will Apply Branham and Flowers Within the Fourth Circuit

This ruling applies only where the claimant resides in Maryland, North Carolina, South Carolina, Virginia or West Virginia at the time of the determination or decision at any level of administrative review, i.e., initial, reconsideration, administrative law judge hearing or Appeals Council review.

A claimant who has a valid verbal, performance, or full scale IQ of 60 to 69 inclusive and also has a physical or other mental impairment which prevents him or her from performing his or her past relevant work will be considered to have established the requirements of section 12.05C of the Listing of Impairments.

[1] 12.05 Mental Retardation. As manifested by: C. A valid verbal, performance or full scale IQ of 60 to 69 inclusive and a physical or other mental impairment imposing additional and significant work-related limitation of function.

[FR Doc. 92-5531 Filed 3-9-92; 8:45 am]
BILLING CODE 4150-29-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. D-92-879]

Redelegation of Authority

AGENCY: Office of the Regional Administrator—Regional Housing Commissioner, HUD Boston Regional Office.

ACTION: Notice of redelegation of authority.

SUMMARY: This Notice redelegates to the Regional Director of Housing for the Boston Regional Office and the Field Office Managers in Region I the authority of the Assistant Secretary for Housing—Federal Housing Commissioner and the General Deputy Assistant Secretary for Housing—Deputy Federal Housing Commissioner to approve plans of action submitted by owners, pursuant to 24 CFR part 248, which implements the Emergency Low Income Housing Preservation Act, title II of the Housing and Community Development Act of 1987 (the "1987 Act"), and the Low Income Housing Preservation and Resident Homeownership Act of 1990, title VI of the National Affordable Housing Act (the "1990 Act").

EFFECTIVE DATE: February 20, 1992.

FOR FURTHER INFORMATION CONTACT: Kenneth H. Salk, Acting Regional Director of Housing, Boston Regional Office, U.S. Department of Housing and Urban Development, Thomas P. O'Neill Jr. Federal Building, 10 Causeway Street, Boston, Massachusetts, 02222-1092, telephone (617) 565-5126 [This is not a toll-free number.]

SUPPLEMENTARY INFORMATION: The 1987 Act and the 1990 Act require owners of eligible low income housing who intend to prepay the mortgage, terminate the mortgage insurance contract, accept incentives in exchange for extending the low income affordability restrictions, or transfer the project to a qualified purchaser, to submit a plan of action providing for such prepayment, termination, extension, or transfer. Section 225 of the 1987 Act and sections 218, 222, and 226 of the 1990 Act provide the Secretary with the authority to approve plans of action subject to the criteria set forth therein. The authority to approve plans of action also includes the incidental authority to issue notice of deficiency letters, preliminary approvals of plans of action, and final approvals of plans of action. The authority to approve plans of action, however, does not include the authority to issue final approval of plans of action prior to receipt of confirmation of assignment of subsidy funds, where such funds are part of the plan of action.

Under a delegation of authority published in the **Federal Register** at 54 FR 22033 on May 22, 1989, the Secretary of Housing and Urban Development delegated to the Assistant Secretary for Housing—Federal Housing Commissioner and the General Deputy Assistant Secretary for Housing—Deputy Federal Housing Commissioner "the authority of the Secretary of Housing and Urban Development with respect to the multifamily programs and functions," including but not limited to the implementation of title II of the National Housing Act. This delegation of authority encompassed the authority to approve plans of action pursuant to the 1987 Act and the 1990 Act.

Under a redelegation of authority published in the **Federal Register** at 56 FR 33763 on July 23, 1991, the Assistant Secretary for Housing-Federal Housing Commissioner and the General Deputy Assistant Secretary for Housing-Deputy Federal Housing Commissioner redelegated the authority, as set forth in title II of the 1987 Act and title VI of the 1990 Act, to approve plans of action, submitted by owners of eligible low income housing who intend to prepay the mortgage, terminate the mortgage insurance contract, accept incentives in exchange for extending the low income affordability restrictions, or transfer the project to a qualified purchaser, to Regional Administrators. That redelegation provided that Regional Administrators may, at their option, redelegate this authority to Field Office Managers or, in the case of combined regional and field offices, Regional Administrators may redelegate this authority to Regional Directors of Housing.

Authority Redelegated

In accordance with the redelegation published in the **Federal Register** at 56 FR 33763 on July 23, 1991, I, as Regional Administrator, hereby redelegate to the Regional Director of Housing and to Field Office Managers the authority, as set forth in title II of the 1987 Housing Commissioner and title VI of the 1990 Act, to approve plans of action within their areas of jurisdiction, submitted by owners of eligible low income housing who intend to prepay the mortgage, terminate the mortgage insurance contract, accept incentives in exchange for extending the low income affordability restrictions, or transfer the project to a qualified purchaser. This delegation of authority to approve plans of action includes the incidental authority to issue notice of deficiency letters, preliminary approvals of plans of action, and final approvals of plans of action. The authority to approve plans of action, however, does not include the authority to issue final approval of plans of action prior to receipt of confirmation of assignment of subsidy funds, where such funds are part of the plan of action.

Authority: Sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

Dated: February 20, 1992.

John A. Mastropietro,

Regional Administrator, Regional Housing Commissioner.

BILLING CODE 4210-01-M

Office of Administration

[Docket No. N-92-3408]

Submission of Proposed Information Collection to OMB

AGENCY: Office of Administration, HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirement described below has been submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and should be sent to: Jennifer Main, OMB Desk Officer, Office of Management and Budget, New Executive Office Building, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: David S. Cristy, Reports Management Officer, Department of Housing and Urban Development, 451 7th Street, Southwest, Washington, DC 20410, telephone (202) 708-0050. This is not a toll-free number. Copies of the proposed forms and other available documents submitted to OMB may be obtained from Mr. Cristy.

SUPPLEMENTARY INFORMATION: The Department has submitted the proposal for the collection of information, as described below, to OMB for review, as required by the Paperwork Reduction Act (44 U.S.C. chapter 35).

The Notice lists the following information: (1) The title of the

information collection proposal; (2) the office of the agency to collect the information; (3) the description of the need for the information and its proposed use; (4) the agency form number if applicable; (5) what members of the public will be affected by the proposal; (6) how frequently information submissions will be required; (7) an estimate of the total number of hours needed to prepare the information submission including number of respondents, frequency of response, and hours of response; (8) whether the proposal is new or an extension, reinstatement, or revision of an information collection requirement; and (9) the names and telephone numbers of any agency official familiar with the proposal and of the OMB Desk Officer for the Department.

Authority: Section 3507 of the Paperwork Reduction Act, 44 U.S.C. 3507; section 7(d) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(d).

Dated: February 27, 1992.

Kay F. Weaver,

Acting Director, Information Resources Management Policy and Management Division.

Proposal: Low-Income Public Housing—Project-Based Accounting (FR-3088).

Office: Public and Indian Housing.

Description of the Need for the Information and its Proposed Use: The purpose of the information collection is to implement the requirements for Project-Based Accounting directed by section 502(c) of the National Affordable Housing Act of 1990. Public Housing Agencies certifies to HUD that it maintains a Project-Based Accounting System in accordance with § 990.320.

Form Number: None.

[Docket No. N–92–3407]

Submission of Proposed Information Collection to OMB

AGENCY: Office of Administration.

ACTION: Notice.

SUMMARY: The proposed information collection requirement described below has been submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act The Department is soliciting public comments on the subject proposal.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and should be sent to: Jennifer Main, OMB Desk Officer, Office of Management and Budget, New Executive Office Building, Washington DC 20503.

FOR FURTHER INFORMATION CONTACT: Kay F. Weaver, Reports Management Officer, Department of Housing and Urban Development, 451 7th Street, Southwest, Washington, DC 20410, telephone (202) 708–0050. This is not a toll-free number. Copies of the proposed forms and other available documents submitted to OMB may be obtained from Ms. Weaver.

SUPPLEMENTARY INFORMATION: The Department has submitted the proposal for the collection of information, as described below, to OMB for review, as required by the Paperwork Reduction Act (44 U.S.C. chapter 35).

The Notice lists the following information: (1) The title of the information collection proposal; (2) the office of the agency to collect the information; (3) the description of the need for the information and its proposed use; (4) the agency form number, if applicable; (5) what members of the public will be affected by the proposal; (6) how frequently information submissions will be required; (7) an estimate of the total number of hours needed to prepare the information submission including number of respondents, frequency of response, and hours of response; (8) whether the proposal is new or an extension, rein statement, or revision of an information collection requirement; and (9) the names and telephone numbers of an agency official familiar with the proposal and to the OMB Desk Officer for the Department.

Authority: Section 3507 of the Paperwork Reduction Act, 44 U.S.C. 3507; section 7(d) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(d).

Dated: February 28, 1992.

John T. Murphy,

Director, Information Resources, Management Policy and Management Division.

Proposal: Performance Funding System: Formal Review Process (FR–3024)

Office: Public and Indian Housing.

Description of the need for the information and its proposed use: This information is used by Public Housing Agencies for inclusion in budget submissions which are reviewed and approved by Field Offices as the basis for obligating operating subsidies. This information is necessary in order to calculate the eligibility for operating subsidies under the Performance Funding System regulations as amended by the Proposed Rule.

Form Number: None.

Respondents: State or Local Governments.

Frequency of Submission: One-time.

Reporting Burden:

	Number of respondents	x	Frequency of response	x	Hours per response	=	Burden hours
Information collection	868		1		4		3,472

Total Estimated Burden Hours: 3,472.

Status: New.

Office of Adminstration

[Docket No. N–92–3406]

Submission of Proposed Information Collections to OMB

AGENCY: Office of Adminstration, HUD.

ACTION: Notices.

SUMMARY: The proposed information collection requirements described below has been submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comment on the subject proposals.

ADDRESSES: Interested persons are invited to submit comment regarding these proposals. Comments should refer to the proposal by name and should be sent to: Jennifer Main, OMB Desk Officer, Office of Management and Budget, New Executive Office Building, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: David S. Cristy, Reports Management Officer, Department of Housing and Urban Development, 451 7th Street, Southwest, Washington, DC 20410, telephone (202) 708–0050. This is not a toll-free number. Copies of the proposed forms and other available documents submitted to OMB may be obtained from Mr. Cristy.

SUPPLEMENTARY INFORMATION: The Department has submitted the proposals fo the collections of information, as described below, to OMB for review, as required by the Paperwork Reduction Act (44 U.S.C. chapter 35).

The Notices list the following information (1) The title of the information collection proposal; (2) the office of the agency to collect the information; (3) the description of the need for the information and its proposed use; (4) the agency form number, if applicable; (5) what members of the public will be affected by the proposal; (6) how frequently information submissions will be required; (7) an estimate of the total number of hours needed to prepare the information submission including number of respondents, frequency of response, and hours of response; (8) whether the proposal is new or an extension, reinstatement, or revision of an information collection requirement; and (9) the names and telephone numbers of an agency official familiar with the proposal and of the OMB Desk Officer for the Department.

AUTHORITY: Section 3507 of the Paperwork Reduction Act, 44 U.S.C. 3507; section 7(d) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(d).

Dated: February 28, 1992.

John T. Murphy,

Director, Information Resources, Management Policy and Management Division.

Proposal: Single Family Mortgage Insurance Premium Remittance Summary.

Office: Housing.

Description of the need for the information and its proposed use: This information is used to ensure compliance on the part of the Mortgagee and to ensure that HUD receives all income due. Without the forms, HUD could not ensure compliance nor ensure that all income due the Government is being remitted.

Form Number: HUD–2748 and HUD–2752.

Respondents: Businesses or Other For-Profit and Small Businesses or Organizations.

Frequency of submission: Monthly and Recordkeeping

Reporting Burden:

	Number of respondents	x	Frequency of response	x	Hours per response	=	Burden hours

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[NV–930–08–4333–11; NV5–91–41]

Nevada; Temporary Closure of Certain Public Land in the Las Vegas District for Management of the 1992 Running of the HDRA "Nissan 400" Off-Highway Vehicle (OHV) Race

February 27, 1992.

ACTION: Temporary closure of certain Public Lands in the Clark, County, Nevada, on and adjacent to the 1992 "NISSAN 400" race course on March 14, 1992. Access will be limited to race officials, entrants, law-enforcement and emergency personnel, licensed permittee(s) and right-of-way grantees.

SUPPLEMENTARY INFORMATION: Certain public lands in the Las Vegas District, Clark County, Nevada will be temporarily closed to public access from 1800 hours, March 13, 1992, to 2359 hours, March 14, 1992, to protect persons, property, and public land resources on and adjacent to the 1992 "NISSAN 400" OHV race course. The Las Vegas District Manager is the authorized officer for the 1992 "NISSAN 400" OHV race, permit number NV5–91–41. These temporary closures and restrictions are made pursuant to 43 CFR Part 8364. The public lands to be closed or restricted are those lands adjacent to and including roads, trails and washes identified as the 1992 NISSAN 400 OHV race course.

The following public lands administered by the BLM restricted or closed are described as: The Nellis area; T. 19 S., R. 62 E., M.D.M., section 1 through 36. The Las Vegas Dunes area; T. 19 S., R. 63 E., section 1 through 36. The Arrolime area; T. 18 S., R. 63 E., section 1 through 36. The Dry Lake area; T. 19 S., R. 64 E., section 1 through 36. T. 18 S., R. 64 E., section 1 through 36. T. 17 S., R. 64 E., section 1 through 36. The California Wash area; T. 16 S., R. 65 E., section 1 through 36. T. 15 S., R. 66 E., all of sections 6, 7, 8, 9, 16, 17, 18, 19, 20, 21, 28, 29, 30, 31, 32, and 33. T. 16 S., R. 66 E., all of sections 4, 5, 6, 7, 8, 9, 16, 17, 18, 19, 20, 29, and 30. T. 17 S., R. 65 E., section 1 through 36. The Piute Wash area; T. 15 S., R. 64 E., section 1 through 36. T. 15 S., R. 65 E., section 1 through 36. The Arrow Canyon area; T. 16 S., R. 63 E., all of sections 1, 2, 3, 4, 9, 10, 11, 12, 13, 14, 15, 16, 21, 22, 23, 24, 25, 26, 27, 28, 32, 33, 34, 35, and 36. And, T. 17 S., R. 63 E., section 1 through 36.

The following public lands administered by the BLM will be open authorized HDRA spectator areas: All public lands lying east of Las Vegas Blvd. North and within T. 19 S., R. 63 E., M.D.M., section 16, NW¼; SE¼NE¼ NE¼; SE¼NE¼; SE¼SW¼; SE¼; and section 20, NW¼.

The above legal land descriptions are for public lands within Clark, County, Nevada. A map showing specific areas closed to public access to available from the following BLM office; The Las Vegas District Office, 4765 Vegas Drive, P.O. Box 26569, Las Vegas, Nevada 89126, (702) 647–5000.

Any person who fails to comply with this closure order issued under 43 CFR part 8364 may be subject to the penalties provided in 43 CFR 8360.7.

Dated: February 24, 1992.

Ben F. Collins,
District Manager, Las Vegas District.

Rawlins District Advisory Council Meeting

AGENCY: Bureau of Land Management, Interior.

ACTION: Rawlins District Advisory Council; Meeting.

SUMMARY: Notice is hereby given in accordance with Public Law 94–597 that a meeting of the Rawlins District Advisory Council will be held. This notice sets forth the schedule and proposed agenda for the meeting.

DATES: April 1, 1992, 10 a.m. to 4 p.m.

ADDRESSES: Bureau of Land Management, Rawlins District Office, 1300 North Third Street, P.O. Box 670, Rawlins, Wyoming 82301.

FOR FURTHER INFORMATION CONTACT: Ray Hanson, District Outdoor Recreation Planner, Rawlins District Office, Bureau of Land Management, P.O. Box 670, Rawlins, Wyoming, 82301, (307) 324–7171.

SUPPLEMENTARY INFORMATION: The agenda of the meeting will include:

1. Introduction and opening remarks.
2. Review of last Council meeting.
3. Public comment period.
4. Election of new officers.
5. Tour of Bureau Sign Shop, District Office computer room, and the Great Divide Resources Area Office.
6. Discussion on resource protection program; hazardous materials and authorized/unauthorized landfills on public land; increased activity related to oil, gas, and coalbed methane development; and the gathering of excess wild horses.

The meeting and tour are open to the public. Anyone interested in attending the meeting or making an oral presentation must notify the District Manager by March 19, 1992. Written statements may also be filed for the Council's consideration. Summary minutes of this meeting will be on file in the Rawlins District Office and available for public inspection (during regular business hours) within 30 days of the meeting.

Dated: February 18, 1992.

Judy Reed,
Associate District Manager.

Meeting, Vale District Grazing Advisory Board

AGENCY: Vale District, Bureau of Land Management, Interior.

ACTION: Notice of meeting.

SUMMARY: Notice is given in accordance with Public Law 92–463 that a meeting at the Vale District Grazing Advisory Board will be held April 9, 1992.

The agenda of the meeting will include: Update on actions taken in response to drought conditions, Grazing administration in relation to trespass and range improvement project maintenance, Update on management activities in the Trout Creek Mountains, Methods and options for rehabilitation of poor condition range sites, Predator control operations on BLM-managed lands, Update on grazing management planning in the Harper allotment, and preference shifts between allotments.

The meeting is open to the public. Interested persons may make oral statements to the Board or may file written statements for the Board's consideration. Anyone wishing to make oral statements may do so at 1:30 p.m. MDT on Thursday, April 9.

Summary minutes of the Board's meeting will be maintained in the district office and will be available for public inspection, or personal copies may be purchased for the cost of

duplication, within 30 days of the meeting.

DATES: The meeting will begin at 10 a.m. MDT Thursday, April 9, 1992.

ADDRESSES: The meeting will be held in the meeting room of the Vale District Office, 100 Oregon Street, Vale, OR 97918.

FOR FURTHER INFORMATION CONTACT: Gerard Hubbard, Bureau of Land Management, Vale District, 100 Oregon Street, Vale, OR 97918, (Telephone 503 473–3144).

Geoffrey B. Middaugh,
Associate District Manager.

National Park Service

Record of Decision for the Final Environmental Impact Statement for the General Management Plan, Big Cypress National Preserve

Introduction

In October 1991, the proposed Big Cypress National Preserve General Management Plan/Final Environmental Impact Statement (GMP/FEIS) was made available to the public. The GMP/FEIS evaluates the environmental consequences of the proposed plan and its alternatives. The purpose of this Record of Decision is to document the National Park Service's determination of how Big Cypress National Preserve will be managed for the next 10 to 15 years. Copies of the Record of Decision are being distributed to Federal, State and local government agencies and other interested parties. In addition, the Record of Decision is being printed in newspapers published in communities near the preserve and will be available at public libraries in the region.

Alternatives Considered

The alternatives considered in formulating the preserve's General Management Plan were:

Status Quo Alternative
Alternative A—Emphasizing recreational use
Alternative B—Emphasizing resource protection
Proposed Plan—Combination of A and B

Alternative B can be considered an environmentally preferable alternative because adverse environmental impacts would be minimal. The proposed plan incorporates features of Alternative B, since preservation of natural systems and scenic quality are objectives of the proposed plan. However, the proposed plan also incorporates features of Alternative A, because the proposed plan calls for continuation and/or addition of certain visitor activities and opportunities. The environmental effects of the preceding visitor services development will not be significant with mitigating measures in place, and any costs are expected to be overshadowed by the benefit of enhanced visitor opportunities and visitor appreciation. The proposed plan also contains a "Minerals Management" section which outlines oil and gas activities in the preserve as required in the enabling legislation.

Comments on the GMP/FEIS

Comments received on the GMP/FEIS were similar to those made during public review of the draft document and no new issues were raised.

The principal mineral owner in the preserve provided comments on the GMP/FEIS. They raised several concerns on what they perceived to be changes from the draft GMP/EIS to the final GMP/FEIS, but indicated that these concerns "should be evaluated as more technical information becomes available, and on a case-by-case basis under 36 CFR Plan of Operations approval procedures for specific oil and gas proposed sites in the BCNP." We concur.

After reviewing the GMP/FEIS, the Office of the Governor of Florida informed the National Park Service that the plan was found to be consistent with the Florida Coastal Zone Management Program and National Environmental Policy Act guidelines. However, the state requested that, without delaying implementation of the GMP/FEIS, further discussions be held regarding visitor access to the preserve from I–75. The National Park Service has initiated a dialogue with the State in this regard.

The hunting community reiterated many of the same concerns with the final GMP/FEIS as they raised with the draft document. Agreements regarding hunting reached between the Florida Game and Fresh Water Fish Commission and the NPS during the development of the GMP/EIS are reflected in the document. As a part of these agreements, the Commission and NPS will meet periodically to discuss and establish hunting regulations. During these periodic discussions, the concerns of the hunting community will be considered.

Any significant variances proposed to the GMP/EIS emanating from these future discussions would be preceded by public involvement and adherence with the requirements of the National Environmental Policy Act and other applicable regulations before implementation.

Decision and Rationale

After analysis of the proposed plan and alternatives as presented in the GMP/EIS and consideration of public comments on the entire plan, the National Park Service has determined that the proposed plan in the October 1991 General Management Plan provides acceptable management direction for Big Cypress National Preserve. The preserve will be managed to conserve natural and cultural resources and ecological processes while accommodating uses and experiences that do not adversely affect the area's ecological integrity. Major NPS developments, to the maximum extent feasible, will continue to be limited to existing roads and previously disturbed sites. The proposed plan's elements are considered technically and economically feasible, and the proposed plan represents a sound balance between protecting preserve resources and providing enjoyable visitor experiences.

All practicable means will be taken to avoid or minimize environmental harm in implementing the plan. This will include close monitoring during construction of new facilities to avoid adverse impacts on cultural and natural resources. Other mitigating measures incorporated in the plan's implementation are identified on pages 384–388 of the GMP/EIS.

Changes to the Proposed Plan in the Final GMP/FEIS

1. The ORV permits are returned to draft GMP level—the draft GMP/EIS projected issuance of 2,500 ORV permits and assessed the associated environmental impacts at these levels. The final GMP/EIS proposed lowering these projections to 2,000. However, actual 1989 through 1992 utilization levels indicate that the draft level of 2,500 permits was more appropriate and the final GMP/EIS is hereby changed to the 2,500 level.

2. Oil and gas development in red-cockaded woodpecker (RCW) colony areas are returned to draft level—the draft GMP/EIS would not have allowed oil and gas development closer than 500 feet to RCW colony sites. The final GMP/EIS raised that distance to .5 of a mile. A review of Fish and Wildlife Service guidelines and the GMP/FEIS (which does not allow any development in mature pine stands) indicates that the draft GMP/EIS, along with Section 7 reviews as a part of the 9B regulations at specific sites, provides adequate

protection. Therefore, the final GMP/FEIS relative to oil and gas development in the vicinity of RCW colony sites is hereby returned to the 500-foot distance.

Conclusion

It is our determination that the proposed plan for management direction presented in the October 1991 Big Cypress National Preserve General Management Plan and Final Environmental Impact Statement and changes addressed in this document are in keeping with Public Law 93–440 which established the preserve in 1974, and with other applicable laws and regulations. Therefore, the proposed plan in the General Management Plan, as herein modified, is accepted and approved today as the management approach to be followed at Big Cypress National Preserve.

Dated: January 27, 1992.

Recommended:

Wallace A. Hibbard,

Superintendent.

Dated: January 27, 1990.

Approved:

James W. Coleman, Jr.,

Regional Director, Southeast Region.

BILLING CODE 4310-70-7

General Management Plan/ Environmental Impact Statement; Manhattan Sites, NY; Notice of Intent

In accordance with section 102(2)(C) of the National Environmental Policy Act of 1969, Public Law 91–190, the National Park Service (NPS) is preparing an Environmental Impact Statement (EIS) to assess the impacts of alternative management strategies for the General Management Plan (GMP) for five NPS sites located in the borough of Manhattan in New York City and one site in the town of Mt. Vernon. These six sites, known as Manhattan Sites, includes Castle Clinton National Monument (NM), Federal Hall NM, General Grant NM, Hamilton Grange NM, Theodore Roosevelt Birthplace National Historic Site (NHS) and St. Paul's Church NHS.

The GMP/EIS will evaluate a range of alternatives which address cultural and natural resources protection, socioeconomic concerns, visitor use and interpretation, restoration of historic structures, maintenance and facility development and boundary adjustments that may be needed to protect the integrity of several sites.

The NPS will be holding open houses at each site on the following days and times:

Saturday, April 4, 2–6 p.m.—General Grants NM

Sunday, April 5, 2–6 p.m.—Hamilton Grange NM

Tuesday, April 7, 2–8 p.m.—St. Paul's Church NHS

Thursday, April 9, 2–8 p.m.—Theodore Roosevelt Birthplace NHS

Friday, April 10, 2–6 p.m.—Federal Hall and Castle Clinton (to be held at Federal Hall)

The purpose of these hours are two-fold: (1) To present possible management alternatives for each site and (2) to stimulate discussion and receive comments regarding these alternatives and any other additional public concerns relevant to each site. Individuals unable to attend the open houses may request information from the Superintendent of Manhattan Sites at the address listed below. Comments received at the open house and during the scoping period will be used to determine the final content of the issues and alternatives that should be addressed in the GMP and in preparation of the EIS. Written comments regarding concerns at each site must be submitted to the NPS by April 24, 1992.

The draft GMP and EIS are expected to be completed and available for public review by early 1993. After public and interagency review of the draft document, comments will be considered and a final EIS will be prepared for release in early 1994, which will be followed by a Record of Decision. The responsible official is Marie Rust, Acting Regional Director, North Atlantic Region, NPS. Written comments should be submitted to the Superintendent of Manhattan Sites by mail at Federal Hall, 26 Wall Street, New York, New York 10005.

Dated: March 2, 1992.

Marie Rust,

Acting Regional Director.

BILLING CODE 4310-70-M

INTERSTATE COMMERCE COMMISSION

[Finance Docket No. 31969]

William T. Bright, Control Exemption; The Buffalo Creek Railroad Co.

AGENCY: Interstate Commerce Commission.

ACTION: Notice of Exemption.

SUMMARY: Pursuant to 49 U.S.C. 10505, the Commission exempts from the prior approval requirements of 49 U.S.C. 11343–11344 the acquisition by William T. Bright of control of The Buffalo Creek Railroad Company. The exemption is subject to standard employee protective conditions.

DATES: The exemption is effective on April 9, 1992. Petitions to stay must be filed by March 20, 1992, and petitions to reopen must be filed by March 30, 1992.

ADDRESSES: Send pleadings referring to Finance Docket No. 31969 to: (1) Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423.

(2) Robert D. Rosenberg, Slover & Loftus, 1224 Seventeenth Street, NW., Washington, DC 20036.

FOR FURTHER INFORMATION CONTACT: Joseph H. Dettmar (202) 927–5660, [TDD for hearing impaired: (202) 927–5721].

SUPPLEMENTARY INFORMATION: Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to, call, or pick up in person from: Dynamic Concepts, Inc.,.room 2229, Interstate Commerce Commission Building, Washington, DC 20423. Telephone: (202) 289–4357/4359. [Assistance for the hearing impaired is available through TDD services (202) 927–5721.]

Decided: March 3, 1992.

By the Commission, Chairman Philbin, Vice Chairman McDonald, Commissioners Simmons, Phillips, and Emmett.

Sidney L. Strickland, Jr.,

Secretary.

BILLING CODE 7035-01-M

DEPARTMENT OF JUSTICE

Information Collections Under Review

The Office of Management and Budget (OMB) has been sent the following collection(s) of information proposals for review under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35) and the Paperwork Reduction Reauthorization Act since the last list was published. Entries are grouped into submission categories, with each entry containing the following information:

(1) The title of the form/collection;
(2) The agency form number, if any, and the applicable component of the Department sponsoring the collection;
(3) How often the form must be filled out or the information is collected;
(4) Who will be asked or required to respond, as well as a brief abstract;
(5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond;
(6) An estimate of the total public burden (in hours) associated with the collection; and,
(7) An indication as to whether section 3504(h) of Public Law 96–511 applies.

Comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the OMB reviewer, Ms. Lin Liu on (202) 395–7340 and to the Department of Justice's Clearance Officer, Mr. Lewis Arnold, on (202) 514–4305. If you anticipate commenting on a form/collection, but find that time to prepare such comments will prevent you from prompt submission, you should notify the OMB reviewer and the DOJ Clearance Officer of your intent as soon as possible. Written comments regarding the burden estimate or any other aspect of the collection may be submitted to Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503, and to Mr. Lewis Arnold, DOJ Clearance Officer, SPS/JMD/5031 CAB, Department of Justice, Washington, DC 20530.

Extension of the Expiration Date of a Currently Approved Collection Without Any Change in the Substance or in the Method of Collection

(1) Law enforcement officers killed or assaulted.
(2) DO–71. Federal Bureau of Investigation.
(3) Annually.
(4) State or local governments. Instant form DO–71 is used to facilitate the collection of data in compliance with a Presidential Directive, issued 6–3–71, mandating the collection and publication of data relating to law enforcement officers killed or assaulted.
(5) 71,794 annual responses at .15 hours per response.
(6) 10,769 annual burden hours.
(7) Not applicable under 3504(h).

Revision of a Currently Approved Collection

(1) Analysis of law enforcement officers killed and assaulted.
(2) DO–76, DO–76a, DO–76B. Federal Bureau of Investigation.
(3) Annually.
(4) State or local governments. Forms DO–76, DO–76a, and DO–76b are used to facilitate the collection of data in compliance with a Presidential Directive, issued 6–3–71, mandating the collection and publication of data relating to analysis of law enforcement officers killed or assaulted.
(5) 132 annual responses at .5 hours per response.
(6) 66 annual burden hours.
(7) Not applicable under 3504(h).

Public comment on these items is encouraged.

Dated: March 5, 1992.

Lewis Arnold,

Department Clearance Officer, Department of Justice.

[FR Doc. 92-5586 Filed 3-9-92; 8:45 am]

BILLING CODE 4410-02-M

[AAG/A Order No. 62-92]

Privacy Act of 1974; Systems of Records

Pursuant to the Privacy Act of 1974 (5 U.S.C. 552a) and Office of Management and Budget Circular No. A–130, Department components have reviewed their Privacy Act systems of records to identify changes that will more accurately describe their records. As a result, eight Department components are republishing systems of records.

Where possible, the changes have been italicized for public convenience. However, changes include (1) a new routine use (identified as "h.") for the Office of the Inspector General Investigative Records, JUSTICE/OIG–001; [1] (2) a modified routine use for the Assistant United States Attorney Applicant Records System, JUSTICE/USA–016, the Appointed Assistant United States Attorneys Personnel System, JUSTICE/USA–017, and the INTERPOL–United States National Central Bureau (INTERPOL–USNCB) (Department of Justice) INTERPOL–USNCB Records System; and (3) the removal of certain Privacy Act exemptions from the General Files Systems of the Offices of the Deputy Attorney General (DAG) and Associate Attorney General (AAG).

The modified routine use was originally drafted to permit records disclosure to the National Archives and Records Service (NARS), General Services Administration (GSA), during records management inspections. The routine use has been modified consistent with Public Law 98–497 (44 U.S.C. 2102) which renamed NARS as the "National Archives and Records Administration" (NARA), and established it as a separate agency which nevertheless would continue to share its records management inspection responsibilities with GSA. Accordingly, the routine use has been changed to show that NARA and GSA are separate agencies which share access to records during these inspections. In addition, the exemptions from subsections (e)(4)(G) and (H) of the Privacy Act have been removed from the General Files Systems, JUSTICE/DAG–013 and JUSTICE/AAG–001. The exemptions are unnecessary because the Offices of the DAG and AAG are complying with these subsections for these systems.

[1] This system was originally published on September 25, 1991 (56 FR 48578), as the Office of the Inspector General Records Index, JUSTICE/OIG–001. The title of the system has been changed to more accurately describe the nature of the system.

Comments on the routine uses may be addressed to Patricia E. Neely, Staff Assistant, Systems Policy Staff, Information Resources Management, Justice Management Division, Department of Justice, Washington, DC 20530 (Room 1103, CAB Building). Please submit any comments by April 9, 1992.

Dated: January 30, 1992.

Anthony C. Moscato,

Acting Assistant Attorney General for Administration.

JUSTICE/DAG–003

SYSTEM NAME:

Drug Enforcement Task Force Evaluation and Reporting System

SYSTEM LOCATION:

Office of the *Deputy* Attorney General, United States Department of Justice, 10th and Constitution Avenue, NW., Washington, DC 20530.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The system encompasses individuals who are the subjects of official Federal investigations of the drug task force.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records consist of case initiation and indictment records, and monthly reporting and sentencing forms regarding potential or actual targets of investigation of the drug task force.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

These records are maintained pursuant to 5 U.S.C. 301 and 21 U.S.C. 841.

ROUTINE USE OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records may be disclosed to the news media and the public pursuant to 28 CFR 50.2 unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of privacy.

These records may be disclosed to a Member of Congress or staff acting on the Member's behalf when the Member or staff requests the information for investigative or policymaking purposes or to provide constituent assistance.

These records may be disclosed to members of the judicial branch of the Federal Government in response to a specific request where disclosure appears relevant to the authorized function of the recipient judicial office or court system.

These records may be disclosed to any civil or criminal law enforcement authorities, whether Federal, State, local, or foreign, which require information relevant to a civil or criminal investigation.

These records may be disclosed to the National Archives and Records Administration (NARA) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

These records may be disclosed to Federal, State, and local licensing agencies or associations which require information concerning the eligibility or suitability of an individual for a license or permit.

These records may be disclosed in a proceeding before a court or adjudicative body before which the

Office of the Deputy Attorney General is authorized to appear when (a) the Office of the Deputy Attorney General, or any subdivision thereof, or (b) any employee of the Office of the Deputy Attorney General in his or her official capacity, or (c) any employee of the Office of the Deputy Attorney General in his or her individual capacity where the Department of Justice has agreed to represent the employee, or (d) the United States, where the Office of the Deputy Attorney General determines that litigation is likely to affect it or any of its subdivisions, is a party to litigation or has an interest in litigation and such records are determined by the Office of the Deputy Attorney General to be arguably relevant to the litigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

All records are stored in paper folders. All records, with the exception of indictment forms, are stored also on magnetic disks.

RETRIEVABILITY:

Records are generally retrieved by case number. Records may be retrieved by individual name or name of criminal organization.

SAFEGUARDS:

Paper folders are stored in a combination safe which is inside a locked room. This room is part of a locked suite of offices. The magnetic disks and computer are located in the same room; the computer has a key lock. Only those persons with a Top Secret clearance may actually access the computer by using a code.

RETENTION AND DISPOSAL:

Records are kept indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Staff Director, Drug Enforcement Task Force, Office of the Deputy Attorney General, 10th and Constitution Avenue, NW., Washington, D.C. 20530.

NOTIFICATION PROCEDURE:

This system of records has been exempted from subsections (d) and (e)(4)(G) pursuant to subsections (j)(2) and (k)(2) of the Privacy Act. Thus no records are available under the Privacy Act. Nevertheless, Privacy Act (PA) requests are routinely processed under the Freedom of Information Act (FOIA) also. Therefore, to determine whether the system may contain a record which may be available under the FOIA, requests may be addressed to the System Manager listed above. Clearly mark the envelope and the letter "FOIA/PA request."

RECORD ACCESS PROCEDURE:

This system of records has been exempted from subsections (d) and (e)(4)(H) pursuant to subsection (j)(2) and (k)(2) of the Privacy Act. Thus, no records are available under the Privacy Act. Nevertheless, Privacy Act (PA) requests are routinely processed under the Freedom of Information Act (FOIA) also. Therefore, to determine whether any records in the system are available under the FOIA, requests may be addressed to the System Manager listed above. Clearly mark the envelope and the letter "FOIA/PA request."

CONTESTING RECORD PROCEDURES:

The system of records has been exempted from subsections (d) and (e)(4)(H) of the Privacy Act. While the Freedom of Information Act permits access to certain records (see Record Access Procedures above), it contains no records contesting provisions.

RECORD SOURCE CATEGORIES:

Sources of information contained in this system include Federal, State, and local government agencies as appropriate, informants, and interested third parties.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Attorney General has exempted this system from subsections (c)(3) and (4); (d); (e)(1), (2) and (3), (e)(4)(G) and (H), (e)(5); and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j)(2) and (k)(2). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published **Federal Register.**

JUSTICE/DAG-013

SYSTEM NAME:

General Files System of the Office of the Deputy Attorney General.

SYSTEM LOCATION:

Office of the Deputy Attorney General, United States Department of Justice, 10th and Constitution Avenue NW., Washington, DC 20530.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The system encompasses individuals who relate to official Federal investigations, policy decisions, and administrative matters of such significance that the Deputy Attorney General maintains information indexed to the name of that individual, including, but not limited to, subjects of litigation, targets of investigations, Members and staff members of Congress, upper-echelon government officials, and individuals of national prominence or notoriety.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records may include case files, litigation materials, exhibits, internal memoranda and reports, or other records on a given subject or individual. Records vary in number and kind according to the breadth of the Deputy Attorney General's responsibilities (28 CFR 0.15) and are limited to those which are of such significance that the Deputy Attorney General has investigative, policy, law enforcement, or administrative interest. An index to these records is described under the caption "Retrievability."

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

These records are maintained pursuant to 5 U.S.C. 301.

ROUTINE USE OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records may be disclosed to the news media and the public pursuant to 28 CFR 50.2 unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of privacy.

These records may be disclosed to a Member of Congress or staff acting on the Member's behalf when the Member or staff requests the information for investigative or policy decisionmaking purposes or to provide constituent assistance.

These records may be disclosed to members of the judicial branch of the Federal Government in response to a specific request where disclosure appears relevant to the authorized function of the recipient judicial office or court system.

These records may be disclosed to any civil or criminal law enforcement authorities, whether Federal, State, local, or foreign, which require information relevant to a civil or criminal investigation.

These records may be disclosed to the National Archives and Records Administration (NARA) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

These records may be disclosed to officials and employees of the White House or any Federal agency which requires information relevant to an agency decision concerning the hiring, appointment, or retention of an employee, the issuance of a security clearance, the conducting of a security or suitability investigation, the classifying of a job, or the issuance of a grant or benefit.

These records may be disclosed to Federal, State, and local licensing agencies or associations which require information concerning the eligibility or suitability of an individual for a license or permit.

These records may be disclosed in a proceeding before a court or adjudicative body before which the Office of the Deputy Attorney General is authorized to appear when (a) the Office of the Deputy Attorney General, or any subdivision thereof, or (b) any employee of the Office of the Deputy Attorney General in his or her official capacity; or (c) any employee of the Office of the Deputy Attorney General in his or her individual capacity where the Department of Justice has agreed to represent the employee, or (d) the United States, where the Office of the Deputy Attorney General determines that the litigation is likely to affect it or any of its subdivisions, is a party to litigation or has an interest in litigation and such records are determined by the Office of the Deputy Attorney General to be arguably relevant to the litigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM

STORAGE:

Records are stored in paper folders and on index cards. As of April, 1982, the index record is also stored on magnetic disks.

RETRIEVABILITY:

Deputy Attorney General records created prior to 1973 were incorporated into Attorney General files, and are retrievable from the index to the General Files System of the Office of the Attorney General. Records created by the Office of the Deputy Attorney General since 1973 are indexed and retrieved manually by use of the subject title, individual's name, or Department component which created the record. As of April 1982, records may also be retrieved through a computerized logging system.

SAFEGUARDS:

Records are maintained in locked cabinets stored in a locked room or, in the case of those records that are classified, in safes or vaults stored in a locked room. The computer is also maintained in a locked room. The computer has a key lock and may be accessed only by persons with a Top Secret clearance by use of a code.

RETENTION AND DISPOSAL:

Records re kept indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Associate Deputy Attorney General, Office of the Deputy Attorney General, United States Department of Justice, 10th and Constitution Avenue, NW., Washington, DC 20530.

NOTIFICATION PROCEDURE:

Address all inquiries to the system manager. These records will be exempted from subsections (c)(3) and *(4); (d); (e)(1), (2), (3) and (5); and (g) of the Privacy Act* pursuant to 5 U.S.C. 552a(j)(2), (k)(1), (k)(2), and (k)(5)..

RECORD ACCESS PROCEDURES:

Make all requests for access to records from this system in writing to the system manager, and clearly mark both the letter and envelope "Privacy Act Request."

CONTESTING RECORD PROCEDURES:

Make all requests to contest or amend information maintained in the system in writing to the system manager. State clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment(s) to the information.

RECORD SOURCE CATEGORIES:

Sources of information contained in this system include individuals, State, local and foreign government agencies as appropriate, the executive and legislative branches of the Federal Government, and interested third parties.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Attorney General has exempted this system from subsections (c)(3) and *(4); (d); (e)(1), (2), (3) and (5); and (g) of the Privacy Act* pursuant to 5 U.S.C. 552a(j)(2), (k)(1), (k)(2), and (k)(5). Rules have been promulgated in accordance with the requirement of 5 U.S.C. 553(b), (c) and (e) and have been published in the **Federal Register.** These exemptions apply only to the extent that information in a record pertaining to a particular individual relates to official Federal investigations and law enforcement matters. Those files indexed under an individual's name and which concern policy formulation or administrative matters are not being exempted pursuant to 5 U.S.C. 552(j)(2), (k)(1), (k)(2), or (k)(5).

Justice/AAG-001

SYSTEM NAME:

General Files System of the Office of the Associate Attorney General.

SYSTEM LOCATION:

Office of the Associate Attorney General, United States Department of Justice, 10th and Constitution Avenue, NW, Washington, DC 20530.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The system encompasses individuals who relate to official federal investigations, policy decisions and administrative matters of such significance that the Associate Attorney General maintains information indexed to the name of that individual including, but not limited to, subjects of litigation, targets of investigations, Members and staff members of Congress, upper-echelon government officials, and individuals of national prominence or notoriety.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records may include case files, litigation materials, exhibits, internal memoranda and reports, or other records on a given subject or individual. Records vary in number and kind according to the breadth of the Associate Attorney General's responsibilities (28 CFR 0.10) and are limited to those which are of such significance that the Associate Attorney General has investigative, policy, law enforcement, or administrative interest. An index record containing the subject title and/or individual's name is also maintained in the form of a paper logging system.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

These records are maintained pursuant to 5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records may be disclosed to the news media and the public pursuant to 28 CFR 50.2 unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of privacy.

These records may be disclosed to a Member of Congress or staff acting on the Member's behalf when the Member or staff requests the information for investigative or policymaking purposes or to provide constituent assistance.

These records may be disclosed to members of the judicial branch of the Federal Government in response to a specific request where disclosure appears relevant to the authorized function of the recipient judicial office or court system.

These records may be disclosed to any civil or criminal law enforcement authorities, whether Federal, State, local, or foreign, which requires information relevant to a civil or criminal investigation.

These records may be disclosed to the National Archives and Records Administration (NARA) in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

These records may be disclosed to officials and employees of the White House or any Federal agency which requires information relevant to an agency decision concerning the hiring, appointment, or retention of an employee, the issuance of a security clearance, the conducting of a security or suitability investigation, the classifying of a job, or the issuance of a grant or benefit.

These records may be disclosed to Federal, State, and local licensing agencies or associations which require information concerning the eligibility or suitability of an individual for a license or permit.

These records may be disclosed in a proceeding before a court or adjudicative body before which the Office of the Associate Attorney General, is authorized to appear when (a) the Office of the Associate Attorney General, or any subdivision thereof, or (b) any employee of the Office of the Associate Attorney General in his or her official capacity, or (c) any employee of the Office of the Associate Attorney General in his or her individual capacity where the Department of Justice has agreed to represent the employee, or (d) the United States, where the Office of the Associate Attorney General determines that litigation is likely to affect it or any of its subdivisions, is a party to litigation or has an interest in litigation and such records are determined by the Office of the Associate Attorney General to be arguably relevant to the litigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored in paper folders. An index record containing the subject title and/or individual's name is also maintained in the form of a paper logging system.

RETRIEVABILITY:

By subject title or individual's name.

SAFEGUARDS:

Records are maintained in locked cabinets stored in a locked room or, in the case of those records that are classified, in safes or vaults stored in a locked room.

RETENTION AND DISPOSAL:

Records are kept indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Deputy Associate Attorney General, Office of the Associate Attorney General, United States Department of Justice, 10th and Constitution Avenue, NW., Washington, DC 20530.

NOTIFICATION PROCEDURE:

Address all inquiries to the system manager. These records will be exempted from subsections (c)(3) and *(4); (d); (e)(1), (2), (3) and (5); and (g) of the Privacy Act* pursuant to 5 U.S.C. 552a(j)(2), (k)(1), (k)(2), and (k)(5).

RECORD ACCESS PROCEDURES:

Make requests for access to records from this system in writing to the system manager, and clearly mark both the letter and envelope "Privacy Act Request."

CONTESTING RECORD PROCEDURES:

Make all requests to contest or amend information maintained in the system in writing to the system manager. State clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment(s) to the information.

RECORD SOURCE CATEGORIES:

Source of information contained in this system include individuals, State, local and foreign government agencies as appropriate, the executive and legislative branches of the Federal Government, and interested third parties.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Attorney General has exempted this system from subsections (c)(3) and *(4); (d); (e)(1), (2), (3) and (5); and (g) of the Privacy Act* pursuant to 5 U.S.C. 522a(j)(2), (k)(1), (k)(2), and (k)(5). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553(b), (c) and (e) and have been published in the **Federal Register**. These exemptions apply only to the extent that information in a record pertaining to a particular individual relates to official Federal investigations and law enforcement matters. Those files indexed under an individual's name which concern policy formulation or administrative matters are not being exempted pursuant to 5 U.S.C. 522a(j)(2), (k)(1), (k)(2), or (k)(5).

JUSTICE/OIG-001

SYSTEM NAME:

Office of the Inspector General *Investigative Records* (JUSTICE/OIG–001).

SYSTEM LOCATION:

U.S. Department of Justice, 10th and Constitution Avenue, NW., Washington, DC 20530.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

In connection with its investigative duties, the Office of the Inspector General (OIG) will maintain records on the following categories of individuals:

a. Individuals or entities who are or have been the subject of inquiries or investigations conducted by the OIG including current and former employees of the Department of Justice, current and former consultants, contractors, and subcontractors with whom the Department has contracted and their employees, grantees to whom the Department has awarded grants and their employees, and such other individuals or entities whose association with the Department relates to alleged violation(s) of the Department's rules of conduct, the Civil Service merit system, and/or criminal or civil law, which may affect the integrity or physical facilities of the Department of Justice.

b. Individuals who are witnesses; complainants; confidential or nonconfidential informants; and parties who have been identified by the OIG or by other agencies, by constituent units of the Department of Justice, or by members of the general public as potential subjects of or parties to an investigation under the jurisdiction of the OIG.

CATEGORIES OF RECORDS IN THE SYSTEM:

Information relating to investigations including:

a. Letters, memoranda, and other documents citing complaints or alleged criminal, civil, or administrative misconduct.

b. Investigative files which include: Reports of investigations to resolve allegations of misconduct or violations of law with related exhibits, statements, affidavits or records obtained during investigations; prior criminal or noncriminal records of individuals as they relate to the investigations; reports from or to other law enforcement bodies; information obtained from informants and identifying data with respect to such informants; nature of allegations made against suspects and

identifying data concerning such subjects; and public source materials.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Inspector General Act of 1978, 5 U.S.C. App., as amended by the Inspector General Act Amendments of 1988.

PURPOSE:

The Office of the Inspector General (OIG) for the Department of Justice will maintain this system of records in order to conduct its responsibilities pursuant to the Inspector General Act of 1978, 5 U.S.C. App., as amended by the Inspector General Act Amendments of 1988. The OIG is statutorily directed to conduct and supervise investigations relating to programs and operations of the Department of Justice, to promote economy, efficiency, and effectiveness in the administration of such programs and operations, and to prevent and detect fraud, waste, and abuse in such programs and operations. Accordingly, the records in this system are used in the course of investigating individuals and entities suspected of having committed illegal or unethical acts and in conducting related criminal prosecutions, civil proceedings, or administrative actions.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Records in this system may be disclosed as follows:

a. In the event that records indicate a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute, or by rule, regulation, or order pursuant thereto, or if records indicate a violation or potential violation of a contract, the relevant records may be disclosed to the appropriate agency, whether Federal, state, local, foreign, or international charged with the responsibility of investigating or prosecuting such violation, enforcing or implementing such statute, rule, regulation, or order, or with enforcing such contract.

b. A record may be disclosed to a Federal, State, local, foreign, or international agency, or to an individual or organization when necessary to elicit information which will assist an investigation, inspection, or audit.

c. A record may be disclosed to a Federal, State, local, foreign, or international agency maintaining civil, criminal, or other relevant information if necessary to obtain information relevant to an OIG decision concerning the assignment, hiring, or retention of an individual, the issuance or revocation of a security clearance, the reporting of an investigation of an individual, the letting of a contract, or the issuance or revocation of a license, grant, or other benefit.

d. A record may be disclosed to a Federal, State, local, foreign, or international agency in response to its request in connection with the assignment, hiring, or retention of an individual, the issuance or revocation of a security clearance, the reporting of an investigation of an individual, letting of a contract, or the issuance or revocation of a license, grant, or other benefit by the requesting agency to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

e. A record may be disclosed to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of, and the request of, the individual who is the subject of the record.

f. Relevant records may be disclosed to an administrative forum, including Ad Hoc forums, which may or may not include an Administrative Law Judge, and which may or may not convene public hearings/proceedings, or to other established adjudicatory or regulatory agencies, e.g., the Merit Systems Protection Board, the National Labor Relations Board, or other agencies with similar or related statutory responsibilities, where necessary to adjudicate decisions affecting individuals who are the subject of OIG investigations and/or who are covered by this system, including (but not limited to) decisions to effect any necessary remedial actions, e.g., the initiation of debt collection activity, disciplinary and/or other appropriate personnel actions, and/or other law enforcement related actions, where appropriate.

g. A record may be disclosed to the National Archives and to the General Services Administration during a records management inspection conducted under 44 U.S.C. 2904 and 2906.

h. Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be added available unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Information in this system is stored manually in file jackets and electronically in office automation equipment.

RETRIEVABILITY:

Entries are arranged alphabetically and are retrieved with reference to the surnames of the individuals covered by this system of records.

SAFEGUARDS:

Information is stored in safes, locked filing cabinets, and office automation equipment in secured rooms or in guarded buildings, and is used only by authorized, screened personnel. Manual records are in locked cabinets or in safes and can be accessed by key or combination formula only. Passwords are required to access the automated data.

RETENTION AND DISPOSAL:

Records in this system are retained and disposed of in accordance with General Records Schedule 22.

SYSTEM MANAGER(S) AND ADDRESS:

Office of the General Counsel, Office of the Inspector General, Department of Justice, 10th and Constitution Avenue NW, Washington, DC 20530.

NOTIFICATION PROCEDURE:

Address inquiries to the System Manager listed above.

RECORDS ACCESS PROCEDURES:

The major part of this system is exempted from this requirement pursuant to 5 U.S.C. 552a(j)(2), (k)(1), (k)(2). To the extent that this system of records is not subject to exemption, it is subject to access. A determination as to exemption shall be made at the time a request for access is received. A request for access to records contained in this system shall be made in writing, with the envelope and the letter clearly marked "Privacy Access Request." Include in this request the full name of the individual involved, his or her current address, date and place of birth, notarized signature, and any other identifying number or information which may be of assistance in locating the record. The requester shall also provide a return address for transmitting the information. Access requests shall be directed to the System Manager listed above.

CONTESTING RECORD PROCEDURES:

The major part of this system is exempted from this requirement pursuant to 5 U.S.C. 552a(j)(2), (k)(1), or (k)(2). To the extent that this system of records is not subject to exemption, it is subject to access and contest. A detemination as to exemption shall be

made at the time a request for contest is received. Requesters shall direct their request to the System Manager listed above, stating clearly and concisely what information is being contested, the reason for contesting it, and the proposed amendment to the information.

RECORD SOURCE CATEGORIES:

The subjects of investigations; individuals with whom the subjects of investigations are associated; current and former Department of Justice officers and employees; Federal, State, local and foreign law enforcement and non-law enforcement agencies; private citizens; witnesses; confidential and nonconfidential informants; and public source materials.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Attorney General has exempted this system from subsections (c)(3) and (4), (d), (e)(1), (2), (3), (5) and (8), and (g) of the Privacy Act pursuant to 5 U.S.C. 552a(j)(2). In addition, the system has been exempted from subsections (c)(3), (d), and (e)(1), pursuant to subsections (k)(1) and (k)(2). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553(b), (c) and (e) and have been published in the Federal Register.

JUSTICE/ATR-002

SYSTEM NAME:

Congressional and White House Referral Correspondence Log File.

SYSTEM LOCATIONS:

U.S. Department of Justice; 10th & Constitution Avenue, NW., Washington, DC 20530.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Present and former members of Congress and citizens whose correspondence is received directly or referred by members of Congress or Congressional or White House staff.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system contains an index record to correspondence from citizens, present and former members of the Congress and *Congressional or* White House staff.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Authority for the establishment and maintenance of this system exists under 44 U.S.C. 3101 and 5 U.S.C. 301.

PURPOSE(S):

The purpose of this system is to enable Antitrust Division personnel to monitor responses and identify other material related to citizen inquiries and inquiries or referrals by members or committees of the Congress *and their staffs* and by the White House staff.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

A record maintained in this system, or any facts derived therefrom, may be disseminated in a proceeding before a court or adjudicative body before which the Antitrust Division is authorized to appear, when (1) the Antitrust Division, or any subdivision thereof; or (2) any employee of the Antitrust Division in his or her official capacity; or (3) any employee of the Antitrust Division in his or her individual capacity where the Department of Justice has agreed to represent the employee; or (4) the United States, or any agency or subdivision thereof; or (5) the United States, where the Antitrust Division determines that the litigation is likely to affect it or any of its subdivisions, is a party to litigation and such record are determined by the Antitrust Division to be arguably relevant to the litigation.

Release of information to the news media: Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available from systems of records maintained by the Department of Justice unless it is determined the release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Release of information to Members of Congress. Information contained in systems of records maintained by the Department of Justice, not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

Release of information to the National Archives and Records Administration (NARA) and to the General Services Administration (GSA): A record from a system of records may be disclosed as a routine use to NARA and GSA in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper documents are stored in looseleaf binders and file folders; abbreviated or summarized information is stored in a computerized tracking system.

RETRIEVABILITY:

Inquiry and response documents are retrieved by date or through manual and automated indexes which are accessed by name, subject matter, control number, etc. Summary data on inquiries received prior to March 7, 1983, is retrieved from the manual index cards; as of March 7, 1983, a summary data is retrieved from magnetic disks and tapes. Summary data consists of data elements as Congressional Member or constituent name, subject matter, date of inquiry, date assigned, date of response, etc.

SAFEGUARDS:

Information contained in the system is unclassified. During working hours access to the system is controlled and monitored by Antitrust division personnel in the area where the system is maintained; during non-duty hours all doors to such area are locked. In addition only Antitrust Division personnel who have a need for the information contained in the system have the appropriate password for access to the system.

RETENTION AND DISPOSAL:

Indefinite.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Legislative Unit; Antitrust Division; U.S. Department of Justice; 10th & Constitution Avenue, NW., Washington, DC 20530.

NOTIFICATION PROCEDURE:

Address inquiries to the Assistant Attorney General; Antitrust Division; Department of Justice; 10th & Constitution Avenue NW., Washington, DC 20530.

RECORD ACCESS PROCEDURES:

Requests for access for a record from this system shall be written and clearly identified as "Privacy Access Request". The request should include the name of the member of Congress or White House staff originating a request or referral and the date thereof. Requester should indicate a return address.

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should state clearly and concisely what information is being contested, the reasons for contesting it and the proposed amendment to the information sought.

RECORD SOURCE CATEGORIES:

Source of information maintained in the system are those records reflecting inquiries or referrals of citizen correspondence by present and former members of Congress *and Congressional* or White House staff.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

JUSTICE/FBI 001

SYSTEM NAME:

National Crime Information Center (NCIC).

SYSTEM LOCATION:

Federal Bureau of Investigation: J. Edgar Hoover Bldg., 10th and Pennsylvania Avenue NW., Washington, DC 20535.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

A. Wanted Persons: 1. Individuals for whom Federal warrants are outstanding.

2. Individuals who have committed or have been identified with an offense which is classified as a felony or serious misdemeanor under the existing penal statutes of the jurisdictions originating the entry and felony or misdemeanor warrant has been issued for the individual with respect to the offense which was the basis of the entry. Probation and parole violators meeting the foregoing criteria.

3. A "Temporary Felony Want" may be entered when a law enforcement agency has need to take prompt action to establish a "want" entry for the apprehension of a person who has committed, or the officer has reasonable grounds to believe has committed, a felony and who may seek refuge by fleeing across jurisdictionary boundaries and circumstances preclude the immediate procurement of a felony warrant. A "Temporary Felony Want" shall be specifically identified as such and subject to verification and support by a proper warrant within 48 hours following the initial entry of a temporary want. The agency originating the "Temporary Felony Want" shall be responsible for subsequent verification or re-entry of a permanent want.

4. Juveniles who have been adjudicated delinquent and who have escaped or absconded from custody, even though no arrest warrants were issued. Juveniles who have been charged with the commission of a delinquent act that would be a crime if committed by an adult, and who have fled from the state where the act was committed.

5. Individuals who have committed or have been identified with an offense committed in a foreign country, which would be a felony if committed in the United States, and for whom a warrant of arrest is outstanding and for which act an extradition treaty exists between the United States and that country.

6. Individuals who have committed or have been identified with an offense committed in Canada and for whom a Canada-Wide Warrant has been issued which meets the requirements of the Canada-U.S. Extradition Treaty, 18 U.S.C. 3184.

B. Individuals who have been charged with serious and/or significant offenses.

C. Missing Persons: 1. A person of any age who is missing and who is under proven physical/mental disability or is senile, thereby subjecting himself or others to personal and immediate danger.

2. A person of any age who is missing under circumstances indicating that his disappearance was not voluntary.

3. A person of any age who is missing under circumstances indicating that his physical safety is in danger.

4. A person who is missing and declared unemancipated as defined by the laws of his state of residence and does not meet any of the entry criteria set forth in 1, 2, or 3 above.

D. Individuals designated by the U.S. Secret Service as posing a potential danger to the President and/or other authorized protectees.

E. Unidentified Persons: 1. Any unidentified deceased person. 2. Any person who is living and unable to ascertain his/her identity (e.g., infant, amnesia victim). 3. Any unidentified catastrophe victim. 4. Body parts when a body has been dismembered.

CATEGORIES OF RECORDS IN THE SYSTEM:

A. Stolen Vehicle File: 1. Stolen vehicles. 2. Vehicles wanted in conjunction with felonies or serious misdemeanors. 3. Stolen vehicle parts including certificates of origin or title.

B. Stolen License Plate File: 1. Stolen or missing license plate.

C. Stolen/Missing Gun File: 1. Stolen or missing guns. 2. Recovered guns, when ownership of which has not been established.

D. Stolen Article File.

E. Wanted Persons File: Described in "CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM. A. Wanted Persons."

F. Securities File: 1. Serially numbered stolen, embezzled, counterfeited, missing securities.

2. "Securities" for present purposes of this file are currency (e.g., bills, bank notes) and those documents or certificates which generally are considered to be evidence of debt (e.g., bonds, debentures, notes) or ownership of property (e.g., common stock, preferred stock), and documents which represent subscription rights, warrants and which are of those types traded in the securities exchanges in the United States, except for commodities futures. Also included are warehouse receipts, travelers checks and money orders.

G. Stolen Boat File

H. Computerized Criminal History File: A cooperative Federal-state program for the interstate exchange of criminal history record information for the purpose of facilitating the interstate exchange of such information among criminal justice agencies.

I. Missing Person File: Described in "CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM: C. Missing persons."

J. U.S. Secret Service Protective File: Described in "CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM: D."

K. Identification records regarding persons enrolled in the United States Marshals Service Witness Security Program who have been charged with serious and/or significant offenses: Described in "CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM: B."

L. Foreign Fugitive File: Identification data regarding persons who are fugitives from foreign countries, who are described in "CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM: A. Wanted Persons, 5."

M. Canadian Warrant File: Identification data regarding Canadian wanted persons who are described in "CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM: A. Wanted Persons, 6."

N. Unidentified Person File: Described in "CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM: E. Unidentified Persons."

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

The system is established and maintained in accordance with 28 U.S.C. 534; Department of Justice Appropriation Act, 1973, Pub. L. 92–544, 86 Stat. 1115, Securities Acts Amendment of 1975, Pub. L. 94–29, 89 Stat. 97; and Exec. Order No. 10450, 3 CFR (1974).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Data in NCIC files is exchanged with and for the official use of authorized

officials of the Federal Government, the States, cities, penal and other institutions, and certain foreign governments. The data is exchanged through NCIC lines to Federal criminal justice agencies, criminal justice agencies in the 50 States, the District of Columbia, Puerto Rico, U.S. Possessions and U.S. Territories. Additionally, data contained in the various "want files," i.e., the stolen vehicle file, stolen license plate file, stolen missing gun file, stolen article file, wanted person file, securities file and boat file may be accessed by the Royal Canadian Mounted Police. Criminal history data is disseminated to non-criminal justice agencies for use in connection with licensing for local/state employment or other uses, but only where such dissemination is authorized by Federal or state statutes and approved by the Attorney General of the United States.

Data in NCIC files, other than the Computerized Criminal History File, is disseminated to (1) a nongovernmental agency or submit thereof which allocates a substantial part of its annual budget to the administration of criminal justice, whose regularly employed peace officers have full police powers pursuant to state law and have complied with the minimum employment standards of governmentally employed police officers as specified by state statute; (2) a noncriminal justice governmental department of motor vehicle or driver's license registry established by a statute, which provides vehicles registration and driver record information to criminal justice agencies; (3) a governmental regional dispatch center, established by a state statute, resolution, ordinance or Executive order, which provides communications services to criminal justice agencies; and (4) the national Automobile Theft Bureau, a nongovernmental nonprofit agency which acts as a national clearinghouse for information on stolen vehicles and offers free assistance to law enforcement agencies concerning automobile thefts, identification and recovery of stolen vehicles.

Disclosures of information from this system, as described above, are for the purpose of providing information to authorized agencies to facilitate the apprehension of fugitives, the location of missing persons, the location and/or return of stolen property, or similar criminal justice objectives.

Information on missing children, missing adults who were reported missing while children, and unidentified living and deceased persons may be disclosed to the National Center for Missing and Exploited Children (NCMEC). The NCMEC is a nongovernmental, nonprofit, federally funded corporation, serving as a national resource and technical assistance clearinghouse focusing on missing and exploited children. Information is disclosed to NCMEC to assist it in its efforts to provide technical assistance and education to parents and local governments regarding the problems of missing and exploited children, and to operate a nationwide missing children hotline to permit members of the public to telephone the Center from anywhere in the United States with information about a missing child.

In addition, information may be released to the news media and the public pursuant to 28 CFR 50.2, unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy;

To a Member or Congress of staff acting upon the member's behalf whom the member or staff requests the information on behalf of and at the request of the individual who is the subject of the record; *and,*

To the National Archives and Records Administration and the General Services Administration in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Information maintained in the NCIC system is stored electronically for use in a computer environment.

RETRIEVABILITY:

On-line access to data in NCIC is achieved by using the following search descriptors. 1. Vehicle file:

(a) Vehicle identification number;

(b) License plate number;

(c) NCIC number (unique number assigned by the NCIC computer to each NCIC record); *(d) Owner applied number.* 2. License Plate File: (a) License plate number; (b) NCIC number. 3. Gun file: (a) Serial number of gun; (b) NCIC number. 4. Article File: (a) Serial number of article; (b) NCIC number; *(c) Owner applied number.* 5. Wanted Person File, U.S. Secret Service Protective File, Foreign Fugitive File, and Canadian Warrant File: (a) Name and one of the following numerical identifiers, date of birth, FBI Number (number assigned by the Federal Bureau of Investigation to an arrest fingerprint record). Social Security number (it is noted the requirements of the Privacy Act with regard to the solicitation of Social Security numbers have been brought to the attention of the members of the NCIC system). Operator's license number (drivers number). Miscellaneous identifying number (military number or number assigned by Federal, state, or local authorities to an individual's record). Origination agency case number. (b) Vehicle or license plate known to be in the possession of the wanted person. (c) NCIC number (unique number assigned to each NCIC record). 6. Securities File: (a) Type, serial number, denomination of security; (b) Type of security and name of owner of security; (c) Social Security number of owner of security; (d) NCIC number. 7. Boat File: (a) Registration document number; (b) Hull serial number; (c) NCIC number. 8. Computerized Criminal History File: (a) Name, sex, race and date of birth; (b) FBI number; (c) State identification number; (d) Social Security number; (e) Miscellaneous number. 9. Missing Person File: Same as "Wanted Person" File, plus the age, sex, race, height and weight, eye and hair color, of the missing individual. 10. Unidentified Person File: Age, sex, race, height and weight, eye and hair color, of the unidentified individual.

SAFEGUARDS:

Data stored in the NCIC is documented criminal justice agency information and access to that data is restricted to duly authorized criminal justice agencies. The following security measures are the minimum to be adopted by all criminal justice agencies having access to the NCIC.

Computerized Criminal History File. These measures are designed to prevent unauthorized access to the system data and/or unauthorized use of data obtained from the computerized file.

1. Computer Center: a. The criminal justice agency computer site must have adequate physical security to protect against any unauthorized personnel gaining access to the computer equipment or to any of the stored data. b. Since personnel at these computer centers can have access data stored in the system, they must be screened thoroughly under the authority and supervision of an NCIC control terminal agency. [This authority and supervision may be delegated to responsible criminal justice agency personnel in the case of a satellite computer center being serviced through a stated control terminal agency.) This screening will also apply to non-criminal justice maintenance or technical personnel. c. All visitors to these computer centers must be accompanied by staff personnel at all times. d. Computers having access to the NCIC must have the proper computer instructions written and other built-in controls to prevent criminal history data from being accessible to any terminals other than authorized terminals. e. Computers having access to the NCIC must maintain a record of all transactions against the criminal history file in the same manner the NCIC computer logs all transactions. The NCIC identifies each specific agency entering or receiving information and maintains a record of those transactions. This transaction record must be monitored and reviewed on a regular basis to detect any possible misuse of criminal history data. f. Each State Control terminal shall build its data system around a central computer, through which each inquiry must pass for screening and verification. The configuration and operation of the center shall provide for the integrity of the data base.

2. Communications: a. Lines/channels being used to transmit criminal history information must be dedicated solely to criminal justice, i.e., there must be no terminals belonging to agencies outside the criminal justice system sharing these lines/channels. b. Physical security of the lines/channels must be protected to guard against clandestine devices being utilized to intercept or inject system traffic.

3. Terminal Devices Having Access to NCIC: a. All agencies having terminals on this system must be required to physically place these terminals in secure locations within the authorized agency. b. The agencies having terminals with access to criminal history must have terminal operators screened and restricted access to the terminal to a minimum number of authorized employees. c. Copies of criminal history data obtained from terminal devices must be afforded security to prevent any unauthorized access to or use of the data. d. All remote terminals on NCIC Computerized Criminal History will maintain a hard copy of computerized criminal history inquiries with notations of individual making request for record (90 days).

RETENTION AND DISPOSAL:

Unless otherwise removed, records will be retained in files as follows:

1. Vehicle File: a. Unrecovered stolen vehicle records (including snowmobile records) which do not contain vehicle identification numbers (VIN) therein, will be purged from file 90 days after date of entry. Unrecovered stolen vehicle records (including snowmobile records) which contain VIN's will remain in file for the year of entry plus

b. Unrecovered vehicles wanted in conjunction with a felony will remain in file for 90 days after entry. In the event a longer retention period is desired, the vehicle must be reentered. c. Unrecovered stolen VIN plates, certificates of origin or title, and serially numbered stolen vehicles engines or transmissions will remain in file for the year of entry plus 4.

(Job No. NC1–65–82–4, Part E. 13 h.(1))

2. License Plate File: Unrecovered stolen license plates will remain in file for one year after the end of the plate's expiration year as shown in the record.

(Job No. NC1–65–82–4, Part E. 13 h.(2))

3. Gun file: a. Unrecovered weapons will be retained in file for an indefinite period until action is taken by the originating agency to clear the record. b. Weapons entered in file as "recovered" weapons will remain in file for the balance of the year entered plus 2.

(Job No. NC1–65–82–4, Part E. 13 h.(3))

4. Article File: Unrecovered stolen articles will be retained for the balance of the year entered plus one year.

(Job No. NC1–65–82–4, Part E. 13 h.(4))

5. Wanted Person File: Person not located will remain in file indefinitely until action is taken by the originating agency to clear the record (except "Temporary Felony Wants", which will be automatically removed from the file after 48 hours).

(Job No. NC1–65–87–114, Part E. 13 h.(7))

6. Securities File: Unrecovered, stolen, embezzled, counterfeited or missing securities will be retained for the balance of the year entered plus 4, except for travelers checks and money orders, which will be retained for the balance of the year entered plus 2.

(Job No. NC1–65–82–4, Part E. 13 h.(5))

7. Boat File: Unrecovered stolen boats will be retained in file for the balance of the year entered plus 4. Unrecovered stolen boat records which do not contain a hull serial number will be purged from file 90 days after date of entry.

(Job No. NC1–65–82–4, Part E. 13 h.(6))

8. Missing Persons File: Will remain in the file until the individual is located.

(Job No. NC1–65–87–11, Part E. 13 h.(8))

9. Computerized Criminal History File: When an individual reaches age of 80.

(Job No. NC1–65–76–1)

10. U.S. Secret Service Protective File: Will be retained until names are removed by the U.S. Secret Service.

11. Foreign Fugitive File: Person not located will remain in file indefinitely until action is taken by the originating agency to clear the record.

12. Canadian Warrant File: Person not located will remain in file indefinitely until action is taken by the originating agency to clear the record.

13. Unidentified Person File: Will be retained for the remainder of the year of entry plus 9.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Federal Bureau of Investigation, J. Edgar Hoover Building, 10th and Pennsylvania Avenue NW., Washington, DC 20535.

NOTIFICATION PROCEDURES:

Same as the above.

RECORD ACCESS PROCEDURE:

It is noted the Attorney General is exempting this system from the access and contest procedures of the Privacy Act. However, the following alternative procedures are available to requester. The procedures by which an individual may obtain a copy of his computerized Criminal History are as follows:

If an individual has a criminal record supported by fingerprints and that record has been entered in the NCIC CCH File, it is available to that individual for review, upon presentation of appropriate identification and in accordance with applicable State and Federal administrative and statutory regulations.

Appropriate identification includes being fingerprinted for the purpose of insuring that he is the individual that he purports to be. The record on file will then be verified as his through comparison of fingerprints.

Procedure 1. All requests for review must be made by the subject of his record through a law enforcement agency which has access to the NCIC CCH File. That agency within statutory or regulatory limits can require additional identification to assist in securing a positive identification.

2. If the cooperative law enforcement agency can make an identification with fingerprints previously taken which are on file locally and if the FBI identification number of the individual's record is available to that agency, it can make an on-line inquiry of NCIC to obtain his record on-line or, if it does not have suitable equipment to obtain an on-line response, obtain the record from Washington, DC by mail. The

individual will then be afforded the opportunity to see that record.

3. Should the cooperating law enforcement agency not have the individual's fingerprints on file locally, it is necessary for that agency to relate his prints to an existing record by having his identification prints compared with those already on file in the FBI or possibly in the State's central identification agency.

CONTESTING RECORD PROCEDURES:

The subject of the requested record shall request the appropriate arresting agency, court, or correctional agency to initiate action necessary to correct any stated inaccuracy in his record or provide the information needed to make the record complete.

RECORD SOURCE CATEGORIES:

Information contained in the NCIC system is obtained from local, State, Federal and international criminal justice agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Attorney General has exempted this system from subsection (c)(3) and (4), (d), (e) (1) (2), and (3), (e)(4) (G), (H), (e)(8) (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a(j)(2) and (k)(3).Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553(b), (c) and (e) and have been published in the **Federal Register.**

JUSTICE/FBI 006

SYSTEM NAME:

Electronic Surveillance (Elsur) Indices.

SYSTEM LOCATION:

Federal Bureau of Investigation, J. Edgar Hoover Bldg., 10th and Pennsylvania Ave., NW., Washington, DC 20535. Those field offices which have sought conducted electronic surveillances also maintain an index. See appendix to System *002.*

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have been the targets of direct electronic surveillance coverage by FBI in a court order, those whose communications have been monitored/intercepted by an FBI electronic surveillance installation, those who won, lease, or license premises subjected to electronic surveillance coverage sought by the FBI in a court order.

CATEGORIES OF RECORDS IN THE SYSTEM:

The ELSUR Index is comprised of three types of *automated records:* 1. Principal identify, by true name or best known name, all interceptees (targets) identified in an application filed by the FBI in support of an affidavit seeking a court order to conduct an electronic surveillance; 2. Proprietary Interest identify entities and/or individuals who own, lease, license or otherwise hold a possessory interest in locations subjected to an electronic surveillance sought by the FBI in a court order; and, 3. Overhear identify by true name or best known name, individuals and/or entities who have been reasonably identified by a first name or initial and a last name at being a party to a communication monitored/intercepted by the FBI.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

The ELSUR Index was initiated in October, 1966, at the recommendation of the Department of Justice and relates to electronic surveillances conducted/sought by the FBI since 1/1/60. The authority for the maintenance of these records is Title 5, Section 301, USC which grants the Attorney General the authority to issue rules and regulations prescribing how Department of Justice information can be employed. Title 18, U.S.C. Section 3504, also sets forth recordkeeping requirements.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Elsur Indices are utilized: (1) To respond to judicial inquires about possible electronic surveillance coverage of witnesses, defendants, or attorneys involved in Federal court proceedings, and (2) To enable the Government to certify whether a person regarding whom court-order authority is being sought for electronic coverage has ever been so covered in the past. The actual users of the indices are always employees of the FBI.

In addition, information may be released to the news media and the public pursuant to 28 CFR 50.2 unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy;

Member of Congress or staff acting upon the Member's behalf when the member or staff requests the information on behalf of and at the request of the individual who is the subject of the record; and, to the National Archives and Records Administration and the General Services Administration in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906 to the extent that legislation governing the records permits.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The records are maintained *in an automated data base.*

RETRIEVABILITY:

Names/facilities are *retrievable* alphabetically. Telephone numbers and other such serial or identification numbers targeted are *retrievable* numerically. Locations targeted are indexed by address and *are retrieable* by street name.

SAFEGUARDS:

Access to the automated indices is restricted through the use of an access code by FBI personnel only.

RETENTION AND DISPOSAL:

Until advised to the contrary by the Department, the courts or Congress, these indices will be maintained indefinitely. The indices have been declared permanent by NARA. (Job No. NC1–65–82–4, Part E. 2. t.)

SYSTEM MANAGER(S) AND ADDRESS:

Director, Federal Bureau of Investigation, Washington, DC 20535.

NOTIFICATION PROCEDURE:

Same as the above.

RECORD ACCESS PROCEDURES:

Inquiry addressed to Director, FBI, Washington, D.C., 20535.

CONTESTING RECORD PROCEDURES:

Same as the above.

RECORD SOURCE CATEGORIES:

Category of Individual.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Attorney General has exempted this system from subsections (c)(3) and (4), (d), (e), (1), (2) and (3), (e)(4) (G) and (H), (e) (5) and (8), (f), (g) and (m) of the Privacy Act pursuant to 5 U.S.C. 552a(j). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553(b), (c) and (e) and have been published in the **Federal Register.**

JUSTICE/FBI–011

SYSTEM NAME:

Employee Health Records.

SYSTEM LOCATION:

Federal Bureau of Investigation, Administrative Services Division, Health Service, J. Edgar Hoover Bldg., 10th and Pennsylvania Avenue, NW., Washington, DC 20535 and the following field offices: New York, Newark, Philadelphia, Chicago, Los Angeles, San Francisco, and FBI Academy, Quantico, Virginia. Addresses for field offices can be found in the appendix of Field Offices for the Federal Bureau of Investigation in System notice Justice/FBI 002.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current and former employees of the FBI.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records of visits to health facilities relating to sickness, injuries or accidents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

The head of each agency is responsible, under 5 U.S.C. 7902, for keeping a record of injuries and accidents to its employees and for reducing accidents and health risks. These records are maintained under the general authority of 5 U.S.C. 301 so that the FBI can be kept aware of the health related matters of its employees and more expeditiously identify them.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USERS:

These records are maintained by the FBI to identify matters relating to the health of its present and former employees. Information is available to employees of the FBI whose job function relates to identifying and resolving health matters of former and current personnel of the FBI.

In addition, information may be released to the National Archives and Records Administration and the General Services Administration in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING RECORDS IN THE SYSTEM:

STORAGE:

Previous procedure of creation and maintenance of 3×5 index cards to record individual health service visits has been phased out and a clinical folder is created to maintain an employee health record and SF 510, "Nursing Notes". The information is maintained manually in a file folder.

RETRIEVABILITY:

By name.

SAFEGUARDS:

These records are maintained by FBI personnel during working hours and in locked file cabinets during non-working hours. Security guards further restrict access to the building to authorized personnel.

RETENTION AND DISPOSAL:

Remaining index cards will be destroyed 6 years after date of last entry (GRS #1, Item 19). The folder containing the health record and nursing notes will be maintained in the Health Unit for 5 years after the last entry. Thereafter, the contents of the folder will be transferred to the Employee Medical Folder, an appendage of the Office Personnel Folder.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Federal Bureau of Investigation, 9th and Pennsylvania Avenue, NW., Washington, DC 20535.

NOTIFICATION PROCEDURE:

Written inquiries, including name, address and social security number, to determine whether this system of records contains records about an individual may be addressed to Director, Federal Bureau of Investigation, 9th and Pennsylvania Avenue, NW., Washington, DC 20535, and/or individually to the field officers which maintain similar records.

RECORD ACCESS PROCEDURES:

CONTESTING RECORD PROCEDURES:

Written inquiries, including name, date of birth and social security number, requesting access or contesting the accuracy of records may be addressed to: Director, Federal Bureau of Investigation, 9th and Pennsylvania Avenue, NW., Washington, DC 20535, and the above-mentioned field offices at addresses referred to in system notice Justice/FBI 002.

RECORD SOURCE CATEGORIES:

Employees of the Federal Bureau of Investigation originate their own records. Nursing Notes appear on SF 510.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

JUSTICE/INS–003

SYSTEM NAME:

Position Accounting/Control System (PACS).

SYSTEM LOCATION:

Central Office, Immigration and Naturalization Service, 425 I Street NW., Washington, D.C.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Employees of the Immigration and Naturalization Service.

CATEGORIES OF RECORDS IN THE SYSTEM:

A. Position data: Position number; category code; organization code; position title; pay plan; series; grade; description; accounting classification code; active/inactive coder; fund control number; amount authorized; hours authorized; new program element code; input control number; input transaction code; SF–52 date; announcement date and number; Entered on Duty (EOD) date; date last classified; date position last audited or reviewed; date of transaction; position appeal date, if any; union coverage code appealed to code; position status code; competitive level code; remarks code.

B. Payroll data; Social Security Account Number (SSAN); pay period number; payroll subobject code; last pay period amount and hours; cumulative amount and hours; accrual amount and hours; prior month YTD amount and hours; payroll current/prior/manual (C/P/M) code.

C. Personnel data; position number; organization code; position title; pay plan; series; grade; description; accounting classification code; incumbent's name, Social Security Account Number, next Quality Step Increase (QSI) date; nature of action; transaction date; FLSA exemption code; and effective date.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 103 of the Immigration and Nationality Act, as amended (8 U.S.C. 1103); Delegation of Authority to Departments (5 U.S.C. 301); Position Management Systems and Employment Ceilings. Bureau of the Budget Circular No. A–64 (June 28, 1965; January 2, 1970).

PURPOSE(S):

Information in this system is used for reports to INS managers of position authorization and cost data by geographic area, organizational unit, program activity, and budget allocation, including the composition of the INS work force (on-board strength and vacancies); status of each vacancy; turnover and occupancy rate statistics; aggregate position data by grade level, organization unit, program activity, type of position, etc.; actual costs for each position and projected position costs for the next fiscal year; and authorization of positions through funds control and periodic review mechanisms.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Relevant information contained in this system of records may be disclosed as follows:

A. To the news media and the public pursuant to 28 CFR 50.2 unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

B. To a Member of Congress or staff acting upon the Member's behalf when the Member or staff request the information or behalf of and at the request of the individual who is the subject of the record.

C. To the National Archives and Records Administration and the General Services Administration records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Automated records are maintained on magnetic disk and tape at the Department of Justice Data Management Service. All other records are maintained as paper documents at the Central Office, 425 I Street NW., Washington, D.C. and four regional personnel offices.

RETRIEVABILITY:

Records are retrieved by position number, organization code, accounting classification code, or program element code.

Access Controls. Access to the system is restricted to employees of the Immigration and Naturalization Service responsible for position accounting and management. Biweekly reports are distributed only to authorized INS personnel. Remote terminals for additional access are located in areas restricted to authorized INS personnel.

SAFEGUARDS:

The data in the automated system of records is safeguarded and protected in accordance with Department of Justice and INS rules and procedures. Paper forms are stored in metal file cabinets which are locked outside of normal duty hours.

RETENTION AND DISPOSAL:

Records are deleted from the automated data base within 60 days after termination of the position authorization. Employee personnel information in the automated data base is deleted when the position becomes vacant. The data base is updated biweekly to maintain accurate, current information on position status and characteristics.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Resource Management Branch.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to the *Director, Resource Management Branch.* Immigration and Naturalization Service, 425 I Street NW., Washington, DC. 20536.

RECORD ACCESS PROCEDURES:

In all cases, requests for access to a record shall be in writing by mail or in person. If request for access is made by mail, the envelope and letter shall be clearly marked "Privacy Access Request." The requester shall include a description of the subject matter and, if known, the relating file number. To identify a record relating to an individual, requester should provide the individual's full name, date and place of birth, employee identification number and, if known, position number. The requester shall also provide a return address for transmitting the information.

CONTESTING RECORD PROCEDURES:

Any individual desiring to contest or amend information maintained in the system should direct his request to the *Director, Resource Management Branch.* The request should state clearly what information is being contested, the reasons for contesting it, and the proposed amendment to the information.

RECORD SOURCE CATEGORIES:

Position management data is obtained from official records in INS personnel offices. Payroll data is obtained from the computerized Department of Justice Payroll System (JUSTICE/OMF—003). Personnel management data is obtained from the Department of Justice Personnel System (JUNIPER).

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

JUSTICE/INS–006

SYSTEM NAME:

Alien Address Reports.

SYSTEM LOCATION:

Immigration and Naturalization Service (INS). *Headquarters.* 425 I Street NW, Washington, DC 20536.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Aliens *that were* required to report addresses *in 1980*: nonimmigrants; aliens lawfully admitted for permanent residence; aliens granted political asylum; refugees and other conditional entrants. (*The annual January requirement was terminated effective January 1, 1981.*)

CATEGORIES OF RECORDS IN THE SYSTEM:

This system contains an index and copies of Form I–53. Alien Address Report Card *for the year 1980, that provided the following alien identification information: last name, first, and middle; address in the U.S.; alien registration number (A-file No.); place entered the U.S.; date entered the U.S.; sex; country of birth, date of birth; country of citizenship; social security number (if any); occupation; employer; and signature and date.*

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Sections 103.285 and 290 of the Immigration and Nationality Act, as amended (8 U.S.C. 1103, 1305, and 1380).

PURPOSE(S):

The records in this system are used *for research and historical purposes.*

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Relevant information contained in this system of records may be disclosed as follows:

A. To a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of, and at the request of the individual who is the subject of the record.

B. To the National Archives and Records Administration and the General Services Administration in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

INS Central Office maintains a microfilm file of 1980 I–53 reports.

RETRIEVABILITY:

Records in the system are indexed and retrievable by name of the individual.

SAFEGUARDS:

Records are safeguarded in accordance with Department of Justice rules and procedures. INS offices are located in building, under security guard, and access to premises is by official identification. Access to automated systems is controlled by restricted passwords for use of remote terminals in secured areas.

RETENTION AND DISPOSAL:

Microfilm copies, index, reports, and magnetic tapes when no longer required will be offered to NARA for permanent detention in accordance with INS schedule NC1–85–78–8.

SYSTEM MANAGER AND ADDRESS:

Director, Records Management Branch, INS, *Headquarters,* 425 I Street, NW., Washington, DC 20536.

NOTIFICATION PROCEDURE:

Address your inquiries to the system manager identified above.

RECORD ACCESS PROCEDURE:

Make all requests for assess in writing to the Freedom of Information Act/Privacy Act (FOIA/PA) Officer at the address identified above. Clearly mark the envelope and letter "Privacy Act Request." Provide A-file number and/or the full name and date of birth, with a notarized signature of the individual who is the subject of the records, and a return address.

CONTESTING RECORD PROCEDURE:

Direct all requests to contest or amend information in the records to the FOIA/PA Officer at the address identified above. State clearly and concisely the information being contested, the reason for contesting it, and the proposed amendment thereof. Clearly mark the envelope and letter "Privacy Act Request." Provide A-file number and/or full name and date of birth, with a notarized signature of the individual who is the subject of the records, and a return address.

RECORD SOURCE CATEGORIES:

Information in the system is obtained from *the individuals covered by the system.*

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

JUSTICE/INS–012

SYSTEM NAME:

Deportable Alien Control System (DACS).

SYSTEM LOCATION:

Central, Regional, District, and other offices of the Immigration and Naturalization Service (INS) in the United States as detailed in JUSTICE/INS–999

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Aliens alleged to be deportable by INS.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system is a computer data base that contains biographic information about deportable aliens such as name, date and country of birth; United States and foreign addresses; file number, charge, amount of bond, hearing date, case assignment, scheduling date, section(s) of law under which deportability/excludability is alleged; data collected to support the INS position on deportability/excludability, including information on any criminal or subversive activities; date, place, and type of last entry into the United States; attorney/representative's identification number; family data, and other case-related information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

8 U.S.C. 1103, 1251, and 1252.

PURPOSE(S):

The system provides INS with an automated data base which assists in the deportation or detention of aliens in accordance with immigration and nationality laws. It also serves as a docket and control system by providing management with information concerning the status and/or disposition of deportable aliens.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM INCLUDING CATEGORIES OF USERS AND PURPOSE OF SUCH USES:

Relevant information contained in this system of records may be disclosed as follows:

A. To clerks and judges of Federal courts exercising jurisdiction over the deportable aliens in determining grounds for deportation.

B. To other Federal, State, and local government law enforcement and regulatory agencies and foreign governments, including the Department of Defense and all components thereof, the Department of State, the Department of Treasury, the Central Intelligence Agency, the Selective Service System, the United States Coast Guard, the United Nations, and INTERPOL, and individuals and organizations during the course of investigation in the processing of a matter or during a proceeding within the purview of the immigration and nationality laws to elicit information required by INS to carry out its functions and statutory mandates.

C. Where there is an indication of a violation or potential violation of law (whether civil, criminal or regulatory in nature), to the appropriate agency (whether Federal, State, local or foreign), charged with the responsibility of investigating or prosecuting such violations, or charged with enforcing or implementing the statute, rule, regulation or order issued pursuant thereto.

D. Where there is an indication of a violation or potential violation of the immigration and nationality laws, or of a general statute within INS jurisdiction or of a regulation, rule, or order issued pursuant thereto, to a court, magistrate, or administrative tribunal in the course of presenting evidence, and to opposing counsel during discovery.

E. Where there is an indication of a violation or potential violation of the law of another nation (whether civil or criminal), to the appropriate foreign government agency charged with enforcing or implementing such laws and to international organizations engaged in the collection and dissemination of intelligence concerning criminal activity.

F. To other Federal agencies for the purpose of conducting national intelligence and security investigations.

G. To a Member of Congress or staff acting on the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

H. To the General Services Administration and the National Archives and Records Administration in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are stored in a data base on magnetic disks.

RETRIEVABILITY:

These records are retrieved by name and/or date of birth, A-file number, or by alien's Bureau of Prisons number, when applicable.

SAFEGUARDS:

INS offices are located in buildings under security guard, and access to premises is by official identification. Access to terminals is limited to INS employees with user identification numbers. Access to records in this system is by restricted password and is further protected by secondary passwords.

RETENTION AND DISPOSAL:

Deportable alien case control and detention records are marked closed and retained for statistical purposes through the end of the fiscal year. Closed cases are archived and stored in

the database separate from the active cases. A retention and disposition schedule for the case summary and detention history records is currently being negotiated and will be submitted to the Archivist of the United States for approval.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Commissioner, Detention and Deportation, Immigration and Naturalization Service, 425 I Street, NW., Washington, DC 20536.

NOTIFICATION PROCEDURE:

Address inquiries to the system manager identified above

RECORDS ACCESS PROCEDURE:

Make all requests for access in writing to the Freedom of Information Act/Privacy Act (FOIA/PA) Officer at the nearest INS Office, or the INS office maintaining the desired records (if known) by using the list of Principal Offices of the Immigration and Naturalization Service Appendix, JUSTICE/INS–999, published in the **Federal Register.** Clearly mark the envelope and letter "Privacy Act Request." Provide the A-file number and/or the full name and date of birth, with a notarized signature of the individual who is the subject of the record, and a return address.

CONTESTING RECORDS PROCEDURES;

Direct all requests to contest or amend information in the record to the FOIA/PA Officer at one of the addresses identified above. State clearly and concisely the information being contested, the reason for contesting it, and the proposed amendment thereof. Clearly mark the envelope "Privacy Act Request." The record must be identified in the same manner as described for making a request for access.

RECORD SOURCE CATEGORIES:

Basic information is obtained from "The Immigration and Naturalization Service (INS) Alien File (A File) and Central Index System, (CIS), JUSTICE/INS—001A." Information may also come from the alien, the alien's attorney/representative, INS officials, other Federal, State, local, and foreign agencies and the courts.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

JUSTICE/INTERPOL–001

SYSTEM NAME:

The INTERPOL-United States National Central Bureau (INTERPOL-USNCB) (Department of Justice) INTERPOL-USNCB Records System.

SYSTEM LOCATION:

INTERPOL-U.S. National Central Bureau, Department of Justice, Room *600 Bicentennial Bldg.*, Washington, DC 20530.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have been convicted or are subjects of a criminal investigation with international aspects; specific deceased persons in connection with death notices; individuals who may be associated with certain weapons, motor vehicles, artifacts, etc., stolen and/or involved in a crime; victims of criminal violations in the United States or abroad; and INTERPOL-USNCB personnel involved in litigation.

CATEGORIES OF RECORDS IN THE SYSTEM:

The program records of the INTERPOL-USNCB consists of criminal and non-criminal case files. The files contain fingerprint records, photographs, criminal investigative reports, radio messages (international), teletype messages (internal U.S.), log sheets, computer printouts, letters, memoranda, and statements of witnesses and parties to litigation.

These records relate to fugitives, wanted persons, lookouts (temporary and permanent), specific missing persons, deceased persons in connection with death notices. Information about individuals includes names, alias, date of birth, address, physical description, various identification numbers, reason for the record or lookout, and details and circumstances surrounding the actual or suspected violation.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

22 U.S.C. 283a.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

In the event a record(s) in this system of records indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute, or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records may be referred, as a routine use to the appropriate law enforcement and criminal justice agencies whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulations or order issued pursuant thereto. A record may be disclosed to federal, state or local agencies maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license grant or other benefit; to federal agencies in response to their request in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency to the extent that the information is relevant and necessary to the requesting agency's decision on the matter. A record may be disclosed to appropriate parties engaged in litigation or in preparation of possible litigation, e.g., to potential witnesses for the purpose of securing their testimony when necessary before courts, magistrates or administrative tribunals; to parties and their attorneys for the purpose of proceeding with litigation or settlement of disputes; to individuals seeking information by using established discovery procedures, whether in connection with civil, criminal, or regulatory proceedings; to foreign governments in accordance with formal or informal international agreements; to local, state, federal and foreign agents; to the Treasury Enforcement Communications System (TECS) (Treasury/CS 00.244); to the International Criminal Police Organization (INTERPOL) General Secretariat and National Central Bureaus in member countries; to the INTERPOL Supervisory Board, an international board comprised of three judges having oversight responsibilities regarding the purpose and scope of personal information maintained in the international achieves of INTERPOL; to employees and officials of financial and commercial business firms and private individuals where such release is considered reasonably necessary to obtain information to further investigative efforts or to apprehend criminal offenders; to other third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation; and to translators of foreign languages as necessary. In addition, records are accessed by INTERPOL-USNCB employees and by volunteer students and students working under a college work-study program who have a need for the records in the performance of their duties.

Information permitted to be released to the news media and the public

pursuant to 28 CFR 50.2 may be made available unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Information not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information in behalf of and at the request of the individual who is the subject of the record.

A record may be disclosed as a routine use to *the National Archives and Records Administration and to the General Services Administration* in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Information is stored in file folders and on microfilm in the INTERPOL-United States National Central Bureau. Magnetic disks in the INTERPOL Case Tracking System (CTS) are stored at the Justice Data Center, U.S. Department of Justice, and certain limited data, e.g., that which concerns fugitives and wanted persons, is stored in the Treasury Enforcement Communications System (TECS) TREASURY/CS 00.244, a system published by the U.S. Department of the Treasury.

RETRIEVABILITY:

Information is retrieved primarily by name, file name, system identification number, personal identification number, and by weapon or motor vehicle number or by other identifying data. Prior to 1975, case files were arranged by name of subject. Between 1975 and 1979 case files were sequentially numbered. Since October 1979, files have been arranged by year, month and sequential number.

SAFEGUARDS:

Information maintained on magnetic disks is safeguarded and protected in accordance with Department rules and procedures governing the handling of computerized information. Only those individuals specifically authorized and assigned an identification code by the system manager will have access to the computer. Identification codes will be assigned only to those INTERPOL-USNCB employees who require access to the information to perform their official duties. In addition, access to the information must be accompanied through a terminal which is located in the INTERPOL-USNCB office that is occupied twenty-four hours a day. Information in file folders and in microfilm records is stored in file cabinets in the same secured area.

RETENTION AND DISPOSAL:

Case files opened after April 5, 1982 have been stored on microfilm (41 CFR Sec. 101–11.506). In addition, records that were closed prior to April 5, 1982 but are recalled from the Federal Archives and Records Center (FARC) are also microfilmed.

Case files that were closed prior to April 5, 1982 are transferred to the FARC two years from the date the case is closed and are destroyed twenty years thereafter, if there has been no recall from the FARC and no case activity.

Case files closed as of April 5, 1982 and thereafter are disposed of as follows: The hard copy (paper record) of the case file may be destroyed when the microfilm records have been verified for clearness, completeness and accuracy. The microfilm record of the case file is destroyed ten years after closing of the case, if there has been no case activity.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, INTERPOL-United States National Central Bureau, Department of Justice, *Room 600, Bicentennial* Building, Washington, DC 20530.

NOTIFICATION PROCEDURE:

Inquiries regarding whether the system contains a record pertaining to an individual may be addressed to the Chief, INTERPOL-United States National Central Bureau, Department of Justice, Washington, DC 20530. To enable INTERPOL-USNCB personnel to determine whether the system contains a record relating to him or her, the requester must submit a written request identifying the record system, identifying the category and type of records sought, and providing the individual's full name and at least two items of secondary information (date of birth, social security number, employee identification number, or similar identifying information).

RECORD ACCESS PROCEDURE:

Although the Attorney General has exempted the system from the access, contest, and amendment provisions of the Privacy Act, some records may be available under the Freedom of Information Act. Inquiries should be addressed to the official designated under "Notification procedure" above. The letter should be clearly marked "Freedom of Information Request" and a return address provided for transmitting any information to the requester.

CONTESTING RECORD PROCEDURES:

See "Access procedures" above.

RECORD SOURCE CATEGORIES:

Sources of information contained in this system include investigating reports of federal, state, local, and foreign law enforcement agencies (including investigating reports from a system of records published by Department of Treasury Enforcement Communications System (TECS) TREASURY/CS 00.244); other non-Department of Justice investigative agencies; client agencies of the Department of Justice; statements of witnesses and parties; and the work product of the staff of the United States National Central Bureau working on particular cases. Although the organization uses the name INTERPOL-USNCB for purposes of public recognition, the INTERPOL-USNCB is not synonymous with the International Criminal Police Organization (ICPO-INTERPOL), which is a intergovernmental organization headquartered in Lyon, France. The Department of Justice INTERPOL-USNCB serves as the United States liaison with the INTERPOL General Secretariat and works in cooperation with the National Central Bureaus of other member countries, but is not an agent, legal representative, nor organization submit of the International Criminal Police Organization. The records maintained by the INTERPOL-USNCB are separate and distinct from records maintained by the international Criminal Police Organization, and INTERPOL-USNCB does not have custody of, access to, nor control over the records of the International Criminal Police Organization.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Attorney General has exempted this system from subsection (c) (3) and (4), (d), (e), (1), (2), and (3), (e)(4)(G) and (H), (e)(5) and (8), (f), and (g) if the Privacy Act pursuant to 5 U.S.C. 552a (j)(2), and (k)(5). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the **Federal Register.**

JUSTICE/*USA-016*

SYSTEM NAME:

Assistant United States Attorney Applicant Records System.

SYSTEM LOCATION:

Executive Office for United States Attorneys, United States Department of Justice, 10th and Constitution Avenue, NW., Washington, DC 20530.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The system encompasses all applicants for Assistant United States Attorney positions.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system of records consists of records folders which may contain up to a total of four sections. The personnel section contains records such as resumes, letters of recommendation, law school grade transcripts, completed Civil Service forms, and related personnel matters. The character section contains completed or portions of ongoing background investigations and matters related thereto. The Congressional section contains Congressional and other political type recommendations regarding appointment. The protest section contains correspondence, if any exists, protesting the appointment of applicants. Rarely does a personnel folder contain more than the personnel and character sections.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

These records are maintained pursuant to 5 U.S.C. 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records are used only by Department of Justice personnel for recruitment purposes. However, the fact that the applicant was being considered would be made known to the references supplied by the applicant and others contacted. Information about the applicant, as then known, might be supplied to contacted individuals as necessary to verify already obtained information or to seek elaboration of that information.

Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Information not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

A record may be disclosed as a routine use to the *General Services Administration and the* National Archives and Records Administration in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Information may be disclosed to any civil or criminal law enforcement agency, whether Federal, State, local, or foreign, which requires information relevant to a civil or criminal investigation.

Information may be disclosed to officials and employees of the White House or any Federal agency which requires information relevant to an agency decision concerning the hiring, appointment, or retention of an employee; the issuance of a security clearance; the execution of a security or suitability investigation; the classification of a job; or the issuance of a grant or benefit.

Information may be disclosed to Federal, State, and local licensing agencies or association which require information concerning the suitability or eligibility of an individual for a license or permit.

Information may be disclosed in a proceeding before a court or adjudicative body before which the *United States Attorney's Office (USAO) or Executive Office for United States Attorneys (EOUSA)* is authorized to appear when (a) *USAO or EOUSA*, or any subdivision thereof or (b) any employee of *USAO or EOUSA* in his or her official capacity, or (c) any employee of *USAO or EOUSA* in his or her individual capacity where the Department of Justice has agreed to represent the employee, or (d) the United States, where *USAO or EOUSA* determines that the litigation is likely to affect it or any of its subdivisions, is a party to litigation or has an interest in litigation and such records are determined by *USAO or EOUSA* to be arguably relevant to the litigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are stored in paper folders.

RETRIEVABILITY:

Information is retrieved by use of the applicant's name, as the folders are filed alphabetically by name.

SAFEGUARDS:

These records are maintained in cabinets stored in a locked room.

RETENTION AND DISPOSAL:

These records are retained, in the case of applicants who are not offered positions, for two years and then destroyed. If the applicant is offered a position and accepts it, his folder is transferred to the Appointed Assistant United States Attorney Personnel System and retained as specified therein.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Executive Office for United States Attorneys: United States Department of Justice; 10th and Constitution Avenue, NW., Washington, DC 20530.

NOTIFICATION PROCEDURE:

Address all inquiries to the System Manager. These records will be exempted from subsections (d)(1) and (e)(1) of section 552a, Title 5, United States Code, by the Attorney General under the authority of 5 U.S.C. 552a(k)(5) to the extent therein permitted.

RECORD ACCESS PROCEDURES:

A request for access to non-exempt portions of records from this system should clearly be directed orally or in writing to the *Director, Executive Office for United States Attorneys*. When requests are in writing, the envelope and letter should be marked "Privacy Access Request."

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the *Director, Executive Office for United States Attorneys*, stating clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment(s) to the information.

RECORD SOURCE CATEGORIES:

Non-exempt sources of information contained in this system include the individual, government agencies as appropriate, and interested third parties.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Attorney General has exempted this system from subsections (d)(1) and (e)(1) of the Privacy Act pursuant to 5 U.S.C. 552a(k)(5). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 558 (b), (c) and (e) and have been published in the **Federal Register**.

JUSTICE/*USA-017*

SYSTEM NAME:

Appointed Assistant United States Attorneys Personnel System.

SYSTEM LOCATION:

Executive Office for United States Attorneys, United States Department of Justice; 10th and Constitution Avenue NW., Washington D.C. 20530.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The system encompasses all Assistant United States Attorneys.

CATEGORIES OF RECORDS IN THE SYSTEM

This system of records consists of records folders which may contain up to a total of five sections. The personnel section contains personnel records such as completed Civil Service forms, letters of recommendation, law school grade transcripts, appointment letters, appointment affidavits, bar affidavits, locator forms and personnel action forms. The character section contains completed or portions of ongoing background investigations and matters related thereto. The Congressional section contains Congressional and other political type recommendations regarding appointment. The protest section contains correspondence, if any exists, protesting the appointment of applicants. The complaint section contains correspondence from individuals or groups complaining about office holders. Rarely does a personnel folder contain more that the personnel. and character sections

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

These records are maintained pursuant to 5 U.S.C. 301

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records are used only by Department of Justice personnel. Information contained in a folder may be used as the basis for answering future inquires from other government agencies about a former assistant's qualifications. The personnel section may be made available to other federal agencies, at their request, upon the transfer of the assistant to such an agency.

Information permitted to be released to the news media and the public pursuant to 28 CFR 50.2 may be made available unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy.

Information not otherwise required to be released pursuant to 5 U.S.C. 552, may be made available to Member of Congress of staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record.

A record may be disclosed as a routine use to the *General Services Administration and the* National Archives and Records Administration in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906.

Information may be disclosed to any civil or criminal law enforcement agency, whether Federal, State, or local, or foreign, which requires information relevant to a civil or criminal investigation.

Information may be disclosed to officials and employees of the White House or any Federal agency which requires information relevant to an agency decision concerning the hiring, appointment, or retention of an employee; the issuance of a security clearance; the execution of a security or suitability investigation; the classification of a job; or the issuance of a grant or benefit.

Information may be disclosed to Federal, State, and local licensing agencies or associations which require information concerning the suitability or eligibility of an individual for a license or permit.

Information may be disclosed in a proceeding before a court or adjudicative body before which the *United States Attorney's Office (USAO) or The Executive Office for United States Attorneys (EOUSA)* is authorized to appear when (a) *USAO or EOUSA*, or any subdivision thereof, or (b) any employee of *USAO or EOUSA* in his or her official capacity, or (c) any employee of *USAO or EOUSA* in his or her individual capacity where the Department of Justice has agreed to represent the employee, or (d) the United States, where *USAO or EOUSA* determines that the litigation is likely to affect it or any of its subdivisions, is a party to litigation or has an interest in litigation and such records are determined by *USAO or EOUSA* to be arguably relevant to the litigation.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

These records are stored in paper folders.

RETRIEVABILITY:

Information is retrieved by use of the assistant's name as the folders are filed alphabetically by name.

SAFEGUARDS:

These records are maintained in cabinets stored in a locked room.

RETENTION AND DISPOSAL:

These records are retained until the subjects of the files resign or otherwise leave their offices for non-federal government employment. In that instance, the personnel section is sent to the St. Louis Records Center for an indefinite period. If the assistance transfers to another agency of the federal government, the personnel section is sent to the gaining agency. All other sections of the folder are destroyed six months after the assistant leaves office.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Executive Office for United States Attorneys, United States Department of Justice; 10th and Constitution Avenue, NW.; Washington, DC 20530.

NOTIFICATION PROCEDURE:

Address all inquiries to the System Manager. These records will be exempted from subsections (d)(1) and (e)(1) of section 552a, Title 5, United States Code, by the Attorney General under the authority of 5 U.S.C. 552a(k)(5) to the extent therein permitted.

RECORD ACCESS PROCEDURES:

A request for access to non-exempt portions of records from this system should be directed orally or in writing to the System Manager. When requests are in writing, the envelope and letter should clearly be marked 'Privacy Access Request.'

CONTESTING RECORD PROCEDURES:

Individuals desiring to contest or amend information maintained in the system should direct their request to the System Manager, stating clearly and concisely what information is being contested, the reasons for contesting it, and the proposed amendment(s) to the information.

RECORD SOURCE CATEGORIES:

Sources of information contained in this system include the individuals, government agencies as appropriate, and interested third parties.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Attorney General has exempted this system from subsections (d)(1) and (e)(1) of the Privacy Act pursuant to 5 U.S.C. 552a(k)(5). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553(b), (c) and (e) and have been published in the **Federal Register.**

Bureau of Justice Statistics

Application Information for FY 1992 Programs

AGENCY: Office of Justice Programs, Bureau of Justice Statistics, DOJ

ACTION: Public announcement of the availability of the Application Information for FY 1992 Programs awarded by the Bureau of Justice Statistics.

SUMMARY: The Bureau of Justice Statistics (BJS) is publishing this Notice of the availability of the Application Information for FY 1992 Programs. This information is of interest to all eligible State agencies and local jurisdictions, and applicants for the Justice Information Policy Assistance program and the BJS Visiting Research Fellowship program.

DATES: All proposals responding to the programs included in the Application Information for FY 1992 Programs must be postmarked by the specific due dates indicated for each program in the Application Information publication.

ADDRESS: Bureau of Justice Statistics, room 1142, 633 Indiana Avenue NW., Washington, DC 20531.

FOR FURTHER INFORMATION CONTACT: Maureen A. Henneberg, Chief, Fiscal and Management Unit, Bureau of Justice Statistics, at the above address. Telephone (202) 616-3282. To obtain the Application Information for FY 1992 Programs, call the Justice Statistics Clearinghouse toll-free number 1-800-732-3277 at the National Criminal Justice Reference Service (NCJRS), Box 6000, Rockville, MD 20850.

SUPPLEMENTARY INFORMATION: The following supplementary information is provided:

Background

The Bureau of Justice Statistics is announcing the following four programs for which applications may be made:

(1) State Statistical Analysis Centers (SAC) and Information Network;
(2) Criminal History Record Improvement (CHRI) Program;
(3) Incident-Based Reporting System Program: Local Law Enforcement Utilization Project; and
(4) BJS Visiting Research Fellowship Program.

The State Statistical Analysis Center (SAC) program and the Criminal History Record Information (CHRI) program have single eligible applicant agencies within each State. For SAC programs, the State Statistical Analysis Centers are the eligible award recipients. Applicants for the SAC program may be submitted at any time; there is no calendar deadline. For the CHRI program, applicants should be the State agency responsible for directing or overseeing the repository of Statewide Criminal history files on persons arrested for fingerprintable offenses within the State. State agencies responsible for reporting dispositions to the criminal history repository are also eligible to receive funds. Every State is eligible to participate in this program and all States are encouraged to apply. Applications for the CHRI program should be submitted as soon as possible for funding in fiscal year 1992.

Under the Incident-Based Reporting System Program: Local Law Enforcement Utilization Project, statements of interest are being solicited from local law enforcement agencies in major cities (populations over 250,000) with incident-based data available for analysis, desiring to participate in a cooperative analytical effort with BJS. Statements of interest should be postmarked on or before May 1, 1992.

The BJS Visiting Research Fellowship Program is designed to promote criminal justice and justice system related statistical research among the academic and professional justice community to meet the specific needs of the Administration, the Department of Justice, and BJS. In most cases, the recipient of a fellowship should hold an advanced degree in statistics or one of the social sciences or related disciplines and/or have relevant and substantial experience in justice-related issues, the application of quantitative research techniques, and report writing.

Steven D. Dillingham,
Director, BJS.

BILLING CODE 4410-18-M

Parole Commission

Consolidation of the Northeast and Southeast Regions into a Single Eastern Region, and Transfer of Certain States to the North Central and South Central Regions

AGENCY: United States Parole Commission, Justice.

ACTION: Notice of redefinition of regional boundaries.

SUMMARY: The U.S. Parole Commission is redefining the boundaries of the regions which it has established for the purpose of delegating decision making authority to Regional Commissioners under 18 U.S.C. 4203(c)(1). The Northeast and Southeast Regions will be consolidated into a single Eastern Region. Certain states are also being transferred to the North Central and South Central Regions at the same time. The purpose of these changes is to permit the Commission to manage its caseload more efficiently in view of the recent elimination of three regional offices, and the Commission's statutorily-scheduled abolition on November 1, 1997.

EFFECTIVE DATE: April 10, 1992.

FOR FURTHER INFORMATION CONTACT: Richard Preston, Attorney, Telephone (301) 492-5959.

SUPPLEMENTARY INFORMATION: The U.S. Parole Commission has the authority, under 18 U.S.C. 4203(a)(2), to "* * * create such regions as are necessary" to carry out the provisions of the Parole Commission and Reorganization Act of 1976. Within each region, all cases not designated for the Commission's original jurisdiction are initially decided by Regional Commissioners pursuant to 18 U.S.C. 4203(c)(1).

Under the Sentencing Reform Act of 1984 (as amended), Public Law 98-473, the Parole Commission's jurisdiction is limited to federal prisoners and parolees who committed their offense prior to November 1, 1987. The Commission is scheduled for abolition on November 1, 1997. Accordingly, the Commission's caseload is declining, and the Commission continues to be obliged to implement an orderly reduction of its operations by consolidating regions and redefining regional boundaries.

There are currently four regions, an arrangement resulting from the closure of the Commission's regional offices in San Francisco, California; Philadelphia, Pennsylvania; and Atlanta, Georgia, in 1991. See 56 FR 28417 (June 20, 1991). Regional Offices are now located in Dallas, Texas; Kansas City, Missouri; and Chevy Chase, Maryland.

The primary result of this action will be to consolidate the functions of the Northeast and Southeast Regions under one Regional Commissioner, with regional office headquarters in Chevy Chase, Maryland. The regional offices in Dallas, Texas; and Kansas City, Missouri, will remain open.

Accordingly, the Commission has taken the following actions: 1. The Northeast and Southeast Regions will be eliminated effective April 10, 1992.

2. The Eastern Region is created effective April 10, 1992, and will consist of the following states: Alabama, Connecticut, District of Columbia, Delaware, Florida, Georgia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Puerto Rico, Rhode Island, South Carolina, Vermon, Virginia, Virgin Islands, and West Virginia.

3. The following states are transferred to the South Central Region, effective April 10, 1992: Tennessee and Mississippi.

4. The following states are transferred to the North Central Region, effective April 10, 1992: Kentucky and Oklahoma.

Acting Regional Commissioner will continue to be designated by the Chairman on an as needed basis to ensure timely decision-making by the Commission, pursuant to 28 CFR 125.

Dated: February 21, 1992.

Jasper R. Clay,
Vice Chairman, U.S. Parole Commission.

BILLING CODE 4410-01-M

DEPARTMENT OF LABOR

Employment and Training Administration

Job Training Partnership Act; Geriatric Aides Demonstration; Nursing Home and Home Health Care

AGENCY: Employment and Training Administration, DOL.

ACTION: Notice of availability of funds and solicitation for grant applications (SGA).

SUMMARY: The Employment and Training Administration, U.S. Department of Labor, is soliciting proposals on a competitive basis under title IV, part D, section 452 of the Job Training Partnership Act (JTPA) for the conduct of demonstration projects pertaining to semi-professional and para-professional occupations in elder care. The purpose of this grant solicitation is to demonstrate innovative, comprehensive strategies and model approaches for providing job opportunities for disadvantaged adults and youth as certified geriatric nurse's aides, home health care aides, and personal home attendants; and, to develop career ladders/paths which will result in the upgrading of skills needed to attain occupational advancement.

Eligible applicants will be Private Industry Councils (PICs) or other entities (as defined below). Applicants will have to provide assurances that it has linkages with community groups that traditionally serve the needs of the elderly. No other organizations or individuals are eligible to apply. However, Organizations interested in this project should work through the local eligible applicant to coordinate services and activities.

The term *PIC* means an organization described under section 102 of JTPA which is established for each service delivery area in the JTPA system and which has the responsibilities enumerated under section 103 of JTPA, including providing the policy guidance for, and exercising oversight with respect to, activities under the job training plan for its service delivery area.

The term *or other entities designated to develop and administer the job training plan for JTPA service delivery areas* means an organization that has been selected under the provisions of section 103(b)1 and may be a unit of general local government in its service delivery area (or an agency thereof), a nonprofit private organization or corporation, or any other agreed-upon entity or entities.

DATES: The application will be available March 25, 1992. The requests must be made in writing to the address below. Telephone and telefacsimile (FAX) will not be honored. The request must cite SGA/DAA 92-005 and must include two (2) self-addressed labels. Requests will be honored on a first come, first serve basis until the supply of 300 is exhausted. The closing date for receipt of proposals will be April 24, 1992, 2 p.m. Eastern time. Any application not meeting the designated place, date, and time of delivery will not be considered.

ADDRESSES: Mail your request to obtain Solicitation for Grant Application (SGA) to: U.S. Department of Labor, Employment and Training Administration, Office of Grants and Contract Management, Division of Acquisition and Assistance, 200 Constitution Avenue NW., room C-4305, Washington, DC, 20210, Attention: Charlotte Adams, Reference SGA/DAA 92-005.

FOR FURTHER INFORMATION CONTACT: Charlotte Adams, telephone: (202) 535-8702 (This is not a Toll Free Number).

SUPPLEMENTARY INFORMATION: The Employment and Training Administration, U.S. Department of Labor, will award approximately two (2) to three (3) grants. It is anticipated that a total of $250,000 will be awarded under this initiative. The period of performance will be 15 months from date of execution by the Government. Based on the availability of funds, effective program operation and needs of the Department, grants may be extended up to two (2) additional years (one year at a time). The final decision on the award will be based on what is most advantageous to the Federal Government as determined by the ETA Grant Officer.

Signed at Washington, DC, on February 27, 1992.

Robert D. Parker,
ETA Grant Officer.

BILLING CODE 4510-30-M

Job Training Partnership Act: National Youth Apprenticeship Research and Demonstration Project

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice of availability of funds and of solicitation for grant applications (SGA).

SUMMARY: The Employment and Training Administration (ETA), U.S. Department of Labor, is soliciting proposals on a competitive basis to conduct a series of National Youth Apprenticeship Research and Demonstration Projects that will establish a more efficient way by which American youth can make the transition from school to the work force. Eligible participants will be public, profit, and non-profit organizations who meet the basic requirements. To qualify, participants' proposals must include evidence and/or agreements of the following: Partnerships with active participation of schools and employers; provision for the integration of school and work-site learning; structured work-site learning; formal, signed youth apprenticeship contracts; linkage to other State initiatives for school restructuring and reform; delineation of steps in the recruitment of and marketing to student participants; and an evaluation plan, detailing the methodology to be used in assessing the project's effectiveness. All basic requirements must be met.

DATES: The application will be available March 25, 1992. The requests must be made in writing to the address below. Telephone and telefacsimile (FAX) will not be honored. The request must cite SGA/DAA 92-006 and must include two (2) self-addressed labels. Requests will be honored on a first come, first served basis until the supply of 300 is exhausted. The closing date for receipt of proposals will be April 24, 1992, 2 p.m. Eastern time. Any application not meeting the designated place, date, and time of delivery will not be considered.

ADDRESSES: Mail your request to obtain Solicitation for Grant Application (SGA) to: U.S. Department of Labor, Employment and Training Administration, Office of Grants and Contracts Management, Division of Acquisition and Assistance, 200 Constitution Avenue NW., room C-4305, Washington, DC 20210, Attention: Laura Cesario, Reference SGA/DAA 92-006.

FOR FURTHER INFORMATION CONTACT: Laura Cesario, Telephone: (202) 535-8702 (This is not a toll free number).

SUPPLEMENTARY INFORMATION: The Employment and Training Administration (ETA) will make multiple grant awards for demonstration projects from a budget of approximately $2 million. The maximum amount of any of these grants will be $250,000. Pending availability of funds, effective program operation and the needs of the Department, the grant(s) may be extended for up to two additional years. The period of performance will be 24 months from date of execution by the Government. The Department of Labor seeks to fund projects that are organized such that a broad partnership of schools, employers, government, state agencies, community members, parents, students, and all other stakeholders have important and active roles in project management.

The final decision on the award will be based on what is most advantageous to the Federal Government as determined by the ETA Grant Officer.

Signed at Washington, DC on February 28, 1992.

Robert D. Parker,
ETA Grant Officer.

BILLING CODE 4510-30-M

Labor Surplus Area Classifications Under Executive Orders 12073 and 10582; Additions to the Annual List of Labor Surplus Areas

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice.

DATES: These additions to the annual list of labor surplus areas are effective March 1, 1992.

SUMMARY: The purpose of this notice is to announce additions to the annual list of labor surplus areas.

FOR FURTHER INFORMATION CONTACT: William J. McGarrity, Labor Economist, Employment and Training Administration, 200 Constitution Avenue NW., room N–4470, Attention: TEESS, Washington, DC 20210. Telephone: 202–535–0189.

SUPPLEMENTARY INFORMATION: Executive Order 12073 requires executive agencies to emphasize procurement set-asides in labor surplus areas. The Secretary of Labor is responsible under that Order for classifying and designating areas as labor surplus areas. Executive agencies should refer to Federal Acquisition Regulation part 20 (48 CFR part 20) in order to assess the impact of the labor surplus area program on particular procurements.

Under Executive Order 10582 executive agencies may reject bids or offers of foreign materials in favor of the lowest offer by a domestic supplier, provided that the domestic supplier undertakes to produce substantially all of the materials in areas of substantial unemployment as defined by the Secretary of Labor. The preference given to domestic suppliers under Executive Order 10582 has been modified by Executive Order 12260. Federal Acquisition Regulation part 25 (48 CFR part 25) implements Executive Order 12260. Executive agencies should refer to Federal Acquisition Regulation part 25 in procurements involving foreign businesses or products in order to assess its impact on the particular procurements.

The Department of Labor regulations implementing Executive Orders 12073 and 10582 are set forth at 20 CFR part 654, subparts A and B. Subpart A requires the Assistant Secretary of Labor to classify jurisdictions as labor surplus areas pursuant to the criteria specified in the regulations and to publish annually a list of labor surplus areas. Pursuant to those regulations the Assistant Secretary of Labor published the annual list of labor surplus areas on October 25, 1991, (56 FR 55339).

Subpart B of part 654 states that an area of substantial unemployment for purposes of Executive Order 10582 is any area classified as a labor surplus area under subpart A. Thus, labor surplus areas under Executive Order 12073 are also areas of substantial unemployment under Executive Order 10582.

The areas described below have been classified by the Assistant Secretary of Labor as labor surplus areas pursuant to 20 CFR 654.5(b)(48) FR 15615 April 12, 1983) and are effective March 1, 1992.

The list of labor surplus areas is published for the use of all Federal agencies in directing procurement activities and locating new plants or facilities.

Signed at Washington, DC on March 3, 1992.

Roberts T. Jones,

Assistant Secretary of Labor.

ADDITIONS TO THE ANNUAL LIST OF LABOR SURPLUS AREAS

[March 1, 1992]

Labor surplus areas	Civil jurisdictions included
Kentucky:	
Louisville City	Louisville City in Jefferson County.
Maine:	
Lewiston City	Lewiston City in Androscoggin County.
Balance of Androscoggin County.	Androscoggin County Less Lewiston City.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Office of Public Partnership (Locals Section); Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), as amended, notice is hereby given that a meeting of the Office of Public Partnership (Locals Section) will be held on March 25, 1992 from 8:15 a.m.—6:30 p.m. and March 26 from 9 a.m.—4 p.m. in room 730 at the Nancy Hanks Center, 1100 Pennsylvania Avenue NW., Washington, DC 20506.

This meeting will be open to the public on a space available basis. The topics for discussion will be introductory remarks, review of evaluation criteria and supplementary material, application review, rankings and recommendations, guidelines review and policy discussion.

Any interested person may observe meetings, or positions thereof, which are open to the public, and may be permitted to participate in the discussions at the discretion of the meeting chairman and with the approval of the full-time Federal employee in attendance.

If you need special accommodations due to a disability, please contact the Office of Special Constituencies, National Endowment for the Arts, 1100 Pennsylvania Avenue NW., Washington, DC 20506, 202/682–5532, TTY 202/682–5496, at least seven (7) days prior to the meeting.

Further information with reference to this meeting can be obtained from Ms. Yvonne M. Sabine, Advisory Committee Management Officer, National Endowment for the Arts, Washington, DC 20506, or call (202) 682–5433.

Dated: March 5, 1992.

Yvonne M. Sabine,

Director, Council and Panel Operations, National Endowment for the Arts.

BILLING CODE 7537–01–M

NATIONAL INDIAN GAMING COMMISSION

Fee Rates

AGENCY: National Indian Gaming Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given, pursuant to 25 CFR 514.1(a)(3), that the National Indian Gaming Commission has adopted a preliminary annual fee rate of 1% for calendar year 1992. The rate shall apply to all assessable gross revenues (tier 1 and tier 2) from each class II gaming operation regulated by the Commission.

FOR FURTHER INFORMATION CONTACT: Fred W. Stuckwisch, National Indian Gaming Commission, 1850 M Street NW., suite 250, Washington, DC 20036; telephone 202/632–7003; fax 202/632–7066 (these are not toll-free numbers).

SUPPLEMENTARY INFORMATION: The Indian Gaming Regulatory Act established the National Indian Gaming Commission which is charted with, among other things, regulating Class II gaming on Indian lands.

The regulations of the Commission (25 CFR part 500) provide for a system of fee assessment and payment that is self-administered by the Class II gaming operations. Pursuant to those regulations, the Commission is required to adopt and communicate assessment rates; the gaming operations are required to apply those rates to their revenues, compute the fees to be paid, and report and remit the fees to the Commission on a quarterly basis.

The regulations of the Commission and this rate are effective for calendar year 1992. Therefore, all Class II gaming operations within the jurisdiction of the Commission are required to self-administer the provisions of these regulations and report and pay any fees that are due to the Commission before the end of the first quarter of 1992 (March 31).

Dated: March 5, 1992.

Anthony J. Hope,

Chairman, National Indian Gaming Commission.

NATIONAL SCIENCE FOUNDATION

Collection of Information Submitted for OMB Review

In accordance with the Paperwork Reduction Act and OMB Guidelines, the National Science Foundation is posting two notices of information collections that will affect the public. Interested persons are invited to submit comments by April 4, 1992. Comments may be submitted to:

(A) *Agency Clearance Officer.* Herman G. Fleming, Division of Personnel and Management, National Science Foundation, Washington, DC 20550, or by telephone (202) 357–7335 and to:

(B) *OMB Desk Officer.* Office of Information and Regulatory Affairs, ATTN: Dan Chenok, Desk Officer, OMB, 722 Jackson Place, room 3208, NEOB, Washington, DC 20503.

Title: Minority Research Programs Assessment.

Affected Public: Individuals.

Respondents/Reporting Burden: 618 respondents; one hour per response.

Abstract: During the 1980's NSF created three programs to build research capacity of minority researchers and minority institutions. This study examines the career development of researches who benefited from FY 1987–89 awards in the three programs compared with the careers of researchers in several control groups.

Dated: March 4, 1992.

Herman G. Fleming,

Reports Clearance Officer.

BILLING CODE 7555–01–M

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards; Subcommittee on Thermal Hydraulic Phenomena; Meeting

The ACRS Subcommittee on Thermal Hydraulic Phenomena will hold a meeting on March 26, 1992, in room P–110, 7920 Norfolk Avenue, Bethesda, MD.

The entire meeting will be open to public attendance, with the exception of a portion that may be closed to discuss information deemed proprietary to the General Electric Company (GE) pursuant to U.S.C. 5 U.S.C. 552b(c)(4).

The agenda for the subject meeting shall be as follows:

Thursday, March 26, 1992—6:30 a.m. until the conclusion of business

The Subcommittee will review the GE generic program supporting power level increases for operating GE Boiling Water Reactor nuclear power plants.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and staff. Persons desiring to make oral statements should notify the ACRS staff member named below as far in advance as is practicable so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC staff, the General Electric Company, their consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, the scheduling of sessions open to the public, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the Designated Federal Official, Mr. Paul Boehnert (telephone 303/492–8558) between 7:30 a.m. and 4:15 p.m. (EST). Persons planning to attend this meeting are urged to contact the above named individual one or two days before the scheduled meeting to be advised of any changes in schedule, etc., that may have occurred.

Dated: March 2, 1992.

Sam Duraiswamy,

Chief, Nuclear Reactors Branch.

BILLING CODE 7590–01–M

Florida Power & Light Co., Turkey Point Plant, Unit Nos. 3 and 4; Correction to Receipt and Denial of Petition for Director's Decision Under 10 CFR 2.206

On February 27, 1992, a notice was published concerning the receipt and denial of a Director's Decision under 10 CFR 2.206. The notice pertained to a request by Mr. Thomas Saporito to take certain actions against the Florida Power and Light Company regarding the Turkey Point Plant, Units 3 and 4. On page 6748, at the bottom of the second column, the date "December 3, 1992" should read "January 3, 1992."

Dated at Rockville, Maryland, this 4th day of March 1992.

For the Nuclear Regulatory Commission.

L. Raghavan,

Acting Project Manager, Project Directorate II–2, Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.

BILLING CODE 7590–01–M

OFFICE OF MANAGEMENT AND BUDGET

Office of Federal Procurement Policy

Request for Comments on a Proposed Amendment to OFPP Policy Letter 80–3

AGENCY: Office of Federal Procurement Policy (OFPP).

ACTION: OFPP is requesting comments on a proposed amendment to OFPP Policy Letter No. 80–3 which would provide new guidance for determining which individuals within a contractor's organization may certify claims under the Contract Disputes Act (CDA).

SUMMARY: The CDA requires that, for claims over $50,000, a contractor must certify that: (1) The claim is made in good faith, (2) the supporting data are accurate and complete to the best of the contractor's knowledge and belief, and (3) the amount requested accurately reflects the contract adjustment for which the contractor believes the Government is liable. 41 U.S.C. § 605(c)(1). As a result of an amendment

to the CDA by the Administrative Dispute Resolution Act, certification is also required for claims of any amount in which alternative means of dispute resolution or other mutually agreeable procedures are used. 41 U.S.C. 605(d).

The CDA does not identify who within a contractor's organization can properly act in certifying a claim. However, OFPP Policy Letter 80–3, which provides regulatory guidance on the CDA, states at section I.7(b) that:

> [T]he certification shall be executed by the contractor if an individual. When the contractor is not an individual, the certification shall be executed by a senior company official in charge at the contractor's plant or location involved, or by an officer or general partner of the contractor having overall responsibility for the conduct of the contractor's affairs.

This, and other, guidance on contract disputes contained in Policy Letter 80–3 was provided to ensure that the procuring agencies adopted uniform and consistent language when amending their regulations to comply with changes required by the CDA. 45 FR 31035 (May 9, 1980). Providing such guidance on the disputes process was consistent with OFPP's responsibilities under the Office of Federal Procurement Policy (OFPP) Act, as amended, to develop a single, simplified uniform Federal procurement system incorporating all elements and stages of the acquisition process to be followed by Executive agencies. Public Law No. 96–83, 93 Stat. 648, 41 U.S.C. 405(a); H.R. Rep. No. 178, 96th Cong., 1st Sess., 6, reprinted in 1979 U.S. Code Cong. & Admin. News 1492, 1499.

In particular, the technical guidance identifying who could certify claims on behalf of the contractor was meant to further the Congressional goal of fair and expedient resolution of claims by providing a standard by which to readily ascertain those people who could certify a claim without the risk of extended litigation over that issue. By utilizing a standard similar to that already required by the Department of Defense (DOD) Appropriation Authorization Act of 1979 (Pub. L. No. 95–485, 813, 92 Stat. 1611, 1624 (1978), now codified at 10 U.S.C. Section 2410) for claims under DOD contracts, the guidance was intended to avoid confusion for DOD contractors and contracting officers.

Requiring that higher level officials within a non-individual contractor examine the basis of the claim was commensurate with the serious consequences of submitting a fraudulent claim, which may include forfeiture of the claim (28 U.S.C. 2514), civil monetary sanctions (41 U.S.C. 604; 31 U.S.C. 3729), debarment see Federal acquisition Regulation (FAR) 9.406–2) and imprisonment (18 U.S.C. 287, 1001). While at the same time serving to deter the submission of unsupported contractor claims, the guidance was also designed to allow the corporate sector sufficient flexibility to operate taheir businesses as they saw fit—an intention recently acknowledged by the Claims Court in *Aleman Food Services, Inc.* v. *United States*, 24 Cl. Ct. 345 (1991).

In the approximately nine years following the issuance of Policy Letter 80–3, there was relatively little litigation over the interpretation of this language, which, but for minor changes in the word order and punctuation, has been adopted by the FAR at 33.207(c). However, since that time, it has become one of the most, if not the most, controverted of the disputes provisions.

Much of the recent litigation has focused on whether contractors have complied with FAR 33.207(c) as it has been interpreted by the Court of Appeals for the Federal Circuit in *United States* v. *Grumman Aerospace Corp.*, 927 F. 2d 575 (Fed. Cir. 1991), *cert. denied*, 60 U.S.L.W. 3293 (U.S. Oct. 15, 1991) (No. 90–1800). In *Grumman*, the Court stated that (1) the certifying senior company official must have both (a) primary responsibility for the execution of the contract and (b) a physical presence at the location of the primary contract activity, and (2) the certifying officer or general partner must have overall responsibility for the conduct of the contractor's affairs in general. Litigation currently persists over every aspect of the requirement as interpreted in *Grumman*, including what constitutes "primary responsibility," what level of physical presence qualifies as being "at" the plant or location involved, and what constitutes overall responsibility "in general."

Concern has been expressed regarding the difficulties of complying with FAR 33.207(c) as it has been interpreted in *Grumman*. In a dissenting opinion from the Court's refusal to consider *Grumman en banc*, four judges suggested that the majority's construction of the regulation is onerous. 927 F.2d at 583. One Claims Court judge concluded that the *Grumman* interpretation is problematic because it creates corporate micromanagement by the Government. *Shirley Construction Corp.* v. *United States*, 23 Cl. Ct. 686 (1991). The Armed Services Board of Contract Appeals (ASBCA) has directed appelants whose claims were certified by project managers, vice presidents for financial affairs, and other vice presidents to submit evidence indicating that their certifications are proper. The ASBCA has apparently undertaken this action because of the "uncertainties attendant on the Federal Circuit's opinion." 55 Fed. Cont. Rep. 369–70.

Substantial resources have been, and continue to be, expended by contractors attempting to comply with the regulation as construed in *Grumman*, by Government agencies attempting to ensure that the jurisdictional prerequisite has been met, and by tribunals interpreting the requirement. This burden, which prevents parties from focusing on the merits of their disputes, contravenes the CDA's avowed goal of ensuring the prompt and efficient resolution of disputes between contractors and the Government. See 41 U.S.C. 607(e); S. Rep. No. 1118, 95th Cong., 2d Sess., reprinted in 1978 U.S. Code Cong. & Admin. News 5235. It also frustrates the Policy Letter's intent of avoiding equivocation and litigation on the matter.

To resolve the controversy over who may certify a CDA claim, OFPP is proposing to replace the guidance contained in section I.7(b) of Policy Letter 80–3 with the following language:

If the contractor is an individual, the certification shall be executed by that individual.

If the contractor is not an individual, the certification shall be executed by:

(i) Any general partner of a partnership in which all the general partners are individuals;

(ii) Any officer elected or appointed by the contractor's governing body (the board of directors where there is such a board); or

(iii) Any employee who is duly authorized by name or by position, without the power of redelegation, to bind the contractor in certifying Contract Disputes Act claims as the result of:

(1) A written resolution by the contractor's governing body (the board of directors where there is such a board); or

(2) In the case of a contractor composed of two or more parties (such as corporations) that lacks a governing body:

(a) The written agreement establishing the contractor; or

(b) A written resolution by each member party's governing body (the board of directors where there is such a board).

OFPP believes this prescription would benefit both the Government and the contractor. To the Government's benefit, this prescription would foster the important public policy purpose behind certification of deterring the submission of unsupported and inflated claims as a bargaining tactic. It would continue to hold individual contractors personally accountable and liable for their claims. Non-individual contractors would also be held liable and accountable if the claims certified by a general partner, officer, or a duly authorized employee were fraudulent. See, e.g., Restatement of Agency Second Section 257 (1958).

Moreover, the incentive for careful review and early, meaningful negotiations would be ensured through the involvement of high level personnel in the certification process, either directly (e.g., by an officer) or directly (e.g., by an employee duly authorized by the board of directors which would be effectively vouching for that employee's ability to attest to the validity and materiality of the claim). Since redelegation of due authorization would be prohibited, clear written endorsement down the chain of command would be ensured, the important public policy purpose behind certification would remain intact, and evidentiary problems would be minimized.

To the contractor's benefit, this prescription would avoid corporate micromanagement by eliminating any requirements tied to geographic locale or preconceived organizational relationships. Instead, it would promote efficiency by leaving to the contractor the prerogative of designating an appropriate certifier who can act in a manner consistent with sound management practice. Also, to the extent that a board resolution need not limit CDA claim certification authority to specific claims, contacts, projects, or programs, the paperwork burden to duly authorize an employee would be minimal and reasonable.

Finally, to both party's benefit—as well as that of all tribunals involved—this language would help guarantee that the emphasis of dispute resolution moves away from the issue of certification and returns to the merits of the claim. Such refocusing would be clearly consistent with Congress' desire that the dispute resolution system be prompt and efficient.

OFPP recognizes that, pursuant to 10 U.S.C. 2410, contract claims over $100,000 under DOD contracts must presently be certified by a senior company official in charge at the plant or location involved. Implementation of the new guidance without a similar change in 10 U.S.C. 2410 would create a difference with respect to DOD contracts in who can certify claims over $100,000 and who can certify clalims of $100,000 and under. OFPP wishes to avoid such confusion and any litigation over the language of 10 U.S.C. 2410. OFPP, therefore, intends to work with DOD in developing a legislative proposal to bring the language of 10 U.S.C. 2410 identifying who can certify contract claims into conformity with that required by the CDA as implemented by this proposed policy.

OFPP believes that the prupose of this proposed policy is sufficiently important to warrant implementation in the FAR as quickly as possible. Thus, OFPP would require that the Defense Acquisition Regulatory Council and the Civilian Agency Acquisition Council revise FAR 33.207(c) to conform to the final policy in the first quarterly Federal Acquisition Circular issued 150 days after the final Policy Letter Amendment is published in the **Federal Register.**

SUPPLEMENTARY INFORMATION: The following supplementary information is provided to highlight the mechanics of the proposed certification language as it applies to non-individual contractors.

1. *Certification by officers.* Any officer elected or appointed by the contractor's board of directors may certify a claim. If the contractor lacks a board of directors, certificaiton may be made by any officer elected or appointed by the contractor's governing body (e.g., the board of governors of an educational institution). An officer may, but need not, have overall responsibility for the conduct of the contractor's affairs. Furthermore, a writing may, but need not, evidence the officer's authority to certify CDA claims.

2. *Certification by duly authorized employees.* Any employee of the contractor may certify CDA claims, provided that such employee has been duly authorized. Due authorization is accomplished through a written resolution by the contractor's board of directors, or other governing body where there is no board of directors, which identifies the employee by name (e.g., John H. Doe) or by position (e.g., project manager) and indicates that this employee is authorized to certify CDA claims. (For due authorization by contractors lacking a governing body, see nos. 3 and 4, below.) Thus, a resolution authorizing "anyone in the company" to certify CDA claims would be insufficient, because it fails to specify names or positions.

A board resolution may authorize as many individual employees or positions as the board deems appropriate. Moreover, a board of directors is not required to limit the scope of its authorization to particular CDA claims, contracts, projects, or programs.

However, a certifier must be duly authorized at the time the claim is certified. A board of directors may not retroactively authorize and employee to certify. To avoid confusion and challenge, boards of directors and other governing bodies should (a) clearly identify individual employees an positions in their written resolutions, (b) date their resolutions, and (c) update their resolutions as necessary to reflect pertinent changes in authorized personnel.

Moreover, a resolution may not authorize redelegation of the authority to certify. Thus, if a board resolution provides for CDA certification to be made by "John H. Doe, any project manager, or their designees" certification may be made only by John H. Doe or any project manager. Of course, a board of directors may always expand the scope of authorized employees through the issuance of an additional resolution which identifies them by name or by position.

3. *Certification by joint venture contractors.* If a joint venture (an entity comprised of two or more parties engaged in the joint prosecution of a particular transaction or transactions) has a governing body, such as a mangement committee, certification may be made under prong (iii)(1) by any employee duly authorized in writing by resolution of that governing body. Certification may also be made under prong (ii) by any officer elected or appointed by that govrning body, should any such officers exist.

If the joint venture lacks a governing body, certification may be made under prong (iii)(2)(a) by any employee identified by name or by position in the written agreeement establishing the joint venture team as authorized to certify CDA claims. Alternatively, under prong (iii)(2)(b), certification may be made by an employee of one of the parties who is duly authorized by a resolution of each member party's governing body. In this regard, if one of the member parties is an individual, due authorization on the part of the individual may be made by a writing of that individual.

4. *Certification by partnerships.* If the contractor is a partnership in which all the general partners are individuals, the certification may be executed by any general partner pursuant to prong (i). Such a general partner may, but need not have overall responsibility for the conduct of the contractor's affairs. Moreover, the general partner's authority to certify may, but need not, be in writing. If this partnership has a governing body, such as a mangement committee, the certification may alternatively be executed by a duly

authorized employee pursuant to prong (iii)(1).

If at least one of the partners is other than an individual—such as a corporation—certification may not made made under prong (i). Consier the situation where a partnership is comprised of two corporations, both of which are general partners. If the partnership has a governing body (e.g., a management committee), certification may be made under prong (iii)(1) by an employee duly authorized by that governing body. Absent such a governing body, certification may be made under prong (iii)(2)(a) by any employee identified by name or by position in the written partnership agreement as authorized to certify CDA claims. Alternatively, certification may be made under prong (iii)(2)(b) by an employee duly authorized by the board of each corporation. In this regard, if one of the corporations were a limited partner, that partner would not have to duly authorize the employee, inasmuch as limited partners have no right to participate in the management and operation of the partnership.

5. *Certification by state, local, and foreign government contractors.* With respect to state, local, and foreign government contractors, "officer" (as identified in prong (ii)) includes officials elected or appointed pursuant to a constitution, charter, or statute, or by a governing body (that group of persons who by constitution, charter, or statute is authorized to elect or appoint officials). For example, where the contractor is a state government, "officer" would include the governor (an offical elected or appointed pursuant to the state constitution) and officials appointed by the governor (pursuant to the governor's authority under the state constitution).

6. *Certifications by contractors in bankruptcy.* Where a contractor is in bankruptcy and its business affairs are under the control of a court-appointed trustee or debtor in possession, either would qualify as duly authorized employees by operation of law.

Comment Date: Comments on this proposed Policy Letter Amendment must be in writing and must be received by May 11, 1992.

Address and Information Contact: Comments should be submitted to Mathew Blum, Staff Attorney, Office of Federal Procurement Policy, Office of Management and Budget, room 9013, 725 17th Street NW., Washington, DC 20503, telephone (202) 395–6803.

Dated: March 4, 1992.

Allan V. Burman,

Administrator.

Amendment to Policy Letter No. 80–3

To the Heads of Executive Departments and Establishments

Subject: Regulatory Guidance on Pub. L. No. 95–563, the Contract Disputes Act of 1978

1. *Purpose.* The purpose of this Amendment is to provide new guidance for determining which individuals within a contractor's organization may properly act in certifying a claim under the Contract Disputes Act (CDA) of 1978, 41 U.S.C. §§ 601 *et seq.*, as amended by the Federal Courts Improvement Act of 1982, Pub. L. No. 97–164, and the Administrative Dispute Resolution (ADR) Act, Pub. L. No. 101–552. This Amendment replaces Section I.7(b) of Policy Letter 80–3.

2. *Authority.* This Amendment to Policy Letter 80–3 is issued pursuant to § 6(a) of the Office of Federal Procurement Policy (OFPP) Act, as amended, codified at 41 U.S.C. § 405(a).

3. *Background.* The CDA requires that, for claims over $50,000, a contractor must certify that: (1) the claim is made in good faith, (2) the supporting data are accurate and complete to the best of the contractor's knowledge and belief, and (3) the amount requested accurately reflects the contract adjustment for which the contractor believes the Government is liable. 41 U.S.C. § 605(c)(1). As a result of an amendment to the CDA by the ADR Act, certification is also required for claims of any amount in which alternative means of dispute resolution or other mutually agreeable procedures are used. 41 U.S.C. § 605(d).

The CDA does not identify who within a contractor's organization can properly act in certifying a claim. However, OFPP Policy Letter 80–3, which provides regulatory guidance on the CDA, states at section I.7(b) that:

(T)he certification shall be executed by the contractor if an individual. When the contractor is not an individual, the certification shall be executed by a senior company official in charge at the contractor's plant or location involved, or by an officer or general partner of the contractor having overall responsibility for the conduct of the contractor's affairs.

This, and other, guidance on contract disputes contained in Policy Letter 80–3 was provided to ensure that the procuring agencies adopted uniform and consistent language when amending their regulations to comply with changes required by the CDA. 45 Fed. Reg. 31035 (May 9, 1980). Providing such guidance on the disputes process was consistent with OFPP's responsibilities under the OFPP Act, as amended, to develop a single, simplified uniform Federal procurement system incorporating all elements and stages of the acquisition process to be followed by Executive agencies. Pub. L. No. 96–83, 93 Stat. 648, 41 U.S.C. § 405(a); H.R. Rep. No. 178, 96th Cong., 1st Sess., 8, *reprinted in* 1979 U.S. Code Cong. & Admin. News 1492, 1499.

In particular, the technical guidance identifying who could certify claims on behalf of the contractor was meant to further the Congressional goal of fair and expedient resolution of claims by providing a standard by which to readily ascertain those people who could certify a claim without the risk of extended litigation over that issue. By utilizing a standard similar to that already required by the Department of Defense (DOD) Appropriation Authorization Act of 1979 (Pub. L. No. 95–485, § 813, 92 Stat. 1611, 1624 (1978), now codified at 10 U.S.C. § 2410) for claims under DOD contracts, the guidance was intended to avoid confusion for DOD contractors and contracting officers.

Requiring that higher level officials within a nonindividual contractor examine the basis of the claim was commensurate with the serious consequences of submitting a fraudulent claim, which may include forfeiture of the claim (28 U.S.C. § 2514), civil monetary sanctions (41 U.S.C. § 604; 31 U.S.C. § 3729), debarment (*see* Federal Acquisition Regulation (FAR) 9.406–2) and imprisonment (18 U.S.C. § 287; 1001). While at the same time serving to deter the submission of unsupported contractor claims, the guidance was also designed to allow the corporate sector sufficient flexibility to operate their businesses as they saw fit—an intention recently acknowledged by the Claims Court in *Aleman Food Services, Inc.* v. *United States*, 24 Cl. Ct. 345 (1991).

In the approximately nine years following the issuance of Policy Letter 80–3, there was relatively little litigation over the interpretation of this language, which, but for minor changes in the word order and punctuation, has been adopted by the FAR at 33.207(c). However, since that time, it has become one of the most, if not the most, controverted of the disputes provisions.

Much of the recent litigation has focused on whether contractors have complied with FAR 33.207(c) as it has been interpreted by the Court of Appeals for the Federal Circuit in *United States* v. *Grumman Aerospace Corp.*, 927 F.2d 575 (Fed. Cir. 1991), *cert. denied*, 60 U.S.L.W. 3293 (U.S. Oct. 15, 1991) (No. 90–1800). In *Grumman*, the Court stated that (1) the certifying senior company official must have both (a) primary responsibility for the execution of the contract, and (b) a physical presence at the location of the primary contract activity, and (2) the certifying officer or general partner must have overall responsibility for the conduct of the contractor's affairs in general. Litigation currently persists over every aspect of the requirement as interpreted in *Grumman*, including what constitutes "primary responsibility," what level of physical presence qualifies as being "at" the plant or location involved, and what constitutes overall responsibility "in general."

Substantial resources have been, and continue to be, expended by contractors attempting to comply with the regulation as construed in *Grumman*, by Government agencies attempting to ensure that the jurisdictional prerequisite has been met, and by tribunals interpreting the requirement. This burden, which prevents parties from focusing on the merits of their disputes, contravenes the CDA's avowed goal of ensuring the prompt and efficient resolution of disputes between contractors and the Government. See 41 U.S.C. 607(e); S. Rep. No. 1118, 95th Cong., 2d Sess., *reprinted in* 1978 U.S. Code Cong. & Admin. News 5235. It also frustrates the Policy Letter's intent of avoiding equivocation and litigation on the matter. Accordingly, OFPP finds it necessary to revise the language specifying who may certify a claim under the CDA.

4. *Policy.* To ensure the clear and easy identification of individuals eligible to certify claims as required by the Contract Disputes Act, as amended, 41 U.S.C. 605(c)(1) and (d), the language in section I.7(b) of Policy Letter 80–3 is hereby revised to read as follows:

If the contractor is an individual, the certification shall be executed by that individual.

If the contractor is not an individual, the certification shall be executed by:

(i) any general partner of a partnership in which all the general partners are individuals;

(ii) any officer elected or appointed by the contractor's governing body (the board of directors where there is such a board); or

(iii) any employee who is duly authorized by name or by position, without the power of redelegation, to bind the contractor in certifying Contract Disputes Act claims as the result of:

(1) a written resolution by the contractor's governing body (the board of directors where there is such a board); or

(2) in the case of a contractor composed of two or more parties (such as corporations) that lacks a governing body:

(a) the written agreement establishing the contractor; or

(b) a written resolution by each member party's governing body (the board of directors where there is such a board).

5. *Responsibilities.*

a. *Federal Acquisition Regulation Councils.* The Defense Acquisition Regulatory Council and the Civilian Agency Acquisition Council shall revise FAR 33.207(c) to conform to the policy established herein in the first quarterly Federal Acquisition Circular (FAC) issued 150 days after publication of this Policy Letter Amendment in the **Federal Register**.

b. *Heads of agencies.* This Policy Letter Amendment shall apply to all solicitations and resulting contracts issued on or after the date the FAC implements it in the FAR. Heads of agencies shall implement the policy established herein accordingly.

6. *Information contact.* Questions or inquiries about this Policy Letter Amendment should be directed to Mathew Blum, Staff Attorney, Office of Federal Procurement Policy, 725 17th Street NW., Washington, DC 20503, telephone (202) 395–6803.

BILLING CODE 3110–01–M

POSTAL SERVICE

International Surface Air Lift (ISAL) Rates

AGENCY: Postal Service.

ACTION: Implementation of changes in International Surface Air Lift (ISAL) Rates.

SUMMARY: The Postal Service, after considering the comments submitted in response to its request in 56 FR 61450 for comments on proposed changes in International Surface Air Lift (ISAL) rates, hereby gives notice that it is implementing the rate changes as proposed.

EFFECTIVE DATE: 12:01 a.m., April 4, 1992.

FOR FURTHER INFORMATION CONTACT: John F. Alepa (202) 268–2650.

SUPPLEMENTARY INFORMATION: On December 3, 1991, the Postal Service published in the **Federal Register** a notice of proposed rate changes for ISAL service (56 FR 61450). As described in more detail below, the proposed changes involved raising the per-piece rate for items weighing two ounces or less from 24 cents to 32 cents and adjusting the full service per-pound rates.

The Postal Service requested comments on the proposed rate changes by January 2, 1992. Of the 16 comments submitted by that date, 14 came from users of ISAL service, one came from a trade association of the Postal Service's competitors in the expedited delivery services industry, and one came from a direct marketing consultant. Fifteen of the commenters objected to the proposed increase in the per-piece rate for items weighing two ounces or less. In contrast, the trade association contended, among other things, that the proposed changes would result in illegally low rates.

I. The Basic ISAL Rate Structure

International Surface Air Lift (ISAL) is a bulk mailing service for international shipment of publications, advertising mail, catalogs, directories, books, and other printed matter. The service is available from designated acceptance cities to approximately 125 countries. To use ISAL, a mailer must send at least 50 pounds of printed matter at one time, presorted by country of destination. Identical piece mailings are not required to qualify. Postage for ISAL mailings is calculated according to a break-point system, with rates including both per-piece and per-pound elements. For ISAL items weighing over two ounces, full service postage currently ranges from $2.85 to $4.20 per pound, depending on country of destination. For ISAL items weighing two ounces or less, full service postage currently is 24 cents per piece, regardless of country of destination. A 30-cents-per-pound discount is currently given to ISAL mail tendered at the gateway airport mail facilities at New York (JFK), San Francisco, CA, and Miami, FL, or when direct shipment can be arranged from one of the acceptance cities. An additional 20% discount is currently available for M Bags (mail to a single addressee sacked in specially-labeled bags and subject to a minimum weight limit.) [1]

The Postal Service is adjusting the rates for ISAL service to reflect more accurately the way in which ISAL costs are incurred. The December 3 **Federal Register** notice proposed to increase the full service per-piece rate from 24 cents to 32 cents. The notice also proposed adjustments, varying up to three percent, to the per-pound rates. Specifically, under the proposal, the full service rate for Rate Group 1 increased from $2.85 to $2.90 per pound; the full service rate for Rate Group 3 decreased from $3.50 to $3.40 per pound; and the full service rates for Rate Groups 2 and 4 remained at, respectively, $3.25 and $4.20 per pound. Finally, the proposal maintained the current gateway/direct ship and M-bag discounts. The Postal Service did not propose any other ISAL changes.

As mentioned above, the Postal Service received a total of 16 comments concerning the proposed changes. Fifteen commenters, all of which use ISAL service for their international mailings of light-weight items, objected to the magnitude of the proposed increase to the per-piece rate for items weighing two ounces or less. These commenters contended that the Postal Service's costs had not increased to the extent necessary to justify the proposed 33% rate increase for light-weight ISAL mail. A number of these commenters also questioned the timing of the proposed rate changes in light of the January 1991 rate restructuring.

In contrast to the other commenters, the trade association asserted that the proposed rates were not only too low but illegal because they failed to cover costs. Specifically, the trade association claimed that its own preliminary analysis showed that, for a two-ounce item, the proposed per-piece rate of 32 cents would cover only half the cost of the service. The trade association concluded from its analysis that the per-piece rate for two-ounce items should be at least twice the level proposed.

The Postal Service has carefully considered the comments received and has evaluated, in the context of those comments and its own analyses, whether the proposed changes are

[1] ISAL M Bags can be sent to all countries except Ethopia.

appropriate. Based on that evaluation, the Federal Service as decided to adopt the proposed rates for ISAL service.

Those commenters objecting to the magnitude of the proposed increase in the per-piece rate for items weighing two ounces or less failed to consider the recent history of ISAL rate changes, or the rationale for the proposed increase. The Postal Service adopted the current ISAL rate structure, effective January 12, 1991, on November 20, 1990 (55 FR 43268). Prior to that rate change, postage for ISAL mailings was calculated solely by weight, without regard to the number of pieces contained within a mailing. That flat pound-rate structure, which had been in effect since July 1987, allowed lightweight mailers to increase the number of pieces per unit of weight mailed without facing additional postage costs.

The Postal Service adopted the break-point system in response to commenters' objections to its original proposal to implement a piece-plus-pound rate structure for ISAL service (55 FR 27915). In general, those commenters contended that shifting to piece-plus-pound rates would greatly disrupt their mailing operations. The break-point system represented a compromise between the Postal Service's need to increase rates for light-weight mail to a level commensurate with costs and the requirement that mailers be able to continue using the service with minimum disruption. The current rate structure tracks ISAL costs much better than the pound-based structure did. However, while the break-point system takes into account both a mailing's density and weight, the current per-piece rate means that mailers of light-weight items are paying proportionately lower postage than other ISAL users. As the Postal Service discussed in the December 3 **Federal Register** notice, light-weight ISAL items are proportionately more costly to the Postal Service than heavier items.

The January 1991 rate restructuring resulted in relatively larger rate increases for light-weight items than for heavy-weight items. Therefore, the Postal Service designed the break-point system to moderate the impact of the resulting rate increase on mailers of items weighing two ounces or less. This was accomplished both by adopting a relatively low initial per-piece rate and by increasing the availability of discounts from full service ISAL rates for mailers that engage in worksharing. In establishing the initial per-piece rate at 24 cents, the Postal Service recognized that mailers of light-weight items needed time to adjust to the break-point system. Consequently, the Postal Service did not set the per-piece rate at a higher level. Now that the mailing community has adapted to the current ISAL rate structure, however, the Postal Service believes that an increase in the per-piece rate to 32 cents is appropriate.

With regard to the trade association's contention that the proposed rates would have inadequate cost coverage, the Postal Service notes, first, that the trade association appears to have used inappropriate cost data in its analysis. The trade association's analysis is based on average costs incurred by the Postal Service for domestic mail; those data are simply irrelevant to an international bulk service such as ISAL. In addition, the manner in which the trade association purports to develop costs does not accurately reflect the manner in which the Postal Service incurs costs for this service. Moreover, the trade association's analysis on its face pertains only to ISAL mail weighing exactly two ounces. The correct standard for determining if rates cover costs is whether the revenues from the service as a whole exceed the costs for the service as a whole.

Notwithstanding the faulty analysis underlying the trade association's contention, however, the Postal Service believes that the concern expressed by the trade association over the proposed changes indicates that the per-piece rate should be increased. The trade association's membership includes virtually all the major international remailers providing delivery services that compete with ISAL. By claiming that even the proposed rate for a two-ounce item would be too low, those competitors have acknowledged that the current rate for light-weight mail needs to be increased. Where the Postal Service disagrees, however, is how that increase should be accomplished. The Postal Service believes that a considerably smaller increase than that suggested by the trade association is proper.

II. Procedural Issues

The trade association also raised two procedural issues. First, it contended that the thirty-day comment period was inadequate. The Postal Service disagrees. It should be noted that no commenter or potential commenter requested an extension of time. Further, the basis for the trade association's contention appears to be an alleged lack of time to acquire and to analyze data pertaining to the Postal Service's costs. The trade association fails to recognize that when the Postal Service seeks public comment on international rates, it is not conducting an Administration Procedure Act (APA) rulemaking. The Postal Service is exempt from the APA by 39 U.S.C. 410(a). There is, therefore, no legal requirement to develop a factual record. Moreover, the data which the trade association apparently wanted to obtain and to analyze are commercially sensitive data exempted from disclosure under the Freedom of Information Act by 39 U.S.C. 410(c)(2). Given these circumstances, there is no reason why a comment period longer than 30 days should have been established.

Second, the trade association argued that the proposed ISAL changes should have been submitted to the Postal Rate Commission (Commission). Although an appeal involving this question is pending before the U.S. Court of Appeals for the Third Circuit, the Postal Service and the Commission have agreed since postal reorganization in 1970 that the Commission has no jurisdiction over international rates. The District Court in the aforementioned case upheld that position. Consequently, there exists no sound basis in law or policy for submitting ISAL rates to the Commission, whose proceedings could have seriously delayed action and whose recommendations, if it chose to make any, would have been advisory at most.

III. Minimum Sack Weight

The December 4 **Federal Register** notice also sought comment from mailers concerning the establishment of a minimum sack weight for ISAL mailings. At present, a mailing must weigh at least 50 pounds to qualify for the service, but there is no minimum weight requirement for individual sacks within a mailing except for M bags.

One commenter addressed this issue. The commenter suggested that the Postal Service consider applying a surcharge on sacks not meeting a minimum weight requirement only if such minimum were not more than 15 or 20 pounds. Further, the commenter recommended that a surcharge be applied only when the total weight of sacks not meeting the minimum was equal to or greater than an established percentage (*e.g.*, 5%) of the weight of the whole mailing. Finally, as an alternative to establishing a minimum sack weight, the commenter suggested that the Postal Service consider changing the current 50-pound minimum shipment weight.

As the Postal Service stated in the December 3 notice, the establishment of a minimum sack weight will be considered separately from the ISAL rate changes discussed above. The Postal Service will, therefore, take into account the suggestions offered by the commenter in future ISAL proposals.

IV. Conclusion

In setting international postage rates, the Postal Service must ensure that such rates, (1) do not apportion the costs of the service so as to impair the overall value of the service to the users; (2) apportion the costs of all postal operations to all users on a fair and equitable basis; (3) are fair and reasonable; and (4) are not unduly or unreasonably discriminatory or preferential. The ISAL rates announced herein satisfy these criteria.

Accordingly, the Postal Service hereby adopts the ISAL rate changes set forth in the schedule below. These changes shall take effect at 12:01 a.m., on April 4, 1992.

Authority: 39 U.S.C. 407, 410.

Stanley F. Mires,

Assistant General Counsel, Legislative Division.

International Priority Airmail (IPA) Rates.

AGENCY: Postal Service.

ACTION: Implementation of changes in International Priority Airmail (IPA) Rates.

SUMMARY: The Postal Service, after considering the comments submitted in response to its request in 56 FR 61448 for comments on proposed changes in International Priority Airmail (IPA) rates, hereby gives notice that it is restructuring IPA rates. The rates being implemented are the same as those proposed, except that the qualifying minimum for the zoned rate option is 10 pounds to a single rate group, not 10 pounds or 200 pieces to a single rate group as proposed.

EFFECTIVE DATE: 12:01 a.m., April 4, 1992.

FOR FURTHER INFORMATION CONTACT: John F. Alepa, (202) 268-2650.

SUPPLEMENTARY INFORMATION: On December 3, 1991, the Postal Service published in the **Federal Register** a notice of proposed rate changes for IPA (56 FR 61448). As described in more detail below, the proposed IPA changes included adopting a piece-plus-pound rate structure and replacing the current worldwide presorted rate option with a new zoned rate option.

The Postal Service requested comments on the proposed rate changes by January 2, 1992. Of the 19 comments submitted by that date, eight came from publishers, five from educational institutions, two came from presort bureaus, one came from a trade association of the Postal Service's competitors in the expedited delivery services industry, and the rest came from a variety of IPA users. Most of the commenters were mailers of light-weight items claiming that the proposed changes would result in unjustifiably large increases to their postage costs. In contrast, the trade association contended, among other things, that the proposed changes would result in unjustifiably large increases to their postage costs. In contrast, the trade association contended, among other things, that the proposed changes would result in illegally low rates.

I. The Basic IPA Rate Structure

International Priority Airmail (IPA) service is as fast as or faster than regular international airmail service and is available to bulk mailers of LC and AO items to all foreign countries except Canada. The Postal Service currently offers two IPA service options, worldwide presorted and worldwide nonpresorted. The presorted option requires the mailer to presort items to destination country, while the nonpresorted option does not require the mailer to perform that worksharing activity. At present, the presorted rate is $7.00 per pound or fraction of a pound and the nonpresorted rate is $8.50 per pound or fraction of a pound. Both current rates are worldwide rates that apply to all IPA mail regardless of destination. In addition, both current rates are flat pound-based rates that do not take into account the number of pieces per unit of weight.

The Postal Service is restructuring the rates for IPA service to reflect more accurately the way in which IPA costs are incurred. The December 3 **Federal Register** notice proposed to modify the IPA rate structure in two significant ways. First, to address the effects of high-density mailings, the Postal Service proposed that all IPA rates consist of both per-piece and per-pound rate elements. The per-piece element was designed to recover those costs that vary by piece volume, while the per-pound element was designed to recover those costs that vary by weight. Thus, the postage for every piece of IPA mail would contain a volume and a weight rate component.

The December 3 **Federal Register** notice also proposed to maintain a nonpresorted rate option but to replace the current presorted rate option with a new zoned rate option that would have three rate groups. The proposed rate groups consisted of destination countries employing common terminal dues systems and, thus, reflected differences in the costs incurred by the Postal Service. The proposed zoned rates, which also reflected differences in costs other than terminal dues, consisted of both per-piece and per-pound rate elements. The rates proposed for the zoned option ranged from 20 cents and $4.95 per pound to 15 cents per piece and $7.95 per pound.

The worldwide rate option, under the December 3 proposal, was essentially equivalent to the current nonpresorted rate option in terms of its applicability to all IPA destination countries and its lack of a presort requirement. However, unlike the current nonpresorted rates, the proposed worldwide rate consisted of both per-piece and per-pound rate elements. The rate proposed for the worldwide option was 20 cents per piece plus $8.00 per pound.

As mentioned above, the Postal Service received a total of 19 comments concerning the proposed changes. Fourteen commenters, all of which use IPA service for their international mailings of light-weight items, objected to the magnitude of the proposed rate increases. These commenters pointed out that the proposed piece-plus-pound rate structure would mean substantially higher postage costs for their high-density IPA mailings than they pay under the current flat pound-based rates. Further, these commenters contended that the Postal Service's costs had not increased to the extent necessary to justify the proposed rate increases for light-weight IPA mail.

In contrast to the 14 commenters claiming that the proposed restructuring of IPA rates would result in unjustifiably large increases to their postage costs, the trade association asserted that the proposed rates were not only too low but illegal because they failed to cover costs. Specifically, the trade association claimed that its own preliminary analysis showed that the proposed IPA rate for a one-ounce item sent to Rate Group 1 would be 14 cents below the cost of the service for that item, while the proposed IPA rate for a one-ounce item sent to Rate Group 3 would be 13 cents below the cost of the service. The trade association concluded from its analysis that the rate for one-ounce items should be considerably higher than the level proposed.

Five commenters objected to the proposal to replace the current worldwide presorted rate option with a zoned rate option. These commenters suggested that the operational problems caused by the change would increase their mail-processing costs.

The Postal Service has carefully considered the comments received and has evaluated, in the context of those comments and its own analyses, whether the proposed rates are too high or too low. Based on that evaluation, the Postal Service has decided to restructure the rates for IPA service as proposed. Although some mailers of light-weight items will face substantial increases in their postage costs, all other IPA users will benefit from the rate restructuring. By taking into account both the density and the weight of a mailing, the restructured rates will more accurately reflect the Postal Service's costs.

As the Postal Service stated in the December 3 **Federal Register** notice, structural changes in the way terminal dues compensation is calculated have made light-weight IPA items proportionately more costly to the Postal Service than heavier items, yet the existing flat pound-based rate structure offers no mechanism to gain commensurate revenue. The pound-rate structure has allowed mailers of light-weight items to increase the number of pieces per unit of weight mailed without facing additional postage costs, with the result that other IPA users are paying proportionately higher rates.

The shift in the mailing patterns of IPA users since the last IPA rate change has exacerbated this problem with the existing rate structure. For example, IPA mailings to Great Britain consisting of ten items per pound have a terminal dues liability that is a fraction of the terminal dues liability for IPA mailings consisting of 50 items per pound. Moreover, the terminal dues cost to the Postal Service for a one-pound mailing consisting of 100 items is nearly twice that for the one-pound mailing consisting of 50 items. However, the current IPA presorted rate simply provides $7.00 of revenue per pound, regardless of a mailing's density or terminal dues liability.

With regard to the trade association's contention that the proposed rates would have inadequate cost coverage, the Postal Service notes, first, that the trade association appears to have used inappropriate cost data in its analysis. The trade association's analysis is based on average costs incurred by the Postal Service for domestic mail; those data are simply irrelevant to an international bulk service such as IPA. In addition, the manner in which the trade association purports to develop costs does not accurately reflect the manner in which the Postal Service incurs costs for this service. Moreover, the trade association's analysis on its face pertains only to mail weighing exactly one ounce. The correct standard for determining if rates cover costs is whether the revenues from the service as a whole exceed the costs for the service as a whole.

Notwithstanding the faulty analysis underlying the trade association's contention, however, the Postal Service believes that the concern expressed by the trade association over the proposed restructuring indicates that a rate increase for light-weight items is justified. The trade association's membership includes virtually all the major international remailers providing delivery services that compete with IPA. By claiming that even the proposed one-ounce rates would be too low, those competitors have acknowledged that the current rates need to be increased. Where the Postal Service disagrees, however, is how that increase should be accomplished. The Postal Service believes that the increase being implemented, though less than that suggested by the trade association, is reasonable and proper.

Finally, the Postal Service believes that the five commenters opposing the establishment of zoned rates ignored the benefits and overstated the problems that will result from this new rate option. The Postal Service acknowledges that the rate restructuring will cause some mailers to change their preparation procedures. However, the advantages of zoning outweigh any disadvantages resulting from such changes in procedures.

As mentioned above, the three rate groups are based on commonality of terminal dues and other costs incurred by the Postal Service. The zoned rates will reflect the costs associated with delivering IPA mail to a particular destination country more accurately than the current worldwide rates do. Consequently, depending on their mail's characteristics and destinations, many IPA users will face lower postage costs under the restructured rates than they face under the current rates. The restructuring will be especially beneficial to mailers of medium- to heavy-weight items who take advantage of the new zoned rates.

Further, the Postal Service notes that it has implemented zoned rates for many existing international services, including International Surface Air Lift (ISAL) service, Express Mail International Service, air printed matter, and international air and surface parcels. Mailers using those services have not found their rate structures to be burdensome. In light of this experience, the Postal Service believes that mailers will be able to adapt easily to zoned IPA rates. Moreover, those mailers that find the zoned rate option unfeasible will still be able to use the worldwide rate option.

II. IPA Requirements

At present, a mailing must consist of either 10 pounds or 200 pieces to qualify for IPA service. This minimum applies across both current rate options. The December 3 **Federal Register** notice proposed to maintain the current qualifying minimum and preparation requirements for the worldwide rate option. However, under the proposal, the zoned option required a minimum of 10 pounds or 200 pieces to a single rate group to qualify for the zoned rate for that rate group.

The Postal Service further proposed that the method of postage payment for both the worldwide and zoned options be postage meter for non-identical weight pieces and permit imprint or postage meter for identical weight pieces. Mailers would no longer be allowed to use ".00" meter impressions to indicate IPA postage payment.

Two commenters claimed that the proposed qualifying minimum for the zoned rate option was too strict. These commenters recommended that mailers be allowed to combine items sent to different rate groups in order to satisfy the ten-pound-or-200-piece minimum.

Five commenters addressed the proposed change in the method of postage payment. These commenters objected to being required to place a postage meter impression for the per-piece rate on non-identical weight pieces. They pointed out that no such requirement currently exists.

Upon careful consideration of the comments received, the Postal Service has decided to establish a 10-pound qualifying minimum for the zoned rate option, rather than the 10-pound-or-200-piece qualifying minimum that was proposed, and to adopt the proposed change in the method of postage payment for IPA mail. The Postal Service notes that its costs are reduced when mail sent at a uniform rate (*i.e.*, to a single rate group) is sacked together. Generally, the cost savings are a function of both the proportion of items in an individual mailing that can be sacked together and, for a given sack within that mailing, the proportion of mail addressed to the same destination country. The proposed zoned rates' discounts from the worldwide rates were predicted, in large part, on customers' performing this sortation as worksharing.

As noted above, the Postal Service has carefully considered the comments

received and has evaluated whether the proposed rates are too high or too low. In consideration of the trade association's claim that the proposed rates are too low, the Postal Service has reviewed the anticipated cost savings that would result from the proposed 10-pound-or-200-piece qualifying minimum for the zoned rate option. The Postal Service recognizes that the proposed minimum would allow mailings of at least 200 pieces to qualify for the zoned rates regardless of such mailings' weights. Thus, for instance, a two-pound mailing consisting of light-weight items being sent to many different countries in the same rate group could qualify for a zoned rate even though cost savings from presorting that mailing might be relatively small.

In order to avoid having such mailings qualify for the zoned rates, the Postal Service has decided to require an IPA mailing to contain a minimum of 10 pounds to a single rate group to qualify for the zoned rate option. Thus, under the eligibility requirements being implemented, at least 10 pounds of presorted mail must be sent to countries in a particular rate group in order for such mail to qualify for the zoned rate for that rate group. This qualifying minimum applies regardless of the number of pieces being sent to countries in that rate group. Of course, mailers who are unable to qualify for the zoned rate option, such as those with at least 10 pounds or 200 pieces of mail but not 10 pounds to a single rate group, will still be able to use IPA at the worldwide rate if they qualify for the service.[1]

The Postal Service believes that a qualifying minimum based solely on weight will require users of IPA service to sort their mail in a manner that accurately reflects the rationale for the zoned rates' discounts from the worldwide rates. The relationship between the cost savings on which the zoned rates' discounts are largely predicted and the proposed 200-piece-or-10-pound qualifying minimum was less direct. Consequently, although the trade association's characterization of the new rates is not a valid one, by establishing a flat 10-pound qualifying minimum for the zoned rate option, the rates are even less susceptible to challenge.

[1] The IPA rate restructuring describing herein does not modify the existing requirement that a mailing must consist of either 10 pounds or 200 pieces to qualify for IPA service. However, by separate **Federal Register** notice, the Postal Service is proposing to change that qualifying minimum to require a mailing to contain at least 10 pounds to qualify for IPA service. The proposed weight-based qualifying minimum would apply regardless of the number of pieces contained in the mailing.

As proposed, whatever portion of an IPA mailing that does not meet the zoned rates' qualifying minimum will have to be sent at the worldwide rate. In addition, mailers using the zoned option will be required to presort items to destination country and to make up their mail in accordance with the applicable sections of the International Mail Manual. Any portion of a zoned IPA mailing that cannot be made up into a country bundle or country sack will also have to be sent at the worldwide rate.

The Postal Service's operational requirements also necessitate a change in the method of postage payment for IPA mail. In moving from flat per-pound rates to a piece-plus-pound rate structure, the Postal Service needs to be able to verify that mailers are continuing to pay the correct amount of postage. The Postal Service already requires postage meter impressions for non-identical weight ISAL pieces weighing two ounces or below and there is no evidence that ISAL users find meeting that requirement difficult. Moreover, IPA users will still be permitted to use permit imprint for non-identical weight items if authorized to participate in the postage payment programs described in Domestic Mail Manual (DMM) sections 145.7, Manifest Mailing System (MMS); 145.8, Optional Procedure (OP) Mailing System; or 145.9, Alternate Mailing Systems (AMS).

The Manifest Mailing System (MMS) is designed for situations in which postage charges cannot be adequately verified by weighing or where normal procedures are impractical and the mailer can generate a computerized listing corresponding to uniquely identified mailpieces. The Optional Procedure (OP) Mailing System is a method of verifying and accepting permit imprint mail consisting of identical or non-identical weight pieces by consulting a mailer's financial, production, and other business records in lieu of the standard verification procedures for weighing bulk mail. Alternate Mailing Systems (AMS) are intended for situations where other systems for the acceptance of permit imprint mail, not specifically outlined in DMM 147.7 or 145.8, satisfactorily provide for the proper postage payment and mail preparation without verification by weight. Mailers interested in these substitute postage payment systems should contact their local postmaster for further information and applications.

In light of the foregoing, the Postal Service is adopting the requirement that postage on non-identical weight IPA items be paid by postage meter impression showing the appropriate piece rate, unless use of a substitute postage payment system is authorized.

III. Procedural Issues

The trade association also raised two procedural issues. First, it contended that the thirty-day comment period was inadequate. The Postal Service disagrees. It should be noted that no commenter or potential commenter requested an extension of time. Further, the basis for the trade association's contention appears to be an alleged lack of time to acquire and to analyze data pertaining to the Postal Service's costs. The trade association fails to recognize that when the Postal Service seeks public comment on international rates, it is not conducting an Administrative Procedure Act (APA) rulemaking. The Postal Service is exempt from the APA by 39 U.S.C. 410(a). There is, therefore, no legal requirement to develop a factual record. Moreover, the data that the trade association apparently wanted to obtain and to analyze are commercially sensitive data exempted from disclosure under the Freedom of Information Act by 39 U.S.C. 410(c)(2). Given these circumstances, there is no reason why a comment period longer than 30 days should have been established.

Second, the trade association argued that the proposed IPA changes should have been submitted to the Postal Rate Commission (Commission). Although an appeal involving this question is pending before the U.S. Court of Appeals for the Third Circuit, the Postal Service and the Commission have agreed since postal reorganization in 1970 that the Commission has no jurisdiction over international rates. The District Court in the aforementioned case upheld that position. Consequently, there exists no sound basis in law or policy for submitting IPA rates to the Commission, whose proceedings could have seriously delayed action and whose recommendations, if it chose to make any, would have been advisory at most.

IV. Conclusion

In setting international postage rates, the Postal Service must ensure that such rates (1) do not apportion the costs of the service so as to impair the overall value of the service to the users; (2) apportion the costs of all postal operations to all users on a fair and equitable basis; (3) are fair and reasonable; and (4) are not unduly or unreasonably discriminatory or preferential. The IPA rates announced herein satisfy these criteria.

Accordingly, the Postal Service hereby adopts the IPA rate changes set forth in the two schedules below. These changes shall take effect at 12:01 a.m., on April 4, 1992.

Authority: 39 U.S.C. 407, 410.

Stanley F. Mires,
Assistant General Counsel, Legislative Division.

TABLE 1.—INTERNATIONAL PRIORITY AIRMAIL

World-wide rate	Zoned rates (presort only)		
Non-Presort	Rate group 1 [1]	Rate group 2 [2]	Rate group 2 [3]
20 cents per piece, plus $8.00 per lb.	20 cents per piece, plus $4.95 per lb.	15 cents per piece, plus $6.15 per lb.	15 cents per piece, plus $7.95 per lb.

[1] Requires a minimum of ten (10) pounds to countries in Rate Group 1.
[2] Requires a minimum of ten (10) pounds to countries in Rate Group 2.
[3] Requires a minimum of ten (10) pounds to countries in Rate Group 3.

BILLING CODE 7710-12-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 35-25484; International Series Release No. 369]

Filings Under the Public Utility Holding Company Act of 1935 ("Act")

March 3, 1992.

Notice is hereby given that the following filing(s) has/have been made with the Commission pursuant to provisions of the Act and rules promulgated thereunder. All interested persons are referred to the application(s) and/or declaration(s) for complete statements of the proposed transaction(s) summarized below. The application(s) and/or declaration(s) and any amendements thereto is/are available for public inspection through the Commission's Office of Public Reference.

Interested persons wishing to comment or request a hearing on the application(s) and/or declaration(s) should submit their views in writing by March 27, 1992 to the Secretary, Securities and Exchange Commission, Washington, DC 20549, and serve a copy on the relevant applicant(s) and/or declarant(s) at the address(es) specified below. Proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Any request for hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in the matter. After said date, the application(s) and/or declaration(s), as filed or as amended, may be granted and/or permitted to become effective.

Central and South West Corporation (70-7868)

Central and South West Corporation ("CSW"), 1616 Woodall Rodgers

Freeway, Dallas, Texas 75202, a registered holding company, has filed an application-declaration citing sections 6(a), 7, 9(a), 9(c)(3), 10, 12(b) and 13(b) of the Act and Rule 45 thereunder.

CSW proposes to form a wholly owned subsidiary corporation, CSW Capital Corporation ("Capital") for the purpose of investing up to $80 million through December 31, 1993, in the equity portion of a series of leveraged leases in respect of an estimated $320 million of commercial aircraft, railroad machinery and equipment, and manufacturing facilities and equipment as available for sale-leaseback ("Assets"). Authority is also requested to maintain Capital's portfolio of lease investments after such date.

CSW proposes to incorporate Capital under the laws of the state of Delaware and acquire all of its 1000 shares of authorized common stock, par value $.01 per share, for $1,000. CSW also proposes to contribute to Capital up to $100,000 in either debt or equity as operating capital. In addition, CSW proposes to contribute up to $80 million at any one time to Capital as advances or equity for investment in leveraged leases. One or more owner trusts will enter into a lease or leases, purchase and hold title to the leased Assets, and borrow the balance of the funds necessary to purchase the Assets. All debt incurred in connection with leveraged lease transactions will be on a non-recourse basis, secured by the Assets. Generally, Capital's initial investment will be in a debt to equity ratio of 3 to 1; although CSW foresees that investments may be refinanced in the future in a debt to equity ratio of 4 to 1.

CSW or an affiliate, which may be Capital, further propose to incorporate a direct or indirect wholly owned subsidiary, ("Offshore"), in a jurisdiction such as Bermuda or the U.S. Virgin Islands. Offshore will qualify as foreign sales corporation under section 921 of the Internal Revenue Code of 1986, as amended ("Code"), and recieve compensation for its services under a commission agreement with Capital. Offshore will provide services to Capital in connection with leveraged lease transactions that can be structured to take advantage of the tax benefits under the Code. Pursuant to the terms of the Code, Offshore will receive from Capital a commission of 23% of the taxable income of any leasing transactions so structured. An unconditional exemption under section 13(b) of the Act is requested with respect to such commisison payments.

If Offshore is incorporated under the laws of the U.S. Virgin Islands, CSW or an affiliate proposes to acquire all of Offshore's 1,000 shares of authorized common stock, par value $.01 per share, for $1,000. Incorporation in Bermuda would be comparable. CSW or an affiliate also propose to contribute to Offshore up to $50,000 in either debt or equity as operating capital.

CSW represents that projections for each leveraged lease entered into will demonstrate a net present value tax savings, using an appropriate discount rate, over the term of each proposed leasing transaction.

The Southern Company, et al. (70–7931)

The Southern Company ("Southern"), 64 Perimeter Center East, Atlanta, Georgia 30346, a registered holding company, and its wholly owned nonutility subsidiary, Southern Electric International, Inc. ("SEI"), 100 Ashford Center North, suite 400, Atlanta, Georgia 30338, have filed an application-declaration under sections 3(a)(5), 3(b), 6(a), 7, 9(a), 10, 12(b), 12(d) and 13(b) of the Act and Rules 43, 44, 45, 50(a)(5), 83, 86, 87, 90 and 91 thereunder.

SEI has submitted a bid to acquire a 40% undivided ownership interest in and to operate Loy Yang B ("Project"), a thermal electric power station located in the State of Victoria, Australia ("Private Sector Interest"). The State Electricity Commission of Victoria ("SECV"), through a wholly owned special purpose subsidiary, will retain ownership of approximately 49% of the Project and a governmental or quasi-governmental agency or institution to be affiliated with the Victoria Government ("Victoria Government Agency") will acquire ownership of approximately 11% of the Project. It is expected that SECV, the Victoria Government Agency and the Private Sector Interest (SECV, the Victoria Government Agency, together with the Private Sector Interest, "Co-Owners") will own the Project as tenants-in-common.[1]

The Project will consist of two 500 megawatt brown coal fired units. Commercial operation of Units 1 and 2 is scheduled for 1993 and 1996, respectively. The total cost of a 40% undivided ownership interest in the Project is estimated to be approximately U.S. $1.2 billion, anticipated to be 80% debt and 20% equity.[2] The Project, when operational, will be an electric utility company within the meaning of section 2(a)(3) of the Act.

For tax reasons, Southern proposes to acquire its 40% undivided ownership interest through a new wholly owned subsidiary company, Southern Power Australia Pty Ltd., ("Australian Subsidiary") and the Australian Subsidiary's three wholly owned subsidiary companies ("Ownership Subsidiaries"). These new subsidiaries will be established under the laws of the Commonwealth of Australia.

The total capitalization of the Australian Subsidiary and the Ownership Subsidiaries will not exceed an aggregate of $250 million and will consist of equity and subordinated debt. Initially, the Australian Subsidiary and the Ownership Subsidiaries each will be capitalized with $1,000. Based upon the $250 million ownership assumption, Southern will capitalize the Australian Subsidiary with a total of between $50 million and $150 million equity. The Australian Subsidiary will issue, and Southern will acquire, shares in the Australian Subsidiary. The Australian Subsidiary will then acquire shares of the Ownership Subsidiaries with the funds provided by Southern. A portion of such shares may be offered to potential private investors and the Australian public.[3] The balance of the Ownership Subsidiaries' capitalization will come directly from Southern, in the form of subordinated debt. The subordinated debt will have a term of between 12 and 35 years and will bear a cumulative interest rate not to exceed 18%. After giving effect to the above transactions, the Ownership Subsidiaries will have available to them the funds necessary to acquire the 40% undivided ownership interest in the Project.

Southern and SEI request authority to acquire a 100% individed ownership interest in the Project but request that the Commission reserve jurisdiction over the acquisition by Southern or its Australian associate companies of any ownership interest in the Project which exceed 40% or involves an equity commitment of greater than $250 million.[4]

Primary Project financing for Southern's 40% undivided ownership interest in the Project is expected to be provided by a syndicate of banking and other financial institutions ("Financing Syndicate"). The debt will be evidenced by notes ("Project Notes") to be issued by the Ownership Subsidiaries and other potential private investors in the Project (Ownership Subsidiaries, together with the other potential private investors, "Private Investors") in proportion to their respective undivided ownership interest in the Project. Project Notes will be nonrecourse to the Private Investors' and will be secured by the Private Investors' undivided ownership in the Project, and in the Project's related contracts and insurance policies. Based upon the desired debt-to-equity ratio, the Project Notes for Southern's 40% undivided ownership interest are not expected to exceed $962.2 million.

The Project Notes are expected to have a term of not less than five years and not more than thirty five years. Interest is not expected to exceed a reference rate which will be defined as the average of the bid and offer rates for Australian dollar bank accepted bills of exchange, plus 2½%, excluding commitment, participation and underwriting fees. Southern, on behalf of the Australian Subsidiary and the Ownership Subsidiaries, requests that the issuance and sale of the Project Notes be excepted from the competitive bidding requirements of Rule 50 pursuant to subsection 50(a)(5) under the Act to negotiate these arrangements. It may do so.

Southern and SEI propose to form a new wholly owned subsidiary company of SEI ("New Sub") to become the operator of the Project. The total capitalization of the New Sub will not exceed $5.001 million. Initially, the New Sub will issue, and SEI will acquire, shares in the New Sub for $1,000. SEI then proposes to provide working capital to the New Sub not to exceed $5 million in the form of loans or advances ("Working Capital Notes"). The Working Capital Notes will be repayable on demand, but in any event will be repayable no later than June 30, 2002. The Working Capital Notes will bear interest at a rate not to exceed the Reference Rate plus 2½%. The working capital will be used by the New Sub to pay its general administrative, personnel, accounting and legal expenses, operations and maintenance and other expenses relating to its obligations as operator of the Project.

In connection with the New Sub's operation of the Project, Southern and SEI propose that the New Sub, pursuant to an exemption from the at-cost standards of section 13(b) of the Act, enter into contracts with the Co-Owners of the Project (in their capacities as Co-Owners) to sell goods and services to the Co-Owners.

As a result of the proposed transactions, the Australian Subsidiary, the Ownership Subsidiaries and the New Sub will be subsidiaries of Southern within the meaning of section 2(a)(8) of the Act, and the Australian Subsidiary will be a holding company within the meaning of section 2(a)(7) of the Act. Southern requests an order under section 3(b) of the Act exempting the Australian Subsidiary, the Ownership Subsidiaries and the New Sub, as subsidiaries, from all provisions of the Act. In addition, Southern requests that the Australian Subsidiary, as a holding company, be exempt from all provisions of the Act under section 3(a)(5). Southern states that the Australian Subsidiary, the Ownership Subsidiaries and the New Sub will not derive any material part of their income, directly or indirectly, from sources within the United States. Further, Southern represents that neither the Australian Subsidiary, the Ownership Subsidiaries nor the New Sub will be a public-utility company operating within the United States.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 92–5533 Filed 3–9–92; 8:45 am]

BILLING CODE 8010–01–M

[1] Under Australian law, the liability of the Co-Owners is several and not joint. It is expected, however, that the Co-Owners will enter into an ownership agreement ("Ownership Agreement") by which the Co-Owners will agree to assume the obligations of a defaulting Co-Owner with respect to completion of construction and operation and maintenance of the Project. Southern states that its liability in such a defaulting situation will be limited to the total amount of equity invested therein, $250 million.

[2] All financial information, unless otherwise noted, is given in U.S. dollars and is based upon the February 11, 1992 New York foreign exchange selling rate of .7517 cents (U.S.) for one Australian dollar, as quoted in The Wall Street Journal. One U.S. dollar is equal to Australian $1.3303.

[3] Southern and SEI seek both authority and an exemption with respect to the possible sale by the Australian Subsidiary of shares in one or more of the Ownership Subsidiaries to institutional investors through private placements and to the public through public offerings in Australia, in all cases to investors outside the United States.

[4] Southern anticipates that Australian Subsidiary and/or the Ownership Subsidiaries will be granted a right of first refusal with respect to any proposed transfer of a Co-Owner's undivided ownership interest in the Project, whether through default by such Co-Owner or otherwise, and that the Ownership Subsidiaries will grant a reciprocal right to the other Co-Owners. Should Southern acquire a 100% undivided ownership interest in the Project, its total equity contribution would be up to and including $625 million. The total capital costs, acquisition expenses, and budgeted completion expenses for the Project on a 100% ownership basis are estimated to be approximately $3 billion.

DEPARTMENT OF TRANSPORTATION
Federal Aviation Administration

Intent To Prepare an Environmental Impact Statement and To Conduct Scoping by Letter for Implementing Noise Abatement Procedures at Detroit Metropolitan Wayne County Airport, Detroit, MI

AGENCY: Federal Aviation Administration (FAA); Department of Transportation.

ACTION: Notice Of Intent To Prepare An Environmental Impact Statement And To Conduct Scoping by Letter.

SUMMARY: The Federal Aviation Administration (FAA) is issuing this notice to advise the public that an environmental document will be prepared and considered for proposed air traffic noise abatement procedures at Detroit Metropolitan Wayne County Airport. To ensure that all significant issues related to the proposed action are identified, scoping comments are requested.

DATES: Comments must be received on or before March 25, 1992.

ADDRESSES: Send comments on the proposal to: Federal Aviation Administration, System Management Branch, AGL–530, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

FOR FURTHER INFORMATION CONTACT: Mr. Douglas F. Powers, Air Traffic Division, Federal Aviation Administration, 2300 E. Devon Avenue, Des Plaines, Illinois, 60018, telephone (312) 694–7568.

SUPPLEMENTARY INFORMATION: The Federal Aviation Administration (FAA) will prepare an Environmental Impact Statement (EIS) for implementation of proposed air traffic noise abatement procedures at Detroit Metropolitan Wayne County Airport. The procedures include:

- Use Runways 21L/R/C as the primary noise abatement configuration with wind conditions up to 7 knot tail wind component;
- Opposite direction nighttime operations from 12 a.m. to 6 a.m. when feasible;
- Retain all northflow departures in an equitable dispersal area on headings between 350 degrees clockwise to 050 degrees;
- Varied visual approach paths; and
- Fanning south flow departures on headings between 180 degrees clockwise to 230 degrees.

Mitigation will be proposed, as necessary, for the adverse impacts created by the procedures.

The FAA initiated scoping for this EIS in early 1991 with the preparation of an

Environmental Assessment (EA) for the 180-day test. This assessment addressed a number of air traffic alternatives. The proposed action substantially represents the procedures which were tested in 1991.

In addition, the FAA conducted a public information meeting and Wayne County conducted several hearings concerning noise issues and alternative ways of reducing impacts. Comments were received during the EA process and subsequently during the test. Additional comments and suggestions are invited by letter from Federal, State and local agencies, and other interested parties to ensure that the full range of issues related to the proposed action are addressed and all significant issues identified. As part of the EIS process, a formal public hearing will be conducted upon release of the draft EIS. A scoping document has been prepared and is available for review by contacting the individual named above under the heading **FOR FURTHER INFORMATION CONTACT.**

Issued in Des Plaines, Illinois on March 3, 1992.

Douglas F. Powers,

Manager, System Management Branch, Air Traffic Division, Great Lakes Region.

BILLING CODE 4910-13-M

RTCA, Inc; Ad Hoc Group 5 Airborne Loran-C Area Navigation Equipment; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463, 5 U.S.C., appendix I), notice is hereby given for the third meeting of Ad Hoc Group 5 to be held March 25-27, 1992, in the RTCA conference room, 1140 Connecticut Avenue, NW., Suite 1020, Washington, DC 20036, commencing at 9:30 a.m.

The agenda for this meeting is as follows: (1) Chairman's introductory remarks; (2) Approval of the second meeting's minutes; (3) FAA briefing on status of CDI Test (Loran program office); (4) Review the proposed terms of reference relative to the use of Loran C as a sole means of navigation; (5) Establish initial work program and schedule; (6) Assignment of tasks; (7) Other business; (8) Date and place of next meeting.

Attendance is open to the interested public but limited to space available. With the approval of the Chairman, members of the public may present oral statements at the meeting. Persons wishing to present statements or obtain information should contact the RTCA Secretariat, 1140 Connecticut Avenue, NW., suite 1020, Washington, DC 20036; (202) 833-9339. Any member of the public may present a written statement to the committee at any time.

Issued in Washington, DC, on February 26, 1992.

Joyce J. Gillen,

Designated Officer.

BILLING CODE 4910-13-M

Intent To Rule on Application To Impose and Use the Revenue From a Passenger Facility Charge (PFC) at Missoula International Airport, Missoula, MT

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of intent to rule on application.

SUMMARY: The FAA proposes to rule and invites public comment on the application to impose and use the revenue from a PFC at Missoula International Airport under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IX of the Omnibus Budget Reconciliation Act of 1990) (Public Law 101-508) and Part 158 of the Federal Aviation Regulations (14 CFR Part 158).

DATES: Comments must be received on or before April 9, 1992.

ADDRESSES: Comments on this application may be mailed or delivered in triplicate to the FAA at the following address: Helena Airports District Office, FAA Building, room 2, Helena Regional Airport, Helena, Montana 59601. In addition, one copy of any comments submitted to the FAA must be mailed or delivered to: Mr. Timothy O. Phillips, AAE, Director of Airports of the Missoula County Airport Authority at the following address: Missoula International Airport, 5225 Highway 10 West, Missoula, Montana 59802.

Air carriers and foreign air carriers may submit copies of written comments previously provided to the Missoula County Airport Authority under § 158.23 of part 158.

FOR FURTHER INFORMATION CONTACT: David P. Gabbert, Manager, Helena Airports District Office, FAA Building, room 2, Helena Regional Airport, Helena, Montana 59601, (406) 449-5271. The application may be reviewed in person at this same location.

SUPPLEMENTARY INFORMATION: The FAA proposes to rule and invites public comment on the application to impose and use the revenue from a PFC at Missoula International Airport under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IX of the Omnibus Budget Reconciliation Act of 1990) (Pub. L. 101-508) and Part 158 of the Federal Aviation Regulations (14 CFR Part 158).

On February 28, 1992, the FAA determined that the application to impose and use the revenue from a PFC submitted by Missoula County Airport Authority was substantially complete within the requirements of section 158.25 of Part 158. The FAA will approve or disapprove the application, in whole or in part, no later than June 12, 1992.

The following is a brief overview of the application:

Level of the proposed PFC: $3.00.

Proposed charge effective date: August 1, 1992.

Proposed charge expiration date: June 30, 1997.

Total estimated PFC revenue: $1,900,000.00.

Brief description of proposed projects: Taxiway "P" realignment, extension, and rehabilitation; terminal access improvements; terminal expansion project; land acquisition; and airfield vacuum broom.

Class or classes of air carriers which the public agency has requested not be required to collect PFCs: Air taxi's and charter carriers.

Any person may inspect the application in person at the FAA office listed above under **"FOR FURTHER INFORMATION CONTACT"** and at the FAA regional Airports office located at: Federal Aviation Administration, Northwest Mountain Region, Airports Division, ANM-600, 1601 Lind Avenue, SW., Renton, Washington 98055-4056.

In addition, any person may, upon request, inspect the application, notice and other documents germane to the application in person at the Missoula County Airport Authority.

Issued in Renton, Washington, on February 28, 1992.

Edward G. Tatum,

Manager, Airports Division, Northwest Mountain Region.

DEPARTMENT OF VETERANS AFFAIRS

Disciplinary and Grievance Procedures; MP–5, Part II, Chapter 8

AGENCY: Department of Veterans Affairs.

ACTION: Notice with request for comments; extension of comment period.

SUMMARY: This extension for comments is made at the request of several interested parties. MP–5, part II, chapter 8, in its entirety, was published in the **Federal Register** on January 31, 1992 (57 FR 3815), pursuant to Section 203 of the Department of Veterans Affairs Health-Care Personnel Act of 1991 (Public Law 102–40), dated May 7, 1991, which revised the disciplinary, grievance and appeal procedures for employees appointed under 38 U.S.C. section 7401(1).

DATES: Comments must be received on or before March 13, 1992. Comments will be available for public inspection through March 23, 1992. The proposed effective date of these regulations is March 16, 1992.

ADDRESSES: Send written comments to: Secretary of Veterans Affairs (271A), Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420. All written comments received will be available for public inspection only in the Veterans Services Unit, room 170 of the above address between the hours of 8 a.m. to 4:30 p.m., Monday through Friday until March 23, 1992.

FOR FURTHER INFORMATION CONTACT: George W. Williams, Director, Employee Relations and Performance Management Service (058), Office of Personnel and Labor Relations, Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420, (202) 535–8875.

Dated: March 4, 1992.

BILLING CODE 8320–01–M

Career Development Committee; Meeting

The Department of Veterans Affairs gives notice under Public Law 92–463 that a meeting of the Career Development Committee, authorized by 38 U.S.C. 7303, will be held at the Omni Inner Harbor Hotel, 101 West Fayette Street, Baltimore, MD 21201, April 29, through May 1, 1992, starting at 8 a.m., April 29. The meeting will be for the purpose of scientific review of applications for appointment to the Career Development Program in the Department of Veterans Affairs. The committee advises the Director, Medical Research Service, on selection and appointment of Associate Investigators, Research Associates, and Senior Medical Investigators.

The meeting will be open to the public up to the seating capacity of the room from 8 a.m. to 8:30 a.m. on April 29, 1992, to discuss the general status of the program. Because of the limited seating capacity of the room, those who plan to attend should contact Mr. Robert E. Meci, Executive Secretary of the Career Development Committee (12A3), Department of Veterans Affairs, Washington, DC 20420, (202) 523–6876, prior to April 22, 1992. The meeting will be closed from 8:30 a.m. to 5:30 p.m. on April 29, and 8 a.m. to 5:30 p.m. on April 30 and May 1 for consideration of individual applications for positions in the Career Development Program. This necessarily requires examination of personnel files and discussion and evaluation of the qualifications, competence, and potential of the candidates, disclosure of which would constitute a clearly unwarranted invasion of personal privacy. Accordingly, closure of this portion of the meeting is permitted by section 10(d) of Public Law 92–463 as amended, in accordance with subsection (c)(6), 5 U.S.C. 552b.

Minutes of the meeting and rosters of the committee members may be obtained from Robert E. Meci, Chief, Career Development Program, Medical Research Service (12A3), Department of Veterans Affairs, Washington, DC 20420, (phone 202–523–6876).

Dated: February 26, 1992.

By Direction of the Secretary.

Diane H. Landis,

Committee Management Officer.

BILLING CODE 8320–01–M

The Redevelopment of the VAMC Baltimore ("Loch Raven")

AGENCY: Department of Veterans Affairs.

ACTION: Notice of designation.

SUMMARY: The Secretary of the Department of Veterans Affairs is designating the Baltimore VA Medical Center ("Loch Raven") as a site that will be subject to redevelopment under the terms of an enhanced-use lease. The Department intends to enter into a long-term lease of real property and facilities with the developer who provides the Department with the greatest economic advantages.

FOR FURTHER INFORMATION CONTACT: Diane H. Esanu, Office of the Assistant Secretary for Acquisition and Facilities (005), 810 Vermont Ave., NW., Washington, DC 20420, 202–535–8555.

SUPPLEMENTARY INFORMATION: Public Law 101–507 specifically provides that the Secretary may enter into an enhanced-use lease with a private developer to provide services, revenue, or both, to the Department; be economically self-sustaining; and be compatible with the existing residential neighborhood.

APPROVED: February 28, 1992.

Edward J. Derwinski,

Secretary of Veterans Affairs.

Notice of Designation

Pursuant to the provisions of Public Law 101–507, this serves as notice that the Secretary of the Department of Veterans Affairs ("the Department") is designating the Loch Raven VA Medical Center ("Loch Raven") as a site that will be subject to redevelopment under the terms of an enhanced-use lease.

Loch Raven is a 15-acre facility, located on a residentially-zoned site in the northeast section of the city of Baltimore, Maryland. The complex is designed as a campus, with a main hospital building, and several smaller administrative support and laboratory buildings. The main hospital building is a 38-year old, 291-bed, acute care medical center. Gross building area exceeds 268,000 square feet.

Background/Rationale

Public Law 101–507 specifically provides that the Secretary may enter into an enhanced-use lease to redevelop Loch Raven. In addition, the Department is constructing a new veterans' hospital in Baltimore, which is expected to be fully operational by 1992. An enhanced-use lease will provide the Department with additional space and services, and ensure the continued viability of Loch Raven after 1992. The redevelopment of Loch Raven is to be accomplished by a private developer. A portion of the facility must be redeveloped to meet certain needs articulated by the Department, and reserved for the Department's exclusive use. The Department will enter into a long-term lease with the developer, pursuant to which the developer will operate and manage the facility. The developer will enter into long-term subleases of the remaining property and buildings with private or other public entities. Loch Raven shall be redeveloped in a manner that is consistent with, and not adverse to, the mission of the Department to provide services to veterans.

The Department intends that the redevelopment of Loch Raven be

completed not more than five years from the date on which an enhanced-use lease is entered into with a private developer. In addition, the enhanced-use lease will provide services, revenue, or both, to the Department; be economically self-sustaining; and be compatible with the existing urban residential neighborhood. There are several economic advantages to the Department that result from enhanced use. They include, but are not limited to, the following: the construction or renovation of a facility for veterans through a minimal outlay of Federal funds; the receipt of revenue by the Department ; and the provision of additional services to veterans. The Department intends to enter into a long-term lease of real property and facilities with the developer who provides the Department with the greatest economic advantages.

Economic Factors in Support of the Enhanced-Use Lease

In considering use of entering into an Enhanced-Use lease for the Loch Raven facility, the transaction as proposed was examined in terms of its economic consequences in comparison with other alternatives available to the Department; namely, rehabilitation of the facility for VA use or disposal of the facility. This examination included a life-cycle cost analysis performed in accordance with OMB Circular A–104.

The analysis revealed that the Enhanced-Use lease alternative appears to be the most cost-beneficial option which satisfies VA space and community nursing home program requirements. This analysis was performed using similar criteria from various services. Underlying economic data was obtained from an independent appraisal of the market value of the facility, VA construction estimates and data received at an industry forum specifically held for this project.

Public Hearing

On June 20, 1991, a public hearing was held with respect to the proposed designation, at which time comments were solicited from veterans service organizations, as well as from representatives of local commerce and other members of the community.

Present at the meeting were:

Congressional Representatives

Maggie MacIntosh, Representing Senator Barbara Mikulski;
Kevin Kelly, Clerk, Senate Appropriations Subcommittee on VA, HUD and Independent Agencies
Carrie Apostolou, Staff to the Senate Appropriations Subcommittee

VA Representatives

Anthony J. Principi, Deputy Secretary
Barbara Gallagher, Medical Center Director
David E. Lewis, Assistant Secretary for Acquisition and Facilities
Robert E. Coy, Deputy General Counsel
Diane Esanu, Loch Raven Project Director
Barbara Nugent, Richard Iafola and Judith Sterne, Project Specialists

State Representatives

Jim Stanton, Executive Director of the Maryland Health Resources Planning Commission and members of his staff

City Representatives

Sara R. Trenery, Senior Vice President, Baltimore Economic Development Corporation, Representing the Mayor's Office
Sharon Klotts, City Planning Department
Peter Conrad, City Planning Department

The only issues raised concerned increased vehicular traffic and noise resulting from the use of the redeveloped facility. The Department will require in its Request for Proposal that all Development Plans incorporate a detailed discussion on parking and traffic management for the entire site. The Development Plan will also include a discussion on possible impact both on and off the site in terms of environmental concerns such as noise levels. These discussions should be for all phases (from initial occupancy of the site, through construction and final occupancy and uses of the property).

The representatives from the veterans service organizations and the local community at large overwhelmingly supported the designation.

General Description of the Proposed Lease

The Department of Veterans Affairs intends to lease the Loch Raven Medical Center to a private firm for 20 years if the firm is not proposing to build new buildings or do major remodeling to the existing buildings, or 35 years if the firm intends to build new buildings or do major remodeling to the existing buildings.

The private firm must have a redevelopment plan that can be completed within 5 years or less; is economically feasible and self-sustaining; offers something of value to the Department—space, services in kind, revenue, or a combination thereof; is compatible with, and not adverse to, the mission of the Department; and is compatible with the existing urban residential neighborhood.

Description of How the Proposed Lease Will—

(1) Contribute Cost-Effectively to, Be Consistent With, and Not Adversely Affect the Mission of the Department

In order for any offer to be considered, an offeror must propose a use that provides space, revenue, services in kind, or a combination thereof. In addition, the redevelopment must promote the mission of the Department and cannot adversely affect the mission of the Department. Firms that do not meet these requirements will not be considered for award.

(2) Affect Services to Veterans

The enhanced-use lease must designate a certain portion of the redeveloped facility for the exclusive use of the Department, thus providing needed additional space. In addition, if the firm is proposing to provide services in kind, such as medical care, this lease would enhance the VA's ability to provide such services to veterans. If the firm proposes to provide revenues in the form of lease payments, then the income received could be used to fund services to veterans that are not presently available, or to expand upon those that are.

BILLING CODE 8320–01–M

Development of the VAMC Houston

AGENCY: Department of Veterans Affairs.

ACTION: Notice of designation.

SUMMARY: The Secretary of the Department of Veterans Affairs is designating the Houston VA Medical Center as a site that will be subject to development under the terms of an enhanced-use lease. The Department intends to enter into a long-term lease of real property and facilities with the developer who provides the Department with the greatest economic advantages.

FOR FURTHER INFORMATION CONTACT: Jo Morningstar, Office of the Assistant Secretary for Acquisition and Facilities (005), 810 Vermont Ave., NW., Washington, DC 20420, 202–535–8555.

SUPPLEMENTARY INFORMATION: 38 U.S.C. 8161 *et seq.* specifically provides that the Secretary may enter into an enhanced-use lease with a private developer to provide services, revenue, or both, to the Department; be economically self-sustaining; and be compatible with the existing residential neighborhood.

Approved: February 20, 1992.
Edward J. Derwinski,
Secretary of Veterans Affairs.

Notice of Designation

Pursuant to the provisions of 38 U.S.C. 8161 *et seq.*, "Enhanced-Use Leases of Real Property", and 38 U.S.C. 316, this serves as notice that the Secretary of Veterans Affairs ("Secretary") intends to designate an approximately twenty (20) acre portion of the Houston VA Medical Center as a site ("the Houston site") that will be subject to public/private development under the terms of an Enhanced-Use Lease, including the collocation of the VBA Houston Regional Office on the site.

The Houston VA Medical Center is located at 2002 Holcolmbe Boulevard in the City of Houston. The Houston site is located in the northeast corner of the campus bordered by Almeda Road to the east and Holcombe Boulevard to the north. The purpose of this designation is to enable the Secretary to enter into an Enhanced-Use Lease of the subject property.

Background and Rationale

38 U.S.C. 8161 *et seq.*, authorizes the Secretary to lease Department-controlled real property to private and other public entities for a term of years for the development of the property for non-VA purposes provided that, at least part of the use of the property will provide space for an activity contributing to the mission of the Department; the non-VA uses are not inconsistent with and will not adversely affect the mission of the Department; and the Enhanced-Use Lease will enhanced the use of the property. As consideration for such lease, the Secretary is authorized to obtain facilities, services, money, or other "in-kind" consideration. Where new construction or substantial rehabilitation will occur, the lease may not exceed 35 years, or 20 years, in all other cases.

The Department proposes to enter into an Enhanced-Use Lease with the developer of the Houston site, who will also construct the collocated Veterans Benefits Administration Regional Office on the property under the terms of a one year lease purchase agreement. The Department anticipates that in permitting the developer of the Regional Office building to use the remainder of the Houston site for certain specified non-VA uses under an Enhanced-Use Lease, it will obtain necessary parking facilities for the Regional Office at reduced cost as well as other benefits resulting from the non-VA development including: rental proceeds; discounts on the cost of operation and maintenance of the Regional Office building, or other in-kind consideration.

Economic Factors in Support of the Enhanced-Use Lease

As the Enhanced-Use Lease in this instance also will support the lease/purchase of the VBA office building, the entire transaction was examined in terms of its economic consequences in comparison with other alternative acquisition methods: traditional construction; commercial leasing; and an Enhanced-Use Lease for the entire VBA requirement (VBA space and parking). This examination included a life-cycle cost analysis performed in accordance with OMB Circular A–104.

The analysis revealed that lease/purchase of the Regional Office Building, with an enhanced use lease for the associated parking, appears to be the most cost-beneficial option followed by the Enhanced-Use Lease for the entire VBA space requirements. This analysis was performed using similar criteria from various sources. Costs for Government construction was obtained from VA construction estimates; cost for private sector construction was based on data received at an industry forum specifically held for this project.

The comments received from the private sector supporting this analysis include: (1) The current upswing in the commercial leasing market in Houston makes commercial leasing with no residual value to VA economically very unattractive; (2) private industry, generally, is able to construct administrative office space at a much lower cost than the Government; and (3) making thirty years of rental payments, which necessarily include the cost of financing, is significantly more costly to VA than purchasing the VBA building over a one-year lease/purchase term.

Public Hearing

On September 26, 1991, a public hearing was held regarding the proposed designation. Comments were solicited from Veterans Service Organizations, as well as representatives of local commerce. Present at the meeting were The Honorable David Lewis, Assistant Secretary for Acquisition and Facilities of the Department of Veterans Affairs; Mr. Ted Myatt, Director, VA Regional Office, Houston; Mr. Adam Walmus, Associate Medical Director, VA Medical Center, Houston, and several members of their respective staffs.

The public hearing began at 7:15 p.m. and concluded at approximately 8:30 p.m. The Department received a very positive response from the community to the proposal to use an Enhanced-Use Lease in connection with the collocation of the Regional Office onto the Medical Center grounds. In particular, Disabled American Veterans voiced its support of the proposal, noting that the Enhanced-Use collocation agreement will be in keeping with its national organization's encouragement of VA's provision of benefits and medical services on one campus, the potential for improving timeliness in claim-processing, and the potential for monetary savings as a result of the "Enhanced-Use" of the site. The Veterans of Foreign Wars, while unable to attend the Hearing, communicated in writing its strong support both of the concept of collocation as well as the use of an Enhanced-Use Lease.

A member of a residential community adjacent to the VA Medical Center expressed his concern that the new VA and non-VA development would cause parking problems for his community. The community member was assured that VA has provided in the solicitation for sufficient parking to accommodate both the VA and the non-VA developments.

General Description of Enhanced-Use Lease

The Department of Veterans Affairs intends to lease approximately 20 acres of the Houston site (or a significant portion of this site) for a term of up to 35 years for the purpose of developing the site for VA and non-VA uses.

The Enhanced-Use Lessee must have a development plan that can be completed within a specified period of time; is economically feasible and self-sustaining; and in addition to offering space for use by the VA, offers something of value to the Department—space, services in kind, revenue, or a combination thereof; is compatible with, and not adverse to, the mission of the Department; and is compatible with the existing surroundings.

Description of How The Proposed Lease Will—

(1) Contribute Cost Effectively To Be Consistent With and Not Adversely Affect the Mission of the Department

The Department anticipates that, through the Enhanced-Use Lease, it will collocate the VBA Regional Office with the Medical Center at a lesser cost than commercial leasing and in a shorter time period than through "traditional" VA construction.

The Department will assure through lease restrictions that all development (VA and non-VA development) will be

consistent with, and not adversely affect, the mission of the Department.

(2) Affect Service to Veterans

The Enhanced-Use Lease provides that the successful offeror must design, construct, operate and maintain parking facilities and provide maintenance and operation services for the VBA Regional Office building on the Houston site, thus providing significantly enhanced service to veterans through the convenience of collocation with the VA Medical Center.

Further, any financial benefits gained as a result of lower VA cost for VBA space, services, and/or income stream from private non-VA development could translate into the funding of services to veterans not currently provided and/or enhancing services currently in existence.

Sunshine Act Meetings

Federal Register
Vol. 57, No. 47
Tuesday, March 10, 1992

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

DEPARTMENT OF ENERGY

FEDERAL ENERGY REGULATORY COMMISSION

The following notice of meeting is published pursuant to Section 3(a) of the Government in the Sunshine Act (Pub. L. No. 94-409), 5 U.S.C. 552b:

DATE AND TIME: March 11, 1992, 10:00 a.m.

PLACE: 825 North Capitol Street, NE., Room 9306, Washington, DC 20426.

STATUS: Open.

MATTERS TO BE CONSIDERED: Agenda.

Note: Items listed on the agenda may be deleted without further notice.

CONTACT PERSON FOR MORE INFORMATION: Lois D. Cashell, Secretary, Telephone (202) 208-0400. For a recording listing items stricken from or added to the meeting, call (202) 208-1627.

This is a list of matters to be considered by the Commission. It does not include a listing of all papers relevant to the items on the agenda; however, all public documents may be examined in the Reference and Information Center.

Consent Agenda—Hydro, 954th Meeting—March 11, 1992, Regular Meeting (10:00 a.m.)

FEDERAL COMMUNICATIONS COMMISSION

To Hold Open Commission Meeting, Thursday, March 12, 1992

The Federal Communications Commission will hold an Open Meeting on the subjects listed below on Thursday, March 12, 1992, which is scheduled to commence at 9:30 a.m., in Room 856, at 1919 M Street, NW., Washington, DC.

Item No., Bureau, and Subject

1—Common Carrier—Title: Amendment of Part 22 of the Commission's Rules to provide for filing and processing of applications for unserved areas in the Cellular Service and to modify other cellular rules (CC Docket No. 90–6). Summary: The Commission will consider adoption of a *Second Report and Order* concerning a new method for determining the boundaries of Cellular Geographic Service Areas (CGSAs). The Commission will also consider allowing cellular licensees to expand their CGSAs within their markets during the five year fill-in period without prior authorization.
2—Common Carrier, Office of International Communications—Title: Permissible Services of U.S.-Licensed International Communications Satellite Systems Separate from the International Telecommunications Satellite Organization (INTELSAT). Summary: The Commission will consider adoption of an *Order* concerning the permissible scope of services provided over U.S.-licensed separate international satellite systems consistent with the November 27, 1991, Executive Branch policy determination.
3—Common Carrier—Title: Policies and Rules Concerning Local Exchange Carrier Validation and Billing Information for Joint Use Calling Cards (CC Docket No. 91–115). Summary: The Commission will consider adoption of a *Report and Order and Request for Supplemental Comment* regarding the handling of credit card calls.
4—Common Carrier—Title: Billed Party Preference for O+ InterLATA Calls. Summary: The Commission will consider adoption of a *Notice of Proposed Rule Making* concerning a petition filed by Bell Atlantic regarding "billed party preference" routing for certain operator-assisted calls.
5—Mass Media—Title: Review of the Commission's Regulations and Policies Affecting Investment in the Broadcast Industry. Summary: The Commission will consider adoption of a *Notice of Proposed Rule Making and Notice of Inquiry* concerning capital formation and investment in the broadcast industry.
6—Mass Media—Title: Revision of Radio Rules and Policies (MM Docket No. 91–140). Summary: The Commission will consider adoption of a *Report and Order* revising its national and local ownership rules governing radio, as well as its policies regarding time brokerage and other joint ventures among radio stations.
7—General Counsel—Title: Reexamination of the Policy Statement on Broadcast Comparative Hearings (RM–7739, RM–7740, and RM–7741). Summary: The Commission will consider adoption of a *Notice of Proposed Rule Making* that reexamines the 1965 Broadcast Comparative Hearing Policy Statement and the broadcast comparative criteria.

Issued March 5, 1992.

Federal Communications Commission.

Donna R. Searcy,

Secretary.

FEDERAL DEPOSIT INSURANCE CORPORATION

Notice of Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 9:05 a.m. on Thursday, March 5, 1992, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session to consider a proposed settlement of litigation relating to Michael R. Milken and other individuals.

In calling the meeting, the Board determined, on motion of Director C.C. Hope, Jr. (Appointive), seconded by Director T. Timothy Ryan, Jr., Director (Office of Thrift Supervision), concurred in by Vice Chairman Andrew C. Hove, Jr., Director Stephen R. Steinbrink (Acting Comptroller of the Currency), and Chairman William Taylor, that Corporation business required its consideration of the matter on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matter in a meeting open to public observation; and that the matter could be considered in a closed meeting by authority of subsections (c)(2), (c)(6), (c)(9)(B), and (c)(10) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(2), (c)(6), (c)(9)(B), and (c)(10)).

The meeting was held in the Board Room of the FDIC Building located at 550—17th Street, N.W., Washington, D.C.

Dated: March 6, 1992.

Federal Deposit Insurance Corporation.

Robert E. Feldman,

Deputy Executive Secretary.

BILLING CODE 6715–01–M

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

TIME AND DATE: 11:00 a.m., Monday, March 16, 1992.

PLACE: Marriner S. Eccles Federal Reserve Board Building, C Street entrance between 20th and 21st Streets, N.W., Washington, D.C. 20551.

STATUS: Closed.

MATTERS TO BE CONSIDERED:

1. Proposals regarding a Federal Reserve Bank's renovation project.
2. Personnel actions (appointments, promotions, assignments, reassignments, and salary actions) involving individual Federal Reserve System employees.
3. Any items carried forward from a previously announced meeting.

CONTACT PERSON FOR MORE INFORMATION: Mr. Joseph R. Coyne, Assistant to the Board; (202) 452–3204. You may call (202) 452–3207, beginning at approximately 5 p.m. two business days before this meeting, for a recorded announcement of bank and bank holding company applications scheduled for the meeting.

Dated: March 6, 1992.

Jennifer J. Johnson,

Associate Secretary of the Board.

NUCLEAR REGULATORY COMMISSION

DATE: Weeks of March 9, 16, 23 and 30, 1992.

PLACE: Commissioners' Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Open and Closed.

MATTERS TO BE CONSIDERED:

Week of March 9

Tuesday, March 10

1:00 p.m.
Briefing on Pending Investigations (Closed—Ex. 5 and 7)
2:00 p.m.
Briefing on Risk-Based Regulations Transition Strategy (Public Meeting)

Wednesday, March 11

9:00 a.m.
Briefing on Rulemaking Process for Developing Residual Radioactivity Standards for Decommissioning (Public Meeting)
10:30 a.m.
Affirmation/Discussion and Vote (Public Meeting) (if needed)
1:30 p.m.
Briefing on Requirements for Integral System Testing of Westinghouse AP–600 (Public Meeting)

Week of March 16—Tentative

Tuesday, March 17

8:30 a.m.
Discussion of Readiness to Restart of the General Atomics-Sequoyah Fuels Facility (Public Meeting)
2:00 p.m.
Briefing on Activities of the Center for Nuclear Waste Regulatory Analysis (CNWRA) (Public Meeting)

Thursday, March 19

11:30 a.m.
Affirmation/Discussion and Vote (Public Meeting) (if needed)

Week of March 23—Tentative

Wednesday, March 25

10:00 a.m.
Annual Briefing on Medical Use of Byproduct Material (Public Meeting)
11:30 a.m.
Affirmation/Discussion and Vote (Public Meeting) (if needed)

Week of March 30—Tentative

Thursday, April 2

3:30 p.m.
Affirmation/Discussion and Vote (Public Meeting) (if needed)

Friday, April 3

10:00 a.m.
Briefing by ABB/CE on Status of System 80+ Application for Design Certification (Public Meeting)

Note: Affirmation sessions are initially scheduled and announced to the public on a time-reserved basis. Supplementary notice is provided in accordance with the Sunshine Act as specific items are identified and added

to the meeting agenda. If there is no specific subject listed for affirmation, this means that no item has as yet been identified as requiring any Commission vote on this date.

Corrections

Federal Register

Vol. 57, No. 47

Tuesday, March 10, 1992

This section of the FEDERAL REGISTER contains editorial corrections of previously published Presidential, Rule, Proposed Rule, and Notice documents. These corrections are prepared by the Office of the Federal Register. Agency prepared corrections are issued as signed documents and appear in the appropriate document categories elsewhere in the issue.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Community Planning and Development

24 CFR Part 570

[Docket No. R-92-1549; FR-2943-P-01]

Community Development Block Grant Funded Code Enforcement

Correction

In proposed rule document 92-2298 beginning on page 3971, in the issue of Monday, February 3, 1992, make the following correction:

On page 3972, in the first column, in the **DATES** section, "March 3, 1992." should read "April 3, 1992.".

BILLING CODE 1505-01-D

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Housing—Federal Housing Commissioner

[Docket No. N-92-3339; FR-3136-N-01]

NOFA for the Operating Assistance and Capital Improvement Loan Components Under the Flexible Subsidy Program

Correction

In notice document 92-3724 beginning on page 5948, in the issue of Tuesday, February 18, 1992, make the following correction:

On page 5948, in the first column, in the **DATES** section, in the fourth line, "April 3, 1991" should read "April 3, 1992".

BILLING CODE 1505-01-D

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

Notice of Intent To Prepare a New or Supplemental Environmental Impact Statement for Approval of State and Tribal Reclamation Program Grants Under Title IV of the Surface Mining Control and Reclamation Act of 1977

Correction

In notice document 92-4487 beginning on page 6737 in the issue of Thursday, February 27, 1992, make the following correction:

On page 6738, in the second column, in the second full paragraph, the third line should read "environmental assessments prepared in support of AML grants, a more comprehensive".

BILLING CODE 1505-01-D

NUCLEAR REGULATORY COMMISSION

10 CFR Part 2

RIN 3150-AD97

Policy and Procedure for Enforcement Actions; Policy Statement

Correction

In rule document 92-3604 beginning on page 5791 in the issue of Tuesday, February 18, 1992, make the following corrections:

1. On page 5800, in the first column, after the first full paragraph, insert the letter "*D*" before the word "*Violations*".

2. On page 5802, in the table, in the third column, under "Safeguards"the " dotted line" should be set as a "dash".

3. On page 5814, in the second column, in the sixth paragraph, in the first line, "*B. Severity* ***" should read "*C. Severity* ***".

Part II

Environmental Protection Agency

40 CFR Parts 122, 123, 124, and 501
Treatment of Indian Tribes as States for Purposes of Sections 308, 401, 402, and 405 of the Clean Water Act, Proposed Rule

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 122, 123, 124, and 501

[FRL-3789-8]

RIN 2040-AB70

Treatment of Indian Tribes as States for Purposes of Sections 308, 309, 401, 402, and 405 of the Clean Water Act (CWA)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Water Quality Act of 1987 (Pub. L. 100-4) amends the CWA by adding section 518 which requires EPA to promulgate regulations, specifying how Tribes will be treated as States for the following provisions of the CWA: Title II (Construction Grants), section 104 (Research, Investigation, and Training), section 106 (Grants for Pollution Control), section 303 (Water Quality Standards), section 305 (Water Quality Inventories), section 308 (Inspections, Monitoring, and Entry), section 309 (Federal Enforcement), section 314 (Clean Lakes), section 319 (Non-Point Source Program), section 401 (Certification), section 402 (National Pollutant Discharge Elimination System), and section 404 (Dredge and Fill Permits).

This proposed rule would (a) establish requirements for determining eligibility of Indian Tribes to be treated as States for purposes of CWA sections 308, 309, 402 and 405; and (b), if an Indian Tribe is found so eligible, allow for assumption of the National Pollutant Discharge Elimination System (NPDES) permit program and State sludge management program. It also provides for the treatment of Indian Tribes as States in the NPDES permit program for purposes of State certification of activities requiring a federal license or permit under section 401 of the CWA. This regulation would satisfy the statutory provisions in section 518 of the CWA with respect to the 402 program, and is consistent with previous Agency rulemaking addressing the eligibility of Indian Tribes to assume CWA section 405 State sludge management programs.

DATES: Written comments on this proposed rule will be accepted until May 11, 1992.

ADDRESSES: Send written comments to Wendy J. Miller, Office of Wastewater Enforcement and Compliance (OWEC), Permits Division (EN-336), Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Wendy J. Miller, OWEC, Permits Division (EN-336), Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460, (202) 260-3716. The administrative record for this rulemaking will be available for inspection and copying between 8 a.m. and 4:30 p.m. on business days at OWEC, Permits Division, 401 M Street, SW., Washington, DC 20460, room 208 NE Mall. A reasonable fee will be charged for photocopying. Inquiries can be made by calling (202) 260-9543.

SUPPLEMENTARY INFORMATION:

I. Background

A. Statutory Authority

The over-all objective of the CWA as amended is to restore and maintain the chemical, physical and biological integrity of the Nation's water. The two national goals the Act established in 1972 include: (1) Eliminating the discharge of pollutants into navigable waters; and (2) achieving an interim water quality level that would protect fish, shellfish, and wildlife while providing for recreation in and on the water wherever attainable.

Since 1972, section 101(b) of the CWA makes it national policy to recognize and preserve the States' primary responsibility to meet these goals. Over the past 20 years, the Agency has focused on developing standard operating relationships with the States and localities. These relationships generally led to the successful operation of EPA and State Programs on most lands in the United States.

Congress, through amendments to both the CWA in 1987 and the Safe Drinking Water Act (SDWA) in 1986, has authorized EPA to treat Indian Tribes as States under various provisions of these Acts. Amendments to both statutes required the Agency to promulgate regulations that would establish exactly how Tribes would be treated as States.

The February 4, 1987, amendments to the CWA (33 U.S.C. 1251 *et seq.*) added a new section 518 entitled "Indian Tribes." These Amendments authorize EPA to treat Indian Tribes as States for the purposes of certain provisions of the Act, and provide grant and contract assistance (for certain of these programs) to Indian Tribes where appropriate. The Amendments require EPA to promulgate regulations specifying how the Agency will treat an Indian Tribe as a State under the following provisions: Title II (Construction Grants), section 104 (Research, Investigation, and Training), section 106 (Grants for Pollution Control), section 303 (Water Quality Standards and Implementation Plans), section 305 (Water Quality Inventory), section 308 (Inspections, Monitoring, and Entry), section 309 (Federal Enforcement), section 314 (Clean Lakes), section 319 (Nonpoint Source), section 401 (Certification), section 402 (National Pollutant Discharge Elimination System), and section 404 (Dredge and Fill Permit Program). In addition, as will be discussed further below, today's proposal also would address Tribal assumption of CWA section 405 State sludge management programs.

Section 518(e) of the CWA establishes certain criteria an Indian Tribe must meet before treatment as a State is authorized: (1) "The Indian Tribe has a governing body carrying out substantial governmental duties and powers"; (2) "the functions to be exercised by the Indian Tribe pertain to the management and protection of water resources which are held by an Indian Tribe, held by the United States in trust for Indians, held by a member of an Indian Tribe if such property interest is subject to a trust restriction on alienation, or otherwise within the borders of an Indian reservation"; (3) "the Indian Tribe is reasonably expected to be capable, in the Administrator's judgment, of carrying out the functions to be exercised in a manner consistent with the terms and purposes of the Act and of all applicable regulations."

In addition to the eligibility requirements specified in section 518(e), section 518(h)(2) defines Indian Tribes as follows: " 'Indian Tribe' means any Indian Tribe, band, group, or community recognized by the Secretary of the Interior and exercising governmental authority over a Federal Indian reservation." Consequently, existing Federal recognition and governmental authority over reservation lands must also be demonstrated by an Indian Tribe seeking authorization to administer the NPDES or State sludge management programs.

B. Development of This Rule

Based on the statutory amendments to the CWA, there are currently regulations related to five separate CWA programs at different stages of development in the Agency: (1) Construction Grants program, (2) Water Quality Standards program (including the required conflict resolution mechanism), (3) Dredge and Fill Permit program on Federal Indian reservations, (4) National Pollutant Discharge Elimination System permit program and State sludge management program on Federal Indian reservations, and (5) CWA grants programs for Federal Indian reservations. To promote consistency among the various regulations being developed, an intra-Agency oversight committee was established. Efforts are being made by this committee to develop parallel requirements where appropriate in order to reduce the burden on Tribes that choose to apply for any of these programs.

EPA has already issued regulations (1) specifying how Indian Tribes will be treated as States for purposes of the Public Water System and Underground Injection Control (UIC) programs under the SDWA (53 FR 37396, September 26, 1988) (referred to below as the "SDWA Indian Primacy Rule"), and (2) promulgating federal UIC programs on all Indian lands where an applicable program had not been in place (53 FR 43084, October 25, 1988). The SDWA Indian Primacy Rule is being used as a model for developing parallel regulatory approaches in the forthcoming CWA Indian regulations.

The CWA Indian grant regulations have been promulgated in interim final form (54 FR 14354, April 11, 1989; 55 FR 27092, June 29, 1990). The Agency has also published proposed regulations regarding treatment of Indian Tribes as States for purposes of the Dredge and Fill Permit program (section 404 of the CWA) (54 FR 49180, Nov. 29, 1989) as well as proposed and final regulations concerning the Water Quality Standards and Certification programs (sections 303 and 401 of the CWA) (54 FR 39098, September 22, 1989) and (56 FR 64876, December 12, 1991). Today's proposed regulations are very similar to those already proposed and also incorporate, where appropriate, changes in response to comments already received on those proposals.

Section 518(e) of the CWA requires consultation with Indian Tribes during regulation development. The CWA also requires the Administrator to consult affected States sharing common water bodies and provide a mechanism for the resolution of any unreasonable consequences that may arise as a result of differing water quality standards that may be set by States and Tribes located on common bodies of water.

In keeping with this requirement, the Agency decided a multi-faceted consultation approach would be most appropriate. Tribal and State representatives were appointed to serve on various CWA Indian workgroups. In some cases, workgroup meetings have been noticed in the **Federal Register** inviting the public to observe and offer comment. Other efforts to consult with Tribes and States have included national meetings across the country to discuss the regulatory approaches proposed in the various CWA regulations, EPA officials' attendance at both Tribal and interested State meetings to present regulatory approaches being considered, and distribution of the draft proposed language for broad review at an early stage of the regulation development.

On April 12, 1989, a draft of this proposed regulation was circulated for preliminary comment to various persons, including States, Indian Tribes, and EPA personnel. Comments were received from, among others, the Inter Tribal Council of Arizona, Inc., the Seminole Tribe of Florida, the Minnesota Chippewa Tribe, the Tulalip Indian Tribe, the State of Washington Department of Ecology, the Colorado River Board of California, the Colorado River Basin Salinity Control Forum, the State of California Water Resources Control Board, and the New Mexico Health and Environment Department. As appropriate, those comments were incorporated in this text. EPA is also providing a preliminary response below to several of the comments, and will respond to all comments before issuance of the final regulations.

C. EPA Indian Policy

This rule is consistent with Federal Policy statements regarding Indian Tribes. On January 24, 1983, the Federal government established an Indian policy statement providing for treatment of Tribal governments on a government-to-government basis and supporting the principle of self-determination and local decision-making by Indian Tribes. In an Indian policy statement dated June 14, 1991, the President reaffirmed his support for the 1983 statement. EPA subsequently adopted its own Indian policy statement and implementing guidance in November 1984. In February 1990 and July 1991, the Administrator reaffirmed his support for the 1984 statement.

The EPA's policy is "to give special consideration to Tribal interests in making Agency policy, and to insure the close involvement of Tribal Governments in making decisions and managing environmental programs affecting reservation lands." In practice, EPA's policy is to work directly with Tribal governments as independent authorities for reservation affairs, recognizing that they are not political subdivisions of States.

D. Supplemental Statutory Background

In 1972, Congress established the NPDES permit program to regulate the discharge of pollutants into "waters of the United States." The CWA prohibits the discharge of pollutants without an NPDES permit (section 301). Congress gave States the option of assuming NPDES permit program authority, subject to EPA approval (section 401). Currently, a State assuming this responsibility may operate a partial or phased in program in accordance with section 402(n) of the CWA.

The Act prescribes minimum requirements which States must meet before exercising their option to assume the NPDES program, and assigns program approval and oversight responsibility to EPA. EPA regulations applicable to the NPDES program appear at 40 CFR parts 122-125, with the procedures and criteria for State assumption of the NPDES permit program being set forth in part 123. Once a Tribe is determined to be eligible for treatment as a State, the Tribe must meet the requirements for an approvable NPDES program specified in 40 CFR part 123 in order to assume the authority to issue CWA section 402 permits, except in the area of criminal enforcement responsibility, in which case EPA is proposing to establish an alternative procedure which would be available as discussed below.

Section 405 of the CWA addresses requirements regarding the utilization or disposal of sewage sludge, and directs EPA to issue regulations providing guidelines for the disposal and utilization of sewage sludge. The CWA was amended in 1987 to add a new section 405(f) establishing a permitting program to implement sludge management requirements. The Agency has promulgated regulations codified at 40 CFR parts 123 and 501 which address State sludge management programs under CWA section 405 (54 FR 18716, May 2, 1989). Section 405(f)(1) provides for incorporation of sludge use or disposal requirements into either CWA section 402 NPDES permits (or other permits issued under certain other Federal environmental laws) or into State sludge management permits issued under State sludge management programs approved by EPA. The regulations applicable to State sludge management programs (including State sludge management permits) appear at 40 CFR part 501 for non-NPDES programs, and parts 122 and 123 for NPDES programs.

Section 518(e) expressly addresses assumption of section 402 NPDES permitting authority by eligible Indian Tribes, and this basis for sludge permitting is addressed by the changes proposed today with regard to the NPDES program. While section 518(e) of the CWA does not expressly address

Tribal assumption of non-NPDES State sludge management program permits under section 405, the final State sludge management program regulations addressed this issue in the preamble (54 FR 18751), and the definition of "State" set forth at 40 CFR 501.2 recognizes that Indian Tribes may assume such programs if they meet the eligibility requirements of CWA section 518(e). The preamble to the final State sludge management program regulations noted that regulations governing procedures and criteria for Tribal assumption of CWA programs were forthcoming, and today's proposal, in addition to establishing criteria for Tribal assumption of the NPDES program, would establish similar criteria for Tribal assumption of CWA section 405 State sludge management programs.

As the preamble to the final sludge program regulations provided, there are several important reasons why Indian Tribes may apply for assumption of non-NPDES State sludge management programs.

In the 1988 proposal of part 501, EPA proposed treating Indian Tribes as States for purposes of *non*-NPDES section 405(f) sludge management programs even though section 518(e), which addresses the status of Indian Tribes under the CWA, does not specifically list section 405 as a program for which EPA may treat an Indian Tribe as a State. EPA reasoned that omission of section 405 from section 518 was the result of oversight, not of deliberation. EPA advanced two basic reasons in support of this position. First, section 518 authorized treating Indian Tribes as States for purposes of other sludge management activities, e.g., Title II (construction grants) and section 303 (water quality standards and implementation plans). Second, section 518 would clearly allow Indian Tribes to be treated as States for purposes of administering an approved NPDES program (including sludge management) and there is no reason why Indian Tribes should not be similarly treated for purposes of administering a non-NPDES program that regulated the same activities. [54 FR 18781.]

States are also empowered by section 401 of the CWA to certify that federal permits or licenses issued by federal agencies, do not violate, among other things, the State's water quality standards. Under section 518(e) of the CWA, Indian Tribes are eligible for treatment as States for section 401 certification purposes. As noted above, the assumption of 401 certification authority by Indian Tribes as States was addressed in a separate final rulemaking package (56 FR 64876, December 12, 1991) by amendment of 40 CFR part 131, governing water quality standards. 40 CFR 131.4(c) provides that "[w]here EPA determines that a Tribe qualifies for treatment as a State for purposes of water quality standards, the Tribe likewise qualifies for treatment as a State for purposes of certifications conducted under Clean Water Act section 401." 56 FR 64894.

Today's proposed rule also makes a corresponding change to the State certification provisions of Subpart D of 40 CFR Part 124. Part 124 states the procedures for issuing permits for several EPA programs. Subpart D describes various procedures applicable only to the NPDES program and specifically provides for State certification of NPDES permits pursuant to CWA section 401(a)(1). As added by this proposed rule, new § 124.51(c) follows § 131.4(c) in stating that an Indian Tribe qualified for treatment as a State for purposes of the Water Quality Standards Program is likewise qualified for treatment as a State for purposes of State certification of water quality standards pursuant to CWA section 401(a)(1).

Section 518 of the CWA also provides for treatment of Indian Tribes as States for purposes of sections 308 and 309 of the CWA. Under today's proposal, any Tribe which is approved to be treated as a State for purposes of sections 402 and/or 405 of the CWA will automatically be eligible to be treated as a State for purposes of sections 308 and 309. EPA will also make clear in the final rule providing for treatment of Indian Tribes as States for purposes of section 404 of the CWA that any Tribe approved to be treated as a State for purposes of section 404 similarly will automatically be eligible to be treated as a State for purposes of sections 308 and 309. Thus, EPA does not need to and does not plan to issue separate regulations dealing with treatment of a State for sections 308 and 309.

Under the provisions of section 309, EPA may take specified enforcement actions whenever the Administrator finds that a person is in violation of various provisions of the Act (including section 405), of any permit condition or limitation in an NPDES permit implementing various provisions of the CWA, or of specified pretreatment program requirements. Section 309 also establishes penalties for violations of specific provisions of the Act (including section 405), of any permit condition or limitation in an NPDES permit implementing various provisions of the CWA, or of specified pretreatment program requirements. As discussed above, a Tribe treated as a State for purposes of sections 402 and/or 405 would be eligible to apply to administer the NPDES (including the pretreatment and NPDES sludge components) or State sludge management permit programs under 40 CFR Parts 123 or 501. Those State program regulations require States to have specified enforcement powers, including the power to assess stated penalties. See 40 CFR 123.27, 403.10, and 501.17. As with any authorized State, EPA has the authority to enforce any NPDES or State sludge management permit issued by an Indian Tribe treated as a State which had obtained authorization under 40 CFR part 123 or 501.

In addition, any Tribe treated as a State for purposes of the NPDES or State sludge management programs will also automatically be eligible to be treated as a State for purposes of section 308(c) (State inspection authority for point sources) for similar reasons as section 309. Recognition of State inspection authority is part of the NPDES or State sludge management permit program authorization requirements for which a State must apply once it is treated as a State under sections 402 and/or 405. *See* 40 CFR 123.26, 403.10, and 501.16.

Today's proposal is the last that EPA plans to issue implementing section 518 of the CWA. EPA has already issued regulations allowing for treatment of Tribes as States under sections 106, 303, 314, 319, 401 (in part) and Title II, and proposed regulations to treat Tribes as States for purposes of sections 404 and 309 (in part), as indicated above. Today's proposal covers sections 308, 309 (in part), 401 (in part), 402, and 405 (although not explicitly mentioned in section 518).

The only sections of the CWA explicitly identified in section 518 for which EPA has not yet specified treatment as a State procedures are sections 104 and 305. EPA does not believe, however, that additional regulations are necessary. Section 104 authorizes a variety of grants and funding to organizations for research, investigations, training, etc. Tribes currently are eligible under the major funding provisions of section 104 regardless of whether they are treated as States for purposes of the Act. Thus, EPA has determined that specific regulations are not needed to effectuate the purposes of section 518. With respect to section 305, EPA has already waived the requirement to submit a biennial report for Indian Tribes under section 305(b). See 40 CFR 130.4; 54 FR 14354, 14357 (April 11, 1989). Thus, regulations treating Tribes as States for section 305 would be superfluous.

II. Summary and Explanation of Today's Action

Today's proposed rule would implement section 518 of the CWA which authorizes EPA to treat an Indian Tribe as a State for assumption of the NPDES permit program if the Indian Tribe meets the eligibility criteria and would also allow Tribal assumption of CWA section 405 State sludge management programs.

The criteria for treating Indian Tribes as States under the CWA and the SDWA are very similar. The Agency intends to establish the least burdensome process possible for Tribes to demonstrate State eligibility. When most or all regulations under the SDWA and CWA stipulating how Tribes shall be treated as States are final, the Agency will develop procedures to implement a single application procedure for the SDWA and CWA programs for these aspects that are similar under both statutes.

Most qualification criteria are of a general nature and need only be provided when a Tribe first applies for "treatment as a State" under the SDWA or CWA. For example, the "Federal recognition" and "governmental duties and powers" criteria will almost always require the same showing for a Tribe and would ordinarily need to be demonstrated only during the first application a Tribe submitted under either of the Acts.

However, the Agency believes that even with a streamlined application procedure, some qualifications will still need to be demonstrated separately for each program, particularly regarding capability. For example, a Tribe may possess the requisite capability to establish water quality standards but not to assume the NPDES permit program. Yet the Agency does not wish to put Tribes through the burden of filing complete applications for treatment as a State for each separate program. Consequently, the Agency will allow Indian Tribes which have previously been designated as a State under either SDWA or CWA to provide only that information which is unique to the specific additional program(s) (which may include demonstrating adequate regulatory authority to administer the specific program) the Tribe is applying for.

As is the case for States, an Indian Tribe must have its own legal authorities to administer a program under the CWA; EPA cannot delegate its own authority. However, the Agency considered whether the lack of comprehensive criminal enforcement authority would preclude Tribes from applying for the NPDES (section 402) or CWA section 405 State sludge management programs, and the Dredge and Fill Permit program (section 404) that currently require such authority for an approvable State program.

Section 1451 of SDWA specifically states that Indian tribes are not required to exercise criminal enforcement jurisdiction for primary enforcement responsibility. The CWA Amendments, however, do not include similar language indicating whether it would be appropriate to treat a Tribe not having criminal enforcement authority over all individuals on the reservation as a State where such authority is currently required for State program assumption.

The Agency realizes that a comprehensive criminal enforcement requirement could raise substantial impediments to Tribal assumption of those CWA programs that require such authorities of States. Federal law bars Indian Tribes from trying criminally or punishing non-Indians in the absence of a treaty or other agreement to the contrary. *Oliphant* v. *Suquamish Indian Tribe*, 435 U.S. 191 (1978). In addition, the Federal Indian Civil Rights Act prohibits any Indian court or tribunal from imposing any criminal fine greater than $5,000 upon Indians within its jurisdiction (25 U.S.C. 1302(7)).

The Agency believes that even though Congress did not explicitly waive the requirement under CWA, as under SDWA, that Congress nonetheless intended Tribes to be able to obtain primacy without demonstrating comprehensive criminal enforcement authority. If EPA were to infer that Congress, by failing to insert language similar to that contained in section 1451 of SDWA, intended not to waive the criminal enforcement requirement, EPA's reading would make part of section 518 of CWA a nullity, since absent further legislative action, no Tribe would be able to assume a program under 402 or 404 of CWA. This reading would contradict the clear intent of section 518 to allow Tribes to assume all specified CWA programs where they meet the 518(e) criteria and further would violate two traditional rules of statutory construction: (1) Legislation should not be interpreted as being meaningless, if at all possible; and (2) ambiguous Federal statutes addressing Indian affairs should be interpreted to the benefit of the Tribes.

Sections 123.27 of the NPDES regulations and 501.17 of the State sludge management program regulations require that a State have criminal enforcement authority to be approved. This notice proposes to amend those existing regulations and add new proposed §§ 123.34 and 501.25 so that Tribes will not be required to exercise comprehensive criminal enforcement jurisdiction as a condition to assuming the 402 or State sludge management programs. Under the proposal, Tribes would, instead, be required to provide for the timely and appropriate referral of criminal enforcement matters to the Regional Administrator when tribal enforcement authority does not exist (i.e., for non-Indians or fines over $5,000). Such procedures must be established in a formal Memorandum of Agreement with the Regional Administrator. Related changes to cross-reference to the enforcement authority provisions of §§ 123.34 and 501.25 would also be made in proposed §§ 123.25, 501.1(c)(5), and 501.15(b). The Tribe would, of course, still be required to carry out its monitoring and compliance responsibilities and assist in the identification of potential criminal violators. Thus, the lack of comprehensive Tribal criminal enforcement authority should not prevent a Tribe from having an approvable 402 or 405 State program.

Because CWA program funds are limited, many Indian Tribes may decide it is not cost-effective or otherwise beneficial to apply for various CWA program authorities. The Agency encourages Tribes to carefully consider which of the available programs would be beneficial to assume and to target the Tribal efforts and resources towards those specific programs. The Agency notes that Tribal assumption of the CWA programs discussed in today's rule is voluntary on the part of the Tribes.

In order to facilitate consistent implementation of the requirements of the CWA, an Indian Tribe and the State or States adjacent to the lands where such Tribe is located may enter into a cooperative agreement, subject to the review and approval of the Administrator or his delegatee, to jointly plan and administer the requirements of this Act (see section 518(d) of the CWA).

The Agency strongly encourages such cooperative agreements, because of the relative benefits such as information and resource sharing. The Agency does not have any specific criteria that a cooperative agreement must meet, so long as all parties involved approve it and it complies with the intent and administrative requirements of the CWA. In situations where EPA is a signatory to a cooperative agreement, all Federal requirements that govern such agreements must also be met.

Draft cooperative agreements should be submitted to the Regional

Administrator for review and approval. If necessary, the Agency will develop guidance to assist the Tribes and States in developing cooperative agreements.

A. Treatment of Indian Tribes as States

With the exception of criminal enforcement requirements, eligible Tribes seeking approval of the NPDES or State sludge management programs will be required to comply with all existing requirements for those programs. For the NPDES program (including NPDES sludge management programs), these requirements are contained in the regulations at part 123; for the CWA section 405 State sludge management program, the applicable requirements are found at part 501. Those Parts set out specific requirements for State program submissions, approval procedures, and programmatic and enforcement authorities. Today's proposal makes several revisions to parts 122–124 and part 501 in order to set out and clarify NPDES and State sludge management program requirements for Indian Tribes.

No amendments are proposed to 40 CFR part 403 governing the pretreatment program because no changes to part 403 are necessary to allow a Tribe to apply for pretreatment authority, once changes are made to parts 122 and 123. See 40 CFR 403.1(b)(3) and 403.10. Part 403 incorporates the definition of "State" in 40 CFR 122.2 (which is proposed to be revised by this rule) in its definitional section. See 40 CFR 403.3(m).

This proposed rule would amend 40 CFR parts 122–124 and part 501 to implement CWA section 518 and create procedures for Indian Tribes to apply to EPA for treatment as a State in order to be eligible to apply concurrently or sequentially for assumption of the NPDES and State sludge management programs. As will be discussed further below, the proposal would add new §§ 123.31–123.34 and 501.22–501.25 to the regulations to establish criteria Indian Tribes must meet for treatment as a State, list the information the Tribe must provide in its application to EPA, and provide a procedure for EPA to formally review applications for "treatment as a State." The Administrator has delegated his authority to determine the treatment of Tribes as States to the Regional Administrators. The requirements a Tribe must meet under all the CWA Indian regulations are as identical as possible leaving room for program specific requirements which are explained further in the capability requirements section of this notice.

As mentioned previously, section 518 of the CWA stipulates that a Tribe is eligible for treatment as a State if it meets the following criteria:

(1) Is Federally recognized;

(2) Carries out substantial governmental duties and powers over a Federal Indian reservation;

(3) Has appropriate regulatory authority over surface waters of the reservation; and

(4) Is reasonably expected to be capable of administering the relevant CWA program.

The Agency believes the language in section 518 requires that each of these eligibility criteria be satisfied through a separate demonstration by a Tribe following the procedures these proposed regulations set forth in §§ 123.31–123.33 for the NPDES program and 501.22–501.24 for the State sludge management program. These procedures are intended to ensure Tribes who are treated as States meet the requirements in the CWA, not to act as a barrier to program assumption. The Agency hopes that as many Tribes as possible will assume responsibility for the CWA programs where the Tribe and the Agency deem it appropriate.

1. Federal Recognition

With respect to Federal recognition as an Indian Tribe, the Secretary of the Interior periodically publishes a list of Federally recognized Tribes. If the applicant appears on this list it need only state that this is so. If the Tribal name does not appear on this list because the list has not been updated, the Tribe can still provide appropriate documentation to EPA verifying that it is Federally recognized by the Secretary of Interior. The proposed regulations applicable to this issue appear in §§ 123.31(a)(1), 123.32(a), 501.22(a)(1), and 501.23(a).

2. "Substantial Governmental Duties and Powers"

In addition, a Tribe must satisfy the second criterion that the Tribe is "carrying out substantial governmental duties and powers." The Agency defines "substantial governmental duties and powers" to mean that the Tribe is currently performing governmental functions to promote the public health, safety, and welfare [of the affected population] within a defined geographical area. The proposed regulations applicable to this issue appear in §§ 123.31(a)(2), 123.32(b), 501.22(a)(2), and 501.23(b). Many Indian Tribal governments perform functions traditionally performed by sovereign governments. Examples of such functions include, but are not limited to, levying tax, acquiring land by exercising the power of eminent domain, and police power (i.e., providing for the public health, safety, and general welfare of the affected population). Based on comments on the SDWA Indian Primary Rule, the Agency believes that most Tribes will be able to meet these criteria without much difficulty. (See 53 FR 37399.)

The Agency intends to minimize the burdens to a Tribe to demonstrate that it is carrying out substantial governmental duties and powers. The Agency proposed to require a narrative statement: (1) Describing the form of Tribal government; (2) describing the types of essential governmental functions currently performed such as those listed above; and (3) identifying the legal authorities for performing these functions (e.g., Tribal constitutions, codes, etc.).

The Agency merely intends the functions listed above (e.g., police powers affecting the health, safety and welfare, taxation, and power of eminent domain) as examples. It is not necessary that an applicant be currently performing each such function to qualify for treatment as a State. The Agency intends only to require sufficient documentation to determine whether a Tribe satisfies the statutory requirement of "carrying out substantial governmental duties and powers."

3. Jurisdiction

The third requirement a Tribe must meet for treatment as a State is that "the functions to be exercised by the Tribe must pertain to the management and protection of water resources which are held by an Indian Tribe, held by the United States in trust for Indians, held by a member of an Indian Tribe if such property interest is subject to a trust restriction on alienation, or otherwise within the boundaries of a reservation. . . ." The proposed regulations applicable to this requirement appear in §§ 123.31(a)(3), 123.32(c), 501.22(a)(3), and 501.23(c).

This provision contains different language than that of section 1451(b)(1)(A) of the SDWA, which states: "the functions to be exercised by the Indian Tribe are within the area of the Tribal Government's jurisdiction." Whereas CWA section 518 language suggests that Tribes may only regulate those water resources which are within the borders of a Federal Indian reservation, the parallel SDWA provision makes no such explicit limitation. As a result of this different statutory definition, Tribes are not precluded from applying for treatment as a State under the SDWA for any lands over which the Tribe believes it has regulatory authority. (See 53 FR 37400.)

The CWA establishes a somewhat narrower part of Indian country for which EPA will recognize Tribal authority by restricting Tribal eligibility for treatment as a State to lands "otherwise within the borders of an Indian reservation. . . ." The Agency anticipates that this language may reduce the potential for disputes since Tribal authority to regulate within the reservation's borders may be more readily determined.

Several comments were received in response to EPA's proposed regulation for treatment of Indian Tribes as States for purposes of the Water Quality Standards and Certification programs (54 FR 39098, September 22, 1989) which discussed the geographic scope of programs authorized under section 518(e)(2). (Copies of all pertinent public comments upon the proposed Standards rule are included in the docket to today's rule.) EPA has consistently read the phrase "or otherwise within the borders of an Indian reservation . . ." as a separate category of water resources and also as a modifier of the preceding three categories of water resources, thus limiting the Tribe to acquiring treatment as a State status for the four specified categories of water resources within the borders of the reservation.

Comments received suggested that EPA should alter its reading of this provision to allow Tribes to qualify for treatment as a State over all water resources within their jurisdiction. These comments asserted that limiting Tribes to water resources within the reservation would prevent a Tribe from obtaining treatment as a State status over water resources outside the reservation to which it has legitimate jurisdictional claim. Examples cited included traditional resource areas (known as "usual and accustomed" areas) outside reservation borders, all lands held in trust for Tribes by the U.S. Government or held by individual Indians that lie outside reservation borders, lands in "Indian Country" (as defined in 18 U.S.C. 1151) that lie outside reservation borders and, in general, all water resources within the territorial jurisdiction of the Tribe that lie outside reservation borders.

One commenter pointed out that often such lands are subject to Tribal or Federal jurisdiction and are thus beyond the police power and regulatory authority of the State in which they are located. This comment concluded that failure to provide Tribes with an opportunity to obtain treatment as a State status over such lands would create "regulatory voids" in which neither States nor Tribes have clear authority. Several comments suggested that resolving this issue could be accomplished simply by revising the definition of "Federal Indian reservation."

In contrast, other commenters asserted that EPA is correct in reading the phrase "or otherwise within the borders . . ." as a modifier of the preceding three categories of water resources. These commenters pointed out that failure to do so would render the statute nonsensical and contradict Congressional intent. However, these commenters also asserted that EPA is *not* correct in reading the phrase "or otherwise within the borders . . ." as a fourth category of water resources because to do so would render the three previous clauses superfluous. These commenters therefore conclude that section 518(e)(2) should not be read as authorizing Tribes to regulate non-Indian owned lands within the boundaries of the reservation.

Under today's proposed rule, Tribes are limited to obtaining treatment as a State status for only water resources within the borders of the reservation over which they possess authority to issue NPDES or sludge permits. The meaning of the term "reservation" must, of course, be determined in light of statutory law and with reference to relevant case law. EPA considers trust lands formally set apart for the use of Indians to be "within a reservation" for purposes of section 518(e)(2), even if they have not been formally designated as "reservations." *Oklahoma Tax Comm'n* v. *Citizen Band Potawatomi Indian Tribe of Oklahoma*, 111 S.Ct. 905, 910 (1991). This means it is the status and use of the land that determines if it is to be considered "within a reservation" rather than the label attached to it. EPA believes that it was the intent of Congress to limit Tribes to obtaining treatment as a State status to lands within the reservation. EPA bases this conclusion, in part, on the definition of "Indian Tribe" found in CWA section 518(h)(2). As discussed below, EPA also does not believe that section 518(e)(2) prevents EPA from recognizing Tribal authority over non-Indian water resources located within the reservation if the Tribe can demonstrate the requisite authority over such water resources.

The issue of whether and how EPA should require Tribes to demonstrate that they meet the requirements of section 518(e)(2) of the CWA, i.e., that they can demonstrate authority to regulate water quality within the boundaries of their reservations, also attracted significant public comment upon the proposed regulations for treatment of Indian Tribes as States for purposes of the Water Quality Standards and Certification programs. Numerous commenters remarked on the significance of the Supreme Court's decision in *Brendale* v. *Confederated Tribes and Bands of the Yakima Nation*, 492 U.S. 408 (1989) for EPA's programs and today's regulations, although there were widely differing views of how to read the decision. Several commenters asserted that *Brendale* clearly indicates that an Indian Tribe may not enforce its water quality standards against nonmembers of the Tribe on non-Indian owned fee lands within the boundaries of the reservation or that, at the very least, the Tribe must include detailed factual information that describes the non-Indian lands the Tribe proposes to regulate and the reasons supporting its jurisdictional assertions.

By contrast, other commenters asserted that Tribes invariably possess inherent authority to regulate all reservation waters, and that EPA should presume the existence of such authority and not require Tribes to make any specific factual showing. These commenters asserted that such authority over environmental matters was recognized in *Montana* v. *United States*, 450 U.S. 544 (1981), and not diminished by *Brendale*.

EPA does not read the holding in *Brendale* as preventing EPA from recognizing Tribes as States for purposes of administering the NPDES and/or State sludge management programs on fee lands within the reservation, even if section 518 is not an express delegation of authority (an issue discussed in detail below). In *Brendale*, both the State of Washington and the Yakima Nation asserted authority to zone non-Indian real estate developments on two parcels within the Yakima reservation, one in an area that was primarily Tribal, the other in an area where much of the land was owned in fee by nonmembers. Although the Court analyzed the issues and the appropriate interpretation of *Montana* at considerable length, the nine members split 4:2:3 in reaching the decision that the Tribe should have exclusive zoning authority over property in the Tribal area and the State should have exclusive zoning authority over non-Indian owned property in the fee area. The decision reflects some difficult issues in this area of the law and, as the comments indicated, has generated considerable controversy over the extent of Tribal authority.

Given the lack of a majority rationale, the primary significance of *Brendale* is

in its result, which was fully consistent with *Montany* v. *United States*, which previously had held that:

> To be sure, Indian tribes retain inherent sovereign power to exercise some forms of civil jurisdiction over non-Indians on their reservations, even on non-Indian fee lands. A tribe may regulate . . . the activities of nonmembers who enter consensual relationships with the tribe or its members, through commercial dealing, contracts, leases, or other arrangements. . . . A tribe may also retain inherent power to exercise civil authority over the conduct of non-Indians on fee lands within its reservation when that conduct threatens or has some direct effect on the political integrity, the economic security, or the health or welfare of the tribe.

Montana, 450 U.S. at 565–66 (citations omitted).

In *Brendale*, the Court applied this test, finding Tribal authority over activities that would threaten the health and welfare of the Tribe. 492 U.S. at 443–444 (Stevens, J., writing for the Court); *id.* at 449–450 (Blackmun, J. concurring). Conversely, the Court found no Tribal jurisdiction where the proposed activities "would not threaten the Tribe's . . . health and welfare." *Id.* at 432 (White, J., writing for the Court). The Agency therefore disagrees with commenters who argue that *Brendale* somehow overrules *Montana*.

As further discussed below, EPA agrees with certain commenters that pending further judicial or Congressional guidance on the extent to which section 518 delegates additional authority to Tribes, the ultimate decision regarding Tribal authority must be made on a Tribe-by-Tribe basis and has finalized the proposed process for making those determinations. Thus, EPA rejects the suggestion of other commenters that EPA make a conclusive statement regarding the extent of Tribal jurisdiction over fee lands for all Tribes and all waters or even a statement regarding any particular reservation, except in the context of an actual treatment as a State application. This is consistent with the approach the Agency adopted under the SDWA, when it determined that it would not "automatically assume," or adopt, in the first instance, a rebuttable presumption of Tribal authority over all water within a reservation that would operate even in the absence of any factual evidence. See 53 FR 37398, 37399 (September 26, 1988). Nonetheless, EPA sees no reason in light of *Brendale* to assume that Tribes would be *per se* unable to demonstrate authority over water resource management on fee lands within reservation borders for purposes of administering the NPDES and/or State sludge management programs. Rather, as discussed below, EPA believes that as a general matter there are substantial legal and factual reasons to assume that Tribes ordinarily have the legal authority to regulate water resources within a reservation for purposes of administering the NPDES and/or State sludge management program.

In evaluating whether a Tribe has authority to regulate a particular activity on land owned in fee by nonmembers but located within a reservation, EPA will examine the Tribe's authority in light of the evolving case law as reflected in *Montana* and *Brendale*. The extent of such Tribal authority depends on the effect of that activity on the Tribe. As discussed above, in the absence of a contrary statutory policy, a Tribe may regulate the activities of non-Indians on fee lands within its reservation when those activities threaten or have a direct effect on the political integrity, the economic security, or the health or welfare of the Tribe. *Montana*, 450 U.S. at 565–66. However, in *Brendale* several justices argued that for a Tribe to have "a protectable interest" in an activity, the activity's effect should be "demonstrably serious . . ." *Brendale*, 492 U.S. at 431 (White, J.). In addition, in a more recent case involving Tribal criminal jurisdiction, a majority of the Court indicated in *dicta* that a Tribe may exercise civil authority "where the exercise of tribal authority is vital to the maintenance of tribal integrity and self-determination." *Duro* v. *Reina*, 110 S.Ct. 2053, 2061 (1990). *See also Brendale*, 492 U.S. at 450 (Blackmun, J.) (test for inherent Tribal authority whether activities "implicate a significant tribal interest"); *id.* at 462 (Blackmun, J.) (test for inherent Tribal authority whether exercise of authority "fundamental to the political and economic security of the tribe . . .").

As discussed above, the Supreme Court, in recent cases, has explored several options to assure that the impacts upon Tribes of the activities of non-Indians on fee land, under the *Montana* test, are more than *de minimis*, although to date the Court has not agreed, in a case on point, on any one reformulation of the test. In response to this uncertainty, the Agency will apply, as an interim operating rule, a formulation of the standard that will require a showing that the potential impacts of regulated activities on the Tribe are serious and substantial.

The choice of an Agency operating rule containing this standard is taken solely as a matter of prudence in light of judicial uncertainty and does not reflect an Agency endorsement of this standard *per se*. Moreover, as discussed below, the Agency believes that the activities regulated under the various environmental statutes generally have serious and substantial impacts on human health and welfare. As a result, the Agency believes that Tribes will usually be able to meet the Agency's operating rule, and that use of such a rule by the Agency should not create an improper burden of proof on Tribes or create the administratively undesirable result of checkerboarding reservations.

Whether a Tribe has jurisdiction over activities by nonmembers will be determined case-by-case, based on factual findings. The determination as to whether the required effect is present in a particular case depends on the circumstances.

Nonetheless, the Agency may also take into account the provisions of environmental statutes and any legislative findings that the effects of the activity are serious in making a generalized finding that Tribes are likely to possess sufficient inherent authority to control reservation environmental quality. See *e.g.*, *Keystone Bituminous Coal Ass'n* v. *DeBenedictis*, 480 U.S. 470, 476–77 and nn. 6, 7 (1987). As a result, in making the required factual findings as to the impact of a water-related activity on a particular Tribe, it may not be necessary to develop an extensive and detailed record in each case. The Agency may also rely on its special expertise and practical experience regarding the importance of water management, recognizing that clean water, including important habitants (i.e., wetlands, bottom sediments, spawning beds, etc.), is absolutely crucial to the survival of many Indian reservations.

The Agency believes that Congressional enactment of the CWA establishes a strong Federal interest in effective management of water quality. Indeed, the primary objective of the CWA "is to restore and maintain the chemical, physical, and biological integrity of the Nation's waters" (section 101(a)) and, to achieve that objective, the Act establishes the goal of eliminating all discharges of pollutants into the navigable waters of the United States and attaining a level of water quality which is fishable and swimmable (section 101(a)(1)-(2)). The Act also specifically prohibits the discharge of pollutants to the navigable waters of the United States except in accordance with an NPDES permit assuring compliance with a host of CWA provisions for achievement of various treatment and water quality requirements (sections 301, 402, and 405(a)). Similarly, the Act requires POTWs and other treatment works treating domestic sewage to obtain permits implementing standards governing the use and disposal of sewage sludge (section 405). Standards for the use and disposal of sewage sludge also are directly enforceable against any user or disposer of sewage sludge. Thus, the statute itself constitutes, in effect, a legislative determination that activities which affect surface water and critical habitat quality may have serious and substantial impacts.

EPA also notes that, because of the mobile nature of pollutants in surface waters and the relatively small length/size of stream segments or other water bodies on many reservations, it would be practically very difficult to separate out the effects of water quality impairment on non-Indian fee land within a reservation with those on Tribal portions. In other words, any impairment that occurs on, or as a result of, activities on non-Indian fee lands are very likely to impair the water and important habitat quality of the Tribal lands. This also suggests that the serious and substantial effects of water quality impairment within the non-Indian portions of a reservation are very likely to affect the Tribal interest in water quality. EPA believes that a "checkerboard" system of regulation, whereby the Tribe and State split up regulation of surface water on the reservation, would ignore the difficulties of assuring compliance with CWA requirements (including the requirements to meet the provisions of NPDES and/or State sludge management permits) when two different sovereign entities regulate the same small stream segments.

EPA also believes that Congress has expressed an intention to eliminate barriers to Tribal regulation of surface water resources (here by administration of the NPDES and/or State sludge management programs) to assure compliance with the goals of the CWA. This is confirmed by the text and legislative history of section 518 itself. The CWA establishes a policy of "recogniz[ing], preserv[ing], and protect[ing] the primary responsibilities and rights of States [including Tribes] to prevent, reduce, and eliminate pollution, [and] to plan the development and use (including restoration, preservation, and enhancement) of land and water resources . . ." (section 101(b)). By extension the treatment of Indian Tribes as States means that Tribes are to be primarily responsible for the protection of reservation water resources. As Senator Burdick, floor manager of the 1987 CWA Amendments, explained, the purpose of section 518 was to "provide clean water for the people of this Nation . . . ." 133 Cong. Rec. S753 (daily ed. Jan. 14, 1987). This goal was to be accomplished, he asserted, by giving "tribes . . . the primary authority to set water quality standards to assure fishable and swimmable water and to satisfy all beneficial uses." 133 Cong. Rec. S1018 (daily ed. Jan. 21, 1987). Water quality standards established by the Tribes are implemented through the issuance of NPDES permits.

In light of the Agency's statutory responsibility for implementing the environmental statutes, its interpretations of the intent of Congress in allowing for Tribal management of water quality within the reservation are entitled to substantial deference. *Washington Dep't of Ecology* v. *EPA*, 752 F.2d 1465, 1469 (9th Cir. 1985); *see generally Chevron, USA, Inc.* v. *NRDS*, 467 U.S. 837, 843–45 (1984).

The Agency also believes that the effects on Tribal health and welfare necessary to support Tribal regulation of non-Indian activities on the reservation may be easier to establish in the context of environmental regulation than with regard to zoning, which was at issue in *Brendale*. There is a significant distinction between land use planning and water resources management for purposes of administering the NPDES and/or State sludge management programs. The Supreme Court has explicitly recognized such a distinction: "Land use planning in essence chooses particular uses for the land; environmental regulation . . . does not mandate particular uses of the land but requires only that, however the land is used, damage to the environment is kept within prescribed limits." *California Coastal Comm'n* v. *Granite Rock Co.*, 480 U.S. 572, 587 (1987). The Court has relied on this distinction to support a finding that States retain authority to carry out environmental regulation even in cases where their ability to carry out general land use regulation is preempted by federal law. *Id.* at 587–89.

Further, management of water resources through the issuance of NPDES and/or State sludge management permits serves the purpose of protecting public health and safety, which is a core governmental function, whose exercise is critical to self-government. The special status of governmental actions to protect public health and safety is well established.[1]

By contrast, the power to zone can be exercised to achieve purposes which have little or no direct nexus to public health and safety. *See, e.g., Brendale*, 492 U.S. at 420 n.5 (White, J.) (listing broad range of consequences of state zoning decision). Moreover, water pollution is by nature highly mobile, freely migrating from one local jurisdiction to another, sometimes over large distances. By contrast, zoning regulates the uses of particular properties with impacts that are much more likely to be contained within the given local jurisdiction.

Operationally, EPA's generalized findings regarding the relationship of water resource management (here for purposes of administering the NPDES and/or State sludge management programs) to Tribal health and welfare will affect the legal analysis of a Tribal submission by, in effect, supplementing the factual showing a Tribe makes in applying for treatment as a State. Thus, a Tribal submission meeting the requirements of §§ 123.32 and 501.23 of this regulation will need to make a relatively simple showing of facts that there are waters within the reservation used by the Tribe or Tribal members, (and thus that the Tribe or Tribal members could be subject to exposure to pollutants present in, or introduced into, those waters) and that the waters and important habitats are subject to protection under the CWA. The Tribe must also explicitly assert that impairment of such waters by the activities of non-Indians, would have a serious and substantial effect on the health and welfare of the Tribe. Once the Tribe meets this initial burden, EPA will, in light of the facts presented by the Tribe and the generalized statutory and factual findings regarding the importance of reservation water quality discussed above, presume that there has been an adequate showing of Tribal jurisdiction on fee lands, unless an appropriate governmental entity (e.g., an adjacent Tribe or State) demonstrates a lack of jurisdiction on the part of the Tribe.

The Agency recognizes that jurisdictional disputes between Tribes and States can be complex and difficult and that it will, in some circumstances, be forced to address such disputes. However, EPA's ultimate responsibility is protection of the environment. In view of the mobility of environmental problems, and the interdependence of various jurisdictions, it is imperative that all affected sovereigns work cooperatively for environmental protection, rather than engage in confrontations over jurisdiction.

[1] This special status has been reaffirmed by all nine justices in the context of Fifth Amendment takings law. *See Keystone Bituminous Coal Ass'n* v. *DeBenedictis*, 480 U.S. 470, 491 n. 20 (1987); *id.* at 512 (Rehnquist, C.J., dissenting).

EPA has received letters from three members of Congress, Senator Simpson, Senator Baucus, and Representative Morrison, regarding the impact of *Brendale* on EPA's Indian policy and the development of "treatment as a State" regulations for EPA water programs in light of the legislative history of section 518. All three commenters asserted that Congress did not intend to expand the scope of Tribal authority over non-Indians on the reservation by the passage of section 518.

Rep. Morrison asserted that he inserted into the Congressional Record a memorandum written by staff on the House Committee on Interior and Insular Affairs regarding section 518 (also inserted into the Congressional Record by Senator Adams at 133 Cong. Rec. S753–54 (daily ed. Jan. 14, 1987)) solely to demonstrate that section 518 was not intended to expand Tribal water quantity rights. 133 Cong. Rec. H184–85 (daily ed. Jan. 8, 1987). Rep. Morrison disavowed other statements from that memorandum which might support the proposition that Congress intended to authorize Tribal jurisdiction over nonmembers on reservations. ("Indian tribes have the right to regulate lands and other natural resources within the reservation, *including non-Indian owned fee lands or resources.*" *Id.* (emphasis added)). Rep. Morrison stated his belief that Congress did not, by the passage of section 518, expand the scope of Tribal authority over non-Indians. In light of this legislative history, Rep. Morrison asserted that, consistent with *Brendale*, EPA should not allow Tribal regulation of nonmembers on so-called "open" reservations.

Senators Baucus and Simpson also recommended that EPA consider the legislative history of section 518(e) and the *Brendale* decision and determine not to allow Tribal regulation of nonmembers on the reservation.

Finally, all three of these Congressional commenters asserted that the legislative history of section 518 clearly shows that it was not intended to affect rights to water quantity under State law. The concerns raised by these Members of Congress echo other comments received on the proposed regulation for treatment of Indian Tribes as States for purposes of the Water Quality Standards and Certification programs. Several commenters asserted that section 518(e)(2) should not be read as an express grant of Congressional authority to Indian Tribes to regulate such fee lands, despite indications in *Brendale* to the contrary.

By contrast, Senators McCain, Burdick, and Inouye, expressed a view that section 518(e) delegates Tribes authority to regulate all waters within reservation boundaries including those on non-Indian fee lands. Some commenters cited *Brendale* for this proposition. The argument of these commenters is based upon the opinion of Justice White in *Brendale*. Justice White indicates that certain statutes may delegate Federal authority to Tribes, thereby providing a basis for authority over all lands within a reservation. As Justice White explained, on the record in *Brendale* there could be

> No contention . . . that Congress has expressly delegated to the Yakima Nation the power to zone fee lands of nonmembers of the Tribe. *Compare 18 U.S.C. 1151, 1161 (1982 ed., and Supp. V); 33 U.S.C. 1377(e) and (h)(1) (1982 ed., Supp. V)* [i.e., sections 518(e) and 518(h)(1) of the CWA].

492 U.S. at 428 (emphasis added). This language clearly categorizes the two cited statutory schemes as express delegations of Federal authority. Thus, Justice White, *inter alia*, cites the CWA as an example of an explicit delegation of authority over non-Indian activities to Indian Tribes.

EPA has fully considered the Congressional comments and their interpretation of the legislative history of section 518. EPA must, of course, consider contemporaneous legislative history as it is written, and has been cautioned not to rely on subsequent statements by Members of Congress. *Hazardous Waste Treatment Council* v. *EPA*, 886 F.2d 355 (D.C. Cir. 1989), *cert. denied*, 111 S.Ct. 139 (1990).

EPA differs with the Congressional commenters to the extent that they suggest the legislative history of section 518 is clear and expresses an intent to limit the scope of Tribal authority. EPA notes that other legislative history might be interpreted as evincing Congressional intent to confer expanded Tribal authority over non-Indians within the reservation.

In particular, the following colloquy between Senators Inouye and Burdick on this issue is very relevant:

> *Mr. Inouye*: . . . I am concerned about section 518(e)(2). As I read that provision, it enables qualified Indian tribes to exercise the same water quality regulatory jurisdiction *with respect to water that traverses, borders, or is otherwise located within their reservations* [paraphrasing section 518(h)(1) and 10 U.S.C. 1151(a)] that States have for regulation of water outside Indian reservations. Is my understanding of section 518(e) correct?
>
> *Mr. Burdick*: Yes. The intent of the conferees was to assure that Indian tribes would be able to exercise the same regulatory jurisdiction over water quality matters *with regard to waters within Indian jurisdiction* that States have been exercising over their water.

133 Cong. Rec. S1018 (daily ed. Jan. 21, 1987) (emphasis added). Senator Inouye's statement could arguably support a reading that Congress intended to recognize Tribal authority over all waters within the reservation, including those managed by non-Indians. Mr. Burdick, a member of the Conference Committee and Chairman of the Senate Environment and Public Works Committee, agrees with Senator Inouye's statement.

However, in EPA's view this colloquy is ambiguous and inconclusive. Senator Burdick, in responding to Senator Inouye, agrees that under section 518 Tribes may regulate waters only if they are already "within Indian jurisdiction." However, Senator Burdick was only recognizing the status quo, i.e., whatever is within Indian jurisdiction may be regulated via section 518. Senator Burdick's statement does not clearly show that he—or the Congress as a whole—intended to legislate that all waters within the reservation are in fact "within Indian jurisdiction." Thus, the colloquy is circular: Indians have jurisdiction if, but only if, they have jurisdiction from some source other than section 518. It does not clearly indicate whether Congress intended to expand what lies "within Indian jurisdiction."

Further, if this colloquy were to be construed as supporting an expansion of Tribal authority, it would arguably conflict with a statement Senator Burdick had made earlier in response to an inquiry from Senator Baucus. In that discussion, Senator Burdick reiterated that section 518 was not intended to affect existing water quantity rights; and added that "*[p]rivate lands* and water rights owners within boundaries of Indian reservations are not to be *additionally* affected by this act." 133 Cong. Rec. S753 (daily ed. Jan. 14, 1987) (emphasis added). This could suggest that the Act was not intended to alter the status quo regarding regulatory authority over fee lands.

The legislative history in the House is also unclear as to whether Congress intended to expand Tribal power over non-Indians. The statement in the House staff memorandum cited above supports a view that under current case law Tribes already possess regulatory authority over non-Indians within reservation boundaries; thus it would be unnecessary to delegate such authority to Tribes. Insertion of this memorandum into the Congressional Record could suggest that the House agreed with that view; however, this aspect of the memorandum was never the subject of House discussions, which focused almost exclusively on issues relating to water rights.

EPA believes that if Congress had intended to make a change as important as an expansion of Indian authority to regulate nonmembers, it probably would have done so through statutory language and discussed the change in the Committee reports. Given that the legislative history ultimately is ambiguous and inconclusive, EPA believes that it should not find that the statute expands or limits the scope of Tribal authority beyond that inherent in the Tribe absent an express indication of Congressional intent to do so. See *Montana*, 450 U.S. at 564. Therefore, EPA has decided that it will, as discussed above, continue to recognize inherent Tribal civil regulatory authority to the full extent permitted under Federal Indian law, in light of *Montana*, *Brendale*, and other applicable case law.

EPA believes that Congress only manifested an explicit intent to authorize EPA to treat Indian Tribes as States over any activities within the scope of Tribal authority in light of the relevant principles of Federal Indian law. EPA believes that this approach will best effectuate the overall purposes of the statute.

EPA agrees with those commenters who stated that Justice White's opinion in *Brendale* can be read to suggest a contrary conclusion, and to indicate that at least four justices of the Supreme Court would apparently interpret section 518(e) as expressly delegating to Tribes the authority to regulate water quality on reservations, including those affected by activities on non-Indian fee lands. Nonetheless, EPA recognizes that Justice White's opinion was not a majority opinion of the Court and was not necessary to the decision even of the plurality that joined it, since the issue was not before the Court in *Brendale*.

Nor is there any discussion in the opinion about the somewhat confusing legislative history of section 518. The passing reference in that opinion does not finally resolve the question of whether section 518(e) is a delegation of authority, and, as discussed above, EPA does not believe that it can make an absolute determination that Congress in fact expressed a clear intent on the issue.

EPA agrees with the Congressional commenters that section 518 does not affect existing water quantity rights. This has been the Agency's consistent position, based on the language of sections 101(g) and 518(a).

The process the Agency proposes to establish for Tribes to demonstrate their authority includes the submission of a statement signed by the Tribal Attorney General or an equivalent official explaining the legal basis for the Tribe's regulatory authority to administer the desired program(s). The statement is similar to the statement currently required of States applying for 402 permit or State sludge management program assumption (40 CFR 123.23; 501.13). The Attorney General's statement will supplement the other documentation mentioned in §§ 123.32 and 501.23 of this proposed rule (e.g., a map, copies of tribal codes and ordinances, etc.). The Attorney General's statement with the supporting documentation will assist EPA in verifying that the Tribe has the necessary authority to administer the appropriate CWA program.

Numerous comments submitted concerning the proposed regulation for treatment of Indian Tribes as States for purposes of the Water Quality Standards and Certification programs indicated that requiring Tribes to submit a copy of all documents which support the Tribe's assertion of authority is unnecessary, inappropriate, and flows from a misunderstanding of Indian law. These commenters argued that Tribes have inherent authority unless Congress rescinds that authority. In addition, these commenters stated, since section 518 specifically authorizes Tribal authority, no such demonstration and supporting documentation is needed.

As discussed in detail above, the Agency presumes that, in general, Tribes are likely to possess the authority to regulate activities affecting water resources on the reservation for purposes of administering the NPDES and/or State sludge management programs. The Agency does not believe, however, that it would be appropriate to recognize Tribal authority and approve treatment as a State requests in the absence of verifying documentation. Just as when EPA considers a State application to assume the NPDES or State sludge management program, EPA must not authorize program responsibility to a Tribe unless the Tribe can adequately show it possesses the requisite authority. The Agency recognizes that there may be some disputes regarding the extent of Tribal authority to administer CWA programs and therefore believes it necessary to require documentation to demonstrate adequate authority by Tribes applying for CWA programs. The request that a given Tribe establish its authority to administer CWA programs is not meant to be a barrier or a deterrent to that Tribe's attainment of these programs. Rather the intent of these requirements is to raise at an early date the presence or absence of a key element to effective administration of CWA programs.

In addition, in light of the legislative history of section 518 as discussed above, the question of whether section 518(e) is an explicit delegation of authority over non-Indians is not resolved. Therefore, EPA does not believe it is currently appropriate to eliminate the requirement that Tribes make an affirmative demonstration of their regulatory authority. EPA will authorize Tribes to exercise responsibility for the NPDES and/or State sludge management programs once the Tribe shows that, in light of the factual circumstances and the generalized findings EPA has made regarding reservation water resource, it possesses the requisite authority.

EPA would advise Tribes, in their Attorney-General Statements, to outline all bases for concluding that the Tribe has adequate authority. This can only help EPA to make a proper determination to treat the Tribe as a State.

Where the Regional Administrator concludes that a Tribe has not adequately demonstrated its authority with respect to an area in dispute, then Tribal assumption of the NPDES and/or State sludge management program would be restricted accordingly. If the authority in dispute were focused on a limited area, this would not necessarily delay the Agency's decision to treat the Tribe as a State for the non-disputed areas.

4. Tribal Capability

The fourth criterion that a Tribe must meet is that, in the Regional Administrator's judgment, the Tribe must be "reasonably expected to be capable" of administering an effective program. The proposed regulations applicable to this criterion appear in §§ 123.31(a)(4), 123.32(d), 501.22(a)(4), and 501.23(d).

In evaluating a Tribe's demonstration that it is "reasonably expected to be capable" of administering an effective program, the Regional Administrator will consider the following five factors:

(1) The Tribe's previous management experience;

(2) Existing environmental or public health programs administered by the Tribe;

(3) The mechanism(s) in place for carrying out the executive, legislative, and judicial functions of the Tribal government;

(4) The relationship between regulated entities and the administrative agency of the Tribal government which

is, or will be, designated as the primacy agent; and

(5) The technical and administrative capabilities of the staff to administer and manage the program.

The Agency recognizes that certain Tribes may not have substantial experience in administering environmental programs. For this reason the Agency would require Tribes in proposed §§ 123.32(d)(5) and 501.23(d)(5) either: (1) To show that they have the necessary management and technical skills, or (2) to submit a plan detailing steps for acquiring the necessary management and technical skills. Although lack of this experience will not preclude a Tribe from demonstrating the required capability, the presence of such experience will be of significant importance to the Agency.

This demonstration, however, does not change the requisite showing which an Indian Tribe must make for assumption of the NPDES or State sludge management programs. Except in the area of criminal enforcement authority as discussed above, an Indian Tribe must fully satisfy the traditional State program requirements of 40 CFR parts 123 or 501 before NPDES or State sludge management authorization is allowed, as stated in proposed § 123.31(b) and 501.22(b). In evaluating a Tribal application for treatment as a State, the Regional Administrator must determine whether the Tribe is "reasonably expected to be capable" of carrying out the functions of an effective NPDES or State sludge management program. The "reasonably expected to be capable" criterion, however, does not change the traditional requirement for assumption of an NPDES or State sludge management program that the State program be fully effective at the time of program approval. See, for example, 40 CFR 123.23(a) and 501.13. In other words, where an Indian Tribe prepares one simultaneous application for treatment as a State and to operate the NPDES or State sludge management programs, the Tribe must have an effective program in place for EPA to approve the Tribe under § 123.1 or § 501.1. Nothing would preclude EPA, however, from approving the Tribe's "treatment as a State" application while the Tribe's NPDES and/or State sludge management program was still under development.

EPA proposes to request information on the Tribe's executive, legislative, and judicial functions to assure that the Tribe has the capability to effectively administer an approved NPDES permit program.

EPA's evaluation of the Tribe's capability will also consider the relationship between the existing or proposed Tribal agency which will assume the NPDES permit program and any potential regulated Tribal entities. A common situation among Indian Tribes is that the Tribe is both the regulator and regulatee. Such a situation could result in a conflict of interest if EPA authorized the Tribal program because the Tribe would be regulating itself. The Agency believes that independence of the regulator and regulatee is necessary to best assure effective and fair administration of these programs.

This approach is not meant to require the Tribes to divest themselves of ownership of any regulated entities it owns or operates. One possible solution to the problem could be the creation of an independent organization to regulate Tribal entities subject to CWA regulatory requirements. Similar arrangements could be established utilizing existing Tribal organizations.

Failure to resolve the regulator/regulatee conflict will not automatically preclude a Tribe from being eligible for treatment as a State but is intended to alert Tribes at an early date about a potential bar to regulatory program assumption that must be resolved. Resolution of the regulator/regulatee issue relative to the NPDES and State sludge management programs will be evaluated on a case-by-case basis and will be governed by the existing conflict of interest regulations applicable to those programs (40 CFR 123.25(c); 501.15(f)). EPA does not intend to limit Tribal flexibility in creating structures which will ensure adequate separation of the regulator and the regulated entity.

The Agency is aware that, in limited cases, States also are in a similar situation of being both regulator and regulatee. However, State infrastructures are typically such that the State agency operating the regulated entity is not the same State agency that has primary enforcement authority. This is in contrast to the typical situation exhibited by Indian Tribes which may own and operate most or all regulated entities.

The Agency encourages smaller Tribes to consider consortiums or inter-Tribal agencies as ways to obtain the necessary expertise to administer these programs and to make the attainment of primacy cost-effective and beneficial to the Tribe. The Agency will consider and evaluate all applications it receives, regardless of the applicant's size, on a case-by-case basis.

Although EPA will consider applications by a group or consortium of Tribes within the same geographical area, each applicant must still meet all the eligibility requirements to be treated as a State, particularly the jurisdictional requirement.

5. Process for Evaluating Applications

Under proposed §§ 123.33(b) and 501.24(b), within thirty days after receipt of a Tribe's complete application for treatment as a State (which has all the information required in §§ 123.32 or 501.23), the Regional Administrator will notify appropriate governmental entities of the receipt of the application and the substance of and basis for the Tribe's assertion of authority over reservation waters. EPA defines the phrase "governmental entities" as States, Tribes, and other Federal entities located contiguous to the reservation of the Tribe which is applying for treatment as a State. Neighboring Tribes will be treated as "governmental entities" regardless of whether the neighboring Tribe is treated as a State for purposes of section 402 or 405 of the CWA. Where such governmental entities are States, EPA intends to provide notice and an opportunity to comment to the most appropriate State contacts, which may include, for example, the Governor, Attorney General, or the appropriate environmental agency head. The rule limits the Agency to considering only comments from such "governmental entities." Local governments such as cities and counties or other local governments are not included in the definition of "governmental entities," and EPA will not consider comments received from such governments in reviewing Tribal assertions of authority.

EPA recognizes that city and county governments which may be subject to or affected by Tribal standards may also want to comment on the Tribe's assertion of authority. Although EPA believes that the responsibility to coordinate with local governments falls primarily upon the State, the Agency will make an effort to provide notice to local governments by placing an announcement in appropriate newspapers. Since the rule limits EPA to considering comments from governmental entities, such newspaper announcements will advise interested parties to direct comments on Tribal authority to appropriate State governments.

The process of notifying States and Tribes and consulting with the Department of the Interior, as delineated in this and other EPA regulations implementing the CWA and the SDWA, was and is intended merely to assist the Agency in making its determination whether a Tribe has adequate authority to justify treatment as a State by EPA. Such notification and consultation procedures were not and are not intended to establish any form of adjudication or arbitration process to resolve differences between State and Tribal governments. Rather, EPA has a duty to determine whether a Tribe has adequate authority, as defined by Federal law and EPA policy, to carry out the grant or program under consideration. The notification and consultation procedures assist EPA in making this determination by providing information and perspectives from the point of view of neighboring Tribal and State governments and the Federal agency having extensive experience in Federal Indian law.

Under proposed §§ 123.33(c) and 501.24(c), each of the governmental entities will have thirty days after receipt of the notice to submit comments to the Regional Administrator. Comments will be limited solely to the issue of the Tribe's showing under section 518(e)(2). EPA will not consider comments directed to whether the Tribe meets EPA's other requirements for treatment as a State.

If an Indian Tribe's assertion under 518(e)(2) is subjected to a competing claim, proposed §§ 123.33(d) and 501.24(d) provide that the Regional Administrator will consult with the Tribe, the governmental entity submitting comments, and the Secretary of the Department of the Interior, or his designee. Currently, the Associate Solicitor, Division of Indian Affairs and the Deputy to the Assistant Secretary—Indian Affairs (Trust and Economic Development) are the designees of the Secretary of the Interior. Upon receipt of a Tribal application, EPA will forward a copy of the application and any documents asserting a competing or conflicting claim of authority to such designees as soon as possible. Comments from the Interior Department will be primarily a discussion of the law applicable to the issue to assist EPA in its own deliberations. No EPA decision will be attributed to, or determined by, the legal analysis offered by Interior employees.

After consultation, and in consideration of comments received, the Regional Administrator will determine whether the Tribe has adequately demonstrated that it meets the requirements of CWA section 518(e)(2). If the Regional Administrator concludes that a Tribe has not adequately demonstrated its authority with respect to certain reservation waters, then Tribal assumption of the program will be restricted accordingly. Any such determination by the Regional Administrator is not a determination of the Tribe's general regulatory authority but only with respect to administration of the NPDES and State sludge management programs. A dispute over a certain area over which a Tribe is asserting authority will not necessarily delay the Agency's decision to treat a Tribe as a State for the nondisputed areas.

This procedure does not imply that States or Federal agencies have veto power over Tribal applications for treatment as a State. Rather the procedure is simply intended to ensure that the Tribe has the necessary authority to administer the program it seeks to assume. The Agency will not rely solely on the assertions of a competing regulatory authority; it will make an independent evaluation of the Tribal showing.

The Agency does not believe it will be possible to approve or disapprove all applications for "treatment as a State" within a designated time frame. The Agency fully anticipates that there will be instances where the determinations under section 518(e)(2) and (e)(3) will require the Agency to go back to a Tribe for clarification or additional information. The Agency's experience with States applying for various EPA programs indicates that at times meetings and discussions between EPA and the State are necessary before all requirements are met. The Agency believes that the same process of communication with Tribes will be beneficial in ensuring that Tribes meet the "treatment as a State" criteria in an expeditious manner.

If the Regional Administrator determines that a Tribe meets the requirements for treatment as a State, proposed §§ 123.33(e) and 501.24(e) provide that the Indian Tribe is eligible to apply for assumption to the NPDES or State sludge management program. It should be noted that a determination that a Tribe does not meet the requirements for treatment as a State does not preclude the Tribe from resubmitting the application at a future date. If the Agency determines that a Tribal application is deficient or incomplete, the Tribe should consult with EPA on what changes are necessary.

Under proposed §§ 123.33(f) and 501.24(f) Indian Tribes which are found to be eligible for treatment as a State would be eligible to request assumption of the NPFES or State sludge management program in accordance with the procedures and criteria applicable to State program submissions (40 CRF part 123 or NPDES (including NPDES sludge management program); 40 CFR part 501 for non-NPDES State sludge management program). While not required by the regulations, as a practical matter EPA expects that the Indian Tribe's request for treatment as a State for NPDES or State sludge management program purposes and the Tribe's submission to actually assume these programs may occur simultaneously. The Agency encourages use of a single submission containing the necessary information in order to minimize paperwork burdens. In addition, EPA recognizes information required for State program submissions may duplicate or overlap with information required for treatment of an Indian Tribe as a State. For example, proposed §§ 123.32(c) and 501.23(c) provide that requests for treatment as a State are to include a Tribal Attorney General Statement and copies of relevant Tribal law, information which is similar to required elements of State program submissions under existing §§ 123.21(a)(3) and (5) and §§ 501.11(a)(3) and (5). The Agency wishes to emphasize that it does not seek duplicative information, and the proposal would amend existing §§ 123.21(b) and 501.11(b) to make clear that when considering the completeness of an Indian Tribe's request to assume the NPDES or State sludge management program, EPA will take into account any information already submitted as a part of the Tribe's request to be treated as a State.

B. Transition in Permitting Authority

In order to avoid disruptions to the permitting process and competing assertions of authority, it is necessary to provide procedural arrangements to allow for the smooth transition from one permitting authority to another. In the case where the existing permitting authority is EPA, the existing regulations already contain provisions addressing transition from EPA-issued permits to State-issued permits. 40 CFR 123.1(d); 123.24(b); 501.1(f) and 501.14(b)(1). Since the proposal would define approved Indian Tribes as "States" for purposes of the regulations, these existing regulations would enable an efficient change from EPA's permitting authority to the Indian Tribe's permitting authority.

However, it is possible that a State, and not EPA, is the existing authorized permitting authority for activities on the reservation. Under 40 CFR 123.23(b) and 501.13, a State seeking to carry out either the NPDES or State sludge management programs on Indian lands must provide a specific analysis of its

authority to do so in the Attorney General's statement supporting its program submission, and can be authorized by EPA to issue permits on Indian lands as part of a State NPDES or State sludge management program.

The existing regulations do not contain provisions addressing the procedures for arranging the transition from such State-issued permits (which are issued by a State which has made the requisite demonstration discussed in the previous paragraph and has been authorized to issue permits consistent with this demonstration) to Indian Tribe-issued permits. Today's proposal would amend the regulations in various ways to provide for such an orderly transfer once an Indian Tribe is approved for program assumption. First, existing §§ 123.22 and 501.12, which address State program submissions, would be amended to provide that if a State has been authorized by EPA to issue NPDES permits in accordance with §§ 123.23(b) or 501.13 and an Indian Tribe subsequently seeks program assumption, the Indian Tribe's program submission is to include a description of how the Indian Tribe and the State intend to accomplish the transition in permitting authority. As noted in the proposed regulation, to the maximum extent practicable, the regulation calls for (but does not require) this submission to include a Memorandum of Agreement between the Indian Tribe and the previously authorized State describing how the transition will be accomplished. These provisions are set forth in proposed §§ 123.22(g) and 501.12(g).

Second, the proposed regulation makes conforming changes to the existing regulations governing the contents of the Memorandum of Agreement between EPA and the Indian Tribe seeking program approval (§§ 123.24(b)(1) and 501.14(b)). The Memorandum of Agreement between EPA and the Indian Tribe now must specify how the Tribe and previously authorized State will accomplish the transition of permitting authority when a State (rather than EPA) is the existing authorized permitting authority for reservation lands. See proposed §§ 123.24(b)(1)(ii) and 501.14(b)(1)(ii).

Third, today's proposed rule revises existing regulations governing the transfer of EPA's permitting authority upon a State's obtaining program approval (§§ 123.1(d) and 501.1(f)). Those regulations currently provide that upon a State's obtaining program approval, EPA will suspend issuing permits, and, absent agreement to the contrary stated in the Memorandum of Agreement between EPA and the State, EPA will retain jurisdiction over its existing permits as specified there. The language of proposed §§ 123.1(d)(2) and 501.1(f)(2) extends the current procedures to cover the circumstance in which a State (rather than EPA) is the existing authorized permitting authority for the reservation lands. That is, a previously authorized State will retain jurisdiction over its existing permits as described in §§ 123.1(d)(1) and 501.1(f)(1) absent a different arrangement provided in the Memorandum of Agreement between EPA and the Tribe.

The last mechanism for obtaining a smooth transfer to Tribal permitting authority would involve amending § 123.62(a), which addresses revisions to State programs. The proposal would add language to existing § 123.62(a) to make clear that if the State's approved program extends to a Federal Indian reservation and an Indian Tribe subsequently is approved for program assumption, this situation provides grounds for revision to the State program. The existing regulations governing revisions to State sludge management programs (40 CFR 501.32(b)) incorporate the revision procedures of § 123.62 by reference. Thus, this proposed amendment to § 123.62(a) would also be applicable in the case of State sludge management programs and would not be limited in its applicability to NPDES programs.

In keeping with section 518(d) of the CWA, EPA strongly encourages Indian Tribes and States which have permitting authority on reservation lands to negotiate cooperative agreements to provide for a smooth and orderly transfer of permitting responsibility. Upon approval of the Indian Tribe's program assumption, EPA will promptly process any necessary revisions to the State's program or Memorandum of Agreement with EPA to reflect the assumption of the program by the Indian Tribe.

Until Tribes qualify for the NPDES or State sludge management programs, however, EPA or an authorized State will administer those programs on Federal Indian reservations. EPA will, whenever possible, assume, without deciding, that existing permits on Federal Indian reservations issued by States without specific authorization under §§ 123.23(b) or 501.13 contain enforceable limits. EPA's preliminary position on this issue was expressed in a September 9, 1988 letter from EPA's then General Counsel, Lawrence Jensen, to Dave Frohnmayer, Attorney General for the State of Oregon, a copy of which is available in the docket for today's rule. That letter provides:

> EPA is aware that some states have issued NPDES permits to certain dischargers on reservation lands. Until the NPDES program is delegated to a tribe, or until EPA otherwise determines in consultation with a state and tribe that a state lacks jurisdiction to issue NPDES permits on Indian lands, we will assume without deciding that those permits contain applicable effluent limits, in order to ensure that controls on discharges to reservation waters remain in place.

In other proposed CWA rulemakings, EPA received comments on the interim statements made in Mr. Jensen's letter, and wishes to clarify that this policy is not an assertion that all State permits for reservations are necessarily valid as a matter of law. Rather, it is a mere recognition that fully implementing a role for Tribes under the CWA will require a period of transition. Were EPA simply to ignore all previously issued State permits in the interim period before the Tribes develop NPDES or State sludge management programs (or EPA issues a federal permit), there would be a regulatory void which EPA believes would not be beneficial to preservation of water quality. Prior to Tribal assumption of the NPDES or State sludge management programs previously administered by a State, EPA will give serious consideration to Federal issuance of permits to reservation dischargers where it finds a particular need. Thus, EPA believes that the Agency's policy is the best approach to this issue, and one that best protects reservation environments in the interim period. To the extent that the interim guidance given in the Jensen letter implies a different intent in EPA's policy, today's statement supersedes it.

C. Additional Proposed Changes

In addition to the changes discussed above, the proposal would make a number of other changes to the regulations to reflect definitions contained in CWA section 518 and make editorial and conforming changes as necessary to adjust the regulatory language to reflect that Indian Tribes would not be included in the definition of "State." A summary of these proposed changes is set forth below.

With regard to definitions used in the regulations, the proposal would revise §§ 122.2 and 501.2 of the regulations to incorporate the CWA section 518 definitions of "Indian Tribe" and "Federal Indian reservation," and also would amend the existing definition of "State" to make clear that Indian Tribes may qualify for treatment as a State for purposes of assuming the NPDES and State sludge management programs. Changes would also be made to the definitions set forth in § 124.2 as necessary to incorporate the CWA section 518(e) definitions into part 124, which establishes procedures for decision making in several Federal environmental programs. In this regard, the SDWA Primacy Rule amended § 124.2 to incorporate the definition of "Indian Tribe" used in that Act (53 FR 37410, September 26, 1988). The definition of Indian Tribe used in CWA section 518, however, differs from that used in the SDWA. The proposal would leave intact the SDWA definition, but would add separate definitions, for NPDES purposes, to incorporate the CWA's definitions of "Indian Tribe" and "Federal Indian reservation."

The SDWA Primacy Rule also amended the definition of "State" in § 124.2 to include "an Indian Tribe treated as a State. . . . See 53 FR 37410. This definition is also adequate for the CWA because the terms "Indian Tribe" and "Federal Indian reservation" added in today's rule reflect the different requirements of CWA section 518(e). In addition, new § 124.51(c) of this rule provides that an Indian Tribe qualified for treatment as a State for purposes of the Water Quality Standards program under 40 CFR 131.4 is qualified for treatment as a State for purposes of State certification of water quality standards pursuant to CWA section 401(a)(1).

Because the proposal would add Indian Tribes to the definition of "State," the proposal also would make necessary clarifying changes to §§ 123.1(h), 123.21(a)(1), 123.23(b), 501.11(a)(1), and 501.13(a) to clarify how their provisions apply in cases where the "State" is an approved Indian Tribe. For example, § 123.1(h) refers to the fact that a State's lack of authority over Indian lands does not impede assumption of the NPDES program; the proposal would reword that provision to make clear that the section's reference to a State means a State other than an approved Indian Tribe. Similarly, § 123.21 provides that requests for NPDES program assumption are to be submitted by the State Governor, and the proposal would add clarifying language to provide that in cases where the State seeking the program is an approved Indian Tribe, the submittal is to come from the Tribal authority equivalent to the Governor.

Finally, § 123.1(b), which sets forth the list of authorities under which part 123 is issued, would be amended to add to the list specific reference to CWA section 518(e).

III. Other Issues

A. Alaska Native Villages and Oklahoma's Tribes

Under section 518 of the CWA, the Agency concludes that Alaska Native Villages (except for the Annette Island Reserve of the Metlakatla Indian Community) are not eligible to apply for treatment as a State based on the definition of Indian Tribes. The Act uses the following definitions in section 518(h):

> (1) Federal Indian reservation means all land within the limits of any Indian reservation under the jurisdiction of the United States Government, notwithstanding the issuance of any patent, and including rights-of-way running through the reservation; and
>
> (2) Indian Tribe means any Indian Tribe, band, group, or community recognized by the Secretary of the Interior and exercising governmental authority over a *Federal Indian reservation.* [Emphasis added.]

The Agency's conclusion is based on the fact that since passage of the Alaska Native Claims Settlement Act (25 U.S.C. 1618) in 1971, Alaska Native Villages, with one limited exception, do not exercise governmental authority over Federal Indian reservations.

Section 518(g) of the CWA does not affect EPA's analysis of the status of Alaska Native Villages. Section 518(g) states that

> [n]o provision of this Act shall be construed to—(1) grant, enlarge, or diminish, or in any way affect the scope of the governmental authority, if any, of any Alaska Native organization, including any federally recognized tribe, traditional Alaska Native council, or Native Council organized pursuant to the Act of June 18, 1934 (48 Stat. 987), over lands or persons in Alaska;
>
> (2) create or validate any assertion by such organization or any form of governmental authority over lands or persons in Alaska; or
>
> (3) in any way affect any assertion that Indian country, as defined in § 1151 of title 18, United States Code, exists or does not exist in Alaska.

Section 518(g) merely clarifies that providing for Tribal participation under the CWA, in and of itself, did not change the regulatory status of the Alaska Native Villages.

The Agency also concludes that Tribes on former reservations in Oklahoma and elsewhere likewise are not eligible to apply for the CWA programs addressed in this notice because they do not exercise governmental authority over Federal Indian reservations and therefore do not meet the definition of Tribes under section 518(h)(1).

The language of section 518(c) of the CWA was amended in 1988 to allow "former Indian reservations in Oklahoma (as determined by the Secretary of the Interior) and Alaska Native Villages as defined in Public Law 92–203" to qualify for certain funds appropriated under CWA section 207. See Public Law 100–581, title II, section 207, 102 Stat. 2940. This amendment had no effect on today's rule.

B. Response to Comments

EPA received approximately one dozen comments upon the draft regulation as circulated on April 12, 1989, to various States, Tribes, and EPA Offices. The commenters included the Inter Tribal Council of Arizona, the Seminole Tribe of Florida, the Minnesota Chippewa Tribe, the Tulalip Indian Tribe, the State of Washington Department of Ecology, the Colorado River Board of California, the Colorado River Basin Salinity Control Forum, the State of California Water Resources Control Board, and the New Mexico Health and Environment Department. The text of this proposed regulation incorporates many of the suggestions made by commenters. Below, we respond specifically to some questions raised in the comments, and will respond to all comments before the rule is published in final form.

Several individuals requested more discussion in the proposed regulation of the status of existing permits while EPA reviewed a Tribe's program submission(s) and after the Tribe receives program approval(s). As discussed above, it is clear that the existing authorized permitting authority (EPA or the State) will continue to administer the NPDES and/or sludge management programs until a Tribe is determined eligible by EPA for treatment as a State and receives program approval from EPA. However, once the Tribe receives program approval, the proposed regulation (§§ 123.1(d)(2), 123.24(b)(1)(ii), 501.1(f)(2), or 501.14(b)(1)(ii)) provides that the now-former authorized permitting authority (either EPA or the State) must suspend issuing new permits; and the Tribe and the former permitting authority should agree to a plan for the transfer of existing permits, applications, etc. However, the proposed rule also establishes that, in the absence of a contrary arrangement between the Tribe and EPA as memorialized the Memorandum of Agreement, the former authorized permitting authority shall retain jurisdiction over existing permits. Thus, the current procedure in the State program regulations (see 40 CFR 123.1(d) or 501.1(f)) for transfer of jurisdiction from EPA to an approved State has been retained here.

The question of the use or disposal of sludge from a State on Federal Indian reservation lands generated elsewhere concerned several commenters. For example, one individual noted that "[t]he regulations do not address the situation where a sewage treatment plant is located on lands subject to a State NPDES permit authority or a State 'sludge only' permit, but where use and disposal of the sludge will be on Indian lands and subject to a separate authority". This issue is not addressed in the proposed regulation because it is not unique to treatment of "Tribes as States" for purposes of the sludge management program. Section 405(e) of the CWA requires sludge use or disposal in accordance with EPA requirements independent of where the sludge is disposed. We refer the commenters instead to general State program regulations and guidance dealing with the question of interstate use or disposal of sludge. See, in particular, 54 FR 18729–18732 of the preamble to the May 2, 1989 sludge regulations.

Several comments requested expansion of the language of proposed regulation 501.12(g). This proposed regulation requires Tribes seeking State sludge management program approval to provide EPA with a statement in the program description of how pending applications, existing permits, and supporting files will be transferred from a State which is the "authorized permitting authority" to the Tribe. The commenters advocated expansion of the proposed regulation to cover the case in which a State is in fact regulating the use or disposal of sewage sludge, but it is not the "authorized permitting authority." However, we regard the requested expansion as inconsistent with the requirements of section 405 of the CWA and the State sludge management regulations (50 CFR part 501). Section 405 of the CWA prohibits the discharge of sewage sludge pollutants without a permit requiring compliance with regulations governing the use and disposal of the sludge. Paragraph (f), as added by the Water Quality Act of 1987, outlines what permits may be issued to implement the required regulations, including "State permit programs approved by the Administrator. . . ." Thus, a State may administer a sludge management program either as part of a 402 program or as part of another non–402 program approved by the Administrator as assuring compliance with section 405 requirements. See 54 FR 18746. The part 501 regulations describe the general requirements for development and submission of non-NPDES State sludge management programs. As noted above, 40 CFR 501.13 also requires a State which plans to administer the State sludge management program on Indian Lands to explain the basis for its authority to do so in the Attorney General's statement supporting the program submission. Thus, the State from which the approved Tribe seeks the transfer of existing permits, etc., should be an "authorized permitting authority." However, as indicated earlier in this notice, EPA will address any issue raised relating to State jurisdiction to issue permits on Federal Indian reservations, in consultation with the State and the Tribe.

IV. Request for Public Comment

EPA requests public comment and information on all aspects of this proposal.

V. Other Regulatory Requirements

A. Compliance With Executive Order 12291

Executive Order 12291 (46 FR 13193, February 19, 1981) requires that a regulatory agency determine whether a new regulation will be "major" and, if so, that a Regulatory Impact Analysis be conducted. A major rule is defined as a regulation which is likely to result in:

(1) An annual effect on the economy of $100 million or more;

(2) A major increase in costs or prices for consumers; individual industries; Federal, State and local government agencies; or geographic regions; or

(3) Significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Because the proposed rule does not meet the definition of a major regulation, the Agency is not conducting a Regulatory Impact Analysis. The proposed rule was submitted to the Office of Management and Budget (OMB) for review as required by Executive Order 12291. Any written comments from OMB to EPA and any response to these comments will be available for public inspection from the person listed at the beginning of this notice.

B. Paperwork Reduction Act

The information collection requirements in this proposed rule have been submitted for approval to OMB under the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.* EPA has prepared two Information Collection Request (ICR) documents, one of which, ICR 168.03, amends the existing State NPDES Program ICR (OMB #2040–0057), and the other of which, ICR 1237.04, amends the existing State Sludge Management Program Requirements ICR (OMB #2040–0128). Copies of these ICRs may be obtained by writing Harold Woodley, Information Policy Branch, EPA, 401 M St., SW. (PM–223Y), Washington, DC 20460, or by calling (202) 260–2738.

The public reporting burden for this collection of information is estimated to average 1400 hours per respondent, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Chief, Information Policy Branch, PM–223Y, U.S. Environmental Protection Agency, 401 M St., SW., Washington, DC 20460; and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503. The final rule will respond to any OMB or public comments on the information collection requirements contained in this proposal.

C. Regulatory Flexibility Act

Under the Regulatory Flexibility Act (RFA), 5 U.S.C. 601 *et seq.*, EPA must prepare a Regulatory Flexibility Analysis for all proposed regulations that have a significant impact on a substantial number of small entities. The RFA recognizes three kinds of small entities and defines them as follows:

—Small governmental jurisdictions—any government of a district with a population of less than 50,000.

—Small business—any business which is independently owned and operated and not dominant in its field as defined by Small Business Administration regulations under section 3 of the Small Business Act.

—Small organization—any not-for-profit enterprise that is independently owned and operated and not dominant in its field (e.g., private hospitals and educational institutions).

Using the above definition of small entity, EPA has concluded that the proposed regulation, if promulgated, will not have a significant impact on a substantial number of small entities, and that a Regulatory Flexibility Analysis is unnecessary. EPA has reached this conclusion based on the following considerations.

The proposed regulation will not have a significant impact on a substantial number of small governmental organizations. Approximately 280 Indian Tribes are potentially eligible for treatment as a State under the NPDES and State sludge management programs. While most Indian Tribes meet the definition of small governmental organization provided above, EPA believes the number of Tribes subject to significant impacts as a result of this proposed regulation will be a small fraction of the total that apply. EPA considers the information required by this rule to be the minimum necessary to effectively evaluate applications to treat Indian Tribes as States for the purpose of the 402 permit and State sludge management programs.

The proposed regulation will not have a significant impact on a substantial number of small businesses. Although it is conceivable that an Indian Tribe could impose greater requirements upon a permit applicant than the existing permitting authority, such situations will be rare. Any additional economic impact on the public resulting from implementation of this proposed regulation is expected to be negligible, since Tribal regulation of these activities is limited to areas within Tribal jurisdiction.

The proposed regulation will not have a significant impact on a substantial number of small organizations for the same reasons that the proposed regulation will not have a significant impact on a substantial number of small businesses.

Accordingly, I certify that this proposed regulation, if promulgated, would not have a significant economic impact on a number of small entities.

List of Subjects

40 CFR Part 122

Administrative practice and procedure, Air pollution control, Confidential business information, Hazardous substances, Indian lands, Reporting and recordkeeping requirements, Waste treatment and disposal, Water pollution control, Water supply.

40 CFR Part 123

Administrative practice and procedure, Confidential business information, Hazardous substances, Indian lands, Intergovernmental relations, Penalties, Reporting and recordkeeping requirements, Waste treatment and disposal, Water pollution control, Water supply.

40 CFR Part 124

Administrative practice and procedure, Air pollution control, Hazardous substances, Indian lands, Reporting and recordkeeping requirements, Sewage disposal, Waste treatment and disposal, Water pollution control, Water supply.

40 CFR Part 501

Administrative practice and procedure, Confidential business information, Indian lands, Intergovernmental relations, Penalties, Reporting and recordkeeping requirements, Sewage disposal, Waste treatment and disposal.

Dated: February 27, 1992.

William K. Reilly,

Administrator.

For the reasons set out in the Preamble, chapter I of title 40 of the Code of the Federal Regulations is proposed to be amended as follows:

PART 122—EPA ADMINISTERED PERMIT PROGRAMS: THE NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM

1. The authority citation for part 122 continues to read as follows:

Authority: The Clean Water Act, 33 U.S.C. 1251 *et seq.*

2. Section 122.2 is amended by adding in alphabetical order, new definitions for "Federal Indian reservation" and "Indian Tribe," and by revising the definition of "State" to read as follows:

§ 122.2 Definitions.

* * * * *

Federal Indian reservation means all land within the limits of any Indian reservation under the jurisdiction of the United States Government, notwithstanding the issuance of any patent, and including rights-of-way running through the reservation.

* * * * *

Indian Tribe means any Indian Tribe, band, group, or community recognized by the Secretary of the Interior and exercising governmental authority over a Federal Indian reservation.

* * * * *

State means any of the 50 States, the District of Columbia, Guam, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, the Commonwealth of the Northern Mariana Islands, the Trust Territory of the Pacific Islands, or an Indian Tribe as defined in these regulations which meets the requirements of § 123.31.

* * * * *

PART 123—STATE PROGRAM REQUIREMENTS

3. The authority citation for part 123 continues to read as follows:

Authority: Clean Water Act, 33 U.S.C. 1251 *et seq.*

4. Section 123.1 is amended by revising paragraphs (b) and (h), by redesignating (d) as (d)(1), and by adding a new paragraph (d)(2) to read as follows:

§ 123.1 Purpose and scope.

* * * * *

(b) These regulations are promulgated under the authority of sections 304(i), 101(e), 405, and 518(e) of the CWA, and implement the requirements of those sections.

* * * * *

(d)(1) * * *

(2) The procedures outlined in the preceding paragraph (d)(1) of this section for suspension of permitting authority and transfer of existing permits will also apply when EPA approves an Indian Tribe's application to operate a State program and a State was the authorized permitting authority under § 123.23(b) for activities within the scope of the newly approved program. The authorized State will retain jurisdiction over its existing permits as described in paragraph (d)(1) of this section absent a different arrangement stated in the Memorandum of Agreement executed between EPA and the Tribe.

* * * * *

(h) In many cases, States (other than Indian Tribes) will lack authority to regulate activities on Indian lands. This lack of authority does not impair that State's ability to obtain full program approval in accordance with this part, i.e., inability of a State to regulate activities on Indian lands does not constitute a partial program. EPA will administer the program on Indian lands if a State (or Indian Tribe treated as a State) does not seek or have authority to regulate activities on Indian lands.

* * * * *

5. Section 123.21 is amended by revising paragraph (a)(1), by redesignating paragraph (b) as (b)(1), and by adding a new paragraph (b)(2) to read as follows:

§ 123.21 Elements of a program submission.

(a) * * *

(1) A letter from the Governor of the State (or in the case of an Indian Tribe eligible for treatment as a State in accordance with § 123.33(e), the Tribal

authority exercising powers substantially similar to those of a State Governor) requesting program approval;

* * * * *

(b)(1) * * *

(2) In the case of an Indian Tribe eligible for treatment as a State under § 123.33(e), EPA shall take into consideration the contents of the Tribe's request for treatment as a State submitted under § 123.32, in determining if the program submission required by § 123.21(a) is complete.

* * * * *

6. Section 123.22 is amended by adding a new paragraph (g) to read as follows:

§ 123.22 Program description.

* * * * *

(g) In the case of Indian Tribes eligible for treatment as a State under § 123.33(e), if a State has been authorized by EPA to issue permits on the Federal Indian reservation in accordance with § 123.23(b), a description of how responsibility for pending permit applications, existing permits, and supporting files will be transferred from the State to the eligible Indian Tribe. To the maximum extent practicable, this should include a Memorandum of Agreement negotiated between the State and the Indian Tribe addressing the arrangements for such transfer.

7. Section 123.23 is amended by revising paragraph (b) to read as follows:

§ 123.23 Attorney General's statement.

* * * * *

(b) If a State (which is not an Indian Tribe) seeks authority over activities on Indian lands, the statement shall contain an appropriate analysis of the State's authority.

* * * * *

8. Section 123.24 is amended by redesignating paragraph (b)(1) as (b)(1)(i) and adding a new paragraph (b)(1)(ii) before the note to read as follows:

§ 123.24 Memorandum of Agreement with the Regional Administrator.

* * * * *

(b)(1)(i) * * *

(ii) Where a State has been authorized by EPA to issue permits in accordance with § 123.23(b) on the Federal Indian reservation of the Indian Tribe seeking program approval, provisions describing how the transfer of pending permit applications, permits, and any other information relevant to the program operation not already in the possession of the Indian Tribe (e.g., support files for permit issuance, compliance reports, etc.) will be accomplished.

* * * * *

9. Section 123.25 is amended by revising paragraph (a)(12) to read as follows:

§ 123.25 Requirements for permitting.

(a) * * *

(12) § 122.41—(Applicable permit conditions) (Indian Tribes can satisfy enforcement authority requirements under § 123.34).

* * * * *

10. Section 123.27 is amended by adding a new paragraph (e) to read as follows:

§ 123.27 Requirements for enforcement authority.

* * * * *

(e) Indian Tribes that cannot satisfy the criminal enforcement authority requirements of this section may still receive program approval if they meet the requirement for enforcement authority established under § 123.34.

11. Section 123.31 is added to read as follows:

§ 123.31 Requirements for treatment of Indian Tribes as States.

(a) Section 518(e) of the CWA, 33 U.S.C. 1377(e), authorizes the Administrator to treat an Indian Tribe as a State for purposes of making the Tribe eligible to apply for NPDES program authority if it meets the following criteria:

(1) The Indian Tribe is recognized by the Secretary of the Interior.

(2) The Indian Tribe has a governing body carrying out substantial governmental duties and powers.

(3) The functions to be exercised by the Indian Tribe pertain to the management and protection of water resources which are held by an Indian Tribe, held by the United States in trust for the Indians, held by a member of an Indian Tribe if such property interest is subject to a trust restriction on alienation, or otherwise within the borders of an Indian reservation.

(4) The Indian Tribe is reasonably expected to be capable, in the Regional Administrator's judgment, of carrying out the functions to be exercised, in a manner consistent with the terms and purposes of the Act and applicable regulations, of an effective NPDES permit program. This capability may be demonstrated by the existence of management and technical skills necessary to administer an effective NPDES permit program; by the existence of institutions to exercise executive, legislative, and judicial functions; and by a history of successful managerial performance of public health or environmental programs. There must be sufficient independence of regulated entities and the agency of the Indian Tribe which assumes primary responsibility for establishing and administering an NPDES program necessary to assure effective and fair administration of the program.

(b) An Indian Tribe which the Regional Administrator determines meets the criteria described in paragraph (a) of this section must also satisfy the State program requirements described in this part for assumption of the State program.

12. Section 123.32 is added to read as follows:

§ 123.32 Request by an Indian Tribe for a determination of eligibility for treatment as a State.

An Indian Tribe may apply to the Regional Administrator for a determination that it qualifies for treatment as a State pursuant to section 518 of the Act for purposes of seeking NPDES permit program approval. The application shall be concise and describe how the Indian Tribe will meet each of the requirements of § 123.31. The application shall include the following information:

(a) a statement that the Tribe is recognized by the Secretary of the Interior;

(b) A descriptive statement demonstrating that the Tribal governing body is currently carrying out substantial government duties and powers over a defined area. This statement shall:

(1) Describe the form of the Tribal government;

(2) Describe the types of government functions currently performed by the Tribal governing body, such as, but not limited to, the exercise of police powers affecting (or relating to) the health, safety, and welfare of the affected population; taxation; and the exercise of the power of eminent domain; and

(3) Identify the source of the Tribal governments authority to carry out the governmental functions currently being performed.

(c) A map or legal description of the area over which the Indian Tribe asserts authority under section 518(e)(2) of the Act; a statement by the Tribal Attorney General (or equivalent official authorized to represent the Tribe in all legal matters in court pertaining to the program for which it seeks approval) which describes the basis for the Tribe's assertion (including the nature or subject matter of the asserted regulatory authority); a copy of all documents such as Tribal constitutions, by-laws; charters, executive orders, codes, ordinances, and/or resolutions which support the Tribe's assertion under section 518(e)(2) of the Act; and a description of the location of the surface waters for which the Tribe proposes to establish a NPDES permit program.

(d) A narrative statement describing the capability of the Indian Tribe to administer an effective, environmentally sound NPDES permit program. The statement shall include:

(1) A description of the Indian Tribe's previous management experience including, but not limited to, the administration of programs and service authorized by the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 *et seq.*), the Indian Mineral Development Act (25 U.S.C. 2101 *et seq.*), or the Indian Sanitation Facility Construction Activity Act (42 U.S.C. 2004a);

(2) A list of existing environmental or public health programs administered by the Tribal governing body, and a copy of related Tribal laws, regulations, and policies;

(3) A description of the entity (or entities) which exercise the executive, legislative, and judicial functions of the Tribal government;

(4) A description of the existing, or proposed, agency of the Indian Tribe which will assume primary responsibility for establishing and administering a NPDES permit program (including a description of the relationship between the existing or proposed agency and its regulated entities);

(5) A description of the technical and administrative abilities of the staff to administer and manage an effective, environmentally sound NPDES permit program or a plan which proposes how the Tribe will acquire additional expertise. The plan must address how the Tribe will obtain the funds to acquire the administrative and technical expertise.

(e) The Regional Administrator may, at his discretion, request further documentation necessary to support a Tribal request for treatment as a State.

(f) If the Administrator or his delegate has previously determined that a Tribe has met the requirements for "treatment as a State" for other programs authorized under the Safe Drinking Water Act or the Clean Water Act, then the Tribe need only provide that additional information unique to the NPDES program which is requested by the Regional Administrator.

13. Section 123.33 is added to read as follows:

§ 123.33 Procedures for processing an Indian Tribe's application for treatment as a State.

(a) The Regional Administrator shall process an application of an Indian Tribe for treatment as a State submitted pursuant to § 123.32 in a timely manner. He shall promptly notify the Indian Tribe of receipt of the application.

(b) Within 30 days after receipt of the Indian Tribe's complete application for treatment as a State, the Regional Administrator shall notify all appropriate governmental entities. Notice shall include information on the substance of and bases for the Tribe's assertions that it meets the requirements of § 123.31(a)(3).

(c) Each governmental entity so notified by the Regional Administrator shall have 30 days to comment upon the Tribe's assertion of jurisdiction. Comments by governmental entities shall be limited to the Tribe's assertion under § 123.31(a)(3).

(d) If a Tribe's assertion under § 123.31(a)(3) is subject to a competing or conflicting claim, the Regional Administrator, after consultation with the Secretary of the Interior, or his designee, and in consideration of other comments received, shall determine whether the Tribe has adequately demonstrated that it meets the requirements of § 123.31(a)(3).

(e) If the Regional Administrator determines that a Tribe meets the requirements of § 123.31, the Indian Tribe is then eligible to be treated as a State for purposes of applying for assumption of the NPDES permit program.

(f) The Regional Administrator shall follow the procedures described in 40 CFR part 123 subpart D in processing a Tribe's request to assume the NPDES program.

14. Section 123.34 is added to read as follows:

§ 123.34 Provisions for Tribal criminal enforcement authority.

To the extent that an Indian Tribe is precluded from asserting criminal enforcement authority as required under § 123.27, the Federal government will exercise primary criminal enforcement responsibility. The Tribe, with the EPA Region, shall develop a procedure by which the Tribal agency will refer potential criminal violations to the Regional Administrator, as agreed to by the parties, in an appropriate and timely manner. This procedure shall encompass all circumstances in which the Tribe is incapable of exercising the enforcement requirements of § 123.27. This agreement shall be incorporated into a joint or separate Memorandum of Agreement with the EPA Region, as appropriate.

15. Section 123.62 is amended by adding a sentence to the end of paragraph (a) to read as follows:

§ 123.62 Procedures for revision of State programs.

* * * * *

(a) * * * Grounds for program revision include cases where a State's existing approved program includes authority to issue NPDES permits for activities on a Federal Indian reservation and an Indian Tribe has subsequently been approved for assumption of the NPDES program under part 123 extending to those lands.

* * * * *

PART 124—PROCEDURES FOR DECISIONMAKING

16. The authority citation for part 124 is revised to read as follows:

Authority: Resource Conservation and Recovery Act, 42, U.S.C. 6901 *et seq.*; Safe Drinking Water Act, 42 U.S.C. 300(f) *et seq.*; Clean Water Act, 33 U.S.C. 1251 *et seq.*; Clean Air Act, 42 U.S.C. 7401 *et seq.*

17. Section 124.2 is amended by adding in alphabetical order a definition of "Federal Indian reservation" and revising the definition of "Indian Tribe" to read as follows:

§ 124.2 Definitions.

* * * * *

Federal Indian reservation (in the case of NPDES) means all land within the limits of any Indian reservation under the jurisdiction of the United States Government, notwithstanding the issuance of any patent, and including rights-of-way running through the reservation.

* * * * *

Indian Tribe means (in the case of UIC) any Indian Tribe having a Federally recognized governing body carrying out substantial governmental duties and powers over a defined area. For the NPDES program, the term "Indian Tribe" means any Indian Tribe, band, group, or community recognized by the Secretary of the Interior and exercising governmental authority over a Federal Indian reservation.

* * * * *

18. Section 124.51 is amended by adding a new paragraph (c) to read as follows:

§ 124.51 Purpose and scope.

* * * * *

(c) As stated in 40 CFR 131.4, an Indian Tribe that is qualified for treatment as a State for purposes of the

Water Quality Standards program is likewise qualified for treatment as a State for purposes of State certification of water quality standards pursuant to section 401(a)(1) of the Act and this subpart D.

PART 501—STATE SLUDGE MANAGEMENT PROGRAM REGULATIONS

19. The authority citation for Part 501 continues to read as follows:

Authority: The Clean Water Act, 33 U.S.C. 1251 *et seq.*

20. Section 501.1 is amended by revising paragraph (c)(5), by redesignating paragraph (f) and (f)(1), and by adding paragraph (f)(2) to read as follows:

§ 501.1 Purpose and scope.

* * * * *

(c) * * *

(5) The authority to abate violations of the State sludge program, including civil and criminal penalties and other ways and means of enforcement. Indian Tribes can satisfy criminal enforcement authority requirements under § 501.25.

* * * * *

(f)(1) * * *

(2) The procedures outlined in the preceeding paragraph (d)(1) for the suspension of permitting authority and transfer of existing permits will also apply when EPA approves an Indian Tribe's application to operate a State sludge management program and a State was the authorized permitting authority under § 501.13 for sludge management activities within the scope of the newly approved program. The authorized State will retain jurisdiction over its existing permits as described in paragraph (f)(1) of this section absent a different arrangement stated in the Memorandum of Agreement executed between EPA and the Tribe.

* * * * *

21. Section 501.2 is amended by adding in alphabetical order definitions of "Indian Tribe" and "Federal Indian reservation," and by revising the definition of "State" to read as follows:

§ 501.2 Definitions

* * * * *

Federal Indian reservation means all land within the limits of any Indian reservation under the jurisdiction of the United States Government, notwithstanding the issuance of any patent, and including rights-of-way running through the reservation.

* * * * *

Indian Tribe means any Indian Tribe, band, group, or community recognized by the Secretary of the Interior and exercising governmental authority over a Federal Indian reservation.

* * * * *

State means a State, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands, and an Indian Tribe as defined in these regulations which meets the requirements of § 501.22.

* * * * *

22. Section 501.11 is amended by revising paragraph (a)(1), by redesignating paragraph (b) as (b)(1), and by adding a new paragraph (b)(2) before the parenthetical information collection requirement, to read as follows:

§ 501.11 Elements of a sludge management program submission.

(a) * * *

(1) A letter from the Governor of the State (or in the case of an Indian Tribe eligible for treatment as a State in accordance with § 501.24(e), the Tribal authority exercising powers substantially similar to those of a State Governor) requesting approval;

* * * * *

(b)(1) * * *

(2) In the case of an Indian Tribe eligible for treatment as a State under § 501.24(e), EPA shall take into consideration the contents of the Tribe's request for treatment as a State submitted under § 501.22, in determining if the program submission required by § 501.11(a) is complete.

* * * * *

23. Section 501.12 is amended by adding a new paragraph (g) to read as follows:

§ 501.12 Program description.

* * * * *

(g) In the case of Indian Tribes eligible for treatment as a State under § 501.24(e), if a State has been authorized by EPA to issue permits on the Federal Indian reservation in accordance with § 501.13, a description of how responsibility for pending permit applications, existing permits, and supporting files will be transferred from the State to the eligible Indian Tribe. To the maximum extent practicable, this should include a Memorandum of Agreement negotiated between the State and the Indian Tribe addressing the arrangements for such transfer.

24. Section 501.13 is amended by revising the last sentence of the paragraph to read as follows:

§ 501.13 Attorney General's statement.

* * * If a State (which is not an Indian Tribe) seeks to carry out the program on Indian lands, the statement shall include an appropriate opinion and analysis of the State's legal authority.

25. Section 501.14(b) is amended by redesignating paragraph (b)(1) as (b)(1)(i) and by adding paragraph (b)(1)(ii) to read as follows:

§ 501.14 Memorandum of Agreement with the Regional Administrator.

* * * * *

(b)(1)(i) * * *

(ii) Where a State has been authorized by EPA to issue permits in accordance with § 501.13 on the Federal Indian reservation of the Indian Tribe seeking program approval, provisions describing how the transfer of pending permit applications, permits, and any other information relevant to the program operation not already in the possession of the Indian Tribe (e.g., support files for permit issuance, compliance reports, etc.) will be accomplished.

* * * * *

26. Section 501.15 is amended by adding new paragraph (b)(15) to read as follows:

§ 501.15 Requirements for permitting.

* * * * *

(b) * * *

(15) Indian Tribes can satisfy the criminal enforcement authority requirements of this section under § 501.25.

* * * * *

27. Section 501.17 is amended by adding a new paragraph (e) to read as follows:

§ 501.17 Requirements for enforcement authority.

* * * * *

(e) Indian Tribes that can not satisfy the criminal enforcement authority requirements of this section may still be approved under this part if they meet the requirements established in § 501.25.

28. Section 501.22 is added to read as follows:

§ 501.22 Requirements for treatment of Indian Tribes as States.

(a) Consistent with section 518(e) of the CWA, 33 U.S.C. 1377(e), the Regional Administrator will treat an Indian Tribe as a State for purposes of making the Tribe eligible to apply for sludge management program authority if it meets the following criteria:

(1) The Indian Tribe is recognized by the Secretary of the Interior.

(2) The Indian Tribe has a governing body carrying out substantial governmental duties and powers.

(3) The functions to be exercised by the Indian Tribe pertain to the management and protection of water resources which are held by an Indian Tribe, held by the United States in trust for the Indians, held by a member of an Indian Tribe if such property interest is subject to a trust restriction on alienation, or otherwise within the borders of an Indian reservation.

(4) The Indian Tribe is reasonably expected to be capable, in the Administrator's judgment, of carrying out the functions to be exercised, in a manner consistent with the terms and purposes of the Act and applicable regulations, of an effective sludge management program. This capability may be demonstrated by the existence of management and technical skills necessary to administer an effective sludge management program; by the existence of institutions to exercise executive, legislative, and judicial functions; and by a history of successful managerial performance of public health or environmental programs. There must be sufficient independence of the regulated entities and the agency of the Indian Tribe which will assume primary responsibility for establishing and administering a sludge management program necessary to assure effective and fair administration of the program.

(b) An Indian Tribe which the Regional Administrator determines meets the criteria described in paragraph (a) of this section must also satisfy the State program requirements described in this part for assumption of the State program.

29. Section 501.23 is added to read as follows:

§ 501.23 Request by an Indian Tribe for a determination of eligibility for treatment as a State.

An Indian Tribe may apply to the Regional Administrator for a determination that it qualifies for treatment as a State pursuant to section 518 of the Act for purposes of seeking sludge management program approval. The application shall be concise and describe how the Indian Tribe will meet each of the requirements of § 501.22. The application shall include the following information:

(a) A statement that the Tribe is recognized by the Secretary of the Interior;

(b) A descriptive statement demonstrating that the Tribal governing body is currently carrying out substantial governmental duties and powers over a defined area. This statement shall:

(1) Describe the form of the Tribal government;

(2) Describe the types of governmental functions currently performed by the Tribal governing body, such as, but not limited to, the exercise of police powers affecting (or relating to) the health, safety, and welfare of the affected population; taxation; and the exercise of the power of eminent domain; and

(3) Identify the source of the Tribal government's authority to carry out the governmental functions currently being performed.

(c) A map or legal description of the area over which the Indian Tribe asserts authority under section 518(e)(2) of the Act; a statement by the Tribal Attorney General (or equivalent official authorized to represent the Tribe in all legal matters in court pertaining to the program for which it seeks approval) which describes the basis for the Tribe's assertion (including the nature or subject matter of the asserted regulatory authority); a copy of all documents such as Tribal constitutions, by-laws, charters, executive orders, codes, ordinances, and/or resolutions which support the Tribe's assertion under section 518(e)(2) of the Act.

(d) A narrative statement describing the capability of the Indian Tribe to administer an effective, environmentally sound sludge management program. The statement shall include:

(1) A description of the Indian Tribe's previous management experience including, but not limited to, the administration of programs and service authorized by the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 *et seq.*), the Indian Mineral Development Act (25 U.S.C. 2101 *et seq.*), or the Indian Sanitation Facility Construction Activity Act (42 U.S.C. 2004a);

(2) A list of existing environmental or public health programs administered by the Tribal governing body, and a copy of related Tribal laws, regulations, and policies;

(3) A description of the entity (or entities) which exercise the executive, legislative, and judicial functions of the Tribal government;

(4) A description of the existing, or proposed, agency of the Indian Tribe which will assume primary responsibility for establishing and administering a sludge management program (including a description of the relationship between the existing or proposed agency and its regulated entities);

(5) A description of the technical and administrative abilities of the staff to administer and manage an effective, environmentally sound sludge management program or a plan which proposes how the Tribe will acquire additional administrative and technical expertise. The plan must address how the Tribe will obtain the funds to acquire the administrative and technical expertise.

(e) The Regional Administrator may, at his discretion, request further documentation necessary to support a Tribal request for treatment as a State.

(f) If the Administrator or his delegatee has previously determined that a Tribe has met the requirements for "treatment as a State" for other programs authorized under the Safe Drinking Water Act or the Clean Water Act, then the Tribe need only provide that additional information unique to the sludge management program which is requested by the Regional Administrator.

30. Section 501.24 is added to read as follows:

§ 501.24 Procedures for processing an Indian Tribe's application for treatment as a State.

(a) The Regional Administrator shall process an application of an Indian Tribe for treatment as a State submitted pursuant to § 501.23 in a timely manner. He shall promptly notify the Indian Tribe of receipt of the application.

(b) Within 30 days after receipt of the Indian Tribe's complete application for treatment as a State, the Regional Administrator shall notify all appropriate governmental entities. Notice shall include information on the substance and bases of the Tribe's assertions that it meets the requirements of § 501.22(a)(3).

(c) Each governmental entity so notified by the Regional Administrator shall have 30 days to comment upon the Tribe's assertion of jurisdiction. Comments by governmental entities shall be limited to the Tribe's assertion under § 501.22(a)(3).

(d) If a Tribe's assertion under § 501.22(a)(3) is subject to a competing or conflicting claim, the Regional Administrator, after consultation with the Secretary of the Interior, or his designee, and in consideration of other comments received, shall determine whether the Tribe has adequately demonstrated that it meets the requirements of § 501.22(a)(3).

(e) If the Regional Administrator determines that a Tribe meets the

requirements of § 501.22, the Indian Tribe is then eligible to be treated as a State for purposes of applying for assumption of the sludge management program.

(f) The Regional Administrator shall follow the procedures described in part 501, subpart C in processing a Tribe's request to assume the sludge management program.

31. Section 501.25 is added to read as follows:

§ 501.25 Provisions for Tribal criminal enforcement authority.

To the extent that an Indian Tribe is precluded from asserting criminal enforcement authority as required under §§ 501.1(c)(5) and 501.17, the Federal Government will exercise primary criminal enforcement responsibility. The Tribe, with the EPA Region, shall develop a procedure by which the Tribal agency will refer potential criminal violations to the Regional Administrator, as agreed to by the parties, in an appropriate and timely manner. This procedure shall encompass all circumstances in which the Tribe is incapable of exercising the enforcement requirements of §§ 501.1(c)(5) and 501.17. This agreement shall be incorporated into a joint or seperate Memorandum of Agreement with the EPA Region, as appropriate.

Department of Commerce

Economic Development Administration

Economic Adjustment Assistance Programs; Grant Availability; Notice

DEPARTMENT OF COMMERCE

Economic Development Administration

[Docket No. 920250-2050]

Economic Adjustment Assistance; Availability of Funds

AGENCY: Economic Development Administration (EDA), DOC.

ACTION: Supplementary notice.

In the matter of Economic Adjustment Assistance as Described in Public Law 101-510, Section 4103(b) of Division D-Economic Adjustment, Diversification, Conversion, and Stabilization Act for Fiscal Year 1991; Public Law 102-172, Section 8134, November 26, 1991;

SUMMARY: The Economic Development Administration (EDA) announces the policies and application procedures for funds available beginning in FY 1992 to support economic adjustment assistance programs and projects designed to assist substantially and seriously affected communities to facilitate their orderly transition from economic reliance on Department of Defense (DOD) spending to economic reliance on other sources of business, employment and revenue.

FOR FURTHER INFORMATION CONTACT: The appropriate EDA Regional Office or the Director, Economic Adjustment Division, Economic Development Administration, room 7327, U.S. Department of Commerce, Washington, DC 20230; telephone (202) 377-2659.

SUPPLEMENTARY INFORMATION:

Funding Availability

Funds in the amount of $50.0 million are available for this program and shall remain available until obligated and expended.

Funding Instrument

Funds will be awarded through grants under the Sudden and Severe Economic Dislocation (SSED) program under title IX of the Public Works and Economic Development Act of 1965, as amended (Public Law 89-136). Application procedures, competitive selection criteria and post approval project implementation information for the SSED program are applicable to the award of supplemental defense adjustment assistance and are described in part IV, the **Federal Register** of February 4, 1992 (57 FR 4294), that announces EDA's FY 1992 Notice of Availability of Funds, or such subsequent annual Notices of the Availability of Funds.

Eligible Applicants

Eligible applicants include a redevelopment area or economic development district established under title IV of the Public Works and Economic Development Act, 42 U.S.C. 3161; an Indian tribe; a city or other political subdivision of a state, or a consortium of such political subdivisions; a Community Development Corporation defined in the Community Economic Development Act, 42 U.S.C. 9801; a nonprofit organization determined by EDA to be the representative of a redevelopment area; the Commonwealth of Northern Mariana Islands, the Federated States of Micronesia, Guam, Puerto Rico, the Republic of the Marshall Islands, and the Virgin Islands.

All applications for the defense adjustment funds described in this supplemental notice must respond to a defense-related economic dislocation satisfying the criteria of A or B as follows:

A. DOD Criteria

In the case of a publicly announced planned reduction in DOD spending, the cancellation or termination of a DOD contract, or the failure to proceed with a previously approved major defense acquisition program, assistance may be made only if the reduction cancellation, termination, or failure will have a direct and significant adverse impact on a community that will result in the loss of:

1. 2,500 or more employee positions, in the case of a Metropolitan Statistical Area (MSA) or similar area (as defined by the Director of the Office of Management and Budget);

2. 1,000 or more employee positions, in the case of a labor market area outside of an MSA; or

3. one percent of the total number or civilian jobs in that area.

B. EDA Sudden and Severe Economic Dislocation Criteria

The dislocation must satisfy one of the following criteria provided that in exceptional circumstances, the criteria may be partially waived by the Assistant Secretary for Economic Development:

1. For areas not in MSAs: (a) If the unemployment rate of the Labor Market Area exceeds the national average, the dislocation must amount to the lesser of two (2.0) percent of the employed population, or 500 direct jobs.

(b) If the unemployment rate of the Labor Market Area is equal to or less than the national average, the dislocation must amount to the lesser of four (4.0) percent of the employed population, or 1,000 direct jobs.

2. For areas within MSAs: (a) If the unemployment rate of the MSA exceeds the national average, the dislocation must amount to the lesser of one-half (0.5) percent of the employed population, or 4,000 direct jobs.

(b) If the unemployment rate of the MSA is equal to or less than the national average, the dislocation must amount to the lesser of one (1.0) percent of the employed population or 8,000 direct jobs.

In addition, fifty (50) percent of the job loss threshold must result from the action of a single employer, or eighty (80) percent of the job loss threshold must occur in a single standard industry classification (i.e. two digit SIC code). Actual dislocations must have occurred within one year and threatened dislocations must be anticipated to occur within two years of the date EDA is contacted.

Special Application Procedures

As described in EDA's **Federal Register** Notice of Availability of Funds, proposals will be evaluated by EDA based on conformance with statutory and regulatory requirements, the economic adjustment needs of the area, the merits of the proposed project in addressing those needs and the potential applicant's ability to manage the grant effectively. Defense related proposals deemed eligible for economic adjustment assistance authorized under Division D of Public Law 101-510, will be forwarded to the DOD Office of Economic Adjustment (OEA) DOD for concurrence to invite a formal application.

DOD OEA concurrence will also be requested by EDA immediately prior to making an award decision.

Proposal Submission Procedures

Proposals for economic adjustment assistance authorized under section 4103 (a) of Division D of Public Law 101-510, will be submitted to EDA. Interested parties should contact the Economic Development Representative for the area or the appropriate EDA regional office (see section XI, of part IV, of the February 4, 1992, **Federal Register** Notice, 57 FR 4294) for a proposal package. Project proposals, submitted by eligible entities, will be evaluated by EDA staff on the basis of:

A. Conformance with the evaluation criteria mentioned above (57 FR 4294) and statutory, regulatory and policy requirements; and

B. The availability of funds.

Formal Application Procedures

Upon obtaining OEA's concurrence, EDA will invite the eligible applicant to submit a formal grant application for economic adjustment assistance. The formal application will include an ED-540, as approved by the Office of Management and Budget Control No. 0610-0058.

Dated: March 4, 1992.

L. Joyce Hampers,

Assistant Secretary for Economic Development.

BILLING CODE 3510-24-M

federal register

Tuesday
March 10, 1992

Part IV

Department of Education

Special Projects and Demonstrations for Providing Services to Individuals With Severe Handicaps; Notice of Final Priorities for Fiscal Year 1992

DEPARTMENT OF EDUCATION

Special Projects and Demonstrations for Providing Vocational Rehabilitation Services to Individuals With Severe Handicaps

AGENCY: Department of Education.

ACTION: Notice of final priorities for fiscal year 1992.

SUMMARY: The Secretary announces priorities for fiscal year 1992 under the program of Special Projects and Demonstrations for Providing Vocational Rehabilitation Services to Individuals with Severe Handicaps. The Secretary takes this action to focus Federal financial assistance on areas of identified national need. These priorities are intended to expand or improve vocational rehabilitation services to the following underserved disability groups—(1) individuals with specific learning disabilities living in rural or remote areas; (2) individuals with chronic, progressive diseases, including HIV/AIDS, cancer, and multiple sclerosis; and (3) individuals with traumatic brain injuries.

EFFECTIVE DATE: These priorities take effect either 45 days after publication in the **Federal Register** or later if the Congress takes certain adjournments. If you want to know the effective date of these priorities, call or write the Department of Education contact person.

FOR FURTHER INFORMATION CONTACT: Richard P. Melia, Ph.D., U.S. Department of Education, 400 Maryland Avenue, SW. (room 3324—Switzer Building), Washington, DC 20202–2649. Telephone: (202) 732–1494. Deaf and hearing impaired individuals may call the Federal Dual Party Relay Service at 1–800–877–8339 (in the Washington, DC 202 area code, telephone 708–9300) between 8 a.m. and 7 p.m., Eastern time.

SUPPLEMENTARY INFORMATION: Grants under the program of Special Projects and Demonstrations for Providing Vocational Rehabilitation Services to Individuals with Severe Handicaps are authorized by title III, section 311(a)(1) of the Rehabilitation Act of 1973, as amended. The purpose of this program is to authorize grants for special projects and demonstrations that hold promise of expanding or otherwise improving rehabilitation services to individuals with severe handicaps. This program, as well as the final priorities selected for this fiscal year, support AMERICA 2000, the President's strategy for helping the nation move toward achievement of the National Education Goals. These priorities, by encouraging the development of vocational rehabilitation strategies designed to increase the vocational potential of individuals with handicaps, support national education goal five that calls for every adult American to possess the knowledge and skills necessary to compete in a global economy and exercise the rights and responsibilities of citizenship. They also support AMERICA 2000's call for transforming America into "A Nation of Students."

On September 17, 1991, the Secretary published a notice of proposed priorities for this program in the **Federal Register** (56 FR 47118).

Note: This notice of final priorities does not solicit applications. A notice inviting applications under these competitions is published in a separate notice in this issue of the **Federal Register.**

Analysis of Comments and Changes

In response to the Secretary's invitation in the notice of proposed priorities, 10 parties submitted comments. An analysis of the comments and of the changes in the priorities since publication of the notice of proposed priorities follows. Technical and other minor changes—and suggested changes the Secretary is not legally authorized to make under the applicable statutory authority—are not addressed.

Absolute Priority 1—Special Projects and Demonstrations for Providing Vocational Rehabilitation Services to Individuals With Specific Learning Disabilities Residing in Rural or Remote Areas

Comments: One commenter questioned the inclusion of specific learning disabilities in this priority for the following reasons: (1) Many individuals with specific learning disabilities do not meet the Federal definition of "individuals with severe handicaps." (2) Learning disabilities have been the focus of much research sponsored by the educational system. (3) The great majority of severe learning disability problems should have been diagnosed, treated, and remediated prior to graduation from high school.

Discussion: The Secretary notes that specific learning disabilities are included among the physical or mental disabilities listed within the statutory and regulatory definitions of "individual with severe handicaps." Thus, persons whose specific learning disabilities seriously limit one or more functional capacities (mobility, communication, self-care, self-direction, interpersonal skills, work tolerance, or work skills) in terms of employability and whose vocational rehabilitation can be expected to require multiple vocational rehabilitation services over an extended period of time meet the Federal definition for "individual with severe handicaps." Further, applications that propose to serve individuals other than those classified as individuals with severe learning disabilities will not be funded through this priority.

The Secretary agrees that extensive educational research has focused on children and youth with learning disabilities and methods for overcoming their educational handicaps. The Secretary notes that persons with severe learning disabilities frequently exhibit neurologically based deficits in attention, reasoning, processing, memory, communication, coordination, social competency, and emotional maturity that have greater adverse impact on employability than poor academic performance. The Secretary believes that more attention should be focused on the development of effective strategies to overcome the impact of the non-academic deficits of learning disabilities on employment.

The Secretary acknowledges that persons with severe learning disabilities who graduate from high school should have received treatment or remediation for the academic aspects of their disability. The Secretary further notes that persons with learning disabilities drop out of high school at a high rate, suggesting that even the academic deficits associated with their disability may not have been fully addressed.

Changes: None.

Comments: One commenter suggested that the resource network to be developed by projects funded under this priority should link vocational rehabilitation personnel not only to special education personnel, if appropriate, but also to non-traditional service providers such as adult education programs, employer-specific assessment and training programs, and employment training programs under the Job Training Partnership Act. The commenter further suggested that the language of the priority should encourage the use of technology as a technique to augment service delivery in areas where limited demand may not support full-time staff.

Discussion: The Secretary agrees that expertise in working with adults who have learning disabilities can be found in a wide variety of resources. It is the Secretary's intent that projects funded under this priority develop a network with one or more existing service providers that are the repository of appropriate expertise. The Secretary also agrees that appropriate use of technology is within the intent of this priority.

Changes: The language of the priority has been modified to clarify that resource networks developed under this priority must include any resource with personnel who have the capacity to diagnose, assess, and rehabilitate adults with specific learning disabilities. The Secretary does not believe, however, that the priority as written precludes or discourages the appropriate use of technology by projects funded under this program.

Absolute Priority 2—Special Projects and Demonstrations to Enhance Rehabilitation Service Delivery to Individuals With Chronic, Progressive Diseases

Comments: One commenter suggested that, in addition to services that assist to maintain placement, coordination planning among vocational rehabilitation counselors, individuals with chronic or progressive diseases, and their health care providers should be emphasized in this priority.

Discussion: The Secretary recognizes the acute need for effective coordination of effort among consumers and the professionals who work with them. The Secretary does not believe, however, that the priority as written precludes or discourages the provision of that coordination by potential applicants.

Changes: None.

Absolute Priority 3—Special Projects and Demonstrations to Develop Innovative Strategies Focusing on Transferability of Job Skills to Serve Individuals With Traumatic Brain Injuries

Comments: One commenter suggested that the traumatic brain injury (TBI) priority emphasize a supported employment approach based on behavioral modification and development of strong psychosocial networks, first in a pre-vocational environment, then in the workplace, to return more clients to productive employment.

Discussion: The priority does not preclude use of the methods suggested as part of a model demonstration project designed to identify post-injury residual job skills and develop appropriate job training methods. To the extent that behavioral modification and psychosocial techniques can be identified by an applicant as validated and emerging strategies and interventions to promote generalization and transferability of job skills in training and placement of individuals with TBI, those approaches would be appropriate for a project under this priority.

Changes: None.

Comments: One commenter suggested that additional focus be placed on increasing the level of employment, rather than demonstrating generalization of job skills, for persons who have experienced a traumatic brain injury.

Discussion: The goal of the proposed priority is an increased level of employment of persons who have experienced traumatic brain injury. The Secretary believes that generalization and transferability of job skills, techniques that receive too little attention, are important means for accomplishing this goal.

Changes: None.

Comments: One commenter suggested that it is essential to identify all transferable skills (e.g., interpersonal, cognitive, organizational) in order to build career options and potentials. Equally important, suggested the commenter, are support systems in the home and community. The commenter suggested that a "holistic approach" should be emphasized in the priority.

Discussion: The Secretary agrees that the complexity of traumatic brain injury necessitates a full range of services for successful interventions. Although the priority focuses specifically on skills training, it is not the Secretary's intent to preclude projects from considering any related issues that need to be addressed for successful rehabilitation of this disability population.

Changes: None.

Priorities

Under 34 CFR 75.105(c)(3) the Secretary gives an absolute preference to applications that meet one of the following priorities. The Secretary funds under these competitions only applications that meet one of these absolute priorities:

Absolute Priority 1—Special Projects and Demonstrations for Providing Vocational Rehabilitation Services to Individuals With Specific Learning Disabilities Residing in Rural or Remote Areas

Background

Estimates based on the 1980 Census suggest that between 25 percent and 35 percent of Americans live in rural areas and that nearly 13 percent of these individuals have a disabling condition ("Rural Rehabilitation: Its Time Is Now," paper from the First National Conference of the Research and Training Center on Rural Rehabilitation Services, Page, 1989). According to the Research and Training Center on Rural Rehabilitation Services, service delivery to rural areas poses a number of challenges, including vast distances between consumers and service providers, a lower prevalence of any particular disability that precludes specialization in any one disability, and fewer qualified service providers. Thus, rural rehabilitation professionals may be required to travel extensively and to be more diversified than rehabilitation professionals in urban areas. Another challenge reported by rural rehabilitation personnel is the inability to communicate with each other and the lack of access to current information resources regarding the field of rehabilitation (Rehab Brief, Vol. II, No. 11, 1990).

State vocational rehabilitation agencies and counselors, adult education agencies, and others in rural and remote areas report that an ever-growing number of adults with specific learning disabilities (SLD) are unemployed and do not have access to appropriate assessment and rehabilitative services. Studies suggest that in rural States, 45 to 60 percent of adults with learning disabilities are unemployed and in need of rehabilitative services (Project PERT: Postsecondary Education/Rehabilitation Transition for the Mildly Retarded and the Learning Disabled, Woodrow Wilson Rehabilitation Center, 1985). Similar findings were generated by the 1989 Berkeley Planning Associates study on "Evaluation of Services Provided for Individuals With Specific Learning Disabilities." The study found that lack of assessment resources was a major barrier to serving rural learning disabled clients; that psychologists were too far away to be available for assessment; that specialization of counselors was not feasible in rural or remote areas; and that not only were resources for SLD lacking in rural areas, but that available service providers were not knowledgeable about SLD and the accommodations needed for that disability.

Research projects funded by the National Institute on Disability and Rehabilitation Research cite models for developing linkage systems among service providers, consumers, and resource specialists who are great distances from one another. These projects, described in Rehab Brief, Vol. II, No. 11, 1990, include development of a national rural independent living network; application of technological advances to benefit physically disabled agricultural workers; use of telecommunications technology to disseminate job accommodation information to consumers and service providers in remote, isolated areas; and

development of personal computer software that allows rural rehabilitation counselors to access current information, transfer files, and automate recordkeeping. A review of a bibliography of rural rehabilitation project literature produced by the Research and Training Center on Rural Rehabilitation Services reveals that projects are being conducted for a variety of disability groups, but none are related to individuals with SLD. For example, a study conducted in a rural western State of high school seniors in self-contained or resource room special education programs who graduated in 1988 indicates that of those students with SLD who might have benefitted from employment-related activities and experiences, only 21 percent received those services, compared to 75 percent of students with mental retardation who received employment-related services. ("The Demographic Study of Supported Employment in Montana," Project Director Richard Offner, Nov., 1988, Montana Supported Employment Demonstration Project, in conjunction with the Montana University Affiliated Programs and Research and Training Center on Rural Rehabilitation Services.)

Priority

Projects funded under this priority must be model demonstration projects designed to enhance the delivery of rehabilitation services to adults with SLD who reside in rural areas, including remote areas accessible only by special means of transportation or during specific seasons. Projects responding to this priority must develop a resource network that links rural vocational rehabilitation personnel to existing service providers who have the capacity to diagnose, assess, and rehabilitate adults with SLD, including, if appropriate, professionals from the fields of special education, adult education, vocational education, postsecondary education, or any other knowledgeable resource. The development of a resource network must incorporate appropriate local community resources. Projects developed under this priority must, if appropriate, incorporate the use of technology necessary to implement the resource network.

In accordance with the selection criteria in 34 CFR 369.31(d) and 34 CFR 373.30(d), an applicant shall provide an evaluation plan for the project showing methods of evaluation that, to the extent possible, are objective and produce data that are quantifiable. Under 34 CFR 373.30(i)(2), the applicant shall provide information that shows the potential for project findings to be effectively utilized within the State vocational rehabilitation service system and the likelihood of the project activities being successfully replicated in other locations. The project must widely disseminate the practices and materials it develops to facilitate the capacity of other agencies and facilities to provide improved services individuals with SLD living in rural or remote areas.

Absolute Priority 2—Special Projects and Demonstrations to Enhance Rehabilitation Service Delivery to Individuals with Chronic, Progressive Diseases

Background

Chronic, progressive diseases present a challenge to both the medical community and the field of rehabilitation. The first phase after the diagnosis of a chronic disease is medical intervention. In the next phase, attention should be directed toward disabilities that result from the illness to develop a link between medical diagnosis and the assessment of potential functional limitations. During this second phase, rehabilitation interventions should be planned, implemented, and evaluated. The third phase involves long-term management of the illness to ensure the best level of functioning for the individual despite conditions that are likely to remain chronic or progressive (Rehab Brief, Vol. XIII, No. 1, 1990). This is the phase in which rehabilitation efforts fail since most service delivery models are time-limited and do not provide for interventions after case closure.

For example, there are several phases with regard to human immunodeficiency virus (HIV) infection (New England Journal of Medicine, Vol. 321, No. 24, 1989). In early phases, during the onset of infection, an individual may not yet exhibit any functional limitations for which vocational rehabilitation services would be appropriate. However, by the middle (chronic) phases of the infection, the individual may exhibit significant functional limitations due to malaise, fatigue, and lymphadenopathy; in addition, the symptoms and duration of normally minor infectious diseases or infections may be exacerbated by the underlying HIV infection. During this time, vocational rehabilitation service may be of benefit in terms of employability. Chronic phases can last for months or years. In the last phases of this disease, the HIV infection has progressed to acquired immunodeficiency syndrome (AIDS), which can also last from months to years depending at least in part on the efficacy and availability of treatment. During this time, visual and mental disabilities may occur and present significant new functional limitations that impact on the person's ability to perform his or her current job. Therefore, if the individual's case was closed as rehabilitated during the chronic phases of HIV infection, additional vocational rehabilitation interventions may be needed if the disease progresses to AIDS and new functional limitations occur.

The 1986 amendments to the Rehabilitation Act of 1973 broadened the definition of post-employment services to include follow-up, follow-along, and specific services necessary to assist individuals to maintain or regain employment. In addition, requirements for the Individualized Written Rehabilitation Program (IWRP) were strengthened to require that the IWRP developed for each eligible individual provide for an assessment of the expected need for post-employment services prior to the closing of the case. Innovative service delivery models need to be developed that build upon these requirements and provide appropriate post-employment interventions for individuals with chronic, progressive diseases.

Priority

Projects funded under this priority must be model demonstration projects designed to enhance the delivery of rehabilitation services to individuals with chronic, progressive diseases, including HIV/AIDS, cancer, and multiple sclerosis, who are frequently not provided appropriate services in the rehabilitation system because of the changing and progressive nature of their disabilities. This priority proposes to improve the delivery of vocational and other rehabilitation services to these individuals through the development of demonstration models that focus on post-employment intervention.

Projects responding to this priority must include service delivery models to provide appropriate follow-up, follow-along, and post-employment services to assist individuals with chronic, progressive diseases to maintain or regain employment. Projects must address the changing rehabilitation needs of individuals with chronic, progressive diseases and develop strategies to adapt and modify rehabilitation plans that respond to the progressive nature of the disability.
